

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 514
(Harris County, Texas)

PRELIMINARY OFFICIAL STATEMENT
DATED: OCTOBER 14, 2025

\$3,000,000
UNLIMITED TAX ROAD BONDS
SERIES 2025

BIDS TO BE SUBMITTED BY: 9:30 A.M., CENTRAL TIME
TUESDAY, OCTOBER 21, 2025

BONDS TO BE AWARDED: 12:00 P.M., CENTRAL TIME
TUESDAY, OCTOBER 21, 2025

Financial Advisor

PRELIMINARY OFFICIAL STATEMENT DATED OCTOBER 14, 2025

This Preliminary Official Statement is subject to completion and amendment, as provided in the Official Notice of Sale, and is intended for the solicitation of initial bids to purchase the Bonds (hereinafter defined). Upon the sale of the Bonds, the Official Statement will be completed and delivered to the Initial Purchaser (hereinafter defined).

IN THE OPINION OF BOND COUNSEL, THE BONDS ARE VALID OBLIGATIONS OF HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 514, AND INTEREST ON THE BONDS IS EXCLUDABLE FROM GROSS INCOME FOR PURPOSES OF FEDERAL INCOME TAXATION UNDER STATUTES, REGULATIONS, PUBLISHED RULINGS, AND COURT DECISIONS EXISTING ON THE DATE OF SUCH OPINION SUBJECT TO THE MATTERS DESCRIBED UNDER “LEGAL MATTERS” HEREIN, INCLUDING THE ALTERNATIVE MINIMUM TAX ON CERTAIN CORPORATIONS. SEE “LEGAL MATTERS” HEREIN FOR A DISCUSSION OF THE OPINION OF BOND COUNSEL.

The Bonds will be designated as “qualified tax-exempt obligations” for financial institutions. See “LEGAL MATTERS—Qualified Tax-Exempt Obligations.”

NEW ISSUE—Book Entry Only

\$3,000,000

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 514

(A Political Subdivision of the State of Texas located within Harris County)

UNLIMITED TAX ROAD BONDS

SERIES 2025

Dated Date: November 1, 2025

Interest accrues from: Date of Delivery

Due: September 1, as shown on inside cover

The \$3,000,000 Unlimited Tax Road Bonds, Series 2025 (the “Bonds”), are obligations of Harris County Municipal Utility District No. 514 (the “District”) and are not obligations of the State of Texas; Harris County, Texas; the City of Houston, Texas; or any entity other than the District.

Principal of the Bonds is payable at maturity or earlier redemption by the paying agent/registrar, initially, BOKF, NA, Dallas, Texas (the “Paying Agent/Registrar”). The Bonds are dated November 1, 2025 (the “Dated Date”) and interest accrues from the initial date of delivery (expected on or about November 25, 2025) (the “Date of Delivery”), and is payable on March 1, 2026, and on each September 1 and March 1 thereafter (each an “Interest Payment Date”) until the earlier of maturity or redemption, and will be calculated on the basis a 360-day year consisting of twelve 30-day months. The Bonds are fully registered bonds in principal denominations of \$5,000 or any integral multiple thereof. See “THE BONDS” herein.

The Bonds will be registered and delivered only in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York (“DTC”), which will act as securities depository for the Bonds. Beneficial Owners (as defined herein under “BOOK-ENTRY-ONLY SYSTEM”) of the Bonds will not receive physical certificates representing the Bonds, but will receive a credit balance on the books of the DTC participants. So long as Cede & Co. is the registered owner of the Bonds, the principal of and interest on the Bonds will be paid by the Paying Agent/Registrar directly to DTC, which will, in turn, remit such principal and interest to its participants for subsequent disbursement to the Beneficial Owners. See “BOOK-ENTRY-ONLY SYSTEM.”

See “MATURITIES, PRINCIPAL AMOUNTS, INTEREST RATES, AND INITIAL REOFFERING YIELDS” on inside cover.

The Bonds, when issued, will constitute valid and legally binding obligations of the District and will be payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District, as further described herein. See “THE BONDS—Source and Security for Payment.”

Investment in the Bonds is subject to special risk factors as described herein. Prospective purchasers of the Bonds should review this entire Official Statement, including particularly the section of this Official Statement entitled “RISK FACTORS,” before making an investment decision. See “RISK FACTORS.”

The Bonds are offered when, as and if issued by the District, subject, among other things, to the approval of the Bonds by the Attorney General of Texas and the approval of certain legal matters by Schwartz, Page & Harding, L.L.P., Houston, Texas, Bond Counsel. Delivery of the Bonds in book-entry form through DTC is expected on or about November 25, 2025.

- (a) The initial reoffering yields on the Bonds are established by, and are the sole responsibility of, the Initial Purchaser (defined herein) and may subsequently be changed.
- (b) CUSIP numbers will be assigned to the Bonds by CUSIP Global Services, managed by FactSet Research Systems Inc. on behalf of the American Bankers Association and will be included solely for the convenience of the owners of the Bonds.
- (c) The Bonds maturing on and after September 1, 2032, are subject to redemption prior to maturity at the option of the District, in whole or from time to time in part, on September 1, 2031, or any date thereafter, at a price equal to the principal thereof plus accrued interest to the date fixed for redemption. See "THE BONDS—Redemption Provisions."

USE OF INFORMATION IN OFFICIAL STATEMENT

For purposes of compliance with Rule 15c2-12 of the United States Securities Exchange Commission, as amended ("Rule 15c2-12"), and in effect on the date of this Preliminary Official Statement, this document constitutes an "official statement" of the District with respect to the Bonds that has been deemed "final" by the District as of its date except for the omission of no more than information permitted by Rule 15c2-12.

This document, when further supplemented by adding additional information specifying the interest rates and certain other information relating to the Bonds, shall constitute a "final official statement" of the District with respect to the Bonds, as such term is defined in Rule 15c2-12.

No dealer, broker, salesman or other person has been authorized to give any information or to make any representations other than those contained in this Official Statement and, if given or made, such other information or representations must not be relied upon as having been authorized by the District.

This Official Statement does not constitute, and is not authorized by the District for use in connection with, an offer to sell or the solicitation of any offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

All of the summaries of the statutes, resolutions, contracts, audited financial statements, engineering and other related reports set forth in this Official Statement are made subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents, copies of which are available from the District c/o Schwartz, Page & Harding, L.L.P., 1300 Post Oak Boulevard, Suite 2400, Houston, Texas 77056 upon payment of the costs for duplication thereof.

This Official Statement contains, in part, estimates, assumptions, and matters of opinion which are not intended as statements of fact, and no representation is made as to the correctness of such estimates, assumptions, or matters of opinion, or that they will be realized. Any information and expressions of opinion herein contained are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. However, the District has agreed to keep this Official Statement current by amendment or sticker to reflect material changes in the affairs of the District and, to the extent that information actually comes to its attention, the other matters described in the Official Statement until delivery of the Bonds to the Initial Purchaser, and thereafter only as specified in "GENERAL CONSIDERATIONS—Updating of Official Statement."

References to web site addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such web sites and the information or links contained therein are not incorporated into, and are not part of, this Official Statement.

SALE AND DISTRIBUTION OF THE BONDS

Award and Marketing of the Bonds

After requesting competitive bids for the Bonds, the District has accepted the lowest bid, which was tendered by _____ (referred to herein as the "Initial Purchaser"). The Initial Purchaser has agreed to purchase the Bonds, bearing the interest rates on the inside cover page of this Official Statement, at a price of _____% of the principal amount thereof, which resulted in a net effective interest rate of _____%, calculated pursuant to Chapter 1204, Texas Government Code, as amended.

Prices and Marketability

Other than as set forth in the Official Notice of Sale, the District has no control over the reoffering yields or prices of the Bonds or over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked prices of the Bonds may be greater than the difference between the bid and asked prices of bonds of comparable maturity and quality issued by more traditional municipal entities, as bonds of such entities are more generally bought, sold or traded in the secondary market.

The delivery of the Bonds is conditioned upon the receipt by the District of a certificate executed and delivered by the Initial Purchaser on or before the Date of Delivery of the Bonds stating the prices at which a substantial amount of the Bonds of each maturity has been sold to the public. For this purpose, the term "public" shall not include any person who is a bond house, broker, or similar person acting in the capacity of Initial Purchaser or wholesaler. Other than as set forth in the Official Notice of Sale, the District has no understanding with the Initial Purchaser regarding the reoffering yields or prices of the Bonds. Information concerning reoffering yields or prices is the responsibility of the Initial Purchaser.

The prices and other terms with respect to the offering and sale of the Bonds may be changed from time-to-time by the Initial Purchaser after the Bonds are released for sale, and the Bonds may be offered and sold at prices other than the initial reoffering prices, including sales to dealers who may sell the Bonds into investment accounts. IN CONNECTION WITH THE OFFERING OF THE BONDS, THE INITIAL PURCHASER MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICES OF THE BONDS AT LEVELS ABOVE THOSE WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

Securities Laws

No registration statement relating to the Bonds has been filed with the United States Securities and Exchange Commission under the Securities Act of 1933, as amended, in reliance upon exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein; nor have the Bonds been registered or qualified under the securities acts of any other jurisdictions. The District assumes no responsibility for registration or qualification of the Bonds under the securities laws of any jurisdiction in which the Bonds may be offered, sold, or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds should not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions in such other jurisdictions.

MUNICIPAL BOND INSURANCE

The District has made application to Build America Mutual Assurance Company and Assured Guaranty Inc. for commitments to provide municipal bond guaranty insurance on the Bonds. The purchase of such insurance, if available, will be at the option and expense of the Initial Purchaser.

MUNICIPAL BOND RATING

The District has not made an application to a municipal rating company for a rating on the Bonds, nor is it expected that the District would have been successful in receiving an investment-grade rating on the Bonds had such application been made.

OFFICIAL STATEMENT SUMMARY

The following material is a summary of certain information contained herein and is qualified in its entirety by the more detailed information and financial statements appearing elsewhere in this Official Statement.

THE BONDS

The District.....	Harris County Municipal Utility District No. 514 (the “District”), a political subdivision of the State of Texas, is located in Harris County, Texas. See “THE DISTRICT.”
The Bonds.....	The District is issuing its \$3,000,000 Unlimited Tax Road Bonds, Series 2025 (the “Bonds”). The Bonds are dated November 1, 2025, and mature on September 1 in each of the years and in the principal amounts set forth on the inside cover hereof. Interest on the Bonds accrues from the initial date of delivery (expected on or about November 25, 2025) (the “Date of Delivery”), and is payable March 1, 2026, and on each September 1 and March 1 thereafter until maturity or prior redemption. See “THE BONDS.”
Redemption.....	The Bonds that mature on and after September 1, 2032, are subject to redemption prior to maturity at the option of the District, in whole or from time to time in part, on September 1, 2031, or on any date thereafter, at the principal amount thereof plus accrued interest thereon to the date fixed for redemption. See “THE BONDS—Redemption Provisions.”
Book-Entry-Only System.....	The Bonds will be initially registered and delivered only to Cede & Co., the nominee of The Depository Trust Company, New York, New York (“DTC”), pursuant to the Book-Entry-Only System described herein. Beneficial ownership of the Bonds may be acquired in principal denominations of \$5,000 or integral multiples thereof. No physical delivery of the Bonds will be made to the Beneficial Owners (herein defined) thereof. Principal of and interest on the Bonds will be payable by the Paying Agent/Registrar (herein defined) to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the Beneficial Owners of the Bonds. See “BOOK-ENTRY-ONLY SYSTEM.”
Payment Record.....	The Bonds represent the District’s first issuance of bonded indebtedness.
Source of Payment	Principal of and interest on the Bonds are payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property located within the District. The Bonds are obligations solely of the District and are not obligations of the State of Texas; Harris County, Texas; the City of Houston, Texas; or any entity other than the District. See “THE BONDS—Source and Security for Payment.”
Authority for Issuance.....	The Bonds are issued pursuant to the terms and provisions of the Bond Order (hereinafter defined); Article III, Section 52 of the Texas Constitution and the general laws of the State of Texas, particularly Chapters 49 and 54 of the Texas Water Code, as amended; and an election held within the District described below.

At an election held within the District on May 6, 2023, voters of the District authorized the District’s issuance of an aggregate \$113,120,000 principal amount of unlimited tax bonds for the

purpose of constructing or acquiring a road system serving the District (the “Road System”). The Bonds represent the District’s first issuance of unlimited tax bonds from such voted authorization. See “THE BONDS—Authority for Issuance.”

Use of Bond Proceeds	Proceeds from the sale of the Bonds will be used to reimburse the Developer (as defined herein) for costs related to the road improvements and related costs shown under “USE AND DISTRIBUTION OF BOND PROCEEDS.” Additionally, proceeds from the sale of the Bonds will be used to pay eighteen (18) months of capitalized interest on the Bonds, developer interest, and costs associated with the issuance of the Bonds. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”
Qualified Tax-Exempt Obligations	The District will designate the Bonds as “qualified tax-exempt obligations” pursuant to Section 265(b) of the Internal Revenue Code of 1986, as amended. See “LEGAL MATTERS—Qualified Tax-Exempt Obligations.”
Municipal Bond Insurance	The District has made applications. for commitments to provide municipal bond guaranty insurance on the Bonds. The purchase of such insurance, if available, will be at the option and expense of the Initial Purchaser. See “MUNICIPAL BOND INSURANCE” above.
Rating.....	The District has not made an application to a municipal rating company for a rating on the Bonds, nor is it expected that the District would have been successful in receiving an investment-grade rating on the Bonds had such application been made. See “MUNICIPAL BOND RATING.”
Bond Counsel	Schwartz, Page & Harding, L.L.P., Houston, Texas.
Disclosure Counsel	McCall, Parkhurst & Horton L.L.P., Houston, Texas.
Financial Advisor	Robert W. Baird & Co. Incorporated, Houston, Texas.
Paying Agent/Registrar	BOKF, NA, Dallas, Texas.

THE DISTRICT

Description.....	<p>The District was created by order of the Texas Commission on Environmental Quality (“TCEQ”) dated November 2, 2009, and operates pursuant to Chapters 49 and 54 of the Texas Water Code and the general laws of the State of Texas applicable to municipal utility districts. The District includes approximately 928.8 acres of land.</p> <p>The District is situated in northeastern Harris County, Texas, and is located approximately 30 miles northeast of the central downtown business district of the City of Houston, Texas. The District lies wholly within the extraterritorial jurisdiction of the City of Houston, Texas (the “City”) and wholly within the boundaries of the Huffman Independent School District. The District is bounded on the west by the East Fork of the San Jacinto River, on the south by residential development, on the east by Huffman Cleveland Road, and on the north by Northwood Country Road, which is the primary access road to the District. See “THE DISTRICT.”</p>
Authority	The rights, powers, privileges, authority, and functions of the District are established by Article XVI, Section 59, and Article III,

Section 52 of the Constitution of the State of Texas, and the general laws of the State of Texas pertaining to municipal utility districts, including particularly Chapters 49 and 54 of the Texas Water Code, as amended. See “THE DISTRICT.”

Status of Development.....Land within the District is being developed as the master-planned community known as “Sila.” Completed residential development currently consists of approximately 460 single-family lots that have been developed within the following three (3) subdivisions that encompass a total of approximately 85.3 acres: Sila, Sections 1–3.

As of October 10, 2025, according to Lennar Homes (defined herein), approximately 2 homes were completed, approximately 128 homes were under construction (14 of which were under contract for sale), and approximately 330 developed lots were vacant and available for home construction.

In addition, the following two (2) subdivisions (encompassing a total of approximately 41.7 acres) are currently under construction: Sila, Section 5, and Sila, Section 8. Upon expected completion of such subdivisions in the fourth quarter of 2025, the District will include an additional 212 single-family lots available for new home construction.

The remainder of the land in the District is made up of approximately 16.9 acres for collector roads and adjacent reserves, approximately 3.4 acres for a site for the District’s water plant, approximately 7.3 acres for a site for the District’s wastewater treatment plant, approximately 68.8 acres for drainage/detention reserves, approximately 389.3 acres for other undevelopable lands, and approximately 316.1 acres that are planned for future development. See “STATUS OF DEVELOPMENT.”

The Developer/Principal Landowners.....The developer of land within the District is Lennar Homes of Texas Land and Construction, LTD., a Texas limited partnership, doing business as Friendswood Development Company (“Lennar Homes” or the “Developer”). The General Partner of Lennar Homes is U.S. Home, LLC, a Delaware limited liability company, which is wholly owned by Lennar Corporation. Lennar Corporation is a publicly traded corporation whose stock is listed on the New York Stock Exchange under the ticker symbol “LEN.” Lennar Corporation’s activities include homebuilding, real estate investments, residential and commercial developments, and financial services operations throughout the United States.

In 2024, the Developer sold approximately 296.6 acres in the District to TPG AG EHC III (LEN) Multi State I, LLC, a Delaware limited liability company (“TPG”). The Developer manages the development of the lots within the District for TPG and has retained the right to reimbursement of the public infrastructure constructed on such acreage. TPG serves as a land bank for Lennar Homes and acquired such 296.6 acres for the purpose of owning and holding single-family lots and sells developed lots to Lennar Homes as needed for homebuilding. The three residential subdivisions completed to date, Sila, Sections 1–3, which include a total of 460 lots, have been developed within such 296.6 acres. As of October 10,

2025, Lennar Homes has acquired 330 developed single-family lots in such subdivisions.

Millrose Properties Texas, LLC, a Texas limited liability company ("Millrose"), is the owner of approximately 265.2 acres in the District. The Developer manages the development of the lots within the District for Millrose and has retained the right to reimbursement of the public infrastructure constructed on such acreage. Millrose serves as a land bank for Lennar Homes and acquired such 265.2 acres for the purpose of owning and holding single-family lots and is anticipated to sell developed lots to Lennar Homes as needed for homebuilding. See "THE DEVELOPER/PRINCIPAL LANDOWNERS."

Homebuilding Lennar Homes is the sole homebuilder in the District. New homes being constructed in the District range in price from approximately \$150,000 to \$335,000 and in size from approximately 1,010 to 2,530 square feet. See "STATUS OF DEVELOPMENT—Homebuilder Active within the District."

RISK FACTORS

THE BONDS ARE SUBJECT TO CERTAIN RISK FACTORS. PROSPECTIVE PURCHASERS SHOULD REVIEW THIS ENTIRE OFFICIAL STATEMENT, INCLUDING PARTICULARLY THE SECTION OF THIS OFFICIAL STATEMENT ENTITLED "RISK FACTORS," BEFORE MAKING AN INVESTMENT DECISION.

- (a) Represents the taxable assessed valuation of all taxable property in the District as of January 1, 2025, as certified by the Harris Central Appraisal District. See "TAX DATA" and "TAXING PROCEDURES."
- (b) Provided by the Harris Central Appraisal District for informational purposes only, this amount is an estimate of the taxable value of all taxable property located within the District as of September 1, 2025, and includes an estimate of additional taxable value resulting from the construction of taxable improvements from January 1, 2025 through September 1, 2025. No taxes will be levied on this estimated value. See "TAX DATA" and "TAXING PROCEDURES."
- (c) See "DISTRICT DEBT—Direct and Estimated Overlapping Debt Statement."
- (d) Represents an estimate of eighteen (18) months of capitalized interest to be deposited into the Bond Fund (defined herein) upon closing of the Bonds. Neither Texas law nor the Bond Order (defined herein) requires that the District maintain any particular sum in the Bond Fund.
- (e) See "RISK FACTORS—Operating Funds."
- (f) For the 2025 tax year, the District has authorized publication of notice of its proposed total tax rate of \$1.50 per \$100 of assessed valuation.
- (g) Debt service on the Bonds is estimated assuming an interest rate of 5.00%. See "DISTRICT DEBT—Debt Service Requirements."

OFFICIAL STATEMENT
HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 514

\$3,000,000
UNLIMITED TAX ROAD BONDS
SERIES 2025

INTRODUCTION

This Official Statement provides certain information in connection with the issuance by Harris County Municipal Utility District No. 514 (the “District”) of its \$3,000,000 Unlimited Tax Road Bonds, Series 2025 (the “Bonds”).

The Bonds are issued by the District pursuant to the terms and conditions of an order authorizing the issuance of the Bonds (the “Bond Order”) adopted by the Board of Directors of the District on the date of sale of the Bonds, Article III, Section 52 of the Texas Constitution, Chapters 49 and 54 of the Texas Water Code, as amended, the general laws of the State of Texas, and an election held within the District on May 6, 2023.

Unless otherwise indicated, capitalized terms used in this Official Statement have the same meaning assigned to such terms in the Bond Order. This Official Statement also includes information about the District, the Developer (herein defined) and certain reports and other statistical data. The summaries and references to all documents, statutes, reports and other instruments referred to herein do not purport to be complete, comprehensive or definitive and each summary and reference is qualified in its entirety by reference to each such document, statute, report, or instrument.

RISK FACTORS

General

The Bonds are obligations solely of the District and are not obligations of the State of Texas; Harris County, Texas; the City of Houston, Texas (the “City”); or any political subdivision or entity other than the District. The Bonds are secured by the levy of an annual ad valorem tax, without legal limitation as to rate or amount, levied by the District on all taxable property located within the District. See “THE BONDS—Source and Security for Payment.” The ultimate security for payment of the principal of and interest on the Bonds depends upon the ability of the District to collect from the property owners within the District taxes levied against all taxable property located within the District or, in the event taxes are not collected and foreclosure proceedings are instituted by the District, upon the value of the taxable property with respect to taxes levied by the District and by other taxing authorities. The District makes no representations that over the life of the Bonds the property within the District will maintain a value sufficient to justify continued payment of taxes by the property owners. The potential increase in taxable valuation of District property is directly related to the economics of the residential housing and commercial retail industries, not only due to general economic conditions, but also due to the particular factors discussed below.

Factors Affecting Taxable Values and Tax Payments

Economic Factors and Construction of Improvements: The rate of development within the District is directly related to the general economic conditions and demand of the single-family housing and commercial retail industries in the Houston region. New construction can be significantly affected by factors such as interest rates, construction costs, and consumer demand. Decreased levels of such construction activity would restrict the growth of property values in the District.

Interest rates and the availability of mortgage and development funding have a direct impact on the construction activity, particularly short-term interest rates at which developers are able to obtain financing for development costs. Interest rate levels may affect the ability of a landowner with undeveloped property to undertake and complete construction activities within the District. Because of the numerous and changing factors affecting the availability of funds, the District is unable to assess the future availability of such funds for continued construction within the District. In addition, since the District is located approximately 30 miles from

the central downtown business district of the City of Houston, the success of development within the District and growth of District taxable property values are, to a great extent, a function of the Houston metropolitan and regional economies and the national financial and credit markets. A downturn in the economic conditions of Houston and the nation could adversely affect development and homebuilding plans in the District and restrain the growth or reduce the value of the District's property tax base.

Competition: The demand for and construction of taxable improvements in the District could be affected by competition from other developments near the District. In addition to competition for new single-family home sales from other developments, there are numerous previously owned single-family homes in more established commercial centers and neighborhoods. Such existing developments could represent additional competition for new development proposed to be constructed within the District. The competitive position of the Developer or the principal landowners in the sale of land, and the sale or leasing of residences is affected by most of the factors discussed in this section. Such a competitive position is directly related to the growth and maintenance of taxable values in the District and tax revenues to be received by the District. The District can give no assurance that building and marketing programs in the District by the Developer will be implemented or, if implemented, will be successful.

Many of the single-family developments with which the District competes are in a more developed state and have lower taxes. As a result, particularly during times of increased competition, the Developer within the District may be at a competitive disadvantage to the developers in other single-family projects located closer to major urban centers or in a more developed state. See "THE DISTRICT" and "STATUS OF DEVELOPMENT."

Developer's Obligations to the District: There is no commitment by or legal requirement of the Developer or any other landowner to the District to proceed at any particular rate or according to any specified plan with the development of land in the District, or of any homebuilder to proceed at any particular pace with the construction of homes in the District. Moreover, there is no restriction on any landowner's right to sell its land. Therefore, the District can make no representation about the probability of future development, if any, or the rate of future home construction activity in the District. Failure to construct taxable improvements on developed lots would restrict the rate of growth of taxable values in the District and result in higher tax rates. See "STATUS OF DEVELOPMENT" and "THE DEVELOPER."

Dependence on Principal Taxpayers and the Developer: For the 2025 tax year, the principal taxpayers in the District own properties that collectively represent approximately 99.999% of the District's total taxable assessed valuation as of January 1, 2025, in the amount of \$18,956,163. TPG AG EHC III (LEN) Multi State I LLC, a land-banking entity contracted with the Developer and the District's top taxpayer for the 2025 tax year, represents approximately 70.646% or \$13,391,728 of the District's total taxable assessed valuation as of January 1, 2025 of \$18,956,163. The Developer, which is the District's second top taxpayer for the 2025 tax year, represents approximately 17.755% or \$3,365,711 of the District's total taxable assessed valuation as of January 1, 2025 of \$18,956,163.

If the Developer, other principal taxpayers, or any combination of taxpayers were to default in the payment of taxes in an amount which exceeds the District's debt service fund surplus, the ability of the District to make timely payment of debt service on the Bonds would be dependent on its ability to enforce and liquidate its tax lien, which is a time-consuming process, or to sell tax anticipation notes. Failure to recover or borrow funds in a timely fashion could result in an excessive District tax rate, hindering growth and leading to further defaults in the payment of taxes. The District is not required by law or the Bond Order to maintain any specified amount of surplus in its debt service funds. See "TAX DATA—Principal Taxpayers" and "TAXING PROCEDURES—Levy and Collection of Taxes."

Maximum Impact on District Tax Rate: Assuming no further development or construction of taxable improvements, the value of the land and other taxable property currently within the District will be the major determinant of the ability or willingness of property owners in the District to pay their taxes. The District's taxable assessed valuation as of January 1, 2025, is \$18,956,163, and the estimated taxable assessed valuation as of September 1, 2025, is \$39,455,544. See "TAX DATA."

After issuance of the Bonds, the estimated maximum annual debt service requirement on the Bonds will be \$215,000 (2027), and the estimated average annual debt service requirement on the Bonds will be \$208,990 (2026–2051). Based on the District's taxable assessed valuation as of January 1, 2025, and no use of funds on

hand, a tax rate of \$1.20 per \$100 assessed valuation at a 95% collection rate would be necessary to pay the estimated maximum annual debt service requirement, and a tax rate of \$1.17 per \$100 assessed valuation at a 95% collection rate would be necessary to pay the estimated average annual debt service requirement. Based on the District's estimated taxable assessed valuation as of September 1, 2025, and no use of funds on hand, a tax rate of \$0.58 per \$100 assessed valuation at a 95% collection rate would be necessary to pay the estimated maximum annual debt service requirement, and a tax rate of \$0.56 per \$100 assessed valuation at a 95% collection rate would be necessary to pay the estimated average annual debt service requirement. See "DISTRICT DEBT—Debt Service Requirements" and "TAX DATA—Tax Rate Calculations."

The District can make no representation that the taxable property values in the District will increase in the future or will maintain a value sufficient to support the proposed District tax rate or to justify continued payment of taxes by property owners. Increases in the District's tax rate to rates substantially higher than the levels discussed above may have an adverse impact upon future development of the District, the sale and construction of property within the District, and the ability of the District to collect, and the willingness of owners of property located within the District to pay ad valorem taxes levied by the District.

Operating Funds

The District has previously relied on advances from the Developer to pay for operating expenses that the District's primary sources of revenue, maintenance taxes and revenue from water and wastewater services, were insufficient to fund. The District's general fund balance as of September 16, 2025, was \$87,221. The District levied a 2024 maintenance tax in the amount of \$1.50 per \$100 of taxable assessed valuation. Revenue from maintenance taxes and water and wastewater services may not be sufficient to offset the operating expenses of the District. Continued maintenance of a positive operating fund balance may depend upon (i) operating advances from the Developer, and (ii) continued development and increased amounts of revenue from maintenance taxes and water and wastewater services.

Vacant Developed Lots

Approximately 330 lots of the current 460 total developed lots in the District remain available for construction. Failure of the Developer to acquire and/or construct taxable improvements on developed lots could result in substantial increases in the rate of taxation by the District during the term of the Bonds to pay debt service on the Bonds and any other tax supported debt of the District issued in the future. Future increases in value will result primarily from the construction of new homes. The District makes no representation that the lot sales and building program will be successful.

Increase in Costs of Building Materials

As a result of supply issues, shipping constraints, and ongoing trade disputes (including tariffs), there have been recent substantial increases in the cost of lumber and other building materials, causing many homebuilders and general contractors to experience budget overruns. Further, the unpredictable nature of current trade policy (including the threatened imposition of tariffs) may impact the ability of the Developer or homebuilders in the District to estimate costs. Additionally, immigration policies may affect the State's workforce, and any labor shortages that could occur may impact the rate of construction within the District. Uncertainty surrounding availability and cost of materials may result in decreased levels of construction activity, and may restrict the growth of property values in the District. The District makes no representations regarding the probability of development or homebuilding continuing in a timely manner or the effects that current or future economic or governmental circumstances may have on any plans of the Developer or homebuilders.

Potential Effects of Oil Price Fluctuations on the Houston Area

The economy of the Houston area has, in the past, been particularly affected by adverse conditions in the oil and gas industry, and such conditions and their spillover effects into other industries could result in declines in the demand for residential and commercial property in the Houston area and could reduce or negatively affect property values within the District. The District cannot predict the impact that negative conditions in the oil industry could have on property values in the District.

Future Debt

At an election held within the District on May 6, 2023, voters of the District authorized the District's issuance of the following principal amounts of bonds: a total of a total of \$113,120,000 of unlimited tax bonds for the purpose of constructing or acquiring a road system serving the District (the "Road System"); \$368,200,000 of unlimited tax bonds for the purpose of acquiring or constructing a waterworks, sanitary sewer, and drainage system serving the District (the "Utility System"); a total of \$64,500,000 of unlimited tax bonds for the purpose of acquiring or constructing recreational facilities to serve the District (the "Park System"); \$113,120,000 principal amount of unlimited tax bonds for the purpose of refunding bonds issued by the District for the Road System; \$368,200,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Utility System; and \$64,500,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Park System.

The Bonds represent the District's first series of bonds to be issued out of the \$113,120,000 in authorized unlimited tax bonds for the purpose of constructing or acquiring the Road System. After the issuance of the Bonds, \$110,120,000 principal amount of unlimited tax bonds for constructing or acquiring the Road System, \$368,200,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Utility System, \$64,500,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Park System, \$113,120,000 principal amount of unlimited tax bonds for the purpose of refunding bonds issued by the District for the Road System, \$368,200,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Utility System, and \$64,500,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Park System will remain authorized but unissued.

All of the remaining bonds described above, which have heretofore been authorized by the voters of the District, may be issued by the District from time to time as needed. In the Bond Order, the District reserves the right to issue the remaining authorized but unissued bonds and such additional bonds as may hereafter be approved by the voters of the District.

The District's issuance of the remaining unlimited tax bonds for the Utility System and for the Park System shall be subject to approval by the Texas Commission on Environmental Quality (the "TCEQ"). The District's issuance of the bonds for the purpose of constructing or acquiring the Road System, is not currently subject to approval of the TCEQ, however.

According to the Developer, following the reimbursement with the proceeds of the Bonds, the District will owe the Developer approximately \$4,556,000 for its expenditures to construct the Road System, approximately \$32,968,000 for expenditures to construct the Utility System, and approximately \$1,250,000 for expenditures to construct the Park System. If additional bonds are issued in the future and property values have not increased proportionately, such issuance may increase gross debt-to-property-valuation ratios and thereby adversely affect the investment quality or security of the Bonds. See "THE BONDS—Issuance of Additional Debt."

Potential Impact of Natural Disaster

The District is located within 100 miles of the Texas Gulf Coast and, as it has in the past, could be impacted by wide-spread fires, earthquakes, or weather events such as hurricanes, tornadoes, tropical storms, or other severe weather events that could produce high winds, heavy rains, hail, and flooding. In the event that a natural disaster should damage or destroy improvements and personal property in the District, the assessed value of such taxable properties could be substantially reduced, resulting in a decrease in the taxable assessed valuation of the District or an increase in the District's tax rates.

There can be no assurance that a casualty will be covered by insurance (certain casualties, including flood, are usually excepted unless specific insurance is purchased), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild, repair, or replace any taxable properties in the District that were damaged. Even if insurance proceeds are available and damaged properties are rebuilt, there could a lengthy period in which assessed values in the District would be adversely affected. There can be no assurance the District will not sustain damage from such natural disasters.

Specific Flood Type Risks

The District may be subject to the following flood risks:

Ponding (or Pluvial) Flood: Ponding, or pluvial, flooding occurs when heavy rainfall creates a flood event independent of an overflowing water body, typically in relatively flat areas. Intense rainfall can exceed the drainage capacity of a drainage system, which may result in water within the drainage system becoming trapped and diverted onto streets and nearby property until it is able to reach a natural outlet. Ponding can also occur in a flood pool upstream or behind a dam, levee or reservoir.

Riverine (or Fluvial) Flood: Riverine, or fluvial, flooding occurs when water levels rise over the top of river, bayou or channel banks due to excessive rain from tropical systems making landfall and/or persistent thunderstorms over the same area for extended periods of time. The damage from a riverine flood can be widespread. The overflow can affect smaller rivers and streams downstream, or may sheet-flow over land. Flash flooding is a type of riverine flood that is characterized by an intense, high velocity torrent of water that occurs in an existing river channel with little to no notice. Flash flooding can also occur even if no rain has fallen, for instance, after a levee, dam or reservoir has failed or experienced an uncontrolled release, or after a sudden release of water by a debris or ice jam. In addition, planned or unplanned controlled releases from a dam, levee or reservoir also may result in flooding in areas adjacent to rivers, bayous or drainage systems downstream.

National Weather Service Atlas 14 Rainfall Study

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States (“Atlas 14”). Floodplain boundaries within the District may be redrawn based on the Atlas 14 study based on a higher statistical rainfall amount, resulting in interim floodplain regulations applying to a larger number of properties and consequently leaving less developable property within the District. Such regulations could additionally result in higher insurance rates, increased development fees, and stricter building codes for any property located within the expanded boundaries of the floodplain.

Environmental Regulations

Wastewater treatment, water supply, storm sewer facilities and construction activities within the District are subject to complex environmental laws and regulations at the federal, state and local levels that may require or prohibit certain activities that affect the environment, such as:

- Requiring permits for construction and operation of water wells, wastewater treatment and other facilities;
- Restricting the manner in which wastes are treated and released into the air, water and soils;
- Restricting or regulating the use of wetlands or other properties; or
- Requiring remedial action to prevent or mitigate pollution.

Sanctions against a municipal utility district or other type of special purpose district for failure to comply with environmental laws and regulations may include a variety of civil and criminal enforcement measures, including assessment of monetary penalties, imposition of remedial requirements and issuance of injunctions to ensure future compliance. Environmental laws and compliance with environmental laws and regulations can increase the cost of planning, designing, constructing and operating water production and wastewater treatment facilities. Environmental laws can also inhibit growth and development within the District. Further, changes in regulations occur frequently, and any changes that result in more stringent and costly requirements could materially impact the District.

Air Quality Issues. Air quality control measures required by the United States Environmental Protection Agency (the “EPA”) and the TCEQ may impact new industrial, commercial and residential development in the Houston area. Under the Clean Air Act (“CAA”) Amendments of 1990, the eight-county Houston-Galveston-Brazoria area (“HGB Area”)—Harris, Galveston, Brazoria, Chambers, Fort Bend, Waller, Montgomery and Liberty Counties—has been designated a nonattainment area under two separate federal ozone standards: the eight-hour ozone standard of 75 ppb promulgated by the EPA in 2008 (the “2008 Ozone Standard”), and the EPA’s most-recent promulgation of an even lower, 70 ppb eight-hour ozone standard in 2015 (the “2015 Ozone Standard”).

While the State of Texas has been able to demonstrate steady progress and improvements in air quality in the HGB Area, the HGB Area remains subject to CAA nonattainment requirements.

The HGB Area is currently designated as a “severe” nonattainment area under the 2008 Ozone Standard, with an attainment deadline of July 20, 2027. If the EPA ultimately determines that the HGB Area has failed to meet the attainment deadline based on the relevant data, the area is subject to reclassification to a nonattainment classification that provides for more stringent controls on emissions from the industrial sector. In addition, the EPA may impose a moratorium on the awarding of federal highway construction grants and other federal grants for certain public works construction projects if it finds that an area fails to demonstrate progress in reducing ozone levels.

The HGB Area is currently designated as a “serious” nonattainment area under the 2015 Ozone Standard, with an attainment deadline of August 3, 2027. For purposes of the 2015 Ozone Standard, the HGB Area consists of only six counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, and Montgomery Counties.

In order to demonstrate progress toward attainment of the EPA’s ozone standards, the TCEQ has established a state implementation plan (“SIP”) for the HGB Area setting emission control requirements, some of which regulate the inspection and use of automobiles. These types of measures could impact how people travel, what distances people are willing to travel, where people choose to live and work, and what jobs are available in the HGB Area. These SIP requirements can negatively impact business due to the additional permitting/regulatory constraints that accompany this designation and because of the community stigma associated with a nonattainment designation. It is possible that additional controls will be necessary to allow the HGB Area to reach attainment with the ozone standards by the EPA’s attainment deadlines. These additional controls could have a negative impact on the HGB Area’s economic growth and development.

Water Supply & Discharge Issues. Water supply and discharge regulations that municipal utility districts, including the District, may be required to comply with involve: (1) groundwater well permitting and surface water appropriation; (2) public water supply systems; (3) wastewater discharges from treatment facilities; (4) storm water discharges; and (5) wetlands dredge and fill activities. Each of these is addressed below:

Certain governmental entities regulate groundwater usage in the HGB Area. A municipal utility district or other type of special purpose district that (i) is located within the boundaries of such an entity that regulates groundwater usage, and (ii) relies on local groundwater as a source of water supply, may be subject to requirements and restrictions on the drilling of water wells and/or the production of groundwater that could affect both the engineering and economic feasibility of district water supply projects.

Pursuant to the federal Safe Drinking Water Act (“SDWA”) and the EPA’s National Primary Drinking Water Regulations (“NPDWRs”), which are implemented by the TCEQ’s Water Supply Division, a municipal utility district’s provision of water for human consumption is subject to extensive regulation as a public water system. Municipal utility districts must generally provide treated water that meets the primary and secondary drinking water quality standards adopted by the TCEQ, the applicable disinfectant residual and inactivation standards, and the other regulatory action levels established under the agency’s rules. The EPA has established NPDWRs for more than ninety (90) contaminants and has identified and listed other contaminants which may require national drinking water regulation in the future. Further, the EPA has established a NPDWR for six (6) Per- and Polyfluoroalkyl Substances (“PFAS”), which requires public water systems to perform certain monitoring and remediation measures. Public water systems may be subject to additional PFAS regulation in the future, which could increase the cost of constructing, operating, and maintaining water production and distribution facilities.

The TCEQ issued the General Permit for Phase II (Small) Municipal Separate Storm Sewer Systems (the “MS4 Permit”) on August 15, 2024. The MS4 Permit authorizes the discharge of stormwater to surface water in the state from small municipal separate storm sewer systems. While the District is currently not subject to the MS4 Permit, if the District’s inclusion were required at a future date, the District could incur substantial costs to develop, implement, and maintain the necessary plans as well as to install or implement best management practices to minimize or eliminate unauthorized pollutants that may otherwise be found in stormwater runoff in order to comply with the MS4 Permit.

Texas Pollutant Discharge Elimination System (“TPDES”) permits set limits on the type and quantity of discharge, in accordance with state and federal laws and regulations. The TCEQ reissued the TPDES

Construction General Permit (TXR150000) ("CGP"), with an effective date of March 5, 2023, which is a general permit authorizing the discharge of stormwater runoff associated with small and large construction sites and certain non-stormwater discharges into surface water in the state. The CGP has a 5-year permit term, and is then subject to renewal. Moreover, the Clean Water Act ("CWA") and Texas Water Code require municipal wastewater treatment plants to meet secondary treatment effluent limitations and more stringent water quality-based limitations and requirements to comply with the Texas water quality standards. Any water quality-based limitations and requirements with which a municipal utility district must comply may have an impact on the municipal utility district's ability to obtain and maintain compliance with TPDES permits.

Operations of utility districts, including the District, are also potentially subject to requirements and restrictions under the CWA regarding the use and alteration of wetland areas that are within the "waters of the United States." The District must obtain a permit from the United States Army Corps of Engineers ("USACE") if operations of the District require that wetlands be filled, dredged, or otherwise altered.

In 2023, the Supreme Court of the United States issued its decision in *Sackett v. EPA*, which clarified the definition of "waters of the United States" and significantly restricted the reach of federal jurisdiction under the CWA. Under the *Sackett* decision, "waters of the United States" includes only geographical features that are described in ordinary parlance as "streams, oceans, rivers, and lakes" and to adjacent wetlands that are indistinguishable from such bodies of water due to a continuous surface connection. Subsequently, the EPA and USACE issued a final rule amending the definition of "waters of the United States" under the CWA to conform with the Supreme Court's decision.

While the *Sackett* decision and subsequent regulatory action removed a great deal of uncertainty regarding the ultimate scope of "waters of the United States" and the extent of EPA and USACE jurisdiction, operations of municipal utility districts, including the District, could potentially be subject to additional restrictions and requirements, including additional permitting requirements, in the future.

Tax Collection Limitations

The District's ability to make debt service payments may be adversely affected by its inability to collect ad valorem taxes. Under Texas law, the levy of ad valorem taxes by the District constitutes a lien in favor of the District on parity with the liens of all other state and local taxing authorities on the property against which taxes are levied, and such lien may be enforced by foreclosure. The District's ability to collect ad valorem taxes through such foreclosure may be impaired by (a) cumbersome, time-consuming and expensive collection procedures; (b) a bankruptcy court's stay of tax collection procedures against a taxpayer; (c) market conditions limiting the proceeds from a foreclosure sale of taxable property; or (d) the taxpayer's right to redeem the property within six (6) months for commercial property and two (2) years for residential and all other property after the purchaser's deed issued at the foreclosure sale is filed in the county records. While the District has a lien on taxable property within the District for taxes levied against such property, such lien can be foreclosed only in a judicial proceeding. Attorney's fees and other costs of collecting any such taxpayer's delinquencies could substantially reduce the net proceeds to the District from a tax foreclosure sale. Finally, any bankruptcy court with jurisdiction over bankruptcy proceedings initiated by or against a taxpayer within the District pursuant to the Federal Bankruptcy Code could stay any attempt by the District to collect delinquent ad valorem taxes against such taxpayer. In addition to the automatic stay against collection of delinquent taxes afforded a taxpayer during the pendency of a bankruptcy, a bankruptcy could affect payment of taxes in two (2) other ways: first, a debtor's confirmation plan may allow a debtor to make installment payments on delinquent taxes for up to six (6) years; and, second, a debtor may challenge, and a bankruptcy court may reduce, the amount of any taxes assessed against the debtor, including taxes that have already been paid. See "TAXING PROCEDURES."

Registered Owners' Remedies

If the District defaults in the payment of principal, interest, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created in the Bond Order, or defaults in the observation or performance of any other covenants, conditions, or obligations set forth in the Bond Order, the registered owners of the Bonds ("Registered Owners") have the right to seek of a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Order. Except for mandamus, the Bond Order does not specifically provide

for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, there is no trust indenture or trustee, and all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the Registered Owners.

Statutory language authorizing local governments such as the District to sue and be sued does not waive the local government's sovereign immunity from suits for money damages, so that in the absence of other waivers of such immunity by the Texas Legislature, a default by the District in its covenants in the Bond Order may not be reduced to a judgment for money damages. If such a judgment against the District were obtained, it could not be enforced by direct levy and execution against the District's property. Further, the Registered Owners cannot themselves foreclose on property within the District or sell property within the District to enforce the tax lien on taxable property to pay the principal of and interest on the Bonds. The enforceability of the rights and remedies of the Registered Owners may further be limited by a State of Texas statute reasonably required to attain an important public purpose or by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions, such as the District.

Bankruptcy Limitation to Registered Owners' Rights

The enforceability of the rights and remedies of Registered Owners may be limited by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. Texas law requires a district, such as the District, to obtain the approval of the TCEQ as a condition to seeking relief under the Federal Bankruptcy Code.

Notwithstanding noncompliance by the District with Texas law requirements, the District could file a voluntary bankruptcy petition under Chapter 9 of the Federal Bankruptcy Code, thereby invoking the protection of the automatic stay until the bankruptcy court, after a hearing, dismisses the petition. A federal bankruptcy court is a court of equity and federal bankruptcy judges have considerable discretion in the conduct of bankruptcy proceedings and in making the decision of whether to grant the petitioning District relief from its creditors. While such a decision might be appealable, the concomitant delay and loss of remedies to the Registered Owner could potentially and adversely impair the value of the Registered Owner's claim.

If the petitioning District were allowed to proceed voluntarily under Chapter 9 of the Federal Bankruptcy Code, it could file a plan for an adjustment of its debts. If such a plan were confirmed by the bankruptcy court, it could, among other things, affect Registered Owners by reducing or eliminating the amount of indebtedness, deferring or rearranging the debt service schedule, reducing or eliminating the interest rate, modifying or abrogating collateral or security arrangements, substituting (in whole or in part) other securities, and otherwise compromising and modifying the rights and remedies of the Registered Owners' claims against a district.

A district may not be placed into bankruptcy involuntarily.

Marketability of the Bonds

The District has no understanding with the Initial Purchaser regarding the reoffering yields or prices of the Bonds and has no control over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked price may be greater than the difference between the bid and asked price of bonds of comparable maturity and quality issued by more traditional issuers, since such bonds are more generally bought, sold and traded in the secondary market.

Continuing Compliance with Certain Covenants

Failure of the District to comply with certain covenants contained in the Bond Order on a continuing basis prior to the maturity of the Bonds could result in interest on the Bonds becoming taxable retroactively to the date of original issuance. See "LEGAL MATTERS—Tax Exemption."

Approval of the Bonds

The Attorney General of Texas must approve the legality of the Bonds prior to their delivery. The Attorney General of Texas, however, does not pass upon or guarantee the safety of the Bonds as an investment or the adequacy or accuracy of the information contained in this Official Statement.

Future and Proposed Legislation

Tax legislation, administrative actions taken by tax authorities, or court decisions, whether at the Federal or state level, may adversely affect the tax-exempt status of interest on the Bonds under Federal or state law and could affect the market price or marketability of the Bonds. Any such proposal could limit the value of certain deductions and exclusions, including the exclusion for tax-exempt interest. The likelihood of any such proposal being enacted cannot be predicted. Prospective purchasers of the Bonds should consult their own tax advisors regarding the foregoing matters.

Bond Insurance Risk Factors

The District has applied for a bond insurance policy to guarantee the scheduled payment of principal and interest on the Bonds. The purchase of insurance will be at the option and expense of the Initial Purchaser.

In the event of default of the payment of principal or interest with respect to the Bonds when all or some becomes due, any owner of the Bonds shall have a claim under the applicable bond insurance policy (the "Policy") for such payments. However, in the event of any acceleration of the due date of such principal by reason of mandatory or optional redemption or acceleration resulting from default or otherwise, other than any advancement of maturity pursuant to a mandatory sinking fund payment, the payments are to be made in such amounts and at such times as such payments would have been due had there not been any such acceleration. The Policy does not insure against redemption premium, if any. The payment of principal and interest in connection with mandatory or optional prepayment of the Bonds by the issuer which is recovered by the issuer from the bond owner as a voidable preference under applicable bankruptcy law is covered by the insurance policy, however, such payments will be made by the provider of the Policy (the "Bond Insurer") at such time and in such amounts as would have been due absent such prepayment by the District unless the Bond Insurer chooses to pay such amounts at an earlier date.

Under most circumstances, default of payment of principal and interest does not obligate acceleration of the obligations of the Bond Insurer without appropriate consent. The Bond Insurer may direct and must consent to any remedies and the Bond Insurer's consent may be required in connection with amendments to any applicable bond documents.

In the event the Bond Insurer is unable to make payment of principal and interest as such payments become due under the Policy, the Bonds are payable solely from the moneys received pursuant to the applicable bond documents. In the event the Bond Insurer becomes obligated to make payments with respect to the Bonds, no assurance is given that such event will not adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds.

The long-term ratings on the Bonds are dependent in part on the financial strength of the Bond Insurer and its claim paying ability. The Bond Insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Bond Insurer and of the ratings on the Bonds insured by the Bond Insurer will not be subject to downgrade and such event could adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds. See "MUNICIPAL BOND INSURANCE" and "MUNICIPAL BOND RATING."

The obligations of the Bond Insurer are contractual obligations and in an event of default by the Bond Insurer, the remedies available may be limited by applicable bankruptcy law or state law related to insolvency of insurance companies.

Neither the District nor the Initial Purchaser have made independent investigation into the claims paying ability of the Bond Insurer and no assurance or representation regarding the financial strength or projected financial strength of the Bond Insurer is given. Thus, when making an investment decision, potential investors should carefully consider the ability of the District to pay principal of and interest on the Bonds and the claims paying ability of the Bond Insurer, particularly over the life of the investment. See "MUNICIPAL BOND

INSURANCE” herein for further information provided by the Bond Insurer and the Policy, which includes further instructions for obtaining current financial information concerning the Bond Insurer.

THE BONDS

General

The following is a description of some of the terms and conditions of the Bonds, which description is qualified in its entirety by reference to the Bond Order, a copy of which is available from Bond Counsel upon payment of the costs of duplication therefor. The Bond Order authorizes the issuance and sale of the Bonds and prescribes the terms, conditions and provisions for the payment of the principal of and interest on the Bonds by the District.

Description

The Bonds will be dated November 1, 2025, with interest payable on March 1, 2026, and on each September 1 and March 1 thereafter (each an “Interest Payment Date”) until the earlier of maturity or redemption. Interest on the Bonds initially accrues from the date of delivery of the Bonds to the Initial Purchaser thereof (expected to be on or around November 25, 2025) (the “Date of Delivery”), and thereafter, from the most recent Interest Payment Date. The Bonds mature on September 1 in each of the years and in the principal amounts shown under “MATURITIES, PRINCIPAL AMOUNTS, INTEREST RATES, AND INITIAL REOFFERING YIELDS” on the inside cover page hereof. The Bonds are issued in fully registered form only in denominations of \$5,000 or any integral multiple of \$5,000 for any one maturity.

The Bonds will be registered and delivered only to The Depository Trust Company, New York, New York (“DTC”), in its nominee name of Cede & Co., pursuant to the book-entry system described herein (“Registered Owners”). No physical delivery of the Bonds will be made to the purchasers thereof. See “BOOK-ENTRY-ONLY SYSTEM.” Interest calculations are based upon a three hundred sixty (360) day year comprised of twelve (12) thirty (30) day months.

Authority for Issuance

At an election held within the District on May 6, 2023, voters of the District authorized a total of \$113,120,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Road System and \$ 368,200,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Utility System.

The Bonds represent the District’s first series of unlimited tax bonds to be issued for the purpose of acquiring or constructing the Road System, and following the issuance of the Bonds, \$110,120,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Road System will remain authorized but unissued and \$368,200,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Utility System will remain authorized but unissued.

At the above-described election, voters of the District also authorized \$64,500,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing the Park System. To date, the District has issued no bonds from such voted authorization. See “Financing Recreational Facilities” below.

The Bonds are issued pursuant to the terms and provisions of the Bond Order; Article III, Section 52 of the Texas Constitution and the general laws of the State of Texas, particularly Chapters 49 and 54 of the Texas Water Code, as amended; and the election held within the District described above.

Source and Security for Payment

The Bonds, together with any additional bonds payable from ad valorem taxes, are secured by and payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property located within the District. See “TAXING PROCEDURES.” Investment in the Bonds involves certain elements of risk, and all prospective purchasers are urged to carefully examine this Official Statement with respect to the investment security of the Bonds. See “RISK FACTORS.” The Bonds are obligations solely of the District and are not obligations of the State of Texas; Harris County, Texas; the City; or any political subdivision or entity other than the District.

Funds

The Bond Order establishes and creates the District's Bond Fund ("Bond Fund") and the District's Construction Fund ("Construction Fund"). An amount equal to eighteen (18) months of interest on the Bonds will be deposited from the proceeds from sale of the Bonds into the Bond Fund upon closing of the Bonds. All remaining proceeds of the Bonds will be deposited in the Construction Fund.

The Bond Fund, which constitutes a trust fund for the benefit of the owners of the Bonds and any additional tax bonds issued by the District, is to be kept separate from all other funds of the District, and is to be used for payment of debt service on the Bonds and any of the District's duly authorized additional bonds payable in whole or part from taxes. Amounts on deposit in the Bond Fund may also be used to pay the fees and expenses of the Paying Agent/Registrar, to defray the expenses of assessing and collecting taxes levied for payment of interest on and principal of the Bonds and any additional bonds payable in whole or in part from taxes, and to pay any tax anticipation notes issued, together with interest thereon, as such tax anticipation notes become due.

Record Date

The record date for payment of the interest on any regularly scheduled Interest Payment Date is defined as the 15th day of the month (whether or not a business day) preceding such Interest Payment Date.

Redemption Provisions

The District reserves the right, at its option, to redeem the Bonds maturing on and after September 1, 2032, prior to their scheduled maturities, in whole or from time to time in part, in integral multiples of \$5,000, on September 1, 2031, or any date thereafter, at a price equal to the principal amount thereof plus accrued interest thereon to the date fixed for redemption.

If fewer than all of the Bonds are to be redeemed, the particular maturity or maturities and the amounts thereof to be redeemed shall be determined by the District. If fewer than all of the Bonds of the same maturity are to be redeemed, the particular Bonds shall be selected by DTC in accordance with its procedures. See "BOOK-ENTRY-ONLY SYSTEM." Notice of each exercise of the reserved right of optional redemption shall be given by the Paying Agent/Registrar at least thirty (30) calendar days prior to the redemption date, in the manner specified in the Bond Order.

By the redemption date, due provision shall be made with the Paying Agent/Registrar for payment of the principal of the Bonds or portions thereof to be redeemed, plus accrued interest to the redemption date. When Bonds have been called for redemption in whole or in part and due provision has been made to redeem the same as herein provided, the Bonds or portions thereof so redeemed shall no longer be regarded as outstanding except for the purpose of receiving payment solely from the funds so provided for redemption, and the rights of the Registered Owners to collect interest which would otherwise accrue after the redemption date on any Bond or portion thereof called for redemption shall terminate on the date fixed for redemption.

Method of Payment of Principal and Interest

The Board of Directors of the District (the "Board") has appointed BOKF, NA, having its principal corporate trust office and its principal payment office in Dallas, Texas, as the initial Paying Agent/Registrar for the Bonds. The principal of and interest on the Bonds shall be paid to DTC, which will make distribution of the amounts so paid. See "BOOK-ENTRY-ONLY SYSTEM."

Registration

Section 149(a) of the Internal Revenue Code of 1986, as amended, requires that all tax-exempt obligations (with certain exceptions that do not include the Bonds) be in registered form in order for the interest payable on such obligations to be excludable from a Beneficial Owner's income for federal income tax purposes. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. pursuant to the Book-Entry-Only System described herein. One fully-registered Bond will be issued for each maturity of the Bonds and will be deposited with DTC. See "BOOK-ENTRY-ONLY SYSTEM." So long as any Bonds remain outstanding, the District will maintain at least one paying agent/registrar in the State of Texas for the purpose of maintaining the Register on behalf of the District.

Replacement of Paying Agent/Registrar

Provision is made in the Bond Order for replacement of the Paying Agent/Registrar. If the Paying Agent/Registrar is replaced by the District, the new paying agent/registrar shall be required to accept the previous Paying Agent/Registrar's records and act in the same capacity as the previous Paying Agent/Registrar. Any paying agent/registrar selected by the District shall be a duly qualified and competent trust or banking corporation or organization organized and doing business under the laws of the United States of America or of any State thereof, with a combined capital and surplus of at least \$25,000,000, which is subject to supervision of or examination by federal or state banking authorities, and which is a transfer agent duly registered with the United States Securities and Exchange Commission.

Legal Investment and Eligibility to Secure Public Funds in Texas

The following is quoted from Section 49.186 of the Texas Water Code, and is applicable to the District:

(a) All bonds, notes, and other obligations issued by a district shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries, and trustees, and for all interest and sinking funds and other public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic.

(b) A district's bonds, notes, and other obligations are eligible and lawful security for all deposits of public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of the bonds, notes, and other obligations when accompanied by any unmatured interest coupons attached to them.

The Public Funds Collateral Act (Chapter 2257, Texas Government Code) also provides that bonds of the District (including the Bonds) are eligible as collateral for public funds.

No representation is made that the Bonds will be suitable for or acceptable to financial or public entities for investment or collateral purposes. No representation is made concerning other laws, rules, regulations, or investment criteria which apply to or which might be utilized by any of such persons or entities to limit the acceptability or suitability of the Bonds for any of the foregoing purposes.

Prospective purchasers are urged to carefully evaluate the investment quality of the Bonds as to the suitability or acceptability of the Bonds for investment or collateral purposes.

Issuance of Additional Debt

At an election held within the District on May 6, 2023, voters of the District authorized the District's issuance of the following principal amounts of bonds: a total of a total of \$113,120,000 of unlimited tax bonds for the purpose of constructing or acquiring the Road System; \$368,200,000 of unlimited tax bonds for the purpose of acquiring or constructing the Utility System; a total of \$64,500,000 of unlimited tax bonds for the purpose of acquiring or constructing the Park System; \$113,120,000 principal amount of unlimited tax bonds for the purpose of refunding bonds issued by the District for the Road System; \$368,200,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Utility System; and \$64,500,000 in unlimited tax bonds for the purpose of refunding bonds issued by the District for the Park System. Voters of the District could authorize the District's issuance of additional amounts for each of such purposes.

The Bonds represent the District's first series of bonds to be issued out of the \$113,120,000 in authorized unlimited tax bonds for the purpose of constructing or acquiring the Road System. After the issuance of the Bonds, the following unlimited tax bonds will remain authorized but unissued: \$110,120,000 principal amount for constructing or acquiring the Road System, \$368,200,000 principal amount for the purpose of acquiring or constructing the Utility System, \$64,500,000 principal amount for the purpose of acquiring or constructing the Park System, and all of principal amount of unlimited tax bonds authorized for the purpose of refunding bonds issued by the District. The Bond Order imposes no limitation on the amount of additional parity bonds which may be authorized for issuance by the District's voters or the amount ultimately issued by the District.

The District also is authorized by statute to engage in fire-fighting activities, including the issuing of bonds payable from taxes for such purpose. Before the District could issue fire-fighting bonds payable from taxes, the following actions would be required: (a) authorization of a detailed master plan and bonds for such purpose by the qualified voters in the District; (b) approval of the master plan and issuance of bonds by the TCEQ; and (c) approval of bonds by the Attorney General of Texas. The District does not provide fire protection service, and the Board has not considered calling such an election at this time. Issuance of bonds for fire-fighting activities could dilute the investment security for the Bonds.

Financing Road Facilities

Pursuant to the provisions of the Texas Constitution and Chapter 54 Texas Water Code, as amended, conservation and reclamation districts created pursuant to said Chapter 54 are authorized to develop and finance with property taxes certain road facilities following the granting of road powers by the TCEQ and a successful District election to approve the issuance of road bonds payable from taxes. The TCEQ granted road powers to the District and at an election held within the District on May 6, 2023, voters of the District authorized a total of \$113,120,000 principal amount of unlimited tax bonds for financing and constructing the Road System. After issuance of the Bonds, the District will have issued \$3,000,000 from said authorization and could issue additional amounts. See “—Issuance of Additional Debt” herein and “RISK FACTORS—Future Debt.” Issuance of additional bonds for the Road System may dilute the security for the Bonds.

Financing Recreational Facilities

Conservation and reclamation districts in certain counties are authorized to develop and finance with property taxes certain recreational facilities after a district election has been successfully held to approve the issuance of bonds payable from taxes and/or a maintenance tax to support recreational facilities.

The District is authorized to issue bonds payable from an ad valorem tax to pay for the development and maintenance of recreational facilities if (i) the District duly adopts a plan for the facilities; (ii) the bonds are authorized at an election; (iii) the bonds payable from any source do not exceed 1% of the value of the taxable property in the District at the time of issuance of the bonds, or, in the event the District meets certain conditions, 3% of the value of the taxable property in the District at the time of issuance of the bonds, but in no event in an amount greater than the estimated cost in the plan; (iv) the District obtains any necessary governmental consents allowing the issuance of such bonds; (v) the issuance of the bonds is approved by the TCEQ in accordance with its rules with respect to same; and (vi) the bonds are approved by the Attorney General of Texas. The District may issue bonds for such purposes payable solely from net operating revenues without an election. In addition, the District is authorized to levy an operation and maintenance tax to support recreational facilities at a rate not to exceed 10 cents per \$100 of assessed valuation of taxable property in the District, after such tax is approved at an election. Said maintenance tax is in addition to any other maintenance tax authorized to be levied by the District.

At the election held within the District on May 6, 2023, voters of the District authorized a total of \$64,500,000 in unlimited tax bonds for the purpose of acquiring or constructing the Park System and could authorize additional amounts. Issuance of unlimited tax bonds for the Park System could dilute the investment security for the Bonds.

Annexation

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City, the District may be annexed for full purposes by the City, subject to compliance by the City with various requirements of Chapter 43 of the Texas Local Government Code, as amended. Such requirements may include the requirement that the City hold an election in the District whereby the qualified voters of the District approve the proposed annexation.

If the District is annexed, the City must assume the District's assets and obligations (including the Bonds) and abolish the District within ninety (90) days of the date of annexation. Annexation of territory by the City is a policy-making matter within the discretion of the Mayor and City Council of the City, and, therefore, the District makes no representation that the City will ever attempt to annex the District and assume its debt. Moreover, no representation is made concerning the ability of the City to make debt service payments should annexation occur.

Consolidation

The District has the legal authority to consolidate with other districts and, in connection therewith, to provide for the consolidation of its water and wastewater systems with the water and wastewater systems of the district or districts with which it is consolidating, subject to voter approval.

In their consolidation agreement, the consolidating districts may agree to assume each other's bonds, notes, and other obligations. If each district assumes the other's bonds, notes, and other obligations, taxes may be levied uniformly on all taxable property within the consolidated district in payment of same. If the districts do not assume each other's bonds, notes and other obligations, each district's taxes are levied on property in each of the original districts to pay said debts created by the respective original district as if no consolidation had taken place. No representation is made concerning whether the District will consolidate with any other district, but the District currently has no plans to do so.

Remedies in Event of Default

If the District defaults in the payment of principal, interest, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created in the Bond Order, or defaults in the observance or performance of any other covenants, conditions, or obligations set forth in the Bond Order, the Registered Owners have the right to seek a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Order. Except for mandamus, the Bond Order does not specifically provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, there is no trust indenture or trustee, and all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the Registered Owners. Certain traditional legal remedies also may not be available. See "RISK FACTORS—Registered Owners' Remedies."

Defeasance

The Bond Order provides that the District may discharge its obligations to the Registered Owners of any or all of the Bonds to pay principal, interest and redemption price thereon in any manner permitted by law. Under current Texas law, such discharge may be accomplished either (i) by depositing with the Comptroller of Public Accounts of the State of Texas a sum of money equal to the principal of, premium, if any, and all interest to accrue on the Bonds to maturity or redemption or (ii) by depositing with any place of payment (paying agent) for obligations of the District payable from revenues or from ad valorem taxes or both, or a commercial bank or trust company designated in the proceedings authorizing such discharge, amounts sufficient to provide for the payment and/or redemption of the Bonds; provided that such deposits may be invested and reinvested only in (a) direct noncallable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America, (b) noncallable obligations of an agency or instrumentality of the United States, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent; and (c) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent. The foregoing obligations may be in book entry form, and shall mature and/or bear interest payable at such times and in such amounts as will be sufficient to provide for the scheduled payment and/or redemption of the Bonds. If any of such Bonds are to be redeemed prior to their respective dates of maturity, provision must have been made for giving notice of redemption as provided in the Bond Order.

Upon such deposit as described above, such Bonds shall no longer be regarded to be outstanding or unpaid. After firm banking and financial arrangements for the discharge and final payment or redemption of the Bonds have been made as described above, all rights of the District to initiate proceedings to call the Bonds for redemption or take any other action amending the terms of the Bonds are extinguished; provided, however, that the right to call the Bonds for redemption is not extinguished if the District: (i) in the proceedings providing

for the firm banking and financial arrangements, expressly reserves the right to call the Bonds for redemption; (ii) gives notice of the reservation of that right to the owners of the Bonds immediately following the making of the firm banking and financial arrangements; and (iii) directs that notice of the reservation be included in any redemption notices that it authorizes.

There is no assurance that the current law will not be changed in a manner which would permit investments other than those described above to be made with amounts deposited to defease the Bonds. Because the Bond Order does not contractually limit such investments, Registered Owners may be deemed to have consented to defeasance with such other investments, notwithstanding the fact that such investments may not be of the same investment quality as those currently permitted under Texas law.

USE AND DISTRIBUTION OF BOND PROCEEDS

Proceeds from the sale of the Bonds will be used to reimburse the Developer for a portion of the road improvements and related costs shown below. Additionally, proceeds from the sale of the Bonds will be used to pay eighteen (18) months of capitalized interest on the Bonds, developer interest, and other costs associated with the issuance of the Bonds.

Non-construction costs are based upon either contract amounts or estimates of various costs by the Engineer and the Financial Advisor (herein defined). The actual amounts to be reimbursed by the District and the non-construction costs will be finalized after the sale of the Bonds and completion of agreed-upon procedures by the District’s auditor.

<u>CONSTRUCTION COSTS</u>	
Road Construction, Engineering Related Costs, and Land Costs	\$ <u>2,328,328.</u>
TOTAL CONSTRUCTION COSTS	\$ 2,328,328
<u>NON-CONSTRUCTION COSTS</u>	
Bond Discount (3.00%)	\$ 90,000
Capitalized Interest	247,500
Developer Interest	<u>127,856</u>
TOTAL NON-CONSTRUCTION COSTS	\$ 465,357
<u>ISSUANCE COSTS AND FEES</u>	
Issuance Costs and Professional Fees	\$ 203,315
State Regulatory Fees	<u>3,000</u>
TOTAL ISSUANCE COSTS AND FEES	\$ 206,315
<u>TOTAL BOND ISSUE REQUIREMENT</u>	\$ 3,000,000

The Engineer has advised the District that proceeds of the sale of the Bonds should be sufficient to pay the costs of the above-described facilities. However, the District cannot and does not guarantee the sufficiency of such funds for such purposes.

BOOK-ENTRY-ONLY SYSTEM

This section describes how ownership of the Bonds is to be transferred and how the principal of and interest on the Bonds are to be paid to and credited by DTC while the Bonds are registered in its nominee's name. The information in this section concerning DTC and the Book-Entry-Only System has been provided by DTC for use in disclosure documents such as this Official Statement. The District believes the source of such information to be reliable, but takes no responsibility for the accuracy or completeness thereof.

The District cannot and does not give any assurance that (1) DTC will distribute payments of debt service on the Bonds, or redemption or other notices, to DTC Participant, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the Bonds), or redemption or other notices, to the Beneficial Owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this Official Statement. The current rules applicable to DTC are on file with the Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC.

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be required by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.6 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has an AA+ rating from S&P Global Ratings. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchase of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose

accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Paying Agent/Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issue as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, District or Paying Agent/Registrar, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

Use of Certain Terms in Other Sections of this Official Statement

In reading this Official Statement it should be understood that while the Bonds are in the book-entry form, references in other sections of this Official Statement to registered owners should be read to include the person for which the Participant acquires an interest in the Bonds, but (i) all rights of ownership must be exercised through DTC and the book-entry system, and (ii) except as described above, notices that are to be given to registered owners under the Bond Order will be given only to DTC.

DISTRICT DEBT

General

The following tables and calculations relate to the Bonds. The District and various other political subdivisions of government which overlap all or a portion of the District are empowered to incur debt to be paid from revenues raised or to be raised by taxation against all or a portion of the property.

2025 Certified Taxable Assessed Valuation	\$ 18,956,163	(a)

Debt Service Tax Rate per \$100 of Assessed Valuation Required to Pay Estimated Average Annual Debt Service Requirement (2026–2051) at 95% Tax Collections:

Based on 2025 Certified Taxable Assessed Valuation.....	\$1.17
Based on Estimate of Value as of September 1, 2025.....	\$0.56

Debt Service Tax Rate per \$100 of Assessed Valuation Required to Pay Estimated Maximum Annual Debt Service Requirement (2027) at 95% Tax Collections:

Based on 2025 Certified Taxable Assessed Valuation.....	\$1.20
Based on Estimate of Value as of September 1, 2025.....	\$0.58

- (a) Represents the taxable assessed valuation of all taxable property in the District as of January 1, 2025, as certified by the Harris Central Appraisal District. See "TAX DATA" and "TAXING PROCEDURES."
- (b) Provided by the Harris Central Appraisal District for informational purposes only, this amount is an estimate of the taxable value of all taxable property located within the District as of September 1, 2025, and includes an estimate of additional taxable value resulting from the construction of taxable improvements from January 1, 2025 through September 1, 2025. No taxes will be levied on this estimated value. See "TAX DATA" and "TAXING PROCEDURES."
- (c) See "DISTRICT DEBT—Direct and Estimated Overlapping Debt Statement."
- (d) Represents an estimate of eighteen (18) months of capitalized interest to be deposited into the Bond Fund upon closing of the Bonds. Neither Texas law nor the Bond Order requires that the District maintain any particular sum in the Bond Fund.
- (e) See "RISK FACTORS—Operating Funds."
- (f) For the 2025 tax year, the District has authorized publication of notice of its proposed total tax rate of \$1.50 per \$100 of assessed valuation.
- (g) Debt service on the Bonds is estimated assuming an interest rate of 5.00%. See "DISTRICT DEBT—Debt Service Requirements."

Debt Service Requirements

The following schedule sets forth the principal and estimated interest requirement on the Bonds, assuming an interest rate of 5.00%. Totals may not sum due to rounding.

Calendar Year	Plus: The Bonds		
	Principal	Interest	Debt Service
2026	\$ -	\$ 115,000	\$ 115,000
2027	65,000	150,000	215,000

Direct and Estimated Overlapping Debt Statement

The following table indicates the indebtedness, defined as outstanding bonds payable from ad valorem taxes, of governmental entities overlapping the District and the estimated percentages and amounts of such indebtedness attributable to property within the District. This information is based upon data secured from the individual jurisdictions and/or *Texas Municipal Reports* prepared by the Municipal Advisory Council of Texas. Such figures do not indicate the tax burden levied by the applicable taxing jurisdictions for operation and maintenance or for other purposes.

Taxing Jurisdiction	Outstanding Debt September 30, 2025	Percent	Overlapping Amount
Harris County	\$ 2,343,959,736	0.003%	\$ 68,034
Harris County Flood Control District	958,695,000	0.003%	28,414
Port of Houston Authority	406,509,397	0.003%	12,050
Harris County Hospital District	867,820,000	0.003%	25,717
Harris County Department of Education	28,960,000	0.003%	840
Huffman Independent School District	147,775,000	0.940%	<u>1,388,589</u>
Total Overlapping			\$ 1,523,644
The District (a)			\$ 3,000,000
Total Direct and Overlapping			\$ 4,523,644

(a) The Bonds.

TAXING PROCEDURES

Property Tax Code and County-Wide Appraisal District

The Texas Tax Code (the "Property Tax Code") requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State of Texas a single appraisal district with the responsibility for recording and appraising property for all taxing units within a county and a single appraisal review board with the responsibility for reviewing and equalizing the values established by the appraisal district. The Harris Central Appraisal District (the "Appraisal District") has the responsibility for appraising property for all taxing units wholly within Harris County, including the District. Such appraisal values are subject to review and change by the Harris County Appraisal Review Board (the "Appraisal Review Board"). Under certain circumstances, taxpayers and taxing units (such as the District) may appeal the orders of the Appraisal Review Board by filing a petition for review in State district court. In such event, the value of the property in question will be determined by the court or by a jury if requested by any party. Absent any such appeal, the appraisal roll, as prepared by the Appraisal District and approved by the Appraisal Review Board, must be used by each taxing jurisdiction in establishing its tax roll and tax rate. The District is eligible, along with all other conservation and reclamation districts within Harris County, to participate in the nomination of and vote for a member of the Board of Directors of the Appraisal District.

Property Subject to Taxation by the District

Except for certain exemptions provided by Texas law, all real property and tangible personal property in the District is subject to taxation by the District; however, it is expected that no effort will be made by the District to collect taxes on personal property other than on personal property rendered for taxation, business inventories and the property of privately owned utilities. Principal categories of exempt property include: property owned by the State of Texas or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; certain household goods, family supplies and personal effects; farm products owned by the producer; all oil, gas and mineral interests owned by an institution of higher education; certain property owned by exclusively charitable organizations, youth development associations, religious organizations, and qualified schools; designated historical sites; solar and wind-powered energy devices; and most individually owned automobiles.

In addition, the District may by its own action exempt residential homesteads of persons sixty-five (65) years or older or under a disability for purposes of payment of disability insurance benefits under the Federal Old-Age Survivors and Disability Insurance Act to the extent deemed advisable by the Board. The District would be required to call an election on such residential homestead exemption upon petition by at least twenty percent (20%) of the number of qualified voters who voted in the District's preceding election and would be required to offer such an exemption if a majority of voters approve it at such election. For the 2025 tax year, the District has not granted any such exemptions.

The District must grant exemptions to disabled veterans or certain surviving dependents of disabled veterans, if requested, of between \$5,000 and \$12,000 of assessed valuation depending upon the disability rating of the veteran, if such rating is less than 100%. A veteran who receives a disability rating of 100% is entitled to an exemption for the full value of the veteran's residence homestead. Additionally, subject to certain conditions, the surviving spouse of a disabled veteran who is entitled to an exemption for the full value of the veteran's residence homestead is also entitled to an exemption from taxation of the total appraised value of the same property to which the disabled veteran's exemption applied. A partially disabled veteran or certain surviving spouses of partially disabled veterans are entitled to an exemption from taxation of a percentage of the appraised value of their residence homestead in an amount equal to the partially disabled veteran's disability rating if (i) the residence homestead was donated by a charitable organization at no cost to the disabled veteran or (ii) the residence was donated by a charitable organization at some cost to the disabled veteran if such cost is less than or equal to fifty percent (50%) of the total good faith estimate of the market value of the residence as of the date the donation is made. Also, the surviving spouse of a member of the armed forces or a first responder as defined under Texas law, who was (i) killed in action or (ii) fatally injured in the line of duty is, subject to certain conditions, entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse.

A "Freeport Exemption" applies to goods, wares, merchandise, other tangible personal property and ores, other than oil, natural gas, and petroleum products (defined as liquid and gaseous materials immediately derived from refining oil or natural gas), and to aircraft or repair parts used by a certified air carrier acquired in or imported into Texas which are destined to be forwarded outside of Texas and which are detained in Texas for assembling, storing, manufacturing, processing or fabricating for less than 175 days. Although certain taxing units may take official action to tax such property in transit and negate such exemption, the District does not have such an option. A "Goods-in-Transit Exemption" is applicable to certain tangible personal property, as defined by the Property Tax Code, acquired in or imported into Texas for storage purposes and which is stored under a contract of bailment by a public warehouse operator at one or more public warehouse facilities in Texas that are not in any way owned or controlled by the owner of such property for the account of the person who acquired or imported such property. The exemption excludes oil, natural gas, petroleum products, aircraft, and certain special inventory including dealer's motor vehicles, dealer's vessel and outboard motor vehicle, dealer's heavy equipment and retail manufactured housing inventory. The exemption applies to covered property if it is acquired in or imported into Texas for assembling, storing, manufacturing, processing, or fabricating purposes and is subsequently forwarded to another location inside or outside of Texas not later than 175 days after acquisition or importation. A property owner who receives the Goods-in-Transit Exemption is not eligible to receive the Freeport Exemption for the same property. Local taxing units such as the District may, by official action and after public hearing, tax goods-in-transit personal property. A taxing unit must exercise its option to tax goods-in-transit property before January 1 of the first tax year in which it proposes to tax the property at the time and in the manner prescribed by applicable law. However, taxing units who took official action as allowed by prior law before October 1, 2011, to tax goods-in-transit property, and who pledged such taxes for the payment of debt, may continue to impose taxes against the goods-in-transit property until the debt is discharged without further action, if cessation of the imposition would impair the obligations of the contract by which the debt was created. The District has not exercised its option to tax goods-in-transit personal property but may choose to do so in the future.

Certain Tax Exemptions Provided for Affordable Housing

Certain multi-family housing may be exempt from ad valorem taxation by the District pursuant to Chapter 303 of the Texas Local Government Code (the "PFC Act"), Chapter 392 of the Texas Local Government Code (the

"Housing Authority Act"), or Chapter 394 of the Texas Local Government Code (the "HFC Act"), if certain conditions are met.

The PFC Act authorizes cities, counties, school districts, housing authorities and special districts (a "Sponsor") to create a sponsored Public Facility Corporation ("PFC") to acquire, construct, rehabilitate, renovate, repair, equip, furnish and place in service public facilities. These activities may be financed through certain obligations of either the Sponsor or the PFC. Under the PFC Act, a "public facility" includes any real, personal, or mixed property, or an interest in property devoted or to be devoted to public use, and authorized to be financed under the PFC Act. A public facility, including a leasehold estate in a public facility, that is owned by a PFC is exempt from taxation by the State or a municipality or other political subdivision of the State, including the District. This exemption applies to both ad valorem and sales taxes levied by such taxing authorities. Subject to certain restrictions, a leasehold or other possessory interest granted by the PFC to the user of a PFC-owned multifamily residential development entitles that user to this same exemption. A PFC project approved on or after June 18, 2023, does not qualify for an exemption with respect to taxes imposed by a conservation and reclamation district providing water, sewer, or drainage services to the development, unless an agreement is entered into with the district concerning payments in lieu of taxation. Projects for which PFC or Sponsor approval was received prior to the effective date of H.B. 2071 are governed by the prior law and are not subject to the same requirements. The District is not aware of any public facilities located within the boundaries of the District that are either owned or leased by a PFC.

The HFC Act provides for the formation of housing finance corporations ("HFCs") by municipalities and counties for the purpose of providing decent, safe, and sanitary housing at affordable prices to residents of local governments. Public property owned by an HFC, including property for which an HFC holds an equitable interest, is exempt from taxes imposed by the state or any political subdivision of the state, including conservation and reclamation districts such as the District, provided certain conditions are met under the HFC Act. This exemption applies to both ad valorem and sales taxes levied by taxing authorities where the qualified project is located. Section 394.904(d) (as added by H.B. 21, 89th Texas Legislature, Regular Session) provides in part that, for property acquired by an HFC after May 28, 2025, such ad valorem tax exemptions do not apply to taxes levied by a conservation or reclamation district created under Section 52, Article III, or Section 59, Article XVI, Texas Constitution, that provides water, sewer, or drainage service to the multifamily residential development owned by the HFC, unless the applicable HFC has entered into a written agreement with the district to make a payment to the district in lieu of taxation, in the amount specified in the agreement. Further, property acquired by an HFC prior to May 28, 2025, may become subject to taxation by a conservation and reclamation district in future tax years unless certain additional requirements are met under the HFC Act. The District is not aware of any public property located within the boundaries of the District that is owned by an HFC.

The Housing Authority Act authorizes cities and counties to create housing authorities to provide safe and sanitary housing for persons of low income within the area of operation of the housing authority. Multi-family property owned by a housing authority, including property for which a housing authority holds an equitable interest, is exempt from all taxes and special assessments of a city, county, the state, or another political subdivision, including conservation and reclamation districts such as the District, if certain conditions are met under the Housing Authority Act. The District is not aware of any public property located within the boundaries of the District that is owned by a housing authority.

General Residential Homestead Exemption

Texas law authorizes the governing body of each political subdivision in the State of Texas to exempt up to twenty percent (20%) of the appraised value of residential homesteads, but not less than \$5,000 if any exemption is granted, from ad valorem taxation. The law provides, however, that where ad valorem taxes have previously been pledged for the payment of debt, the governing body of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged, if the cessation of the levy would impair the obligations of the contract by which the debt was created. For the 2025 tax year, the District has not granted a general residential homestead exemption.

Valuation of Property for Taxation

Generally, property in the District must be appraised by the Appraisal District at market value as of January 1 of each year. Assessments under the Property Tax Code are to be based upon one hundred percent (100%) of market value. The appraised value of residential homestead property may be limited to the lesser of the market value of the property, or the sum of the appraised value of the property for the last year in which it was appraised, plus ten percent (10%) of such appraised value multiplied by the number of years since the last appraisal, plus the market value of all new improvements to the property. Once an appraisal roll is prepared and approved by the Appraisal Review Board, it is used by the District in establishing its tax rate. The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraised values. The plan must provide for appraisal of all real property by the Appraisal District at least once every three (3) years. It is not known what frequency of reappraisal will be utilized by the Appraisal District or whether reappraisals will be conducted on a zone or county-wide basis.

The Property Tax Code provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as the District, adopting its tax rate for the tax year. A taxing unit, such as the District, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

District and Taxpayer Remedies

Under certain circumstances, taxpayers and taxing units, including the District, may appeal orders of the Appraisal Review Board by filing a petition for review in district court within forty-five (45) days after notice is received that a final order has been entered. In such event, the property value in question may be determined by the court, or by a jury, if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to comply with the Property Tax Code. The District may challenge the exclusion of property from the appraisal rolls or the grant, in whole or in part, of an exemption.

Texas law provides for notice and hearing procedures prior to the adoption of an ad valorem tax rate by the District. Additionally, under certain circumstances, an election would be required to determine whether to approve the adopted total tax rate. See "Rollback of Operation and Maintenance Tax Rate." The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property values, appraisals that are higher than renditions and appraisals of property not previously on an appraisal roll.

Agricultural, Open Space, Timberland and Inventory Deferment

The Property Tax Code permits land designated for agricultural use (including wildlife management), open space, or timberland to be appraised at its value based on the land's capacity to produce agriculture or timber products rather than at its fair market value. The Property Tax Code permits, under certain circumstances, that residential real property inventory held by a person in the trade or business be valued at the price all such property would bring if sold as a unit to a purchaser who would continue the business. Landowners wishing to avail themselves of any of such designations must apply for the designation, and the Appraisal District is required by the Property Tax Code to act on each claimant's right to the designation individually. A claimant may waive the special valuation as to taxation by some political subdivisions and not as to others. If a claimant receives the designation and later loses it by changing the use of the property or selling it to an unqualified owner, the District can collect taxes based on the new use for the three (3) years prior to the loss of the designation for agricultural, timberland or open space land.

According to the District's Tax Assessor/Collector, as of January 1, 2025, 431.0728 acres of the land within the District are designated for agricultural use, open space, inventory deferment, or timberland.

Tax Abatement

The City and Harris County may designate all or part of the District as a reinvestment zone, and the District, Harris County, and (if it were to annex the area) the City may thereafter enter into tax abatement agreements with the owners of property within the zone. The tax abatement agreements may exempt from ad valorem tax, by the applicable taxing jurisdictions, and by the District, for a period of up to ten (10) years, all or any part of any increase in the assessed valuation of property covered by the agreement over its assessed valuation in the year in which the agreement is executed, on the condition that the property owner make specified improvements or repairs to the property in conformity with a comprehensive plan. According to the District's Tax Assessor/Collector, to date, none of the area within the District has been designated as a reinvestment zone.

Levy and Collection of Taxes

The District is responsible for the collection of its taxes, unless it elects to transfer such functions to another governmental entity. The District adopts its tax rate each year after it receives a tax roll certified by the Appraisal District. Taxes are due upon receipt of a bill therefor, and become delinquent after January 31 of the following year or thirty (30) days after the date billed, whichever is later, or, if billed after January 10, they are delinquent on the first day of the month next following the twenty-first (21st) day after such taxes are billed. A delinquent tax accrues interest at a rate of one percent (1%) for each month or portion of a month the tax remains unpaid beginning the first calendar month it is delinquent. A delinquent tax also incurs a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent plus a one percent (1%) penalty for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. However, a tax delinquent on July 1 incurs a total penalty of twelve percent (12%) of the amount of the delinquent tax without regard to the number of months the tax has been delinquent, which penalty remains at such rate without further increase. If the tax is not paid by July 1, an additional penalty of up to the amount of the compensation specified in the District's contract with its delinquent tax collection attorney, but not to exceed twenty percent (20%) of the total tax, penalty, and interest, may, under certain circumstances, be imposed by the District. With respect to personal property taxes that become delinquent on or after February 1 of a year and that remain delinquent sixty (60) days after the date on which they become delinquent, as an alternative to the penalty described in the foregoing sentence, an additional penalty on personal property of up to the amount specified in the District's contract with its delinquent tax attorney, but not to exceed twenty percent (20%) of the total tax, penalty and interest, may, under certain circumstances, be imposed by the District prior to July 1. The District's contract with its delinquent tax collection attorney currently specifies a twenty percent (20%) additional penalty. The District may waive penalties and interest on delinquent taxes only for the items specified in the Texas Property Tax Code. The Property Tax Code also makes provision for the split payment of taxes, discounts for early payment and the postponement of the delinquency of taxes under certain circumstances.

The owner of a residential homestead property who is (i) a person sixty-five (65) years of age or older, (ii) under a disability for purpose of payment of disability insurance benefits under the Federal Old Age Survivors and Disability Insurance Act, or (iii) qualifies as a disabled veteran under Texas law is also entitled by law to pay current taxes on a residential homestead in installments or to defer the payment of taxes without penalty during the time of ownership. Additionally, a person who is delinquent on taxes for a residential homestead is entitled to an agreement with the District to pay such taxes in installments over a period of between 12 and 36 months (as determined by the District) when such person has not entered into another installment agreement with respect to delinquent taxes with the District in the preceding 24 months.

Rollback of Operation and Maintenance Tax Rate

Chapter 49 of the Texas Water Code classifies municipal utility districts differently based on their current operation and maintenance tax rate or on the percentage of projected build-out that a district has completed. Districts that have adopted an operation and maintenance tax rate for the current year that is 2.5 cents or less per \$100 of taxable value are classified herein as "Low Tax Rate Districts." Districts that have financed, completed, and issued bonds to pay for all land, improvements and facilities necessary to serve at least 95% of

the projected build-out of the district are classified as “Developed Districts.” Districts that do not meet either of the classifications previously discussed can be classified herein as “Developing Districts.” The impact each classification has on the ability of a district to increase its maintenance and operations tax rate is described for each classification below. Debt service and contract tax rates cannot be reduced by a rollback election held within any of the districts described below.

Low Tax Rate Districts: Low Tax Rate Districts that adopt a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Low Tax Rate District is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.08 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions.

Developed Districts: Developed Districts that adopt a total tax rate that would impose more than 1.035 times the amount of the total tax imposed by the district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, plus any unused increment rates, as calculated and described in Section 26.013 of the Tax Code, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Developed District is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.035 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions, plus any unused increment rates. In addition, if any part of a Developed District lies within an area declared for disaster by the Governor of Texas or President of the United States, alternative procedures and rate limitations may apply for a temporary period. If a district qualifies as both a Low Tax Rate District and a Developed District, the district will be subject to the operation and maintenance tax threshold applicable to Low Tax Rate Districts.

Developing Districts: Districts that do not meet the classification of a Low Tax Rate District or a Developed District can be classified as Developing Districts. The qualified voters of these districts, upon the Developing District's adoption of a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, are authorized to petition for an election to reduce the operation and maintenance tax rate. If an election is called and passes, the total tax rate for Developing Districts is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.08 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions.

The District: A determination as to a district's status as a Low Tax Rate District, Developed District or Developing District will be made by the Board of Directors on an annual basis. For the 2025 tax year, the District was determined to be a Developing District. The District cannot give any assurances as to what its classification will be at any point in time or whether the District's future tax rates will result in a total tax rate that will reclassify the District into a new classification and new election calculation.

District's Rights in the Event of Tax Delinquencies

Taxes levied by the District are a personal obligation of the owner of the property against which the tax is levied. In addition, on January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of each taxing unit, including the District, having power to tax the property. The District's tax lien is on a parity with tax liens of other such taxing units (see “TAX DATA—Estimated Overlapping Taxes”). A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien,

whether or not the debt or lien existed before the attachment of the tax lien. Further, personal property under certain circumstances is subject to seizure and sale for the payment of delinquent taxes, penalties, and interest.

Except with respect to (i) owners of residential homestead property who are sixty-five (65) years of age or older or under a disability as described above and who have filed an affidavit as required by law and (ii) owners of residential homesteads who have entered into an installment agreement with the District for payment of delinquent taxes as described above and who are not in default under said agreement, at any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the District must join other taxing units that have claims for delinquent taxes against all or part of the same property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, or by taxpayer redemption rights (a taxpayer may redeem property that is a residence homestead or was designated for agricultural use within two (2) years after the deed issued at foreclosure is filed of record and may redeem all other property within six (6) months after the deed issued at foreclosure is filed of record) or by bankruptcy proceedings which restrict the collection of taxpayer debt. The District’s ability to foreclose its tax lien or collect penalties and interest may be limited on property owned by a financial institution which is under receivership by the Federal Deposit Insurance Corporation pursuant to the Federal Deposit Insurance Act, 12 U.S.C. 1825, as amended. Generally, the District’s tax lien and a federal tax lien are on par with the ultimate priority being determined by applicable federal law. See “RISK FACTORS—Tax Collection Limitations.”

TAX DATA

Debt Service Tax

All taxable property within the District is subject to the assessment, levy, and collection by the District of an annual ad valorem tax, without legal limitation as to rate or amount, sufficient to pay principal of and interest on the Bonds and any future tax-supported bonds that may be issued from time to time as authorized. See “TAXING PROCEDURES.” The Board covenants in the Bond Order to assess and levy for each year that all or any part of the Bonds remain outstanding and unpaid a tax sufficient to produce funds to pay the principal of and interest on the Bonds. The actual rate of such tax will be determined from year to year as a function of the District’s tax base, its debt service requirements, and its available funds. The District also has the power and authority to assess, levy, and collect ad valorem taxes, not to exceed \$1.50 per \$100 of assessed valuation, for operation and maintenance purposes.

Maintenance and Operations Tax

The Board has the statutory authority to levy and collect an annual ad valorem tax for administrative expenses and maintenance of the District’s water, sewer and drainage improvements, if such maintenance tax is authorized by a vote of the District’s electorate. On May 6, 2023, voters of the District authorized the levy of such maintenance tax in an amount not to exceed \$1.50 per \$100 assessed valuation. Said tax may be levied in addition to taxes which the District is authorized to levy for paying principal of and interest on the Bonds and any parity bonds that may be issued in the future. For the 2024 tax year, the District levied a tax rate of \$1.50 for maintenance and operations per \$100 of assessed valuation. For the 2025 tax year, the District anticipates that it will levy a tax rate of \$1.50 for maintenance and operations per \$100 of assessed valuation.

Tax Rate Limitation

Debt Service:	Unlimited (no legal limit as to rate or amount)
Maintenance and Operations:	\$1.50 per \$100 of Assessed Valuation.

Historical Tax Collections

The following table illustrates the collection history of the District for the 2024 tax year. The 2024 tax year was the first tax year in which the District levied a tax.

<u>Tax Year</u>	<u>Assessed Valuation</u>	<u>Tax Rate (a)</u>	<u>Adjusted Levy</u>	<u>Collections Current Year</u>	<u>Current Year Ended 9/30</u>	<u>Collections 06/30/2025</u>
2024	\$336,799	\$1.50	\$5,052	100.00%	2025	100.00%

(a) See “Tax Rate Distribution” herein.

Tax Rate Distribution

The 2024 tax year was the first tax year in which the District levied a tax. For the 2024 tax year, the District levied a total tax rate of \$1.50 per \$100 of assessed valuation made up entirely of a tax for maintenance and operations. For the 2025 tax year, the District anticipates that will also levy a total tax rate of \$1.50 per \$100 of assessed valuation made up entirely of a tax for maintenance and operations.

	2024
Debt Service	\$0.000
Maintenance and Operations	<u>\$1.500</u>
Total	\$1.500

Analysis of Tax Base

The following table illustrates the District's total taxable assessed value in the 2024–2025 tax years by type of property.

Type of Property	2025 Taxable Assessed Valuation	2024 Taxable Assessed Valuation
Land	\$19,206,416	\$336,799
Improvements		
Personal Property		
Exemptions	250,253	
Total	<u>\$ 18,956,163</u>	<u>\$ 336,799</u>

Principal Taxpayers

The following represents the principal taxpayers, type of property, and the taxable assessed values according to the Appraisal District related to the District's 2025 Certified Taxable Assessed Valuation.

Taxpayer	Property	Certified Assessed Valuation 2025 Tax Roll	Percentage of Assessed Valuation 2025 Tax Roll
TPG AG EHC III (LEN) Multi State I LLC (a)	Land	\$13,391,728	70.646%
Lennar Homes of Texas Land and Construction, Ltd. (a)	Land	3,365,711	17.755%
Millrose Properties Texas LLC (a)	Land	2,146,413	11.323%
LHR Harris County 4 LTD	Land	40,441	0.213%
LHR Harris County 2 LTD	Land	9,584	0.051%

Director's Lot	Land	250	0.001%
Director's Lot	Land	250	0.001%
Director's Lot	Land	250	0.001%
Director's Lot	Land	250	0.001%
Total		<u>\$18,955,895</u>	<u>99.999%</u>

(a) See "THE DEVELOPER/PRINCIPAL LANDOWNERS."

Estimated Overlapping Taxes

Property within the District is subject to taxation by several taxing authorities in addition to the District. Under Texas law, if ad valorem taxes levied by a taxing authority become delinquent, a lien is created upon the property which has been taxed. A tax lien on property in favor of the District is on parity with tax liens of other taxing jurisdictions. In addition to ad valorem taxes required to make debt service payments on bonded debt of the District and of such other jurisdictions (see "DISTRICT DEBT—Direct and Estimated Overlapping Debt Statement"), certain taxing jurisdictions are authorized by Texas law to assess, levy and collect ad valorem taxes for operation, maintenance, administrative and/or general revenue purposes.

Set forth below is a compilation of all 2024 taxes levied by such jurisdictions per \$100 of assessed valuation. Such levies do not include local assessments for community associations, fire department contributions, charges for solid waste disposal, or any other dues or charges made by entities other than political subdivisions.

Taxing Jurisdiction	2024 Tax Rate
The District	\$1.500000
Harris County	0.385290
Harris County Flood Control District	0.048970
Port of Houston Authority	0.006150
Harris County Hospital District	0.163480
Harris County Department of Education	0.004799
Harris County ESD No. 4	0.100000
Huffman Independent School District	<u>1.073700</u>
Total Tax Rate	\$3.282389

Tax Rate Calculations

The tax rate calculations set forth below are presented to indicate the tax rates per \$100 of taxable assessed valuation that would be required to meet certain debt service requirements for the Bonds if no growth in the District occurs beyond the District’s taxable assessed valuation as of January 1, 2025 (\$18,956,163) and the District’s estimated taxable assessed valuation as of September 1, 2025 (\$39,455,544). The following further assumes collection of 95% of taxes levied, sale of the Bonds, and the sale of no additional bonds:

Estimated Average Annual Debt Service Requirement (2026–2051)	\$ 208,990
Tax Rate of \$1.17 on the 2025 Certified Taxable Assessed Valuation produces	\$ 210,698
Tax Rate of \$0.56 on the Estimate of Value as of September 1, 2025, produces	\$ 209,903
Estimated Maximum Annual Debt Service Requirement (2027)	\$ 215,000
Tax Rate of \$1.20 on the 2025 Certified Taxable Assessed Valuation produces	\$ 216,100
Tax Rate of \$0.58 on the Estimate of Value as of September 1, 2025, produces	\$ 217,400

THE DISTRICT

General

The District is a municipal utility district created by order of the TCEQ dated November 2, 2009, under Article XVI, section 59 of the Texas Constitution, and operates under the provisions of Chapters 49 and 54 of the Texas Water Code, as amended, and other general statutes of the State of Texas applicable to municipal utility districts. The District, which lies wholly within the extraterritorial jurisdiction of the City and is subject to the continuing supervisory jurisdiction of the TCEQ.

The District is empowered, among other things, to finance, purchase, construct, operate, and maintain all works, improvements, facilities, and plants necessary for the supply and distribution of water; the collection, transportation and treatment of wastewater; and the control and diversion of storm water. The District may issue bonds and other forms of indebtedness to purchase or construct such facilities. The District may also provide solid waste disposal and collection services. The District is also empowered to establish, operate, and maintain fire-fighting facilities, separately or jointly with one or more conservation and reclamation districts, municipalities or other political subdivisions, after approval by the TCEQ and the voters of the District. Additionally, the District may, subject to certain limitations, develop and finance recreational facilities and may also, subject to limitations, develop and finance roads. See “THE BONDS—Issuance of Additional Debt,” “—Financing Recreational Facilities,” and “—Financing Road Facilities.”

The District is required to observe certain requirements of the City which limit the purposes for which the District may sell bonds to finance the acquisition, construction, and improvement of waterworks, wastewater, drainage, recreational, road and fire-fighting facilities and the refunding of outstanding debt obligations; limit the net effective interest rate on such bonds and other terms of such bonds; require approval by the City of District construction plans; and permit connections only to lots and reserves described in a plat that has been approved by the City and filed in the real property records of Harris County.

The District is also required to obtain certain TCEQ approvals prior to acquiring, constructing and financing road and firefighting facilities, as well as voter approval of the issuance of bonds for said purposes and/or for the purposes of financing recreational facilities. Construction and operation of the District's drainage system is subject to the regulatory jurisdiction of additional State of Texas and local agencies. See "THE UTILITY SYSTEM."

Description

The District is located approximately 30 miles northeast of the central downtown business district of the City of Houston, Texas. The District lies wholly within the extraterritorial jurisdiction of the City of Houston, Texas and wholly within the boundaries of the Huffman Independent School District. The District is bounded on the west by the East Fork of the San Jacinto River, on the south by residential development, on the east by Huffman Cleveland Road and on the north by Northwood Country Road, which is the primary access road to the District.

Management of the District

The District is governed by the Board, which consists of five directors and has control and management supervision over all affairs of the District. All of the directors currently own property in the District. Directors are elected in May of even-numbered years for four-year staggered terms. The present members and officers of the Board and their positions are listed below:

<u>Name</u>	<u>Position</u>	<u>Term Expires May</u>
Cody Christoph	President	2026
Paul Hernandez	Vice President	2026
Kelly Layne	Secretary	2026
Andrew Taylor	Assistant Secretary	2028
Suzanne Brann	Assistant Secretary	2028

The District has contracted with the following companies to operate its facilities and perform certain other services:

Tax Assessor/Collector: The District's tax assessor/collector is B&A Municipal Tax Services, L.P. (the "Tax Assessor/Collector"). The Tax Assessor/Collector applies the District's tax levy to tax rolls prepared by the Appraisal District and bills and collects such levy.

Bookkeeper: The District's bookkeeper is Municipal Accounts & Consulting, L.P.

Operator: The District's water and sewer system is operated by H2O Innovation Operation and Maintenance, LLC.

Auditor: The District has engaged Mark C. Eyring, CPA, PLLC, to prepare an audit of the District's financial statements for the District's fiscal year ended July 31, 2025. Such audited financial statements for the District's fiscal year ended July 31, 2025, are expected to be finalized and filed with the TCEQ by December of 2025. For fiscal years ended prior to July 31, 2025, the District was not required under the Texas Water Code to retain an independent auditor to perform an audit of its financial statements. The District's unaudited financial statements for the fiscal year ended July 31, 2024, are attached as "APPENDIX A" and represent the District's most recent filing of financial statements with the TCEQ.

Engineer: The District's consulting engineer is BGE, Inc.

Bond Counsel and General Counsel: Schwartz, Page & Harding, L.L.P. ("Bond Counsel") serves as bond counsel to the District. The fee to be paid Bond Counsel for services rendered in connection with the issuance of the Bonds is contingent upon the sale and delivery of the Bonds. In addition, Schwartz, Page & Harding, L.L.P. serves as general counsel to the District on matters other than the issuance of bonds.

Disclosure Counsel: The District has engaged McCall, Parkhurst & Horton L.L.P., Houston, Texas, as Disclosure Counsel in connection with the issuance of the Bonds. The fees of Disclosure Counsel are contingent upon the sale and delivery of the Bonds.

Financial Advisor: Robert W. Baird & Co. Incorporated serves as the District’s financial advisor (the “Financial Advisor”). The fee for services rendered in connection with the issuance of the Bonds is based on a percentage of the Bonds actually issued, sold, and delivered and, therefore, such fee is contingent upon the sale and delivery of the Bonds.

STATUS OF DEVELOPMENT

Status of Development

Land within the District is being developed as the master-planned community known as “Sila.” Completed residential development currently consists of approximately 460 single-family lots that have been developed within the following three (3) subdivisions that encompass a total of approximately 85.3 acres: Sila, Sections 1–3.

As of October 10, 2025, according to Lennar Homes, approximately 2 homes were completed (approximately 0 occupied, approximately 0 unoccupied, and 2 model homes), approximately 128 homes were under construction (14 of which were under contract for sale), and approximately 330 developed lots were vacant and available for home construction.

In addition, the following two (2) subdivisions (encompassing a total of approximately 41.7 acres) are currently under construction: Sila, Section 5, and Sila, Section 8. Upon expected completion of such subdivisions in the fourth quarter of 2025, the District will include an additional 212 single-family lots available for new home construction.

The remainder of the land in the District is made up of approximately 16.9 acres for collector roads and adjacent reserves, approximately 3.4 acres for a site for the District’s water plant, approximately 7.3 acres for a site for the District’s wastewater treatment plant, approximately 68.8 acres for drainage/detention reserves, approximately 389.3 acres for other undevelopable lands, and approximately 316.1 acres that are planned for future development.

Development and construction activity in the District as of October 10, 2025, is summarized below.

	Section Acreage(a)	Section Lots	Homes Completed	Homes Under Construction	Vacant Lots
Sila, Section 1	25.25	110	0	53	57
Sila, Section 2	34.15	160	2	47	111
Sila, Section 3	25.94	190	0	28	162
Total Residential Developed	85.34	460	2	128	330
Residential Under Construction	41.7				
Water Plant Site	3.4				
Wastewater Treatment Site	7.3				
Collector Roads	16.9				
Undevelopable	389.3				
Remaining Developable	316.1				
Drainage/Detention	68.8				
District Total Acreage	928.8				

(a) Represents the entire platted acreage of the subdivision.

Homebuilder Active within the District

Lennar Homes is the sole homebuilder in the District. New homes being constructed in the District range in price from approximately \$150,000 to \$335,000 and in size from approximately 1,010 to 2,530 square feet

THE DEVELOPER/PRINCIPAL LANDOWNERS

The Role of a Developer

In general, the activities of a developer in a municipal utility district such as the District include purchasing the land within the District, designing the utilities and streets to be constructed in the community, designing any community facilities to be built, defining a marketing program and building schedule, securing necessary governmental approvals and permits for development, arranging for the construction of roads and the installation of utilities (including, in some cases, water, wastewater, and drainage facilities pursuant to the rules of the TCEQ, as well as gas, telephone and electric service) and selling commercial reserves to builders, developers, or other third parties. In certain instances, the developer will be required to pay up to thirty percent of the cost of constructing certain of the water, wastewater and drainage and recreational facilities in a municipal utility district pursuant to the rules of the TCEQ. The relative success or failure of a developer to perform such activities in development of its property within a municipal utility district may have a profound effect on the security of the unlimited tax bonds issued by a district. A developer is generally under no obligation to a district to develop the property which it owns in a district. Furthermore, there is no restriction on a developer's right to sell any or all of the land which it owns within a district. In addition, a developer is ordinarily a major taxpayer within a municipal utility district during the development phase of the property.

Description

The developer of land within the District is Lennar Homes of Texas Land and Construction, LTD., a Texas limited partnership, doing business as Friendswood Development Company ("Lennar Homes" or the "Developer").

The General Partner of Lennar Homes is U.S. Home, LLC, a Delaware limited liability company, which is wholly owned by Lennar Corporation. Lennar Corporation is a publicly traded corporation whose stock is listed on the New York Stock Exchange. Audited financial statements for Lennar Corporation can be found online at <https://investors.lennar.com/financials>. Lennar Corporation is subject to the information requirements of the Securities Exchange Act of 1934, as amended, and in accordance therewith files reports and other information with the United States Securities and Exchange Commission ("SEC"). Reports, proxy statements and other information filed by Lennar Corporation can be inspected at the office of the SEC at Judiciary Plaza, Room 1024, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of such material can be obtained from the Public Reference Section of the SEC at 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates. Copies of the above reports, proxy statements and other information may also be inspected at the offices of the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005. The SEC maintains a website at <http://www.sec.gov> that contains reports, proxy information statements and other information regarding registrants that file electronically with the SEC. Lennar Corporation's activities include homebuilding, real estate investments, residential and commercial developments, and financial services operations throughout the United States.

In 2024, the Developer sold approximately 296.6 acres in the District to TPG AG EHC III (LEN) Multi State I, LLC, a Delaware limited liability company ("TPG"). The Developer manages the development of the lots within the District for TPG and has retained the right to reimbursement of the public infrastructure constructed on such acreage. TPG serves as a land bank for Lennar Homes and acquired such 296.6 acres for the purpose of owning and holding single-family lots and sells developed lots to Lennar Homes as needed for homebuilding. The three residential subdivisions completed to date, Sila, Sections 1-3, which include a total of 460 lots, have been developed within such 296.6 acres. As of October 10, 2025, Lennar Homes has acquired 330 developed single-family lots such subdivisions.

Millrose Properties Texas, LLC, a Texas limited liability company ("Millrose"), is the owner of approximately 265.2 acres in the District. The Developer manages the development of the lots within the District for Millrose and has retained the right to reimbursement of the public infrastructure constructed on such acreage. Millrose serves as a land bank for Lennar Homes and acquired such 265.2 acres for the purpose of owning and holding single-family lots and is anticipated to sell developed lots to Lennar Homes as needed for homebuilding.

Prospective purchasers of the Bonds should note that the prior real estate experience of a developer should not be construed as an indication that further development within the District will occur, construction of taxable improvements upon property within the District will occur, or that marketing or leasing of taxable

improvements constructed upon property within the District will be successful. Circumstances surrounding development within the District may differ from circumstances surrounding development of other land in several respects, including the existence of different economic conditions, financial arrangements, homebuilders, geographic location, market conditions, and regulatory climate.

THE UTILITY SYSTEM

Regulation

According to the Engineer, the District's water distribution, wastewater collection and drainage facilities have been designed in accordance with accepted engineering practices and the requirements of all governmental agencies having regulatory or supervisory jurisdiction over the construction and operation of such facilities including, among others, the TCEQ, the City of Houston, and the Harris County Flood Control District. According to the Engineer, the design of all such facilities has been approved by all required governmental agencies.

Water Supply

Water supply to the District is provided by facilities owned and operated by the District. The District's water supply facilities currently consist of one water plant.

The major components of the District's water supply facilities have the capacity to serve approximately 250 equivalent single-family connections ("ESFCs"), which increases to 1,000 ESFC's once construction of the second water well at the District's water plant is complete, which is currently estimated to be in the second quarter of 2026.

Subsidence and Conversion to Surface Water Supply

The District is within the boundaries of the Harris-Galveston Subsidence District (the "Subsidence District"), which regulates groundwater withdrawal. The Subsidence District has adopted regulations requiring reduction of groundwater withdrawals through conversion to alternate source water (e.g., surface water) in certain areas within the Subsidence District's jurisdiction, including the area within the District.

The District's authority to pump groundwater from the facilities noted above is subject to an annual permit issued by the Subsidence District, and the District's groundwater withdrawals under such annual permit are subject to certain permit fees imposed by the Subsidence District. Permit fees imposed by the Subsidence District are imposed upon the amount of authorized groundwater withdrawals and include a base fee (currently, \$0.026 per 1,000 gallons) and a disincentive fee (currently, \$12.120 per 1,000 gallons).

Permittees with a total water demand greater than 10 million gallons per year may avoid payment of disincentive fees by submitting to the Subsidence District and receiving certification by the Subsidence District of a groundwater reduction plan ("GRP") so long as the permittees comply with the groundwater reduction goals and other milestones in the GRP. A GRP must, at a minimum, include details of the strategies and steps necessary for achieving groundwater reductions applicable to the regulatory area where the member permittees are located.

Currently, the District's groundwater withdrawals are not included in a certified GRP. However, the District intends that its groundwater withdrawals be included in a GRP certified by the Subsidence District in the future.

Wastewater

Phase 1 of the District's wastewater treatment facility is substantially complete and will be operated by the District pursuant to a lease agreement with AUC Group, L.P. ("AUC"). Phase 1 of the wastewater treatment facility consists of one plant with a total capacity of 210,000 gallons per day ("GPD"). The wastewater treatment capacity at phase 1 of the wastewater plant will serve 700 equivalent single-family connections.

Under the lease agreement with AUC, the District is responsible for monthly lease payments of \$30,350 over the 60-month (5-year) term of the lease. In order to fully provide wastewater treatment for ultimate development in the District, the wastewater treatment facility will need to be expanded from time to time to meet the wastewater treatment demands of the District.

Drainage

The District is located within the East Fork San Jacinto watershed. Storm water runoff is conveyed throughout the District by way of overland sheet flow to roadway curb inlets, into underground piped storm sewer systems, thence into manmade channels and detention ponds to unnamed tributaries of the East Fork San Jacinto River, or directly to the East Fork San Jacinto River.

Multiple drainage system improvements, such as an underground storm sewer drainage system and detention facilities, have been constructed and completed to serve development in the District. All platted subdivisions are primarily served with curb and gutter streets and underground storm sewers. Pavement is designed and constructed to direct water to a low point in the subdivision where the inlets and storm sewer system has been designed to accommodate the anticipated 100-year storm event. All other storm sewers upstream from this extreme event storm sewer system are designed to accommodate the anticipated 2-year storm event. All drainage facilities were designed in accordance with the minimum design criteria of the Harris County Flood Control District and Harris County.

Floodplain

"Flood Insurance Rate Map" or "FIRM" means an official map of a community on which the Federal Emergency Management Agency (FEMA) has delineated the appropriate areas of flood hazards. The 1% chance of probable inundation, also known as the 100-year flood plain, is depicted on these maps. The "100-year flood plain" (or 1% chance of probable inundation) as shown on the FIRM is the estimated geographical area that would be flooded by a rain storm of such intensity to statistically have a one percent chance of occurring in any given year. Generally speaking, homes must be built above the 100-year flood plain in order to meet local regulatory requirements and to be eligible for federal flood insurance. An engineering or regulatory determination that an area is above the 100-year flood plain is not an assurance that homes built in such area will not be flooded, and a number of neighborhoods in the greater Houston area that are above the 100-year flood plain have flooded multiple times in the last several years.

There are 371.0 acres within the District located in the 100-year flood plain, however these areas are not owned by the Developer, and are not proposed to be developed. All proposed areas of development within the District are located in Unshaded Zone "X" (outside of the East Fork San Jacinto River flood hazard area), according to the effective Flood Insurance Rate Map (FIRM 48201C0140L dated June 18, 2007), except for the land that is used to convey the detained storm water from the detention pond to the river.

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States ("Atlas 14"). Floodplain boundaries within the District may be redrawn based on the Atlas 14 study based on a higher statistical rainfall amount, resulting in the application of more stringent floodplain regulations applying to a larger area and potentially leaving less developable property within the District. The application of such regulations could additionally result in higher insurance rates, increased development fees, and stricter building codes for any property within the expanded boundaries of the floodplain.

THE ROAD SYSTEM

The roads within the District are designed to varying widths in adherence to the standards set by Harris County (the "County"), ensuring they can effectively handle the anticipated traffic demands once the property within the District is fully developed.

The Road System provides essential access for District residents to existing major thoroughfares and collectors along the northern and eastern boundaries of the District. The District is committed to financing, designing, and constructing the Road System in phases as the development progresses. Upon completion and acceptance by the County, the County will assume ownership, operation, and maintenance of the Road System. The District has no intention of maintaining or operating the roads once the County accepts them.

General Fund Operating Statement

The following sets forth in condensed form the results of the District's general operating fund for the District's fiscal years ended 2023 through 2025. The summary has been prepared by the Financial Advisor for inclusion herein based on information obtained from the District's unaudited financial statements and from reports of

the District's bookkeeper. See "APPENDIX A" for unaudited financial statements of the District for the fiscal year ended July 31, 2024, which are the most recent financial statements filed with the TCEQ.

	For Fiscal Year Ended July 31,		
	2025 (a)	2024 (a)	2023 (a)

(a) Unaudited.

LEGAL MATTERS

Legal Opinions

The District will furnish to the Initial Purchaser a transcript of certain certified proceedings incident to the issuance and authorization of the Bonds, including a certified copy of the approving legal opinion of the Attorney General of Texas, as recorded in the Bond Register of the Comptroller of Public Accounts of the State of Texas, to the effect that the Attorney General has examined a transcript of proceedings authorizing the issuance of the Bonds, and that based upon such examination, the Bonds are valid and binding obligations of the District payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District. The District will also furnish the approving legal opinion of Schwartz, Page & Harding, L.L.P., Houston, Texas, Bond Counsel, to the effect that, based upon an examination of such transcript, the Bonds are valid and binding obligations of the District under the Constitution and laws of the State of Texas, except to the extent that enforcement of the rights and remedies of the Registered Owners of the Bonds may be limited by laws relating to bankruptcy, reorganization, or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District and to the effect that interest on the Bonds is excludable from gross income for federal income tax purposes under the statutes, regulations, published rulings and court decisions existing on the date of such opinion, assuming compliance by the District with certain covenants relating to the use and investment of the proceeds of the Bonds. See "Tax Exemption" below. The legal opinion of Bond Counsel will further state that the Bonds are payable, both as to principal and interest, from the levy of ad valorem taxes, without legal limitation as to rate or amount, upon all taxable property within the District. Bond Counsel's opinion will also address the matters described below.

In addition to serving as Bond Counsel, Schwartz, Page & Harding, L.L.P., also serves as counsel to the District on matters not related to the issuance of bonds. The legal fees to be paid to Bond Counsel for services rendered in connection with the issuance of the Bonds are based upon a percentage of bonds actually issued, sold, and delivered, and, therefore, such fees are contingent upon the sale and delivery of the Bonds. Certain legal

matters will be passed upon for the District by McCall, Parkhurst & Horton L.L.P., Houston, Texas, as Disclosure Counsel.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

Legal Review

In its capacity as Bond Counsel, Schwartz, Page & Harding, L.L.P., has reviewed the information appearing in this Official Statement under the captioned sections "THE BONDS," "THE DISTRICT—General," and "—Management of the District—Bond Counsel and General Counsel," "TAXING PROCEDURES," and "LEGAL MATTERS" solely to determine whether such information fairly summarizes the law and documents referred to therein. Such firm has not independently verified factual information contained in this Official Statement, nor has such firm conducted an investigation of the affairs of the District for the purpose of passing upon the accuracy or completeness of this Official Statement. No person is entitled to rely upon such firm's limited participation as an assumption of responsibility for, or an expression of opinion of any kind with regard to, the accuracy or completeness of any of the other information contained herein.

Tax Exemption

On the date of initial delivery of the Bonds, Bond Counsel will render its opinion that, in accordance with statutes, regulations, published rulings, and court decisions existing on the date thereof ("Existing Law"), (1) interest on the Bonds for federal income tax purposes will be excludable from the "gross income" of the holders thereof, and (2) the Bonds will not be treated as "specified private activity bonds" the interest on which would be included as an alternative minimum tax preference item under Section 57(a)(5) of the Internal Revenue Code of 1986, as amended (the "Code"). Except as stated above, Bond Counsel will express no opinion as to any federal, state, or local tax consequences resulting from the ownership of, receipt of interest on or disposition of the Bonds.

In rendering its opinion, Bond Counsel will rely upon, and assume continuing compliance with, (a) certain information and representations of the District, including information and representations contained in the District's federal tax certificate issued in connection with the Bonds, and (b) covenants of the District contained in the Bond Order relating to certain matters, including arbitrage and the use of the proceeds of the Bonds and the property financed or refinanced therewith. Failure by the District to observe the aforementioned representations or covenants could cause the interest on the Bonds to become taxable retroactively to the date of issuance.

Bond Counsel's opinion represents its legal judgment based upon its review of Existing Law and the reliance on the aforementioned information, representations, and covenants. Bond Counsel's opinion is not a guarantee of a result. Existing Law, upon which Bond Counsel has based its opinion, is subject to change by Congress, administrative interpretation by the Department of the Treasury and to subsequent judicial interpretation. There can be no assurance that Existing Law or the interpretation thereof will not be changed in a manner which would adversely affect the tax treatment of ownership of the Bonds.

Qualified Tax-Exempt Obligations

Section 265(a) of the Code provides, in pertinent part, that interest paid or incurred by a taxpayer, including a "financial institution," on indebtedness incurred or continued to purchase or carry tax-exempt obligations is not deductible in determining the taxpayer's taxable income. Section 265(b) of the Code provides an exception to the disallowance of such deduction for any interest expense paid or incurred on indebtedness of a taxpayer that is a "financial institution" allocable to tax-exempt obligations, other than "private activity bonds," that are designated by a "qualified small issuer" as "qualified tax-exempt obligations." A "qualified small issuer" is any governmental issuer (together with any "on-behalf of" and "subordinate" issuers) who issues no more than \$10,000,000 of tax-exempt obligations during the calendar year. Section 265(b)(5) of the Code defines the term "financial institution" as any "bank" described in Section 585(a)(2) of the Code, or any person accepting

deposits from the public in the ordinary course of such person's trade or business that is subject to federal or state supervision as a financial institution. Notwithstanding the exception to the disallowance of the deduction of interest on indebtedness related to "qualified tax-exempt obligations" provided by Section 265(b) of the Code, Section 291 of the Code provides that the allowable deduction to a "bank," as defined in Section 585(a)(2) of the Code, for interest on indebtedness incurred or continued to purchase "qualified tax-exempt obligations" shall be reduced by twenty-percent (20%) as a "financial institution preference item."

The District will designate the Bonds as "qualified tax-exempt obligations" within the meaning of section 265(b) of the Code. In furtherance of that designation, the District will covenant to take such action that would assure, or to refrain from such action that would adversely affect, the treatment of the Bonds as "qualified tax-exempt obligations." Potential purchasers should be aware that if the issue price to the public exceeds \$10,000,000, there is a reasonable basis to conclude that the payment of a de minimus amount of premium in excess of \$10,000,000 is disregarded; however, the Internal Revenue Service could take a contrary view. If the Internal Revenue Service takes the position that the amount of such premium is not disregarded, then such obligations might fail to satisfy the aforementioned dollar limitation and the Bonds would not be "qualified tax-exempt obligations."

Collateral Federal Income Tax Consequences

The following discussion is a summary of certain collateral federal income tax consequences resulting from the purchase, ownership, or disposition of the Bonds. This discussion is based on Existing Law which is subject to change or modification retroactively.

Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences. The following discussion is applicable to investors, other than those who are subject to special provisions of the Code, including financial institutions, life insurance and property and casualty insurance companies, owners of interests in a FASIT, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, certain S corporations with accumulated earnings and profits and excess passive investment income, foreign corporations subject to the branch profits tax, taxpayers qualifying for the health insurance premium assistance credit, and individuals allowed an earned income credit. THE DISCUSSION CONTAINED HEREIN MAY NOT BE EXHAUSTIVE. INVESTORS, INCLUDING THOSE WHO ARE SUBJECT TO SPECIFIC PROVISIONS OF THE CODE, SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX TREATMENT WHICH MAY BE ANTICIPATED TO RESULT FROM THE PURCHASE, OWNERSHIP, AND DISPOSITION OF TAX-EXEMPT OBLIGATIONS BEFORE DETERMINING WHETHER TO PURCHASE THE BONDS.

Interest on the Bonds may be includable in certain corporation's "adjusted financial statement income" determined under Section 56A of the Code to calculate the alternative minimum tax imposed by Section 55 of the Code.

Under Section 6012 of the Code, holders of tax-exempt obligations, such as the Bonds, may be required to disclose interest received or accrued during each taxable year on their returns of federal income taxation.

Section 1276 of the Code provides for ordinary income tax treatment of gain recognized upon the disposition of a tax-exempt obligation, such as the Bonds, if such obligation was acquired at a "market discount" and if the fixed maturity of such obligation is equal to, or exceeds, one year from the date of issue. Such treatment applies to "market discount bonds" to the extent such gain does not exceed the accrued market discount of such bonds; although for this purpose, a de minimis amount of market discount is ignored. A "market discount bond" is one which is acquired by the holder at a purchase price which is less than the stated redemption price at maturity or, in the case of a bond issued at an original issue discount, the "revised issue price" (i.e., the issue price plus accrued original issue discount). The "accrued market discount" is the amount which bears the same ratio to the market discount as the number of days during which the holder holds the obligation bears to the number of days between the acquisition date and the final maturity date.

State, Local and Foreign Taxes

Investors should consult their own tax advisors concerning the tax implications of the purchase, ownership, or disposition of the Bonds under applicable state or local laws. Foreign investors should also consult their own tax advisors regarding the tax consequences unique to investors who are not United States persons.

Tax Accounting Treatment of Original Issue Discount Bonds and Premium Bonds

The initial public offering price to be paid for one or more maturities of the Bonds may be less than the principal amount thereof or one or more periods for the payment of interest on the Bonds may not be equal to the accrued period or be in excess of one year (the “Original Issue Discount Bonds”). The difference between (i) the “stated redemption price at maturity” of each Original Issue Discount Bond, and (ii) the initial offering price to the public of such Original Issue Discount Bond constitutes original issue discount with respect to such Original Issue Discount Bond in the hands of any owner who has purchased such Original Issue Discount Bond in the initial public offering of the Bonds. The “stated redemption price at maturity” means the sum of all payments to be made on the Bonds less the amount of all periodic interest payments. Periodic interest payments are payments which are made during equal accrual periods (or during any unequal period if it is the initial or final period) and which are made during accrual periods which do not exceed one year.

Under Existing Law, such initial owner is entitled to exclude from gross income (as defined in Section 61 of the Code) an amount of income with respect to such Original Issue Discount Bond equal to that portion of the amount of such original issue discount allocable to the period that such Original Issue Discount Bond continues to be owned by such owner. See “Tax Exemption” herein for a discussion of certain collateral federal tax consequences.

In the event of the redemption, sale or other taxable disposition of such Original Issue Discount Bond prior to stated maturity, however, the amount realized by such owner in excess of the basis of such Original Issue Discount Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such Original Issue Discount Bond was held by such initial owner) is includable in gross income.

Under Existing Law, the original issue discount on each Original Issue Discount Bond is accrued daily to the stated maturity thereof (in amounts calculated as described below for each six-month period ending on the date before the semiannual anniversary dates of the date of the Bonds and ratably within each such six-month period) and the accrued amount is added to an initial owner’s basis for such Original Issue Discount Bond for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (a) the sum of the issue price and amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (b) the amounts payable as current interest during such accrual period on such Bond.

The federal income tax consequences of the purchase, ownership, redemption, sale or other disposition of Original Issue Discount Bonds which are not purchased in the initial offering at the initial offering price may be determined according to rules which differ from those described above. ALL OWNERS OF ORIGINAL ISSUE DISCOUNT BONDS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE DETERMINATION FOR FEDERAL, STATE AND LOCAL INCOME TAX PURPOSES OF INTEREST ACCRUED UPON REDEMPTION, SALE OR OTHER DISPOSITION OF SUCH ORIGINAL ISSUE DISCOUNT BONDS AND WITH RESPECT TO THE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP, REDEMPTION, SALE OR OTHER DISPOSITION OF SUCH ORIGINAL ISSUE DISCOUNT BONDS.

The initial public offering price to be paid for certain maturities of the Bonds may be greater than the amount payable on such Bonds at maturity (the “Premium Bonds”). An amount equal to the difference between the initial public offering price of a Premium Bond (assuming that a substantial amount of the Premium Bonds of that maturity are sold to the public at such price) and the amount payable at maturity constitutes premium to the initial purchaser of such Premium Bonds. The basis for federal income tax purposes of a Premium Bond in the hands of such initial purchaser must be reduced each year by the amortizable bond premium. Such reduction in basis will increase the amount of any gain (or decrease the amount of any loss) to be recognized

for federal income tax purposes upon a sale or other taxable disposition of a Premium Bond. The amount of premium which is amortizable each year by an initial purchaser is determined by using such purchaser's yield to maturity. PURCHASERS OF THE PREMIUM BONDS SHOULD CONSULT WITH THEIR OWN TAX ADVISORS WITH RESPECT TO THE DETERMINATION OF AMORTIZABLE BOND PREMIUM WITH RESPECT TO THE PREMIUM BONDS FOR FEDERAL INCOME TAX PURPOSES AND WITH RESPECT TO THE STATE AND LOCAL TAX CONSEQUENCES OF OWNING PREMIUM BONDS.

NO MATERIAL ADVERSE CHANGE

The obligations of the Initial Purchaser to take and pay for the Bonds, and of the District to deliver the Bonds, are subject to the condition that, up to the time of delivery of and receipt of payment for the Bonds, there shall have been no material adverse change in the condition (financial or otherwise) of the District subsequent to the date of sale from that set forth or contemplated in the Official Statement, as it may have been supplemented or amended through the date of sale.

NO-LITIGATION CERTIFICATE

With the delivery of the Bonds, the President or Vice President and Secretary or Assistant Secretary of the Board will, on behalf of the District, execute and deliver to the Initial Purchaser a certificate dated as of the Date of Delivery, to the effect that no litigation of any nature of which the District has actual notice is pending against or, to the knowledge of the District's certifying officers, threatened against the District, either in state or federal courts, contesting or attacking the Bonds; restraining or enjoining the authorization, execution or delivery of the Bonds; affecting the provision made for the payment of or security for the Bonds; in any manner questioning the authority or proceedings for the authorization, execution or delivery of the Bonds; or affecting the validity of the Bonds, the corporate existence or boundaries of the District or the title of the then present officers and directors of the Board.

CONTINUING DISCLOSURE OF INFORMATION

The offering of the Bonds qualifies for the SEC Rule 15c2-12(d)(2) exemption from the SEC Rule 15c2-12(b)(5) regarding the District's continuing disclosure obligations because the District does not have more than \$10,000,000 in aggregate amount of bonds outstanding and no person is committed by contract or other arrangement with respect to the payment of the Bonds. In the Bond Order, the District has made the following agreement for the benefit of the registered and beneficial owners of the Bonds. The District is required to observe the agreement for so long as it remains obligated to advance funds to pay the Bonds. Under the agreement, the District will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified events, to the Municipal Securities Rulemaking Board (the "MSRB"). The MSRB has established the Electronic Municipal Market Access ("EMMA") system.

Annual Reports

The District will provide certain updated financial information and operating data to EMMA annually. The information to be updated with respect to the District includes all quantitative financial information and operating data found attached to this Official Statement as "APPENDIX A – Unaudited Financial Statements of the District." The District will update and provide this information within six months after the end of each of its fiscal years ending in or after 2025. The District will provide the updated information to EMMA.

Any information so provided shall be prepared in accordance with generally accepted accounting principles or other such principles as the District may be required to employ from time to time pursuant to state law or regulation, and audited if the audit report is completed within the period during which it must be provided. If the audit report is not complete within such period, then the District shall provide unaudited financial statements for the applicable fiscal year to EMMA within such six month period, and audited financial statements when the audit report becomes available. The District's current fiscal year end is July 31. Accordingly, it must provide updated information by December 31 in each year, unless the District changes its fiscal year. If the District changes its fiscal year, it will notify EMMA of the change.

Specified Event Notices

The District will provide timely notices of certain events to the MSRB, but in no event will such notices be provided to the MSRB in excess of ten business days after the occurrence of an event. The District will provide

notice of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701 TEB) or other material notices or determinations with respect to the tax-exempt status of the Bonds, or other events affecting the tax-exempt status of the Bonds; (7) modifications to rights of beneficial owners of the Bonds, if material; (8) bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the District; (13) consummation of a merger, consolidation, or acquisition involving the District or the sale of all or substantially all of the assets of the District, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material; (15) incurrence of a financial obligation of the District, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District, any of which affect security holders, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of the financial obligation of the District, any of which reflect financial difficulties. The term “financial obligation” when used in this paragraph shall have the meaning ascribed to it under federal securities laws including meaning a (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) a guarantee of (i) or (ii). The term “financial obligation” does not include municipal securities for which a final official statement has been provided to the Municipal Securities Rulemaking Board consistent with the Rule. The term “material” when used in this paragraph shall have the meaning ascribed to it under federal securities laws. Neither the Bonds nor the Bond Order makes any provision for debt service reserves or liquidity enhancement. In addition, the District will provide timely notice of any failure by the District to provide information, data, or financial statements in accordance with its agreement described above under “Annual Reports.”

Availability of Information from MSRB

The District has agreed to provide the information only to the MSRB. The MSRB has prescribed that such information must be filed via EMMA. The MSRB makes the information available to the public without charge and investors will be able to access continuing disclosure information filed with the MSRB at www.emma.msrb.org.

Limitations and Amendments

The District has agreed to update information and to provide notices of material events only as described above. The District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Bonds at any future date. The District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement, or from any statement made pursuant to its agreement, although registered owners of Bonds may seek a writ of mandamus to compel the District to comply with its agreement.

The District may amend its continuing disclosure agreement to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or operations of the District or the Developer, but only if the agreement, as amended, would have permitted an Initial Purchaser to purchase or sell Bonds in the offering described herein in compliance with SEC Rule 15c2-12, taking into account any amendments and interpretations of such Rule to the date of such amendment, as well as changed circumstances, and either the holders of a majority in aggregate principal amount of the outstanding Bonds consent or any person unaffiliated with the District (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the beneficial owners of the Bonds. The District may also amend or repeal the agreement if the SEC amends or repeals the applicable provisions of such Rule or a court of final jurisdiction determines that such provisions are invalid, but in either case only to the extent

that its right to do so would not prevent the Initial Purchaser from lawfully purchasing the Bonds in the offering described herein. If the District so amends the agreement, it has agreed to include with any financial information or operating data next provided in accordance with its agreement described above under “Annual Reports” an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of financial information and operating data so provided.

Compliance with Prior Undertakings

The Bonds are the first series of unlimited tax bonds to be issued by the District, therefore the District has not previously entered into a continuing disclosure agreement.

GENERAL CONSIDERATIONS

General

The information contained in this Official Statement has been obtained primarily from the District’s records, the Engineer, the Developer, the Tax Assessor/Collector, the Appraisal District, and other sources believed to be reliable; however, no representation is made as to the accuracy or completeness of the information contained herein, except as described below. The summaries of the statutes, orders and engineering and other related reports set forth herein are included subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions and reference is made to such documents for further information.

Updating of Official Statement

For the period beginning on the date of the award of the sale of the Bonds to the Initial Purchaser and ending on the ninety-first (91st) day after the “end of the underwriting period,” (as defined in Rule 15c(2)-12(f)(2) of the SEC), if any event shall occur of which the District has knowledge and as a result of which it is necessary to amend or supplement this Official Statement in order to make the statements herein, in light of the circumstances when this Official Statement is delivered to a prospective purchaser, not materially misleading, the District will promptly notify the Initial Purchaser of the occurrence of such event and will cooperate in the preparation of a revised Official Statement, or amendments or supplements hereto, so that the statements in this Official Statement, as revised, amended or supplemented, will not, in light of the circumstances when this Official Statement is delivered to a prospective purchaser, be materially misleading. The District assumes no responsibility for supplementing this Official Statement thereafter.

Certification as to Official Statement

The District, acting by and through its Board of Directors in its official capacity in reliance upon the experts listed above, hereby certifies, as of the date hereof, that to the best of its knowledge and belief, the information, statements and descriptions of, or pertaining to, the District and its affairs herein contain no untrue statements of a material fact and do not omit to state any material fact necessary to make the statements herein, in light of the circumstances under which they were made, not misleading. The information, descriptions, and statements concerning entities other than the District, including particularly other governmental entities, have been obtained from sources believed to be reliable, but the District has made no independent investigation or verification of such matters and makes no representation as to the accuracy or completeness thereof.

Concluding Statement

The information set forth herein has been obtained from the District’s records, audited financial statements and other sources which are considered to be reliable. There is no guarantee that any of the assumptions or estimates contained herein will ever be realized. All of the summaries of the statutes, documents, and resolutions contained in this Official Statement are made subject to all of the provisions of such statutes, documents, and resolutions. These summaries do not purport to be complete statements of such provisions and reference is made to such summarized documents for further information. Reference is made to official documents in all respects.

This Official Statement was approved by the Board of Directors of Harris County Municipal Utility District No. 514 as of the date shown on the first page hereof.
