

PRELIMINARY OFFICIAL STATEMENT DATED FEBRUARY 9, 2026

This Preliminary Official Statement is subject to completion and amendment and is intended solely for the solicitation of initial bids to purchase the Bonds. Upon sale of the Bonds, the Official Statement will be completed and delivered to the Underwriter.

IN THE OPINION OF BOND COUNSEL, UNDER EXISTING LAW, INTEREST ON THE BONDS (I) IS EXCLUDABLE FROM GROSS INCOME FOR FEDERAL INCOME TAX PURPOSES UNDER SECTION 103 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED, AND (II) IS NOT AN ITEM OF TAX PREFERENCE FOR PURPOSES OF THE ALTERNATIVE MINIMUM TAX ON INDIVIDUALS. SEE "TAX MATTERS" HEREIN, INCLUDING INFORMATION REGARDING POTENTIAL ALTERNATIVE MINIMUM TAX CONSEQUENCES FOR CORPORATIONS.

THE BONDS WILL NOT BE DESIGNATED "QUALIFIED TAX-EXEMPT OBLIGATIONS" FOR FINANCIAL INSTITUTIONS.

NEW ISSUE—Book-Entry-Only

Underlying Rating: Moody's "Baa2"
See "MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE" herein.

\$8,900,000
HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 171
(A political subdivision of the State of Texas located within Harris County)
ROAD CONTRACT REVENUE BONDS
SERIES 2026

The bonds described above (the "Bonds") are special obligations solely of Harris County Municipal Utility District No. 171 (the "Master District" or the "District" or "MUD 171") payable solely from and to the extent of payments required to be made to the Trustee (as herein defined) by the municipal utility districts within the Service Area (as defined herein) that have executed the Master District Contract as defined herein (the "Participants") from proceeds of an unlimited annual ad valorem tax without legal limit as to rate or amount levied by each Participant or from other revenues available to such Participant (the "Road Contract Payments"). Payment of Road Contract Payments by Participants and use of such proceeds by the Master District to pay debt service on the Bonds is governed by the Contracts for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities, as amended, between each Participant and the Master District (the "Master District Contract") as described more fully herein under "MASTER DISTRICT CONTRACT." The Bonds are special obligations of the Master District payable solely from the Road Contract Payments and are not obligations of the State of Texas, Harris County, the City of Houston, any of the Participants (except the Master District in its role as a Participant), or any entity other than the Master District.

Dated: April 1, 2026
Interest Accrual Date: Date of Delivery

Due: December 1, as shown below

The Bonds will be issued in fully registered form only, in denominations of \$5,000 or any integral multiple of \$5,000. Principal of the Bonds will be payable upon presentation of the Bonds at the principal payment office of the paying agent/registrars, initially The Bank of New York Mellon Trust Company, N.A. (the "Paying Agent/Registrar") in Houston, Texas. Interest on the Bonds accrues from the date of delivery (expected on or about April 14, 2026) (the "Date of Delivery") and is payable December 1, 2026, and each June 1 and December 1 thereafter until the earlier of maturity or redemption. Interest will be calculated on the basis of a 360-day year of twelve 30-day months.

The Bonds will be initially registered and delivered only in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Bonds. Beneficial owners of the Bonds will not receive physical certificates representing the Bonds, but will receive a credit balance on the books of the nominees of such beneficial owners. So long as Cede & Co. is the registered owner of the Bonds, the principal of and interest on the Bonds will be paid by the Paying Agent/Registrar directly to DTC, which will, in turn, remit such principal and interest to its participants for subsequent disbursement to the beneficial owners of the Bonds as described herein. See "BOOK-ENTRY-ONLY SYSTEM."

- (a) The Underwriter (as herein defined) may designate one or more maturities as term bonds. See accompanying "OFFICIAL NOTICE OF SALE" and "OFFICIAL BID FORM."
- (b) Bonds maturing on or after December 1, 2033, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time in part, on December 1, 2032, or on any date thereafter at a price of par plus accrued interest on the principal amounts called for redemption to the date fixed for redemption. See "THE BONDS—Redemption Provisions."
- (c) CUSIP Numbers have been assigned to the Bonds by CUSIP Global Services and are included solely for the convenience of the purchasers of the Bonds. Neither the District nor the Underwriter shall be responsible for the selection or correctness of the CUSIP Numbers set forth herein.
- (d) Initial reoffering yield represents the initial offering yield to the public which has been established by the Underwriter (as herein defined) for offers to the public and which may be subsequently changed by the Underwriter and is the sole responsibility of the Underwriter. The initial yields indicated above represent the lower of the yields resulting when priced to maturity or to the first call date.

The Bonds, when issued, will constitute valid and legally binding special obligations of the District. THE BONDS ARE SUBJECT TO SPECIAL INVESTMENT CONSIDERATIONS DESCRIBED HEREIN. Bond purchasers are encouraged to read this OFFICIAL STATEMENT prior to making an investment decision, particularly the section captioned "INVESTMENT CONSIDERATIONS."

The Bonds are offered by the Underwriter subject to prior sale, when, as and if issued by the District and accepted by the Underwriter, subject, among other things, to the approval of the Bonds by the Attorney General of Texas and the approval of certain legal matters by Allen Boone Humphries Robinson LLP, Houston, Texas, Bond Counsel. Delivery of the Bonds in book-entry form through the facilities of DTC is expected on or about April 14, 2026, in Houston, Texas.

BIDS DUE: MONDAY, MARCH 9, 2026, AT 10:30 A.M., HOUSTON TIME IN HOUSTON, TEXAS
BID AWARD: MONDAY, MARCH 9, 2026, AT 1:00 P.M., HOUSTON TIME IN HOUSTON, TEXAS

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

USE OF INFORMATION IN OFFICIAL STATEMENT

For purposes of compliance with Rule 15c2-12 of the Securities and Exchange Commission, as amended and in effect on the date hereof, this document constitutes an Official Statement with respect to the Bonds that has been “deemed final” by the District as of its date except for the omission of no more than the information permitted by Rule 15c2-12.

No dealer, broker, salesman or other person has been authorized to give any information or to make any representations other than those contained in this OFFICIAL STATEMENT, and, if given or made, such other information or representation must not be relied upon as having been authorized by the District.

This OFFICIAL STATEMENT is not to be used in an offer to sell or the solicitation of an offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

All of the summaries of the statutes, resolutions, contracts, audited financial statements, engineering and other related reports referenced or described in this OFFICIAL STATEMENT are made subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents, copies of which are available from the District, c/o Allen Boone Humphries Robinson LLP, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027.

References to web site addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader’s convenience. Unless specified otherwise, such web sites and the information or links contained therein are not incorporated into, and are not part of, this OFFICIAL STATEMENT for purposes of, and as that term is defined in, SEC Rule 15c2-12, as amended.

This OFFICIAL STATEMENT contains, in part, estimates, assumptions and matters of opinion which are not intended as statements of fact, and no representation is made as to the correctness of such estimates, assumptions or matters of opinion, or as to the likelihood that they will be realized. Any information and expressions of opinion herein contained are subject to change without notice and neither the delivery of this OFFICIAL STATEMENT nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. However, the District has agreed to keep this OFFICIAL STATEMENT current by amendment or sticker to reflect material changes in the affairs of the District until the delivery of the Bonds to the Underwriter and thereafter only as described in “PREPARATION OF OFFICIAL STATEMENT—Updating the Official Statement.” The District has undertaken no other reporting obligations to purchasers of the Bonds except as described herein under “CONTINUING DISCLOSURE OF INFORMATION.”

SALE AND DISTRIBUTION OF THE BONDS

Award of the Bonds

After requesting competitive bids for the Bonds, the District accepted the bid resulting in the lowest net effective interest rate, which bid was tendered by _____ (the "Underwriter") bearing the interest rates shown on the cover page hereof, at a price of _____% of the par value thereof, which resulted in a net effective interest rate of _____%, as calculated pursuant to Chapter 1204 of the Texas Government Code, as amended (the IBA Method).

Prices and Marketability

The prices and other terms with respect to the offering and sale of the Bonds may be changed from time to time by the Underwriter after the Bonds are released for sale, and the Bonds may be offered and sold at prices other than the initial offering prices, including sales to dealers who may sell the Bonds into investment accounts. In connection with the offering of the Bonds, the Underwriter may over-allot or effect transactions which stabilize or maintain the market prices of the Bonds at levels above those which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time.

The Master District has no control over trading of the Bonds in the secondary market. Moreover, there is no guarantee that a secondary market will be made in the Bonds. In such a secondary market, the difference between the bid and asked price of utility district bonds may be greater than the difference between the bid and asked price of bonds of comparable maturity and quality issued by more traditional municipal entities, as bonds of such entities are more generally bought, sold or traded in the secondary market.

Securities Laws

No registration statement relating to the offer and sale of the Bonds has been filed with the United States Securities and Exchange Commission under the Securities Act of 1933, as amended, in reliance upon the exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein; nor have the Bonds been registered or qualified under the securities laws of any other jurisdiction. The Master District assumes no responsibility for registration or qualification of the Bonds under the securities laws of any other jurisdiction in which the Bonds may be offered, sold or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions in such other jurisdiction.

OFFICIAL STATEMENT SUMMARY

The following is a brief summary of certain information contained herein which is qualified in its entirety by the detailed information appearing elsewhere in this OFFICIAL STATEMENT. The summary should not be detached and should be used in conjunction with more complete information contained herein. A full review should be made of the entire OFFICIAL STATEMENT and of the documents summarized or described therein.

THE MASTER DISTRICT

Description.....Harris County Municipal Utility District No. 171 (the “Master District” or the “District”) is a political subdivision of the State of Texas, created by an order of the Texas Water Commission (a predecessor to the Texas Commission of Environmental Quality or “TCEQ”) on October 16, 1978, and operates pursuant to Chapters 49 and 54 of the Texas Water Code, as amended. The Master District also serves as a provider of regional water, wastewater, drainage, park/recreational and road facilities to the approximate 3,599 acre service area (the “Service Area”) which includes the following municipal utility districts: the District, Harris County Municipal Utility District No. 457 (“MUD 457”), Harris County Municipal Utility District No. 458 (“MUD 458”), Harris County Municipal Utility District No. 532 (“MUD 532”), Harris County Municipal Utility District No. 533 (“MUD 533”) and Harris County Municipal Utility District No. 534 (“MUD 534”). The District (as a Participant), MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534 have each executed a Contract for the Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities, as amended (individually referred to as the “Master District Contract” and collectively referred to as the “Master District Contracts”) and are referred to herein collectively as the “Participants.” See “MASTER DISTRICT CONTRACT,” “THE PARTICIPANTS,” and “THE DISTRICT AND SERVICE AREA.”

Location.....The Service Area is located approximately 35 miles west of the central downtown business district of the City of Houston, Texas in Harris County. The Service Area lies wholly within the exclusive extraterritorial jurisdiction of the City of Houston and portions of the Service Area lie within the boundaries of the Katy Independent School District and portions of the Service Area lie within the boundaries of the Cypress-Fairbanks Independent School District. Access to the Service Area is currently provided by the Grand Parkway (Texas State Highway 99) to Farm-to-Market 529. Other thoroughfares to the Service Area include Peek Road, Porter Road and Beckendorff Road. See “THE DISTRICT AND SERVICE AREA” and “AERIAL LOCATION MAP.”

Elyson.....The Service Area is being developed and marketed as Elyson, a master-planned community currently planned to encompass the entire approximately 3,599 acre Service Area at full development. See “ELYSON,” “THE DISTRICT AND SERVICE AREA” and “THE DEVELOPERS.”

Developers.....NASH FM 529, LLC (“Nash FM 529”), a Delaware limited liability company, is the principal developer within the Service Area and was created for the sole purpose of acquiring and developing Elyson, including the District and its only substantial asset consists of land in Elyson. See “THE DEVELOPERS.” North America Sekisui House L.L.C., a Delaware limited liability company, owns a 95% interest in NASH FM 529. American Newland Communities II, LLC., a Delaware limited liability company (“Newland”) owns a 5% interest in NASH FM 529. Newland is wholly owned by Brookfield Communities US, LLC., a Delaware limited liability company. Development of the District is being managed by Brookfield Properties Development L.L.C. (“Brookfield”), which is indirectly wholly owned by Brookfield Residential Properties, Inc. Brookfield is a global developer and operator of high-quality real estate assets and is active in nearly all real estate sectors, including office, retail, multifamily, hospitality and logistics.

PPE GCW, LP, a Texas limited partnership (“PPE”) is the developer of approximately 149 acres of land in MUD 458, all of which is served with utilities where an approximately 838,500 square-foot Builders FirstSource distribution center has been constructed on approximately 37 of such acres. Builders FirstSource leases such facilities from GCW BFS SPV, LLC and is responsible for all tax payments on such land and building. In addition, Southeastern Freight Lines has constructed a truck terminal, service center and offices on approximately 27 acres of such acreage. PPE continues to own approximately 85 acres of vacant developable land within MUD 458.

Nash FM 529 and PPE collectively referred to herein as the “Developers.” Neither the Developers nor any of their respective affiliates are obligated to pay any principal of or interest on the Bonds. See “THE DEVELOPERS.”

Status of DevelopmentThe traditional single-family residential development within the Service Area consists of 1,971 single-family residential lots on approximately 623 acres in MUD 457, 145 single-family residential lots on approximately 30 acres in MUD 458, 598 single-family residential lots on approximately 215 acres in MUD 532 and 1,527 single-family residential lots on approximately 428 acres in MUD 534. According to Brookfield, new homes within the Service Area range in price from approximately \$350,000 to over \$1,000,000. There are an additional 348 single-family residential lots under construction on approximately 106 acres in MUD 532 with completion expected in the second quarter of 2026.

A single-family rental community owned and leased by Brookfield has been developed on approximately 18 acres in the Service Area (approximately 16 acres in MUD 458 and approximately 2 acres in the District). There are 122 rental home lots and 13 rental duplex lots (26 residential units) in MUD 458 and 14 rental home lots and 4 duplex lots (8 residential units) in the District.

As of January 31, 2026, 3,540 homes were complete in the Service Area (3,516 occupied), 298 homes were under construction or continue to be owned by a builder and 595 developed lots were available for home construction. Such numbers include the traditional single-family residential development and the single-family rental development. The estimated population in the Service Area based upon 3.5 persons per occupied single-family residence is 12,306.

Approximately 360 acres have been served with trunk facilities for commercial development in the Service Area, of which approximately 114 acres are located within the District, approximately 42 acres are located within MUD 457, approximately 195 acres are located within MUD 458, and approximately 8 acres are located within MUD 534. A Timewise gas station on approximately one acre within MUD 532 is provided utility services by the District. Approximately 23 acres within the District have been developed as The Plaza at Elyson, which, according to Brookfield, consists of an approximately 145,000 square foot Target store as the anchor tenant, an approximately 25,000 square foot Burlington store, a Chick-Fil-A, a Whataburger, a Jersey Mike's, a Taco Cabana and an additional approximately 40,000 square feet of retail. Additional commercial development in the District consists of a daycare facility, a McDonald's restaurant, an urgent care, a Salata restaurant, a Taco Bell restaurant, two additional quick service restaurants, a fitness center and an approximately 200,000 square foot retail center, collectively developed on approximately 48 acres. A Goodyear Tire is under construction on approximately one acre in the District and is expected to be completed in the first quarter of 2026. Approximately 48 acres in the District are served with trunk facilities but do not yet have vertical improvements. A child day care center; a gas service station/convenience store; three shopping centers, each including casual dining restaurants, personal care services and retail shops; and a prep school have been constructed in MUD 457. Commercial development within MUD 458 includes an approximately 838,500 square-foot Builders FirstSource distribution center constructed on approximately 37 acres and a Southeastern Freight Lines truck terminal, service center and offices constructed on approximately 27 acres. Approximately 131 acres in MUD 458 are served with trunk utilities but do not yet have vertical improvements. A Harmony Charter School has been constructed on approximately 26 acres in MUD 458 and an elementary school has been constructed on approximately 13 acres in MUD 457. Katy Independent School District owns approximately 14 acres in MUD 534. The school sites are exempt from ad valorem taxation. Approximately 317 developable acres have not been provided with water distribution, wastewater collection and storm drainage facilities and approximately 1,423 acres are not developable. See "THE DISTRICT AND SERVICE AREA—Land Use," "—Status of Development" and "INVESTMENT CONSIDERATIONS—Undeveloped Acreage and Vacant Lots."

Recreational amenities within the Service Area for all residents in the Service Area have been constructed on approximately 26 acres and include a 6,500 square foot welcome center that includes a pool, a fitness center and a game room located in MUD 457 and a 3,600 square foot recreation center which includes two pools, a fitness center and a space for special events and other activities located in MUD 534. Parks and open space within the Service Area are or are planned to be connected by a master trail system.

HomebuildersWestin Homes, Perry Homes, Chesmar Homes, Newmark Homes, Highland Homes, Brookfield Residential and Beazer Homes are all actively building homes in the Service Area. See "THE DEVELOPERS—Homebuilding."

Master FacilitiesThe Master District, in its capacity as the provider of regional water, wastewater, storm sewer facilities (“Master District Water/Sewer/Drainage Facilities” or “Master District Water, Sewer, Drainage Facilities”), regional park facilities (“Master District Park Facilities”), regional road facilities (“Master District Road Facilities”) and other regional facilities necessary to serve the Service Area (hereinafter collectively referred to as the “Master District Facilities”), has contracted with each of the Participants to construct and provide service from the Master District Facilities. See “INVESTMENT CONSIDERATIONS—Possible Impact on Contract Tax Rate” and “—Debt Burden on Property within the Participants,” “THE SYSTEM— Master District Facilities,” and “THE ROAD SYSTEM.”

The Master District owns and operates the Master District Facilities, with the exception of roads conveyed to and accepted by Harris County. Each Participant, including the District in its capacity as provider of internal water distribution, wastewater collection and storm drainage, owns and operates the internal utilities within its boundaries. See “MASTER DISTRICT CONTRACT.”

Taxation.....The tax rate for each Participant consists of the Contract Tax, as defined herein (see “MASTER DISTRICT CONTRACT”), together with the debt service tax necessary for the payment of direct debt of each Participant, if applicable, and maintenance and operation tax of each Participant. The District, in its capacity as a Participant, has issued \$7,685,000 principal amount of unlimited tax bonds, of which \$7,460,000 principal amount is currently outstanding. MUD 457 has issued \$58,555,000 principal amount of unlimited tax bonds, of which \$51,470,000 principal amount is currently outstanding. MUD 458 has issued \$9,100,000 principal amount of unlimited tax bonds, of which all is currently outstanding. MUD 532 has issued \$5,980,000 principal amount of unlimited tax bonds, of which all is currently outstanding. MUD 534 has issued \$49,645,000 principal amount of unlimited tax bonds, of which \$48,785,000 principal amount is currently outstanding. The District, in its capacity as a Participant, levied a total 2025 tax rate of \$1.39, which \$0.21 is allocated to debt service, \$0.36 to maintenance and operations and \$0.82 to the Contract Tax. MUD 457 levied a \$1.4158 total tax rate for 2025, of which \$0.38 is allocated to debt service, \$0.2308 to maintenance and operations and \$0.805 to the Contract Tax. MUD 458 levied a \$1.20 total tax rate for 2025 with \$0.03 allocated to debt service, \$0.365 to maintenance and operations and \$0.805 to the Contract Tax. MUD 532 levied a \$1.50 total tax rate for 2025 with \$1.01 allocated to maintenance and operations and \$0.49 to the Contract Tax. MUD 533 levied a \$1.50 total tax rate for 2025, of which all is allocated to maintenance and operations. MUD 534 levied a \$1.50 total tax rate for 2025 with \$0.50 allocated to debt service, \$0.20 to maintenance and operations and \$0.80 to the Contract Tax. See “INVESTMENT CONSIDERATIONS—Possible Impact on Contract Tax Rate” and “—Debt Burden on Property within the Participants.”

Payment HistoryThe Bonds are the Master District’s fifth issuance of Road Contract Revenue Bonds (as defined herein). The Master District has issued \$16,980,000 principal amount of Road Contract Revenue Bonds in four series, \$15,150,000 principal amount of which is outstanding (the “Outstanding Road Bonds”) and \$210,695,000 principal amount of Water/Sewer/Drainage Contract Revenue Bonds in nine series, \$197,010,000 principal amount of which is outstanding (the “Outstanding Water/Sewer/Drainage Bonds”). Collectively, the District has \$212,160,000 principal amount of bonds outstanding (the “Outstanding Bonds”). The District will capitalize sixteen (16) months of interest from proceeds of the Bonds and will fully fund the Road Contract Revenue Reserve Fund (as defined in the Road Indenture) with Bond proceeds and other legally available funds, if necessary. The District has never defaulted on its debt obligations. See “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND PARTICIPANTS (UNAUDITED)—Outstanding Bonds.”

Future Debt.....The Master District has also authorized the preparation and submittal of a bond application to the TCEQ requesting approval to sell approximately \$32,700,000 principal amount of Contract Revenue Bonds for water, sewer and drainage facilities with approval and issuance of such bonds expected in the fourth quarter of 2026. See “THE BONDS—Issuance of Additional Debt” and “INVESTMENT CONSIDERATIONS—Future Debt.”

THE BONDS

- Description*.....Harris County Municipal Utility District No. 171 Contract Revenue Bonds, Series 2026 (the “Bonds”) are being issued in the aggregate principal amount of \$8,900,000. The Bonds are dated April 1, 2026. Interest accrues from the Date of Delivery and is payable each December 1 and June 1, beginning December 1, 2026, at the rates per annum set forth on the cover page hereof. The Bonds are being issued as serial bonds maturing on December 1 in each of the years 2028 through 2053, both inclusive. The Bonds will be issued in fully registered form only, in denominations of \$5,000 or any integral multiple of \$5,000.
- Book-Entry-Only*.....The Depository Trust Company (defined as “DTC”), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Bonds and will be deposited with DTC. See “BOOK-ENTRY-ONLY-SYSTEM.”
- Redemption*Bonds maturing on or after December 1, 2033 are subject to redemption at the option of the District prior to their maturity dates on December 1, 2032, or on any date thereafter at a price of par plus accrued interest on the principal amounts called for redemption to the date fixed for redemption. See “THE BONDS—Redemption Provisions.”
- Use of Proceeds*Proceeds of the Bonds will be used to pay for the construction related items shown herein under “USE AND DISTRIBUTION OF BOND PROCEEDS.” In addition, proceeds of the Bonds will be used to capitalize sixteen (16) months of interest on the Bonds; to fund the Reserve Requirement (defined in the Bond Resolution); and to pay administrative costs and certain other costs and engineering fees related to the issuance of the Bonds. See “USE AND DISTRIBUTION OF BOND PROCEEDS” and “THE SYSTEM.”
- Authority for Issuance*.....The Bonds are the fifth series of bonds issued by the Master District pursuant to the Master District Contract for the purpose of constructing and acquiring all Master District Road Facilities. The Master District is authorized by the Master District Contract to issue contract revenue bonds in an amount not to exceed \$98,910,000 principal amount for the purpose of constructing and acquiring all Master District Road Facilities necessary to provide service to the Service Area and for refunding such bonds. Any additional Road Contract Revenue Bonds issued by the Master District will be on parity with the Bonds.

The Bonds are issued pursuant to the terms and conditions of Article III, Section 52 of the Texas Constitution, Chapters 49 and 54 of the Texas Water Code, as amended, the general laws of the State of Texas, Chapter 8442 of the Texas Special District Local Laws Code, the Road Indenture (as defined herein) and a resolution authorizing the issuance of the Bonds (the “Bond Resolution”). See “THE BONDS—Authority for Issuance,” “—Issuance of Additional Debt” and “INVESTMENT CONSIDERATIONS—Future Debt.”

- Source and Security of Payment*Principal of and interest on the Bonds and the Outstanding Bonds are payable from and secured by unconditional obligations of the Participants to make certain Contract Payments (as herein defined) pursuant to each Master District Contract. By execution of the Master District Contract, each Participant has agreed to pay a pro rata share of debt service on the Bonds, the Outstanding Water/Sewer/Drainage Bonds (the “Water/Sewer/Drainage Contract Payments”), and the Outstanding Road Bonds (the “Road Contract Payments”). The Water/Sewer/Drainage Contract Payments and the Road Contract Payments are collectively referred to as the “Contract Payments.” The Contract Payments are based upon the Certified Appraised Valuation (which includes value associated with any optional exemptions that are granted by the Participants and the market value of any land value deferred for agricultural use) of each Participant as a percentage of the total Certified Appraised Valuation of all Participants. Each Participant is obligated to make such payments from the proceeds of an annual unlimited ad valorem tax levied by such Participant for such purpose on all taxable land within its boundaries (the “Contract Tax”), or from any other lawful source of income. The Contract Tax consists of a tax for the Water/Sewer/Drainage Contract Payments (the “Water/Sewer/Drainage Contract Tax”) and a tax for the Road Contract Payments (the “Road Contract Tax”). No Participant is liable for the payments owed by any other Participant; however, failure of any Participant to make its Contract Payments could result in an increase in the total amount of the Contract Payments and the amount paid by each of the other Participants in a subsequent year or during the time such Participant’s payment is delinquent. The Bonds are obligations of the Master District and are not obligations of the State of Texas, Harris County, the City of Houston, any of the Participants except the Master District, or any entity other than the Master District. See “MASTER DISTRICT CONTRACT,” “THE BONDS—Source and Security of Payment,” and “—Unconditional Obligation to Pay.”

Indenture of TrustThe Bonds are further secured by an Indenture of Trust dated November 1, 2017 (the “Road Indenture”) between the Master District and The Bank of New York Mellon Trust Company, N.A., Houston, Texas, as trustee (the “Trustee”). Pursuant to the Road Indenture, the Master District has assigned to the Trustee for the benefit of the owners of the Bonds and any additional road contract revenue bonds, including Road contract revenue refunding bonds, issued by the Master District under the terms of the Road Indenture (collectively, the “Road Contract Revenue Bonds”) all of the Master District’s right, title and interest in and to the Road Contract Payments under the Master District Contract and has assigned to the Trustee the right to assert and enforce all of the Master District’s rights and remedies under the Master District Contract in the event of a default. Under the Road Indenture, the Trustee will maintain a Road Contract Revenue Reserve Fund (defined below) to be used to pay principal of and interest on the Road Contract Revenue Bonds, if sufficient funds are not available for such purpose in the Road Contract Revenue Debt Service Fund. The reserve requirement for the Road Contract Revenue Reserve Fund has been established in the Bond Resolution to be a sum of money equal to one-half of the maximum annual debt service requirements on the Outstanding Road Contract Revenue Bonds, including the Bonds (the “Reserve Requirement”). Any funds in excess of the Reserve Requirement held in the Road Contract Revenue Reserve Fund for the Road Contract Revenue Bonds may be deposited into the Road Contract Revenue Debt Service Fund as directed by the Master District’s Board of Directors. The Master District has established a separate Indenture of Trust for the benefit of water/sewer/drainage contract revenue bonds (the “Water/Sewer/Drainage Indenture”) and the road bonds (the “Road Contract Revenue Bonds”). The Road Indenture and the Water/Sewer/Drainage Indenture are collectively referred to as the “Indentures.” The Water/Sewer/Drainage Contract Revenue Bonds together with the Road Contract Revenue Bonds are referred to herein as the “Contract Revenue Bonds.” See “THE BONDS—Funds” and “THE INDENTURE OF TRUST.”

Municipal Bond Rating and Municipal Bond InsuranceMoody’s Investors Service (“Moody’s”) has assigned an underlying credit rating of “Baa2” on the Bonds. An explanation of the rating may be obtained from Moody’s, 7 World Trade Center, 250 Greenwich Street, New York, New York 10007. The fee associated with the rating assigned to the District by Moody’s will be paid by the District; however, the fee associated with ratings provided by other agencies will be at the expense of the Underwriter.

Applications have been made to municipal bond insurance companies for qualification of the Bonds for municipal bond insurance. If qualified, the purchase of municipal bond insurance with respect to the Bonds is optional and at the expense of the Underwriter. See “INVESTMENT CONSIDERATIONS—Risk Factors Related to the Purchase of Municipal Bond Insurance” and “MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE.”

Not Qualified Tax-Exempt ObligationsThe Bonds will not be designated “qualified tax-exempt obligations” within the meaning of Section 265(b) of the Internal Revenue Code of 1986, as amended. See “TAX MATTERS—Not Qualified Tax-Exempt Obligations.”

Bond CounselAllen Boone Humphries Robinson LLP, Bond Counsel, Houston, Texas. See “LEGAL MATTERS” and “TAX MATTERS.”

Paying Agent/Registrar.....The Bank of New York Mellon Trust Company, N.A., Houston, Texas.

THE MASTER DISTRICT CONTRACT

Participants.....To date, the District (in its capacity as a Participant), MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534 have contracted with the Master District as Participants. Each Participant is a municipal utility district organized and operating pursuant to Article XVI, Section 59 of the Constitution of Texas and Chapters 49 and 54, Texas Water Code, as amended, to provide water supply and distribution, wastewater collection and treatment, storm drainage, road, and park and recreation services to the area within its boundaries. See “MASTER DISTRICT CONTRACT,” “THE PARTICIPANTS” and “APPENDIX A.”

Debt Service PaymentsThe Master District Contract provides that each Participant shall pay a pro rata share of debt service on the Bonds and the Outstanding Bonds based upon each Participant’s Certified Appraised Valuation as a percentage of the Certified Appraised Valuation of all the Participants, calculated annually. Each Participant is obligated to pay its pro rata share of the annual debt service payments from the Contract Tax, without legal limit as to rate or amount, or from any other legally available funds. The Contract Payment may be calculated to include the charges and expenses of paying agents, registrars and trustees utilized in connection with the Bonds and the Outstanding Bonds, the principal, interest and redemption requirements of the Bonds and the Outstanding Bonds and all amounts required to establish and maintain funds established under the applicable Bond Resolutions or Indentures. Each Participant’s Contract Payment will be calculated annually by the Master District; however, the levy of a Contract Tax or the provisions of other funds to make its contract payments is the sole responsibility of each Participant. See “MASTER DISTRICT CONTRACT,” “THE BONDS—Source and Security of Payment” and “—Funds.” Each Participant is obligated severally, but not jointly, to make Contract Payments to the Master District. No Participant is obligated, contingently or otherwise, to make any Contract Payments owed by any other Participant, however, lack of payment, as required by the Master District Contract, by any Participant, could result in an increase in the Contract Payment amount paid by each of the other Participants in a subsequent year or during the time that such Participant’s payment is delinquent.

Water and Sewer Revenue.....In addition to obligating each Participant to pay its Contract Payments, the Master District Contract also obligates each Participant to pay monthly charges to the Master District for water and sewer services rendered pursuant to the Master District Contract. The monthly charges paid by each Participant to the Master District will be used to pay operations and maintenance expenses and to provide an operation and maintenance reserve equivalent to three (3) months of operations and maintenance expenses. The Master District currently has operation and maintenance reserves equal to three (3) months of operating and maintenance expenses. The Master District Contract obligates each Participant to establish, maintain and from time-to-time adjust its rates, fees and charges for use of its wastewater collection system and water distribution system, or for the availability of such services, to the end that the gross revenues therefrom together with any taxes levied in support thereof and funds received from any other lawful source will be sufficient at all times to pay all operation and maintenance expenses of the Participant’s water distribution and wastewater collection system and its obligations to the Master District under the Master District Contract, including its obligation to pay Contract Payments for application to debt service on the Contract Revenue Bonds, including the Bonds. See “MASTER DISTRICT CONTRACT.”

INVESTMENT CONSIDERATIONS

The purchase and ownership of the Bonds are subject to special INVESTMENT CONSIDERATIONS, and all prospective purchasers are urged to examine carefully this entire Official Statement with respect to the investment security of the Bonds, particularly the section captioned “INVESTMENT CONSIDERATIONS.”

- (a) Appraised value does not exclude value associated with any optional exemption that a Participant may grant under Texas law nor does it exclude the market value deferred as a result of agricultural use. MUD 533's initial activation at the Harris Central Appraisal District (the "Appraisal District") was 2023; therefore, no information for years prior to activation is available.
- (b) As certified by the Appraisal District for 2021 through 2024. For 2025, the Appraisal District has certified \$1,747,444,724 of appraised value in the boundaries of the Participants. There is also appraised value in the boundaries of the Participants that remains uncertified, subject to review and downward revision or adjustment prior to certification in the amount of \$5,189,949. For purposes of this OFFICIAL STATEMENT, the 2025 Appraised Valuation represents the Certified Appraised Valuation plus the uncertified appraised value. No tax will be levied on the uncertified value until it is certified. See "APPENDIX A" for information on each Participant's certified and uncertified value.
- (c) The Estimated Appraised Valuation as of December 15, 2025, as shown herein, is comprised of the estimate of appraised value as of December 15, 2025, for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534, all provided by the Appraisal District. Optional exemptions granted by the Participants are not available in connection with the estimate of appraised value. The estimated appraised value for MUD 457 and MUD 534 includes the 2025 value associated with optional exemptions granted by MUD 457 and MUD 534, respectively. Optional exemptions are not granted by the other Participants. Increases in value that occur between January 1, 2025 and December 15, 2025 will be appraised for purposes of taxation on January 1, 2026. No tax will be levied on such amount until it is certified in the fall of 2026. See "TAXING PROCEDURES."
- (d) See "FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Estimated Overlapping Debt."

- (a) See “THE DISTRICT AND SERVICE AREA.”
- (b) A single-family rental community owned and leased by Brookfield has been developed on approximately 18 acres in the Service Area (approximately 16 acres in MUD 458 and approximately 2 acres in the District). There are 122 rental home lots and 13 rental duplex lots (26 residential units) in MUD 458 and 14 rental home lots and 4 duplex lots (8 residential units) in the District. See “THE DISTRICT AND THE SERVICE AREA—Status of Development—Single-Family Rental.”
- (c) Currently under construction with an expected completion date in second quarter of 2026. See “THE DISTRICT AND THE SERVICE AREA.”
- (d) Based upon 3.5 persons per occupied single-family residence.
- (e) All of the Master District’s Contract Revenue Bonds are payable from Contract Taxes. The revenues from the Road Contract Tax will be allocated to Road Contract Revenue Bonds, including the Bonds, and the revenues from the Water/Sewer/Drainage Contract Tax will be allocated to the Water/Sewer/Drainage Contract Revenue Bonds. The Water/Sewer/Drainage Contract Revenue Debt Service Fund and Water/Sewer/Drainage Contract Revenue Reserve Fund will not be pledged to the Road Contract Revenue Bonds, including the Bonds, nor will funds deposited into the Road Contract Revenue Debt Service Fund and Road Contract Revenue Reserve Fund be pledged to Water/Sewer/Drainage Contract Revenue Bonds.
- (f) The District will fully fund the Road Contract Revenue Reserve Fund (as defined in the Road Indenture) with Bond proceeds and other legally available funds, if necessary. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”
- (g) The District will capitalize sixteen (16) months of interest on the Bonds. The amount of capitalized interest shown herein is estimated at 4.75%. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”
- (h) Each Participant is obligated to pay a pro rata share of debt service on the Road Contract Revenue Bonds, including the Bonds, and Water/Sewer/Drainage Contract Revenue Bonds by the dates specified in the Master District Contract. See “MASTER DISTRICT CONTRACT” and “—Unconditional Obligation to Pay” and “THE INDENTURE OF TRUST.”

PRELIMINARY OFFICIAL STATEMENT

\$8,900,000

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 171 *(A political subdivision of the State of Texas located within Harris County)*

ROAD CONTRACT REVENUE BONDS **SERIES 2026**

This OFFICIAL STATEMENT provides certain information in connection with the issuance by Harris County Municipal Utility District No. 171 (the “Master District” or the “District”) of its \$8,900,000 Road Contract Revenue Bonds, Series 2026 (the “Bonds”).

The Bonds are issued pursuant to the Contract for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities, as amended (the “Master District Contract”) between the Master District and each of the Participants (as defined herein), Article III, Section 52 of the Texas Constitution, Chapters 49 and 54 of the Texas Water Code, as amended, Chapter 8442 Texas Special District Local Laws Code, the general laws of the State of Texas, a resolution authorizing the issuance of the Bonds (the “Bond Resolution”) adopted by the Board of Directors of the Master District (the “Board”), and an Indenture of Trust dated November 1, 2017 (the “Road Indenture”), by and between the Master District and The Bank of New York Trust Company, N.A., as trustee (the “Trustee”).

This OFFICIAL STATEMENT includes descriptions, among others, of the Bonds, the Bond Resolution, certain other information about the District, Harris County Municipal Utility District No. 457 (“MUD 457”), Harris County Municipal Utility District No. 458 (“MUD 458”), Harris County Municipal Utility District No. 532 (“MUD 532”), Harris County Municipal Utility District No. 533 (“MUD 533”), and Harris County Municipal Utility District No. 534 (“MUD 534”), all of which are located within an approximate 3,599 acre service area (the “Service Area”) being provided with or to be provided with regional water, wastewater, storm sewer, park, road and other facilities (the “Master District Facilities”) constructed by the Master District, and NASH FM 529, LLC, a Delaware limited liability company (the “NASH FM 529”), the principal developer of the Service Area, Brookfield Properties Development L.L.C. (“Brookfield”) and PPE GCW, LP, a Texas limited partnership (“PPE”). NASH FM 529, Brookfield and PPE are collectively referred herein as the “Developers”. The District (in its capacity as a Participant), MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534 have each entered into the Master District Contract (the “Participants”). All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each document. Copies of documents referenced herein may be obtained from the District, c/o Allen Boone Humphries Robinson LLP, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027.

MASTER DISTRICT CONTRACT

Each of the Participants, including the District in its capacity as a Participant, has executed the Master District Contract with the Master District and each Participant has obtained the approval of the Master District Contract from its voters at an election held within its boundaries. See “THE BONDS—Authority for Issuance.” The Bonds and additional road contract revenue bonds issued by the Master District pursuant to the Road Indenture are referred to as “Road Contract Revenue Bonds.” Any bonds issued by the Master District under the Water/Sewer/Drainage Indenture (as defined herein) are referred to as the “Water/Sewer/Drainage Contract Revenue Bonds.” The Water/Sewer/Drainage Contract Revenue Bonds and the Road Contract Revenue Bonds are collectively referred to as the “Contract Revenue Bonds.” The Master District Contract provides that each Participant shall pay a pro rata share of debt service on the Contract Revenue Bonds based upon each Participant’s Certified Appraised Valuation as a percentage of the Certified Appraised Valuation of all the Participants, calculated annually (the “Contract Payments”). Each Participant is obligated to pay its pro rata share of the annual debt service payments from the proceeds of annual ad valorem tax without legal limit as to rate or amount (the “Contract Tax”), including the revenues from any other legally available funds. The Contract Tax will consist of a tax for the payment of debt service on the Water/Sewer/Drainage Contract Revenue Bonds (the “Water/Sewer/Drainage Contract Tax”) and the payment of debt service on the Road Contract Revenue Bonds (the “Road Contract Tax”). The Contract Payments may be calculated to include the charges and expenses of paying agents, registrars and trustees utilized in connection with the Contract Revenue Bonds, the principal, interest and redemption requirements of the Contract Revenue Bonds and all amounts required to establish and maintain funds established under the applicable bond resolution or indenture of trust. See “THE INDENTURE OF TRUST.” Contract Payments will be calculated annually by the Master District; however, the levy of a Contract Tax or the provisions of other funds to make its contract payments is the sole responsibility of each Participant. Water/Sewer/Drainage Contract Payments (all of which are derived from the Water/Sewer/Drainage Contract Tax or other legally available funds of a Participant) are not pledged for and are not available to be used to: (i) pay debt service on the Road Contract Revenue Bonds, including the Bonds; or (ii) fund or maintain the Road Contract Revenue Reserve Fund. Pursuant to the Master District Contract, the Master District shall not issue Contract Revenue Bonds for parks and recreational facilities, unless and until said Master District Contracts are amended and approved by the voters of the districts in the Service Area in accordance with the terms of the Master District Contracts. The Master District may require Participants to remit Park Construction Charges (as defined in the Master District Contract), and such funds are not pledged for and are not available to be used to: (i) pay debt service on the Bonds or any other Contract Revenue Bonds; or (ii) fund or maintain the Water/Sewer/Drainage Contract Revenue Reserve Fund or the Road Contract Revenue Reserve Fund.

The Master District Contract also provides for operation and maintenance expenses for facilities constructed pursuant to the Master District Contract; duties of the parties; establishment and maintenance of funds; assignment; arbitration; amendments; force majeure; insurance; and other provisions. The Master District owns and operates the Master District Facilities, except for roadways that are accepted by Harris County, Texas, for operation and maintenance by Harris County. Each Participant (including the District in its capacity as provider of internal facilities to serve the acreage within the District's boundaries) will own and operate its internal facilities. The internal facilities are expected to be financed with unlimited tax bonds sold by each of the Participants, including the District. It is anticipated that the Master District Facilities will be constructed in stages to meet the needs of a continually expanding population within the Service Area. In the event that the Master District fails to meet its obligations to provide regional water, wastewater and storm sewer facilities (the "Master District Road Facilities") as required by the Service Area, each Participant has the right pursuant to the Master District Contract to design, acquire, construct, or expand the Master District Road Facilities needed to provide it with service, and convey such Master District Road Facilities to the Master District in consideration of payment by the Master District of the actual and reasonable necessary capital costs expended by it for such Master District Road Facilities. Each Participant is further obligated to pay monthly charges to the Master District for water and sewer services rendered pursuant to the Master District Contract. The monthly charges to be paid by each Participant to the Master District will be used to pay its share of operation and maintenance expenses and to provide for an operation and maintenance reserve equivalent to three (3) months of operation and maintenance expenses. Each Participant's share of operation and maintenance expenses and reserve requirements is based upon a "unit cost" of operation and maintenance expense and reserve requirements, calculated by the Master District and expressed in terms of "cost per equivalent single-family residential connection." Each Participant's monthly payment to the Master District for operation and maintenance expenses will be calculated by multiplying the number of equivalent single-family residential connections reserved to it on the first day of the previous month by the unit cost per equivalent single-family residential connection. The monthly cost per single family equivalent connection being charged by the Master District to each Participant is currently \$50.00. Pursuant to the Master District Contract each Participant is obligated to establish and maintain rates, fees and charges for its water and wastewater services which, together with taxes levied and funds received from any other lawful sources, are sufficient at all times to pay operation and maintenance charges of the Master District, to pay other costs of operating and maintaining its own utility system, and to pay its obligations pursuant to the Master District Contract, including its Contract Payments. The Master District does not expect that revenues from the Participants' wastewater collection and water distribution systems will ever be sufficient to pay a significant portion of Contract Payments for application to debt service on the Contract Revenue Bonds, including the Bonds. All sums payable by each Participant to the Master District pursuant to the Master District Contract are to be paid by such Participant without set off, counterclaim, abatement, suspension or diminution. If any Participant fails to pay its share of these costs in a timely manner, the Master District Contract provides that the Master District shall be entitled to cancel, in whole or in part, any reservation or allocation of capacity in the Master District's Facilities by such Participant in addition to the Master District's other remedies pursuant to the Master District Contract. As a practical matter, the Participants have no alternative provider of the water and wastewater services rendered by the Master District under the Master District Contract. See "THE BONDS—Source and Security of Payment" and "—Unconditional Obligation to Pay."

THE BONDS

Description

The Bonds will be dated April 1, 2026 and will accrue interest from the Date of Delivery with interest payable each December 1 and June 1, beginning December 1, 2026 (each an "Interest Payment Date"), and will mature on the dates and in the amounts and accrue interest at the rates shown on the cover page hereof. If the date for payment of the principal or interest on any Bond is not a business day, then the date for such payment shall be the next succeeding business day, as defined in the Bond Resolution. Interest calculations are based on a 360-day year comprised of twelve 30-day months. The Bonds are issued in fully registered form, in denominations of \$5,000 or any integral multiple of \$5,000.

Method of Payment of Principal and Interest

In the Bond Resolution, the Board has appointed The Bank of New York Mellon Trust Company, N.A., Houston, Texas as the initial Paying Agent/Registrar for the Bonds. The principal of the Bonds shall be payable, without exchange or collection charges, in any coin or currency of the United States of America which, on the date of payment, is legal tender for the payment of debts due the United States of America. In the event the book-entry-only system is discontinued, principal of the Bonds shall be payable upon presentation and surrender of the Bonds as they respectively become due and payable, at the principal payment office of the Paying Agent/Registrar in Houston, Texas and interest on each Bond shall be payable by check payable on each Interest Payment Date, mailed by the Paying Agent/Registrar on or before each Interest Payment Date to the Registered Owner of record as of the close of business on the May 15 or November 15 immediately preceding each Interest Payment Date (defined herein as the "Record Date"), to the address of such Registered Owner as shown on the Paying Agent/Registrar's records (the "Register") or by such other customary banking arrangements as may be agreed upon by the Paying Agent/Registrar and the Registered Owners at the risk and expense of the Registered Owners.

If the date for payment of the principal or interest on any Bond is not a business day, then the date for such payment shall be the next succeeding business day, as defined in the Bond Resolution.

Source and Security of Payment

The Bonds are special obligations solely of the Master District and are payable solely from and to the extent of certain contract payments received by the Master District from the Participants for the purpose of paying the debt service on the Bonds pursuant to the requirements of the Master District Contract and the Road Indenture. The Master District Contract provides that all Participants shall pay a pro rata share of debt service on any Road Contract Revenue Bonds issued by the Master District, including the Bonds, and Water/Sewer/Drainage Contract Revenue Bonds, based upon each Participant's Certified Appraised Valuation as a percentage of the Certified Appraised Valuation in all Participants. The debt service requirements may be calculated to include the charges and expenses of paying agents, registrars and trustees utilized in connection with the Contract Revenue Bonds, the principal, interest and redemption requirements of the Contract Revenue Bonds and all amounts required to establish and maintain funds established under the Bond Resolutions or the Indentures. Each Participant is obligated to pay its pro rata share of the annual debt service on the Water/Sewer/Drainage Contract Revenue Bonds, and Road Contract Revenue Bonds, including the Bonds, from the Contract Tax, an annual ad valorem tax, which is not limited as to rate or amount (separately the "Water/Sewer/Drainage Contract Tax" and the "Road Contract Tax" and collectively referred to as the "Contract Tax"), or from any other legally available funds of such Participant. Each Participant's pro rata share of debt service requirements will be calculated annually by the Master District; however, the levy of a Contract Tax for the purpose of paying debt service on the Contract Revenue Bonds is the sole responsibility of each Participant. The Bonds are obligations of the Master District and are not obligations of the State of Texas, Harris County, the City of Houston, any of the Participants (except the District in its capacity as the Master District), or any entity other than the Master District. Contract Revenue Bonds, including the Bonds, are secured by the Indentures. Pursuant to the Indentures, the Master District has assigned to the Trustee all of the Master District's right, title and interest in and to the Contract Payments required by the Master District Contract. See "THE INDENTURE OF TRUST." No Participant is liable for the payments due by any other Participant; however, failure of any Participant to make its Contract Payments could result in an increase in the Contract Payments amount paid by each of the other Participants in a subsequent year or during the time that such Participant is delinquent. See "MASTER DISTRICT CONTRACT." The Master District shall calculate on or before September 1 of each year, or as soon thereafter as practical, the amount of Contract Payments due from each Participant in the following calendar year. The Contract Payments shall be billed to each Participant by the Master District on or before September 1, or as soon as practical, of the year prior to the year in which such Contract Payments become due, or as soon thereafter as practical. Such Contract Payments shall be due and payable from each Participant directly to the Trustee semiannually on or before March 1 and September 1 of each year.

Unconditional Obligation to Pay

All charges imposed by the Master District to pay debt service on the Bonds will be made by the Participants without set-off, counterclaim, abatement, suspension or diminution, nor will any Participant have any right to terminate the Master District Contract nor be entitled to the abatement of any such payment or any reduction thereof nor will the obligations of the Participants be otherwise affected for any reason, including without limitation acts or conditions of the Master District that might be considered failure of consideration, eviction or constructive eviction, destruction or damage to the Master District Facilities, failure of the Master District to perform and observe any agreement, whether expressed or implied, or any duty, liability or obligation arising out of or connected with the Master District Contract. All sums required to be paid by the Participants to the Master District for such purposes will continue to be payable in all events and the obligations of the Participants will continue unaffected, unless the requirement to pay is reduced or terminated pursuant to an express provision of the Master District Contract. If any Participant disputes the amount to be paid to the Master District, the Participant shall nonetheless promptly make payments as billed by the Master District, and if it is subsequently determined by agreement, arbitration, regulatory decision, or court decision that such disputed payment should have been less, the Master District will then make proper adjustments to all Participants so that the Participant will receive credit for its overpayments.

Funds

In the Road Indenture, the Road Contract Revenue Debt Service Fund and the Road Contract Revenue Reserve Fund were created and in the Bond Resolution are confirmed, and the proceeds from Road Contract Payments collected for and on account of the Bonds authorized by the Bond Resolution shall be deposited, as collected, in such funds. See "INDENTURE OF TRUST."

The District will capitalize sixteen (16) months of interest on the Bonds. In addition, the District will use up to an estimated \$350,000 of Bond proceeds to fully satisfy the Reserve Requirement associated with the Bonds, which shall be deposited into the Road Contract Revenue Reserve Fund. The remaining proceeds of the Bonds shall be deposited into the Road Capital Projects Fund, to be used for the items shown herein under "USE AND DISTRIBUTION OF BOND PROCEEDS" and for paying the costs of issuance of the Bonds.

The Road Contract Revenue Debt Service Fund and Road Contract Revenue Reserve Fund will not be pledged to the Water/Sewer/Drainage Contract Revenue Bonds nor will funds deposited into the Water/Sewer/Drainage Contract Revenue Debt Service Fund and Water/Sewer/Drainage Contract Revenue Reserve Fund (each as defined in the Road Indenture) be pledged to the Road Contract Revenue Bonds, including the Bonds.

Redemption Provisions

The District reserves the right, at its option, to redeem the Bonds maturing on or after December 1, 2033, prior to their scheduled maturities, in whole or from time-to-time in part, in integral multiples of \$5,000 on December 1, 2032, or any date thereafter, at a price of par plus accrued interest on the principal amounts called for redemption to the date fixed for redemption.

If less than all of the Bonds are redeemed at any time, the maturities of the Bonds to be redeemed will be selected by the District. If less than all the Bonds of a certain maturity are to be redeemed, the particular Bonds to be redeemed shall be selected by the Paying Agent/Registrar by lot or other random method (or by DTC in accordance with its procedures while the Bonds are in book-entry only form).

Notice of any redemption identifying the Bonds to be redeemed in whole or in part shall be given by the Paying Agent/Registrar at least thirty (30) days prior to the date fixed for redemption by sending written notice by first class mail to the Registered Owner of each Bond to be redeemed in whole or in part at the address shown on the register. Such notices shall state the redemption date, the redemption price, the place at which the Bonds are to be surrendered for payment and, if less than all the Bonds outstanding within any one maturity are to be redeemed, the numbers of the Bonds or the portions thereof to be redeemed. Any notice given shall be conclusively presumed to have been duly given, whether or not the Registered Owner receives such notice. By the date fixed for redemption, due provision shall be made with the Paying Agent/Registrar for payment of the redemption price of the Bonds or portions thereof to be redeemed, plus accrued interest to the date fixed for redemption. When Bonds have been called for redemption in whole or in part and due provision has been made to redeem the same as herein provided, the Bonds or portions thereof so redeemed shall no longer be regarded as outstanding except for the purpose of receiving payment solely from the funds so provided for redemption, and the rights of the Registered Owners to collect interest which would otherwise accrue after the redemption date on any Bond or portion thereof called for redemption shall terminate on the date fixed for redemption.

Authority for Issuance

At separate elections held on November 4, 2014, the voters of MUD 171 and MUD 457 approved the Master District Contract and the levy of a Contract Tax (defined herein) in support thereof, at an election held on May 9, 2015, the voters of MUD 458 approved the Master District Contract and the levy of a Contract Tax in support thereof, at an election held on November 3, 2020, the voters of MUD 534 approved the Master District Contract and the levy of a Contract Tax in support thereof, at an election on May 7, 2022 the voters of MUD 532 approved the Master District Contract and the levy of a Contract Tax in support thereof and at an election on May 6, 2023, the voters of MUD 533 approved the Master District Contract and the levy of a Contract Tax in support thereof. The Master District Contracts authorize the Master District to issue up to \$98,910,000 principal amount of Road Contract Revenue Bonds for acquiring and constructing of Master District Road Facilities and for refunding such bonds. The Master District Contract also authorizes the Master District to issue other contract revenue bonds for other purposes. See “Issuance of Additional Debt” below. See “MASTER DISTRICT CONTRACT.”

The Bonds are issued by the District pursuant to the Road Indenture, the Master District Contracts, the terms and conditions of the Bond Resolution, Article III, Section 52 of the Texas Constitution, Chapters 49 and 54 of the Texas Water Code, as amended, Chapter 8442 of the Texas Special District Local Laws Code, and general laws of the State of Texas relating to the issuance of bonds by political subdivisions of the State of Texas.

Before the Bonds can be delivered, the Attorney General of Texas must pass upon the legality of certain matters. The Attorney General of Texas does not guarantee or pass upon the safety of the Bonds as an investment or upon the adequacy of the information contained in this OFFICIAL STATEMENT.

No Arbitrage

The District will certify as of the date the Bonds are delivered and paid for that, based upon all facts and estimates now known or reasonably expected to be in existence on the date the Bonds are delivered and paid for, the District reasonably expects that the proceeds of the Bonds will not be used in a manner that would cause the Bonds, or any portion of the Bonds, to be “arbitrage bonds” under the Internal Revenue Code of 1986, as amended (the “Code”), and the regulations prescribed thereunder. Furthermore, all officers, employees, and agents of the District have been authorized and directed to provide certifications of facts and estimates that are material to the reasonable expectations of the District as of the date the Bonds are delivered and paid for. In particular, all or any officers of the District are authorized to certify to the facts and circumstances and reasonable expectations of the District on the date the Bonds are delivered and paid for regarding the amount and use of the proceeds of the Bonds. Moreover, the District covenants in the Bond Resolution that it shall make such use of the proceeds of the Bonds, regulate investment of proceeds of the Bonds, and take such other and further actions and follow such procedures, including, without limitation, calculating the yield on the Bonds, as may be required so that the Bonds shall not become “arbitrage bonds” under the Code and the regulations prescribed from time to time thereunder.

Registration and Transfer

So long as any Bonds remain outstanding, the Paying Agent/Registrar shall keep the Register at its principal payment office and, subject to such reasonable regulations as it may prescribe, the Paying Agent/Registrar shall provide for the registration and transfer of Bonds in accordance with the terms of the Bond Resolution. While the Bonds are in the Book-Entry-Only System, the Bonds will be registered in the name of Cede & Co. and will not be transferable. See "BOOK-ENTRY-ONLY SYSTEM."

In the event the Book-Entry-Only System should be discontinued, Bonds shall be transferable only upon the presentation and surrender of such Bond at the principal payment office of the Paying Agent/Registrar, duly endorsed for transfer, or accompanied by an assignment duly executed by the Registered Owner or his authorized representative in form satisfactory to the Paying Agent/Registrar. Upon due presentation of any Bond in proper form for transfer, the Paying Agent/Registrar has been directed by the District to authenticate and deliver in exchange therefore, within three (3) business days after such presentation, a new Bond or Bonds, registered in the name of the transferee or transferees, in authorized denominations and of the same maturity and aggregate principal amount and paying interest at the same rate as the Bond or Bonds so presented. All Bonds shall be exchangeable upon presentation and surrender thereof at the principal payment office of the Paying Agent/Registrar for a Bond or Bonds of the same maturity and interest rate and in any authorized denomination in an aggregate amount equal to the unpaid principal amount of the Bond or Bonds presented for exchange. The Paying Agent/Registrar is authorized to authenticate and deliver exchange Bonds. Each Bond delivered shall be entitled to the benefits and security of the Bond Resolution and the Road Indenture to the same extent as the Bond or Bonds in lieu of which such Bond is delivered. Neither the District nor the Paying Agent/Registrar shall be required to transfer or to exchange any Bond during the period beginning on the 15th calendar day of the month next preceding an Interest Payment Date and ending on the next succeeding Interest Payment Date or to transfer or exchange any Bond called for redemption during the thirty (30) day period prior to the date fixed for redemption of such Bond. The District or the Paying Agent/Registrar may require the Registered Owner of any Bond to pay a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with the transfer or exchange of such Bond. Any fee or charge of the Paying Agent/Registrar for such transfer or exchange shall be paid by the District. The provisions of this paragraph are subject to the Book-Entry-Only System.

Lost, Stolen or Destroyed Bonds

In the event the Book-Entry-Only System should be discontinued, upon the presentation and surrender to the Paying Agent/Registrar of a mutilated Bond, the Paying Agent/Registrar shall authenticate and deliver in exchange therefore a replacement Bond of like maturity, interest rate and principal amount, bearing a number not contemporaneously outstanding. If any Bond is lost, apparently destroyed, or wrongfully taken, the District, pursuant to the applicable laws of the State of Texas and in the absence of notice or knowledge that such Bond has been acquired by a bona fide purchaser, shall, upon receipt of certain documentation from the Registered Owner and an indemnity, execute and the Paying Agent/Registrar shall authenticate and deliver a replacement Bond of like maturity, interest rate and principal amount bearing a number not contemporaneously outstanding.

Registered Owners of lost, stolen or destroyed bonds will be required to pay the District's costs to replace such bond. In addition, the District or the Paying Agent/Registrar may require the Registered Owner to pay a sum sufficient to cover any tax or other governmental charge that may be imposed.

Replacement of Paying Agent/Registrar

Provision is made in the Bond Resolution for replacement of the Paying Agent/Registrar. If the Paying Agent/Registrar is replaced by the District, the new paying agent/registrar shall act in the same capacity as the previous Paying Agent/Registrar. Any paying agent/registrar selected by the District shall be a national or state banking institution organized and doing business under the laws of the United States of America or of any state, authorized under such laws to exercise trust powers, and subject to supervision or examination by federal or state authority, to act as Paying Agent/Registrar for the Bonds.

Issuance of Additional Debt

The voters of the Participants have approved the Master District Contract, which contract authorizes the Master District to issue Road Contract Revenue Bonds in an amount not to exceed \$98,910,000 in principal amount for the purpose of constructing and acquiring all Master District Road Facilities and refunding of such bonds and authorizes the Master District to issue Water/Sewer/Drainage Contract Revenue Bonds in an amount not to exceed \$680,320,000 in principal amount for the purpose of constructing and acquiring all Master District Water/Sewer/Drainage Facilities and refunding of such bonds; and. Pursuant to the Master District Contract, approval by each Participant and approval by the voters at an election held by each Participant is required prior to any amendment to the Master District Contract that would increase such \$98,910,000 authorized amount, and/or such \$680,320,000 authorized amount. By execution of the Master District Contract between the Master District and each Participant, each Participant (including the District in its capacity as a Participant) is obligated to pay a pro rata share of debt service on the Water/Sewer/Drainage Contract Revenue Bonds issued by the Master District, which will be payable from the Water/Sewer/Drainage Contract Tax, and a pro rata share of the debt service of the Road Contract Revenue Bonds, which will be payable from the Road Contract Tax or, in each case, other legally available funds. After the issuance of the Bonds, the Master District will have \$469,625,000 principal amount of Water/Sewer/Drainage Contract Revenue Bonds authorized but unissued, and \$73,030,000 principal amount of Road Contract Revenue Bonds will remain authorized but unissued. The Master District has also authorized the preparation and submittal of a bond application to the TCEQ requesting approval to sell approximately \$32,700,000 principal amount of Contract Revenue Bonds for water, sewer and drainage facilities with approval and issuance of such bonds expected in the fourth quarter of 2026.

The District is authorized by statute to develop parks and recreational facilities, including the issuance of bonds payable from taxes for such purpose. Pursuant to the Master District Contract, the Master District shall not issue Contract Revenue Bonds for parks and recreational facilities, unless and until said Master District Contracts are amended and approved by the voters of the districts in the Service Area in accordance with the terms of the Master District Contracts. The Master District may require Participants to remit Park Construction Charges for the Master District Park Facilities (defined below).

The Master District Contract (except as described above), the Indentures, and the Bond Resolution impose no limitation on the amount of Contract Revenue Bonds the Master District may issue payable from the Contract Tax. The District (in its capacity as a Participant) and each other Participant may issue unlimited tax bonds for water, wastewater, drainage, road, and park and recreational purposes, with the approval of the TCEQ (if required), necessary to provide and maintain improvements and facilities to serve land within their respective boundaries consistent with the purposes for which the District or such other Participant was created. TCEQ approval is not currently required for the District or any Participants to issue bonds for road facilities. See “MASTER DISTRICT CONTRACT,” “THE INDENTURE OF TRUST,” “THE PARTICIPANTS” and “INVESTMENT CONSIDERATIONS—Future Debt.”

Financing Parks and Recreational Facilities

Pursuant to the Master District Contract, the Master District owns or will own, construct and/or acquire certain parks and recreational facilities for the benefit of all the Participants (the “Master District Park Facilities”). The Master District intends to finance the capital costs of the Master District Park Facilities from payments made by each Participant of its pro rata share of the Master District’s estimated capital costs of the Master District Park Facilities (the “Park Construction Charges”). The Park Construction Charges will be computed from time-to-time on the basis of the then estimated total capital costs of providing the Master District Park Facilities for the Service Area minus the payments which have been previously received from the Participants as Park Construction Charges and dividing the result by the number of projected total connections to be constructed within the Service Area.

All Park Construction Charges received by the Master District shall be deposited into a separate fund to be held in trust for the benefit of the Participants (the “Park Construction Fund”) and shall be used solely for the purpose of paying the capital costs of the Master District Park Facilities pursuant to the Master District Contract. Park Construction Charges are not pledged for and are not available to be used to: (i) pay debt service on the Water/Sewer/Drainage Contract Revenue Bonds, including the Bonds, or the Road Contract Revenue Bonds; or (ii) fund or maintain the Water/Sewer/Drainage Contract Revenue Reserve Fund or the Road Contract Revenue Reserve Fund.

Annexation by the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston, the District must conform to a City of Houston consent ordinance. Generally, the District may be annexed by the City of Houston without the District’s consent, and the City of Houston cannot annex territory within the District unless it annexes the entire District; however, the City of Houston may not annex the District unless (i) such annexation has been approved by a majority of those voting in an election held for that purpose within the area to be annexed, and (ii) if the registered voters in the area to be annexed do not own more than fifty-percent (50%) of the land in the area, a petition has been signed by more than fifty-percent (50%) of the landowners consenting to the annexation. Notwithstanding the preceding sentence, the described election and petition process does not apply during the term of a strategic partnership agreement between the City of Houston and the District specifying the procedures for full purpose annexation of all or a portion of the District.

If the District is annexed, the City of Houston will assume the District’s assets and obligations (including the Bonds) and dissolve the District. Annexation of territory by the City of Houston is a policy-making matter within the discretion of the Mayor and City Council of the City of Houston, and therefore, the District makes no representation that the City of Houston will ever annex the District and assume its debt. Moreover, no representation is made concerning the ability of the City of Houston to make debt service payments should annexation occur.

Consolidation

The District has the legal authority to consolidate with other districts and, in connection therewith, to provide for the consolidation of its assets (including cash) and liabilities (including the Bonds), with the assets and liabilities of districts with which it is consolidating. Although no consolidation is presently contemplated by the District, no representation is made concerning the likelihood of consolidation in the future.

Remedies in Event of Default

Remedies available to Registered Owners of Bonds in the event of a default by the Master District in one or more of its obligations under the Bond Resolution are limited and generally must be exercised by the Trustee. The Registered Owners, acting through the Trustee except as otherwise set forth in the Road Indenture, may obtain a writ of mandamus requiring performance of the Master District's obligations, but such remedy must be exercised upon each default and may prove time-consuming, costly and difficult to enforce. The Bond Resolution does not provide for acceleration of maturity of the Bonds, or any other additional remedy in the event of a default by the Master District and consequently, the remedy of mandamus may have to be relied upon from year-to-year. The Bonds are not secured by an interest in the Master District Facilities or any other property of the Master District. No judgment against the Master District is enforceable by execution of a levy against the Master District's public purpose property. Further, the Registered Owners themselves cannot foreclose on property within the Master District or the Service Area or sell property within the Master District or the Service Area in order to pay the principal of and interest on the Bonds. The enforcement of a claim for payment on the Bonds would be subject to the applicable provisions of the federal bankruptcy laws, any other similar laws affecting the rights of creditors of political subdivisions, and general principles of equity. Certain traditional legal remedies may also not be available. See "INVESTMENT CONSIDERATIONS—Registered Owners' Remedies and Bankruptcy Limitation to Registered Owners' Rights" and "THE INDENTURE OF TRUST."

Legal Investment and Eligibility to Secure Public Funds in Texas

The following is quoted from Section 49.186 of the Texas Water Code, and is applicable to the District:

“(a) All bonds, notes, and other obligations issued by a district shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries, and trustees, and for all interest and sinking funds and other public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic.”

“(b) A district's bonds, notes, and other obligations are eligible and lawful security for all deposits of public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of the bonds, notes, and other obligations when accompanied by any unmatured interest coupons attached to them.”

The Public Funds Collateral Act (Chapter 2257, Texas Government Code) also provides that bonds of the District (including the Bonds) are eligible as collateral for public funds.

No representation is made that the Bonds will be suitable for or acceptable to financial or public entities for investment or collateral purposes. No representation is made concerning other laws, rules, regulations, or investment criteria which might apply to or which might be utilized by any of such persons or entities to limit the acceptability or suitability of the Bonds for any of the foregoing purposes. Prospective purchasers are urged to carefully evaluate the investment quality of the Bonds as to the suitability or acceptability of the Bonds for investment or collateral purposes.

Defeasance

The Bond Resolution provides that the District may discharge its obligations to the Registered Owners of any or all of the Bonds to pay principal, interest and redemption price thereon in any manner permitted by law. Under current Texas law, such discharge may be accomplished either (i) by depositing with the Comptroller of Public Accounts of the State of Texas a sum of money equal to the principal of, premium, if any, and all interest to accrue on the Bonds to maturity or redemption or (ii) by depositing with any place of payment (Paying Agent/Registrar) of the Bonds or other obligations of the District payable from revenues or from ad valorem taxes or both, amounts sufficient to provide for the payment and/or redemption of the Bonds; provided that such deposits may be invested and reinvested only in (a) direct noncallable obligations of the United States of America, (b) noncallable obligations of an agency or instrumentality of the United States, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent, and (c) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent, and which mature and/or bear interest payable at such times and in such amounts as will be sufficient to provide for the scheduled payment and/or redemption of the Bonds.

Upon such deposit as described above, such Bonds shall no longer be regarded as outstanding or unpaid. After firm banking and financial arrangements for the discharge and final payment or redemption of the Bonds have been made as described above, all rights of the District to initiate proceedings to call the Bonds for redemption or take any other action amending the terms of the Bonds are extinguished; provided, however, that the right to call the Bonds for redemption is not extinguished if the District: (i) in the proceedings providing for the firm banking and financial arrangements, expressly reserves the right to call the Bonds for redemption; (ii) gives notice of the reservation of that right to the owners of the Bonds immediately following the making of the firm banking and financial arrangements; and (iii) directs that notice of the reservation be included in any redemption notices that it authorizes.

There is no assurance that the current law will not be changed in the future in a manner which would permit investments other than those described above to be made with amounts deposited to defease the Bonds.

BOOK-ENTRY-ONLY SYSTEM

The information in this section concerning DTC and DTC's book-entry-only system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy or completeness thereof. The District cannot and does not give any assurances that DTC, DTC Direct Participants or Indirect Participants will distribute to the beneficial owners (the "Beneficial Owners") (a) payments of interest, principal or premium, if any, with respect to the Bonds, (b) Bonds representing ownership interest in or other confirmation or ownership interest in the Bonds, or (c) prepayment or other notices sent to DTC or Cede & Co., its nominee, as the Registered Owner of the Bonds, or that they will so do on a timely basis or that DTC, DTC Direct Participants or DTC Indirect Participants will act in the manner described in this OFFICIAL STATEMENT. The current "Rules" applicable to DTC are on file with the Securities and Exchange Commission and the current "Procedure" of DTC to be followed in dealing with DTC Direct Participants are on file with DTC.

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered Bonds registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a rating from S&P Global Ratings of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

All payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with Bonds held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent/Registrar, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but neither the District nor the Underwriter take any responsibility for the accuracy thereof.

USE AND DISTRIBUTION OF BOND PROCEEDS

The construction costs below were compiled by BGE, Inc., the District's engineer (the "Engineer"). Non-construction costs are based upon either contract amounts, or estimates of various costs by the Engineer and Masterson Advisors LLC (the "Financial Advisor"). The actual amounts to be reimbursed by the District and the non-construction costs will be finalized after the sale of the Bonds and completion of certain agreed-upon procedures by the District's auditor. The surplus funds may be expended for any lawful purpose for which surplus construction funds may be used.

TOTAL BOND ISSUE.....	\$ 8,900,000

- (a) The District will capitalize sixteen (16) months of interest to be capitalized on the Bonds at an estimated 4.75% interest rate. See "THE BONDS—Funds."
- (b) A reserve requirement for the Road Contract Revenue Reserve Fund has been established in the Bond Resolution to be a sum of money equal to one-half of the maximum annual debt service requirements on the Outstanding Road Bonds, including the Bonds. An amount equal to the amount required to satisfy the Reserve Requirement associated with the issuance of the Bonds will be funded with Bond proceeds and other legally available funds, if necessary. The above represents the estimated maximum amount of \$350,000 based on an estimated interest rate of 4.75%. See "MASTER DISTRICT CONTRACT" and "INDENTURE OF TRUST."

THE INDENTURE OF TRUST

The Road Contract Revenue Bonds are secured by an Indenture of Trust dated November 1, 2017 (defined as the “Indenture” or the “Road Indenture”) between the Master District and The Bank of New York Mellon Trust Company, N.A., Houston, Texas, as Trustee. Pursuant to the Road Indenture, the Master District has assigned to the Trustee all of the Master District’s right, title and interest in and to the Road Contract Payments under the Master District Contract. Such Road Contract Payments, together with all amounts from time to time on deposit in the Road Contract Revenue Debt Service Fund and Road Contract Revenue Reserve Fund maintained by the Trustee pursuant to the Road Indenture, together with any other property from time to time hereafter conveyed or granted to the Trustee as additional security under the Road Indenture, shall constitute the “Road Pledged Revenues” held by the Trustee under the Road Indenture. Pursuant to the Road Indenture, the Trustee is to maintain the Road Contract Revenue Debt Service Fund and Road Contract Revenue Reserve Fund as trust funds to be held in trust solely for the benefit of the Registered Owners of the Road Contract Revenue Bonds.

The Master District has covenanted in the Road Indenture that it will cause to be charged to each Participant, for deposit into the Road Contract Revenue Debt Service Fund, Road Contract Payments in amounts sufficient, together with other Road Pledged Revenues, to provide for the timely payment of all principal and interest due on the Road Contract Revenue Bonds, including the Bonds. Subject to the provisions of applicable law and the Master District Contract, the Master District has covenanted in the Road Indenture to use its best efforts to cause to be paid by each Participant all Road Contract Payments when due directly to the Trustee. The Road Contract Revenue Debt Service Fund and the Road Contract Revenue Reserve Fund are to be invested only in investments authorized by the laws of the State of Texas but must be invested in a manner such that the money required to be expended from any fund will be available at the proper time or times. Amounts in the Road Contract Revenue Reserve Fund shall be used to pay interest on and principal of the Bonds when insufficient funds are available for such purpose in the Road Contract Revenue Debt Service Fund or shall be applied toward the payment of principal of or interest on the Road Contract Revenue Bonds in connection with a refunding or redemption. The Road Contract Revenue Reserve Requirement has been established in the Bond Resolution to be, with respect to the Road Contract Revenue Bonds, a sum of money equal to one-half of the maximum annual debt service requirements on the Road Contract Revenue Bonds then outstanding. Any funds in excess of the Road Contract Revenue Reserve Requirement held in the Road Contract Revenue Reserve Fund may be deposited into the Road Contract Revenue Debt Service Fund, as directed by the Master District’s Board of Directors.

Events of Default

The Road Indenture provides that an Event of Default shall be either of the following occurrences:

- (a) Failure to pay when due the principal, redemption price or interest on any Road Contract Revenue Bond; or
- (b) Failure to deposit into the applicable Road Contract Revenue Debt Service Fund money sufficient to pay any principal of or interest on any Road Contract Revenue Bond no later than the date when it becomes due and payable.

Remedies

The Road Indenture provides that if an event of default by the Master District exists, then, in addition to other rights and remedies, the Trustee, subject to the provisions of the Road Indenture, may proceed to protect and enforce its rights and the rights of the Registered Owners by suit, action or proceeding in equity or at law or otherwise, whether for the specific performance of any covenant or agreement contained in the Road Indenture, the Bond Resolution or the Road Contract Revenue Bonds or in aid of the execution of any power granted in the Road Indenture or for the enforcement of any other legal, equitable or other remedy, as the Trustee, being advised by counsel, shall deem most effectual to protect and enforce any of the rights of the Trustee or such Registered Owners, including, without limitation, the right to seek a writ of mandamus issued by a court of competent jurisdiction compelling the board of directors or other officers of the Master District or any Participant to make any Road Contract Payment (but only from and to the extent of the sources provided in the Road Indenture and the Master District Contract) or to observe and perform the covenants, obligations or conditions of the Road Indenture or the Master District Contract relating to the Road Contract Revenue Bonds. The Road Indenture provides that the Trustee may seek the appointment of receivers, may act without possession of the Road Contract Revenue Bonds, may act as attorney in fact for the Registered Owners of the Road Contract Revenue Bonds, that no remedy is exclusive and that the delay or omission in the exercise of any right or remedy shall not constitute a waiver. The Road Indenture does not provide for any acceleration of maturity of the Road Contract Revenue Bonds or provide for the foreclosure upon any property or assets of the Master District, other than applying the Road Pledged Revenues in the manner provided in the Road Indenture.

Limitation on Action by Owners

The Road Indenture imposes certain limitations on Registered Owners of Road Contract Revenue Bonds to institute suits, actions or proceedings at law or in equity for the appointment of a receiver or other remedy unless and until the Trustee shall have received the written request of the Registered Owners of not less than 25% of all Road Contract Revenue Bonds then outstanding and the Trustee shall have refused or neglected to institute such suit, action or proceeding for a period of 10 days after having been furnished reasonable indemnity. Notwithstanding the foregoing, Registered Owners of more than 50% of the aggregate principal amount of the Road Contract Revenue Bonds then outstanding shall have the right, by written instrument delivered to the Trustee, to direct the time, method and place of conducting all proceedings to be taken in connection with the enforcement of the terms and conditions of the Road Indenture or for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee or any other proceedings under the Road Indenture; provided, however, that such direction shall not be contrary to law or the provisions of the Road Indenture, and the Trustee shall have the right to decline to follow any such direction if the Trustee in good faith shall determine that the proceeding so directed would involve it in personal liability or would be unjustly prejudicial to the Registered Owners of the Road Contract Revenue Bonds not consenting.

Amendments to the Indenture of Trust

Without the consent of the Registered Owners of any of the Road Contract Revenue Bonds, the Master District and the Trustee may from time to time enter into one or more indentures supplemental to the Road Indenture, which shall form a part of the Road Indenture, for any one or more of the following purposes:

- (1) to cure any ambiguity, inconsistency or defect or omission in the Road Indenture, or any supplemental indenture, so long as said cure is not inconsistent with the Road Indenture and does not adversely affect the interest of the owners of any outstanding Road Contract Revenue Bonds;
- (2) to grant to or confer upon the Trustee for the benefit of the Registered Owners of the Road Contract Revenue Bonds any additional rights, remedies, powers or authority that may lawfully be granted to or conferred upon the Registered Owners of the Road Contract Revenue Bonds or the Trustee or either of them;
- (3) to subject to the lien of the Road Indenture additional revenues, properties or collateral;
- (4) to modify, amend or supplement the Road Indenture or any supplemental indenture in such manner as to provide further assurances that interest on the Road Contract Revenue Bonds will, to the greatest extent legally possible, be excludable from gross income for federal income tax purposes;
- (5) to obtain or provide for bond insurance for the Road Contract Revenue Bonds; provided, however, the Master District (at its option) may obtain or provide for bond insurance for any Road Contract Revenue Bonds through Bond Resolution(s) without the need for a supplemental indenture;
- (6) to add to any statutory terms and conditions imposed by the City of Houston (or other entity that may become the legal successor to the Master District) in connection with the assumption of the Master District's obligations under the Road Indenture;
- (7) to create (or provide for the terms and conditions of) additional funds and accounts or sub-accounts within any funds established by the Road Indenture or the Bond Resolutions; provided, however, the Master District (at its option) may do any of same without the need for a supplemental indenture;
- (8) to change or expand the purposes for which bonds can be issued under the Road Indenture, including (without limitation) allowing, to the extent allowed by law for the issuance of the Master District Bonds that are contract revenue bonds in parity with the Road Contract Revenue Bonds and that are equally secured by the same lien and revenues pledged in the Road Indenture;
- (9) to modify any provision of the Road Indenture or any supplemental indenture in any respect whatsoever, provided that such action shall not adversely affect the interests of the owners of any outstanding Road Contract Revenue Bonds; and
- (10) to obtain or provide for one or more debt service reserve fund surety policies to satisfy some or all of the Road Contract Revenue Reserve Requirement.

Except as provided in the preceding paragraph, any modification, change or amendment of the Road Indenture may be made only by a supplemental indenture adopted and executed by the Master District and the Trustee with the consent of the Registered Owners of not less than a majority of the aggregate principal amount of the Road Contract Revenue Bonds then outstanding. However, without the consent of the Registered Owner of each outstanding Road Contract Revenue Bond, no modification, change or amendment to this Road Indenture shall:

- (1) extend the time of payment of the principal thereof or interest thereon, or reduce the principal amount thereof or premium if any, thereon, or the rate of interest thereon, or make the principal thereof or premium if any, or interest thereon payable in any coin or currency other than any coin or currency of the United States of America which on the date of payment is legal tender for the payment of debts due the United States of America, or deprive such Registered Owner of the lien imposed by the Road Indenture on the revenues pledged in the Road Indenture; or
- (2) modify, change or amend the Road Indenture to permit the creation of any lien on the revenues pledged in the Road Indenture equal or prior to the lien imposed by the Road Indenture.

Water/Sewer/Drainage Contract Revenue Bonds

The District has issued Water/Sewer/Drainage Contract Revenue Bonds under a separate indenture of trust dated November 1, 2018 (the “Water/Sewer/Drainage Indenture”), by and between the Master District and The Bank of New York Mellon Trust Company, N.A., for purposes of issuing Water/Sewer/Drainage Contract Revenue Bonds. The Road Indenture and the Water/Sewer/Drainage Indenture are collectively referred to as the “Indentures.” The lien and revenues pledged by the Road Indenture do not include any payments to be made to the Master District by the Participants: (i) pursuant to a Water/Sewer/Drainage Indenture; or (ii) to pay for any Water/Sewer/Drainage Contract Revenue Bonds (or Master District Water/Sewer/Drainage Facilities).

Removal or Resignation of Trustee

The Trustee may be removed with thirty (30) days’ prior notice by an instrument or concurrent instruments in writing, signed by the Registered Owners of a majority in principal amount of the Water/Sewer/Drainage Contract Revenue Bonds then outstanding and delivered to the Trustee, with notice thereof given to the Master District. The Trustee may at any time resign and be discharged from the trusts created by giving written notice to the Master District and by providing written notice to the Registered Owners of its intended resignation at least sixty (60) days in advance thereof. Such notice shall specify the date on which such resignation shall take effect and shall be sent by first class mail, postage prepaid to each Registered Owner of Water/Sewer/Drainage Contract Revenue Bonds. Resignation by the Trustee shall not take effect unless and until a successor to such Trustee shall have been appointed as hereinafter provided.

Appointment of Successor Trustee

In case the Trustee shall resign, or shall be removed or dissolved, or shall be in the course of dissolution or liquidation, or shall otherwise become incapable of acting under the Road Indenture, or in case the Trustee shall be taken under control of any public officer or officers or a receiver appointed by a court, a successor may be appointed by the Registered Owners of a majority in principal amount of the Road Contract Revenue Bonds then outstanding, by an instrument or concurrent instruments in writing, signed by such Registered Owners or their duly authorized representatives and delivered to the Trustee, with notice thereof given to the Master District; provided, however, that in any of the events above mentioned, the Master District may nevertheless appoint a temporary Trustee to fill such vacancy until a successor shall be appointed by the Registered Owners in the manner above provided, and any such temporary Trustee so appointed by the Master District shall immediately and without further act be automatically succeeded by the successor to the Trustee appointed by the Registered Owners. The Master District shall provide written notice to the Registered Owners of the appointment of any successor Trustee, whether temporary or permanent, in the manner provided for providing notice of the resignation of the Trustee as described above under “-Removal or Resignation of Trustee.” Any successor Trustee or temporary Trustee shall be a trust company or bank in good standing located in or incorporated under the laws of the State of Texas duly authorized to exercise trust powers and subject to examination by federal or state authority, having a reported capital and surplus of not less than \$100,000,000. In the event that no appointment of a successor Trustee is made by the Registered Owners or by the Master District pursuant to the foregoing provisions of this Section at the time a vacancy in the office of the Trustee shall have occurred, the Registered Owner of any Road Contract Revenue Bond issued hereunder or the retiring Trustee may apply to any court of competent jurisdiction for the appointment of a successor Trustee, and such court may thereupon, after such notice as it shall deem proper, if any, appoint a successor Trustee.

THE PARTICIPANTS

Creation, Authority and Description

All Participants (including the District in its capacity as a Participant) operate as municipal utility districts pursuant to Chapters 49 and 54 of the Texas Water Code, as amended, and are located within the Elyson Service Area. To serve the property within their boundaries, they have the power to construct, acquire, operate, maintain and finance water, wastewater and drainage, park and recreational facilities and roads. The Participants were created by orders of the Texas Water Commission (a predecessor to the TCEQ), the TCEQ, or by the Texas legislature, and each was granted special road powers by the Texas Legislature. The Participants are empowered to exercise all the powers and functions which will permit accomplishment of the purposes for which they were created. Each Participant may also establish, operate, and maintain a fire department or contract for firefighting services, if the TCEQ and its voters approve a plan for that purpose.

Authorized Bonds

The Participants, including the District in its capacity as a Participant, have the statutory authority and have each voted to authorize the issuance of unlimited tax bonds for the purposes of providing internal water distribution, wastewater collection, storm drainage facilities, internal roads within their respective boundaries (separate and apart from the Master District Facilities), and parks and recreational facilities. Such bonds are secured by a continuing annual ad valorem tax adequate to provide funds to pay the principal of and interest on such bonds. Such tax is in addition to the Contract Tax. See “—Contract Tax” below. See “APPENDIX A” for a description of the voter authorized bonds, principal amount of bonds issued and principal amount of bonds outstanding, if any, for each Participant.

Operations

Each Participant will be responsible for constructing the internal water distribution system, wastewater collection system, and storm sewers, within such Participants’ boundaries. Pursuant to the Master District Contract, each Participant obtains potable water and sewer services from the Master District. Each Participant sets its own retail rates for water and sewer service, and is required by the Master District Contract to do so at a level which will produce sufficient revenue to pay operating and maintenance charges of the Master District, to pay other costs of operating and maintaining its own utility system.

Contract Tax

Each Participant’s pro rata share of the debt service requirements on the Contract Revenue Bonds shall be determined by dividing each Participant’s Certified Appraised Valuation by the total of all Participants’ Certified Appraised Valuation, calculated annually. Calculation of Contract Payments is based upon “gross” certified appraised value and does not make allowances for any exemptions granted by the Participants; however, allowances are made for exemptions provided under Texas law that do not require action by the Participants. See “TAXING PROCEDURES.” The Master District Contract obligates each Participant to pay its pro rata share of debt service requirements on the Contract Revenue Bonds from the proceeds of annual Contract Tax without legal limit as to rate or amount, or from any other legally available funds. The Contract Tax consists of the Water/Sewer/Drainage Contract Tax and the Road Contract Tax. The Master District does not expect that revenues from the Participants’ wastewater collection and water distribution systems will ever be sufficient to pay a significant portion of Contract Payments for application to debt service on the Contract Revenue Bonds. See “MASTER DISTRICT CONTRACT,” “THE BONDS—Source and Security of Payment,” “TAX DATA” and “APPENDIX A.”

Direct Debt Service Tax

The Participants, including the District in its capacity as a Participant, have the statutory authority to levy and collect a continuing direct annual ad valorem tax unlimited in amount to pay principal and interest on bonds issued to provide internal water distribution, wastewater collection and storm drainage, internal roads, and parks and recreational facilities. Such tax is in addition to the Contract Tax. See “TAX DATA” and “APPENDIX A.”

Maintenance and Operations Taxes

The Participants, including the District in its capacity as a Participant, have the statutory authority to levy and collect an annual ad valorem tax for the operation and maintenance of internal water distribution, wastewater collection, storm drainage facilities, parks and recreational facilities and road facilities. A maintenance tax is in addition to taxes which the Participant is authorized to levy for paying principal of and interest on its unlimited tax bonds and the Contract Tax. See “TAX DATA” and “APPENDIX A.”

Annexation

Under existing Texas law, since the District and each of the other Participants lie wholly within the extraterritorial jurisdiction of the City of Houston, each Participant must conform to a City of Houston consent ordinance. In addition, any Participant may be annexed by the City of Houston without the Participant's consent; however, under Texas law, the City of Houston cannot annex territory within a district unless it annexes the entire district. However, the City of Houston may not annex the Participant unless (i) such annexation has been approved by a majority of those voting in an election held for that purpose within the area to be annexed, and (ii) if the registered voters in the area to be annexed do not own more than 50 percent of the land in the area, a petition has been signed by more than 50 percent of the landowners consenting to the annexation. Notwithstanding the preceding sentence, the described election and petition process does not apply during the term of a strategic partnership agreement between the City of Houston and the Participant specifying the procedures for full purpose annexation of all or a portion of the Participant.

If a Participant is annexed, the City of Houston will assume the Participant's assets and obligations (including the Participant's obligation to make contract payments) and dissolve the Participant within ninety (90) days. Annexation of territory by the City of Houston is a policy-making matter within the discretion of the Mayor and City Council of the City of Houston, and therefore, the District makes no representation that the City of Houston will ever annex the District or any Participant and assume its debt. Moreover, no representation is made concerning the ability of the City of Houston to make debt service payments should annexation occur. See "THE BONDS—Annexation by the City of Houston."

Consolidation

The District has the legal authority to consolidate with other districts and, in connection therewith, to provide for the consolidation of its assets (such as cash and the utility system) and liabilities (such as the Bonds), with the assets and liabilities of a district with which it is consolidating. Although no consolidation is presently contemplated by the District, no representation is made concerning the likelihood of consolidation in the future.

Management

Each Participant is governed by a board of directors, consisting of five (5) members, which has control and management of all affairs of such Participant. A directors election may be held within the boundaries of each Participant on the first Saturday in May in even-numbered years. Directors are elected to serve four-year staggered terms. All such directors reside or own property within the Participant on whose board they serve. None of the Participants has any employees. Each Participant contracts for all services required to maintain its operations. The TCEQ exercises continuing supervisory jurisdiction over each Participant, and operation of each Participant's water, wastewater and storm drainage facilities is subject to regulation by several other state and local agencies.

Financial Data

See "APPENDIX A" for financial information for each Participant.

Future Participants

The Service Area may only be enlarged upon the approval of the Master District, in which case the Master District would have the right to contract with other participants for the expanded service area. Any contract with a participant outside the existing Service Area and any enlargements in size and capacity of the Master District Facilities is subject to the terms and conditions of the Master District Contract and must not impair the right of the existing Participants to receive services from the Master District, which are established under the Master District Contract for the number of connections reserved to the Participant, except with the consent of the Participant. The Master District agrees that it will only contract with other participants, if any, on substantially the same terms and conditions as are set out in the Master District Contract.

ELYSON

The District (in its capacity as a provider of internal water, wastewater and storm drainage facilities) is one of six municipal utility districts, located within the approximately 3,599 acres and referred to herein as the Service Area. The master-planned community of Elyson is planned to encompass all such acres at full development. All of the residential development is currently occurring in the District, MUD 457, MUD 458, MUD 532 and MUD 534 and commercial/multi-family development has or is currently occurring in the District, MUD 457, MUD 458 and MUD 534. See “THE DISTRICT AND SERVICE AREA.”

Recreational amenities within the Service Area for all residents in the Service Area have been constructed on approximately 26 acres and include a 6,500 square foot welcome center that includes a pool, a fitness center and a game room located in MUD 457 and a 3,600 square foot recreation center which includes two pools, a fitness center and a space for special events and other activities located in MUD 534. Parks and open space within the Service Area are or are planned to be connected by a master trail system.

THE DISTRICT AND SERVICE AREA

General

The District is a municipal utility district created by the Texas Water Commission (a predecessor to the TCEQ) on October 16, 1978. The rights, powers, privileges, authority and functions of the District are established by the general laws of the State of Texas pertaining to utility districts, particularly Article XVI, Section 59 and Article III, Section 52 of the Texas Constitution and Chapters 49 and 54 of the Texas Water Code, as amended.

The District is empowered, among other things, to purchase, construct, operate and maintain all works, improvements, facilities and plants necessary for the regional water, wastewater, storm sewer, park, road and other facilities and internal water, wastewater, storm sewer, park and recreational and road facilities within its boundaries. The District may issue bonds and other forms of indebtedness to purchase or construct such facilities, subject to the Master District Contract. The District is also empowered to establish, operate, and maintain fire-fighting facilities, independently or with one or more conservation and reclamation districts, after approval by the City of Houston, the TCEQ and the voters of the District.

The TCEQ exercises continuing supervisory jurisdiction over the Participants. In order to obtain the consent for creation of the Participants from the City of Houston, within whose extraterritorial jurisdiction the Participants lie, each Participant is required to observe certain requirements of the City of Houston which (1) limit the purposes for which the Participants may sell bonds for the acquisition, construction, and improvement of waterworks, wastewater, drainage, park and road facilities, (2) require approval by the City of Houston of Participant construction plans, and (3) permit connections only to single-family lots and commercial or multi-family/commercial platted reserves which have been approved by the Planning Commission of the City of Houston. Construction and operation of the Master District Facilities is subject to the regulatory jurisdiction of additional governmental agencies. See “THE SYSTEM—Regulation.”

Description and Location

The District encompasses approximately 399 acres of land, and, in its capacity as Master District, has a Service Area of approximately 3,599 acres, including the acreage within the District’s boundaries. The Service Area is located approximately 35 miles west of the central downtown business district of the City of Houston. The District is located within Harris County. The Service Area lies wholly within the exclusive extraterritorial jurisdiction of the City of Houston and a portion of the Service Area lies within the boundaries of the Katy Independent School District and a portion of the Service Area lies within the Cypress-Fairbanks Independent School District. Access to the Service Area is currently provided by the Grand Parkway (Texas State Highway 99). Other thoroughfares to the community include Peek Road, Porter Road, and Beckendorff Road with the main entrance to Elyson on Farm-to-Market 529. See “AERIAL LOCATION MAP.”

Land Use

The Service Area currently includes approximately 1,402 acres of single-family residential development (4,589 single-family residential lots), approximately 18 acres of single-family rental development (170 residences), approximately 360 acres served for commercial development, approximately 53 acres for school sites, approximately 1,423 undevelopable acres (greenbelts, public rights-of-way easements and drainage and utility sites), approximately 26 acres of amenities and recreational acreage, and approximately 317 developable acres that have not been provided with water distribution, wastewater collection and storm drainage facilities. The table below represents a detailed breakdown of the current acreage and development in the Service Area.

<u>Traditional Single Family Residential</u>	<u>Approximate Acreage</u>	<u>Lots/ Units</u>
MUD 457.....	623	1,971
MUD 458.....	30	145
MUD 532(a).....	321	946

Future Development.....	317	-
Commercial (c).....	360	-
School Sites (Tax Exempt).....	53	-
Recreation/Open Space.....	26	-
Non-Developable (d).....	<u>1,423</u>	<u>-</u>
Elyson Total	3,599	4,759

- (a) Includes approximately 348 lots on approximately 106 acres currently under utility construction with expected completion in the second quarter of 2026.
- (b) See “—Status of Development—Single-Family Rental” below.
- (c) See “—Status of Development—Commercial/Non-Residential” below.
- (d) Includes public rights-of-way, detention, open spaces, easements and utility sites.

Status of Development

Single-Family Residential: The traditional single-family residential development within the Service Area consists of 1,971 single-family residential lots on approximately 623 acres in MUD 457, 145 single-family residential lots on approximately 30 acres in MUD 458, 598 single-family residential lots on approximately 215 acres in MUD 532 and 1,527 single-family residential lots on approximately 428 acres in MUD 534. According to Brookfield, new homes within the Service Area range in price from approximately \$350,000 to over \$1,000,000. There are an additional 348 single-family residential lots under construction on approximately 106 acres in MUD 532 with completion expected in the second quarter of 2026.

Single-Family Rental: A single-family rental community owned and leased by Brookfield has been developed on approximately 18 acres in the Service Area (approximately 16 acres in MUD 458 and approximately 2 acres in the District). There are a 122 rental home lots and 13 duplex lots (26 residential units) in MUD 458 and 14 home lots and 4 duplex lots (8 residential units) in the District.

As of January 31, 2026, 3,540 homes were complete in the Service Area (3,516 occupied), 298 homes were under construction or continue to be owned by a builder and 595 developed lots were available for home construction. Such numbers include the traditional single-family residential development and the single-family rental development. The estimated population in the Service Area based upon 3.5 persons per occupied single-family residence is 12,306.

Commercial/Non-Residential: Approximately 360 acres have been served with trunk facilities for commercial development in the Service Area, of which approximately 114 acres are located within the District, approximately 42 acres are located within MUD 457, approximately 195 acres are located within MUD 458, and approximately 8 acres are located within MUD 534. There is a Timewise gas station on approximately one acre within MUD 532 is provided utility services by the District. Approximately 23 acres within the District have been developed as The Plaza at Elyson, which according to Brookfield consists of an approximately 145,000 square foot Target store as the anchor tenant, an approximately 25,000 square foot Burlington store, a Chick-Fil-A, a Whataburger, a Jersey Mike’s, Taco Cabana and an additional approximately 40,000 square feet of retail. Additional commercial development in the District consists of a daycare facility, a McDonald’s restaurant, an urgent care, a Salata restaurant, a Taco Bell restaurant, two additional quick service restaurants, a fitness center and an approximately 200,000 square foot retail center, collectively developed on approximately 48 acres. A Goodyear Tire is under construction on approximately one acre in the District and is expected to be completed in the first quarter of 2026. Approximately 48 acres in the District are served with trunk facilities but do not yet have vertical improvements. A child day

care center; a gas service station/convenience store; three shopping centers, each including casual dining restaurants, personal care services and retail shops; and a prep school have been constructed in MUD 457. Commercial development within MUD 458 includes an approximately 838,500 square-foot Builders FirstSource distribution center constructed on approximately 37 acres and a Southeastern Freight Lines truck terminal, service center and offices constructed on approximately 27 acres. Approximately 131 acres in MUD 458 are served with trunk utilities but do not yet have vertical improvements. A Harmony Charter School has been constructed on approximately 26 acres in MUD 458 and an elementary school has been constructed on approximately 13 acres in MUD 457. Katy Independent School District owns approximately 14 acres in MUD 534 where no improvements have been constructed to date. The school sites are exempt from ad valorem taxation.

Future Development

Approximately 317 developable acres of land currently within the Service Area are not yet fully served with water distribution and supply, wastewater collection and treatment, storm drainage facilities or roads. See “INVESTMENT CONSIDERATIONS—Future Debt.” The Engineer has stated that under regulatory criteria and current development plans (and excluding any costs of converting to surface water), the remaining authorized but unissued bonds (after issuance of the Bonds) in the aggregate principal amount of \$542,655,000 should be sufficient to finance the construction of facilities to complete the Service Area’s water, sewer, drainage, roads and recreation system for full development of the Service Area.

THE DEVELOPERS

Role of a Developer

In general, the activities of a landowner or developer in a municipal utility district such as the District and the other districts in the Service Area include designing the project, defining a marketing program and setting building schedules; securing necessary governmental approvals and permits for development; arranging for the construction of roads and the installation of utilities; and selling or leasing improved tracts or commercial reserves to other developers or third parties. A developer is under no obligation to a district to undertake development activities according to any particular plan or schedule. Furthermore, there is no restriction on a developer's right to sell any or all of the land which the developer owns within a district. In addition, the developer is ordinarily the major taxpayer within the district during the early stages of development. The relative success or failure of a developer to perform in the above-described capacities may affect the ability of a district to collect sufficient taxes to pay debt service and retire bonds.

Neither the Developers nor any of their affiliates are obligated to pay principal of or interest on the Bonds. Furthermore, the Developers do not have a binding commitment to the District to carry out any plan of development and the Developers may sell or otherwise dispose of its property within the Service Area, or any other assets, at any time, and the furnishing of information relating to the proposed development by the Developers should not be interpreted as such a commitment. Prospective purchasers are encouraged to inspect the Service Area in order to acquaint themselves with the nature of development that has occurred or is occurring within the boundaries of the Service Area. See “INVESTMENT CONSIDERATIONS.”

Prospective Bond purchasers should note that any prior real estate experience discussed below of the Developers should not be construed as an indication that further development within the Service Area will occur, or that construction of taxable improvements upon property within the Service Area will occur, or that marketing or leasing of taxable improvements constructed upon property within the Service Area will be successful. See “INVESTMENT CONSIDERATIONS.”

NASH FM 529, LLC

NASH FM 529, LLC (“Nash FM 529”), a Delaware limited liability company, is the principal developer of the Service Area and was created for the sole purpose of acquiring and developing Elyson, including the District and its only substantial asset consists of land in Elyson. See “THE DEVELOPERS.” North America Sekisui House L.L.C., a Delaware limited liability company, owns a 95% interest in NASH FM529. American Newland Communities II, LLC., a Delaware limited liability company (“Newland”) owns a 5% interest in NASH FM 529. Newland is wholly owned by Brookfield Communities US, LLC., a Delaware limited liability company. Development of the District is being managed by Brookfield Properties Development L.L.C. (“Brookfield”), which is indirectly wholly owned by Brookfield Residential Properties, Inc. Brookfield is a global developer and operator of high-quality real estate assets and is active in nearly all real estate sectors, including office, retail, multifamily, hospitality and logistics.

PPE GCW, LP

PPE GCW, LP, a Texas limited partnership (“PPE”) is the developer of approximately 149 acres of land in MUD 458, all of which is served with utilities where an approximately 838,500 square-foot Builders FirstSource distribution center has been constructed on approximately 37 of such acres. Builders FirstSource leases such facilities from GCW BFS SPV, LLC and is responsible for all tax payments on such land and building. In addition, Southeastern Freight Lines has constructed a truck terminal, service center and offices on approximately 27 acres of such acreage. PPE continues to own approximately 85 acres of vacant developable land within MUD 458.

PPE is a single purpose entity formed for the sole purpose of developing land within MUD 458. PPE is a thinly capitalized entity whose assets consist primarily of the land it has developed and is currently developing in MUD 458 and the receivables due from MUD 458 for development costs.

Obligations of the Developers

Nash FM 529 and PPE are collectively referred to herein as the “Developers.” The Developers are not legally obligated to provide funds for the development of the District or the Service Area. Further, neither the Developers nor an affiliated company is responsible for, is liable for or has made any commitment for payment of the Bonds or other obligations of the District, and the inclusion of such financial statements and description of financial arrangements herein should not be construed as an implication to that effect. Neither the Developers nor any affiliated companies have any legal commitment to the District or to owners of the Bonds to continue development of the land within the Service Area and the Developers may sell or otherwise dispose of its property within the District, or any other assets, at any time. Further, the financial conditions of the Developers are subject to change at any time.

Homebuilding

Westin Homes, Perry Homes, Chesmar Homes, Newmark Homes, Highland Homes, Brookfield Residential and Beazer Homes are building homes in the Service Area. Homebuilders in the Service Area contract directly with Brookfield and have no obligation to or agreement with the District to construct any homes or other improvements in the Service Area.

MANAGEMENT OF THE DISTRICT

Board of Directors

The District is governed by a Board of Directors consisting of five (5) directors which has control over and management supervision of all affairs of the District, including responsibilities related to the Master District in its capacity as a Participant. Directors are elected to four-year terms and elections may be held in May in even numbered years only. None of the members of the Board resides in the District; however, all of the members own land within the District, subject to a note and deed of trust in favor of certain of the Developers. Directors have staggered four-year terms. The current members of the Board along with their titles and terms are listed as follows:

<u>Name</u>	<u>Board Title</u>	<u>Term</u>
Duane Heckmann	President	May 2026
Mark Yentzen	Vice President	May 2026
Saundra J. Dahlke	Secretary	May 2028
Marilyn Roberts	Assistant Vice President	May 2026
Todd Hamilton	Assistant Secretary	May 2028

District Consultants

The Master District does not have a general manager or other full-time employees, but contracts for certain necessary services as described below.

Bond Counsel/Attorney: The Master District has engaged Allen Boone Humphries Robinson LLP as general counsel to the Master District and as Bond Counsel in connection with the issuance of the Master District's bonds. The legal fees to be paid to Bond Counsel for services rendered in connection with the issuance of the Bonds are based on a percentage of the Bonds actually issued, sold and delivered and, therefore, such fees are contingent upon the sale and delivery of the Bonds.

Financial Advisor: Masterson Advisors LLC, serves as the Master District's Financial Advisor. The fee for services rendered in connection with the issuance of the Bonds is based on a percentage of the Bonds actually issued, sold and delivered and, therefore, such fee is contingent upon the sale and delivery of the Bonds.

Auditor: The financial statements of the Master District as of December 31, 2024, and for the year then ended, included in this offering document, have been audited by Forvis Mazars, LLP, independent auditors, as stated in their report appearing herein. See “APPENDIX B” for a copy of the Master District’s December 31, 2024 financial statements.

Engineer: The Master District's consulting engineer is BGE, Inc. (the “Engineer”).

Tax Appraisal: The Harris Central Appraisal District has the responsibility of appraising all property within the boundaries of the Participants. See “TAXING PROCEDURES.”

Tax Assessor/Collector: The Master District has appointed an independent tax assessor/collector to perform the tax collection function. Utility Tax Service, LLC (the “Tax Assessor/Collector”) has been employed by the Master District to serve in this capacity.

Bookkeeper: The Master District has contracted with District Data Services, Inc. for bookkeeping services (the “Bookkeeper”).

Utility System Operator: The operator of the District’s internal water and wastewater system is Si Environmental, LLC (the “Operator”), which also serves as the operator of the Master District Water/Sewer/Drainage Facilities.

THE ROAD SYSTEM

The Master District, in its capacity as the provider of facilities for regional arterial, collector and thoroughfares and improvements in aid thereof necessary to serve the Service Area, has constructed or will construct major arterial, collector and thoroughfare roads necessary to serve the Service Area (the “Master District Road Facilities”), which include but are not limited to Farm-to-Market 529, Beckendorff Road, Peek Road and Porter Road. The major thoroughfare and collectors consist of stabilized curb and gutter 8-inch concrete pavement and include bridges. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”

All roadways are designed and constructed in accordance with Harris County and City of Houston standards, rules and regulations. To date, Harris County has accepted the completed Master District Road Facilities for operation and maintenance and is responsible for operation and maintenance thereof. In the event Harris County were to fail to accept the Master District Road Facilities, the Master District is expected to include the cost of maintenance of same in the Master District’s operation and maintenance expenses to be shared by the Participants in accordance with the Master District Contract, and such cost could be significant. These roads lie within the public right-of-way. In addition to the roadway, public utilities such as underground water, sewer, and drainage facilities are located within the right-of-way. The right-of-way is also shared by streetlights, sidewalks and franchise utilities (power, gas, telephone and cable).

In addition to the Master District Road Facilities, internal roadways have been or will be constructed by the Participants.

THE SYSTEM

Regulation

Construction and operation of the Master District Water/Sewer/Drainage Facilities as it now exists or as it may be expanded from time to time is subject to regulatory jurisdiction of federal, state and local authorities. The TCEQ exercises continuing, supervisory authority over the District, in its capacity as the Master District and in its capacity as a provider of internal utility services. Discharge of treated sewage into Texas waters, if any, is also subject to the regulatory authority of the TCEQ and the United States Environmental Protection Agency. Construction of drainage facilities is subject to the regulatory authority of the Harris County Flood Control District. Harris County and the City of Houston also exercise regulatory jurisdiction over the Master District Facilities.

According to the Engineer, the Master District Facilities that will be financed with proceeds of Contract Revenue Bonds have been designed and the corresponding plans prepared in accordance with accepted engineering practices and specifications and the approval and permitting requirements of the TCEQ, the Texas Department of Health, Harris County and the City of Houston, where applicable. Construction of the Master District Facilities is subject to inspection by the TCEQ, the City of Houston and Harris County. Each of the aforementioned agencies exercises continuing jurisdiction over the Master District Facilities.

Master District Facilities

Water Supply: The water supply facilities of the Master District currently consist of six water wells with a total capacity of 5,500 gallons per minute (“gpm”), 4,215,000 gallons of ground storage tank capacity, pressure tank capacity of 150,000 gallons, booster pump capacity of 19,400 gpm, and all appurtenances. According to the Engineer, the major components of the Master District’s water supply system have capacity to serve approximately 6,875 equivalent single-family connections. According to the Operator, as of January 31, 2026, the Participants have 3,838 active connections (including 3,516 active single-family connections, 24 vacant residential connections and 298 homes under construction or in a builder’s name). Such numbers include the traditional single-family residential development and the single-family rental development. In order to fully provide water supply to the Service Area, the Master District Facilities will need to be expanded from time to time to meet the demand for such facilities.

Wastewater Treatment: The wastewater treatment facilities of the Master District consist of one plant with a total capacity of 2,000,000 gallons per day (“gpd”). According to the Engineer, the major components of the Master District’s wastewater treatment system have capacity to serve approximately 8,000 equivalent single-family connections. According to the Operator, as of January 31, 2026, the Participants have 3,838 active connections (including 3,516 active single-family connections, 24 vacant residential connections and 298 homes under construction or in a builder’s name). Such numbers include the traditional single-family residential development and the single-family rental development.

Regional Water Distribution and Wastewater Collection: Regional water distribution facilities consist of waterlines ranging in size from 12-inch to 24-inch, generally located within the rights-of-way. These water distribution facilities supply water from the Master District water supply facilities to the Participant’s facilities. The Wastewater Collection facilities include wastewater lines ranging in size from 10-inch to 27-inch generally located within the rights-of-way of collection roads and the previously listed major thoroughfares. These collection lines collect waste from the Participants and transport it to the Master District’s wastewater treatment facilities.

Regional Road System: See “THE ROAD SYSTEM.”

Master Drainage: The Master District also provides the Service Area with drainage facilities designed to handle a 100-year storm event. These facilities include drainage channels, detention ponds, water quality ponds, conveyance storm sewer, and reinforced outfalls.

Master Park Facilities: The Master District provides or will provide an interconnected grade separated trail system connecting community parks and recreation facilities. This system extends along and utilizes the drainage corridors as linear parks connecting multiple neighborhood parks. Pursuant to the Master District Contract, the Master District shall not issue Contract Revenue Bonds for park or recreational facilities. The Master District may, however, require Participants, including the District, to remit Park Construction Charges (as defined in the Master District Contract) to pay for Master District Park Facilities. See “THE BONDS—Financing Parks and Recreation Facilities.”

Internal Water Distribution, Wastewater Collection, Storm Drainage Facilities and Road Facilities

Internal water distribution, wastewater collection and storm drainage facilities have been constructed by the Developers on behalf of the District to serve approximately 22 single-family rental home lots and approximately 114 acres of commercial tracts, on behalf of MUD 457 to serve 1,971 single-family residential lots and approximately 42 acres of commercial tracts, on behalf MUD 458 to serve 145 single-family residential lots, 122 rental home home lots and 13 duplex lots (26 residential units), and approximately 195 acres of commercial tracts, on behalf of MUD 532 to serve 598 single-family residential lots, and on behalf of MUD 534 to serve 1,527 single-family residential lots and 8 acres of commercial tracts. There are an additional 348 single-family residential lots under construction on approximately 106 acres in MUD 532 with completion expected in the second quarter of 2026. See “THE PARTICIPANTS—Future Participants” and “THE DISTRICT AND SERVICE AREA—Land Use.”

Flood Protection and Drainage

“Flood Insurance Rate Map” or “FIRM” means an official map of a community on which the Federal Emergency Management Agency (“FEMA”) has delineated the appropriate areas of flood hazards. The 1% chance of probable inundation, also known as the 100-year flood plain, is depicted on these maps. The “100-year flood plain” (or 1% chance of probable inundation) as shown on the FIRM is the estimated geographical area that would be flooded by a rainstorm of such intensity to statistically have a one percent chance of occurring in any given year. Generally speaking, homes must be built above the 100-year flood plain in order to meet local regulatory requirements and to be eligible for federal flood insurance. An engineering or regulatory determination that an area is above the 100-year flood plain is no assurance that homes built in such area will not be flooded and a number of neighborhoods in the Greater Houston Area that are above the 100-year flood plain have flooded multiple times in the past several years. The Service Area’s drainage system has been designed and constructed to all current standards.

A portion of the Service Area lies within the Bear Creek and South Mayde Creek watersheds within the Addicks Reservoir Watershed. The Service Area is located within floodplains associated with Bear Creek, South Mayde Creek, and the Cypress Creek overflow zone. The majority of such areas are subject to shallow overland flows, which are collected into channels within the development. The floodplains associated with Bear Creek and South Mayde Creek are allowed to maintain their natural floodplain function.

The District developed a master drainage plan that received approval from the Harris County Flood Control District. The District has also received approval of its master drainage plan applications submitted to Harris County and Federal Emergency Management Agency. As development occurs within the Service Area, the master drainage plan removes the developed lots from the 100-year flood plain by filling the development areas, with the flood plain fill mitigated by excavation from other areas within the flood plain that will remain undeveloped. According to the Engineer, none of the currently developed lots in the Service Area are in the 100-year flood plain as a result of the aforementioned process. The flood plain removal is accomplished by submittal of detailed survey information provided to FEMA through a process called a Letter of Map Revisions Based on Fill (“LOMR-F”) based on lot elevation. However, during times of severe flooding, area roads can become inundated, which may restrict access into, within, and out of the District. According to the Engineer, approximately 525 acres of the Service Area remain within the 100-year flood plain but will be filled and removed as development warrants. See “INVESTMENT CONSIDERATIONS—Extreme Weather Events.”

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States (“Atlas 14”). Floodplain boundaries within the Service Area may be redrawn based on the Atlas 14 study based on a higher statistical rainfall amount, resulting in interim floodplain regulations applying to a larger number of properties and consequently leaving less developable property within the Service Area. Such regulations could additionally result in higher insurance rates, increased development fees, and stricter building codes for any property located within the expanded boundaries of the floodplain. See “INVESTMENT CONSIDERATIONS—Atlas 14.”

Subsidence and Conversion to Surface Water Supply

The Service Area is within the boundaries of the Harris Galveston Subsidence District (the “Subsidence District”) which regulates groundwater withdrawal. The Subsidence District has adopted regulations requiring reduction of groundwater withdrawals through conversion to alternate source water (e.g., surface water) in certain areas within the Subsidence District’s jurisdiction, including the area within the District. In 2001, the Texas legislature created the West Harris County Regional Water Authority (the “Authority”) to, among other things, reduce groundwater usage in, and to provide surface water to, the western portion of Harris County and a small portion of Fort Bend County. The Service Area is located within the boundaries of the Authority. The Authority has entered into a Water Supply Contract with the City of Houston, Texas (“Houston”) to obtain treated surface water from Houston. The Authority has developed a groundwater reduction plan (“GRP”) and obtained Subsidence District approval of its GRP. The Authority’s GRP sets forth the Authority’s plan to comply with Subsidence District regulations, construct surface water facilities, and convert users from groundwater to alternate source water (e.g., surface water). The District’s groundwater well(s) are included within the Authority’s GRP.

The Master District’s authority to pump groundwater is subject to an annual permit issued by the Subsidence District to the Authority, which permit includes all groundwater wells that are included in the Authority’s GRP. The Authority, among other powers, has the power to: (i) issue debt supported by the revenues pledged for the payment of its obligations; (ii) establish fees (including fees to be paid by the Master District for groundwater pumped by the Master District and rates for the sale of surface water purchased by the Master District from the Authority), user fees, rates, charges and special assessments as necessary to accomplish its purposes; and (iii) mandate water users, including the Master District, to convert from groundwater to surface water. The Authority currently charges the Master District, and other major groundwater users, a fee per 1,000 gallons based on the amount of groundwater pumped by the Master District and a rate per 1,000 gallons of surface water purchased by the Master District from the Authority. The Authority has issued revenue bonds to fund, among other things, Authority surface water project costs. It is expected that the Authority will continue to issue a substantial amount of bonds by the year 2035 to finance the Authority’s project costs, and it is expected that the fees charged by the Authority will increase substantially over such period.

Under the Subsidence District regulations and the GRP, the Authority is required: (i) through the year 2024, to limit groundwater withdrawals to no more than 70% of the total annual water demand of the water users within the Authority’s GRP; (ii) beginning in the year 2025, to limit groundwater withdrawals to no more than 40% of the total annual water demand of the water users within the Authority’s GRP; and (iii) beginning in the year 2035, and continuing thereafter, to limit groundwater withdrawals to no more than 20% of the total annual water demand of the water users within the Authority’s GRP. If the Authority fails to comply with the above Subsidence District regulations or its GRP, the Authority is subject to a disincentive fee penalty per 1,000 gallons (“Disincentive Fees”) imposed by the Subsidence District for any groundwater withdrawn in excess of 20% of the total annual water demand in the Authority’s GRP. In the event of such Authority failure to comply, the Subsidence District may also seek to collect Disincentive Fees from the Master District. If the Master District failed to comply with surface water conversion requirements mandated by the Authority, the Authority would likely impose monetary or other penalties against the Master District.

The Master District cannot predict the amount or level of fees and charges, which may be due the Authority in the future, but anticipates the need to continue passing such fees through to the Participants. No representation is made that the Authority: (i) will build the necessary facilities to meet the requirements of the Subsidence District for conversion to surface water, (ii) will comply with the Subsidence District’s surface water conversion requirements, or (iii) will comply with its GRP.

Water and Wastewater Operations

The following statement sets forth in condensed form the General Operating Fund for the Master District as derived from the District’s audited financial statements for the fiscal years ended December 31, 2021 through 2024, and an unaudited summary provided by the Bookkeeper for the fiscal year ended December 31, 2025. Such figures are included for informational purposes only. Accounting principles customarily employed in the determination of net revenues have been observed and in all instances exclude depreciation. Reference is made to “APPENDIX B” for further and complete information.

	Fiscal Year Ended December 31				
	2025 (unaudited)	2024	2023	2022	2021
Revenues:

- (a) See “—Estimated Overlapping Debt” in this section.
- (b) The Appraisal District has certified \$1,747,444,724 of appraised value in the boundaries of the Participants for 2025. There is also uncertified appraised value in the boundaries of the Participants that is subject to review and downward revision or adjustment prior to certification in the amount of \$5,189,949. For purposes of this OFFICIAL STATEMENT, the 2025 Appraised Valuation represents the Certified Appraised Valuation plus the uncertified appraised value. No tax will be levied on the uncertified value until it is certified. See “APPENDIX A” for information on each Participant’s certified and uncertified value.
- (c) The Estimated Appraised Valuation as of December 15, 2025, as shown herein, is comprised of the estimate of appraised value as of December 15, 2025 for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534, all provided by the Appraisal District. Optional exemptions granted by the Participants are not available in connection with the estimate of appraised value. The estimated appraised value for MUD 457 and MUD 534 includes the 2025 value associated with optional exemptions granted by MUD 457 and MUD 534, respectively. Optional exemptions are not granted by the other Participants. Increases in value that occur between January 1, 2025 and December 15, 2025 will be appraised for purposes of taxation on January 1, 2026. No tax will be levied on such amount until it is certified in the fall of 2026. See “TAXING PROCEDURES.”
- (d) All of the Master District’s Contract Revenue Bonds are payable from Contract Taxes. The revenues from the Road Contract Tax will be allocated to Road Contract Revenue Bonds, including the Bonds, and the revenues from the Water/Sewer/Drainage Contract Tax will be allocated to the Water/Sewer/Drainage Contract Revenue Bonds. The Water/Sewer/Drainage Contract Revenue Debt Service Fund and Water/Sewer/Drainage Contract Revenue Reserve Fund will not be pledged to the Road Contract Revenue Bonds, including the Bonds, nor will funds deposited into the Road Contract Revenue Debt Service Fund and Road Contract Revenue Reserve Fund be pledged to Water/Sewer/Drainage Contract Revenue Bonds.
- (e) The District will fully fund the Road Contract Revenue Reserve Fund (as defined in the Bond Resolution) with Bond proceeds and other legally available funds, if necessary. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”
- (f) The District will capitalize sixteen (16) months of interest on the Bonds. The amount of capitalized interest shown herein is estimated at 4.75%. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”

Investments of the District

The District has adopted an Investment Policy as required by the Public Funds Investment Act, Chapter 2256, Texas Government Code. The District’s goal is to preserve principal and maintain liquidity while securing a competitive yield on its portfolio. Funds of the District will be invested in short term U.S. Treasuries, certificates of deposit insured by the Federal Deposit Insurance Corporation (“FDIC”) or secured by collateral evidenced by perfected safekeeping receipts held by a third party bank, and public funds investment pools rated in the highest rating category by a nationally recognized rating service. The District does not currently own, nor does it anticipate the inclusion of, long term securities or derivative products in the District portfolio.

Participants’ Appraised Valuation as a Percentage of all Participants (a):

Participant	2024 Certified Appraised Valuation (b)	% of 2024 Certified Appraised Valuation	2025 Appraised Valuation (b)	% of 2025 Appraised Valuation	Estimated Appraised Valuation as of 12/15/2025 (c)	% of Estimated Appraised Valuation as of 12/15/2025

- (a) Appraised value does not exclude value associated with any optional exemption that a Participant may grant under Texas law nor does it exclude the market value deferred as a result of agricultural use.
- (b) As certified by the Appraisal District for 2024. For 2025, the Appraisal District has certified \$1,747,444,724 of appraised value in the boundaries of the Participants. There is also uncertified appraised value in the boundaries of the Participants subject to review and downward revision or adjustment prior to certification in the amount of \$5,189,949. For purposes of this OFFICIAL STATEMENT, the 2025 Appraised Valuation for the Service Area represents the Certified Appraised Valuation plus the uncertified appraised value. No tax will be levied on the uncertified value until it is certified. See “APPENDIX A” for each Participant’s certified and uncertified value.
- (c) The Estimated Appraised Valuation as of December 15, 2025, as shown herein, is comprised of the estimate of appraised value as of December 15, 2025 for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534, all provided by the Appraisal District. Optional exemptions granted by the Participants are not available in connection with the estimate of appraised value. The estimated appraised value for MUD 457 and MUD 534 includes the 2025 value associated with optional exemptions granted by MUD 457 and MUD 534, respectively. Optional exemptions are not granted by the other Participants. Increases in value that occur between January 1, 2025 and December 15, 2025 will be appraised for purposes of taxation on January 1, 2026. No tax will be levied on such amount until it is certified in the fall of 2026. See “TAXING PROCEDURES.”

Outstanding Bonds

The Outstanding Road Bonds and the Outstanding Water/Sewer/Drainage Bonds are collectively referred to herein as the “Outstanding Bonds.” The following table lists the original principal amount of the Outstanding Bonds and the Outstanding Bonds.

Series	Original Principal Amount	Outstanding Bonds
2017 (a)	\$ 2,580,000	\$ 2,085,000
2018	19,505,000	16,480,000
2019	14,330,000	12,255,000
2020 (a)	4,400,000	3,805,000
2020	12,000,000	10,000,000
2021 (a)	3,000,000	2,530,000
2021	17,000,000	15,645,000
2022	23,250,000	20,460,000
2023	31,600,000	29,160,000
2024 (a)	7,000,000	6,730,000
2024	18,710,000	18,710,000
2024A	24,300,000	24,300,000
2025	50,000,000	50,000,000
Total	\$ 227,675,000	\$ 212,160,000

(a) Road Contract Revenue Bonds.

Debt Service Requirements

The following sets forth the debt service on the Outstanding Bonds plus the estimated debt service on the Bonds at an estimated interest rate of 4.75% per annum. This schedule does not reflect that the District capitalized twelve (12) months of interest from proceeds of the Series 2025 Contract Revenue Bonds in October 2025 and will capitalize sixteen (16) months of interest from proceeds of the Bonds. The District will also fully fund the Road Contract Revenue Reserve Fund with Bond proceeds and other legally available funds, if necessary. See “THE BONDS—Funds” and “USE AND DISTRIBUTION OF BOND PROCEEDS.”

Year	Outstanding Debt Service	Plus: Debt Service on the Bonds			Total Debt Service
		Principal	Interest	Total	
2026	\$ 15,557,990.83		\$ 273,613.19	\$ 273,613.19	\$ 15,831,604.02

Estimated Overlapping Debt

The following table lists the outstanding debt payable from ad valorem taxes, of governmental entities overlapping the Participants and the estimated percentages and amounts of such indebtedness attributable to property within the Participants' boundaries. Debt figures equated herein to outstanding obligations payable from ad valorem taxes are based upon data obtained from individual jurisdictions or Texas Municipal Reports compiled and published by the Municipal Advisory Council of Texas. Furthermore, certain entities listed below may have issued additional obligations since the date listed and may have plans to incur significant amounts of additional debt. Political subdivisions overlapping the Participants' boundaries are authorized by Texas law to levy and collect ad valorem taxes for the purposes of operation, maintenance and/or general revenue purposes in addition to taxes for the payment of debt service and the tax burden for operation, maintenance and/or general revenue purposes is not included in these figures. The District has no control over the issuance of debt or tax levies of any such entities.

Taxing Jurisdiction	Outstanding Bonds	As of	Overlapping	
			Percent	Amount
Harris County.....	\$ 2,257,734,736	1/31/2026	0.26%	\$ 5,870,110

- (a) Approximately 973 acres in the Service Area are located within the Cypress-Fairbanks Independent School District and approximately 1,920 acres in the Service Area are located within the Katy Independent School District.
- (b) Includes the Bonds and the Outstanding Bonds.

Estimated Overlapping Taxes

Property within each Participant is subject to taxation by several taxing authorities in addition to the taxes levied by each Participant. On January 1 of each year a tax lien attaches to property to secure the payment of all taxes, penalties and interest imposed on such property. The lien exists in favor of each taxing unit, including each Participant, having the power to tax the property. Each Participant's tax lien is on a parity with tax liens of taxing authorities shown below. In addition to ad valorem taxes required to pay debt service on any contract revenue bonds issued by the Master District (including Water/Sewer/Drainage Contract Revenue Bonds and Road Contract Revenue Bonds), to pay debt service on bonded debt issued by each Participant and other taxing authorities, certain taxing jurisdictions, including each Participant, are also authorized by Texas law to assess, levy and collect ad valorem taxes for operation, maintenance, administrative and/or general revenue purposes.

Set forth below is a summary of taxes levied for the 2025 tax year by all entities which overlap the Service Area and the highest 2025 tax rate of the Participants. No recognition is given to local assessments for civic association dues, fire department contributions, solid waste disposal charges or any other levy of entities other than political subdivisions.

	Tax Rate per \$100 of Taxable <u>Assessed Valuation</u>
Harris County (including Harris County Flood Control District, Harris County Hospital District, Harris County Department of Education, and the Port of Houston Authority).....	\$ 0.628928
Katy Independent School District (a).....	1.117100
Waller-Harris ESD No. 200 (b).....	<u>0.100000</u>
Total Overlapping Tax Rate.....	\$ 1.846028
MUD 532, MUD 533 & MUD 534 (c).....	<u>1.500000</u>
Total Tax Rate.....	\$ 3.346028

- (a) A portion of the District and MUD 458 are located within Cypress-Fairbanks Independent School District, which levied a 2025 total tax rate of \$1.0669.
- (b) Harris County ESD No. 9 overlaps the District, but the Service Area is split between Waller-Harris ESD No. 200 and Harris County ESD No. 9, which adopted a 2024 tax rate of \$0.038831.
- (c) The total tax rates for MUD 171, MUD 457 and MUD 458 are lower. See "APPENDIX A" for a breakdown of each Participant's 2025 total tax rate.

TAX DATA

Contract Tax

The District, in its capacity as the Master District, has the statutory authority and the authorization under the Master District Contract to issue Contract Revenue Bonds. Each Participant’s Contract Payment will be determined annually. The Master District Contract obligates each Participant to pay its pro rata share of debt service requirements on the Contract Revenue Bonds from the proceeds of the Contract Tax, or from any other legally available funds. See “MASTER DISTRICT CONTRACT” and “THE PARTICIPANTS—Contract Tax” and “—Historical Contract Tax Collections” in this section.

Appraised Valuation Information (a)

The Participants’ Appraised Valuation as of January 1 of each year is used by the Master District in establishing the Contract Payments. The following represents the 2024 and 2025 Appraised Valuations, and the Estimated Appraised Valuation as of December 15, 2025, of the Participants and each Participant’s percentage of the total Appraised Valuation. Historical tax information for each Participant is included in APPENDIX A herein.

Participant	2024 Certified Appraised Valuation (b)	% of 2024 Certified Appraised Valuation	2025 Appraised Valuation (b)	% of 2025 Appraised Valuation	Estimated Appraised Valuation as of 12/15/2025 (c)	% of Estimated Appraised Valuation as of 12/15/2025
MUD 171	\$ 71,919,673	5.14%	\$ 117,318,846	6.69%	\$ 148,447,276	7.27%
MUD 457	868,013,709	62.01%	872,177,028	49.76%	874,702,702	42.86%
MUD 458	72,837,965	5.20%	158,509,008	9.04%	176,351,693	8.64%
MUD 532	14,159,817	1.01%	40,754,550	2.33%	167,087,012	8.19%
MUD 533	3,498,447	0.25%	3,682,668	0.21%	3,682,668	0.18%
MUD 534	369,364,476	26.39%	560,192,573	31.96%	670,662,450	32.86%
Total	\$ 1,399,794,087	100.00%	\$ 1,752,634,673	100.00%	\$ 2,040,933,801	100.00%

- (a) Appraised value does not exclude value associated with any optional exemption that a Participant may grant under Texas law nor does it exclude the market value deferred as a result of agricultural use.
- (b) As certified by the Appraisal District for 2024. For 2025, the Appraisal District has certified \$1,747,444,724 of appraised value in the boundaries of the Participants. There is also uncertified appraised value in the boundaries of the Participants that is subject to review and downward revision or adjustment prior to certification in the amount of \$5,189,949. For purposes of this OFFICIAL STATEMENT, the 2025 Appraised Valuation for the Service Area represents the Certified Appraised Valuation for each plus the uncertified appraised value. No tax will be levied on the uncertified value until it is certified. See “APPENDIX A” for each Participant’s certified and uncertified value.
- (c) The Estimated Appraised Valuation as of December 15, 2025, as shown herein, is comprised of the estimate of appraised value as of December 15, 2025 for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534, all provided by the Appraisal District. Optional exemptions granted by the Participants are not available in connection with the estimate of appraised value. The estimated appraised value for MUD 457 and MUD 534 includes the 2025 value associated with optional exemptions granted by MUD 457 and MUD 534, respectively. Optional exemptions are not granted by the other Participants. Increases in value that occur between January 1, 2025 and December 15, 2025 will be appraised for purposes of taxation on January 1, 2026. No tax will be levied on such amount until it is certified in the fall of 2026. See “TAXING PROCEDURES.”

Historical Contract Payment Collections

Contract Payments due to the Master District are payable annually in equal amounts on March 1 and September 1. For tax year 2025, the Contract Payment due from the Participants is \$14,089,998. The first Contract Payment for the 2025 tax year is due March 1, 2026, and the balance is due on September 1, 2026. The Contract Payment collection rates for 2020 through 2025 are shown below. See “APPENDIX A” for a breakdown of each Participant’s tax rate levy.

2020 Contract Payment Collection Rate.....	100.00%
2021 Contract Payment Collection Rate.....	100.00%
2022 Contract Payment Collection Rate.....	100.00%
2023 Contract Payment Collection Rate.....	100.00%
2024 Contract Payment Collection Rate.....	100.00%
2025 Contract Payment Collection Rate.....	0.00%

Principal Taxpayers

See “APPENDIX A” for information on the principal taxpayers of each Participant.

Tax Adequacy for Debt Service

The Contract Tax (comprised of Water/Sewer/Drainage Contract Tax and Road Contract Tax) rate calculations set forth below are presented to indicate the tax rates per \$100 appraised value which would be required to meet average annual and maximum annual debt service requirements if no growth in the collective appraised value of the Participants’ occurred beyond the 2025 Appraised Valuation of \$1,752,634,673 (\$1,747,444,724 of certified value plus \$5,189,949 of uncertified value) and the Estimated Appraised Valuation as of December 15, 2025, of \$2,040,933,801. The calculations contained in the following table merely represent the tax rates required to pay principal and interest on the Outstanding Bonds and the Bonds when due, assuming no further increase or any decrease in appraised value of the Participants, collection of ninety-five percent (95%) of the Contract Tax levied, the sale of no additional Contract Revenue Bonds and no other funds available for the payment of debt service. See “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Debt Service Requirements.”

Average Annual Debt Service Requirement (2026-2053).....	\$12,053,996
\$0.73 Tax Rate on 2025 Appraised Valuation	\$12,154,521
\$0.63 Tax Rate on Estimated Appraised Valuation as of December 15, 2025.....	\$12,214,989
Maximum Annual Debt Service Requirement (2027)	\$17,415,638
\$1.05 Tax Rate on 2025 Appraised Valuation	\$17,482,531
\$0.90 Tax Rate on Estimated Appraised Valuation as of December 15, 2025.....	\$17,449,984

No representation or suggestion is made that the uncertified portion of the 2025 Appraised Valuation will not be adjusted downward prior to certification or that the Estimated Appraised Valuation as of December 15, 2025, will be certified as appraised value by the Appraisal District, and no person should rely upon such amounts or their inclusion herein as assurance of their attainment. See “TAXING PROCEDURES.”

TAXING PROCEDURES

Authority to Levy Taxes

Each Participant, including the Master District in its capacity as a Participant, is authorized to levy an annual ad valorem tax, without legal limitation as to rate or amount, on all taxable property within its boundaries in an amount sufficient to pay the principal of and interest on the outstanding bonds issued by such Participant, Water/Sewer/Drainage Contract Payments on the Bonds, and Contract Payments on any other Contract Revenue Bonds that the Master District has issued or may hereafter issue, and to pay the expenses of assessing and collecting such taxes. Under Texas law, the board of directors of each Participant may also levy and collect an annual ad valorem tax for the operation and maintenance of such Participant. See “INVESTMENT CONSIDERATIONS—Future Debt” and “THE PARTICIPANTS—Contract Tax,” “—Direct Debt Service Tax” and “—Maintenance and Operations Taxes.”

Property Tax Code and County-Wide Appraisal District

Title I of the Texas Property Tax Code (the “Property Tax Code”) specifies the taxing procedures of all political subdivisions of the State of Texas, including the Participants. Provisions of the Property Tax Code are complex and are not fully summarized here.

The Property Tax Code requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State of Texas an appraisal district with the responsibility for recording and appraising property for all taxing units within a county and an appraisal review board with responsibility for reviewing and equalizing the values established by the appraisal district. The Appraisal District has the responsibility for appraising property for all taxing units within Harris County, including the Participants. Such appraisal values are subject to review and change by the Harris Central Appraisal Review Board (the "Appraisal Review Board").

Property Subject to Taxation by the Participants

Except for certain exemptions provided by Texas law, all real property, tangible personal property held or used for the production of income, mobile homes and certain categories of intangible personal property with a tax situs in a Participant are subject to taxation by a Participant. Principal categories of exempt property include, but are not limited to: property owned by the State of Texas or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; certain household goods, family supplies, and personal effects; certain goods, wares and merchandise in transit; farm products owned by the producer; certain property of charitable organizations, youth development associations, religious organizations, and qualified schools; designated historical sites; and most individually owned automobiles. In addition, a Participant may by its own action exempt residential homesteads of persons sixty-five (65) years of age or older and of certain disabled persons to the extent deemed advisable by the Board. A Participant may be required to call such an election upon petition by twenty percent (20%) of the number of qualified voters who voted in the previous election. A Participant is authorized by statute to disregard exemptions for the disabled and elderly if granting the exemption would impair a Participant's obligation to pay tax supported debt incurred prior to adoption of the exemption by a Participant. Furthermore, a Participant must grant exemptions to disabled veterans or certain surviving dependents of disabled veterans, if requested, of between \$5,000 and \$12,000 of taxable valuation depending upon the disability rating of the veteran claiming the exemption, and qualifying surviving spouses of persons 65 years of age or older will be entitled to receive a residential homestead exemption equal to the exemption received by the deceased spouse. A veteran who receives a disability rating of 100% is entitled to an exemption for the full amount of the veteran's residential homestead. Additionally, subject to certain conditions, the surviving spouse of a disabled veteran who is entitled to an exemption for the full value of the veteran's residence homestead is also entitled to an exemption from taxation of the total appraised value of the same property to which the disabled veteran's exemption applied. A partially disabled veteran or certain surviving spouses of partially disabled veterans are entitled to an exemption from taxation of a percentage of the appraised value of their residence homestead in an amount equal to the partially disabled veteran's disability rating if the residence homestead was donated by a charitable organization. Also, the surviving spouse of a member of the armed forces who was killed or fatally injured in the line of duty is, subject to certain conditions, entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead spouse. The surviving spouse of a first responder who was killed or fatally injured in the line of duty is, subject to certain conditions, also entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and, subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse.

Residential Homestead Exemptions: The Property Tax Code authorizes the governing body of each political subdivision in the State of Texas to exempt up to twenty percent (20%) of the Appraised value of residential homesteads from ad valorem taxation. Where ad valorem taxes have previously been pledged for the payment of debt, the governing body of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged if the cessation of the levy would impair the obligations of the contract by which the debt was created. The adoption of a homestead exemption may be considered each year, but must be adopted before July 1.

Freeport Goods and Goods-in-Transit Exemptions: A "Freeport Exemption" applies to goods, wares, ores, and merchandise other than oil, gas, and petroleum products (defined as liquid and gaseous materials immediately derived from refining petroleum or natural gas), and to aircraft or repair parts used by a certified air carrier acquired in or imported into Texas which are destined to be forwarded outside of Texas and which are detained in Texas for assembling, storing, manufacturing, processing or fabricating for less than 175 days. Although certain taxing units may take official action to tax such property in transit and negate such exemption, a Participant does not have such an option. A "Goods-in-Transit" Exemption is applicable to the same categories of tangible personal property which are covered by the Freeport Exemption, if, for tax year 2011 and prior applicable years, such property is acquired in or imported into Texas for assembling, storing, manufacturing, processing, or fabricating purposes and is subsequently forwarded to another location inside or outside of Texas not later than 175 days after acquisition or importation, and the location where said property is detained during that period is not directly or indirectly owned or under the control of the property owner. For tax year 2012 and subsequent years, such Goods-in-Transit Exemption includes tangible personal property acquired in or imported into Texas for storage purposes only if such property is stored under a contract of bailment by a public warehouse operator at one or more public warehouse facilities in Texas that are not in any way owned or controlled by the owner of such property for the account of the person who acquired or imported such property. A property owner who receives the Goods-in-Transit Exemption is not eligible to receive the Freeport Exemption for the same property. Local taxing units such as a Participant may, by official action and after public hearing, tax goods-in-transit personal property. A taxing unit must exercise its option to tax goods-in-transit property before January 1 of the first tax year in which it proposes to tax the property at the time and in the manner prescribed by applicable law. The District and the other Participants have taken official action to allow taxation of all such goods-in-transit personal property for all prior and subsequent years.

Tax Abatement

Harris County may designate all or part of the area within the Service Area as a reinvestment zone. The City of Houston also may designate property within its boundaries or its extraterritorial jurisdiction as a reinvestment zone. Thereafter, Harris County, a Participant, and the City of Houston (after annexation of a Participant(s)) under certain circumstances, may enter into tax abatement agreements with owners of property within the zone. Prior to entering into a tax abatement agreement, each entity must adopt guidelines and criteria for establishing tax abatement, which each entity will follow in granting tax abatement to owners of property. The tax abatement agreements may exempt from ad valorem taxation by each of the applicable taxing jurisdictions, including any Participant participating in the abatement agreement, for a period of up to ten (10) years, all or any part of any increase in the appraised value of property covered by the agreement over its appraised value in the year in which the agreement is executed, on the condition that the property owner make specified improvements or repairs to the property in conformity with the terms of the tax abatement. Each taxing jurisdiction has discretion to determine terms for its tax abatement agreements without regard to the terms approved by the other taxing jurisdictions.

Valuation of Property for Taxation

Generally, property in a Participant must be appraised by the Appraisal District at market value as of January 1 of each year. Once an appraisal roll is prepared and finally approved by the Appraisal Review Board, it is used by a Participant in establishing its tax rolls and tax rate. Assessments under the Property Tax Code are to be based on one hundred percent (100%) of market value, as such is defined in the Property Tax Code.

The Property Tax Code permits land designated for agricultural use, open space or timberland to be appraised at its value based on the land's capacity to produce agricultural or timber products rather than at its market value. The Property Tax Code permits under certain circumstances that residential real property inventory held by a person in the trade or business be valued at the price all such property would bring if sold as a unit to a purchaser who would continue the business. Provisions of the Property Tax Code are complex and are not fully summarized here. Landowners wishing to avail themselves of the agricultural use, open space or timberland designation or residential real property inventory designation must apply for the designation and the appraiser is required by the Property Tax Code to act on each claimant's right to the designation individually. A claimant may waive the special valuation as to taxation by some political subdivisions while claiming it as to another. If a claimant receives the agricultural use designation and later loses it by changing the use of the property or selling it to an unqualified owner, the Participant can collect taxes based on the new use, including taxes for the previous three (3) years for agricultural use, open space land and timberland.

The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraisal values. The plan must provide for appraisal of all real property in the Appraisal District at least once every six (6) years. It is not known what frequency of reappraisal will be utilized by the Appraisal District or whether reappraisals will be conducted on a zone or county-wide basis. Each Participant, however, at its expense has the right to obtain from the Appraisal District a current estimate of appraised values within the Participant or an estimate of any new property or improvements within the Participant. While such current estimate of appraised values may serve to indicate the rate and extent of growth of taxable values within the Participant, it cannot be used for establishing a tax rate within the Participant until such time as the Appraisal District chooses formally to include such values on its appraisal roll.

Effective January 1, 2024, an appraisal district is prohibited from increasing the appraised value of real property during the 2024 tax year on certain non-homestead properties (the "Subjected Property") whose appraised values are not more than \$5,000,000 (the "maximum property value") to an amount not to exceed the lesser of: (1) the market value of the Subjected Property for the most recent tax year that the market value was determined by the appraisal office or (2) the sum of: (a) 20 percent of the appraised value of the Subjected Property for the preceding tax year; (b) the appraised value of the Subjected Property for the preceding tax year; and (c) the market value of all new improvements to the Subjected Property. After the 2024 tax year, through December 31, 2026 (unless extended by the Texas Legislature), the maximum property value may be increased or decreased by the product of the preceding state fiscal year's increase or decrease in the consumer price index, as applicable, to the maximum property value.

The Property Tax Code provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% physically damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as a Participant adopting its tax rate for the tax year. A taxing unit, such as a Participant, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

Participant and Taxpayer Remedies

Under certain circumstances taxpayers and taxing units (such as the Participants) may appeal the orders of the Appraisal Review Board by filing a timely petition for review in State district court. In such event, the value of the property in question will be determined by the court or by a jury if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to compel compliance with the Property Tax Code. The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property value, appraisals which are higher than renditions, and appraisals of property not previously on an appraisal roll.

Levy and Collection of Taxes

Each Participant is responsible for the levy and collection of its taxes unless it elects to transfer such functions to another governmental entity. The rate of taxation is set by the Board of Directors of each Participant, after the legally required notice has been given to owners of property within such Participant, based upon: a) the valuation of property within such Participant as of the preceding January 1, and b) the amount required to be raised for maintenance purposes, debt service on the Participant's bonds, the Participant's pro rata share of the annual debt service requirements (including reserve fund requirements) on contract revenue bonds (including Water/Sewer/Drainage Contract Revenue Bonds and Road Contract Revenue Bonds) issued by the Master District, and other authorized contractual obligations. Taxes are due October 1, or when billed, whichever comes later, and become delinquent if not paid before February 1 of the year following the year in which imposed, except as set forth herein with respect to residential homesteads of persons sixty-five (65) years of age or older or disabled. A delinquent tax incurs a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent, plus one percent (1%) for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. If the tax is not paid by July 1 of the year in which it becomes delinquent, the tax incurs a total penalty of twelve percent (12%) regardless of the number of months the tax has been delinquent and incurs an additional penalty for collection costs of an amount established by the Participant and a delinquent tax attorney. For those taxes billed at a later date and that become delinquent on or after June 1, they will also incur an additional penalty for collection costs of an amount established by the Participant and a delinquent tax attorney. The delinquent tax accrues interest at a rate of one percent (1%) for each month or portion of a month it remains unpaid. The Property Tax Code makes provisions for the split payment of taxes, discounts for early payment and the postponement of the delinquency date of taxes under certain circumstances which, at the option of the Participants may be rejected. A Participant's tax collector is required to enter into an installment payment agreement with any person who is delinquent on the payment of tax on a residence homestead for payment of tax, penalties and interest, if the person requests an installment agreement in writing and has not entered into an installment agreement with the collector in the preceding 24 months. The installment agreement must provide for payments to be made in equal monthly installments and must extend for a period of at least 12 months and no more than 36 months. Additionally, the owner of a residential homestead property who is (i) sixty-five (65) years of age or older, (ii) disabled, or (iii) a disabled veteran, is entitled by law to pay current taxes on a residential homestead in installments without penalty or to defer the payment of taxes during the time of ownership. In the instance of tax deferral, a tax lien remains on the property and interest continues to accrue during the period of deferral.

Tax Payment Installments

Certain qualified taxpayers, including owners of residential homesteads, located within a designated disaster area or emergency area and whose property has been damaged as a direct result of the disaster or emergency, are entitled to enter into a tax payment installment agreement with a taxing jurisdiction, such as the District, if the taxpayer pays at least one-fourth of the tax bill imposed on the property by the delinquency date. The remaining taxes may be paid without penalty or interest in three equal installments within six months of the delinquency date.

Additionally, the Property Tax Code authorizes a taxing jurisdiction such as the District, solely at the jurisdiction's discretion to adopt a similar installment payment option for taxes imposed on property that is located within a designated disaster area or emergency area and is owned or leased by certain qualified business entities, regardless of whether the property has been damaged as a direct result of the disaster or emergency.

Additional Penalties

Each Participant has contracted with a delinquent tax attorney to collect certain delinquent taxes. In connection with that contract, each Participant can establish an additional penalty of twenty percent (20%) of the tax to defray the costs of collection. This 20% penalty applies to taxes that either: (1) become delinquent on or after February 1 of a year, but not later than May 1 of that year, and that remain delinquent on April 1 (for personal property) and August 1 (for real property) of the year in which they become delinquent or (2) become delinquent on or after June 1, pursuant to the Texas Tax Code.

Rollback of Operation and Maintenance Tax Rate

Chapter 49 of the Texas Water Code, as amended, classifies districts differently based on the current operation and maintenance tax rate or on the percentage of build-out that the District has completed. Districts that have adopted an operation and maintenance tax rate for the current year that is 2.5 cents or less per \$100 of taxable value are classified as “Special Taxing Units.” Districts that have financed, completed, and issued bonds to pay for all improvements and facilities necessary to serve at least 95% of the projected build-out of the district are classified as “Developed Districts.” Districts that do not meet either of the classifications previously discussed can be classified herein as “Developing Districts.” The impact each classification has on the ability of a district to increase its maintenance and operations tax rate is described for each classification below. Debt service and contract tax rates cannot be reduced by a rollback election held within any of the districts described below.

Special Taxing Units: Special Taxing Units that adopt a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, may be required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Special Taxing Unit is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

Developed Districts: Developed Districts that adopt a total tax rate that would impose more than 1.035 times the amount of the total tax imposed by the district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions for the preceding tax year, plus any unused increment rates, as calculated and described in Section 26.013 of the Tax Code, may be required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Developed District is the current year's debt service and contract tax rate plus 1.035 times the previous year's operation and maintenance tax rate plus any unused increment rates. In addition, if any part of a Developed District lies within an area declared for disaster by the Governor of Texas or President of the United States, alternative procedures and rate limitations may apply for a temporary period. If a district qualifies as both a Special Taxing Unit and a Developed District, the district will be subject to the operation and maintenance tax threshold applicable to Special Taxing Units.

Developing Districts: Districts that do not meet the classification of a Special Taxing Unit or a Developed District can be classified as Developing Districts. The qualified voters of these districts, upon the Developing District's adoption of a total tax rate that would impose more than 1.08 times the amount of the total tax rate imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, are authorized to petition for an election to reduce the operation and maintenance tax rate. If an election is called and passes, the total tax rate for Developing Districts is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

The District: The District, MUD 458, MUD 532, MUD 533, and MUD 534 have independently made determinations that the respective districts were considered Developing Districts for the 2026 tax year. MUD 457 made the determination that it is considered a Developed District for the 2026 tax year. The District cannot give any assurances as to what its classification or the classification of the Participants will be at any point in time or whether the District's or Participants' future tax rates will result in a total tax rate that will reclassify the District or Participants into a new classification and new election calculation.

Participant's Rights in the Event of Tax Delinquencies

Taxes levied by each Participant are a personal obligation of the owner of the property as of January 1 of the year for which the tax is imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all state and local taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of the State of Texas and each local taxing unit, including each Participant, having power to tax the property. The Participant's tax lien is on a parity with tax liens of such other taxing units. See “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Estimated Overlapping Taxes.” A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien, whether or not the debt or lien existed before the attachment of the tax lien; however, whether a lien of the United States is on a parity with or takes priority over a tax lien of a district is determined by applicable federal law. Personal property under certain circumstances is subject to seizure and sale for the payment of delinquent taxes, penalty, and interest.

At any time after taxes on property become delinquent, a Participant may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both, subject to the limitations set forth under “Levy and Collection of Taxes.” In filing a suit to foreclose a tax lien on real property, a Participant must join other taxing units that have claims for delinquent taxes against all or part of the same property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, and by taxpayer redemption rights. A taxpayer may redeem commercial property within six months and all other types of property within two (2) years after the purchaser's deed issued at the foreclosure sale is filed in the county records. The Participant's ability to foreclose its tax lien or collection penalties or interest on delinquent taxes may be limited on property owned by a financial institution which is under receivership by the Federal Deposit Insurance Corporation pursuant to the Federal Deposit Insurance Act, 12 U.S.C. 1825, as amended. See “INVESTMENT CONSIDERATIONS—General” and “—Tax Collection Limitations and Foreclosure Remedies.”

INVESTMENT CONSIDERATIONS

General

The Bonds are special obligations solely of the Master District (except the Master District in its role as a Participant) and are not obligations of the State of Texas; Harris County, Texas; the City of Houston, Texas; any of the Participants except the Master District; or any entity other than the Master District. The Road Contract Revenue Bonds, including the Bonds, are payable solely from and to the extent of certain contract payments received by the Master District from the Participants pursuant to the Master District Contract, with each Participant's annual contract payment being equal to its pro rata share of annual debt service on the Road Contract Revenue Bonds, including the Bonds, plus all charges and expenses of paying agents, registrars and trustees, and all amounts required to establish and maintain funds, including the Road Contract Revenue Reserve Fund, established under the Bond Resolution or the Road Indenture, based upon the Certified Appraised Valuation of each such Participant as a percentage of the total Certified Appraised Valuation of all Participants (the "Road Contract Payment(s)"). The obligations of the Participants to make Road Contract Payments are several, not joint, obligations pro-rated among the Participants based upon the proportion of the Certified Appraised Valuation of property within their respective boundaries to the total Certified Appraised Valuation of property within all of the Participants as described herein. No Participant is obligated to pay the Road Contract Payments allocated to any other Participant; however, lack of payment by any Participant could result in an increase in the Road Contract Payment amount paid by each of the other Participants during the time that such Participant's payment is delinquent. The security for payment of the principal of and interest on the Bonds by the Master District therefore depends on the ability of each Participant to collect annual ad valorem taxes (without legal limit as to rate or amount) levied on taxable property within its boundaries sufficient to make its Road Contract Payments. See "—Registered Owners' Remedies and Bankruptcy Limitation to Registered Owner's Rights" herein and "THE BONDS—Source and Security of Payment."

Pursuant to an Indenture of Trust dated November 1, 2018 (the "Water/Sewer/Drainage Indenture"), by and between the Master District and The Bank of New York Mellon Trust Company, N.A., the Master District has issued, and is expected to issue, contract revenue bonds for the purpose of purchasing or acquiring regional water, sanitary sewer and drainage facilities ("Water/Sewer/Drainage Contract Revenue Bonds"). The Master District Contract obligates each Participant to pay a pro rata share of the debt service on the Water/Sewer/Drainage Contract Revenue Bonds based upon the Certified Appraised Valuation of each Participant as a percentage of the Certified Appraised Valuation of all Participants, calculated annually. Each Participant is obligated to make such payments ("Water/Sewer/Drainage Contract Payments") from the proceeds of an annual ad valorem tax, without legal limit as to rate or amount, levied by such Participant for such purpose on taxable property within its boundaries ("Water/Sewer/Drainage Contract Tax"), or from any other lawful source of such Participant's income.

Water/Sewer/Drainage Contract Payments (all of which are derived from the Water/Sewer/Drainage Contract Tax or other legally available funds of a Participant) are not pledged for and are not available to be used to: (i) pay debt service on the Bonds or any additional Road Contract Revenue Bonds; or (ii) fund or maintain the Road Contract Revenue Reserve Fund. Road Contract Payments (all of which are derived from the Road Contract Tax or other legally available funds of a Participant) are not pledged for and are not available to be used to: (i) pay debt service on the Water/Sewer/Drainage Contract Revenue Bonds; or (ii) fund or maintain the Water/Sewer/Drainage Contract Revenue Reserve Fund.

The Road Contract Tax and the Water/Sewer/Drainage Contract Tax are referred to herein collectively as the "Contract Tax;" the Road Contract Revenue Bonds and the Water/Sewer/Drainage Contract Revenue Bonds are referred to herein collectively as the "Contract Revenue Bonds;" and the Road Contract Payment and Water/Sewer/Drainage Contract Payment are referred to herein collectively as the "Contract Payment."

Economic Factors and Interest Rates

A substantial percentage of the taxable value of the Service Area results from the current market value of single-family residences, commercial/multi-family development and developed lots which are currently being marketed by the Developers for sale to homebuilders for the construction of primary residences. The market value of such homes and lots and commercial/multi-family development is related to general economic conditions in the Houston region and the national economy and those conditions can affect the demand for residences. Demand for lots of this type and the construction of residential dwellings thereon can be significantly affected by factors such as interest rates, credit availability, construction costs and the prosperity and demographic characteristics of the urban center toward which the marketing of lots is directed. Decreased levels of construction activity would tend to restrict the growth of property values in the Service Area or could impact such values.

Credit Markets and Liquidity in the Financial Markets

Interest rates and the availability of mortgage and development funding have a direct impact on the construction activity, particularly short-term interest rates at which developers are able to obtain financing for development costs. Interest rate levels may affect the ability of a landowner with undeveloped property to undertake and complete construction activities within the Service Area. Because of the numerous and changing factors affecting the availability of funds, particularly the liquidity in the national credit markets, the District is unable to assess the future availability of such funds for continued construction within the Service Area. In addition, since the Service Area is located approximately 35 miles from the central downtown business district of the City of Houston, the success of development within the Service Area and growth of Service Area taxable property values are, to a great extent, a function of the Houston metropolitan and regional economies and national credit and financial markets. A downturn in the economic conditions of Houston and decline in the nation's real estate and financial markets could adversely affect development and home-building plans in the Service Area and restrain the growth or reduce the value of the Service Area's property tax base.

Competition

The demand for and construction of single-family homes in the Service Area, which is approximately 35 miles west of downtown Houston, could be affected by competition from other residential developments including other residential developments located in the western portion of the Houston metropolitan area along the Grand Parkway (Texas State Highway 99). In addition to competition for new home sales from other developments, there are numerous previously owned homes in the area of the Service Area and in more established neighborhoods closer to downtown Houston. Such homes could represent additional competition for new homes proposed to be sold within the Service Area.

The competitive position of the Developers in the sale of developed lots and of prospective builders in the construction of single-family residential houses within the Service Area and marketing of commercial tracts within the Service Area is affected by most of the factors discussed in this section. Such a competitive position directly affects the growth and maintenance of taxable values in the Service Area. The District can give no assurance that building and marketing programs in the Service Area by the Developers will be implemented or, if implemented, will be successful. Failure of the Developers to develop the developable land or of builders to construct taxable improvements on the developed lots could restrict the rate of growth of the taxable value.

Undeveloped Acreage and Lots

There are approximately 317 developable acres of land in the Service Area that have not been provided with water, wastewater, storm sewer, park, road and other facilities necessary for the construction of taxable improvements. In addition, as of January 31, 2026, there were 116 vacant single-family residential and rental lots and in MUD 458, 360 vacant single-family residential lots in MUD 532 and 119 vacant developed single-family residential lots in MUD 534. The District makes no representation as to when or if development of the undeveloped acreage will occur or that the lot sales and building program will be successful. Failure of the Developers to develop the developable land could restrict the rate of growth of taxable value in the District. See “THE DISTRICT AND THE SERVICE AREA—Land Use.”

Developer Obligation to the District

There are no commitments from or obligations of the Developers or any other landowner in the Service Area to proceed at any particular rate or according to any specified plan with the development of land or construction of improvements in the Service Area, and there is no restriction on any landowner’s right to sell its land. Failure to construct taxable improvements on developed tracts of land or developed lots could restrict the rate of growth of taxable values in the Service Area. The Master District cannot and does not make any representations that over the life of the Bonds the Participants will increase or maintain their taxable property. See “THE DEVELOPERS” and “APPENDIX B.”

Increase in Costs of Building Materials

As a result of supply issues, shipping constraints, and ongoing trade disputes (including tariffs), there have been recent substantial increases in the cost of lumber and other building materials, causing many homebuilders and general contractors to experience budget overruns. Further, the unpredictable nature of current trade policy (including the threatened imposition of tariffs) may impact the ability of the Developers or homebuilders in the Service Area to estimate costs. Additionally, immigration policies may affect the State’s workforce, and any labor shortages that could occur may impact the rate of construction within the Service Area. Uncertainty surrounding availability and cost of materials may result in decreased levels of construction activity, and may restrict the growth of property values in the Service Area. The District makes no representations regarding the probability of development or homebuilding continuing in a timely manner or the effects that current or future economic or governmental circumstances may have on any plans of the Developers or homebuilders.

Possible Impact on Contract Tax Rate

Assuming no further development, the value of the land and improvements currently within the Service Area will be the major determinant of the ability or willingness of owners of property within the Participants to pay their taxes. The 2025 Appraised Valuation of the Participants is \$1,752,634,673 (\$1,747,444,724 of certified value plus \$5,189,949 of uncertified value). After issuance of the Bonds, the maximum debt service requirement on the Bonds and the Outstanding Bonds will be \$17,415,638 (2027), and the average annual debt service requirement will be \$12,053,996 (2026-2053, inclusive). Assuming no increase or decrease from the 2025 Appraised Valuation, the issuance of no additional debt, and no other funds available for the payment of debt service, contract tax rates of \$1.05 and \$0.73 per \$100 of appraised value at a ninety-five percent (95%) collection rate would be necessary to pay the maximum debt service requirement and the average annual debt service requirement, respectively. The Estimated Appraised Valuation of the Participants as of December 15, 2025, is \$2,040,933,801. Assuming no increase or decrease from the Estimated Appraised Valuation as of December 15, 2025, the issuance of no additional debt, and no other funds available for the payment of debt service, contract tax rates of \$0.90 and \$0.63 per \$100 of appraised value at a ninety-five percent (95%) collection rate would be necessary to pay the maximum debt service requirement and the average annual debt service payment, respectively. See “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Debt Service Requirements.”

No representation or suggestion is made that the uncertified portion of the 2025 Appraised Valuation will not be adjusted downward prior to certification and that the Estimated Appraised Value as of December 15, 2025, provided by the Appraisal District will be certified by the Appraisal District, and no person should rely upon such amounts or their inclusion herein as assurance of their attainment. See “TAXING PROCEDURES.”

Debt Burden on Property within the Participants

The Master District expects that each Participant (including the District in its capacity as a Participant) will derive funds to make its Contract Payments to the Master District from the collection of ad valorem taxes, without legal limit as to rate or amount, levied on all taxable property within its boundaries. In addition to the annual levy of a Contract Tax to make its annual Contract Payments, each Participant (including the District in its capacity as a Participant) is authorized, and expected, to levy a tax on all taxable property within its boundaries (without legal limit as to rate or amount) to pay annual principal and interest on bonds issued by the Participant and to pay its operations and maintenance expenses. In accordance with the development plan of the Developers, it is expected that each Participant will also issue bonds to finance the internal water, wastewater and storm drainage facilities, roads and each Participant’s pro rata share of regional park and recreation facilities within its boundaries at the earliest time permitted by the rules of the TCEQ.

The Master District can make no representation that the taxable property values in the Participants will maintain a value sufficient to support the aforementioned Contract Tax or to justify continued payment of taxes by property owners. See “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED),” “TAX DATA—Tax Adequacy for Debt Service” and “APPENDIX A.”

The current TCEQ rules regarding the feasibility of a bond issue for utility districts in Harris County limit the projected combined total tax rate of entities levying a tax for water, sewer, drainage, roads and recreational facilities to \$1.50 per \$100 of taxable appraised value. In the case of the Participants the total combined tax rate under current TCEQ rules includes the Contract Tax rate in combination with the direct tax rates of a Participant for debt service and maintenance. If the current combined tax rate a Participant should ever exceed \$1.50 per \$100 of taxable appraised value, such Participant or the Master District could be prohibited under rules of the TCEQ from selling additional bonds which require the prior approval of TCEQ. See “—Possible Impact on District Tax Rates” herein and “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (Unaudited)—Estimated Overlapping Debt” and “—Estimated Overlapping Taxes.”

The total composite tax rate, which includes or will include the Contract Tax and direct taxes for debt service and maintenance and operations, to which property in each of the Participants may be higher than the composite tax rate of property within other competing subdivisions. To the extent that such composite tax rate is not competitive, the growth of property tax values in each Participant and the investment quality or security of the Bonds could be adversely affected. The Master District has no control over such composite tax rate. See “—Competition” in this section and “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Estimated Overlapping Taxes.”

Specific Flood Type Risks

Ponding (or Pluvial) Flood: Ponding, or pluvial, flooding occurs when heavy rainfall creates a flood event independent of an overflowing water body, typically in relatively flat areas. Intense rainfall can exceed the drainage capacity of a drainage system, which may result in water within the drainage system becoming trapped and diverted onto streets and nearby property until it is able to reach a natural outlet. Ponding can also occur in a flood pool upstream or behind a dam, levee or reservoir.

Riverine (or Fluvial) Flood: Riverine, or fluvial, flooding occurs when water levels rise over the top of river, bayou or channel banks due to excessive rain from tropical systems making landfall and/or persistent thunderstorms over the same area for extended periods of time. The damage from a riverine flood can be widespread. The overflow can affect smaller rivers and streams downstream, or may sheet-flow over land. Flash flooding is a type of riverine flood that is characterized by an intense, high velocity torrent of water that occurs in an existing river channel with little to no notice. Flash flooding can also occur even if no rain has fallen, for instance, after a levee, dam or reservoir has failed or experienced an uncontrolled release, or after a sudden release of water by a debris or ice jam. In addition, planned or unplanned controlled releases from a dam, levee or reservoir also may result in flooding in areas adjacent to rivers, bayous or man-made drainage systems (canals or channels) downstream.

Atlas 14

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States (“Atlas 14”). Floodplain boundaries within the Service Area may be redrawn based upon the Atlas 14 study, which is based upon a higher statistical rainfall amount, resulting in interim floodplain regulations applying to a larger number of properties. Such regulations could additionally result in higher insurance rates, increased development fees and stricter building codes for any property located within the expanded boundaries of the floodplain. See “THE SYSTEM—Flood Protection and Drainage.”

Potential Effects of Oil Price Fluctuations on the Houston Area

The economy of the Houston area has, in the past, been particularly affected by adverse conditions in the oil and gas industry, and such conditions and their spillover effects into other industries could result in declines in the demand for residential and commercial property in the Houston area and could reduce or negatively affect property values or homebuilding activity within the Service Area. The Master District cannot predict the impact that negative conditions in the oil industry could have on property values within the Service Area.

Extreme Weather Events

The greater Houston area, including the Service Area, is subject to occasional severe weather events, including tropical storms and hurricanes. If the Service Area were to sustain damage to its facilities requiring substantial repair or replacement, or if substantial damage were to occur to taxable property within the Service Area as a result of such a weather event, the investment security of the Bonds could be adversely affected. The greater Houston area has experienced multiple storms exceeding a 0.2% probability (i.e. “500-year flood” events) since 2015, including Hurricane Harvey, which made landfall along the Texas Gulf Coast on August 25, 2017, and brought historic levels of rainfall during the successive four days.

According to the Operator, the Engineer and Brookfield, the Master District’s water, wastewater and drainage system did not sustain any material damage and there was no interruption of water and sewer service as a result of Hurricane Harvey. Further, according to the Operator, Engineer and Brookfield, no homes within the District experienced structural flooding or other material damage as a result of Hurricane Harvey.

If a future weather event significantly damaged all or part of the improvements within the Service Area, the assessed value of property within the Service Area could be substantially reduced, which could result in a decrease in tax revenues and/or necessitate an increase in the Participants’ tax rates. Further, there can be no assurance that a casualty loss to taxable property within the Service Area will be covered by insurance (or that property owners will even carry flood or other casualty insurance), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild or repair any damaged improvements within the Service Area. Even if insurance proceeds are available and improvements are rebuilt, there could be a lengthy period in which assessed values within the Service Area could be adversely affected.

Registered Owners' Remedies and Bankruptcy Limitation to Registered Owner’s Rights

If the District defaults in the payment of principal, interest, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created or confirmed in the Bond Resolution, or defaults in the observation or performance of any other covenants, conditions, or obligations set forth in the Bond Resolution, the registered owners of the Bonds (“Registered Owners”) have the statutory right of a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Resolution. Except for mandamus, the Bond Resolution does not specifically provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, the Road Indenture provides certain limitations on the right of Registered Owners of the Bonds to institute suits, actions or proceedings at law or in equity upon the occurrence of an event of default. See “THE BONDS—Remedies in Event of Default” and “THE INDENTURE OF TRUST.” Statutory language authorizing local governments such as the District to sue and be sued does not waive the local government’s sovereign immunity from suits for money damages, so that in the absence of other waivers of such immunity by the Texas Legislature, a default by the District in its covenants in the Bond Resolution may not be reduced to a judgment for money damages. If such a judgment against the District were obtained, it could not be enforced by direct levy and execution against the property of the Master District or property within the Service Area. Further, the Registered Owners cannot themselves foreclose on property within the Service Area or sell property within the Service Area to enforce the tax lien on taxable property to pay the principal of and interest on the Bonds. The enforceability of the rights and remedies of the Registered Owners may further be limited by a State of Texas statute reasonably required to attain an important public purpose or by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions, such as the District.

Subject to the requirements of Texas law discussed below, a political subdivision such as the District (or another Participant) may voluntarily file a petition for relief from creditors under Chapter 9 of the Federal Bankruptcy Code, 11 U.S.C. Sections 901-946. The filing of such petition would automatically stay the enforcement of Registered Owners’ remedies, including mandamus. The automatic stay would remain in effect until the federal bankruptcy judge hearing the case dismisses the petition, enters an order granting relief from the stay or otherwise allows creditors to proceed against the petitioning political subdivision. A political subdivision such as the District may qualify as a debtor eligible to proceed in a Chapter 9 case only if it (1) is authorized to file for federal bankruptcy protection by applicable state law, (2) is insolvent or unable to meet its debts as they mature, (3) desires to effect a plan to adjust such debts, and (4) has either obtained the agreement of or negotiated in good faith with its creditors or is unable to negotiate with its creditors because negotiation is impracticable. Special districts such as the District must obtain the approval of the TCEQ as a condition to seeking relief under the federal Bankruptcy Code. The TCEQ is required to investigate the financial condition of a financially troubled district and authorize such district to proceed under federal bankruptcy law only if such district has fully exercised its rights and powers under Texas law and remains unable to meet its debts and other obligations as they mature.

Notwithstanding noncompliance by a district with Texas law requirements, the District could file a voluntary bankruptcy petition under Chapter 9, thereby invoking the protection of the automatic stay until the bankruptcy court, after a hearing, dismisses the petition. A federal bankruptcy court is a court of equity and federal bankruptcy judges have considerable discretion in the conduct of bankruptcy proceedings and in making the decision of whether to grant the petitioning district relief from its creditors. While such a decision might be appealable, the concomitant delay and loss of remedies to the Registered Owner could potentially and adversely impair the value of the Registered Owner's claim.

If a petitioning district were allowed to proceed voluntarily under Chapter 9 of the federal Bankruptcy Code, it could file a plan for an adjustment of its debts. If such a plan were confirmed by the bankruptcy court, it could, among other things, affect Registered Owners by reducing or eliminating the amount of indebtedness, deferring or rearranging the debt service schedule, reducing or eliminating the interest rate, modifying or abrogating the collateral or security arrangements, substituting (in whole or in part) other securities, and otherwise compromising and modifying the rights and remedies of the Registered Owners' claims against a district.

A district may not be forced into bankruptcy involuntarily.

Future Debt

Pursuant to the Master District Contract, the Master District may issue Water/Sewer/Drainage Contract Revenue Bonds in a principal amount not to exceed \$680,320,000 to provide the Master District Water, Sewer and Drainage Facilities and for refunding of such bonds, and in a principal amount not to exceed \$98,910,000 for the purpose of constructing and acquiring the Master District Road Facilities and for refunding of such bonds. After the issuance of the Bonds, the Master District will have \$469,625,000 principal amount of Water/Sewer/Drainage Contract Revenue Bonds authorized but unissued, and \$73,030,000 principal amount of Road Contract Revenue Bonds will remain authorized but unissued. Any future Contract Revenue Bonds will be on a parity with the Bonds. The Master District anticipates that it will issue additional Contract Revenue Bonds. Future issues of Contract Revenue Bonds are intended to be sold at the earliest practicable date consistent with the maintenance of a reasonable tax rate in the Service Area. The Master District does not employ any formula with respect to appraised values, tax collections or otherwise to limit the amount of Contract Revenue Bonds which it may issue. The issuance of additional bonds may be subject to approval by the TCEQ pursuant to its rules regarding issuance and feasibility of bonds. The Master District has also authorized the preparation and submittal of a bond application to the TCEQ requesting approval to sell approximately \$32,700,000 principal amount of Contract Revenue Bonds for water, sewer and drainage facilities with approval and issuance of such bonds expected in the fourth quarter of 2026. To date, the Developers have advanced certain funds for construction of water, sewer and drainage facilities and roads and related improvements for which it has not been reimbursed. After the reimbursements are made with Bond proceeds, the Master District will owe approximately \$49,700,000 (excluding land costs and interest) to the Developers for water, wastewater and drainage facilities and approximately \$5,000,000 for road and related improvements constructed in the Service Area. Pursuant to the Master District Contract, the Master District shall not issue Contract Revenue Bonds for parks and recreational facilities, unless and until said Master District Contracts are amended and approved by the voters of the districts in the Service Area in accordance with the terms of the Master District Contracts. The Master District may require Participants to remit Park Construction Charges (as defined in the Master District Contract) to reimburse the Developers for certain funds for construction of park and recreational facilities. See “—Possible Impact on the Contract Tax Rate” in this section and “THE BONDS—Issuance of Additional Debt” and “—Financing Parks and Recreational Facilities.”

The District, as a Participant, has the right to issue obligations, including unlimited tax bonds for the purpose of financing internal water, wastewater and storm drainage facilities, roads and its pro rata share of regional parks and recreation facilities within its boundaries, tax anticipation notes and bond anticipation notes, and to borrow for any valid corporate purpose. The District, as a Participant, has issued one series of unlimited tax bonds for water, sewer and drainage facilities and one series of unlimited tax road bonds. The voters of the District have authorized the issuance of \$37,350,000 principal amount of unlimited tax bonds for the purpose of purchasing or constructing water, wastewater and drainage facilities and for refunding such bonds, \$34,850,000 of which remains authorized but unissued, \$70,000,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing road facilities and for refunding such bonds, \$64,815,000 of which remains authorized but unissued, and \$7,700,000 principal amount unlimited tax bonds for the purpose of constructing or acquiring park and recreational facilities and for refunding such bonds, all of which remains authorized but unissued. The principal amount of bonds issued to finance parks and recreational facilities may not exceed one percent (1%) of the District's certified value, unless the District meets certain financial feasibility requirements under the TCEQ rules, in which case the outstanding principal amount of such bonds issued by the District may exceed an amount equal to one percent (1%) but not three percent (3%) of the value of the taxable property in the District. The District, as a Participant, has authorized the preparation and submittal of a bond application to the TCEQ requesting approval to sell approximately \$2,000,000 principal amount of unlimited tax bonds for water, sewer and drainage facilities. The District expects approval from the TCEQ and issuance of such bonds by the fourth quarter of 2026.

Marketability of the Bonds

The District has no understanding with the Underwriter regarding the reoffering yields or prices of the Bonds and has no control over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked price may be greater than the difference between the bid and asked price of bonds of comparable maturity and quality issued by more traditional issuers as such bonds are more generally bought, sold or traded in the secondary market.

Environmental Regulations

Wastewater treatment and water supply facilities are subject to stringent and complex environmental laws and regulations. Facilities must comply with environmental laws at the federal, state, and local levels. These laws and regulations can restrict or prohibit certain activities that affect the environment in many ways such as:

- Requiring permits for construction and operation of water wells, wastewater treatment and other facilities;
- Restricting the manner in which wastes are treated and released into the air, water and soils;
- Restricting or regulating the use of wetlands or other properties; or
- Requiring remedial action to prevent or mitigate pollution.

Sanctions against a municipal utility district or other type of special purpose district for failure to comply with environmental laws and regulations may include a variety of civil and criminal enforcement measures, including assessment of monetary penalties, imposition of remedial requirements and issuance of injunctions to ensure future compliance. Environmental laws and compliance with environmental laws and regulations can increase the cost of planning, designing, constructing and operating water production and wastewater treatment facilities. Environmental laws can also inhibit growth and development within the District. Further, changes in regulations occur frequently, and any changes that result in more stringent and costly requirements could materially impact the District.

Air Quality Issues: Air quality control measures required by the United States Environmental Protection Agency (the “EPA”) and the Texas Commission on Environmental Quality (the “TCEQ”) may impact new industrial, commercial and residential development in the Houston area. Under the Clean Air Act (“CAA”) Amendments of 1990, the eight-county Houston-Galveston-Brazoria area (“HGB Area”)—Harris, Galveston, Brazoria, Chambers, Fort Bend, Waller, Montgomery and Liberty Counties—has been designated a nonattainment area under two separate federal ozone standards: the eight-hour ozone standard of 75 ppb promulgated by the EPA in 2008 (the “2008 Ozone Standard”), and the EPA’s most-recent promulgation of an even lower, 70 ppb eight-hour ozone standard in 2015 (the “2015 Ozone Standard”). While the State of Texas has been able to demonstrate steady progress and improvements in air quality in the HGB Area, the HGB Area remains subject to CAA nonattainment requirements.

The HGB Area is currently designated as a “severe” nonattainment area under the 2008 Ozone Standard, with an attainment deadline of July 20, 2027. If the EPA ultimately determines that the HGB Area has failed to meet the attainment deadline based on the relevant data, the area is subject to reclassification to a nonattainment classification that provides for more stringent controls on emissions from the industrial sector. In addition, the EPA may impose a moratorium on the awarding of federal highway construction grants and other federal grants for certain public works construction projects if it finds that an area fails to demonstrate progress in reducing ozone levels.

The HGB Area is currently designated as a “serious” nonattainment area under the 2015 Ozone Standard, with an attainment deadline of August 3, 2027. For purposes of the 2015 Ozone Standard, the HGB Area consists of only six counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, and Montgomery Counties.

In order to demonstrate progress toward attainment of the EPA’s ozone standards, the TCEQ has established a state implementation plan (“SIP”) for the HGB Area setting emission control requirements, some of which regulate the inspection and use of automobiles. These types of measures could impact how people travel, what distances people are willing to travel, where people choose to live and work, and what jobs are available in the HGB Area. These SIP requirements can negatively impact business due to the additional permitting/regulatory constraints that accompany this designation and because of the community stigma associated with a nonattainment designation. It is possible that additional controls will be necessary to allow the HGB Area to reach attainment with the ozone standards by the EPA’s attainment deadlines. These additional controls could have a negative impact on the HGB Area’s economic growth and development.

Water Supply & Discharge Issues: Water supply and discharge regulations that municipal utility districts, including the District, may be required to comply with involve: (1) groundwater well permitting and surface water appropriation; (2) public water supply systems; (3) wastewater discharges from treatment facilities; (4) storm water discharges; and (5) wetlands dredge and fill activities. Each of these is addressed below:

Certain governmental entities regulate groundwater usage in the HGB Area. A municipal utility district or other type of special purpose district that (i) is located within the boundaries of such an entity that regulates groundwater usage, and (ii) relies on local groundwater as a source of water supply, may be subject to requirements and restrictions on the drilling of water wells and/or the production of groundwater that could affect both the engineering and economic feasibility of district water supply projects.

Pursuant to the federal Safe Drinking Water Act (“SDWA”) and the EPA’s National Primary Drinking Water Regulations (“NPDWRs”), which are implemented by the TCEQ’s Water Supply Division, a municipal utility district’s provision of water for human consumption is subject to extensive regulation as a public water system. Municipal utility districts must generally provide treated water that meets the primary and secondary drinking water quality standards adopted by the TCEQ, the applicable disinfectant residual and inactivation standards, and the other regulatory action levels established under the agency’s rules. The EPA has established NPDWRs for more than ninety (90) contaminants and has identified and listed other contaminants which may require national drinking water regulation in the future. Further, the EPA has established a NPDWR for six (6) Per- and Polyfluoroalkyl Substances (“PFAS”), which requires public water systems to perform certain monitoring and remediation measures. Public water systems may be subject to additional PFAS regulation in the future, which could increase the cost of constructing, operating, and maintaining water production and distribution facilities.

Texas Pollutant Discharge Elimination System (“TPDES”) permits set limits on the type and quantity of discharge, in accordance with state and federal laws and regulations. The TCEQ reissued the TPDES Construction General Permit (TXR150000) (“CGP”), with an effective date of March 5, 2023, which is a general permit authorizing the discharge of stormwater runoff associated with small and large construction sites and certain non-stormwater discharges into surface water in the state. The CGP has a 5-year permit term, and is then subject to renewal. Moreover, the Clean Water Act (“CWA”) and Texas Water Code require municipal wastewater treatment plants to meet secondary treatment effluent limitations and more stringent water quality-based limitations and requirements to comply with the Texas water quality standards. Any water quality-based limitations and requirements with which a municipal utility district must comply may have an impact on the municipal utility district’s ability to obtain and maintain compliance with TPDES permits.

The TCEQ issued the General Permit for Phase II (Small) Municipal Separate Storm Sewer Systems (the “MS4 Permit”) on August 15, 2024. The MS4 Permit authorizes the discharge of stormwater to surface water in the state from small municipal separate storm sewer systems. While the District is currently not subject to the MS4 Permit, if the District’s inclusion were required at a future date, the District could incur substantial costs to develop, implement, and maintain the necessary plans as well as to install or implement best management practices to minimize or eliminate unauthorized pollutants that may otherwise be found in stormwater runoff in order to comply with the MS4 Permit.

Operations of utility districts, including the District, are also potentially subject to requirements and restrictions under the CWA regarding the use and alteration of wetland areas that are within the “waters of the United States.” The District must obtain a permit from the United States Army Corps of Engineers (“USACE”) if operations of the District require that wetlands be filled, dredged, or otherwise altered.

In 2023, the Supreme Court of the United States issued its decision in *Sackett v. EPA*, which clarified the definition of “waters of the United States” and significantly restricted the reach of federal jurisdiction under the CWA. Under the *Sackett* decision, “waters of the United States” includes only geographical features that are described in ordinary parlance as “streams, oceans, rivers, and lakes” and to adjacent wetlands that are indistinguishable from such bodies of water due to a continuous surface connection. Subsequently, the EPA and USACE issued a final rule amending the definition of “waters of the United States” under the CWA to conform with the Supreme Court’s decision.

While the *Sackett* decision and subsequent regulatory action removed a great deal of uncertainty regarding the ultimate scope of “waters of the United States” and the extent of EPA and USACE jurisdiction, operations of municipal utility districts, including the District, could potentially be subject to additional restrictions and requirements, including additional permitting requirements, in the future.

Changes in Tax Legislation

Certain tax legislation, whether currently proposed or proposed in the future, may directly or indirectly reduce or eliminate the benefit of the exclusion of interest on the Bonds from gross income for federal income tax purposes. Any proposed legislation, whether or not enacted, may also affect the value and liquidity of the Bonds. Prospective purchasers of the Bonds should consult with their own tax advisors with respect to any proposed, pending or future legislation.

Risk Factors Related to the Purchase of Municipal Bond Insurance

The District has applied for a bond insurance policy (the “Policy”) to guarantee the scheduled payment of principal and interest on the Bonds. Investors should be aware of the following investment considerations:

If a Policy is issued, the long-term ratings on the Bonds will be dependent in part on the financial strength of the bond insurer (the “Insurer”) and its claim paying ability. The Insurer’s financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Insurer and of the ratings on the Bonds insured by the Insurer will not be subject to downgrade and such event could adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds. See description of “MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE.”

The obligations of the Insurer are contractual obligations and in an event of default by the Insurer, the remedies available may be limited by applicable bankruptcy law or state law related to insolvency of insurance companies.

Neither the District nor the Underwriter has made independent investigation into the claims paying ability of the Insurer and no assurance or representation regarding the financial strength or projected financial strength of the Insurer is given. Thus, when making an investment decision, potential investors should carefully consider the ability of the District to pay principal and interest on the Bonds and the claims paying ability of the Insurer, particularly over the life of the investment. See “MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE” for further information provided by the Insurer and the Policy, which includes further instructions for obtaining current financial information concerning the Insurer.

Tax Collections Limitations and Foreclosure Remedies

The Master District's ability to make debt service payments may be adversely affected by one or more Participant's inability to collect ad valorem taxes necessary to make its Contract Payments. Under Texas law, the levy of ad valorem taxes by each Participant constitutes a lien in favor of the Participant on a parity with the liens of all other local taxing authorities on the property against which taxes are levied, and such lien may be enforced by judicial foreclosure. Each Participant's ability to collect ad valorem taxes through such foreclosure may be impaired by (a) cumbersome, time-consuming and expensive collection procedures, (b) a bankruptcy court's stay of tax collection procedures against a taxpayer, or (c) market conditions affecting the marketability of taxable property within the Participant and limiting the proceeds from a foreclosure sale of such property. Moreover, the proceeds of any sale of property within the Participant will be allocated pro rata among the Participant's tax obligations (including Road Contract Payments, Water/Sewer/Drainage Contract Payments, maintenance and operation expenses, and debt service for any unlimited tax bonds issued by the Participant). The proceeds of any such sale of property may be limited by the existence of other tax liens on the property (see “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED)—Estimated Overlapping Taxes”), by the current aggregate tax rate being levied against the property, and by other factors (including the taxpayers' right to redeem property within two years of foreclosure for residential and agricultural use property and six months for other property). Finally, any bankruptcy court with jurisdiction over bankruptcy proceedings initiated by or against a taxpayer within a Participant pursuant to the Federal Bankruptcy Code could stay any attempt by the Participant to collect delinquent ad valorem taxes Appraised against such taxpayer. In addition to the automatic stay against collection of delinquent taxes afforded a taxpayer during the pendency of a bankruptcy, a bankruptcy could affect payment of taxes in two other ways: first, a debtor's confirmation plan may allow a debtor to make installment payments on delinquent taxes for up to six years; and, second, a debtor may challenge, and a bankruptcy court may reduce, the amount of any taxes Appraised against the debtor, including taxes that have already been paid. See “TAXING PROCEDURES—Participant's Rights in the Event of Tax Delinquencies.”

Continuing Compliance with Certain Covenants

Failure of the District to comply with certain covenants contained in the Bond Resolution on a continuing basis prior to the maturity of the Bonds could result in interest on the Bonds becoming taxable retroactive to the date of original issuance. See “TAX MATTERS.”

Cybersecurity

The District's consultants use digital technologies to collect taxes, hold funds and process disbursements. These systems necessarily hold sensitive protected information that is valued on the black market. As a result, the electronic systems and networks of organizations like the District's consultants are considered targets for cyber-attacks and other potential breaches of their systems. To the extent the District is determined to be the party responsible for various electronic systems or suffers a loss of funds due to a security breach, there could be a material adverse effect on the District's finances. Insurance to protect against such breaches is limited.

LEGAL MATTERS

Legal Proceedings

Delivery of the Bonds will be accompanied by the approving legal opinion of the Attorney General of Texas to the effect that the Bonds are valid and legally binding obligations of the Master District under the Constitution and laws of the State of Texas, payable from the Road Pledged Revenues (see “THE INDENTURE OF TRUST”), and, based upon their examination of a transcript of certified proceedings relating to the issuance and sale of the Bonds, the approving legal opinion of Bond Counsel, to a like effect and to the effect that, under existing law interest on the Bonds (i) is excludable from gross income for federal income tax purposes under section 103 of the Code (as defined herein), and (ii) is not an item of tax preference for purposes of the alternative minimum tax on individuals.

Bond Counsel has reviewed the information appearing in this OFFICIAL STATEMENT under “THE BONDS,” “THE INDENTURE OF TRUST,” “THE PARTICIPANTS,” “MASTER DISTRICT CONTRACT,” “TAXING PROCEDURES,” “LEGAL MATTERS,” “TAX MATTERS” and “CONTINUING DISCLOSURE OF INFORMATION” solely to determine if such information, insofar as it relates to matters of law, is true and correct, and whether such information fairly summarizes the provisions of the documents referred to therein. Bond Counsel has not, however, independently verified any of the factual information contained in this OFFICIAL STATEMENT nor has it conducted an investigation of the affairs of the District for the purpose of passing upon the accuracy or completeness of this OFFICIAL STATEMENT. No person is entitled to rely upon Bond Counsel's limited participation as an assumption of responsibility for or an expression of opinion of any kind with regard to the accuracy or completeness of any information contained herein.

Allen Boone Humphries Robinson LLP also serves as general counsel to the District on matters other than the issuance of bonds. The legal fees paid to Bond Counsel for services rendered in connection with the issuance of the Bonds are based on a percentage of the bonds actually issued, sold, and delivered and, therefore, such fees are contingent upon the sale and delivery of the Bonds. Certain legal matters will be passed upon for the Master District by McCall, Parkhurst & Horton L.L.P., Houston, Texas, as Disclosure Counsel.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

No Material Adverse Change

The obligations of the Underwriter to take and pay for the Bonds, and of the Master District to deliver the Bonds, are subject to the condition that, up to the time of delivery of and receipt of payment for the Bonds, there shall have been no material adverse change in the financial condition of the Master District from that set forth or contemplated in the Preliminary Official Statement, as amended or supplemented through the date of sale.

No-Litigation Certificate

The District will furnish the Underwriter a certificate, executed by both the President or Vice President and Secretary or Assistant Secretary of the Board, and dated as of the Date of Delivery of the Bonds, to the effect that no litigation of any nature is pending or to its knowledge threatened, either in state or federal courts, contesting or attacking the Bonds, the Master District Contract, restraining or enjoining the levy, collection and pledge of the funds from which the Bonds are payable; in any manner questioning the authority or proceedings for the issuance, execution or delivery of the Bonds or the title of the present officers of the District.

TAX MATTERS

The following discussion of certain federal income tax considerations is for general information only and is not tax advice. Each prospective purchaser of the Bonds should consult its own tax advisor as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

Tax Exemption

In the opinion of Allen Boone Humphries Robinson LLP, Bond Counsel, under existing law, interest on the Bonds (i) is excludable from gross income for federal income tax purposes under section 103 of the Internal Revenue Code of 1986, as amended (the "Code"), and (ii) is not an item of tax preference for purposes of the alternative minimum tax on individuals.

The Code imposes a number of requirements that must be satisfied for interest on state or local obligations, such as the Bonds, to be excludable from gross income for federal income tax purposes. These requirements include limitations on the use of bond proceeds and the source of repayment of bonds, limitations on the investment of bond proceeds prior to expenditure, a requirement that excess arbitrage earned on the investment of bond proceeds be paid periodically to the United States and a requirement that the issuer file an information report with the Internal Revenue Service (the "Service"). The District has covenanted in the Bond Resolution that it will comply with these requirements.

Bond Counsel's opinion will assume continuing compliance with the covenants of the Bond Resolution pertaining to those sections of the Code that affect the excludability of interest on the Bonds from gross income for federal income tax purposes and, in addition, will rely on representations by the District and other parties involved with the issuance of the Bonds with respect to matters solely within the knowledge of the District and such parties, which Bond Counsel has not independently verified. If the District fails to comply with the covenants in the Bond Resolution or if the foregoing representations are determined to be inaccurate or incomplete, interest on the Bonds could become includable in gross income from the date of delivery of the Bonds, regardless of the date on which the event causing such inclusion occurs.

Bond Counsel will express no opinion as to the amount or timing of interest on the Bonds or, except as stated above, any federal, state or local tax consequences resulting from the receipt or accrual of interest on, or acquisition, ownership or disposition of, the Bonds. Certain actions may be taken or omitted subject to the terms and conditions set forth in the Bond Resolution upon the advice or with the approving opinion of Bond Counsel. Bond Counsel will express no opinion with respect to Bond Counsel's ability to render an opinion that such actions, if taken or omitted, will not adversely affect the excludability of interest of the Bonds from gross income for federal income tax purposes.

Bond Counsel's opinions are based on existing law, which is subject to change. Such opinions are further based on Bond Counsel's knowledge of facts as of the date thereof. Bond Counsel assumes no duty to update or supplement its opinions to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention or to reflect any changes in any law that may thereafter occur or become effective. Moreover, Bond Counsel's opinions are not a guarantee of result and are not binding on the Service; rather, such opinions represent Bond Counsel's legal judgment based upon its review of existing law and in reliance upon the representations and covenants referenced above that it deems relevant to such opinions. The Service

has an ongoing audit program to determine compliance with rules that relate to whether interest on state or local obligations is includable in gross income for federal income tax purposes. No assurance can be given as to whether the Service will commence an audit of the Bonds. If an audit is commenced, in accordance with its current published procedures the Service is likely to treat the District as the taxpayer, and the Owners of the Bonds may not have a right to participate in such audit. Public awareness of any future audit of the Bonds could adversely affect the value and liquidity of the Bonds, regardless of the ultimate outcome of the audit.

Not Qualified Tax-Exempt Obligations

The Bonds will not be designated “qualified tax-exempt obligations” for financial institutions.

Additional Federal Income Tax Considerations

Collateral Tax Consequences: Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences, including but not limited to those noted below. Therefore, prospective purchasers of the Bonds should consult their own tax advisors as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

An “applicable corporation” (as defined in section 59(k) of the Code) may be subject to a 15 percent alternative minimum tax imposed under section 55 of the Code on its “adjusted financial statement income” (as defined in section 56A of the Code) for such taxable year. Because interest on tax-exempt obligations, such as the Bonds, is included in a corporation’s “adjusted financial statement income,” ownership of the Bonds could subject certain corporations to alternative minimum tax consequences.

Ownership of tax-exempt obligations also may result in collateral federal income tax consequences to financial institutions, life insurance and property and casualty insurance companies, certain S corporations with Subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, low and middle income taxpayers otherwise qualifying for the health insurance premium assistance credit and individuals otherwise qualifying for the earned income tax credit. In addition, certain foreign corporations doing business in the United States may be subject to the “branch profits tax” on their effectively connected earnings and profits, including tax-exempt interest such as interest on the Bonds.

Prospective purchasers of the Bonds should also be aware that, under the Code, taxpayers are required to report on their returns the amount of tax-exempt interest, such as interest on the Bonds, received or accrued during the year.

Tax Accounting Treatment of Original Issue Premium: If the issue price of any maturity of the Bonds exceeds the stated redemption price payable at maturity of such Bonds, such Bonds (the “Premium Bonds”) are considered for federal income tax purposes to have “bond premium” equal to the amount of such excess. The basis of a Premium Bond in the hands of an initial owner is reduced by the amount of such excess that is amortized during the period such initial owner holds such Premium Bond in determining gain or loss for federal income tax purposes. This reduction in basis will increase the amount of any gain or decrease the amount of any loss recognized for federal income tax purposes on the sale or other taxable disposition of a Premium Bond by the initial owner. No corresponding deduction is allowed for federal income tax purposes for the reduction in basis resulting from amortizable bond premium. The amount of bond premium on a Premium Bond that is amortizable each year (or shorter period in the event of a sale or disposition of a Premium Bond) is determined using the yield to maturity on the Premium Bond based on the initial offering price of such Premium Bond.

The federal income tax consequences of the purchase, ownership and redemption, sale or other disposition of Premium Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of Premium Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of amortized bond premium upon the redemption, sale or other disposition of a Premium Bond and with respect to the federal, state, local, and foreign tax consequences of the purchase, ownership, and sale, redemption or other disposition of such Premium Bonds.

Tax Accounting Treatment of Original Issue Discount: If the issue price of any maturity of the Bonds is less than the stated redemption price payable at maturity of such Bonds (the “OID Bonds”), the difference between (i) the amount payable at the maturity of each OID Bond, and (ii) the initial offering price to the public of such OID Bond constitutes original issue discount with respect to such OID Bond in the hands of any owner who has purchased such OID Bond in the initial public offering of the Bonds. Generally, such initial owner is entitled to exclude from gross income (as defined in section 61 of the Code) an amount of income with respect to such OID Bond equal to that portion of the amount of such original issue discount allocable to the period that such OID Bond continues to be owned by such owner. Because original issue discount is treated as interest for federal income tax purposes, the discussions regarding interest on the Bonds under the captions “—Tax Exemption,” “—Additional Federal Income Tax Considerations—*Collateral Tax Consequences*” and “—*Tax Legislative Changes*” generally apply and should be considered in connection with the discussion in this portion of the OFFICIAL STATEMENT.

In the event of the redemption, sale or other taxable disposition of such OID Bond prior to stated maturity, however, the amount realized by such owner in excess of the basis of such OID Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such OID Bond was held by such initial owner) is includable in gross income.

The foregoing discussion assumes that (i) the Underwriter has purchased the Bonds for contemporaneous sale to the public and (ii) all of the OID Bonds have been initially offered, and a substantial amount of each maturity thereof has been sold, to the general public in arm's-length transactions for a price (and with no other consideration being included) not more than the initial offering prices thereof stated on the cover page of this OFFICIAL STATEMENT. Neither the District nor Bond Counsel has made any investigation or offers any assurance that the OID Bonds will be offered and sold in accordance with such assumptions.

Under existing law, the original issue discount on each OID Bond accrues daily to the stated maturity thereof (in amounts calculated as described below for each six-month period ending on the date before the semiannual anniversary dates of the date of the Bonds and ratably within each such six-month period) and the accrued amount is added to an initial owner's basis for such OID Bond for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (i) the sum of the issue price and the amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (ii) the amounts payable as current interest during such accrual period on such Bond.

The federal income tax consequences of the purchase, ownership, and redemption, sale or other disposition of OID Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of OID Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of interest accrued upon redemption, sale or other disposition of such OID Bonds and with respect to the federal, state, local and foreign tax consequences of the purchase, ownership, redemption, sale or other disposition of such OID Bonds.

Tax Legislative Changes: Current law may change so as to directly or indirectly reduce or eliminate the benefit of the excludability of interest on the Bonds from gross income for federal income tax purposes. Any proposed legislation, whether or not enacted, could also affect the value and liquidity of the Bonds. Prospective purchasers of the Bonds should consult with their own tax advisors with respect to any recently enacted, proposed, pending or future legislation.

MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE

Moody's Investors Service ("Moody's") has assigned an underlying credit rating of "Baa2" to the Bonds. An explanation of the rating may be obtained from Moody's, 7 World Trade Center, 250 Greenwich Street, New York, New York 10007. The rating fee of Moody's will be paid by the District; however, the fees associated with any other rating will be the responsibility of the Underwriter.

Applications have also been made to municipal bond insurance companies for qualification of the Bonds for municipal bond insurance. If qualified, the purchase of municipal bond insurance with respect to the Bonds is optional and at the expense of the Underwriter. See "INVESTMENT CONSIDERATIONS—Risk Factors Related to the Purchase of Municipal Bond Insurance."

There is no assurance that such rating will continue for any given period of time or that it will not be revised or withdrawn entirely by Moody's, if in its judgment, circumstances so warrant. Any such revisions or withdrawal of the rating may have an adverse effect on the market price of the Bonds.

PREPARATION OF OFFICIAL STATEMENT

Sources and Compilation of Information

The financial data and other information contained in this OFFICIAL STATEMENT has been obtained primarily from the District's records, the Developers, the Engineer, the Tax Assessor/Collector, the Appraisal District and information from other sources. All of these sources are believed to be reliable, but no guarantee is made by the District as to the accuracy or completeness of the information derived from such sources, and its inclusion herein is not to be construed as a representation on the part of the District to such effect except as specified under "—Certification of Official Statement." Furthermore, there is no guarantee that any of the assumptions or estimates contained herein will be realized. The summaries of the agreements, reports, statutes, resolutions, indentures, engineering and other related information set forth in this OFFICIAL STATEMENT are included herein subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents for further information.

Financial Advisor

Masterson Advisors LLC is employed as the Financial Advisor to the District to render certain professional services, including advising the District on a plan of financing and preparing the OFFICIAL STATEMENT, including the OFFICIAL NOTICE OF SALE and the OFFICIAL BID FORM for the sale of the Bonds. In its capacity as Financial Advisor, Masterson Advisors LLC has compiled and edited this OFFICIAL STATEMENT. The Financial Advisor has reviewed the information in this OFFICIAL STATEMENT in accordance with, and as a part of, its responsibilities to the District and, as applicable, to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Financial Advisor does not guarantee the accuracy or completeness of such information.

Consultants

In approving this OFFICIAL STATEMENT, the District has relied upon the following consultants. Each consultant has agreed to the use of information provided by such firms.

Engineer: The information contained in this OFFICIAL STATEMENT relating to engineering and to the description of the Master District's water and wastewater system and, certain information included in the sections entitled "THE DISTRICT AND SERVICE AREA—Description and Location—Status of Development," "THE SYSTEM," and "THE ROAD SYSTEM" has been provided by BGE, Inc., and has been included herein in reliance upon the authority of said firm as experts in the field of civil engineering.

Appraisal District: The information contained in this OFFICIAL STATEMENT relating to the historical certified taxable Appraised Valuations has been provided by the Harris Central Appraisal District and has been included herein in reliance upon the authority of such entity as experts in assessing the values of property in Harris County, including within the boundaries of the Participants.

Tax Assessor/Collector: The information contained in this OFFICIAL STATEMENT relating to the historical breakdown of the Participants' Appraised Valuations and certain other historical data concerning tax rates and tax collections has been provided by Utility Tax Service, LLC and is included herein in reliance upon the authority of such firm as an expert in assessing property values and collecting taxes.

Independent Auditor: The financial statements of the Master District, MUD 457, MUD 458, MUD 532 and MUD 534 as of December 31, 2024, have been audited by Forvis Mazars, LLP, independent auditors, as stated in their reports appearing herein. See "APPENDIX B."

Bookkeeper: The information related to the "unaudited" summary of the Master District's General Operating Fund as it appears in "THE SYSTEM—Water and Wastewater Operations" and the annual financial report for MUD 533 have been provided by District Data Services, Inc. and are included herein in reliance upon the authority of such firm as experts in the tracking and managing the various funds of municipal utility districts.

Updating the Official Statement

If subsequent to the date of the OFFICIAL STATEMENT, the Master District learns, through the ordinary course of business and without undertaking any investigation or examination for such purposes, or is notified by the Underwriter, of any adverse event which causes the OFFICIAL STATEMENT to be materially misleading, and unless the Underwriter elects to terminate its obligation to purchase the Bonds, the Master District will promptly prepare and supply to the Underwriter an appropriate amendment or supplement to the OFFICIAL STATEMENT satisfactory to the Underwriter, provided, however, that the obligation of the Master District to the Underwriter to so amend or supplement the OFFICIAL STATEMENT will terminate when the Master District delivers the Bonds to the Underwriter, unless the Underwriter notifies the Master District on or before such date that less than all of the Bonds have been sold to ultimate customers, in which case the Master District's obligations hereunder will extend for an additional period of time as required by law (but not more than 90 days after the date the Master District delivers the Bonds).

Certification of Official Statement

The Master District, acting through its Board in its official capacity, hereby certifies, as of the date hereof, that the information, statements, and descriptions or any addenda, supplement and amendment thereto pertaining to the Master District and its affairs contained herein, to the best of its knowledge and belief, contain no untrue statement of a material fact and do not omit to state any material fact necessary to make the statements herein, in the light of the circumstances under which they are made, not misleading. With respect to information included in this OFFICIAL STATEMENT other than that relating to the Master District, the Master District has no reason to believe that such information contains any untrue statement of a material fact or omits to state any material fact necessary to make the statements herein, in the light of the circumstances under which they are made, not misleading; however, the Board has made no independent investigation as to the accuracy or completeness of the information derived from sources other than the Master District. In rendering such certificate, the official executing this certificate may state that he has relied in part on his examination of records of the Master District relating to matters within his own area of responsibility, and his discussions with, or certificates or correspondence signed by, certain other officials, employees, consultants and representatives of the Master District.

CONTINUING DISCLOSURE OF INFORMATION

In the Bond Resolution, the Master District has made the following agreement for the benefit of the registered and beneficial owners of the Bonds. The Master District is required to observe the agreement for so long as it remains obligated to advance funds to pay the Bonds. Under the agreement, the Master District will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified events, to the Municipal Securities Rulemaking Board (the “MSRB”), or any successor to its functions as a repository, through the Electronic Municipal Market Access (“EMMA”) system.

Annual Reports

The Master District will provide certain updated financial information and operating data to the MSRB through its EMMA System. The information to be updated with respect to the Master District includes all quantitative financial information and operating data of the general type included in this OFFICIAL STATEMENT under the headings “THE SYSTEM—Master District Facilities,” “FINANCIAL INFORMATION CONCERNING THE MASTER DISTRICT AND THE PARTICIPANTS (UNAUDITED) (except “Estimated Overlapping Debt”),” “TAX DATA,” and “APPENDIX A” (Certain Financial Information Regarding the Participants) and “APPENDIX B” (Audited Financial Statements of the Master District and Participants). The Master District will update and provide this information within six months after the end of each fiscal year ending in or after 2025.

The Master District may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by SEC Rule 15c2-12 (“Rule”). The updated information will include audited financial statements if the Master District commissions an audit and the audit is completed by the required time. If the audit of such financial statements is not complete within such period, then the Master District shall provide unaudited financial statements for the applicable fiscal year to the MSRB within such six month period, and audited financial statements when and if such audited financial statements become available. Any such financial statements will be prepared in accordance with the accounting principles described in the Bond Resolution, or such other accounting principles as the District may be required to employ from time to time pursuant to state law or regulation.

The District's current fiscal year end is December 31. Accordingly, it must provide updated information by June 30 in each year, unless the District changes its fiscal year. If the District changes its fiscal year, it will notify the MSRB of the change.

Event Notices

The District will provide timely notices of certain events to the MSRB, but in no event will such notices be provided to the MSRB in excess of ten business days after the occurrence of an event. The District will provide notice of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds; (7) modifications to rights of Beneficial Owners of the Bonds, if material; (8) bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the District or other obligated person; (13) consummation of a merger, consolidation, or acquisition involving the District or other obligated person or the sale of all or substantially all of the assets of the District or other obligated person within the meaning of the Rule, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material; (15) incurrence of a financial obligation of the District or other obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District or other obligated person, any of which affect Beneficial Owners of the Bonds, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the District or other obligated person within the meaning of the Rule, any of which reflect financial difficulties. The terms “obligated person” and “financial obligation” when used in this paragraph shall have the meanings ascribed to them under SEC Rule 15c2-12 (the “Rule”). The term “material” when used in this paragraph shall have the meaning ascribed to it under federal securities laws. Neither the Bonds nor the Bond Resolution makes any provision for debt service reserves or liquidity enhancement. In addition, the District will provide timely notice of any failure by the District to provide financial information, operating data, or financial statements in accordance with its agreement described above under “Annual Reports.”

Availability of Information from MSRB

The Master District has agreed to provide the foregoing updated information only to the MSRB. The MSRB makes the information available to the public without charge through its Electronic Municipal Market Access (“EMMA”) internet portal at www.emma.msrb.org.

Limitations and Amendments

The Master District has agreed to update information and to provide notices of specified events only as described above. The Master District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The Master District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Bonds at any future date. The Master District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although Registered Owners or Beneficial Owners of Bonds may seek a writ of mandamus to compel the Master District to comply with its agreement.

The Master District may amend its continuing disclosure agreement from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the Master District or the Participants, if but only if (1) the agreement, as amended, would have permitted an underwriter to purchase or sell Bonds in the offering made hereby in compliance with the Rule, taking into account any amendments or interpretations of the Rule to the date of such amendment, as well as such changed circumstances, and (2) either (a) the Registered Owners of a majority in aggregate principal amount of the outstanding Bonds consent to the amendment or (b) any person unaffiliated with the Master District (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the Registered Owners and Beneficial Owners of the Bonds. The Master District may amend or repeal the agreement in the Bond Resolution if the SEC amends or repeals the applicable provisions of the Rule or a court of final jurisdiction determines that such provisions are invalid or unenforceable, but only to the extent that its right to do so would not prevent the Underwriter from lawfully purchasing the Bonds in the initial offering. If the Master District so amends the agreement, it has agreed to include with any financial information or operating data next provided in accordance with its agreement described above under "Annual Reports" an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of financial information and operating so provided.

Compliance with Prior Undertakings

During the last five years, the Master District has complied in all material respects with its previous continuing disclosure agreements in accordance with SEC Rule 15c2-12.

MISCELLANEOUS

All estimates, statements and assumptions in this OFFICIAL STATEMENT and the APPENDICES hereto have been made on the basis of the best information available and are believed to be reliable and accurate. Any statements in this Official Statement involving matters of opinion or estimates, whether or not expressly so stated, are intended as such and not as representations of fact, and no representation is made that any such statements will be realized.

This OFFICIAL STATEMENT was approved by the Board of Directors of Harris County Municipal Utility District No. 171, as of the date shown on the cover page.

APPENDIX A

Certain Financial Information Regarding the Participants

Selected information concerning the Participants is included in this APPENDIX in addition to certain general information concerning the Participants and their obligation under the Master District Contract contained in the body of the OFFICIAL STATEMENT. See “THE PARTICIPANTS” and “MASTER DISTRICT CONTRACT” therein.

Certain Calculations

The information concerning the debt burden of the Participants makes reference to the principal amount of each Participant's pro rata share of debt service on the Bonds, each Participant's outstanding unlimited tax bonds, if any, and certain annual tax rate calculations. In each case, this information has been computed as follows:

Contract Debt: The principal amount of each Participant's Master District Contract debt has been calculated for purposes of the OFFICIAL STATEMENT by allocating the debt service on the Bonds and the Outstanding Bonds among the Participants in proportion to their appraised values. The appraised values are based on the Estimated Appraised Valuation as of December 15, 2025, for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534. The Participants' share of annual debt service requirements on the Bonds and the Outstanding Bonds will be determined annually by reference to their relative appraised values established by the Harris Central Appraisal District on January 1 of each year. See “MASTER DISTRICT CONTRACT” in the OFFICIAL STATEMENT.

Tax Rate Calculations: Tax rate calculations herein assume that each Participant's appraised value does not change from its Estimated Appraised Valuation as of December 15, 2025, for MUD 171, MUD 457, MUD 458, MUD 532, MUD 533 and MUD 534 and that each Participant collects ninety-five percent (95%) of the taxes it levies, that it issues no additional bonds, and that the Master District does not issue any additional Contract Revenue Bonds.

Independent Auditor's Report

Board of Directors
Harris County Municipal Utility District No 171
Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities, the business-type activities and each major fund of Harris County Municipal Utility District No 171 (the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the District, as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Forvis Mazars, LLP

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's total assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Proprietary Funds

Proprietary funds, in general, charge customers for the services that are provided. These funds use a long-term financial accounting approach, full accrual basis and provide additional information in the statement of cash flows. The proprietary fund statements provide the same information as the business-type activities portion of the government-wide financial statements, only in more detail.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows based on the information included in the government-wide financial statements.

2024 Summary of Net Position

	Governmental Activities	Business-Type Activities	Total
Current and other assets	\$ 2,184,732	\$ 32,355,315	\$ 34,540,047
Capital assets	3,453,785	175,540,638	178,994,423
Total assets	<u>\$ 5,638,517</u>	<u>\$ 207,895,953</u>	<u>\$ 213,534,470</u>
Long-term liabilities	\$ 10,366,671	\$ 245,248,789	\$ 255,615,460
Current and other liabilities	104,064	4,557,104	4,661,168
Total liabilities	<u>10,470,735</u>	<u>249,805,893</u>	<u>260,276,628</u>
Deferred inflows of resources	<u>1,045,942</u>	<u>-</u>	<u>1,045,942</u>
Net position:			
Net investment in capital assets	(861,198)	(22,260,703)	(23,121,901)
Restricted	1,278	10,061,177	10,062,455
Unrestricted	<u>(5,018,240)</u>	<u>(29,710,414)</u>	<u>(34,728,654)</u>
Total net position	<u>\$ (5,878,160)</u>	<u>\$ (41,909,940)</u>	<u>\$ (47,788,100)</u>

2023 Summary of Net Position

	Governmental Activities	Business-Type Activities	Total
Current and other assets	\$ 919,063	\$ 13,310,215	\$ 14,229,278
Capital assets	3,218,333	148,941,612	152,159,945
Total assets	<u>\$ 4,137,396</u>	<u>\$ 162,251,827</u>	<u>\$ 166,389,223</u>
Long-term liabilities	\$ 7,740,053	\$ 192,945,367	\$ 200,685,420
Current and other liabilities	7,945	1,328,854	1,336,799
Total liabilities	<u>7,747,998</u>	<u>194,274,221</u>	<u>202,022,219</u>
Deferred inflows of resources	<u>771,209</u>	<u>-</u>	<u>771,209</u>
Net position:			
Net investment in capital assets	(151,599)	(15,298,795)	(15,450,394)
Restricted	165	4,816,686	4,816,851
Unrestricted	<u>(4,230,377)</u>	<u>(21,540,285)</u>	<u>(25,770,662)</u>
Total net position	<u>\$ (4,381,811)</u>	<u>\$ (32,022,394)</u>	<u>\$ (36,404,205)</u>

The total net position of the District's governmental activities decreased by \$1,496,349 or about 34%, primarily due to conveyance of capital assets to another governmental entity for maintenance.

The total net position of the District's business-type activities decreased by \$9,887,546, or about 31%. The majority of the decrease in net position is due to regional service operations, depreciation, and debt service expenses and conveyance of capital assets exceeding charges for regional services. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

2024 Summary of Changes in Net Position

	Governmental Activities	Business-Type Activities	Total
Program revenues:			
Charges for services	\$ 433,213	\$ 14,537,527	\$ 14,970,740
General revenues:			
Property taxes	727,871	-	727,871
Other revenues	<u>21,060</u>	<u>1,192,278</u>	<u>1,213,338</u>
Total revenues	<u>1,182,144</u>	<u>15,729,805</u>	<u>16,911,949</u>

Financial Analysis of the District's Funds

Governmental Activities

The general fund's fund balance increased by \$77,593, primarily due to property taxes, services and tap connection and inspection fee revenues exceeding service operations expenditures.

The debt service fund balance increased by \$635,827 due to property tax revenues and proceeds received from the sale of bonds exceeding contractual obligation expenditures.

The capital project's fund balance increased by \$219,300 due to net proceeds received from the sale of bonds exceeding capital outlay expenditures, debt issuance costs and repayment of developer advances.

Business-Type Activities

The enterprise fund's net position decreased by \$9,887,546 due to operating expenses, interest and fees on the District's contract revenue bonded indebtedness, debt issuance costs, depreciation expense and conveyance of capital assets exceeding charges for regional services revenues.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to water service and regional water fee revenues and purchased services and regional water authority expenditures being greater than expected. In addition, tap connection and inspection fees revenues and tap connection expenditures were not budgeted. The fund balance as of December 31, 2024, was expected to be \$233,850 and the actual end-of-year fund balance was \$217,502.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized as follows:

Capital Assets (Net of Accumulated Depreciation)

	<u>2024</u>	<u>2023</u>
Governmental Activities		
Water facilities	\$ 430,980	\$ 286,764
Wastewater facilities	497,538	346,177
Drainage facilities	<u>2,525,267</u>	<u>2,585,392</u>
Total capital assets	<u>\$ 3,453,785</u>	<u>\$ 3,218,333</u>
Business-Type Activities		
Land and improvements	\$ 76,713,137	\$ 73,949,861
Construction in progress	6,943,851	-
Water facilities	31,419,733	17,883,516
Wastewater facilities	22,529,774	21,095,177
Drainage facilities	19,703,439	20,176,758
Parks and recreation	<u>18,230,704</u>	<u>15,836,300</u>
Total capital assets	<u>\$ 175,540,638</u>	<u>\$ 148,941,612</u>

During the current year, additions to capital assets were as follows:

Governmental Activities

Water and sewer facilities to serve Plaza at Elyson Retail Center, Elyson Exchange Way and Elyson Falls Section 1, and Elyson single family residential built to rent	<u>\$ 317,600</u>
---	-------------------

Business-Type Activities

Land, including 35.46-acre site for Elyson Basin 3, Phase 3, 0.9976-acre site for water well No. 3, 0.1971-acre site for lift station No. 3, 0.257-acre site for lift station No. 4	\$ 2,763,276
Construction in progress related to Elyson water plant No. 2 Phase 2 expansion, Elyson Phase 7 mitigation detention basin, and Elyson Phase 5 storm water pump station	6,943,851
Water well collection well No. 3, water plant No. 1 Phase 2 and water plant No. 1 Phase 3, water plant No 2 and water well No. 6	12,202,484
Water and sewer facilities to serve Prospect Oaks Parkway Street Dedication Section 1, Porter Road Street Dedication Section 4, Elyson Boulevard Sections 1, 2, 29, 34, 35, 36, 37, 45 and 48, Elyson Boulevard and Elyson Meadow Drive, Elyson Village Road, Elyson Exchange Way and Elyson Falls Drive Section 1, and Elyson Exchange Way Street Dedication Section 1	3,911,803
Lift station Nos. 3 and 4 and wastewater treatment plant Phase 3	631,401
Sewer facilities for Prospect Oaks and Grand Central West Business Park	85,478
Park and recreation facilities, including Elyson Section 41 park and landscape, Elyson Heritage Boulevard landscape and FM 529 landscape	<u>3,535,775</u>
Total additions to capital assets	<u>\$ 30,074,068</u>

The developer has constructed facilities on behalf of the Internal District under the terms of contracts with the District. The District has agreed to reimburse the cost of these facilities from the sale of bonds subject to the approval of the Commission, as applicable, and the terms of the contracts with the developer. As of December 31, 2024, a liability for developer-constructed capital assets of \$2,714,945 was recorded in the financial statements.

The developer has constructed regional facilities on behalf of the Master District under the terms of contracts with the District. The District has agreed to reimburse the cost of these regional facilities from the sale of contract revenue bonds subject to the approval of the Commission, as applicable, and the terms of the contracts with the developer. As of December 31, 2024, a liability for developer-constructed capital assets of \$82,954,875 was recorded in the financial statements.

Debt

The changes in the debt position of the District during the year ended December 31, 2024, are summarized as follows.

**Harris County Municipal Utility District No. 171
Management's Discussion and Analysis
December 31, 2024**

(Continued)

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
Long-term debt payable, beginning of year	\$ 7,740,053	\$ 192,945,367	\$ 200,685,420
Increases in long-term debt	7,620,585	74,372,274	81,992,859
Decreases in long-term debt	(4,993,967)	(22,068,852)	(27,062,819)
Long-term debt payable, end of year	<u>\$ 10,366,671</u>	<u>\$ 245,248,789</u>	<u>\$ 255,615,460</u>

At December 31, 2024, the District had \$34,850,000 of Internal District unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and for refunding such bonds, \$7,700,000 of Internal District unlimited tax bonds authorized, but unissued, for the purpose of constructing recreational facilities and for refunding such bonds and \$64,815,000 of Internal District unlimited tax bonds authorized, but unissued, for the purpose of constructing roads and for refunding such bonds.

At December 31, 2024, the District had \$519,625,000 of contract revenue bonds authorized, but unissued, for the purpose of acquiring and constructing Master District water, sewer and drainage facilities and for refunding such bonds and \$81,930,000 of road contract revenue bonds authorized, but unissued, for the purpose of constructing Master District road facilities and for refunding such bonds.

The District's governmental activities unlimited tax bonds are not rated.

The District's business-type activities contract revenue bonds carry an underlying rating of "Baa2" from Moody's Investors Services, Inc. The Series 2020, Road Series 2021, Series 2021, Series 2022, Road Series 2024, Series 2024 and Series 2024A bonds carry a "AA" rating from Standard & Poor's (S&P) by virtue of bond insurance issued by Build America Mutual Assurance Company. The Series 2023 bonds carry a "AA" rating from S&P by virtue of bond insurance issued by Assured Guaranty, Inc.

Since inception, the developer has advanced \$304,000 to the Internal District for operations of which \$106,724 has been reimbursed. These advances have been recorded as liabilities in the financial statements.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent if the City complies with the procedures and requirements of Chapter 43, Texas Local Government Code, as amended, which may include voter approval. If the District is annexed, the City must assume the District's assets and obligations (including the bonded indebtedness) and the District is dissolved.

Contingencies

The developer of the District is constructing facilities within the boundaries of the District. The District has agreed to reimburse the developer for a portion of these costs, plus interest, from the proceeds of future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction contract amounts are approximately \$53,119,200 for the Master District. These amounts have not been recorded in the financial statements since the facilities are not complete or operational.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No 171 (the District) was created by an order of the Texas Water Commission, now known as the Texas Commission on Environmental Quality (the Commission), effective October 16, 1978, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code, Chapter 8442 of the Special District Local Laws Code, and Article XVI, Section 59, of the Constitution of the State of Texas and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater, drainage, park, road and paving and other facilities.

The District is governed by a Board of Directors consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board of Directors sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. The statements distinguish between governmental and business-type activities. Governmental activities are generally financed through intergovernmental revenues and reimbursements from participants. Business-type activities are financed by fees charged to external parties for goods or services.

In the government-wide statement of net position, both the governmental and business-type activities columns are presented on a full accrual, economic resource basis, which recognizes all long-term assets and receivables, as well as long-term debt and obligations.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, such as investment earnings, are presented as general revenues.

Fund Financial Statements

Fund financial statements of the District are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into two categories: governmental and proprietary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the District or if it meets certain other criteria.

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

Governmental Funds

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances – Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Proprietary Fund

The enterprise fund accounts for the operations of the regional facilities. These facilities provide water supply and delivery, wastewater collection, treatment and disposal facilities to participants.

Measurement Focus

Measurement focus is a term used to describe which transactions are recorded within the various financial statements.

In the government-wide statement of net position and the statement of activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in item (B) below.

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus is used as appropriate:

- (A) All governmental funds utilize a current financial resources measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statement presents sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- (B) The proprietary funds utilize an economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

All governmental funds use the modified accrual basis of accounting. Under this basis of accounting, revenues are recognized when susceptible to accrual (*i.e.*, when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

All primary sources of the District's revenue are susceptible to accrual. Examples of revenue accrued are taxes, fees for services, charges to participants based on cost-reimbursement contracts and earnings from investments.

Deferred inflows of resources are recorded when the potential revenue does not meet both the measurable and available criteria for recognition in the current period. Deferred inflows of resources also arise when resources are received before earned.

Expenditures and liabilities are recognized when the related fund obligations are incurred as a result of receipt of goods and services.

All proprietary funds use the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds and internal service funds are charges to customers for sales and services along with penalties and fees. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The District considers all liquid investments with original maturities of three months or less to be cash equivalents. Cash equivalents consist primarily of money market accounts with brokers and pooled investment accounts.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Any collections on the current year tax levy are deferred and recognized in the subsequent fiscal year. Current year revenues recognized are those taxes collected during the fiscal year for prior years' tax levies, plus any collections received during fiscal 2023 on the 2023 levy.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended December 31, 2024, the tax levied in October 2024 is recorded as receivable and deferred inflows of resources and will be considered earned during the fiscal year ending December 31, 2025. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

The accounting treatment of property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Capital assets of proprietary funds are reported in both the government-wide and fund financial statements. All other capital assets of the governmental unit are general capital assets. They are not reported as assets in governmental funds but are reported in the governmental activities column in the government-wide statement of net position.

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

Capital assets are recorded at historical cost and depreciated over their estimated useful lives unless they are inexhaustible, such as land. Depreciation expense is reported in the government-wide statement of activities and the proprietary fund statement of revenues, expenses and changes in net position.

Capital assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Years</u>
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45
Drainage facilities	10-45
Parks and recreation facilities	10-20

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balance and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 3,453,785
Accrued interest on long-term liabilities is not payable with current financial resources and is not reported in the funds.	(37,903)
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	<u>(10,366,671)</u>
Adjustment to fund balances to arrive at net position.	<u><u>\$ (6,950,789)</u></u>

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balances in the governmental funds statement of revenues, expenditures and changes in fund balances because:

Change in fund balances.	\$ 932,720
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expenditures exceeded depreciation expense, conveyance of capital assets and noncapitalized costs in the current period.	4,970,115
Governmental funds report developer advances as other financing sources or uses as amounts are received or paid. However, for government-wide financial statements, these amounts are recorded as an increase or decrease in due to developer.	106,724
Governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	230,550
Governmental funds report proceeds from the sale of bonds because they provide current financial resources to governmental funds. Principal payments on debt are recorded as expenditures. None of these transactions, however, have any effect on net position.	(7,685,000)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(51,458)</u>
Change in net position of governmental activities.	<u><u>\$ (1,496,349)</u></u>

Note 2. Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At December 31, 2024, none of the District's bank balances were exposed to custodial credit risk.

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not registered with the Securities and Exchange Commission. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. The District's investments may be redeemed at any time. The District's investments in TexPool are reported at amortized cost.

The District invests in Fidelity Investments Money Market Treasury Only Fund (government money market fund). An Adviser has oversight of the government money market fund. The District's investments in the government money market fund may be redeemed at any time. The government money market fund seeks as high a level of current income as is consistent with the security of principal and liquidity. The government money market fund normally invests at least 99.5% of the fund's total assets in cash and U.S. Treasury securities. The District's investments in the government money market fund are reported at net asset value.

At December 31, 2024, the District had the following investments and maturities:

Type	Maturities in Years				
	Amortized Cost/Fair Value	Less Than 1	1-5	6-10	More Than 10
Governmental activities:					
TexPool	\$ 1,079,721	\$ 1,079,721	\$ -	\$ -	\$ -
Business-type activities:					
TexPool	21,868,549	21,868,549	-	-	-
Government money market funds	9,503,837	9,503,837	-	-	-
Totals	<u>\$ 32,452,107</u>	<u>\$ 32,452,107</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool and government money market funds are presented as investments with a maturity of less than one year because they are redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2024, the District's investments in TexPool and the investments in government money market funds were rated "AAAm" by Standard & Poor's.

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

Concentration of Credit Risk. The District places no limit on the amount that may be invested in any one issuer. At December 31, 2024, the District's investment in government money market funds constituted 30% of its total investments.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the statement of net position at December 31, 2024, as follows:

Carrying value:		
Deposits	\$	571,803
Investments		32,452,107
		<u>32,452,107</u>
Total	\$	<u>33,023,910</u>

Included in the following captions:

Governmental activities:		
Cash and cash equivalents	\$	329,350
Short-term investments		1,079,721
		<u>1,079,721</u>
		1,409,071
Business-type activities:		
Cash and cash equivalents		31,614,839
		<u>31,614,839</u>
	\$	<u>33,023,910</u>

Investment Income

Investment income of \$20,722 in the governmental activities and \$1,184,452 in the business-type activities for the year ended December 31, 2024, consisted of interest income.

Fair Value Measurements

The District has the following recurring fair value measurements as of December 31, 2024:

- Government money market funds of \$9,503,837 are valued at fair value per share of the fund's underlying portfolio.

Note 3. Capital Assets

A summary of changes in capital assets for the year ended December 31, 2024, is presented as follows:

<u>Governmental Activities</u>	<u>Balances, Beginning of Year</u>	<u>Additions</u>	<u>Balances, End of Year</u>
Capital assets, depreciable:			
Water production and distribution facilities	\$ 299,218	\$ 154,383	\$ 453,601

2045-2049	22,775,000	2,952,706	25,727,706
2050	1,980,000	79,200	2,059,200
Total	<u>\$ 166,835,000</u>	<u>\$ 84,725,588</u>	<u>\$ 251,560,588</u>

Principal and interest on the bonds are payable from and secured by an unconditional obligation to make certain payments by the participating districts in the applicable service area pursuant to the contracts described in Note 7. The participants have each agreed to pay a pro rata share of the debt service of the bonds based on the certified assessed valuation of each participant as a percentage of the total assessed valuation of all participating districts.

Under the terms of the contract, the District shall calculate and bill on or before September 1 of each year, or as soon thereafter as practical, the amount of contract tax payments due from each participant for the following year. The contract tax payments are payable by the participants semiannually, on March 1 and September 1 of each

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

year, for the June 1 and December 1 debt service requirements. A summary of the participants and their initial assessed valuations and contract tax payments for 2024 due during the year ending December 31, 2025, is shown below:

	Initial Assessed Valuations	Contract Tax Payments
The District	\$ 78,589,077	\$ 596,522
Harris County Municipal Utility District No. 457	870,019,004	6,710,298
Harris County Municipal Utility District No. 458	74,018,748	573,866
Harris County Municipal Utility District No. 532	10,222,300	78,013
Harris County Municipal Utility District No. 533	9,260,010	118,898
Harris County Municipal Utility District No. 534	373,488,203	2,893,283
	<u>\$ 1,415,597,342</u>	<u>\$ 10,970,880</u>

During the current year, each participant levied a contract tax to meet their obligations.

Governmental Activities (Internal District) bonds:

Water, sewer and drainage and refunding bonds voted	\$ 37,350,000
Water, sewer and drainage and refunding bonds issued	2,500,000
Recreational facilities and refunding bonds voted	7,700,000
Road facilities and refunding bonds voted	70,000,000
Road facilities and refunding bonds issued	5,185,000

Business-Type Activities (Master District):

Contract revenue and refunding water, sewer and drainage bonds authorized	\$ 680,320,000
Contract revenue and refunding water, sewer and drainage bonds issued	160,695,000
Contract revenue and refunding road bonds authorized	98,910,000
Contract revenue and refunding road bonds issued	16,980,000

Due to Developer - Construction

The developer has constructed facilities on behalf of the Internal District under the terms of contracts with the District. The District has agreed to reimburse the cost of these facilities from the sale of bonds subject to the approval of the Commission, as applicable, and the terms of the contracts with the developer. As of December 31, 2024, a liability for developer-constructed capital assets of \$2,714,945 was recorded in the financial statements.

The developer has constructed regional facilities on behalf of the Master District under the terms of contracts with the District. The District has agreed to reimburse the cost of these facilities from the sale of bonds subject to the approval of the Commission, as applicable, and the terms of the contracts with the developer. As of December 31, 2024, a liability for developer-constructed capital assets of \$82,954,875 was recorded in the financial statements.

Due to Developer - Advances

Since inception, the developer has advanced \$304,000 to the Internal District for operations of which \$106,724 has been reimbursed. These advances have been recorded as liabilities in the financial statements.

Note 5. Significant Bond Resolution and Commission Requirements

- A) The Bond Resolution requires that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended December 31, 2024, the District levied an ad valorem debt service tax at the rate of \$0.095 per \$100 of assessed valuation, which resulted in a tax levy of \$71,485 on the taxable valuation of \$75,247,598 for the 2024 tax year. The interest and principal requirements to be paid from the tax revenues and available debt service fund resources are \$152,818.
- B) The Road Bond Resolution requires that the District levy and collect an ad valorem road debt service tax sufficient to pay interest and principal on road bonds when due. During the year ended December 31, 2024, the District levied an ad valorem road debt service tax at the rate of \$0.205 per \$100 of assessed valuation, which resulted in a tax levy of \$154,258 on the taxable valuation of \$75,247,598 for the 2024 tax year. The road bond interest and principal requirements to be paid from the road debt service tax revenues and available debt service fund resources are \$326,672.
- C) In accordance with Road Series 2024 and Series 2024 unlimited tax bond resolutions, a portion of the bond proceeds were deposited with the debt service fund for the payment of bond interest during the construction period. The bond interest reserve is reduced as interest is paid.

Bond interest reserve, beginning of year	\$	-
Additions--Interest appropriated from bond proceeds:		
Unlimited Tax Road Bonds, Series 2024		438,312
Unlimited Tax Bonds, Series 2024		211,450
		649,762
Bond interest reserve, end of year	\$	649,762

In accordance with the Series 2023, Road Series 2004, Series 2024 and Series 2024A Contract Revenue Bond Resolutions, a portion of the bond proceeds were deposited with the Master District and reserved for the payment of bond interest during the construction period. The bond interest reserve is reduced as interest is paid.

Bond interest reserve, beginning of year	\$	783,533
Additions--Interest appropriated from bond proceeds:		
Road Contract Revenue Bonds, Series 2024		296,200
Contract Revenue Bonds, Series 2024		748,400
Contract Revenue Bonds, Series 2024A		942,900
		1,987,500
Deductions--Appropriation from bond interest paid:		
Contract Revenue Bonds, Series 2023		783,533
Road Contract Revenue Bonds, Series 2024		213,099
Contract Revenue Bonds, Series 2024		261,940
		1,258,572
Bond interest reserve, end of year	\$	1,512,461

- D) The Contract Revenue Bond Resolutions created a debt service reserve requirement equal to one-half of the maximum annual debt service requirements on all outstanding contract revenue bonds. At December 31, 2024, the reserve requirement equaled \$6,500,442. The amount of \$6,583,852 was funded with proceeds from the sale of bonds and accumulated interest earnings.

Note 6. Maintenance Taxes

At an election held November 4, 2014, voters authorized a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem maintenance tax at the rate of \$0.310 per \$100 of assessed valuation, which resulted in a tax levy of \$233,267 on the taxable valuation of \$75,247,598 for the 2024 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the Internal District.

At an election held November 4, 2014, voters authorized a road maintenance tax not to exceed \$0.25 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District did not levy an ad valorem road maintenance tax.

Note 7. Contract Taxes

At an election held November 4, 2014, voters authorized the contract (as defined in Note 8) which requires the District to impose a contract tax on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem contract tax at the rate of \$0.780 per \$100 of assessed valuation, which resulted in a tax levy of \$586,932 on the taxable valuation of \$75,247,598 for the 2024 tax year. This contract tax, along with existing resources will be used to pay contract tax payments to the Master District as described in Note 4.

Note 8. Financing and Operating of Regional Facilities

The District, in its capacity as Master District, has entered into 40-year Contract(s) for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities (the contracts) whereby the Master District agreed to provide or cause to be provided for the financing, operation and maintenance of regional water, sanitary sewer, storm sewer, park, road and other facilities (regional facilities). The Master District shall be the owner of the regional facilities constructed and acquired and will provide the services permitted by the contract to all participating districts that are in existence or will be created within the Master District's service area, including the District in its capacity as a participant district.

Under the terms of the contract, the Master District will charge the participants a monthly operational fee calculated by multiplying the unit cost per connection by the number of equivalent single-family residential connections reserved to each district.

The Master District is to maintain an operation and maintenance reserve equivalent to three months of budgeted operation and maintenance expenses.

In addition, the Master District is authorized to issue contract revenue bonds, sufficient to complete construction and acquisition of the water, sewer, drainage and road regional facilities as needed to serve all districts in the service area. Each participating district is obligated to pay its pro rata share of the debt service requirements on the Master District's contract revenue bonds. With respect to regional recreational facilities, the participant districts will be required to pay the Master District for such facilities by paying park construction charges.

Note 9. Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the Authority), which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion

Harris County Municipal Utility District No. 171
Notes to Financial Statements
December 31, 2024

requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of December 31, 2024, the Authority was billing the District \$3.95 per 1,000 gallons of water pumped from its wells. This amount is subject to future adjustments.

Note 10. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three fiscal years.

Note 11. Contingencies

The developer of the District is constructing regional facilities within the boundaries of the Master District. The District has agreed to reimburse the developer for a portion of these costs, plus interest, from the proceeds of future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction contract amounts are approximately \$53,119,200 for the Master District. These amounts have not been recorded in the financial statements since the facilities are not complete or operational.

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during 2024.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule – General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

Independent Auditor's Report

Board of Directors
Harris County Municipal Utility District No 457
Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No 457 (the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of December 31, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	<u>2024</u>	<u>2023</u>
Current and other assets	\$ 17,257,112	\$ 16,550,231
Capital assets	<u>10,243,545</u>	<u>10,508,863</u>
Total assets	<u>\$ 27,500,657</u>	<u>\$ 27,059,094</u>
Long-term liabilities	\$ 52,033,835	\$ 53,694,554
Other liabilities	<u>1,315,475</u>	<u>874,195</u>
Total liabilities	<u>53,349,310</u>	<u>54,568,749</u>
Deferred inflows of resources	<u>12,136,099</u>	<u>12,087,315</u>
Net position:		
Net investment in capital assets	(7,360,655)	(8,488,453)
Restricted	948,518	748,059
Unrestricted	<u>(31,572,615)</u>	<u>(31,856,576)</u>
Total net position	<u>\$ (37,984,752)</u>	<u>\$ (39,596,970)</u>

The total net position of the District increased by \$1,612,218 or about 4%. The majority of the increase in net position is related to tax revenues intended to pay principal on the District's bonded indebtedness, which is shown as long-term liabilities in the government-wide financial statements. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Summary of Changes in Net Position

	<u>2024</u>	<u>2023</u>
Revenues:		
Property taxes	\$ 12,064,548	\$ 10,339,304
Charges for services	2,356,564	2,418,622
Other revenues	533,574	542,096
	<u>14,954,686</u>	<u>13,300,022</u>
Expenses:		
Services	4,528,455	4,530,808
Connection fees	-	4,899,000
Depreciation	265,318	265,318
Debt service	1,856,900	2,432,698
Contractual obligation	6,691,795	5,206,205
	<u>13,342,468</u>	<u>17,334,029</u>
Change in net position	1,612,218	(4,034,007)
Net position, beginning of year	<u>(39,596,970)</u>	<u>(35,562,963)</u>
Net position, end of year	<u><u>\$ (37,984,752)</u></u>	<u><u>\$ (39,596,970)</u></u>

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended December 31, 2024, were \$4,284,773, an increase of \$244,845 from the prior year.

The general fund's fund balance increased by \$280,220, primarily due to property taxes, services revenues and investment income exceeding service operations expenditures.

The debt service fund's fund balance decreased by \$25,143, primarily due to bond principal and interest requirements and contractual obligations expenditures exceeding property tax revenues, investment income and other income received in the current year.

The capital projects fund's fund balance decreased by \$10,232, primarily due to capital outlay and debt issuance costs exceeding investment income received in the current year.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to sewer service and regional water fee revenues and regional water authority and contracted services expenditures being greater than anticipated, as well as water service revenue and professional fees expenditures being less than anticipated. The fund balance as of December 31, 2024, was expected to be \$2,899,904 and the actual end-of-year fund balance was \$2,709,371.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

Capital Assets (Net of Accumulated Depreciation)

	<u>2024</u>	<u>2023</u>
Water facilities	\$ 3,753,429	\$ 3,850,749
Wastewater facilities	<u>6,490,116</u>	<u>6,658,114</u>
Total capital assets	<u>\$ 10,243,545</u>	<u>\$ 10,508,863</u>

During the current year, there were no additions to capital assets.

Since inception, the developer has advanced \$115,283 to the District for operations, net of repayments. These advances have been recorded as liabilities in the financial statements.

Debt

The changes in the debt position of the District during the fiscal year ended December 31, 2024, are summarized as follows:

Long-term debt payable, beginning of year	\$ 53,694,554
Decreases in long-term debt	<u>(1,660,719)</u>
Long-term debt payable, end of year	<u>\$ 52,033,835</u>

The District's bonds carry an underlying rating of "Baa2" from Moody's Investors Service, Inc. (Moody's). The Series 2019, Road Series 2021, Series 2021 and Series 2022 unlimited tax bonds carry a "AA" rating from Standard & Poor's (S&P) by virtue of bond insurance issued by Build America Mutual Assurance Company. The Series 2020, Road Series 2022, Road Series 2023 and Park Series 2023 unlimited tax bonds carry a "AA" rating from S&P and an "A1" rating from Moody's by virtue of bond insurance issued by Assured Guaranty, Inc.

At December 31, 2024, the District had \$162,670,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and for refunding such bonds, \$64,490,000 of unlimited tax bonds authorized, but unissued, for the purposes of constructing park and recreational facilities and for refunding such bonds and \$35,080,000 of unlimited tax bonds authorized, but unissued, for the purpose of constructing roads and for refunding such bonds.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent if the City complies with the procedures and requirements of Chapter 43, Texas Local Government Code, as amended, which may include voter approval. If the District is annexed, the City must assume the District's assets and obligations (including the bond indebtedness) and the District is dissolved.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No 457 (the District) was created by an order of the Texas Commission on Environmental Quality (the Commission), effective December 21, 2006, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code, Chapter 8439 of the Texas Special District Local Laws Code, and Article XVI, Section 59, of the Constitution of the State of Texas and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater, drainage, park, road and other facilities and to provide such facilities and services to the customers of the District. The District also provides solid waste disposal services.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-Wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances – Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Any collections on the current year tax levy are deferred and recognized in the subsequent fiscal year. Current year revenues recognized are those taxes collected during the fiscal year for prior years' tax levies, plus any collections received during fiscal 2023 on the 2023 levy.

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District’s fiscal year ended December 31, 2024, the tax levied in October 2024 is recorded as receivable and deferred inflows of resources and will be considered earned during the fiscal year ending December 31, 2025. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets, with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 10,243,545
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund financial statements.	109,071
Accrued interest on long-term liabilities is not payable with current financial resources and is not reported in the funds.	(588,306)
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	<u>(52,033,835)</u>
Adjustment to fund balances to arrive at net position.	<u>\$ (42,269,525)</u>

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balances in the governmental funds statement of revenues, expenditures and changes in fund balances because:

Change in fund balances.	\$ 244,845
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which noncapitalized costs and depreciation expense exceeded capital outlay expenditures in the current period.	(265,318)
Governmental funds report principal payments on debt as expenditures. For the statement of activities, these transactions do not have any effect on net position.	1,705,000
Revenues that do not provide current financial resources are not reported as revenues for the funds, but are reported as revenues in the statement of activities.	30,168
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	<u>(102,477)</u>
Change in net position of governmental activities.	<u>\$ 1,612,218</u>

Note 2. Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At December 31, 2024, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not registered with the Securities and Exchange Commission. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. The District's investments in TexPool are reported at amortized cost.

At December 31, 2024, the District had the following investments and maturities:

Type	Maturities in Years				
	Amortized Cost	Less Than 1	1-5	6-10	More Than 10
TexPool	\$ 4,251,780	\$ 4,251,780	\$ -	\$ -	\$ -

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2024, the District's investments in TexPool were rated "AAAm" by Standard & Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet and statement of net position at December 31, 2024, as follows.

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

Carrying value:		
Deposits	\$	2,260,750
Investments		4,251,780
		4,251,780
Total	\$	6,512,530

Investment Income

Investment income of \$371,294 for the year ended December 31, 2024, consisted of interest income.

Note 3. Capital Assets

A summary of changes in capital assets for the year ended December 31, 2024, is presented below:

Governmental Activities	Balances, Beginning of Year	Additions	Balances, End of Year
Capital assets, depreciable:			
Water production and distribution facilities	\$ 4,368,673	\$ -	\$ 4,368,673
Wastewater collection and treatment facilities	7,524,964	-	7,524,964
Total capital assets, depreciable	11,893,637	-	11,893,637
Less accumulated depreciation:			
Water production and distribution facilities	(517,924)	(97,320)	(615,244)
Wastewater collection and treatment facilities	(866,850)	(167,998)	(1,034,848)
Total accumulated depreciation	(1,384,774)	(265,318)	(1,650,092)
Total governmental activities, net	\$ 10,508,863	\$ (265,318)	\$ 10,243,545

Note 4. Long-Term Liabilities

Changes in long-term liabilities for the year ended December 31, 2024, were as follows:

Governmental Activities	Balances, Beginning of Year	Decreases	Balances, End of Year	Amounts Due in One Year
Bonds payable:				
General obligation bonds	\$ 55,025,000	\$ 1,705,000	\$ 53,320,000	\$ 1,850,000
Less discounts on bonds	1,445,729	44,281	1,401,448	-
	53,579,271	1,660,719	51,918,552	1,850,000
Developer advances	115,283	-	115,283	-
Total governmental activities long-term liabilities	\$ 53,694,554	\$ 1,660,719	\$ 52,033,835	\$ 1,850,000

*Or any date thereafter; callable at par plus accrued interest to the date of redemption.

Annual Debt Service Requirements

The following schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds outstanding at December 31, 2024:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 1,850,000	\$ 1,743,916	\$ 3,593,916
2026	1,875,000	1,672,819	3,547,819
2027	1,910,000	1,607,527	3,517,527
2028	1,945,000	1,547,307	3,492,307
2029	1,980,000	1,486,313	3,466,313
2030-2034	10,480,000	6,558,976	17,038,976
2035-2039	11,640,000	4,957,700	16,597,700
2040-2044	12,485,000	2,978,007	15,463,007
2045-2049	9,155,000	872,662	10,027,662
Total	<u>\$ 53,320,000</u>	<u>\$ 23,425,227</u>	<u>\$ 76,745,227</u>

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

The bonds are payable from the proceeds of an ad valorem tax levied upon all property within the District subject to taxation, without limitation as to rate or amount:

Bonds voted:	
Water, sewer and drainage facilities and refunding	\$ 192,090,000
Park and recreational facilities and refunding	70,240,000
Road facilities and refunding	58,465,000
Bonds sold:	
Water, sewer and drainage facilities	29,420,000
Park and recreational facilities	5,750,000
Road facilities	23,385,000

Developer Advances

Since inception, the developer has advanced \$115,283 to the District for operations, net of repayments. These advances have been recorded as liabilities in the financial statements.

Note 5. Significant Bond Resolution and Commission Requirements

- (A) The Bond Resolutions require that the District levy and collect an ad valorem debt service tax sufficient to pay principal and interest on bonds when due. During the year ended December 31, 2024, the District levied an ad valorem debt service tax at the rate of \$0.2400 per \$100 of assessed valuation for water, sewer and drainage debt service, which resulted in a tax levy of \$2,065,719 on the taxable valuation of \$860,716,252 for the 2024 tax year. The interest and principal requirements to be paid from the tax revenues and available resources are \$2,207,191.
- (B) The Road Bond Resolutions require that the District levy and collect an ad valorem road debt service tax sufficient to pay principal and interest on road bonds when due. During the year ended December 31, 2024, the District levied an ad valorem road debt service tax at the rate of \$0.1600 per \$100 of assessed valuation for road debt service, which resulted in a tax levy of \$1,377,146 on the taxable valuation of \$860,716,252 for the 2024 tax year. The interest and principal requirements to be paid from the tax revenues and available resources are \$1,386,725.
- (C) In accordance with the Road Series 2023 and Park Series 2023 Bond Resolutions, a portion of the bond proceeds were deposited into the debt service fund and reserved for the payment of bond interest during the construction period. This bond interest reserve is reduced as the interest is paid.

Bond interest reserve, beginning of year	<u>\$ 333,489</u>
Deductions--Appropriation from bond interest paid:	
Road Series 2023	49,695
Park Series 2023	<u>203,386</u>
	<u>253,081</u>
Bond interest reserve, end of year	<u><u>\$ 80,408</u></u>

Note 6. Maintenance Taxes

At an election held November 4, 2014, voters authorized a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem maintenance tax at the rate of \$0.2250 per \$100 of assessed valuation, which resulted in a tax levy of \$1,936,611 on the taxable valuation of \$860,716,252 for the 2024 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

At an election held November 4, 2014, voters authorized a road facilities maintenance tax not to exceed \$0.2500 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District did not levy an ad valorem road facilities maintenance tax.

Note 7. Contract Taxes

At an election held November 4, 2014, voters authorized the contract (as defined in Note 8) which requires the District to impose a contract tax on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem contract tax at the rate of \$0.7850 per \$100 of assessed valuation, which resulted in a tax levy of \$6,756,623 on the taxable valuation of \$860,716,252 for 2024 tax year. This contract tax is used to pay for its pro rata share of principal and interest on the Harris County Municipal Utility District No. 171's (the Master District) contract revenue bonds as described in Note 8.

Note 8. Financing and Operation of Regional Facilities

Effective February 9, 2015, the District entered into a 40-year Contract for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities (the contract) with the Master District, which sets forth the general terms and conditions pursuant to which the districts share in the joint financing, operation, and use of certain water, sanitary sewer, storm drainage and detention, road and park facilities that serve the areas within the Master District's service area (the Regional Facilities). The Master District shall be the owner of the Regional Facilities constructed and acquired and will provide the services permitted by the contract to all participant districts that are in existence or will be created within the Master District's service area.

Under the terms of the contract, the Master District will charge the participants a monthly operational fee calculated by multiplying the unit cost per connection by the number of equivalent single-family residential connections reserved to each district. The Master District is to maintain an operation and maintenance reserve equivalent to three months of budgeted operation and maintenance expenses.

In addition, the Master District is authorized to issue contract revenue bonds sufficient to complete acquisition and construction of the water, sewer, drainage and road regional facilities as needed to serve all districts in the service area. Each participating district is obligated to pay its pro rata share of debt service requirements on the Master District's contract revenue bonds. With respect to regional recreational facilities, the participant districts will be required to pay the Master District for such facilities by paying park construction charges. During the current year, the District did not pay construction charges to the Master District.

Harris County Municipal Utility District No. 457
Notes to Financial Statements
December 31, 2024

The debt service requirements on all of the Master District's Contract Revenue Bonds outstanding as of December 31, 2024, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2024	\$ 4,335,000	\$ 5,179,786	\$ 9,514,786
2025	4,405,000	4,805,707	9,210,707
2026	4,460,000	4,571,884	9,031,884
2027	4,530,000	4,347,776	8,877,776
2028	4,600,000	4,124,356	8,724,356
2029-2033	24,210,000	17,417,011	41,627,011
2034-2038	26,515,000	12,622,542	39,137,542
2039-2043	29,165,000	7,345,002	36,510,002
2044-2048	17,725,000	2,086,516	19,811,516
2049	1,215,000	60,750	1,275,750
Total	<u>\$ 121,160,000</u>	<u>\$ 62,561,330</u>	<u>\$ 183,721,330</u>

Based on the calculations provided by the Master District's financial advisor, the District's pro rata share of total 2024 assessed valuation is 61.46% and its pro rata share of the 2025 principal and interest requirements of the Master District's bonds is \$6,710,298.

Note 9. Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the Authority) which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of December 31, 2024, the Authority was billing the Master District \$3.95 per 1,000 gallons of water pumped from its wells, and the Master District is billing the District for its pro rata portion. This amount is subject to future adjustments.

Note 10. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Notes to Required Supplementary Information
December 31, 2024

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during 2024.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule - General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

2. Retail service providers

a. Retail rates for a 5/8" meter (or equivalent):

	<u>Minimum Charge</u>	<u>Minimum Usage</u>	<u>Flat Rate Y/N</u>	<u>Rate Per 1,000 Gallons Over Minimum</u>	<u>Usage Levels</u>
Water:	\$ 15.00	10,000	N	\$ 1.25	10,001 to 15,000
				\$ 1.50	15,001 to 30,000
				\$ 2.00	30,001 to 40,000
				\$ 2.50	40,001 to No Limit

Wastewater: \$ 40.25 1,000 Y

Regional water fee: \$ 4.15 1,000 N \$ 4.15 1,001 to No Limit

Does the District employ winter averaging for wastewater usage? Yes No

Total charges per 10,000 gallons usage (including fees): Water \$ 56.50 Wastewater \$ 40.25

b. Water and wastewater retail connections:

<u>Meter Size</u>	<u>Total Connections</u>	<u>Active Connections</u>	<u>ESFC Factor</u>	<u>Active ESFC*</u>
Unmetered	-	-	x1.0	-
≤ 3/4"	1,582	1,575	x1.0	1,575
1"	428	428	x2.5	1,070
1 1/2"	1	1	x5.0	5
2"	45	44	x8.0	352
3"	1	1	x15.0	15
4"	-	-	x25.0	-
6"	-	-	x50.0	-
8"	1	1	x80.0	80
10"	-	-	x115.0	-
Total water	2,058	2,050		3,097
Total wastewater	1,984	1,976	x1.0	1,976

3. Total water consumption (in thousands) during the fiscal year:

Gallons pumped into the system:	240,976
Gallons billed to customers:	240,976
Water accountability ratio (gallons billed/gallons pumped):	100.00%

*"ESFC" means equivalent single-family connections

Independent Auditor's Report

Board of Directors
Harris County Municipal Utility District No. 458
Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and the general fund of Harris County Municipal Utility District No. 458 (the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the District, as of December 31, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Forvis Mazars, LLP

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	<u>2024</u>	<u>2023</u>
Current and other assets	\$ 2,333,304	\$ 1,836,644
Capital assets	<u>3,351,602</u>	<u>2,378,843</u>
Total assets	<u>\$ 5,684,906</u>	<u>\$ 4,215,487</u>
Long-term liabilities	\$ 11,322,686	\$ 9,477,757
Other liabilities	<u>173,787</u>	<u>389,423</u>
Total liabilities	<u>11,496,473</u>	<u>9,867,180</u>
Deferred inflows of resources	<u>867,852</u>	<u>444,285</u>
Net position:		
Net investment in capital assets	(2,808,086)	(3,256,923)
Unrestricted	<u>(3,871,333)</u>	<u>(2,839,055)</u>
Total net position	<u>\$ (6,679,419)</u>	<u>\$ (6,095,978)</u>

The total net position of the District decreased by \$583,441 or about 10%. The majority of the decrease in net position is related to the conveyance of capital assets to another governmental entity. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Summary of Changes in Net Position

	<u>2024</u>	<u>2023</u>
Revenues:		
Property taxes	\$ 439,542	\$ 309,379
Charges for services	140,577	18,597
Other revenues	<u>746,082</u>	<u>795,418</u>
Total revenues	<u>1,326,201</u>	<u>1,123,394</u>
Expenses:		
Services	808,848	287,781
Depreciation	67,088	42,579
Conveyance of capital assets	855,532	2,752,114
Contractual obligation	<u>178,174</u>	<u>299,681</u>
Total expenses	<u>1,909,642</u>	<u>3,382,155</u>
Change in net position	(583,441)	(2,258,761)
Net position, beginning of year	<u>(6,095,978)</u>	<u>(3,837,217)</u>
Net position, end of year	<u><u>\$ (6,679,419)</u></u>	<u><u>\$ (6,095,978)</u></u>

Financial Analysis of the District's Fund

The general fund's fund balance increased by \$288,729, primarily due to property taxes, services and tap connection and inspection fees revenues and investment income exceeding service operations expenditures and debt service contractual obligations.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to property taxes, water service, regional water fee and tap connection and inspection fees revenues, investment income and purchased services and regional water authority expenditures being greater than expected. In addition, tap connections, capital outlay and debt service contractual obligations expenditures were not included in the current year budget. The fund balance as of December 31, 2024, was expected to be \$1,083,778 and the actual end-of-year fund balance was \$1,291,665.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below.

Capital Assets (Net of Accumulated Depreciation)

	<u>2024</u>	<u>2023</u>
Land and improvements	\$ 562,579	\$ 562,579
Water facilities	609,007	381,115
Wastewater facilities	798,694	352,478
Drainage facilities	<u>1,381,322</u>	<u>1,082,671</u>
Total capital assets	<u>\$ 3,351,602</u>	<u>\$ 2,378,843</u>

During the current year, additions to capital assets were as follows:

Sanitary service lead under Elyson Falls Drive to serve the Elyson MF-2 site	\$ 50,450
Water, sewer and drainage facilities to serve Elyson single family built to rent	<u>989,397</u>
Total additions to capital assets	<u>\$ 1,039,847</u>

The developers within the District have constructed facilities on behalf of the District under the terms of contracts with the District. The District has agreed to reimburse the cost of these facilities from the proceeds of future bond issues, subject to the approval of the Commission, as applicable, and the terms of the contracts with the developers. As of December 31, 2024, a liability for developer-constructed capital assets of \$10,917,686 was recorded in the government-wide financial statements.

Debt

The changes in the debt position of the District during the fiscal year ended December 31, 2024, are summarized as follows:

Long-term debt payable, beginning of year	\$ 9,477,757
Increases in long-term debt	<u>1,844,929</u>
Long-term debt payable, end of year	<u>\$ 11,322,686</u>

At December 31, 2024, the District had \$158,180,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and for refunding such bonds, \$29,855,000 of unlimited tax bonds authorized, but unissued, for the purposes of constructing park and recreational facilities and for refunding such bonds and \$73,910,000 of unlimited tax bonds authorized, but unissued, for the purpose of constructing roads and for refunding such bonds.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent if the City complies with the procedures and requirements of Chapter 43, Texas Local Government Code, as amended, which may include voter approval. If the District is annexed, the City must assume the District's assets and obligations (including the bond indebtedness) and the District, is dissolved.

Economic Dependency

The District's developers own the majority of the taxable property within the District. The District's ability to meet its obligations is dependent on the developers ability to pay property taxes.

Since inception, a developer has advanced \$405,000 to the District for operations. The District does not have sufficient funds or anticipated revenues sufficient to liquidate these advances during the forthcoming fiscal year. These advances have been recorded as liabilities in the government-wide financial statements.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 458 (the District) was created by an order of the Texas Commission on Environmental Quality (the Commission), effective December 21, 2006, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code, Chapter 8418 of the Texas Special District Local Laws Code, and Article XVI, Section 59, of the Constitution of the State of Texas and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater, drainage, park, road and other facilities and to provide such facilities and services to the customers of the District. The District may also provide solid waste disposal services.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-Wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental fund. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental fund:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Fund Balance – Governmental Fund

The fund balance for the District's governmental fund can be displayed in up to five components.

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental fund revenues, expenditures and changes in fund balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Any collections on the current year tax levy are deferred and recognized in the subsequent fiscal year. Current year revenues recognized are those taxes collected during the fiscal year for prior years' tax levies, plus any collections received during fiscal 2023 on the 2023 levy.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended December 31, 2024, the tax levied in October 2024 is recorded as receivable and deferred inflows of resources and will be considered earned during the fiscal year ending December 31, 2025. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets, with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45
Drainage facilities	10-45

The District conveys ownership of road and paving facilities constructed to another governmental entity upon completion for maintenance.

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balance

Fund balance and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balance in the governmental fund balance sheet are different because of the items on the following page.

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 3,351,602
Long-term debt obligations are not due and payable in the current period and are not reported in the fund financial statements.	<u>(11,322,686)</u>
Adjustment to fund balance to arrive at net position.	<u>\$ (7,971,084)</u>

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balance in the governmental fund statement of revenues, expenditures and changes in fund balance because:

Change in fund balance.	\$ 288,729
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense and conveyance of capital assets exceeded capital outlay expenditures in the current period.	<u>(872,170)</u>
Change in net position of governmental activities.	<u>\$ (583,441)</u>

Note 2. Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At December 31, 2024, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not registered with the Securities and Exchange Commission. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. The District's investments in TexPool are reported at amortized cost.

At December 31, 2024, the District had the following investments and maturities:

<u>Type</u>	<u>Maturities in Years</u>				
	<u>Amortized Cost</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More Than 10</u>
TexPool	<u>\$ 1,444,931</u>	<u>\$ 1,444,931</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2024, the District's investments in TexPool were rated "AAAm" by Standard and Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet and statement of net position at December 31, 2024, as follows:

Carrying value:	
Deposits	\$ 177,696
Investments	<u>1,444,931</u>
Total	<u>\$ 1,622,627</u>

Investment Income

Investment income of \$78,356 for the year ended December 31, 2024, consisted of interest income.

Note 3. Capital Assets

A summary of changes in capital assets for the year ended December 31, 2024, is presented as follows.

<u>Governmental Activities</u>	<u>Balances, Beginning of Year</u>	<u>Additions</u>	<u>Balances, End of Year</u>
Capital assets, non-depreciable:			
Land and improvements	<u>\$ 562,579</u>	<u>\$ -</u>	<u>\$ 562,579</u>

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

Governmental Activities (Continued)	Balances, Beginning of Year	Additions	Balances, End of Year
Capital assets, depreciable:			
Water production and distribution facilities	\$ 395,423	\$ 242,058	\$ 637,481
Wastewater collection and treatment facilities	387,624	466,600	854,224
Drainage facilities	1,133,028	331,189	1,464,217
Total capital assets, depreciable	<u>1,916,075</u>	<u>1,039,847</u>	<u>2,955,922</u>
Less accumulated depreciation:			
Water production and distribution facilities	(14,308)	(14,166)	(28,474)
Wastewater collection and treatment facilities	(35,146)	(20,384)	(55,530)
Drainage facilities	(50,357)	(32,538)	(82,895)
Total accumulated depreciation	<u>(99,811)</u>	<u>(67,088)</u>	<u>(166,899)</u>
Total governmental activities, net	<u>\$ 2,378,843</u>	<u>\$ 972,759</u>	<u>\$ 3,351,602</u>

Note 4. Long-Term Liabilities

Changes in long-term liabilities for the year ended December 31, 2024, were as follows:

Governmental Activities	Balances, Beginning of Year	Increases	Balances, End of Year	Amounts Due in One Year
Developer advances	\$ 405,000	\$ -	\$ 405,000	\$ -
Due to developers	9,072,757	1,844,929	10,917,686	-
Total governmental activities long-term liabilities	<u>\$ 9,477,757</u>	<u>\$ 1,844,929</u>	<u>\$ 11,322,686</u>	<u>\$ -</u>

Bonds voted:

Water, sewer and drainage facilities and refunding	\$ 158,180,000
Park and recreational facilities and refunding	29,855,000
Road facilities and refunding	73,910,000

Due to Developers

The developers within the District have constructed facilities on behalf of the District under the terms of contracts with the District. The District has agreed to reimburse the developers for these construction costs and interest to the extent approved by the Commission, as applicable, from the proceeds of future bond sales. The District's engineer estimates reimbursable costs for completed projects are \$10,917,686. These amounts have been recorded in the financial statements as long-term liabilities.

Developer Advances

Since inception, a developer has advanced \$405,000 to the District for operations. The District does not have sufficient funds or anticipated revenues sufficient to liquidate these advances during the forthcoming year. These advances have been recorded as liabilities in the financial statements.

Note 5. Maintenance Taxes

At an election held May 9, 2015, voters authorized a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem maintenance tax at the rate of \$0.4500 per \$100 of assessed valuation, which resulted in a tax levy of \$330,961 on the taxable valuation of \$73,546,779 for the 2024 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

At an election held May 9, 2015, voters authorized a road facilities maintenance tax not to exceed \$0.25 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District did not levy an ad valorem road facilities maintenance tax.

Note 6. Contract Taxes

At an election held May 9, 2015, voters authorized the contract (as defined in Note 7) which requires the District to impose a contract tax on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem contract tax at the rate of \$0.7300 per \$100 of assessed valuation, which resulted in a tax levy of \$536,891 on the taxable valuation of \$73,546,779 for the 2024 tax year. This contract tax is used to pay for the District's pro rata share of principal and interest on the Harris County Municipal Utility District No. 171 (the Master District) contract revenue bonds as described in Note 7.

Note 7. Financing and Operation of Regional Facilities

Effective June 8, 2015 and amended June 12, 2023, the District entered into a 40-year Contract for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities (the contract) with the Master District, which sets forth the general terms and conditions pursuant to which the districts share in the joint financing, operation, and use of certain water, sanitary sewer, storm drainage and detention, road and park facilities that serve the areas within the Master District's service area (the Regional Facilities). The Master District shall be the owner of the Regional Facilities constructed and acquired and will provide the services permitted by the contract to all participant districts that are in existence or will be created within the Master District's service area.

Under the terms of the contract, the Master District will charge the participants a monthly operational fee calculated by multiplying the unit cost per connection by the number of equivalent single-family residential connections reserved to each district. The Master District is to maintain an operation and maintenance reserve equivalent to three months of budgeted operation and maintenance expenses.

In addition, the Master District is authorized to issue contract revenue bonds sufficient to complete acquisition and construction of the water, sewer, drainage and road regional facilities as needed to serve all districts in the service area. Each participating district is obligated to pay its pro rata share of debt service requirements on the Master District's contract revenue bonds. With respect to regional recreational facilities, the participant districts will be required to pay the Master District for such facilities by paying park construction charges. During the current year, the District paid \$178,174 for its pro rata share (approximately 1.97%) of the 2024 principal and interest of the Master District's bonds with such sums derived from contract taxes as described in Note 6.

The debt service requirements on all of the Master District's Contract Revenue Bonds outstanding as of December 31, 2024, are as follows.

Harris County Municipal Utility District No. 458
Notes to Financial Statements
December 31, 2024

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 4,675,000	\$ 6,874,401	\$ 11,549,401
2026	6,455,000	6,545,884	13,000,884
2027	6,525,000	6,229,526	12,754,526
2028	6,595,000	5,913,856	12,508,856
2029	6,670,000	5,604,266	12,274,266
2030-2034	34,610,000	23,656,555	58,266,555
2035-2039	36,995,000	17,089,530	54,084,530
2040-2044	39,555,000	9,779,664	49,334,664
2045-2049	22,775,000	2,952,706	25,727,706
2050	1,980,000	79,200	2,059,200
Total	<u>\$ 166,835,000</u>	<u>\$ 84,725,588</u>	<u>\$ 251,560,588</u>

Based on the calculations provided by the Master District's financial advisor, the District's pro rata share of total 2024 assessed valuation is 5.23% and its pro rata share of the 2025 principal and interest requirements of the Master District's bonds is \$573,866.

Note 8. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Note 9. Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the Authority) which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of December 31, 2024, the Authority was billing the Master District \$3.95 per 1,000 gallons of water pumped from its wells, and the Master District is billing the District for its pro rata portion. This amount is subject to future adjustments.

Note 10. Economic Dependency

The District's developers own the majority of the taxable property in the District. The District's ability to meet its obligations is dependent on the developers' ability to pay property taxes.

Required Supplementary Information

**Harris County Municipal Utility District No. 458
 Budgetary Comparison Schedule – General Fund
 Year Ended December 31, 2024**

	Original Budget	Actual	Variance Favorable (Unfavorable)
Revenues			
Property taxes	\$ 280,442	\$ 439,542	\$ 159,100
Water service	6,000	57,412	51,412
Sewer service	3,500	19,946	16,446
Regional water fee	6,500	63,219	56,719
Penalty and interest	100	3,492	3,392

Harris County Municipal Utility District No. 458
Notes to Required Supplementary Information
December 31, 2024

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during 2024.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule - General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

Independent Auditor's Report

Board of Directors
Harris County Municipal Utility District No. 532
Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and the general fund of Harris County Municipal Utility District No. 532 (the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the District, as of December 31, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Forvis Mazars, LLP

**Houston, Texas

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the current year are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

Current and other assets	<u>\$ 261,265</u>
Long-term liabilities	\$ 310,000
Other liabilities	<u>26,087</u>
Total liabilities	<u>336,087</u>
Deferred inflows of resources	<u>212,398</u>
Net position:	
Unrestricted	<u>\$ (287,220)</u>

The total net position of the District decreased by \$84,060 or about 41%. The majority of the decrease in net position is related to service operations expenses exceeding property taxes and charges for services revenues.

Summary of Changes in Net Position

Revenues:		
Property taxes	\$	75,270
Charges for services		16,597
Other revenues		22,504
		<u>114,371</u>
Total revenues		<u>114,371</u>
Expenses:		
Services		160,871
Contractual obligation		37,560
		<u>198,431</u>
Total expenses		<u>198,431</u>
Change in net position		(84,060)
Net position, beginning of year		<u>(203,160)</u>
Net position, end of year	\$	<u><u>(287,220)</u></u>

Financial Analysis of the District's Fund

The general fund's fund balance increased by \$19,305, primarily due to developer advances received during the current year.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to property tax revenues being greater than expected and professional fees expenditures and developer advances received being less than expected. In addition, tap connection and inspection fees revenues and related expenditures and debt service contractual obligations expenditures were not included in the current year budget. The fund balance as of December 31, 2024, was expected to be \$3,427 and the actual end-of-year fund balance was \$22,732.

Debt

The changes in the debt position of the District during the fiscal year ended December 31, 2024, are summarized as follows:

Long-term debt payable, beginning of year	\$	210,000
Increases in long-term debt		100,000
		<u>310,000</u>
Long-term debt payable, end of year	\$	<u><u>310,000</u></u>

At December 31, 2024, the District had \$75,000,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District, \$19,000,000 of unlimited tax bonds authorized, but unissued, for the purposes of constructing park and recreational facilities and \$50,000,000 of unlimited tax bonds authorized, but unissued, for the purpose of constructing roads.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent if the City complies with the procedures and requirements of Chapter 43, Texas Local Government Code, as amended, which may include voter approval. If the District is annexed, the City must assume the District's assets and obligations (including the bond indebtedness) and the District, is dissolved.

Economic Dependency

The District's developers own the majority of the taxable property within the District. The District's ability to meet its obligations is dependent on the developer's ability to pay property taxes.

Since inception, the developer has advanced \$310,000 to the District for operations. The District does not have sufficient funds or anticipated revenues sufficient to liquidate these advances during the forthcoming fiscal year. These advances have been recorded as liabilities in the government-wide financial statements.

Contingencies

The developer of the District is constructing facilities on behalf of the District within the boundaries of the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds from future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction amounts are approximately \$16,221,000. This amount has not been recorded in the financial statements since the facilities are not complete or operational.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 532 (the District) was created by special act of the Texas Legislature, 83rd Legislative Session, pursuant to Senate Bill 1071, under the terms and provisions of Article XVI, Section 59 and Article III, Section 52, of the Constitution of Texas and Chapters 49 and 54, Texas Water Code, and Chapter 8443 Texas Special District Local Laws Code. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater, drainage, park, road and other facilities and to provide such facilities and services to the customers of the District. The District may also provide solid waste disposal services.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-Wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental fund. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental fund:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

Fund Balance – Governmental Fund

The fund balance for the District's governmental fund can be displayed in up to five components.

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental fund revenues, expenditures and changes in fund balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Any collections on the current year tax levy are deferred and recognized in the subsequent fiscal year. Current year revenues recognized are those taxes collected during the fiscal year for prior years' tax levies, plus any collections received during fiscal 2023 on the 2023 levy.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended December 31, 2024, the tax levied in October 2024 is recorded as receivable and deferred inflows of resources and will be considered earned during the fiscal year ending December 31, 2025. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets, with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45
Drainage facilities	10-45

The District conveys ownership of road and paving facilities constructed to another governmental entity upon completion for maintenance.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balance

Fund balance and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balance in the governmental fund balance sheet are different because:

Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund financial statements.	\$ 48
Long-term debt obligations are not due and payable in the current period and are not reported in the fund financial statements.	<u>(310,000)</u>
Adjustment to fund balance to arrive at net position.	<u><u>\$ (309,952)</u></u>

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balance in the governmental fund statement of revenues, expenditures and changes in fund balance because:

Change in fund balance.	\$ 19,305
Governmental funds report developer advances as other financing sources or uses as amounts are received or paid. However, for government-wide financial statements, these amounts are recorded as an increase or decrease in due to developer.	(100,000)
Revenues collected in the current year, which have previously been reported in the statement of activities, are reported as revenues in the governmental funds.	<u>(3,365)</u>
Change in net position of governmental activities.	<u><u>\$ (84,060)</u></u>

Note 2. Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At December 31, 2024, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in Texas CLASS, an external investment pool that is not registered with the Securities and Exchange Commission. A Board of Trustees, elected by the participants, has oversight of Texas CLASS. The District's investments may be redeemed at any time. Texas CLASS attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques and limits its investments in any issuer to the top two ratings issued by nationally recognized statistical rating organizations. The District's investments in Texas CLASS are reported at net asset value.

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

At December 31, 2024, the District had the following investments and maturities:

<u>Type</u>	<u>Maturities in Years</u>				
	<u>Fair Value</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More Than 10</u>
Texas CLASS	<u>\$ 2,763</u>	<u>\$ 2,763</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2024, the District's investments in Texas CLASS were rated "AAAm" by Standard and Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet and statement of net position at December 31, 2024, as follows:

Carrying value:	
Deposits	\$ 182,372
Investments	<u>2,763</u>
Total	<u>\$ 185,135</u>

Investment Income

Investment income of \$707 for the year ended December 31, 2024, consisted of interest income.

Fair Value Measurements

The District has the following recurring fair value measurements as of December 31, 2024:

- Pooled investments of \$2,763 are valued at fair value per share of the pool's underlying portfolio.

Note 3. Long-Term Liabilities

Changes in long-term liabilities for the year ended December 31, 2024, were as follows:

<u>Governmental Activities</u>	<u>Balances, Beginning of Year</u>	<u>Increases</u>	<u>Balances, End of Year</u>	<u>Amounts Due in One Year</u>
Developer advances	<u>\$ 210,000</u>	<u>\$ 100,000</u>	<u>\$ 310,000</u>	<u>\$ -</u>

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

Bonds voted:

Water, sewer and drainage facilities	\$ 75,000,000
Park and recreational facilities	19,000,000
Road facilities	50,000,000
Refunding bond authorization	144,000,000

Developer Advances

Since inception, the developer has advanced \$310,000 to the District for operations. The District does not have sufficient funds or anticipated revenues sufficient to liquidate these advances during the forthcoming year. These advances have been recorded as liabilities in the financial statements.

Note 4. Maintenance Taxes

At an election held May 7, 2022, voters authorized a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem maintenance tax at the rate of \$0.7200 per \$100 of assessed valuation, which resulted in a tax levy of \$101,951 on the taxable valuation of \$14,159,817 for the 2024 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

At an election held May 7, 2022, voters authorized a road facilities maintenance tax not to exceed \$0.25 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District did not levy an ad valorem road facilities maintenance tax.

Note 5. Contract Taxes

At an election held May 7, 2022, voters authorized the contract (as defined in Note 6) which requires the District to impose a contract tax on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem contract tax at the rate of \$0.7800 per \$100 of assessed valuation, which resulted in a tax levy of \$110,447 on the taxable valuation of \$14,159,817 for the 2024 tax year. This contract tax is used to pay for the District's pro rata share of principal and interest on the Harris County Municipal Utility District No. 171 (the Master District) contract revenue bonds as described in Note 6.

Note 6. Financing and Operation of Regional Facilities

Effective June 13, 2022 and as amended June 12, 2023, the District entered into a 40-year Contract for Financing, Operation, and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities (the contract) with the Master District, which sets forth the general terms and conditions pursuant to which the districts share in the joint financing, operation, and use of certain water, sanitary sewer, storm drainage and detention, road and park facilities that serve the areas within the Master District's service area (the Regional Facilities). The Master District shall be the owner of the Regional Facilities constructed and acquired and will provide the services permitted by the contract to all participant districts that are in existence or will be created within the Master District's service area.

Under the terms of the contract, the Master District will charge the participants a monthly operational fee calculated by multiplying the unit cost per connection by the number of equivalent single-family residential connections reserved to each district. The Master District is to maintain an operation and maintenance reserve equivalent to three months of budgeted operation and maintenance expenses.

In addition, the Master District is authorized to issue contract revenue bonds sufficient to complete acquisition and construction of the water, sewer, drainage and road regional facilities as needed to serve all districts in the service area. Each participating district is obligated to pay its pro rata share of debt service requirements on the Master

Harris County Municipal Utility District No. 532
Notes to Financial Statements
December 31, 2024

District's contract revenue bonds. With respect to regional recreational facilities, the participant districts will be required to pay the Master District for such facilities by paying park construction charges. During the current year, the District paid \$37,560 for its pro rata share (approximately 0.42%) of the 2024 principal and interest of the Master District's bonds with such sums derived from contract taxes as described in Note 5.

The debt service requirements on all of the Master District's Contract Revenue Bonds outstanding as of December 31, 2024, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 4,675,000	\$ 6,874,401	\$ 11,549,401
2026	6,455,000	6,545,884	13,000,884
2027	6,525,000	6,229,526	12,754,526
2028	6,595,000	5,913,856	12,508,856
2029	6,670,000	5,604,266	12,274,266
2030-2034	34,610,000	23,656,555	58,266,555
2035-2039	36,995,000	17,089,530	54,084,530
2040-2044	39,555,000	9,779,664	49,334,664
2045-2049	22,775,000	2,952,706	25,727,706
2050	1,980,000	79,200	2,059,200
Total	<u>\$ 166,835,000</u>	<u>\$ 84,725,588</u>	<u>\$ 251,560,588</u>

Based on the calculations provided by the Master District's financial advisor, the District's pro rata share of total 2024 assessed valuation is 0.72% and its pro rata share of the 2025 principal and interest requirements of the Master District's bonds is \$78,013.

Note 7. Regional Water Authority

The District is within the boundaries of the West Harris County Regional Water Authority (the Authority) which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of December 31, 2024, the Authority was billing the Master District \$3.95 per 1,000 gallons of water pumped from its wells, and the Master District is billing the District for its pro rata portion. This amount is subject to future adjustments.

Note 8. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Note 9. Economic Dependency

The District's developers own the majority of the taxable property in the District. The District's ability to meet its obligations is dependent on the developers' ability to pay property taxes.

Note 10. Contingencies

The developer of the District is constructing facilities on behalf of the District within the boundaries of the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds from future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction amounts are approximately \$16,221,000. This amount has not been recorded in the financial statements since the facilities are not complete or operational.

Notes to Required Supplementary Information
December 31, 2024

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during 2024.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule - General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

AUDIT REPORT EXEMPTION

Texas Water Code §49.198. AUDIT REPORT EXEMPTION (effective September 1, 2011)

§49.198(a) A district may elect to file annual financial reports with the executive director in lieu of the district's compliance with Section 49.191 provided:

§49.198(a)(1) The district had no bonds or other long-term (more than one year) liabilities outstanding during the fiscal period;

§49.198(a)(2) The district did not have gross receipts from operations, loans, taxes, or contributions in excess of \$250,000 during the fiscal period; and

§49.198(a)(3) The district's cash and temporary investments were not in excess of \$250,000 during the fiscal period.

§49.198(b) The annual financial report must be accompanied by an affidavit attesting to the accuracy and authenticity of the financial report signed by a duly authorized representative of the district.

§49.198(c) The annual financial report and affidavit in a format prescribed by the executive director must be on file with the executive director within 45 days after the close of the district's fiscal year.

§49.198(d) Districts governed by this section are subject to periodic audits by the executive director.

If the accompanying financial statements are compiled by a certified public accountant, see SSARS-1 and SSARS-7 for the applicable standards for reporting on compiled financial statements.

MISCELLANEOUS DISCLOSURES AND MAILING INFORMATION

as of the District's Fiscal Year-End

A. Disclosures to comply with Rule 30 TAC 293.95(b)

(1) Was there any developer activity to prepare for residential or commercial development? "Developer activity" means construction performed or actions taken in preparation for construction (i.e., plans, permits) to provide services for or access to present or future residential or commercial water, sewer or drainage facilities. Yes No

If yes, have payments for these facilities been made by (an) other party (ies) on behalf of the district? Yes No

These payments are estimated to cumulatively be:

Cost	Amount
Organization Costs	
Construction Costs	
Administration Cost	
Total Costs	

(2) Was the Board aware of any other types of contingent or actual liabilities (e.g., claims, lawsuits) which are not disclosed elsewhere in this report? Yes No

If yes, explain:

B. Disclosures to comply with V.T.C.A. Water Code §49.054(e) and §49.455(j). The Texas Commission on Environmental Quality must be notified of any changes in boundaries, board members, board terms, and addresses. Guidance for filing this information and a District Registration Form may be obtained by calling 512-239-4691.

C. Additional Information.

Independent Auditor's Report

Board of Directors
Harris County Municipal Utility District No. 534
Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No. 534 (the District), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of December 31, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from

error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	<u>2024</u>	<u>2023</u>
Current and other assets	\$ 10,061,992	\$ 5,403,465
Capital assets	11,179,257	7,710,561
Total assets	<u>\$ 21,241,249</u>	<u>\$ 13,114,026</u>
Long-term liabilities	\$ 58,506,062	\$ 45,950,805
Other liabilities	1,327,109	495,327
Total liabilities	<u>59,833,171</u>	<u>46,446,132</u>
Deferred inflows of resources	<u>5,533,873</u>	<u>3,244,217</u>
Net position:		
Net investment in capital assets	(5,119,298)	(2,791,478)
Restricted	28,166	17,071
Unrestricted	<u>(39,034,663)</u>	<u>(33,801,916)</u>
Total net position	<u>\$ (44,125,795)</u>	<u>\$ (36,576,323)</u>

The total net position of the District decreased by \$7,549,472, or about 21%. The majority of the decrease in net position is related to the conveyance of capital assets to another governmental entity for maintenance. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Summary of Changes in Net Position

	<u>2024</u>	<u>2023</u>
Revenues:		
Property taxes	\$ 3,233,174	\$ 711,692
Charges for services	1,314,690	797,440
Other revenues	2,326,803	700,813
Total revenues	<u>6,874,667</u>	<u>2,209,945</u>
Expenses:		
Services	3,104,148	2,193,859
Conveyance of capital assets	6,878,774	15,454,090
Depreciation	261,023	177,662
Debt service	2,532,919	1,565,600
Contractual obligation	1,647,275	340,875
Total expenses	<u>14,424,139</u>	<u>19,732,086</u>
Change in net position	(7,549,472)	(17,522,141)
Net position, beginning of year	<u>(36,576,323)</u>	<u>(19,054,182)</u>
Net position, end of year	<u>\$ (44,125,795)</u>	<u>\$ (36,576,323)</u>

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended December 31, 2024, were \$3,773,922, an increase of \$1,788,178 from the prior year.

The general fund's fund balance increased by \$1,381,985, primarily due to property taxes, services and tap connection and inspection fee revenues exceeding service operations expenditures.

The debt service fund's fund balance decreased by \$195,930, primarily due to bond principal and interest requirements and contractual obligations expenditures exceeding property tax revenues, investment and other income and proceeds received from the sales of the Series 2024 and Road Series 2024 bonds.

The capital projects fund's fund balance increased by \$602,123, due to net proceeds received from the sales of the Series 2024 and Road Series 2024 bonds exceeding repayment of developer advances, debt issuance costs and capital outlay expenditures.

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to water and sewer services and regional water fee revenues, tap connection and inspection fees revenues and related expenditures, and purchased services, regional water authority, solid

waste and repairs and maintenance expenditures being greater than anticipated, as well as professional fees expenditures being less than anticipated. In addition, investment income was not included in the budget. The fund balance as of December 31, 2024, was expected to be \$124,869 and the actual end-of-year fund balance was \$1,313,154.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

Capital Assets (Net of Accumulated Depreciation)

	<u>2024</u>	<u>2023</u>
Water facilities	\$ 4,922,827	\$ 2,821,749
Wastewater facilities	6,256,430	4,888,812
Total capital assets	<u>\$ 11,179,257</u>	<u>\$ 7,710,561</u>

During the current year, additions to capital assets were as follows:

Water and wastewater facilities to serve Elyson, Sections 37 - 43, 45, 48, 50 and 51	<u>\$ 3,729,719</u>
---	---------------------

The developer within the District has constructed facilities on behalf of the District under the terms of contracts with the District. The District has agreed to purchase these facilities from the proceeds of future bond issues, subject to the approval of the Commission, as applicable. As of December 31, 2024, a liability for developer-constructed capital assets of \$19,544,566 has been recorded in the government-wide financial statements.

Debt

The changes in the debt position of the District during the fiscal year ended December 31, 2024, are summarized as follows:

Long-term debt payable, beginning of year	\$ 45,950,805
Increases in long-term debt	23,217,735
Decreases in long-term debt	<u>(10,662,478)</u>
Long-term debt payable, end of year	<u>\$ 58,506,062</u>

At December 31, 2024, the District had \$97,000,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and \$115,000,000 of authorization for refunding such bonds, \$24,000,000 of unlimited tax bonds authorized, but unissued, for the purposes of constructing park and recreational facilities and \$24,000,000 of authorization for refunding such bonds and \$47,790,000 of unlimited tax road bonds authorized, but unissued, for the purpose of constructing roads and \$70,000,000 of authorization for refunding such bonds.

The District's bonds carry an underlying rating of "Baa3" from Moody's Investor Services. The Road Series 2022, Road Series 2023 and Series 2024 bonds carry a "AA" rating from Standard & Poor's by virtue of bond insurance issued by Build America Mutual Assurance Corporation. The Series 2023 and Road Series 2024 bonds carry a "AA" rating from Standard & Poor's by virtue of bond insurance issued by Assured Guaranty, Inc.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent if the City complies with the procedures and requirements of Chapter 43, Texas Local Government Code, as amended, which may include voter approval. If the District is annexed, the City must assume the District's assets and obligations (including the bond indebtedness) and the District is dissolved.

Contingencies

The developer of the District is constructing facilities on behalf of the District, within the boundaries of the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds of future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction amounts are approximately \$908,000. This amount has not been recorded in the financial statements since the facilities are not complete or operational.

Subsequent Event

On April 24, 2025, the District issued its Unlimited Tax Road Bonds, Series 2025, in the amount of \$4,370,000 at a net effective interest rate of approximately 4.559%. The bonds were sold to reimburse the developer for road construction projects within the District.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 534 (the District) was created by Senate Bill Number 1073 (the Bill) of the 83rd Session of the Texas Legislature, Regular Session, effective June 14, 2013, in accordance with the provision of Article III, Section 52, and Article XVI, Section 59, of the Texas Constitution. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code, Chapter 8438 of the Texas Special District Local Laws Code and is subject to the continuing supervision of the Texas Commission on Environmental Quality (the Commission). The principal functions of the District are to finance, construct, own and operate waterworks, wastewater, drainage, park, road and other facilities and to provide such facilities and services to the customers of the District. The District may also provide solid waste disposal services.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-Wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances – Governmental Funds

The fund balances for the District’s governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District’s Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are expected to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Any collections on the current year tax levy are deferred and recognized in the subsequent fiscal year. Current year revenues recognized are those taxes collected during the fiscal year for prior years' tax levies, plus any collections received during fiscal 2023 on the 2023 levy.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended December 31, 2024, the tax levied in October 2024 is recorded as receivable and deferred inflows of resources and will be considered earned during the fiscal year ending December 31, 2025. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets, with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives, as follows:

	<u>Years</u>
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 11,179,257
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund financial statements.	26,821
Accrued interest on long-term liabilities is not payable with current financial resources and is not reported in the funds.	(599,733)
Long-term debt obligations are not due and payable in the current period and are not reported in the fund.	<u>(58,506,062)</u>
Adjustment to fund balances to arrive at net position.	<u><u>\$ (47,899,717)</u></u>

Amounts reported for change in net position of governmental activities in the statement of activities are different from change in fund balances in the governmental funds statement of revenues, expenditures and changes in fund balances because:

Change in fund balances.	\$ 1,788,178
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expenditures exceeded conveyance of capital assets, depreciation expense and noncapitalized costs in the current period.	5,163,108
Governmental funds report developer advances as other financing sources or uses as amounts are received or paid. However, for government-wide financial statements, these amounts are recorded as an increase or decrease in due to developer.	238,500
Governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	347,500
Governmental funds report proceeds from the sale of bonds because they provide current financial resources to governmental funds. Principal payments on debt are recorded as expenditures. None of these transactions, however, have any affect on net position.	(14,805,000)

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	\$ (306,419)
Revenues that do not provide current financial resources are not reported as revenues for the funds but are reported as revenues in the statement of activities.	<u>24,661</u>
Change in net position of governmental activities.	<u><u>\$ (7,549,472)</u></u>

Note 2. Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government’s deposits may not be returned to it. The District’s deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At December 31, 2024, none of the District’s bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than “A,” insured or collateralized certificates of deposit, and certain bankers’ acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District’s investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not registered with the Securities and Exchange Commission. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool. The District’s investments in TexPool are reported at amortized cost.

At December 31, 2024, the District had the following investments and maturities:

<u>Type</u>	<u>Maturities in Years</u>				
	<u>Amortized Cost</u>	<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More Than 10</u>
TexPool	<u>\$ 3,565,482</u>	<u>\$ 3,565,482</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District’s investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At December 31, 2024, the District’s investments in TexPool were rated “AAAm” by Standard & Poor’s.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet and statement of net position at December 31, 2024, as follows:

Carrying value:		
Deposits	\$	1,783,882
Investments		<u>3,565,482</u>
Total	\$	<u><u>5,349,364</u></u>

Investment Income

Investment income of \$179,467 for the year ended December 31, 2024, consisted of interest income.

Note 3. Capital Assets

A summary of changes in capital assets for the year ended December 31, 2024, is presented below:

Governmental Activities	Balances, Beginning of Year	Additions	Balances, End of Year
Capital assets, depreciable:			
Water production and distribution facilities	\$ 2,923,113	\$ 2,215,503	\$ 5,138,616
Wastewater collection and treatment facilities	<u>5,063,479</u>	<u>1,514,216</u>	<u>6,577,695</u>
Total capital assets, depreciable	<u>7,986,592</u>	<u>3,729,719</u>	<u>11,716,311</u>
Less accumulated depreciation:			
Water production and distribution facilities	(101,364)	(114,425)	(215,789)
Wastewater collection and treatment facilities	<u>(174,667)</u>	<u>(146,598)</u>	<u>(321,265)</u>
Total accumulated depreciation	<u>(276,031)</u>	<u>(261,023)</u>	<u>(537,054)</u>
Total governmental activities, net	<u><u>\$ 7,710,561</u></u>	<u><u>\$ 3,468,696</u></u>	<u><u>\$ 11,179,257</u></u>

Annual Debt Service Requirements

The following schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds outstanding at December 31, 2024.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 665,000	\$ 1,892,170	\$ 2,557,170
2026	700,000	1,892,380	2,592,380
2027	910,000	1,843,031	2,753,031
2028	950,000	1,784,207	2,734,207
2029	995,000	1,722,731	2,717,731
2030-2034	5,750,000	7,758,157	13,508,157
2035-2039	7,310,000	6,320,413	13,630,413
2040-2044	9,270,000	4,450,481	13,720,481
2045-2049	11,750,000	2,055,406	13,805,406
2050	1,715,000	68,600	1,783,600
Total	<u>\$ 40,015,000</u>	<u>\$ 29,787,576</u>	<u>\$ 69,802,576</u>

Bonds voted:

Water, sewer and drainage facilities	\$ 115,000,000
Park and recreational facilities	24,000,000
Road facilities	70,000,000

Bonds sold:

Water, sewer and drainage facilities	18,000,000
Road facilities	22,210,000

Refunding bonds voted:

Water, sewer and drainage facilities	115,000,000
Park and recreational facilities	24,000,000
Road facilities	70,000,000

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

Due to Developer

The developer of the District has constructed facilities on behalf of the District. The District is maintaining and operating the facilities and has agreed to reimburse the developer for these construction costs and interest from the proceeds of future bond sales, to the extent approved by the Commission, as applicable. The District's engineer estimates reimbursable costs for completed projects are \$19,544,566. These amounts have been recorded in the financial statements as long-term liabilities.

Note 5. Significant Bond Resolution and Commission Requirements

- (A) The Bond Resolutions require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended December 31, 2024, the District levied an ad valorem debt service tax at the rate of \$0.1350 per \$100 of assessed valuation, which resulted in a tax levy of \$498,049 on the taxable valuation of \$368,924,904 for the 2024 tax year. The principal and interest requirements to be paid from tax revenues and available resources are \$1,002,464.
- (B) The Road Bond Resolutions require that the District levy and collect an ad valorem road debt service tax sufficient to pay principal and interest on road bonds when due. During the year ended December 31, 2024, the District levied an ad valorem road debt service tax at the rate of \$0.3750 per \$100 of assessed valuation, which resulted in a tax levy of \$1,383,468 on the taxable valuation of \$368,924,904 for the 2024 tax year. The principal and interest requirements to be paid from tax revenues and available resources are \$1,554,706.
- (C) In accordance with the Road Series 2022, Series 2023, Road Series 2023, Road Series 2024 and Series 2024 Bond Resolutions, a portion of the bond proceeds was deposited into the debt service fund and reserved for the payment of bond interest during the construction period. This bond interest reserve is reduced as the interest is paid.

Bond interest reserve, beginning of year		\$ 1,886,510
Additions--Interest appropriated from bond proceeds:		
Road Series 2024	\$ 307,875	
Series 2024	320,000	627,875
Deductions--Appropriation from bond interest paid,		
Road Series 2022		554,044
Series 2023		435,959
Road Series 2023		218,086
Road Series 2024		130,847
		1,338,936
		\$ 1,175,449

Note 6. Maintenance Taxes

At an election held November 3, 2020, voters authorized a maintenance tax not to exceed \$1.50 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem maintenance tax at the rate of \$0.2150 per \$100 of assessed valuation, which resulted in a tax levy of \$793,188 on the taxable valuation of \$368,924,904 for the 2024 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

At an election held November 3, 2020, voters authorized a road facilities maintenance tax not to exceed \$0.25 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended December 31, 2024, the District did not levy an ad valorem road facilities maintenance tax.

Note 7. Contract Taxes

At an election held November 3, 2020, voters authorized the contract (as defined in Note 8) which requires the District to impose a contract tax on all property within the District subject to taxation. During the year ended December 31, 2024, the District levied an ad valorem contract tax at the rate of \$0.7750 per \$100 of assessed valuation, which resulted in a tax levy of \$2,859,168 on the taxable valuation of \$368,924,904 for the 2024 tax year. This contract tax is used to pay for its pro rata share of principal and interest on the Harris County Municipal Utility District No. 171's (the Master District) contract revenue bonds as described in Note 8.

Note 8. Financing and Operation of Regional Facilities

Effective January 11, 2021, and amended on June 12, 2023, the District entered into a 40-year Contract for Financing, Operation and Maintenance of Regional Water, Sanitary Sewer, Storm Sewer, Park, Road and Other Facilities (the contract) with the Master District, which sets forth the general terms and conditions pursuant to which the districts share in the joint financing, operation, and use of certain water, sanitary sewer, storm drainage and detention, road and park facilities that serve the areas within the Master District's service area (the Regional Facilities). The Master District shall be the owner of the Regional Facilities constructed and acquired and will provide the services permitted by the contract to all participant districts that are in existence or will be created within the Master District's service area.

Under the terms of the contract, the Master District will charge the participants a monthly operational fee calculated by multiplying the unit cost per connection by the number of equivalent single-family residential connections reserved to each district. The Master District is to maintain an operation and maintenance reserve equivalent to three months of budgeted operation and maintenance expenses.

In addition, the Master District is authorized to issue contract revenue bonds sufficient to complete acquisition and construction of the water, sewer, drainage and road regional facilities as needed to serve all districts in the service area. Each participating district is obligated to pay its pro rata share of debt service requirements on the Master District's contract revenue bonds. With respect to regional recreational facilities, the participant districts will be required to pay the Master District for such facilities by paying park construction charges.

Harris County Municipal Utility District No. 534
Notes to Financial Statements
December 31, 2024

The debt service requirements on all of the Master District's Contract Revenue Bonds outstanding as of December 31, 2024, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 4,675,000	\$ 6,874,401	\$ 11,549,401
2026	6,455,000	6,545,884	13,000,884
2027	6,525,000	6,229,526	12,754,526
2028	6,595,000	5,913,856	12,508,856
2029	6,670,000	5,604,266	12,274,266
2030-2034	34,610,000	23,656,555	58,266,555
2035-2039	36,995,000	17,089,530	54,084,530
2040-2044	39,555,000	9,779,664	49,334,664
2045-2049	22,775,000	2,952,706	25,727,706
2050	1,980,000	79,200	2,059,200
Total	<u>\$ 166,835,000</u>	<u>\$ 84,725,588</u>	<u>\$ 251,560,588</u>

Based on the calculations provided by the Master District's financial advisor, the District's pro rata share of total 2024 assessed valuation is 26.38% and its pro rata share of the 2025 principal and interest requirements of the Master District's bonds is \$2,893,283.

Note 9. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Note 10. Contingencies

The developer of the District is constructing facilities on behalf of the District, within the boundaries of the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds of future bond sales, to the extent approved by the Commission, as applicable. The District's engineer has stated that current construction amounts are approximately \$908,000. This amount has not been recorded in the financial statements since the facilities are not complete or operational.

Note 11. Subsequent Event

On April 24, 2025, the District issued its Unlimited Tax Road Bonds, Series 2025, in the amount of \$4,370,000 at a net effective interest rate of approximately 4.559%. The bonds were sold to reimburse the developer for road construction projects within the District.

Required Supplementary Information

**Harris County Municipal Utility District No. 534
 Budgetary Comparison Schedule – General Fund
 Year Ended December 31, 2024**

	<u>Original Budget</u>	<u>Actual</u>	<u>Variance Favorable (Unfavorable)</u>
Revenues			
Property taxes	\$ 1,057,000	\$ 1,069,873	\$ 12,873
Water service	180,000	326,651	146,651

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during 2024.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule - General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

Harris County Municipal Utility District No. 534
Schedule of Services and Rates
Year Ended December 31, 2024

1. Services provided by the District:

<input checked="" type="checkbox"/> Retail Water	<input type="checkbox"/> Wholesale Water	<input checked="" type="checkbox"/> Drainage
<input checked="" type="checkbox"/> Retail Wastewater	<input type="checkbox"/> Wholesale Wastewater	<input type="checkbox"/> Irrigation
<input checked="" type="checkbox"/> Parks/Recreation	<input type="checkbox"/> Fire Protection	<input type="checkbox"/> Security
<input checked="" type="checkbox"/> Solid Waste/Garbage	<input type="checkbox"/> Flood Control	<input checked="" type="checkbox"/> Roads
<input checked="" type="checkbox"/> Participates in joint venture, regional system and/or wastewater service (other than emergency interconnect)		
<input type="checkbox"/> Other _____		

2. Retail service providers

a. Retail rates for a 5/8" meter (or equivalent):

	<u>Minimum Charge</u>	<u>Minimum Usage</u>	<u>Flat Rate Y/N</u>	<u>Rate Per 1,000 Gallons Over Minimum</u>	<u>Usage Levels</u>	
Water:	<u>\$ 15.00</u>	<u>10,000</u>	<u>N</u>	<u>\$ 1.25</u>	<u>10,001</u>	to <u>15,000</u>
				<u>\$ 1.50</u>	<u>15,001</u>	to <u>30,000</u>
				<u>\$ 2.00</u>	<u>30,001</u>	to <u>40,000</u>
				<u>\$ 2.50</u>	<u>40,001</u>	to <u>No Limit</u>
Wastewater:	<u>\$ 39.12</u>	<u>-</u>	<u>Y</u>			
Regional water fee:	<u>\$ 4.15</u>	<u>1,000</u>	<u>N</u>	<u>\$ 4.15</u>	<u>1,001</u>	to <u>No Limit</u>
Does the District employ winter averaging for wastewater usage?					Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
Total charges per 10,000 gallons usage (including fees):			Water	<u>\$ 56.50</u>	Wastewater	<u>\$ 39.12</u>

b. Water and wastewater retail connections:

<u>Meter Size</u>	<u>Total Connections</u>	<u>Active Connections</u>	<u>ESFC Factor</u>	<u>Active ESFC*</u>
Unmetered	<u>-</u>	<u>-</u>	x1.0	<u>-</u>
≤ 3/4"	<u>832</u>	<u>827</u>	x1.0	<u>827</u>
1"	<u>324</u>	<u>321</u>	x2.5	<u>803</u>
1 1/2"	<u>2</u>	<u>2</u>	x5.0	<u>10</u>
2"	<u>36</u>	<u>36</u>	x8.0	<u>288</u>
