

PRELIMINARY OFFICIAL STATEMENT DATED MAY 20, 2026

THIS PRELIMINARY OFFICIAL STATEMENT is subject to completion and amendment and is intended solely for the solicitation of initial bids to purchase the Bonds. Upon sale of the Bonds, the OFFICIAL STATEMENT will be completed and delivered to the Underwriter.

IN THE OPINION OF BOND COUNSEL, THE BONDS ARE VALID OBLIGATIONS OF MONTGOMERY COUNTY MUNICIPAL WATER CONTROL AND IMPROVEMENT DISTRICT NO. 205, AND INTEREST ON THE BONDS IS EXCLUDABLE FROM GROSS INCOME FOR PURPOSES OF FEDERAL INCOME TAXATION UNDER STATUTES, REGULATIONS, PUBLISHED RULINGS AND COURT DECISIONS EXISTING ON THE DATE OF SUCH OPINION SUBJECT TO THE MATTERS DESCRIBED UNDER "LEGAL MATTERS" HEREIN, INCLUDING THE ALTERNATIVE MINIMUM TAX ON CERTAIN CORPORATIONS. SEE "LEGAL MATTERS" HEREIN FOR A DISCUSSION OF THE OPINION OF BOND COUNSEL.

THE BONDS WILL BE DESIGNATED "QUALIFIED TAX-EXEMPT OBLIGATIONS" FOR FINANCIAL INSTITUTIONS. SEE "LEGAL MATTERS—QUALIFIED TAX-EXEMPT OBLIGATIONS."

NEW ISSUE-BOOK-ENTRY-ONLY

\$5,125,000

MONTGOMERY COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 205
(A political subdivision of the State of Texas located within Montgomery County)
UNLIMITED TAX BONDS
SERIES 2026

Dated Date: July 1, 2026

Interest Accrual Date: Date of Delivery

Due: September 1, as shown below

The \$5,125,000 Unlimited Tax Bonds, Series 2026 (the "Bonds") are being issued by Montgomery County Water Control and Improvement District No. 205 (the "District"). Principal of the Bonds is payable at maturity or prior redemption. Interest on the Bonds accrues from the initial date of delivery (the "Date of Delivery," expected on or about July 21, 2026), and is payable on March 1, 2027. Thereafter, interest on the Bonds accrues from the most recent interest payment date and is payable on each September 1 and March 1 until maturity or prior redemption. The Bonds will be issued only in fully registered form in denominations of \$5,000 each or integral multiples thereof. The Bonds mature and are subject to redemption prior to their maturity as shown below.

The Bonds will be registered and delivered only in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Bonds. Beneficial Owners (as defined herein under "BOOK-ENTRY-ONLY SYSTEM.") of the Bonds will not receive physical certificates representing the Bonds, but will receive a credit balance on the books of the DTC participants. So long as Cede & Co. is the registered owner of the Bonds, the principal of and interest on the Bonds will be paid by the paying agent/registrars, initially The Bank of New York Mellon Trust Company, N.A. in Houston, Texas (the "Paying Agent/Registrar"), directly to DTC, which will, in turn, remit such principal and interest to its participants for subsequent disbursement to the Beneficial Owners. See "BOOK-ENTRY-ONLY SYSTEM."

MATURITY SCHEDULE

210,000	2040 (b)								

- (a) The Underwriter (hereinafter defined) may designate one or more maturities as term bonds. See accompanying "OFFICIAL NOTICE OF SALE" and "OFFICIAL BID FORM."
- (b) Bonds maturing on or after September 1, 2033, are subject to redemption at the option of the District prior to their maturity dates in whole, or from time to time, in part, on September 1, 2032, or on any date thereafter, at a price of par plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption. See "THE BONDS—Redemption Provisions."
- (c) Initial Reoffering Yield represents the initial offering yield to the public, which will be established by the Underwriter for offers to the public and which subsequently may be changed.
- (d) CUSIP Numbers will be assigned to the Bonds by CUSIP Global Services and are included solely for the convenience of the purchasers of the Bonds. Neither the District nor the Underwriter shall be responsible for the selection or correctness of the CUSIP Numbers set forth herein.

The Bonds, when issued, will constitute valid and legally binding obligations of the District and will be payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District, as further described herein. The Bonds are obligations solely of the District and are not obligations of the State of Texas, Montgomery County, the City of Conroe or any entity other than the District. **INVESTMENT IN THE BONDS IS SUBJECT TO SPECIAL RISK FACTORS DESCRIBED HEREIN.** See "RISK FACTORS."

The Bonds are offered when, as and if issued by the District, subject, among other things, to the approval of the Bonds by the Attorney General of Texas and the approval of certain legal matters by Schwartz, Page & Harding, L.L.P., Houston, Texas, Bond Counsel. Delivery of the Bonds in book-entry form through DTC is expected on or about July 21, 2026.

Bids Due: Wednesday, June 17, 2026, at 9:30 A.M., Houston, Texas Time, in Houston, Texas
Bid Award: Wednesday, June 17, 2026, at 11:00 A.M., Houston, Texas Time, in Houston, Texas

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

USE OF INFORMATION IN OFFICIAL STATEMENT

For purpose of compliance with Rule 15c2-12 of the United States Securities and Exchange Commission (the “SEC”), as amended and in effect on the date hereof, this document constitutes an OFFICIAL STATEMENT of the District with respect to the Bonds that has been deemed “final” by the District as of its date except for the omission of no more than the information permitted by SEC Rule 15c2-12.

No dealer, broker, salesman or other person has been authorized to give any information or to make any representations other than those contained in this OFFICIAL STATEMENT, and, if given or made, such other information or representations must not be relied upon as having been authorized by the District.

This OFFICIAL STATEMENT is not to be used in an offer to sell or the solicitation of an offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

All of the summaries of the statutes, resolutions, orders, contracts, audited financial statements, engineering and other related reports set forth in this OFFICIAL STATEMENT are made subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents, copies of which are available from Schwartz, Page & Harding, L.L.P., Bond Counsel, 1300 Post Oak Boulevard, Suite 2400, Houston, Texas, 77056, upon payment of the costs of duplication thereof.

References to web site addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader’s convenience. Unless specified otherwise, such web sites and the information or links contained therein are not incorporated into, and are not part of, this OFFICIAL STATEMENT for purposes of, and as that term is defined in, SEC Rule 15c2-12, as amended.

This OFFICIAL STATEMENT contains, in part, estimates, assumptions and matters of opinion which are not intended as statements of fact, and no representation is made as to the correctness of such estimates, assumptions or matters of opinion, or as to the likelihood that they will be realized. Any information and expressions of opinion herein contained are subject to change without notice, and neither the delivery of this OFFICIAL STATEMENT nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. However, the District has agreed to keep this OFFICIAL STATEMENT current by amendment or sticker to reflect material changes in the affairs of the District and, to the extent that information actually comes to its attention, the other matters described in this OFFICIAL STATEMENT until delivery of the Bonds to the Underwriter (hereafter defined) and thereafter only as specified in “PREPARATION OF OFFICIAL STATEMENT—Updating the Official Statement.”

SALE AND DISTRIBUTION OF THE BONDS

Award of the Bonds

After requesting competitive bids for the Bonds, the District accepted the bid resulting in the lowest net effective interest rate, which bid was tendered by _____ (the “Underwriter”), paying the interest rates shown on the cover page hereof, at a price of _____% of the principal amount thereof which resulted in a net effective interest rate of _____% as calculated pursuant to Chapter 1204, Texas Government Code, as amended (the IBA method).

Prices and Marketability

Information concerning initial reoffering yields or prices is the responsibility of the Underwriter.

Except as otherwise described in the OFFICIAL NOTICE OF SALE under “DELIVERY OF THE BONDS AND ACCOMPANYING DOCUMENTS—Establishing the Issue Price of the Bonds,” the prices and other terms with respect to the offering and sale of the Bonds may be changed from time-to-time by the Underwriter after the Bonds are released for sale, and the Bonds may be offered and sold at prices other than the initial offering prices, including sales to dealers who may sell the Bonds into investment accounts. In connection with the offering of the Bonds, the Underwriter may over-allot or effect transactions which stabilize or maintain the market prices of the Bonds at levels above those which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time.

The District has no control over trading of the Bonds in the secondary market. Moreover, there is no guarantee that a secondary market will be made in the Bonds. In such a secondary market, the difference between the bid and asked price of the Bonds may be greater than the difference between the bid and asked price of bonds of comparable maturity and quality issued by more traditional municipal entities, as bonds of such entities are more generally bought, sold or traded in the secondary market.

Securities Laws

No registration statement relating to the offer and sale of the Bonds has been filed with the Securities and Exchange Commission under the Securities Act of 1933, as amended, in reliance upon the exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein and the Bonds have not been registered or qualified under the securities laws of any other jurisdiction. The District assumes no responsibility for registration or qualification of the Bonds under the securities laws of any other jurisdiction in which the Bonds may be offered, sold or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions in such other jurisdiction.

OFFICIAL STATEMENT SUMMARY

The following is a brief summary of certain information contained herein which is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this OFFICIAL STATEMENT. The summary should not be detached and should be used in conjunction with more complete information contained herein. A full review should be made of the entire OFFICIAL STATEMENT and of the documents summarized or described therein.

THE DISTRICT

Description...

The District is a political subdivision of the State of Texas, created by Chapter 120 (Senate Bill 2182), an Act of the 87th Legislature, Regular Session, 2021, codified as Chapter 9082 of the Texas Special District Local Laws Code, (the “Act”). The creation of the District was confirmed at an election held within the District on May 7, 2022. The District operates pursuant to the Act, as amended, and pursuant to Section 52, Article III, and Section 59, Article XVI, of the Texas Constitution, Chapters 49 and 51 of the Texas Water Code, as amended. On November 19, 2025, the District annexed approximately 61.596 acres into the boundaries of the District and excluded approximately 12.48 acres from the boundaries of the District. The District currently includes approximately 1,014 acres of land within its boundaries. See “THE DISTRICT.”

Location...

The District is located approximately 25 miles north of the City of Houston central business district and approximately 14 miles southeast of the City of Conroe. The District is accessed from Texas State Highway 99 (the “Grand Parkway”) and Lexington Boulevard and is bounded on the north by undeveloped property and the Grand Parkway, on the west by Montgomery County Municipal Utility District No. 105 (“MUD 105”), and on the south and east by undeveloped property. The District is located within the extraterritorial jurisdiction of the City of Conroe and within the boundaries of Conroe Independent School District. See “THE DISTRICT” and “AERIAL LOCATION MAP.”

Woodson’s Reserve...

The District is part of the master-planned community of Woodson’s Reserve, currently consisting of the District, MUD 105, Montgomery County MUD No. 152A (“MUD 152A”), Montgomery County MUD No. 152B (“MUD 152B”), and Montgomery County MUD No. 152C (“MUD 152C” or the “Master District”). The District includes approximately 547 acres within the boundaries of MUD 152A, approximately 451 acres within the boundaries of MUD 152B, and approximately 16 acres within the boundaries of MUD 152C. Currently, development is occurring in the District within MUD 152A and MUD 152B. The development of Woodson’s Reserve is planned by the Developer (defined below) to ultimately encompass approximately 1,752 acres. See “RISK FACTORS—Overlapping Debt and Taxes,” “WOODSON’S RESERVE” and “THE DISTRICT.”

The Developer...

TPHTL HBL, LLC, a Delaware limited liability company (the “Developer”) is the developer of the District. The Developer is a joint venture between Toll Brothers, Inc., a Delaware corporation (“Toll Brothers”) and Tri Pointe Homes, Inc., a Delaware corporation (“Tri Pointe”). Toll Brothers and Tri Pointe are public companies whose stock is currently traded on the New York Stock Exchange under the symbol TOL and TPH, respectively. On April 16, 2026, shareholders of Tri Pointe approved an agreement with Sumitomo Forestry Co., Ltd. (“Sumitomo”), a Japanese corporation listed and traded on the Tokyo Stock Exchange, and Teton NewCo, Inc. (“Teton NewCo”), a Delaware corporation and an indirectly wholly owned subsidiary of Sumitomo, providing for the merger of Teton NewCo and Tri Pointe, with Tri Pointe continuing as the surviving corporation. The merger is expected to close in the second quarter of 2026. Upon consummation of the merger, Tri Pointe common stock will be de-registered under the Securities Exchange Act of 1934 and will no longer be listed and traded on the New York Stock Exchange or any other public exchange, and Tri Pointe will continue to operate as a wholly owned subsidiary of Sumitomo. See “THE DEVELOPER.”

Status of Development...

Underground utilities and paving are complete for 1,056 single-family residential lots (approximately 297 acres) in the District. Additionally, 53 single-family residential lots are under construction on approximately 20 acres with expected completion by the third quarter of 2026, and an additional 96 single-family residential lots are under construction on approximately 26 acres with expected completion by the fourth quarter of 2026. As of May 20, 2026, 567 homes were complete (555 homes were occupied, 2 unoccupied, and 10 model homes), 168 homes were under construction or in the name of the Builders (as defined herein) and 321 developed lots were available for home construction.

Two Conroe Independent School District Elementary Schools and one Junior High School, which are not subject to ad valorem taxation by the District, have been constructed on approximately 75 acres within the District. An additional approximately 16 acres within the District are planned for future Conroe Independent School District facilities.

A recreation center has been constructed on approximately 8 acres within the District. Grand Oaks retail center has been developed on approximately 8 acres within the District and includes a veterinary office, a sandwich shop, and a dental office with additional retail spaces available for lease. The remainder of the District is comprised of approximately 356 acres that are not developable (amenity/detention facilities, pipeline easements, street right-of-way, drill sites and utility sites), and approximately 208 developable acres that have not been provided with utility service (excluding approximately 46 acres under construction for the development of 149 single-family residential lots). See “THE DISTRICT—Land Use,” “—Status of Development,” and “—Future Development.”

The Builders...

Homebuilders actively building homes in the District include Toll Southwest LLC and Tri Pointe Homes Texas, Inc. (the “Builders”). According to the Developer, new homes in the District are being offered for sale at prices ranging from approximately \$405,000 to over \$1,200,000. See “THE DISTRICT—Homebuilding.”

*Water and Wastewater
Facilities...*

Internal water, sanitary sewer and drainage facilities have been constructed by the Developer on behalf of MUD 152A and MUD 152B within their respective boundaries and within the boundaries of the District to serve the development described herein. Regional water and wastewater supply for the development within the District’s boundaries is provided by regional facilities owned and operated by the Master District, in its capacity as the regional provider of water and wastewater service. Water supply is currently provided by phase one of a recently constructed water supply plant owned and operated by the Master District. The Master District has purchased wastewater capacity for the development within the District, which capacity is provided in the wastewater treatment plant that is located within the boundaries of MUD 105 and owned and operated by MUD 105. See “WATER, WASTEWATER AND DRAINAGE.”

Roads...

The District is constructing a collector road system (the “Roads”) to serve the residents of the District by providing access to the major thoroughfares within Woodson’s Reserve and the surrounding area. Lexington Boulevard and Woodbridge Cove Drive are collector streets providing access to the local streets within the currently constructed development. Lexington Boulevard provides access to the District from the existing Woodson’s Reserve development. See “ROADS.”

Storm Drainage...

The District provides or will provide amenity/detention facilities and major road, drainage, and channel improvements to serve the land within its boundaries. See “USE AND DISTRIBUTION OF BOND PROCEEDS” and “MAJOR CHANNEL AND DETENTION IMPROVEMENTS.”

*Overlapping Debt
Obligations...*

All of the land within the District is included within the boundaries of either MUD 152A, MUD 152B, or MUD 152C and is currently subject to taxation or will be in the future by either MUD 152A or MUD 152B. MUD 152A levied a 2025 tax rate in the amount of \$1.10 per \$100 of taxable assessed valuation comprised of \$0.62 per \$100 of taxable assessed valuation for debt service and \$0.48 per \$100 of taxable assessed valuation for maintenance and operations. MUD 152A has previously issued a total of \$10,075,000 in aggregate principal amount of unlimited tax bonds for road facilities and \$23,000,000 in aggregate principal amount of unlimited tax bonds for water, sanitary sewer and drainage facilities, \$32,760,000 of which remains outstanding as of the date hereof. MUD 152A expects to issue approximately \$22,000,000 principal amount of unlimited tax bonds in the third quarter of 2026. MUD 152B has not issued any debt as of the date hereof and levied a 2025 tax rate in the amount of \$1.10 per \$100 of taxable assessed valuation. MUD 152B expects to issue approximately \$4,500,000 principal amount of unlimited tax road bonds in the fourth quarter of 2026. MUD 152C has not issued any debt or levied a tax rate to date. The District’s 2025 tax rate, in combination with the 2025 tax rate of MUD 152A or MUD 152B is \$1.45 per \$100 of taxable assessed valuation. See “RISK FACTORS—Overlapping Debt and Taxes.”

Payment Record...

The District has previously issued \$7,100,000 principal amount of unlimited tax bonds in one series for water, sanitary sewer and drainage facilities, and \$1,850,000 principal amount of unlimited tax bonds in one series for roads, all of which remains outstanding (the “Outstanding Bonds”) as of the date hereof. See “FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Outstanding Bonds.” Twenty-Four (24) months of interest was capitalized from proceeds of the Series 2024 Bonds and the Series 2025 Road Bonds. The District will capitalize twelve (12) months of interest from the proceeds of the Bonds. See “USE AND DISTRIBUTION OF BOND PROCEEDS.” The District has never defaulted on its outstanding debt obligations.

THE BONDS

<i>Description...</i>	The \$5,125,000 Unlimited Tax Bonds, Series 2026 (the “Bonds”) are being issued as fully registered bonds pursuant to an order (the “Bond Order”) authorizing the issuance of the Bonds adopted by the District’s Board of Directors. The Bonds are scheduled to mature serially on September 1 in each of the years 2029 through 2051, both inclusive. The Bonds will be issued in book-entry form only in denominations of \$5,000 or integral multiples of \$5,000. Interest on the Bonds accrues from the Date of Delivery, and is payable on March 1, 2027. Thereafter, interest on the Bonds accrues from the most recent interest payment date and is payable on each September 1 and March 1 until maturity or prior redemption. See “THE BONDS.”
<i>Book-Entry-Only System...</i>	The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond will be issued for each maturity of the Bonds and will be deposited with DTC or its designee. See “BOOK-ENTRY-ONLY SYSTEM.”
<i>Redemption...</i>	Bonds maturing on or after September 1, 2033, are subject to redemption at the option of the District in whole, or from time to time in part, prior to their maturity dates on September 1, 2032, or on any date thereafter, at a price of par plus unpaid accrued interest from the most recent interest payment date to the date fixed for redemption. See “THE BONDS—Redemption Provisions.”
<i>Use of Proceeds for the Bonds...</i>	Proceeds of the Bonds will be used to pay for engineering and construction costs associated with drainage facilities as shown herein under the heading “USE AND DISTRIBUTION OF BOND PROCEEDS.” In addition, Bond proceeds will be used to capitalize twelve (12) months of interest on the Bonds; and to pay interest on funds advanced by the Developer on behalf of the District, engineering fees, administrative costs, and certain costs related to the issuance of the Bonds. See “USE AND DISTRIBUTION OF BOND PROCEEDS”
<i>Authority for Issuance...</i>	The Bonds are the second series of bonds issued out of an aggregate of \$90,843,000 principal amount of unlimited tax bonds authorized by the District’s voters for the purpose of acquiring or constructing drainage facilities. The Bonds are issued by the District pursuant to Article XVI, Section 59 of the Texas Constitution, the general laws of the State of Texas, including, without limitation, Chapters 49 and 51 of the Texas Water Code, as amended, an election held within the District, an order of the Texas Commission on Environmental Quality (the “TCEQ”) approving the issuance of the Bonds, and the Bond Order. See “RISK FACTORS—Future Debt,” “THE BONDS—Authority for Issuance,” “—Issuance of Additional Debt,” and “—Financing Recreational Facilities.”
<i>Source of Payment...</i>	Principal of and interest on the Bonds are payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District. The Bonds are obligations of the District and are not obligations of the State of Texas, Montgomery County, the City of Conroe, or any entity other than the District. See “THE BONDS—Source and Security for Payment” and “—Funds.”
<i>Municipal Bond Rating and Municipal Bond Insurance...</i>	The District has not applied for an underlying rating nor is it expected that the District would have received an investment grade rating had such application been made. The District has submitted applications to two municipal bond insurers for a contract for municipal bond insurance on the Bonds. The purchase of such insurance for the Bonds is at the Underwriter’s option and expense. See “RISK FACTORS—Risk Factors Related to the Purchase of Municipal Bond Insurance.”
<i>Qualified Tax-Exempt Obligations...</i>	The District will designate the Bonds as “qualified tax-exempt obligations” pursuant to Section 265(b) of the Internal Revenue Code of 1986, as amended. See “LEGAL MATTERS—Qualified Tax-Exempt Obligations.”
<i>Bond Counsel...</i>	Schwartz, Page & Harding, L.L.P., Houston, Texas. See “MANAGEMENT OF THE DISTRICT—District Consultants” and “LEGAL MATTERS.”
<i>Financial Advisor...</i>	Masterson Advisors LLC, Houston, Texas. See “MANAGEMENT OF THE DISTRICT—District Consultants.”

Disclosure Counsel... McCall, Parkhurst & Horton L.L.P., Houston, Texas. See “MANAGEMENT OF THE DISTRICT—District Consultants.”

Paying Agent/Registrar... The Bank of New York Mellon Trust Company, N.A., Houston, Texas. See “THE BONDS—Method of Payment of Principal and Interest.”

RISK FACTORS

The purchase and ownership of the Bonds are subject to special investment considerations and all prospective purchasers are urged to examine carefully this entire OFFICIAL STATEMENT with respect to the investment security of the Bonds, including particularly the section captioned “RISK FACTORS.”

- (a) As Certified by the Montgomery Central Appraisal District. See “TAXING PROCEDURES.”
- (b) Provided by the Montgomery Central Appraisal District as a preliminary indication of the 2026 taxable value (as of January 1, 2026). Such amount is subject to review and downward adjustment prior to certification. No tax will be levied on such amount until it is certified. See “TAX PROCEDURES.”
- (c) As provided by the Montgomery Central Appraisal District. Such amount is only an estimate of the taxable assessed value on May 1, 2026, and may be revised upward or downward once certified by the Montgomery Central Appraisal District. Increases in value occurring between January 1, 2026 and May 1, 2026, will be certified as of January 1, 2027. See “TAXING PROCEDURES.”
- (d) See “FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Estimated Overlapping Debt,” “—Overlapping Taxes,” and “RISK FACTORS—Overlapping Debt and Taxes.”
- (e) Although all of the District’s debt, including the Outstanding Bonds and the Bonds, is payable from an unlimited tax pledge on an equal basis, a pro rata portion of the District’s ad valorem tax revenue will be allocated to bonds sold for drainage facilities including the Bonds, and a pro rata portion will be allocated to bonds sold for road facilities. The Debt Service Fund balance includes capitalized interest from the Outstanding Bonds. See “THE BONDS—Funds.”
- (f) The District will capitalize twelve (12) months of interest on the Bonds. The amount above is estimated at 4.75%. See “THE BONDS—Funds” and “USE AND DISTRIBUTION OF BOND PROCEEDS.”
- (g) See “RISK FACTORS—Operating Funds.”
- (h) Represents surplus construction funds, and interest thereon, derived from the Outstanding Bonds and includes \$290,824 in surplus funds to be applied in connection with the Bonds. The Bonds, if, as and when issued, may produce additional surplus funds. Surplus funds for construction may be expended for any lawful purpose for which surplus funds may be used, limited, however, to the purposes for which the issue of the Outstanding Bonds which produced the surplus funds were issued. Under certain circumstances, the approval of the TCEQ is required for the use of surplus funds derived from Bonds. See “USE AND DISTRIBUTION OF BOND PROCEEDS.”
- (i) See “TAX DATA—Tax Rate Distribution.”

PRELIMINARY OFFICIAL STATEMENT

MONTGOMERY COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 205 *(A political subdivision of the State of Texas located within Montgomery County)*

\$5,125,000 UNLIMITED TAX BONDS SERIES 2026

This OFFICIAL STATEMENT provides certain information in connection with the issuance by Montgomery County Water Control and Improvement District No. 205 (the “District”) of its \$5,125,000 Unlimited Tax Bonds, Series 2026 (the “Bonds”).

The Bonds are issued by the District pursuant to Article XVI, Section 59 of the Texas Constitution, the general laws of the State of Texas, including, without limitation, Chapters 49 and 51 of the Texas Water Code, as amended, an election held within the District, an order of the Texas Commission on Environmental Quality (the “TCEQ”) approving the issuance of the Bonds, and an order authorizing the issuance of the Bonds (the “Bond Order”) adopted by the Board of Directors of the District (the “Board”).

This OFFICIAL STATEMENT includes descriptions, among others, of the Bonds and the Bond Order, and certain other information about the District, TPHTL HBL, LLC, a Delaware limited liability company (the “Developer”), Toll Southwest LLC and Tri Pointe Homes Texas (the “Builders”) and development activity in the District. All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each document. The Bond Order authorizes the issuance and sale of the Bonds and prescribes the terms, conditions and provisions for the payment of the principal of an interest on the Bonds by the District. Copies of certain of the documents may be obtained from Schwartz, Page & Harding, L.L.P., Bond Counsel, 1300 Post Oak Boulevard, Suite 2400, Houston, Texas 77056, upon payment of duplication costs therefor.

THE BONDS

General

The following is a description of some of the terms and conditions of the Bonds, which description is qualified in its entirety by reference to the Bond Order, a copy of which is available from Bond Counsel upon payment of the costs of duplication therefor. The Bond Order authorizes the issuance and sale of the Bonds and prescribes the terms, conditions and provisions for the payment of the principal of and interest on the Bonds by the District.

Description

The Bonds will be dated July 1, 2026, with interest payable on March 1, 2027, and on each September 1 and March 1 thereafter (each an “Interest Payment Date”) until the earlier of maturity or redemption. Interest on the Bonds initially accrues from the date of delivery of the Bonds to the Initial Purchaser thereof (the “Date of Delivery”), and thereafter, from the most recent Interest Payment Date. Interest calculations are based upon a three hundred sixty (360) day year comprised of twelve (12) thirty (30) day months. The Bonds mature, and principal in respect of the Bonds is payable, on September 1 of the years and in the amounts, and accrue interest at the rates, shown under “MATURITY SCHEDULE” on the cover page hereof. The Bonds are issued in fully registered form only in denominations of \$5,000 or any integral multiple of \$5,000 for any one maturity. The Bonds will be registered and delivered only to The Depository Trust Company, New York, New York (“DTC”), in its nominee name of Cede & Co., pursuant to the book-entry-only system described herein (“Registered Owners”). No physical delivery of the Bonds will be made to the purchasers thereof. See “BOOK-ENTRY-ONLY SYSTEM.”

Authority for Issuance

At an election held within the District on May 7, 2022, voters of the District authorized a total of \$90,843,000 in principal amount of unlimited tax bonds for the purpose of acquiring or constructing drainage facilities. The Bonds constitute the second issuance of bonds from the authorization for acquiring or constructing drainage facilities. After issuance of the Bonds, a total of \$78,618,000 in principal amount of unlimited tax bonds for drainage facilities will remain authorized but unissued. See “Issuance of Additional Debt” herein.

The Bonds are issued by the District pursuant to Article XVI, Section 59 of the Texas Constitution, the general laws of the State of Texas, including without limitation, Chapters 49 and 51 of the Texas Water Code, as amended, the election held within the District described hereinabove, an order of the TCEQ, and the Bond Order.

Source and Security for Payment

The Bonds, together with the Outstanding Bonds and any additional bonds payable from ad valorem taxes, are secured by and payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property located within the District. See "TAXING PROCEDURES." Investment in the Bonds involves certain elements of risk, and all prospective purchasers are urged to examine carefully this OFFICIAL STATEMENT with respect to the investment security of the Bonds. See "RISK FACTORS." The Bonds are obligations solely of the District and are not obligations of the State of Texas, Montgomery County, the City of Conroe, or any political subdivision or entity other than the District.

Funds

The Bond Order confirms the creation of the District's Debt Service Fund, including the sub-accounts which are used to separate funds received to pay debt service on bonds issued to finance the Utility System ("Utility Bonds"), including the Bonds, from funds received to pay debt service on bonds issued to finance Road facilities ("Road Bonds"). The Bond Order also confirms the District's Construction Fund, including the sub-accounts which are used to separate proceeds from Road Bonds and Utility Bonds. An amount equal to twelve (12) months of interest on the Bonds will be deposited from the proceeds from sale of the Bonds into the sub-account of the Debt Service Fund created in respect of Utility Bonds (as defined in the Bond Order). All remaining proceeds of the Bonds will be deposited in the sub-account of the Construction Fund created in respect of Utility Bonds. See "USE AND DISTRIBUTION OF BOND PROCEEDS" for a complete description of the use of Bond proceeds.

The proceeds from all taxes levied, appraised and collected for and on account of the Bonds authorized by the Bond Order shall be deposited, as collected, into the sub-account of the Debt Service Fund created in respect of Utility Bonds. The Debt Service Fund, which constitutes a trust fund for the benefit of the owners of the Outstanding Bonds, the Bonds and any additional tax bonds issued by the District, is to be kept separate from all other funds of the District, and funds in the sub-accounts created in respect of Utility Bonds are to be used for payment of debt service on the Bonds and any of the District's duly authorized Utility Bonds, whether heretofore, hereunder or hereafter issued, payable in whole or part from taxes. Amounts on deposit in the sub-accounts of the Debt Service Fund created in respect of Utility Bonds may also be used to pay the fees and expenses of the Paying Agent/Registrar, to defray the expenses of assessing and collecting taxes levied for payment of interest on and principal of the Bonds and any of the District's duly authorized Utility Bonds, whether heretofore, hereunder or hereafter issued, payable in whole or in part from taxes, and to pay any tax anticipation notes issued in respect of debt service due or to become due on Utility Bonds, together with interest thereon, as such tax anticipation notes become due. Funds otherwise on deposit in the Debt Service Fund, including funds in a sub-account created in respect of Road Bonds, will not be allocated to the payment of the Bonds.

Record Date

The record date for payment of the interest on any regularly scheduled Interest Payment Date is defined as the 15th day of the month (whether or not a business day) preceding such Interest Payment Date.

Redemption Provisions

The District reserves the right, at its option, to redeem the Bonds maturing on or after September 1, 2033, prior to their scheduled maturities, in whole or from time to time in part, in integral multiples of \$5,000, on September 1, 2032, or any date thereafter, at a price equal to the principal amount thereof plus accrued interest thereon to the date fixed for redemption of such Bonds (the "Redemption Date"). If fewer than all of the Bonds are to be redeemed, the particular maturity or maturities and the amounts thereof to be redeemed shall be determined by the District. If fewer than all of the Bonds of the same maturity are to be redeemed, the particular Bonds shall be selected by DTC in accordance with its procedures. See "BOOK-ENTRY-ONLY SYSTEM." Notice of each exercise of the reserved right of optional redemption shall be given by the Paying Agent/Registrar at least thirty (30) calendar days prior to the Redemption Date, in the manner specified in the Bond Order.

By the Redemption Date, due provision shall be made with the Paying Agent/Registrar for payment of the principal of the Bonds or portions thereof to be redeemed, plus accrued interest to the Redemption Date. When Bonds have been called for redemption in whole or in part and due provision has been made to redeem the same as herein provided, the Bonds or portions thereof so redeemed shall no longer be regarded as outstanding except for the purpose of receiving payment solely from the funds so provided for redemption, and the rights of the Registered Owners to collect interest which would otherwise accrue after the Redemption Date on any Bond or portion thereof called for redemption shall terminate on the Redemption Date.

Method of Payment of Principal and Interest

The Board has appointed The Bank of New York Mellon Trust Company, N.A., having its principal corporate trust office and its principal payment office in Houston, Texas, as the initial Paying Agent/Registrar for the Bonds. The principal of and interest on the Bonds shall be paid to DTC, which will make distribution of the amounts so paid. See "BOOK-ENTRY-ONLY SYSTEM."

Registration

Section 149(a) of the Internal Revenue Code of 1986, as amended, requires that all tax-exempt obligations (with certain exceptions that do not include the Bonds) be in registered form in order for the interest payable on such obligations to be excludable from a Beneficial Owner's income for federal income tax purposes. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. pursuant to the Book-Entry-Only System described herein. One fully-registered Bond will be issued for each maturity of the Bonds and will be deposited with DTC. See "BOOK-ENTRY-ONLY SYSTEM." So long as any Bonds remain outstanding, the District will maintain at least one paying agent/registrars in the State of Texas for the purpose of maintaining the Register on behalf of the District.

Replacement of Paying Agent/Registrar

Provision is made in the Bond Order for replacement of the Paying Agent/Registrar. If the Paying Agent/Registrar is replaced by the District, the new paying agent/registrars shall be required to accept the previous Paying Agent/Registrar's records and act in the same capacity as the previous Paying Agent/Registrar. Any paying agent/registrars selected by the District shall be a duly qualified and competent trust or banking corporation or organization organized and doing business under the laws of the United States of America or of any State thereof, with a combined capital and surplus of at least \$25,000,000, which is subject to supervision of or examination by federal or state banking authorities, and which is a transfer agent duly registered with the United States Securities and Exchange Commission.

Legal Investment and Eligibility to Secure Public Funds in Texas

The following is quoted from Section 49.186 of the Texas Water Code, and is applicable to the District:

"(a) All bonds, notes, and other obligations issued by a district shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries and trustees, and for all interest and sinking funds and other public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic.

(b) A district's bonds, notes, and other obligations are eligible and lawful security for all deposits of public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of the bonds, notes, and other obligations when accompanied by any unmatured interest coupons attached to them."

The Public Funds Collateral Act (Chapter 2257, Texas Government Code) also provides that bonds of the District (including the Bonds) are eligible as collateral for public funds.

No representation is made that the Bonds will be suitable for or acceptable to financial or public entities for investment or collateral purposes. No representation is made concerning other laws, rules, regulations or investment criteria which apply to or which might be utilized by any of such persons or entities to limit the acceptability or suitability of the Bonds for any of the foregoing purposes. Prospective purchasers are urged to carefully evaluate the investment quality of the Bonds as to the suitability or acceptability of the Bonds for investment or collateral purposes.

Issuance of Additional Debt

The District's voters have authorized the issuance of a total of \$90,843,000 in principal amount of unlimited tax bonds for the purpose of acquiring or constructing drainage facilities and a total of \$72,450,000 in principal amount of unlimited tax bonds for purposes of acquiring or constructing road facilities. After issuance of the Bonds, \$78,618,000 in principal amount of unlimited tax bonds for drainage facilities will remain authorized but unissued and \$70,600,000 in principal amount of such unlimited tax bonds for road facilities will remain authorized but unissued. Additionally, the District's voters have authorized \$75,450,000 in principal amount of tax bonds for the purpose of acquiring or constructing park and recreational facilities, and a total of \$238,743,000 in principal amount of unlimited tax refunding bonds for the purpose of refunding outstanding bonds of the District, all of which remains authorized but unissued. The District's voters could authorize additional unlimited tax bonds for drainage facilities, park and recreational facilities, road facilities and for refunding outstanding bonds of the District. Issuance of additional bonds for drainage facilities, and/or for park and recreational facilities, is subject to the approval of the TCEQ. See "—Financing Recreational Facilities," herein, "THE DISTRICT—General," and "RISK FACTORS—Future Debt."

The Bond Order imposes no limitation on the amount of additional parity bonds which may be authorized for issuance by the District's voters or the amount ultimately issued by the District.

Financing Recreational Facilities

Conservation and reclamation districts in certain counties are authorized to develop and finance with property taxes certain recreational facilities after a district election has been successfully held to approve the issuance of bonds payable from taxes and/or a maintenance tax to support recreational facilities.

At an election held within the District on May 7, 2022, voters of the District authorized a total of \$75,450,000 in principal amount of unlimited tax bonds for acquiring or constructing parks and recreational facilities, none of which have been issued. The District is authorized to issue bonds payable from an ad valorem tax to pay for the development and maintenance of recreational facilities if (i) the District duly adopts a plan for the facilities; (ii) the bonds are authorized at an election, (iii) the bonds payable from any source do not exceed 1% of the value of the taxable property in the District at the time of issuance of the bonds, or, in the event the District meets certain conditions, 3% of the value of the taxable property in the District at the time of issuance of the bonds, but in no event in an amount greater than the estimated cost of the facilities as set forth in the recreational facilities plan adopted by the District; (iv) the District obtains any necessary governmental consents allowing the issuance of such bonds; (v) the issuance of the bonds is approved by the TCEQ in accordance with its rules with respect to same; and (vi) the bonds are approved by the Attorney General of Texas. The District may issue bonds for such purposes payable solely from net operating revenues without an election. In addition, the District is authorized to levy an operation and maintenance tax to support recreational facilities at a rate not to exceed 10 cents per \$100 of assessed valuation of taxable property in the District, after such tax is approved at an election. Such tax is in addition to any other maintenance tax authorized to be levied by the District. Issuance of bonds for recreational facilities could dilute the investment security of the Bonds. See “RISK FACTORS—Future Debt” and “—Issuance of Additional Debt” herein.

Financing Road Facilities

Pursuant to the provisions of the Texas Constitution and the Act, as amended, the District is authorized to develop and finance with property taxes certain road facilities following a successful District election to approve the issuance of road bonds payable from taxes. At an election held within the District on May 7, 2022, voters of the District authorized a total of \$72,450,000 principal amount of unlimited tax bonds for the purpose of acquiring or constructing road facilities, of which \$70,600,000 remains authorized but unissued. Issuance of additional bonds for road facilities could dilute the investment security of the Bonds. See “—Issuance of Additional Debt” herein and “RISK FACTORS—Future Debt.”

Annexation

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Conroe, the District may be annexed for full purposes by the City of Conroe, subject to compliance by the City of Conroe with various requirements of Chapter 43 of the Texas Local Government Code, as amended. Such requirements may include the requirement that the City of Conroe hold an election in the District whereby the qualified voters of the District approve the proposed annexation. If the District is annexed, the City of Conroe must assume the District’s assets and obligations (including the Bonds and the Outstanding Bonds) and abolish the District within ninety (90) days of the date of annexation. Annexation of territory by the City of Conroe is a policy-making matter within the discretion of the Mayor and City Council of the City of Conroe, and, therefore, the District makes no representation that the City of Conroe will ever attempt to annex the District and assume its debt. Moreover, no representation is made concerning the ability of the City of Conroe to make debt service payments should annexation occur.

Remedies in Event of Default

If the District defaults in the payment of principal, interest, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created in the Bond Order, or defaults in the observance or performance of any other covenants, conditions, or obligations set forth in the Bond Order, the Registered Owners have the right to seek a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Order. Except for mandamus, the Bond Order does not specifically provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, there is no trust indenture or trustee, and all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the Registered Owners. Certain traditional legal remedies may also not be available. See “RISK FACTORS—Registered Owners’ Remedies.”

Defeasance

The Bond Order provides that the District may discharge its obligations to the Registered Owners of any or all of the Bonds to pay principal, interest and redemption price thereon in any manner permitted by law. Under current Texas law, such discharge may be accomplished either (i) by depositing with the Comptroller of Public Accounts of the State of Texas a sum of money equal to the principal of, premium, if any, and all interest to accrue on the Bonds to maturity or redemption or (ii) by depositing with any place of payment (paying agent) for obligations of the District payable from revenues or from ad valorem taxes or both, or a commercial bank or trust company designated in the proceedings authorizing such discharge amounts sufficient to provide for the payment and/or redemption of the Bonds; provided that such deposits may be invested and reinvested only in (a) direct noncallable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America, (b) noncallable obligations of an agency or instrumentality of the United States, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent; and (c) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent. The foregoing obligations may be in book entry form and shall mature and/or bear interest payable at such times and in such amounts as will be sufficient to provide for the scheduled payment and/or redemption of the Bonds. If any of such Bonds are to be redeemed prior to their respective dates of maturity, provision must have been made for giving notice of redemption as provided in the Bond Order.

Upon such deposit as described above, such Bonds shall no longer be regarded to be outstanding or unpaid. After firm banking and financial arrangements for the discharge and final payment or redemption of the Bonds have been made as described above, all rights of the District to initiate proceedings to call the Bonds for redemption or take any other action amending the terms of the Bonds are extinguished; provided, however, that the right to call the Bonds for redemption is not extinguished if the District: (i) in the proceedings providing for the firm banking and financial arrangements, expressly reserves the right to call the Bonds for redemption; (ii) gives notice of the reservation of that right to the owners of the Bonds immediately following the making of the firm banking and financial arrangements; and (iii) directs that notice of the reservation be included in any redemption notices that it authorizes.

There is no assurance that the current law will not be changed in a manner which would permit investments other than those described above to be made with amounts deposited to defease the Bonds. Because the Bond Order does not contractually limit such investments, Registered Owners may be deemed to have consented to defeasance with such other investments, notwithstanding the fact that such investments may not be of the same investment quality as those currently permitted under Texas law.

BOOK-ENTRY-ONLY SYSTEM

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy or completeness thereof.

The District cannot and does not give any assurances that DTC, DTC Direct Participants or Indirect Participants will distribute to the Beneficial Owners (a) payments of interest, principal or premium, if any, with respect to the Bonds, (b) Bonds representing ownership interest in or other confirmation or ownership interest in the Bonds, or (c) prepayment or other notices sent to DTC or Cede & Co., its nominee, as the Registered Owner of the Bonds, or that they will do so on a timely basis or that DTC, DTC Direct Participants or DTC Indirect Participants will act in the manner described in this OFFICIAL STATEMENT. The current "Rules" applicable to DTC are on file with the Securities and Exchange Commission and the current "Procedure" of DTC to be followed in dealing with DTC Direct Participants is on file with DTC.

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond certificate will be issued for each maturity of the Bonds, in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a rating of "AA+" from S&P Global Ratings. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District (or the Trustee on behalf thereof) as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, premium, if any, interest payments and redemption proceeds on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or Paying Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, interest payments and redemption proceeds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Paying Agent. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

USE AND DISTRIBUTION OF BOND PROCEEDS

The construction costs below were compiled by Quiddity Engineering LLC., the District’s Engineer. Non-construction costs are based upon either contract amounts or estimates of various costs by the Engineer and Masterson Advisors LLC (the “Financial Advisor”). The actual amounts to be reimbursed by the District and the non-construction costs will be finalized after the sale of the Bonds and agreed-upon procedures are completed by an independent accountant. The surplus funds, if any, may be expended for any lawful purpose for which surplus construction funds may be used, if approved by the TCEQ where required.

CONSTRUCTION COSTS

• Construction and Engineering Related Costs	\$ 3,895,255	
• Less: Surplus Funds Applied	(290,824)	
Total Construction Costs	\$ 3,604,431	

NON-CONSTRUCTION COSTS

• Underwriter's Discount (Estimated at 3.00%)(a).....	\$ 153,750	
• Capitalized Interest (12 Months Estimated at 5.00%)(a).....	256,250	
• Developer Interest	515,401	
• Operating Costs	248,000	
Total Non-Construction Costs	\$ 1,173,401	

ISSUANCE COSTS AND FEES

• Issuance Costs and Professional Fees	\$ 289,230	
• Engineering Fee.....	40,000	
• State Regulatory Fees	17,938	
Total Issuance Costs and Fees	\$ 347,168	
TOTAL BOND ISSUE.....	\$ 5,125,000	

(a) The TCEQ approved a maximum of \$256,250 of capitalized interest, which equals twelve (12) months at an estimated interest rate of 5.00% per annum and a maximum Underwriter’s Discount of 3.00%. Capitalized interest shown elsewhere herein is calculated at an estimated interest rate of 4.75%.

WOODSON’S RESERVE

The District is part of the master-planned community of Woodson’s Reserve, currently consisting of the District, Montgomery County Municipal Utility District No. 152A (“MUD 152A”), Montgomery County Municipal Utility District No. 105 (“MUD 105”), Montgomery County Municipal Utility District No. 152B (“MUD 152B”), and Montgomery County Municipal Utility District No. 152C (“MUD 152C” or the “Master District”). The District overlaps the boundaries of MUD 152A, MUD 152B and MUD 152C. To date, 2,146 single-family residential lots on approximately 658 acres have been developed in Woodson’s Reserve, of which 1,090 single-family residential lots on approximately 357 acres are located within MUD 105, 818 single-family residential lots on approximately 235 acres are located within the District and MUD 152A, and 238 single-family residential lots on approximately 62 acres are located within the District and MUD 152B. Within MUD 152B an additional 53 single-family residential lots are under construction on approximately 20 acres with expected completion by the third quarter of 2026, and 96 single-family residential lots are under construction on approximately 26 acres with expected completion by the fourth quarter of 2026. The development of Woodson’s Reserve is planned by the Developer to ultimately encompass approximately 1,752 acres. See “The DISTRICT.” Community amenities, which are located within MUD 105 but are available for all residents of Woodson’s Reserve, including the District, include Woodson’s Club, a 9,000 square foot clubhouse which includes a lazy river, resort style pool, and twenty-four-hour fitness room, open space and nature areas, a trail system, a dog park and community lakes.

THE DISTRICT

General

The District is a water control and improvement district created by Chapter 120 (Senate Bill 2182), an Act of the 87th Legislature, Regular Session, 2021, codified as Chapter 9082 of the Texas Special District Local Laws Code, (the “Act”). The creation of the District was confirmed at an election held within the District on May 7, 2022. The District operates pursuant to the Act, as amended, and pursuant to Section 52, Article III, and Section 59, Article XVI, of the Texas Constitution, Chapters 49 and 51 of the Texas Water Code, as amended, and includes approximately 1,014 acres of land within its boundaries. The District, which lies wholly within the extraterritorial jurisdiction of the City of Conroe, is subject to the continuing supervisory jurisdiction of the TCEQ.

The District is empowered, among other things, to finance, purchase, construct, operate and maintain all works, improvements, facilities and plants necessary for the control and diversion of storm water. Additionally, the District may, subject to certain limitations, develop and finance recreational and road facilities. The District may issue bonds and other forms of indebtedness to purchase or construct such facilities. The District currently provides or plans to provide major storm drainage and channel improvements, park and recreational facilities and road facilities within its boundaries. See “THE BONDS—Issuance of Additional Debt,” “—Financing Recreational Facilities,” “—Financing Road Facilities,” “THE SYSTEM—District Purpose,” and “RISK FACTORS—Future Debt.”

The District is required to observe certain requirements of the City of Conroe which limit the purposes for which the District may sell bonds to finance the acquisition, construction, and improvement of drainage, recreational, and road facilities and the refunding of outstanding debt obligations; and limit the net effective interest rate on such bonds and other terms of such bonds. The District is also required to obtain certain TCEQ approvals prior to acquiring, constructing and financing certain drainage facilities, parks and recreational facilities, and fire-fighting facilities as well as voter approval of the issuance of bonds for said purpose.

Construction and operation of the District’s drainage system is subject to the regulatory jurisdiction of additional State of Texas and local agencies. See “THE SYSTEM—Regulation.”

Description and Location

On November 19, 2025, the District annexed approximately 61.596 acres into the boundaries of the District and excluded approximately 12.48 acres from the boundaries of the District. The District currently includes approximately 1,014 acres of land within its boundaries. The District is located approximately 25 miles north of the central downtown business district of the City of Houston and approximately 14 miles southeast of the City of Conroe and lies wholly within the exclusive extraterritorial jurisdiction of the City of Conroe. The District is located within the extraterritorial jurisdiction of the City of Conroe and within the boundaries of Conroe Independent School District. Access to the District is provided by Texas State Highway 99 (the “Grand Parkway”) and Lexington Boulevard and the District is bounded on the north by undeveloped property and the Grand Parkway, on the west by MUD 105, and on the south and east by undeveloped property. See “AERIAL LOCATION MAP.”

Land Use

The following table represents a detailed breakdown of the current acreage and development in the District.

<u>Single-Family Residential</u>	Approximate <u>Acres</u>	<u>Lots</u>
Woodson's Reserve		
Section Twenty.....	15	60
Section Twenty-One.....	19	76
Section Twenty-Two.....	13	42
Section Twenty-Three.....	23	64
Section Twenty-Four.....	23	95
Section Twenty-Five	20	89
Section Twenty-Six.....	18	51
Section Twenty-Seven.....	15	60
Section Twenty-Eight.....	24	57

Conroe ISD School Sites and Future School Sites.....	91	--
Woodson's Reserve Recreation Center.....	8	--
Grand Oaks Commercial.....	8	--
Future Development.....	208	--
Undevelopable (c).....	356	--
Totals.....	1,014	1,205

(a) Under construction with completion expected by the fourth quarter of 2026.

(b) Under construction with completion expected by the third quarter of 2026.

(c) Includes amenity/detention facilities, pipeline easements, drill sites, street rights-of-way and utility sites. See “WATER, WASTEWATER AND DRAINAGE—100-Year Flood Plain.”

Status of Development

Underground utilities and paving are complete for 1,056 single-family residential lots (approximately 297 acres) in the District. Additionally, 53 single-family residential lots are under construction on approximately 20 acres with expected completion by third quarter of 2026, and an additional 96 single-family residential lots are under construction on approximately 26 acres with expected completion by fourth quarter of 2026. As of May 20, 2026, 567 homes were complete (555 homes were occupied, 2 unoccupied, and 10 homes are models), 168 homes were under construction or in the name of the Builders (as defined herein) and 321 developed lots were available for home construction.

Two Conroe Independent School District Elementary Schools and one Junior High School, which are not subject to ad valorem taxation by the District, have been constructed on approximately 75 acres within the District. An additional approximately 16 acres within the District are planned for future Conroe Independent School District facilities.

A recreation center has been constructed on approximately 8 acres within the District. Grand Oaks retail center has been developed on approximately 8 acres within the District and includes a veterinary office, a sandwich shop, and a dental office with additional retail spaces available for lease. The remainder of the District is comprised of approximately 356 acres that are not developable (amenity/detention facilities, pipeline easements, street right-of-way, drill sites and utility sites), and approximately 208 developable acres that have not been provided with utility service (excluding approximately 46 acres under construction for the development of 149 single-family residential lots). See “—Land Use” and “—Future Development.”

Homebuilding

Homebuilders actively building homes in the District include Toll Southwest LLC and Tri Pointe Homes Texas, Inc. (herein defined as the “Builders”). According to the Developer, new homes in the District are being offered for sale at prices ranging from approximately \$405,000 to over \$1,200,000.

Future Development

Approximately 208 developable acres of land in the District (excluding approximately 46 acres where construction is underway for the development of 149 single-family residential lots) are not yet fully served with water, sewer and drainage and paving facilities necessary for the construction of taxable improvements. While the District anticipates future development of this acreage, there can be no assurances when or if any of such undeveloped land will ultimately be developed. The District anticipates issuing additional bonds to fund drainage, recreational and road facilities within the District necessary to serve the land at full development. The Engineer has stated that under current development plans, the remaining authorized but unissued bonds (\$224,668,000 principal amount collectively for drainage, recreational and road facilities) should be sufficient to finance the construction of facilities to complete the District’s drainage, recreational and road facilities for full development of the District. See “THE BONDS—Issuance of Additional Debt,” “WATER, WASTEWATER AND DRAINAGE,” and “RISK FACTORS—Future Debt.”

THE DEVELOPER

Role of a Developer

In general, the activities of a landowner or developer in a district such as the District include designing the project; defining a marketing program and setting building schedules; securing necessary governmental approvals and permits for development; arranging for the construction of streets and the installation of utilities; and selling or leasing improved tracts or commercial reserves to other developers or third parties. A developer is under no obligation to a district to undertake development activities according to any particular plan or schedule. Furthermore, there is no restriction on a developer’s right to sell any or all of the land which the developer owns within a district. In addition, the developer is ordinarily the major taxpayer within the district during the early stages of development. The relative success or failure of a developer to perform in the above-described capacities may affect the ability of a district to collect sufficient taxes to pay debt service and retire bonds.

Investors in the Bonds should note that the prior real estate experience of the Developer and its affiliates should not be construed as an indication that further development within the District will occur, or that construction of additional taxable improvements upon property within the District will occur, or that marketing or leasing of taxable improvements constructed upon property within the District will be successful. The District cautions that the development experience of the Developer or its affiliates was gained in different markets and under different circumstances than those that exist in the District, and the prior success of the Developer or its affiliates, if any, is no indication or guarantee that the Developer will be successful in the future development of land within the District.

TPHTL HBL, LLC

TPHTL HBL, LLC, a Delaware limited liability company (the “Developer”) is the developer of the District. The Developer is a joint venture of Toll Brothers, Inc., a Delaware Corporation (“Toll Brothers”) and Tri Pointe Homes, Inc., a Delaware corporation (“Tri Pointe”). Toll Brothers and Tri Pointe are public companies whose stock is currently traded on the New York Stock Exchange under the symbol TOL and TPH, respectively. On April 16, 2026, shareholders of Tri Pointe approved an agreement with Sumitomo Forestry Co., Ltd. (“Sumitomo”), a Japanese corporation listed and traded on the Tokyo Stock Exchange (“TSE”), and Teton NewCo, Inc. (“Teton NewCo”), a Delaware corporation and an indirectly wholly owned subsidiary of Sumitomo, providing for the merger of Teton NewCo and Tri Pointe, with Tri Pointe continuing as the surviving corporation. On May 14, 2026, the merger was completed and Tri Pointe became a wholly owned subsidiary of Sumitomo. Tri Pointe common stock was de-registered under the Securities Exchange Act of 1934 and Tri Pointe is no longer listed or traded on the New York Stock Exchange or any other public exchange. The Developer makes all development decisions and provides all financing for the development.

None of the Developer, Toll Brothers or Tri Pointe is legally obligated to continue providing funds for the development of the District. Toll Brothers and Tri Pointe are not legally obligated to provide funds to pay taxes on property in the District owned by the Developer, or to pay any other obligations of the Developer.

Toll Brothers files annual, quarterly and current reports, proxy statements and other information with the SEC and such filings are available to the public over the Internet at the SEC’s web site at <http://www.sec.gov>. You may also read and copy any document that Toll Brothers and Tri Pointe have filed with the SEC at the SEC’s Public Reference Room at 100 F. Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information regarding the operation of the Public Reference Room.

In addition, Toll Brothers makes available on their web site www.tollbrothers.com its annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K (and any amendments to those reports) filed pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as practicable after they have been electronically filed with the SEC as well as other financial institutions. **Unless otherwise specified, information contained on Toll Brothers' web site, available by hyperlink from Toll Brothers' web site or on the SEC's web site, is not incorporated into this PRELIMINARY OFFICIAL STATEMENT.**

In addition, Sumitomo Forestry files reports, proxy statements and other information with the TSE in accordance with the laws governing the TSE and reporting requirements of the TSE.

None of the Developer, Toll Brothers, Toll Southwest LLC, Tri Pointe, or any affiliates of the Developer, Toll Brothers, Toll Southwest LLC or Tri Pointe are responsible for, liable for, or have made any commitment for payment of the Bonds or other obligations of the District. None of the Developer, Toll Brothers, Toll Southwest LLC, Tri Pointe, or any affiliates of the Developer, Toll Brothers, Toll Southwest LLC or Tri Pointe have any legal commitment to the District or the holders of the Bonds to continue development of the land within the District, and the Developer may sell or otherwise dispose of property within the District, or any assets, at any time.

Homebuilding: The Developer has developed or is currently developing all existing lots within the District and retains ownership of developed lots until the lots are taken down for home construction by either Toll Brothers or Tri Pointe Homes (the "Builders"). Pursuant to the lot sales agreement between the Developer and the Builders, the Builders are each entitled to fifty percent (50%) of the total developed lots. See "THE DISTRICT—Status of Development" and "—Homebuilding."

MANAGEMENT OF THE DISTRICT

Board of Directors

The District is governed by the Board, consisting of five (5) directors, which has control over and management supervision of all affairs of the District. Directors are elected to four-year staggered terms and elections are held in May in even numbered years. Two of the Board members reside within the District, and three of the Board members own land within the District, subject to a Deed of Trust in favor of the Developer. The current members and officers of the Board, along with their titles and terms, are listed as follows:

<u>Name</u>	<u>District Board Title</u>	<u>Term Expires</u>
Erica Sinner	President	May 2028
Alene Frey	Vice President	May 2028
Dana Neuneker	Secretary	May 2028
Stefani Lamza	Assistant Secretary	May 2030
Jomy George	Assistant Secretary	May 2030

District Consultants

The District does not have a general manager or other full-time employees, but contracts for certain necessary services as described below.

Bond Counsel and General Counsel: Schwartz, Page & Harding, L.L.P. ("Bond Counsel") serves as bond counsel to the District. The fee to be paid Bond Counsel for services rendered in connection with the issuance of the Bonds is contingent upon the sale and delivery of the Bonds. In addition, Schwartz, Page & Harding, L.L.P. serves as general counsel to the District on matters other than the issuance of bonds.

Disclosure Counsel: McCall, Parkhurst & Horton L.L.P., serves as Disclosure Counsel to the District. The fees to be paid to Disclosure Counsel for services rendered in connection with the issuance of the Bonds are contingent on the issuance, sale and delivery of the Bonds.

Financial Advisor: Masterson Advisors LLC serves as the District's Financial Advisor. The fee for services rendered in connection with the issuance of the Bonds is based on a percentage of the Bonds actually issued, sold and delivered and, therefore, such fee is contingent upon the sale and delivery of the Bonds.

Engineer: The District's consulting engineer is Quiddity Engineering LLC. Pape-Dawson Engineers, Inc. is the consulting engineer for the Master District, and also provides engineering services for the District, MUD 152A and MUD 152B.

Auditor: The financial statements of the District as of August 31, 2025, and for the year then ended, included in this offering document, have been audited by McGrath and Co., PLLC, independent auditors, as stated in their report appearing herein. See "APPENDIX A" for a copy of the District's August 31, 2025, financial statements.

Bookkeeper: The District has contracted with Municipal Accounts & Consulting, L.P. (the “Bookkeeper”) for bookkeeping services.

Utility System Operator: Municipal District Services, LLC operates the water and wastewater systems and plants of MUD 152C and the internal water distribution and wastewater collection facilities of the MUD 152A and MUD 152B.

Tax Appraisal: The Montgomery Central Appraisal District has the responsibility of appraising all property within the District. See “TAXING PROCEDURES.”

Tax Assessor/Collector: The District has appointed an independent tax assessor/collector to perform the tax collection function. Bob Leared Interests, Inc. (the “Tax Assessor/Collector”) has been employed by the District to serve in this capacity.

THE SYSTEM

Regulation

According to the Engineer, the District’s improvements that will be financed with the proceeds of the Bonds have been designed and the corresponding plans prepared in accordance with accepted engineering practices and specifications, as and if required for the particular improvements and the approval and permitting requirements of the Montgomery County and the City of Conroe, as applicable.

District Purpose

The District was created to construct and operate all major drainage and channel improvements necessary to serve the land within the boundaries of the District and to construct and operate certain recreational and road facilities. Although the District has the legal authority to provide water supply and distribution, wastewater collection and treatment, and other storm drainage facilities or services, it is not presently anticipated by the District that such authority will be exercised. Instead, MUD 152A and MUD 152B will provide internal water distribution and wastewater collection services to the land located within their respective boundaries as well as internal storm drainage facilities connecting with the channels constructed by the District. In addition, MUD 152C, in its capacity as the Master District, will provide major water supply and wastewater treatment to serve the development within the District (see “Master Facilities” below).

Major Channel and Detention Improvements

The drainage facilities constructed by the District consist of a detention outfall and outfall channel that is centrally located within the District that drains into the West Fork San Jacinto River. Proceeds from the Bonds will be used to fund such construction. See “USE AND DISTRIBUTION OF BOND PROCEEDS.” Such drainage facilities were designed and constructed in accordance with Montgomery County criteria and comply with the master drainage study prepared for the project. The purpose of these facilities is to provide outfall drainage and mitigate any negative flood plain effects caused by the development of Woodson’s Reserve. Construction of additional drainage facilities will be phased to accommodate development as it occurs. The detention outfall and outfall drainage facilities constructed to date encompass approximately 35 acres of land and detain enough storm water to develop approximately 475 acres of development within the District’s boundaries. See “Atlas 14” herein.

100-Year Flood Plain

“Flood Insurance Rate Map” or “FIRM” means an official map of a community on which the Federal Emergency Management Agency (“FEMA”) has delineated the appropriate areas of flood hazards. The 1% chance of probable inundation, also known as the 100-year flood plain, is depicted on these maps. The “100-year flood plain” (or 1% chance of probable inundation) as shown on the FIRM is the estimated geographical area that would be flooded by a rain storm of such intensity to statistically have a one percent chance of occurring in any given year. Generally speaking, homes must be built above the 100-year flood plain in order to meet local regulatory requirements and to be eligible for federal flood insurance. An engineering or regulatory determination that an area is above the 100-year flood plain is not an assurance that homes built in such area will not be flooded, and a number of neighborhoods in the greater Houston area that are above the 100-year flood plain have flooded multiple times in the last several years.

According to the Engineer, approximately 394 acres of land in the District are currently located in the 100-year flood plain. The District has filed a Letter of Map Revision to request approval from FEMA for the removal of approximately 191 of the 394 acres from the 100-year flood plain. See “RISK FACTORS—Extreme Weather Events,” “—Specific Flood Type Risks” and “Atlas 14” herein.

Atlas 14

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States (“Atlas 14”). Floodplain boundaries within the District may be redrawn based upon the Atlas 14 study, which is based upon a higher statistical rainfall amount, resulting in interim floodplain regulations applying to a larger number of properties and consequently leaving less developable property within the District. Such regulations could additionally result in higher insurance rates, increased development fees and stricter building codes for any property located within the expanded boundaries of the floodplain. See “RISK FACTORS—Atlas 14.”

WATER, WASTEWATER AND DRAINAGE

Regulation

According to the Engineer, the District’s improvements have been designed and the corresponding plans prepared in accordance with accepted engineering practices and specifications and, as and if required for the particular improvements, the approval and permitting requirements of the TCEQ, Montgomery County and the City of Conroe as applicable.

Master Facilities

Master Water and Sanitary Sewer Facilities Contract: The development in the District is served by a regional water supply and wastewater treatment system that is owned and operated by MUD 152C, in its capacity as the “Master District,” pursuant to that certain contract for Financing, Operation, and Maintenance of Master Water and Sanitary Sewer Facilities, dated October 19, 2022, by and between MUDs 152C, 152A, and 152B, as amended and supplemented from time to time (the “Master Contract”). Each such party to the Master Contract is referred to hereinafter at times as a “Participant.” The Master Contract provides that the Master District will acquire, construct, own, operate, and/or maintain central water supply and wastewater treatment facilities, as well as major trunk lines related to said facilities (the “Master Facilities”), to serve the land within the Service Area defined therein and any other area subsequently served by the Master District pursuant to the Master Contract. Each Participant is responsible for the acquisition, construction, ownership, operation, and/or maintenance of all internal water, sewer and drainage facilities, not otherwise constructed by the Master District as part of the Master Facilities.

The Master Contract provides that capacity in the Master Facilities will be allocated to a Participant contingent upon the payment to the Master District of a “Connection Charge” (as more specifically detailed in the Master Contract) calculated to approximate, on a uniform per-connection basis, the incurred and projected capital expenditures, interest, and other attendant costs associated with the provision of the Master Facilities by the Master District (“Capital Costs”). The Master Contract requires that the Master District use the Connection Charges solely for payment of the Capital Costs of the Master Facilities, and further requires that the Connection Charge be recalculated from time to time but not less often than annually. Participants may be required to fund additional capital costs for the construction of Master District facilities if the Master District determines, as a part of its annual recalculation of the Connection Charge, that actual costs for the Master Facilities exceeded the Connection Charges paid. The Master Contract additionally provides that Master Facilities may be constructed and conveyed to the Master District as an alternative to the payment of a Connection Charge, such Master Facilities being credited at their Capital Cost value towards Connection Charge payments.

The Master Contract requires that operations and maintenance expenses be paid to the Master District by the Participants on a monthly basis. Additionally, each Participant is required to advance funds to the Master District to create a reserve (“Reserve”) for the benefit of such Participant in an amount equal to the Participant’s projected share of operations and maintenance costs for a six-month period commencing at the beginning of the Master District’s fiscal year (currently September 1). The amount of the required Reserve for any Participant is determined annually, and any shortfall is required to be funded by the Participant. The Master District’s operations and maintenance expenses, as billed to Participants, may include a fee to fund a Participant’s Reserve, subject to certain restrictions.

Water Supply: The Master District has constructed the first phase of a permanent water supply plant within MUD 152A that includes a 1,200 gallon per minute (“gpm”) water well, one 20,000 gallon pressure tank, one 380,000 gallon ground storage tank, and three 1,275 gpm booster pumps. The water supply is capable of serving approximately 1,000 equivalent single-family connections (“ESFCs”), of which 811 ESFCs are allocated to the MUD 152A and 189 ESFCs are allocated to MUD 152B. The District has an emergency interconnect with MUD 105. Expansion of the water supply plant is underway and will add a second 20,000 gallon pressure tank, a second 380,000 gallon ground storage tank, and a fourth 1,275 gpm booster pump. Upon completion of the expansion, the water supply will be capable of serving 2,000 ESFCs. Completion is expected in the fourth quarter of 2026.

Lone Star Groundwater Conservation District: The Master District is located within the boundaries of the Lone Star Groundwater Conservation District (the “Conservation District”), which was created by the Texas Legislature to conserve, protect and enhance the groundwater resources of Montgomery County. The Conservation District has adopted rules and a regulatory plan for the conservation, preservation, protection, recharge and prevention of waste of groundwater, groundwater reservoirs or their subdivisions and to control subsidence caused by the withdrawal of groundwater from those groundwater resources or their subdivisions.

The Conservation District requires persons and entities, including the Master District, that pump groundwater from wells to apply for and obtain permits for the withdrawal of groundwater under terms and conditions provided in the Conservation District’s rules.

The Conservation District’s current Groundwater Management Plan (the “2025 Plan”) was adopted on March 4, 2025, and approved by the Texas Water Development Board on April 23, 2025. The 2025 Plan requires the Conservation District to monitor subsidence within its boundaries, participate in the joint planning efforts of Groundwater Management Area 14, and adopt well spacing and production allocation rules to achieve the goals stated therein. The 2025 Plan does not require large volume groundwater users to submit a groundwater reduction plan individually or jointly with other large volume groundwater users to ensure that certain progress is made to meet surface water conversion obligations.

Wastewater Treatment: Wastewater treatment for the development within MUD 152A and MUD 152B is provided by a 450,000 gpd wastewater treatment plant owned and operated by MUD 105. The wastewater treatment plant will adequately serve 2,142 equivalent single-family connections. Pursuant to a Joint Wastewater Treatment Plant Agreement, dated July 21, 2021 (the “Wastewater Agreement”) with MUD 152A, MUD 105 agreed to provide initial wastewater capacity in the amount of 274 equivalent single-family connections (“ESFCs”) to serve development within the District, which capacity has been increased to 391 ESFCs following updates to the plant’s design criteria. The term of the Wastewater Agreement is 30 years. On July 20, 2022, MUD 152A assigned its rights and obligations under the Wastewater Agreement to the Master District. MUD 105 and the Master District entered into a Wastewater Treatment Plant Capacity Sale and Purchase Agreement dated July 1, 2024, whereby the Master District purchased an additional 525 ESFCs of capacity from MUD 105 to serve development within MUD 152A and MUD 152B. MUD 105 has begun the construction of a 150,000 gallon per day expansion of the wastewater treatment plant to serve additional development within Woodson’s Reserve with completion expected by first quarter of 2027. Construction of the 150,000 gallon per day expansion of the wastewater treatment plant is underway with completion expected in first quarter of 2027.

Major Trunk Lines: Major water distribution and wastewater collection lines have been constructed by the Developer on behalf of the Master District. Charges for water distribution system capacity in the Master District’s trunk lines and for wastewater collection system capacity in the Master District’s trunk lines is allocated through the payment of Connection Charges as described hereinabove.

Internal Water Distribution, Wastewater Collection and Storm Drainage Facilities

Water distribution, wastewater collection, storm drainage facilities and related paving have been constructed in the District to serve 1,056 single-family residential lots and two Conroe Independent School District Elementary Schools and one Junior High School, and approximately 8 acres for commercial development. In addition, approximately 20 acres are under construction for the development of 53 single-family residential lots with an estimated completion in the third quarter of 2026, and an additional 26 acres are under construction for the development of 96 single-family residential lots with an estimated completion in the fourth quarter of 2026. See “THE DISTRICT—Land Use,” “—Status of Development,” and “—Future Development.”

ROADS

The District is constructing a collector road system (the “Roads”) to serve the residents of the District by providing access to the major thoroughfares within Woodson’s Reserve and the surrounding area. Upon completion, the roads have been or will be accepted by Montgomery County for operation and maintenance in accordance with the procedures of Montgomery County. The District will not operate or maintain the roads. Lexington Boulevard and Woodbridge Cove Drive are collector streets providing access to the local streets within the currently constructed development. Lexington Boulevard provides access to the District from the existing Woodson’s Reserve development.

-
- (a) As certified by the Montgomery Central Appraisal District. See "TAXING PROCEDURES."
 - (b) Provided by the Montgomery Central Appraisal District as a preliminary indication of the 2026 taxable value (as of January 1, 2026). Such amount is subject to review and downward adjustment prior to certification. No tax will be levied on such amount until it is certified. See "TAX PROCEDURES."
 - (c) As provided by the Montgomery Central Appraisal District. Such amount is only an estimate of the taxable assessed value on May 1, 2026, and may be revised upward or downward once certified by the Montgomery Central Appraisal District. Increases in value occurring between January 1, 2026 and May 1, 2026, will be certified as of January 1, 2027. See "TAXING PROCEDURES."
 - (d) See "—Estimated Overlapping Debt" and "—Overlapping Taxes" herein, and "RISK FACTORS—Overlapping Debt and Taxes."
 - (e) The District will capitalize twelve (12) months of interest on the Bonds. The amount above is estimated at 4.75%. See "THE BONDS—Funds" and "USE AND DISTRIBUTION OF BOND PROCEEDS."
 - (f) Although all of the District's debt, including the Outstanding Bonds and the Bonds, is payable from an unlimited tax pledge on an equal basis, a pro rata portion of the District's ad valorem tax revenue will be allocated to bonds sold drainage facilities including the Bonds, and a pro rata portion will be allocated to bonds sold for road facilities. The Debt Service Fund balance includes capitalized interest from the Outstanding Bonds. See "THE BONDS—Funds."
 - (g) See "RISK FACTORS—Operating Funds."
 - (h) Represents surplus construction funds, and interest thereon, derived from the Outstanding Bonds and includes \$290,824 in surplus funds to be applied in connection with the Bonds. The Bonds, if, as and when issued, may produce additional surplus funds. Surplus funds for construction may be expended for any lawful purpose for which surplus funds may be used, limited, however, to the purposes for which the issue of the Outstanding Bonds which produced the surplus funds were issued. Under certain circumstances, the approval of the TCEQ is required for the use of surplus funds derived from Bonds. See "USE AND DISTRIBUTION OF BOND PROCEEDS."

Investments of the District

The District has adopted an Investment Policy as required by the Public Funds Investment Act, Chapter 2256, Texas Government Code, as amended. The District’s goal is to preserve principal and maintain liquidity while securing a competitive yield on its portfolio. Funds of the District will be invested in short term U.S. Treasuries, certificates of deposit insured by the Federal Deposit Insurance Corporation (“FDIC”) or secured by collateral evidenced by perfected safekeeping receipts held by a third party bank, and public funds investment pools rated in the highest rating category by a nationally recognized rating service. The District does not currently own, nor does it anticipate owning long term securities or derivative products in the District’s investment portfolio.

Outstanding Bonds

The District has previously issued one series of unlimited tax bonds for the purpose of acquiring or constructing drainage facilities, and one series of unlimited tax road bonds for the purpose of acquiring or constructing road facilities. The following table lists the original principal amount of such bonds by series and the principal amount outstanding as of the date hereof.

<u>Series</u>	<u>Original Principal Amount</u>	<u>Outstanding Bonds as of 7/1/2025</u>
2024	\$ 7,100,000	\$ 7,100,000
2025 (a)	<u>1,850,000</u>	<u>1,850,000</u>
Total	\$ 8,950,000	\$ 8,950,000

(a) Unlimited Tax Road Bonds.

Debt Service Requirements

The following sets forth the debt service on the Outstanding Bonds and the estimated debt service on the Bonds at an estimated interest rate per annum of 4.75%. This schedule does not reflect the fact that the District capitalized twenty-four (24) months of interest from proceeds of the Series 2024 Bonds and the Series 2025 Road Bonds and that the District will capitalize twelve (12) months of interest from proceeds of the Bonds. See "USE AND DISTRIBUTION OF BOND PROCEEDS."

Year	Outstanding Bonds Debt Service Requirements	Debt Service on the Bonds			Total Debt Service Requirements

(a) Does not include the March 1, 2026 debt service payment in the amount of \$189,218.

Average Annual Debt Service Requirements (2027-2051) \$ 925,695
 Maximum Annual Debt Service Requirement (2049) \$1,035,638

Estimated Overlapping Debt

The following table indicates the outstanding debt payable from ad valorem taxes of governmental entities within which the District is located and the estimated percentages and amounts of such indebtedness attributable to property within the District. Debt figures equated herein to outstanding obligations payable from ad valorem taxes are based upon data obtained from individual jurisdictions or Texas Municipal Reports compiled and published by the Municipal Advisory Council of Texas. Furthermore, certain entities listed below may have issued additional obligations since the date listed and may have plans to incur significant amounts of additional debt. Political subdivisions overlapping the District are authorized by Texas law to levy and collect ad valorem taxes for the purposes of operation, maintenance and/or general revenue purposes in addition to taxes for the payment of debt service and the tax burden for operation, maintenance and/or general revenue purposes is not included in these figures. The District has no control over the issuance of debt or tax levies of any such entities.

Taxing Jurisdiction	Outstanding Bonds	As of	Overlapping	
			Percent	Amount
Montgomery County.....	\$ 535,450,000	5/31/2026	0.22%	\$ 1,167,281

Estimated Taxable Assessed Valuation as of May 1, 2026 of \$514,171,034.....	16.87%

- (a) Includes approximately \$22,000,000 principal amount of unlimited tax bonds expected to be issued in the third quarter of 2026. See “RISK FACTORS—Overlapping Debt and Taxes.”
- (b) Includes approximately \$4,500,000 principal amount of unlimited tax bonds expected to be issued in the fourth quarter of 2026. See “Risk FACTORS—Overlapping Debt and Taxes.”
- (c) Includes the Bonds and the Outstanding Bonds.

Overlapping Taxes

Property within the District is subject to taxation by several taxing authorities in addition to the District. On January 1 of each year a tax lien attaches to property to secure the payment of all taxes, penalties and interest imposed on such property. The lien exists in favor of each taxing unit, including the District, having the power to tax the property. The District’s tax lien is on a parity with tax liens of taxing authorities shown below. In addition to ad valorem taxes required to pay debt service on bonded debt of the District and other taxing authorities, certain taxing jurisdictions, including the District, are also authorized by Texas law to assess, levy and collect ad valorem taxes for operation, maintenance, administrative and/or general revenue purposes.

Set forth below are all of the taxes levied for the 2025 tax year by all overlapping taxing jurisdictions and for the District and MUD 152A. No recognition is given to local assessments for civic association dues, fire department contributions, solid waste disposal charges or any other levy of entities other than political subdivisions.

	Tax Rate per \$100 of Taxable Assessed Valuation

The District (b).....	0.3500
Total Tax Rate.....	\$ 3.0260

- (a) A portion of the land within the District is within MUD 152B, which levied a 2025 tax rate of \$1.10 per \$100 of taxable assessed valuation (all maintenance). See “RISK FACTORS—Overlapping Debt and Taxes.”
- (b) See “TAX DATA—Tax Rate Distribution.”

District Operations

The Bonds and Outstanding Bonds are payable solely from the levy of an ad valorem tax, without legal limitation as to rate or amount, upon all taxable property in the District. Net revenues from operations of the District's system, if any, are available for any legal purpose, including, upon Board action, the payment of debt service on the Bonds and Outstanding Bonds. It is anticipated that no significant operation revenues will be used for debt service on the Bonds or Outstanding Bonds in the foreseeable future.

The following statement sets forth in condensed form the General Operating Fund for the District as shown in the District's audited financial statements for the fiscal years ended August 31, 2022, through 2025 and an unaudited summary for the eight month period ended April 30, 2026 provided by the Bookkeeper. Such figures are included for informational purposes only. Accounting principles customarily employed in the determination of net revenues have been observed and, in all instances, exclude depreciation. Reference is made to "APPENDIX A" for further and complete information.

(d) Developer advance.

TAX DATA

Debt Service Tax

The Board covenants in the Bond Order to levy and assess, for each year that all or any part of the Bonds and the Outstanding Bonds remain outstanding and unpaid, a tax adequate to provide funds to pay the principal of and interest on the Bonds and the Outstanding Bonds. See “Tax Rate Distribution” and “Tax Roll Information” below, and “TAXING PROCEDURES.”

Maintenance and Operations Tax

The Board has the statutory authority to levy and collect an annual ad valorem tax for the operation and maintenance of the District, if such a maintenance tax is authorized by the District’s voters. A maintenance tax election was held on May 7, 2022, and voters of the District authorized, among other things, the Board to levy a maintenance tax at a rate not to exceed \$1.50 per \$100 taxable assessed valuation for operations and maintenance costs. A maintenance tax is in addition to taxes which the District is authorized to levy for paying principal of and interest on the Bonds. See “Debt Service Tax” above.

Tax Exemptions

For the tax year 2026, the District has adopted an exemption of \$10,000 of the appraised value of residential homesteads of individuals who are sixty-five (65) years of age or older, or residential homesteads of individuals who are under a disability for purposes of payment of disability insurance benefits under the Federal Old-Age Survivors and Disability Insurance Act. See “TAXING PROCEDURES—Property Subject to Taxation by the District.”

Tax Rate Distribution

	2025	2024	2023	2022
Debt Service Tax	\$ 0.0850	\$ -	\$ -	\$ -
Maintenance and Operations Tax	0.2650	0.3500	0.3500	0.3500
Total Tax Rate	\$ 0.3500	\$ 0.3500	\$ 0.3500	\$ 0.3500

Historical Tax Collections

The following statement of tax collections sets forth in condensed form the historical tax experience of the District. Tax year 2022 was the initial year of taxation for the District. Such table has been prepared for inclusion herein based upon information obtained from a report prepared by the Tax Assessor/Collector. Reference is made to such statements and records for further and complete information. See “Tax Roll Information” below.

Tax Year	Certified Taxable Assessed	Tax Rate	Total Tax Levy	Total Collections 4/30/2026 (b)	
	Valuation (a)			Amount	Percent
2022	\$ 6,570,460	\$ 0.35	\$ 22,997	\$ 22,997	100.00%
2023	29,496,115	0.35	103,236	102,647	100.00%
2024	118,795,422	0.35	415,784	411,776	99.04%
2025	238,550,602	0.35	834,927	784,120	93.91% (c)

- (a) Net valuation represents final gross appraised value as certified by the Appraisal District less any exemptions granted. See “Tax Roll Information” below for gross appraised value and exemptions granted by the District.
- (b) Unaudited.
- (c) Montgomery Central Appraisal District (the “Appraisal District”) has experienced significant delays in appraising, noticing and certifying property values throughout the past year. The District continues to see significant delays in the Appraisal District’s certification of assessed values within the District. These delays have resulted in a lag in tax collections as owners are afforded additional time beyond traditional timeline to protest values. The District anticipates tax collections to reach the levels of previous years.

Tax Roll Information

The District’s taxable assessed value as of January 1 of each year is used by the District in establishing its tax rate. See “TAXING PROCEDURES—Valuation of Property for Taxation.” The following represents the composition of property comprising the 2022 through 2025 Certified Taxable Assessed Valuations. Accurate breakdowns of the 2026 Preliminary Taxable Assessed Valuation of \$444,175,936, which is subject to review and downward revision prior to certification, or the Estimated Taxable Assessed Valuation as of May 1, 2026, of \$514,171,034, are not available.

Tax Year	Type of Property			Gross Assessed Valuation	Deferments and Exemptions	Certified Taxable Assessed Valuation
	Land	Improvements	Personal Property			
2022	\$ 6,570,460	\$ -	\$ -	\$ 6,570,460	\$ -	\$ 6,570,460
2023	34,566,330	4,494,740	75,065	39,136,135	(9,640,020)	29,496,115
2024	59,244,521	72,264,433	119,565	131,628,519	(12,833,097)	118,795,422
2025	71,534,584	228,041,593	1,436,255	301,012,432	(62,461,830)	238,550,602

Principal Taxpayers

The following table represents the principal taxpayers, the taxable assessed value of such property, and such property’s taxable assessed value as a percentage of the 2025 Certified Taxable Assessed Valuation. This represents ownership as of January 1, 2025. Principal taxpayer lists related to the 2026 Preliminary Taxable Assessed Valuation of \$444,175,963, which is subject to review and downward revision prior to certification, or the Estimated Taxable Assessed Valuation as of May 1, 2026, of \$514,171,034 are not available.

Taxpayer	2025 Certified Taxable Assessed Valuation	% of 2025 Certified Taxable Assessed Valuation
Toll Southwest LLC (b)	\$ 8,267,440	3.47%
TPHTL HBL LLC (a)	6,195,347	2.60%
Tri Pointe Homes Texas, Inc. (b)	4,397,312	1.85%
TLM GP Townsen Rd LLC	1,676,799	0.71%
Individual	1,278,989	0.54%
Individual	1,251,467	0.53%
Individual	1,244,327	0.53%
Individual	1,169,270	0.50%
Individual	1,157,906	0.49%
Individual	1,156,816	0.49%
Total	\$ 27,795,673	11.71%

(a) See “THE DEVELOPER.”

(b) See “THE DISTRICT—Homebuilding.”

Tax Adequacy for Debt Service

The tax rate calculations set forth below are presented to indicate the tax rates per \$100 of taxable assessed valuation which would be required to meet average annual and maximum annual debt service requirements on the Bonds and the Outstanding Bonds if no growth in the District’s tax base occurred beyond the 2026 Preliminary Taxable Assessed Valuation of \$444,175,936, which is subject to review and downward revision prior to certification, or the Estimated Taxable Assessed Valuation as of May 1, 2026 of \$514,171,034. The calculations contained in the following table merely represent the tax rates required to pay principal of and interest on the Bonds and the Outstanding Bonds when due, assuming no further increase or any decrease in the taxable value in the District, collection of ninety-five percent (95%) of taxes levied, the sale of no additional bonds, and no other funds available for the payment of debt service. See “FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Debt Service Requirements” and “RISK FACTORS—Possible Impact on District Tax Rates.”

Average Annual Debt Service Requirement (2027-2051)	\$925,695
\$0.22 Tax Rate on 2025 Taxable Assessed Valuation	\$928,328
\$0.19 Tax Rate on Estimated Taxable Assessed Valuation as of July 1, 2025	\$928,079
Maximum Annual Debt Service Requirement (2049).....	\$1,035,638
\$0.25 Tax Rate on 2026 Preliminary Taxable Assessed Valuation	\$1,054,918
\$0.22 Tax Rate on Estimated Taxable Assessed Valuation as of May 1, 2026	\$1,074,617

No representation or suggestion is made that the 2026 Preliminary Taxable Assessed Valuation or the Estimated Taxable Assessed Valuation as of May 1, 2026 will be certified as taxable value by the Appraisal District, and no person should rely upon such amounts or their inclusion herein as assurance of their attainment. See “TAXING PROCEDURES.”

TAXING PROCEDURES

Property Tax Code and County-Wide Appraisal District

The Texas Tax Code (the “Property Tax Code”) requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State of Texas a single appraisal district with the responsibility for recording and appraising property for all taxing units within a county and a single appraisal review board with the responsibility for reviewing and equalizing the values established by the appraisal district. The Montgomery Central Appraisal District (the “Appraisal District”) has the responsibility for appraising property for all taxing units wholly within Montgomery County, including the District. Such appraisal values are subject to review and change by the Montgomery County Appraisal Review Board (the “Appraisal Review Board”). Under certain circumstances, taxpayers and taxing units (such as the District) may appeal the orders of the Appraisal Review Board by filing a petition for review in State district court. In such event, the value of the property in question will be determined by the court or by a jury if requested by any party. Absent any such appeal, the appraisal roll, as prepared by the Appraisal District and approved by the Appraisal Review Board, must be used by each taxing jurisdiction in establishing its tax roll and tax rate. The District is eligible, along with all other conservation and reclamation districts within Montgomery County, to participate in the nomination of and vote for a member of the Board of Directors of the Appraisal District.

Property Subject to Taxation by the District

Except for certain exemptions provided by Texas law, all real property and tangible personal property in the District is subject to taxation by the District; however, it is expected that no effort will be made by the District to collect taxes on personal property other than on personal property rendered for taxation, business inventories and the property of privately-owned utilities. Principal categories of exempt property include: property owned by the State of Texas or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; certain household goods, family supplies, and personal effects; farm products owned by the producer; all oil, gas and mineral interests owned by an institution of higher education; certain property owned by exclusively charitable organizations, youth development associations, religious organizations, and qualified schools; designated historical sites; solar and wind-powered energy devices; and most individually owned automobiles. In addition, the District may by its own action exempt residential homesteads of persons sixty-five (65) years or older or under a disability for purposes of payment of disability insurance benefits under the Federal Old-Age Survivors and Disability Insurance Act to the extent deemed advisable by the Board. The District would be required to call an election on such residential homestead exemption upon petition by at least twenty percent (20%) of the number of qualified voters who voted in the District's preceding election and would be required to offer such an exemption if a majority of voters approve it at such election. For the 2026 tax year, the District has granted an exemption of \$10,000 of assessed valuation for persons 65 years of age and older and to individuals who are under a disability for the purposes of payment of disability insurance benefits under the Federal OldAge Survivors and Disability Insurance Act. The District must grant exemptions to disabled veterans or certain surviving dependents of disabled veterans, if requested, of between \$5,000 and \$12,000 of assessed valuation depending upon the disability rating of the veteran, if such rating is less than 100%. A veteran who receives a disability rating of 100% is entitled to an exemption for the full value of the veteran's residence homestead. Additionally, subject to certain conditions, the surviving spouse of a disabled veteran who is entitled to an exemption for the full value of the veteran's residence homestead is also entitled to an exemption from taxation of the total appraised value of the same property to which the disabled veteran's exemption applied. A partially disabled veteran or certain surviving spouses of partially disabled veterans are entitled to an exemption from taxation of a percentage of the appraised value of their residence homestead in an amount equal to the partially disabled veteran's disability rating if (i) the residence homestead was donated

by a charitable organization at no cost to the disabled veteran or, (ii) the residence was donated by a charitable organization at some cost to the disabled veteran if such cost is less than or equal to fifty percent (50%) of the total good faith estimate of the market value of the residence as of the date the donation is made. Also, the surviving spouse of a member of the armed forces or a first responder (as defined under Texas law), who was (i) killed in action, or (ii) fatally injured in the line of duty, is, subject to certain conditions, entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse.

A "Freeport Exemption" applies to goods, wares, merchandise, other tangible personal property and ores, other than oil, natural gas, and petroleum products (defined as liquid and gaseous materials immediately derived from refining oil or natural gas), and to aircraft or repair parts used by a certified air carrier acquired in or imported into Texas which are destined to be forwarded outside of Texas and which are detained in Texas for assembling, storing, manufacturing, processing or fabricating for less than 175 days. Although certain taxing units may take official action to tax such property in transit and negate such exemption, the District does not have such an option. A "Goods-in-Transit" Exemption is applicable to certain tangible personal property, as defined by the Tax Code, acquired in or imported into Texas for storage purposes and which is stored under a contract of bailment by a public warehouse operator at one or more public warehouse facilities in Texas that are not in any way owned or controlled by the owner of such property for the account of the person who acquired or imported such property. The exemption excludes oil, natural gas, petroleum products, aircraft and certain special inventory including dealer's motor vehicles, dealer's vessel and outboard motor vehicle, dealer's heavy equipment and retail manufactured housing inventory. The exemption applies to covered property if it is acquired in or imported into Texas for assembling, storing, manufacturing, processing, or fabricating purposes and is subsequently forwarded to another location inside or outside of Texas not later than 175 days after acquisition or importation. A property owner who receives the Goods-in-Transit Exemption is not eligible to receive the Freeport Exemption for the same property. Local taxing units such as the District may, by official action and after public hearing, tax goods-in-transit personal property. A taxing unit must exercise its option to tax goods-in-transit property before January 1 of the first tax year in which it proposes to tax the property at the time and in the manner prescribed by applicable law. However, taxing units who took official action as allowed by prior law before October 1, 2011, to tax goods-in-transit property, and who pledged such taxes for the payment of debt, may continue to impose taxes against the goods-in-transit property until the debt is discharged without further action, if cessation of the imposition would impair the obligations of the contract by which the debt was created. The District has not exercised its option to tax goods-in-transit personal property, but may choose to do so in the future.

General Residential Homestead Exemption

Texas law authorizes the governing body of each political subdivision in the State of Texas to exempt up to twenty percent (20%) of the appraised value of residential homesteads, but not less than \$5,000, if any exemption is granted, from ad valorem taxation. The law provides, however, that where ad valorem taxes have previously been pledged for the payment of debt, the governing body of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged, if the cessation of the levy would impair the obligations of the contract by which the debt was created. The District has never granted a general residential homestead exemption.

Valuation of Property for Taxation

Generally, property in the District must be appraised by the Appraisal District at market value as of January 1 of each year. Assessments under the Property Tax Code are to be based upon one hundred percent (100%) of market value. The appraised value of residential homestead property may be limited to the lesser of the market value of the property, or the sum of the appraised value of the property for the last year in which it was appraised, plus ten percent (10%) of such appraised value multiplied by the number of years since the last appraisal, plus the market value of all new improvements to the property. Once an appraisal roll is prepared and approved by the Appraisal Review Board, it is used by the District in establishing its tax rate. The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraised values. The plan must provide for appraisal of all real property by the Appraisal District at least once every three (3) years. It is not known what frequency of reappraisal will be utilized by the Appraisal District or whether reappraisals will be conducted on a zone or county-wide basis.

The Property Tax Code provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as the District, adopting its tax rate for the tax year. A taxing unit, such as the District, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

District and Taxpayer Remedies

Under certain circumstances, taxpayers and taxing units, including the District, may appeal orders of the Appraisal Review Board by filing a petition for review in district court within forty-five (45) days after notice is received that a final order has been entered. In such event, the property value in question may be determined by the court, or by a jury, if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to comply with the Property Tax Code. The District may challenge the exclusion of property from the appraisal rolls or the grant, in whole or in part, of an exemption.

Texas law provides for notice and hearing procedures prior to the adoption of an ad valorem tax rate by the District. Additionally, under certain circumstances, an election would be required to determine whether to approve the adopted total tax rate. See "TAXING PROCEDURES—Rollback of Operations and Maintenance Tax Rate." The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property values, appraisals that are higher than renditions and appraisals of property not previously on an appraisal roll.

Agricultural, Open Space, Timberland, and Inventory Deferment

The Property Tax Code permits land designated for agricultural use (including wildlife management), open space, or timberland to be appraised at its value based on the land's capacity to produce agriculture or timber products rather than at its fair market value. The Property Tax Code permits, under certain circumstances, that residential real property inventory held by a person in the trade or business be valued at the price all such property would bring if sold as a unit to a purchaser who would continue the business. Landowners wishing to avail themselves of any of such designations must apply for the designation, and the Appraisal District is required by the Property Tax Code to act on each claimant's right to the designation individually. A claimant may waive the special valuation as to taxation by some political subdivisions and not as to others. If a claimant receives the designation and later loses it by changing the use of the property or selling it to an unqualified owner, the District can collect taxes based on the new use for the three (3) years prior to the loss of the designation for agricultural, timberland or open space land. According to the District's Tax Assessor/Collector, as of January 1, 2025, approximately 8.09 acres of land within the District was designated for agricultural use, open space, inventory deferment or timberland.

Tax Abatement

The City of Conroe and Montgomery County may designate all or part of the District as a reinvestment zone, and the District, Montgomery County, and (if it were to annex the area) the City of Conroe may thereafter enter into tax abatement agreements with the owners of property within the zone. The tax abatement agreements may exempt from ad valorem tax, by the applicable taxing jurisdictions, and by the District, for a period of up to ten (10) years, all or any part of any increase in the assessed valuation of property covered by the agreement over its assessed valuation in the year in which the agreement is executed, on the condition that the property owner make specified improvements or repairs to the property in conformity with a comprehensive plan. According to the District's Tax Assessor/Collector, to date, none of the area within the District has been designated as a reinvestment zone.

Levy and Collection of Taxes

The District is responsible for the collection of its taxes, unless it elects to transfer such functions to another governmental entity. The District adopts its tax rate each year after it receives a tax roll certified by the Appraisal District. Taxes are due upon receipt of a bill therefor, and become delinquent after January 31 of the following year or 30 days after the date billed, whichever is later, or, if billed after January 10, they are delinquent on the first day of the month next following the 21st day after such taxes are billed. A delinquent tax accrues interest at a rate of one percent (1%) for each month or portion of a month the tax remains unpaid beginning the first calendar month it is delinquent. A delinquent tax also incurs a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent plus a one percent (1%) penalty for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. However, a tax delinquent on July 1 incurs a total penalty of twelve percent (12%) of the amount of the delinquent tax without regard to the number of months the tax has been delinquent, which penalty remains at such rate without further increase. If the tax is not paid by July 1, an additional penalty of up to the amount of the compensation specified in the District's contract with its delinquent tax collection attorney, but not to exceed twenty percent (20%) of the total tax, penalty and interest, may, under certain circumstances, be imposed by the District. With respect to personal property taxes that become delinquent on or after February 1 of a year and that remain delinquent sixty (60) days after the date on which they become delinquent, as an alternative to the penalty described in the foregoing sentence, an additional penalty on personal property of up to the amount specified in the District's contract with its delinquent tax attorney, but not to exceed twenty percent (20%) of the total tax, penalty and interest, may, under certain circumstances, be imposed by the District prior to July 1. The District's contract with its delinquent tax collection attorney currently specifies a twenty percent (20%) additional penalty. The District may waive penalties and interest on delinquent taxes only for the items specified in the Texas Property Tax Code. The Property Tax Code also makes provision for the split payment of taxes, discounts for early payment and the postponement of the delinquency of taxes under certain circumstances. The owner of a residential homestead property who is (i) a person sixty-five (65) years of age or older, (ii) under a disability for purpose of payment of disability insurance benefits under the Federal Old Age Survivors and Disability Insurance Act, or (iii) qualifies as a disabled veteran under Texas law, is also entitled by law to pay current taxes on a residential homestead in installments or to defer the payment of taxes without penalty during the time of ownership. Additionally, a person who is delinquent on taxes for a residential homestead is entitled to an agreement with the District to pay such taxes in installments over a period of between 12 and 36 months (as determined by the District) when such person has not entered into another installment agreement with respect to delinquent taxes with the District in the preceding 24 months.

Rollback of Operation and Maintenance Tax Rate

Chapter 49 of the Texas Water Code, as amended, classifies certain special purpose districts, including the District, differently based on their current operation and maintenance tax rate or on the percentage of projected build-out that a district has completed. Districts that have adopted an operation and maintenance tax rate for the current year that is 2.5 cents or less per \$100 of taxable value are classified herein as “Low Tax Rate Districts.” Districts that have financed, completed, and issued bonds to pay for all land, improvements and facilities necessary to serve at least 95% of the projected build-out of the district are classified as “Developed Districts.” Districts that do not meet either of the classifications previously discussed can be classified herein as “Developing Districts.” The impact each classification has on the ability of a district to increase its maintenance and operations tax rate is described for each classification below. Debt service and contract tax rates cannot be reduced by a rollback election held within any of the districts described below. See “SELECTED FINANCIAL INFORMATION” AND “TAX DATA” for a description of the District’s current total tax rate.

Low Tax Rate Districts: Low Tax Rate Districts that adopt a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Low Tax Rate District is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.08 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions.

Developed Districts: Developed Districts that adopt a total tax rate that would impose more than 1.035 times the amount of the total tax imposed by the district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, plus any unused increment rates, as calculated and described in Section 26.013 of the Tax Code, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Developed District is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.035 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions, plus any unused increment rates. In addition, if any part of a Developed District lies within an area declared for disaster by the Governor of Texas or President of the United States, alternative procedures and rate limitations may apply for a temporary period. If a district qualifies as both a Low Tax Rate District and a Developed District, the district will be subject to the operation and maintenance tax threshold applicable to Low Tax Rate Districts.

Developing Districts: Districts that do not meet the classification of a Low Tax Rate District or a Developed District can be classified as Developing Districts. The qualified voters of these districts, upon the Developing District's adoption of a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead in the district, subject to certain homestead exemptions, are authorized to petition for an election to reduce the operation and maintenance tax rate. If an election is called and passes, the total tax rate for Developing Districts is the current year's debt service and contract tax rate plus the operation and maintenance tax rate that would impose 1.08 times the amount of operation and maintenance tax imposed by the district in the preceding year on a residence homestead appraised at the average appraised value of a residence homestead in the district in that year, subject to certain homestead exemptions.

The District: A determination as to a district’s status as a Low Tax Rate District, Developed District or Developing District will be made by the Board of Directors on an annual basis. For tax year 2026, the District has been designated as a “Developing District.” The District cannot give any assurances as to what its classification will be at any point in time or whether the District's future tax rates will result in a total tax rate that will reclassify the District into a new classification and new election calculation.

District’s Rights in the Event of Tax Delinquencies

Taxes levied by the District are a personal obligation of the owner of the property against which the tax is levied. In addition, on January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of each taxing unit, including the District, having power to tax the property. The District's tax lien is on a parity with tax liens of other such taxing units. See “FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Overlapping Taxes.” A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien, whether or not the debt or lien existed before the attachment of the tax lien. Further, personal property under certain circumstances is subject to seizure and sale for the payment of delinquent taxes, penalties, and interest.

Except with respect to (i) owners of residential homestead property who are sixty-five (65) years of age or older or under a disability as described above and who have filed an affidavit as required by law and (ii) owners of residential homesteads who have entered into an installment agreement with the District for payment of delinquent taxes as described above and who are not in default under said agreement, at any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the District must join other taxing units that have claims for delinquent taxes against all or part of the same property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, or by taxpayer redemption rights (a taxpayer may redeem property that is a residence homestead or was designated for agricultural use within two (2) years after the deed issued at foreclosure is filed of record and may redeem all other property within six (6) months after the deed issued at foreclosure is filed of record) or by bankruptcy proceedings which restrict the collection of taxpayer debt. The District's ability to foreclose its tax lien or collect penalties and interest may be limited on property owned by a financial institution which is under receivership by the Federal Deposit Insurance Corporation pursuant to the Federal Deposit Insurance Act (12 U.S.C. 1825, as amended). Generally, the District's tax lien and a federal tax lien are on par with the ultimate priority being determined by applicable federal law. See "RISK FACTORS—Tax Collection Limitations and Foreclosure Remedies."

RISK FACTORS

General

The Bonds are obligations solely of the District and are not obligations of the State of Texas, Montgomery County, the City of Conroe, or any entity other than the District. Payment of the principal of and interest on the Bonds depends upon the ability of the District to collect taxes levied on taxable property within the District in an amount sufficient to service the District's bonded debt or, in the event of foreclosure, on the value of the taxable property in the District and the taxes levied by the District and other taxing authorities upon the property within the District. See "THE BONDS—Source and Security for Payment." The collection by the District of delinquent taxes owed to it and the enforcement by Registered Owners of the District's obligation to collect sufficient taxes may be a costly and lengthy process. Furthermore, the District cannot and does not make any representations that continued development of taxable property within the District will accumulate or maintain taxable values sufficient to justify continued payment of taxes by property owners or that there will be a market for the property or that owners of the property will have the ability to pay taxes. See "Registered Owners' Remedies" herein.

Undeveloped Acreage, Vacant Lots and Occupied Homes

There are approximately 208 developable acres of land within the District (including approximately 46 acres under construction for the development of 149 single-family residential lots) that have not been fully provided with water, wastewater and storm drainage facilities necessary for the construction of taxable improvements and 321 developed single-family residential lots that remain vacant. The District makes no representation as to when or if development of the undeveloped acreage will occur or the success of any homebuilding programs. Future increases in value will result primarily from the construction of homes by builders. Failure of the Developer to develop the developable land or of the Builders to construct homes on the developed lots could restrict the growth of taxable values in the District. See "THE DISTRICT—Land Use" and "—Status of Development."

Developer/Landowner Obligation to the District

There are no commitments from or obligations of the Developer or any other landowner to the District to proceed at any particular rate or according to any specified plan with the development of land or the construction of improvements in the District, and there is no restriction on any landowner's right to sell its land. Failure to construct taxable improvements on developed lots or developed tracts of land could restrict the rate of growth of taxable values in the District. The District cannot and does not make any representations that over the life of the Bonds the District will increase or maintain its taxable value.

Economic Factors and Interest Rates

A substantial percentage of the taxable value of the District results from the current market value of single-family residences, undeveloped land and developed lots available for the construction of primary residences. The market value of such homes, lots and undeveloped land is related to general economic conditions in the greater Houston metropolitan region and the national economy and those conditions can affect the demand for residences. Demand for lots and undeveloped land of this type and the construction of residential and commercial improvements thereon can be significantly affected by factors such as interest rates, credit availability, construction costs, energy availability and the prosperity and demographic characteristics of the urban center toward which the marketing of lots is directed. Decreased levels of construction activity would tend to restrict the growth of property values in the District or could adversely impact such values. See "THE DISTRICT—Homebuilding" and "Credit Markets and Liquidity in the Financial Markets" below.

Credit Markets and Liquidity in the Financial Markets

Interest rates and the availability of mortgage and development funding have a direct impact on the construction activity, particularly short-term interest rates at which developers are able to obtain financing for development costs. Interest rate levels may affect the ability of a landowner with undeveloped property to undertake and complete construction activities within the District. Because of the numerous and changing factors affecting the availability of funds, the District is unable to assess the future availability of such funds for continued construction within the District. In addition, since the District is located approximately 25 miles north of the central downtown business district of the City of Houston, and 14 miles southeast of the City of Conroe, the success of development within the District and growth of District taxable property values are, to a great extent, a function of the greater Houston metropolitan and regional economies and the national financial and credit markets. A downturn in the economic conditions of the greater Houston metropolitan area and the nation could adversely affect development and building plans in the District and restrain the growth or reduce the value of the District's property tax base.

Competition

The demand for and construction of single-family homes in the District, which is 25 miles north of the central downtown business district of the City of Houston, could be affected by competition from other residential developments, including other residential developments located in the northern portion of the Houston area market and in Woodson's Reserve. In addition to competition for new home sales from other developments, there are numerous previously-owned homes in the area of the District. Such homes could represent additional competition for new homes proposed to be sold within the District.

The competitive position of the Builders in the sale of single-family residential houses within the District is affected by most of the factors discussed in this section. Such a competitive position directly affects the growth and maintenance of taxable values in the District and tax revenues to be received by the District. The District can give no assurance that building and marketing programs in the District by the Developer will be implemented or, if implemented, will be successful.

Increase in Costs of Building Materials

As a result of supply issues, shipping constraints, and ongoing trade disputes (including tariffs), there have been recent substantial increases in the cost of lumber and other building materials, causing many homebuilders and general contractors to experience budget overruns. Further, the unpredictable nature of current trade policy (including the threatened imposition of tariffs) may impact the ability of the Developer or homebuilders in the District to estimate costs.

Additionally, immigration policies may affect the State's workforce, and any labor shortages that could occur may impact the rate of construction within the District. Uncertainty surrounding availability and cost of materials may result in decreased levels of construction activity, and may restrict the growth of property values in the District. The District makes no representations regarding the probability of development or homebuilding continuing in a timely manner or the effects that current or future economic or governmental circumstances may have on any plans of the Developer or homebuilders.

Operating Funds

The District provides major drainage and channel improvements and park and road facilities within its boundaries and receives no revenue other than maintenance tax revenue. The District has levied a 2025 total tax rate of \$0.35 per \$100 of taxable assessed valuation comprised of \$0.085 per \$100 of taxable assessed valuation for debt service and \$0.265 per \$100 of taxable assessed valuation for maintenance and operations. The District's General Fund balance as of May 20, 2026 was \$81,974. The revenue produced from a \$0.265 maintenance tax rate may not be sufficient to offset the operating expenses of the District. Continued maintenance of a positive General Fund balance will depend upon (1) cash subsidies from the Developer, and (2) continued development and increased amounts of maintenance tax revenue. If funds from these sources are not forthcoming, the District would have to increase its maintenance tax rate. Such an increase may result in a total District tax in excess of similar developments and could adversely affect continued development of the District, as well as the willingness of taxpayers to pay taxes on their property. See "FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—District Operations."

Possible Impact on District Tax Rates

Assuming no further development, the value of the land and improvements currently within the District will be the major determinant of the ability or willingness of owners of property within the District to pay their taxes. The 2026 Preliminary Taxable Assessed Valuation, which is under review and subject to adjustments and corrections, is \$444,175,963. See "FINANCIAL STATEMENT (UNAUDITED)." Assuming no increase or decrease from the 2026 Preliminary Taxable Assessed Valuation, the issuance of no additional debt, and no other funds available for the payment of debt service, tax rates of \$0.25 and \$0.22 per \$100 of assessed valuation at a ninety-five percent (95%) collection rate would be necessary to pay the maximum annual debt service requirement and average annual debt service requirement, respectively. The Estimated Taxable Assessed Valuation as of May 1, 2026 is \$514,171,034. Assuming no increase or decrease from the Estimated Taxable Assessed Valuation as of May 1, 2026 and no use of other funds other than tax collections, tax rates of \$0.22 and \$0.19 per \$100 assessed valuation at a 95% collection rate would be necessary to pay the maximum annual debt service requirement and the average annual debt service requirement, respectively. See "FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Debt Service Requirements" and "TAX DATA—Tax Adequacy for Debt Service."

No representation or suggestion is made that the 2026 Preliminary Assessed Valuation or the Estimated Taxable Assessed Valuation as of May 1, 2026, will be the amount finally certified by the Montgomery Central Appraisal District and no person should rely upon such amounts or their inclusion herein as assurance of their attainment. See “TAXING PROCEDURES.”

Overlapping Debt and Taxes

The approximate 1,014 acres of the land within the District is included within the boundaries of either MUD 152A, MUD 152B, or MUD 152C and is currently subject to taxation by either MUD 152A or MUD 152B. MUD 152A levied a 2025 tax rate in the amount of \$1.10 per \$100 of taxable assessed valuation comprised of \$0.62 per \$100 of taxable assessed valuation for debt service and \$0.48 per \$100 of taxable assessed valuation for maintenance and operations. MUD 152B levied a 2025 tax rate in the amount of \$1.10 per \$100 of taxable assessed valuation all for maintenance and operations. Currently, development occurring in the District is within MUD 152A and MUD 152B. MUD 152A is authorized to issue unlimited tax bonds in a maximum principal amount of \$124,442,000 for the purposes of acquiring or constructing water, sewer and drainage facilities, \$49,500,000 for the purposes of acquiring or constructing road facilities and \$36,920,000 for the purposes of acquiring or constructing parks and recreational facilities without additional voter approval. MUD 152A has previously issued a total of \$10,075,000 in aggregate principal amount of unlimited tax for road facilities and \$23,000,000 principal amount of unlimited tax bonds for water, sanitary sewer and drainage facilities, \$32,760,000 of which remains outstanding as of the date hereof. MUD 152A expects to issue approximately \$22,000,000 principal amount of unlimited tax bonds in the third quarter of 2026. MUD 152B is authorized to issue unlimited tax bonds in a maximum principal amount of \$136,500,000 for the purposes of acquiring or constructing water, sanitary sewer and drainage facilities, \$65,000,000 for the purposes of acquiring or constructing road facilities and \$33,950,000 for the purposes of acquiring or constructing parks and recreational facilities without additional voter approval. MUD 152B has not issued any debt as of the date hereof and levied a 2025 tax rate in the amount of \$1.10 per \$100 of taxable assessed valuation. MUD 152B expects to issue approximately \$4,500,000 principal amount of unlimited tax road bonds in the fourth quarter of 2026. The District cannot represent whether any of the development planned or occurring in MUD 152A and MUD 152B will be successful or whether the appraised valuation of the land located within MUD 152A or MUD 152B will justify continued payment of the taxes by property owners. Increases in the tax rates of either MUD 152A or MUD 152B could have an adverse impact upon future development and home sales within the District and in the willingness of owners of property located within the District to pay ad valorem taxes levied by MUD 152A and MUD 152B and the District.

The tax rate that may be required to service debt on any bonds issued by the District in combination with MUD 152A or MUD 152B is subject to numerous uncertainties such as the growth of taxable values within its boundaries, regulatory approvals, construction costs and interest rates. There can be no assurances that the composite of the tax rates imposed by all jurisdictions on property in the District will be competitive with the composite of the tax rates imposed on competing projects in the Montgomery County area. To the extent that such composite tax rates are not competitive with competing developments, the growth of property tax values in the District and the investment quality or security of the Bonds could be adversely affected. A combined tax rate of \$1.45 per \$100 of taxable assessed valuation for the District and MUD 152A or MUD 152B is higher than the tax rate of many utility districts in the Houston metropolitan area, although such combined rate is within the range of tax rates imposed for similar purposes by many utility districts in the Houston metropolitan area in stages of development comparable with the District.

The current Texas Commission on Environmental Quality (the “TCEQ”) rules regarding the feasibility of a bond issue for utility districts in Montgomery County limit the projected combined total tax rate of entities levying a tax for water, sewer, drainage, roads and recreational facilities to \$1.50 per \$100 of taxable assessed valuation. In the case of the District, the total combined tax rate under current TCEQ rules includes the tax rate of the District in combination with MUD 152A or MUD 152B. The current combined tax rates of the District and MUD 152A or MUD 152B are consistent with the rules of the TCEQ. If the total combined tax rates of the District and MUD 152A or MUD 152B should ever exceed \$1.50 per \$100 of taxable assessed valuation, the District and MUD 152A or MUD 152B could be prohibited under rules of the TCEQ from selling additional bonds which require the prior approval of TCEQ. See “—Possible Impact on District Tax Rates” herein, “FINANCIAL INFORMATION CONCERNING THE DISTRICT (Unaudited)—Estimated Overlapping Debt” and “—Overlapping Taxes.”

Potential Effects of Oil Price Volatility on the Houston Area

The economy of the Houston area has, in the past, been particularly affected by adverse conditions in the oil and gas industry, and such conditions and their spillover effects into other industries could result in declines in the demand for residential and commercial property in the Houston area and could reduce or negatively affect property values or homebuilding activity within the District. The District cannot predict the impact that negative conditions in the oil and gas industry could have on property values in the District.

Extreme Weather Events

The greater Houston area, including the District, is subject to occasional severe weather events, including tropical storms and hurricanes. If the District were to sustain damage to its facilities requiring substantial repair or replacement, or if substantial damage were to occur to taxable property within the District as a result of such a weather event, the investment security of the Bonds could be adversely affected. The greater Houston area has experienced multiple storms exceeding a 0.2% probability (i.e. “500-year flood” events) since 2015, including Hurricane Harvey, which made landfall along the Texas Gulf Coast on August 26, 2017, and brought historic levels of rainfall during the successive four days.

If a future weather event significantly damaged all or part of the improvements within the District, the assessed value of property within the District could be substantially reduced, which could result in a decrease in tax revenues and/or necessitate an increase the District's tax rate. Further, there can be no assurance that a casualty loss to taxable property within the District will be covered by insurance (or that property owners will even carry flood or other casualty insurance), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild or repair any damaged improvements within the District. Even if insurance proceeds are available and improvements are rebuilt, there could be a lengthy period in which assessed values within the District could be adversely affected.

Specific Flood Type Risks

Ponding (or Pluvial) Flood: Ponding, or pluvial, flooding occurs when heavy rainfall creates a flood event independent of an overflowing water body, typically in relatively flat areas. Intense rainfall can exceed the drainage capacity of a drainage system, which may result in water within the drainage system becoming trapped and diverted onto streets and nearby property until it is able to reach a natural outlet. Ponding can also occur in a flood pool upstream or behind a dam, levee or reservoir.

Riverine (or Fluvial) Flood: Riverine, or fluvial, flooding occurs when water levels rise over the top of river, bayou or channel banks due to excessive rain from tropical systems making landfall and/or persistent thunderstorms over the same area for extended periods of time. The damage from a riverine flood can be widespread. The overflow can affect smaller rivers and streams downstream, or may sheet-flow over land. Flash flooding is a type of riverine flood that is characterized by an intense, high velocity torrent of water that occurs in an existing river channel with little to no notice. Flash flooding can also occur even if no rain has fallen, for instance, after a levee, dam or reservoir has failed or experienced an uncontrolled release, or after a sudden release of water by a debris or ice jam. In addition, planned or unplanned controlled releases from a dam, levee or reservoir also may result in flooding in areas adjacent to rivers, bayous or man-made drainage systems (canals or channels) downstream.

Atlas 14

In 2018, the National Weather Service completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States ("Atlas 14"). Floodplain boundaries within the District may be redrawn based upon the Atlas 14 study, which is based upon a higher statistical rainfall amount, resulting in interim floodplain regulations applying to a larger number of properties and consequently leaving less developable property within the District. Such regulations could additionally result in higher insurance rates, increased development fees and stricter building codes for any property located within the expanded boundaries of the floodplain. See "WATER, WASTEWATER AND DRAINAGE."

Tax Collections Limitations and Foreclosure Remedies

The District's ability to make debt service payments may be adversely affected by its inability to collect ad valorem taxes. Under Texas law, the levy of ad valorem taxes by the District constitutes a lien in favor of the District on a parity with the liens of all other local taxing authorities on the property against which taxes are levied, and such lien may be enforced by judicial foreclosure. The District's ability to collect ad valorem taxes through such foreclosure may be impaired by (a) cumbersome, time-consuming and expensive collection procedures, (b) a bankruptcy court's stay of tax collection procedures against a taxpayer, or (c) market conditions affecting the marketability of taxable property within the District and limiting the proceeds from a foreclosure sale of such property. Moreover, the proceeds of any sale of property within the District available to pay debt service on the Bonds may be limited by the existence of other tax liens on the property (see "FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—Overlapping Taxes"), by the current aggregate tax rate being levied against the property, and by other factors (including the taxpayers' right to redeem property within two years of foreclosure for residential and agricultural use property and six months for other property). Finally, any bankruptcy court with jurisdiction over bankruptcy proceedings initiated by or against a taxpayer within the District pursuant to the Federal Bankruptcy Code could stay any attempt by the District to collect delinquent ad valorem taxes assessed against such taxpayer. In addition to the automatic stay against collection of delinquent taxes afforded a taxpayer during the pendency of a bankruptcy, a bankruptcy could affect payment of taxes in two other ways: first, a debtor's confirmation plan may allow a debtor to make installment payments on delinquent taxes for up to six years; and, second, a debtor may challenge, and a bankruptcy court may reduce, the amount of any taxes assessed against the debtor, including taxes, that have already been paid.

Registered Owners' Remedies

If the District defaults in the payment of principal, interest, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created in the Bond Order, or defaults in the observation or performance of any other covenants, conditions, or obligations set forth in the Bond Order, the Registered Owners have the right to seek of a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Order. Except for mandamus, the Bond Order does not specifically provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, there is no trust indenture or trustee, and all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the Registered Owners.

Statutory language authorizing local governments such as the District to sue and be sued does not waive the local government's sovereign immunity from suits for money damages, so that in the absence of other waivers of such immunity by the Texas Legislature, a default by the District in its covenants in the Bond Order may not be reduced to a judgment for money damages. If such a judgment against the District were obtained, it could not be enforced by direct levy and execution against the District's property. Further, the Registered Owners cannot themselves foreclose on property within the District or sell property within the District to enforce the tax lien on taxable property to pay the principal of and interest on the Bonds. The enforceability of the rights and remedies of the Registered Owners may further be limited by a State of Texas statute reasonably required to attain an important public purpose or by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions, such as the District.

Bankruptcy Limitation to Registered Owners' Rights

The enforceability of the rights and remedies of Registered Owners may be limited by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. Texas law requires a district, such as the District, to obtain the approval of the TCEQ as a condition to seeking relief under the Federal Bankruptcy Code.

Notwithstanding noncompliance by a district with Texas law requirements, the District could file a voluntary bankruptcy petition under Chapter 9, thereby invoking the protection of the automatic stay until the bankruptcy court, after a hearing, dismisses the petition. A federal bankruptcy court is a court of equity and federal bankruptcy judges have considerable discretion in the conduct of bankruptcy proceedings and in making the decision of whether to grant the petitioning District relief from its creditors. While such a decision might be appealable, the concomitant delay and loss of remedies to the Registered Owner could potentially and adversely impair the value of the Registered Owner's claim.

If a petitioning district were allowed to proceed voluntarily under Chapter 9 of the Federal Bankruptcy Code, it could file a plan for an adjustment of its debts. If such a plan were confirmed by the bankruptcy court, it could, among other things, affect Registered Owners by reducing or eliminating the amount of indebtedness, deferring or rearranging the debt service schedule, reducing or eliminating the interest rate, modifying or abrogating collateral or security arrangements, substituting (in whole or in part) other securities, and otherwise compromising and modifying the rights and remedies of the Registered Owners' claims against a district.

A district may not be forced into bankruptcy involuntarily.

Future Debt

The District's voters have authorized the issuance of a total of \$90,843,000 in principal amount of unlimited tax bond for the purpose of acquiring or constructing drainage facilities and a total of \$72,450,000 in principal amount of unlimited tax bonds for purposes of acquiring or constructing road facilities. After issuance of the Bonds \$78,618,000 in principal amount of unlimited tax bonds for drainage facilities will remain authorized but unissued and \$70,600,000 in principal amount of such unlimited tax bonds for road facilities will remain authorized but unissued. The District's voters have also authorized the issuance of a total of \$75,450,000 in principal amount of unlimited tax bonds for the purpose of acquiring or constructing parks and recreational facilities and a total of \$238,743,000 in principal amount of unlimited tax refunding bonds for the purpose of refunding outstanding bonds of the District, none of which have been issued. See "THE BONDS—Issuance of Additional Debt," "—Financing Recreational Facilities," and "—Financing Road Facilities." The District's voters could authorize additional unlimited tax bonds for acquiring or constructing water, sewer, and drainage facilities, road facilities, and recreational facilities, and for refunding outstanding bonds of the District. Any bonds issued by the District, however, must be approved by the Attorney General of Texas and the Board of the District. The issuance of additional bonds for acquiring or constructing water, sewer, drainage and recreational facilities is subject to approval by the TCEQ pursuant to its rules regarding issuance and feasibility of bonds. The issuance of additional bonds for road facilities is currently not subject to approval by the TCEQ. The issuance of additional obligations may increase the District's tax rate and adversely affect the security for, and the investment quality and value of the Bonds.

After reimbursement with proceeds from the Bonds, the District will continue to owe funds to the Developer in the amount of approximately \$26,605,000 plus interest for advances made for the engineering and construction of drainage and road facilities, and approximately \$10,825,000 plus interest for advances made for the engineering and construction of recreational facilities; however, the principal amount of bonds (outstanding bonds must be taken into account) issued to finance recreational facilities may not exceed 1% of the value of the taxable property in the District at the time of issuance of the bonds, or, in the event the District meets certain conditions, 3% of the value of the taxable property in the District at the time of issuance of the bonds. The District intends to issue additional bonds in order to fully reimburse the Developer and to provide such facilities to the remainder of undeveloped but developable land (approximately 208 acres including approximately 46 acres currently under construction for the development of 149 single-family residential lots). In addition, future changes in health or environmental regulations could require the construction and financing of additional improvements without any corresponding increases in value of the taxable property in the District. The District does not employ any formula with respect to appraised valuations, tax collections or otherwise to limit the amount of parity bonds which it may issue. See "Overlapping Debt and Taxes" in this section and "THE BONDS—Issuance of Additional Debt," "—Financing Recreational Facilities," "—Financing Road Facilities," and "—Financing Fire-Fighting Facilities."

Marketability of the Bonds

The District has no understanding with the Underwriter regarding the reoffering yields or prices of the Bonds and has no control over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked price of the Bonds may be greater than the difference between the bid and asked price of bonds of comparable maturity and quality issued by more traditional issuers, as such bonds are more generally bought, sold or traded in the secondary market.

Environmental and Air Quality Regulations

Wastewater treatment and water supply facilities are subject to stringent and complex environmental laws and regulations. Facilities must comply with environmental laws at the federal, state, and local levels. These laws and regulations can restrict or prohibit certain activities that affect the environment in many ways such as:

- Requiring permits for construction and operation of water supply wells and wastewater treatment facilities;
- Restricting the manner in which wastes are released into the air, water, or soils;
- Restricting or regulating the use of wetlands or other property;
- Requiring action to prevent or mitigate pollution;
- Imposing substantial liabilities for pollution resulting from facility operations.

Sanctions against a municipal utility district or other type of special purpose district for failure to comply with environmental laws and regulations may include a variety of civil and criminal enforcement measures, including assessment of monetary penalties, imposition of remedial requirements and issuance of injunctions to ensure future compliance. Environmental laws and compliance with environmental laws and regulations can increase the cost of planning, designing, constructing and operating water production and wastewater treatment facilities. Environmental laws can also inhibit growth and development within the Service Area. Further, changes in regulations occur frequently, and any changes that result in more stringent and costly requirements could materially impact the District.

Air Quality Issues: Air quality control measures required by the United States Environmental Protection Agency (the “EPA”) and the Texas Commission on Environmental Quality (the “TCEQ”) may impact new industrial, commercial and residential development in the Houston area. Under the Clean Air Act (“CAA”) Amendments of 1990, the eight-county Houston-Galveston-Brazoria area (“HGB Area”)—Harris, Galveston, Brazoria, Chambers, Fort Bend, Waller, Montgomery and Liberty Counties—has been designated a nonattainment area under three separate federal ozone standards: the one-hour (124 parts per billion (“ppb”)) and eight-hour (84 ppb) standards promulgated by the EPA in 1997 (the “1997 Ozone Standards”); the tighter, eight-hour ozone standard of 75 ppb promulgated by the EPA in 2008 (the “2008 Ozone Standard”), and the EPA’s most-recent promulgation of an even lower, 70 ppb eight-hour ozone standard in 2015 (the “2015 Ozone Standard”). While the State of Texas has been able to demonstrate steady progress and improvements in air quality in the HGB Area, the HGB Area remains subject to CAA nonattainment requirements.

The HGB Area is currently designated as a “severe” nonattainment area under the 2008 Ozone Standard, with an attainment deadline of July 20, 2027. If the EPA ultimately determines that the HGB Area has failed to meet the attainment deadline based on the relevant data, the area is subject to reclassification to a nonattainment classification that provides for more stringent controls on emissions from the industrial sector. In addition, the EPA may impose a moratorium on the awarding of federal highway construction grants and other federal grants for certain public works construction projects if it finds that an area fails to demonstrate progress in reducing ozone levels.

The HGB Area is currently designated as a “moderate” nonattainment area under the 2015 Ozone Standard, with an attainment deadline of August 3, 2027. For purposes of the 2015 Ozone Standard, the HGB Area consists of only six counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, and Montgomery Counties.

In order to demonstrate progress toward attainment of the EPA’s ozone standards, the TCEQ has established a state implementation plan (“SIP”) for the HGB Area setting emission control requirements, some of which regulate the inspection and use of automobiles. These types of measures could impact how people travel, what distances people are willing to travel, where people choose to live and work, and what jobs are available in the HGB Area. These SIP requirements can negatively impact business due to the additional permitting/regulatory constraints that accompany this designation and because of the community stigma associated with a nonattainment designation. It is possible that additional controls will be necessary to allow the HGB Area to reach attainment with the ozone standards by the EPA’s attainment deadlines. These additional controls could have a negative impact on the HGB Area’s economic growth and development.

Water Supply & Discharge Issues: Water supply and discharge regulations that municipal utility districts, including the District, may be required to comply with involve: (1) groundwater well permitting and surface water appropriation; (2) public water supply systems; (3) wastewater discharges from treatment facilities; (4) storm water discharges; and (5) wetlands dredge and fill activities. Each of these is addressed below:

Certain governmental entities regulate groundwater usage in the HGB Area. A municipal utility district or other type of special purpose district that (i) is located within the boundaries of such an entity that regulates groundwater usage, and (ii) relies on local groundwater as a source of water supply, may be subject to requirements and restrictions on the drilling of water wells and/or the production of groundwater that could affect both the engineering and economic feasibility of district water supply projects.

Pursuant to the federal Safe Drinking Water Act (“SDWA”) and the EPA’s National Primary Drinking Water Regulations (“NPDWRs”), which are implemented by the TCEQ’s Water Supply Division, a municipal utility district’s provision of water for human consumption is subject to extensive regulation as a public water system. Municipal utility districts must generally provide treated water that meets the primary and secondary drinking water quality standards adopted by the TCEQ, the applicable disinfectant residual and inactivation standards, and the other regulatory action levels established under the agency’s rules. The EPA has established NPDWRs for more than ninety (90) contaminants and has identified and listed other contaminants which may require national drinking water regulation in the future.

Texas Pollutant Discharge Elimination System (“TPDES”) permits set limits on the type and quantity of discharge, in accordance with state and federal laws and regulations. The TCEQ reissued the TPDES Construction General Permit (TXR150000), with an effective date of March 5, 2018, which is a general permit authorizing the discharge of stormwater runoff associated with small and large construction sites and certain non-stormwater discharges into surface water in the state. It has a 5-year permit term, and is then subject to renewal. Moreover, the Clean Water Act (“CWA”) and Texas Water Code require municipal wastewater treatment plants to meet secondary treatment effluent limitations and more stringent water quality-based limitations and requirements to comply with the Texas water quality standards. Any water quality-based limitations and requirements with which a municipal utility district must comply may have an impact on the municipal utility district’s ability to obtain and maintain compliance with TPDES permits.

The TCEQ issued the General Permit for Phase II (Small) Municipal Separate Storm Sewer Systems (the “MS4 Permit”) on August 15, 2024. The MS4 Permit authorizes the discharge of stormwater to surface water in the state from small municipal separate storm sewer systems. While the District is currently not subject to the MS4 Permit, if the District’s inclusion were required at a future date, the District could incur substantial costs to develop, implement, and maintain the necessary plans as well as to install or implement best management practices to minimize or eliminate unauthorized pollutants that may otherwise be found in stormwater runoff in order to comply with the MS4 Permit.

Operations of utility districts, including the District, are also potentially subject to requirements and restrictions under the CWA regarding the use and alteration of wetland areas that are within the “waters of the United States.” The District must obtain a permit from the United States Army Corps of Engineers (“USACE”) if operations of the District require that wetlands be filled, dredged, or otherwise altered.

In 2023, the Supreme Court of the United States issued its decision in *Sackett v. EPA*, which clarified the definition of “waters of the United States” and significantly restricted the reach of federal jurisdiction under the CWA. Under the *Sackett* decision, “waters of the United States” includes only geographical features that are described in ordinary parlance as “streams, oceans, rivers, and lakes” and to adjacent wetlands that are indistinguishable from such bodies of water due to a continuous surface connection. Subsequently, the EPA and USACE issued a final rule amending the definition of “waters of the United States” under the CWA to conform with the Supreme Court’s decision.

While the *Sackett* decision and subsequent regulatory action removed a great deal of uncertainty regarding the ultimate scope of “waters of the United States” and the extent of EPA and USACE jurisdiction, operations of municipal utility districts, including the District, could potentially be subject to additional restrictions and requirements, including additional permitting requirements, in the future.

Future Legislation

Tax legislation, administrative actions taken by tax authorities, or court decisions, whether at the Federal or state level, may adversely affect the tax-exempt status of interest on the Bonds under Federal or state law and could affect the market price or marketability of the Bonds. Any such legislation, administrative action, or court decision could limit for certain individual taxpayers the value of certain deductions and exclusions, including the exclusion for tax-exempt interest. The likelihood of any such proposal being enacted cannot be predicted. Prospective purchasers of the Bonds should consult their own tax advisors regarding the foregoing matters.

Continuing Compliance with Certain Covenants

Failure of the District to comply with certain covenants contained in the Bond Order on a continuing basis prior to the maturity of the Bonds could result in interest on the Bonds becoming taxable retroactive to the date of original issuance. See “LEGAL MATTERS—Tax Exemption.”

Cybersecurity

The District’s consultants use digital technologies to collect taxes, hold funds and process disbursements. These systems necessarily hold sensitive protected information that is valued on the black market. As a result, the electronic systems and networks of organizations like the District’s consultants are considered targets for cyber-attacks and other potential breaches of their systems. To the extent the District is determined to be the party responsible for various electronic systems or suffers a loss of funds due to a security breach, there could be a material adverse effect on the District’s finances. Insurance to protect against such breaches is limited.

LEGAL MATTERS

Legal Opinions

The District will furnish to the Underwriter a transcript of certain certified proceedings incident to the issuance and authorization of the Bonds, including a certified copy of the approving legal opinion of the Attorney General of Texas, as recorded in the Bond Register of the Comptroller of Public Accounts of the State of Texas, to the effect that the Attorney General has examined a transcript of proceedings authorizing the issuance of the Bonds, and that based upon such examination, the Bonds are valid and binding obligations of the District payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District. The District will also furnish the approving legal opinion of Schwartz, Page & Harding, L.L.P., Houston, Texas, Bond Counsel, to the effect that, based upon an examination of such transcript, the Bonds are valid and binding obligations of the District under the Constitution and laws of the State of Texas, except to the extent that enforcement of the rights and remedies of the Registered Owners of the Bonds may be limited by laws relating to bankruptcy, reorganization, or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District and to the effect that interest on the Bonds is excludable from gross income for federal income tax purposes under the statutes, regulations, published rulings and court decisions existing on the date of such opinion, assuming compliance by the District with certain covenants relating to the use and investment of the proceeds of the Bonds. See "Tax Exemption" below. The legal opinion of Bond Counsel will further state that the Bonds are payable, both as to principal and interest, from the levy of ad valorem taxes, without legal limitation as to rate or amount, upon all taxable property within the District. Bond Counsel's opinion will also address the matters described below.

In addition to serving as Bond Counsel, Schwartz, Page & Harding, L.L.P., also serves as counsel to the District on matters not related to the issuance of bonds. The legal fees to be paid to Bond Counsel for services rendered in connection with the issuance of the Bonds are based upon a percentage of bonds actually issued, sold and delivered, and therefore such fees are contingent upon the sale and delivery of the Bonds. Certain legal matters will be passed upon for the District by McCall, Parkhurst & Horton L.L.P., Houston, Texas, as Disclosure Counsel.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

Legal Review

In its capacity as Bond Counsel, Schwartz, Page & Harding, L.L.P., has reviewed the information appearing in this OFFICIAL STATEMENT under the captioned sections "THE BONDS," "THE DISTRICT—General," "MANAGEMENT OF THE DISTRICT—Bond Counsel and General Counsel," "WATER, WASTEWATER AND DRAINAGE—Master Facilities—Master Water and Sanitary Sewer Facilities Contract," "TAXING PROCEDURES," and "LEGAL MATTERS," solely to determine whether such information fairly summarizes the law and documents referred to therein. Such firm has not independently verified factual information contained in this OFFICIAL STATEMENT, nor has such firm conducted an investigation of the affairs of the District for the purpose of passing upon the accuracy or completeness of this OFFICIAL STATEMENT. No person is entitled to rely upon such firm's limited participation as an assumption of responsibility for, or an expression of opinion of any kind with regard to, the accuracy or completeness of any of the other information contained herein.

Tax Exemption

On the date of initial delivery of the Bonds, Bond Counsel will render its opinion that, in accordance with statutes, regulations, published rulings and court decisions existing on the date thereof ("Existing Law"), (1) interest on the Bonds for federal income tax purposes will be excludable from the "gross income" of the holders thereof, and (2) the Bonds will not be treated as "specified private activity bonds", the interest on which would be included as an alternative minimum tax preference item under Section 57 (a)(5) of the Internal Revenue Code of 1986, as amended (the "Code"). Except as stated above, Bond Counsel will express no opinion as to any federal, state or local tax consequences resulting from the ownership of, receipt of interest on or disposition of the Bonds.

In rendering its opinion, Bond Counsel will rely upon, and assume continuing compliance with, (a) certain information and representations of the District, including information and representations contained in the District's federal tax certificate issued in connection with the Bonds, and (b) covenants of the District contained in the Bond Order relating to certain matters, including arbitrage and the use of the proceeds of the Bonds and the property financed or refinanced therewith. Failure by the District to observe the aforementioned representations or covenants could cause the interest on the Bonds to become taxable retroactively to the date of issuance.

Bond Counsel's opinion represents its legal judgment based upon its review of Existing Law and the reliance on the aforementioned information, representations and covenants. Bond Counsel's opinion is not a guarantee of a result. Existing Law, upon which Bond Counsel has based its opinion, is subject to change by Congress, administrative interpretation by the Department of the Treasury and to subsequent judicial interpretation. There can be no assurance that Existing Law or the interpretation thereof will not be changed in a manner which would adversely affect the tax treatment of ownership of the Bonds.

Qualified Tax-Exempt Obligations

Section 265(a) of the Code provides, in pertinent part, that interest paid or incurred by a taxpayer, including a "financial institution," on indebtedness incurred or continued to purchase or carry tax-exempt obligations is not deductible in determining the taxpayer's taxable income. Section 265(b) of the Code provides an exception to the disallowance of such deduction for any interest expense paid or incurred on indebtedness of a taxpayer that is a "financial institution" allocable to tax-exempt obligations, other than "private activity bonds," that are designated by a "qualified small issuer" as "qualified tax-exempt obligations." A "qualified small issuer" is any governmental issuer (together with any "on-behalf of" and "subordinate" issuers) who issues no more than \$10,000,000 of tax-exempt obligations during the calendar year. Section 265(b)(5) of the Code defines the term "financial institution" as any "bank" described in Section 585(a)(2) of the Code, or any person accepting deposits from the public in the ordinary course of such person's trade or business that is subject to federal or state supervision as a financial institution. Notwithstanding the exception to the disallowance of the deduction of interest on indebtedness related to "qualified tax-exempt obligations" provided by Section 265(b) of the Code, Section 291 of the Code provides that the allowable deduction to a "bank," as defined in Section 585(a)(2) of the Code, for interest on indebtedness incurred or continued to purchase "qualified tax-exempt obligations" shall be reduced by twenty-percent (20%) as a "financial institution preference item."

The District will designate the Bonds as "qualified tax-exempt obligations" within the meaning of Section 265(b) of the Code. In furtherance of that designation, the District will covenant to take such action that would assure, or to refrain from such action that would adversely affect, the treatment of the Bonds as "qualified tax-exempt obligations." **Potential purchasers should be aware that if the issue price to the public exceeds \$10,000,000, there is a reasonable basis to conclude that the payment of a de minimis amount of premium in excess of \$10,000,000 is disregarded; however, the Internal Revenue Service could take a contrary view. If the Internal Revenue Service takes the position that the amount of such premium is not disregarded, then such obligations might fail to satisfy the aforementioned dollar limitation and the Bonds would not be "qualified tax-exempt obligations."**

Collateral Federal Income Tax Consequences

The following discussion is a summary of certain collateral federal income tax consequences resulting from the purchase, ownership or disposition of the Bonds. This discussion is based on Existing Law which is subject to change or modification retroactively.

Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences. The following discussion is applicable to investors, other than those who are subject to special provisions of the Code, including financial institutions, life insurance and property and casualty insurance companies, owners of interests in a FASIT, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, certain S corporations with accumulated earnings and profits and excess passive investment income, foreign corporations subject to the branch profits tax, taxpayers qualifying for the health-insurance premium assistance credit, and individuals allowed an earned income credit. **THE DISCUSSION CONTAINED HEREIN MAY NOT BE EXHAUSTIVE. INVESTORS, INCLUDING THOSE WHO ARE SUBJECT TO SPECIFIC PROVISIONS OF THE CODE, SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX TREATMENT WHICH MAY BE ANTICIPATED TO RESULT FROM THE PURCHASE, OWNERSHIP, AND DISPOSITION OF TAX-EXEMPT OBLIGATIONS BEFORE DETERMINING WHETHER TO PURCHASE THE BONDS.**

Interest on the Bonds may be includable in certain corporation's "adjusted financial statement income" determined under Section 56A of the Code to calculate the alternative minimum tax imposed by Section 55 of the Code.

Under Section 6012 of the Code, holders of tax-exempt obligations, such as the Bonds, may be required to disclose interest received or accrued during each taxable year on their returns of federal income taxation.

Section 1276 of the Code provides for ordinary income tax treatment of gain recognized upon the disposition of a tax-exempt obligation, such as the Bonds, if such obligation was acquired at a "market discount" and if the fixed maturity of such obligation is equal to, or exceeds, one year from the date of issue. Such treatment applies to "market discount bonds" to the extent such gain does not exceed the accrued market discount of such bonds; although for this purpose, a de minimis amount of market discount is ignored. A "market discount bond" is one which is acquired by the holder at a purchase price which is less than the stated redemption price at maturity or, in the case of a bond issued at an original issue discount, the "revised issue price" (i.e., the issue price plus accrued original issue discount). The "accrued market discount" is the amount which bears the same ratio to the market discount as the number of days during which the holder holds the obligation bears to the number of days between the acquisition date and the final maturity date.

State, Local and Foreign Taxes

Investors should consult their own tax advisors concerning the tax implications of the purchase, ownership or disposition of the Bonds under applicable state or local laws. Foreign investors should also consult their own tax advisors regarding the tax consequences unique to investors who are not United States persons.

Tax Accounting Treatment of Original Issue Discount and Premium Bonds

The initial public offering price to be paid for one or more maturities of the Bonds may be less than the principal amount thereof or one or more periods for the payment of interest on the Bonds may not be equal to the accrued period or be in excess of one year (the “Original Issue Discount Bonds”). The difference between (i) the “stated redemption price at maturity” of each Original Issue Discount Bond, and (ii) the initial offering price to the public of such Original Issue Discount Bond constitutes original issue discount with respect to such Original Issue Discount Bond in the hands of any owner who has purchased such Original Issue Discount Bond in the initial public offering of the Bonds. The “stated redemption price at maturity” means the sum of all payments to be made on the Bonds less the amount of all periodic interest payments. Periodic interest payments are payments which are made during equal accrual periods (or during any unequal period if it is the initial or final period) and which are made during accrual periods which do not exceed one year.

Under Existing Law, such initial owner is entitled to exclude from gross income (as defined in Section 61 of the Code) an amount of income with respect to such Original Issue Discount Bond equal to that portion of the amount of such original issue discount allocable to the period that such Original Issue Discount Bond continues to be owned by such owner. See “Tax Exemption” herein for a discussion of certain collateral federal tax consequences.

In the event of the redemption, sale or other taxable disposition of such Original Issue Discount Bond prior to stated maturity, however, the amount realized by such owner in excess of the basis of such Original Issue Discount Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such Original Issue Discount Bond was held by such initial owner) is includable in gross income.

Under Existing Law, the original issue discount on each Original Issue Discount Bond is accrued daily to the stated maturity thereof (in amounts calculated as described below for each six-month period ending on the date before the semiannual anniversary dates of the date of the Bonds and ratably within each such six-month period) and the accrued amount is added to an initial owner’s basis for such Original Issue Discount Bond for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (a) the sum of the issue price and amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (b) the amounts payable as current interest during such accrual period on such Bond.

The federal income tax consequences of the purchase, ownership, redemption, sale or other disposition of Original Issue Discount Bonds which are not purchased in the initial offering at the initial offering price may be determined according to rules which differ from those described above. ALL OWNERS OF ORIGINAL ISSUE DISCOUNT BONDS SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE DETERMINATION FOR FEDERAL, STATE AND LOCAL INCOME TAX PURPOSES OF INTEREST ACCRUED UPON REDEMPTION, SALE OR OTHER DISPOSITION OF SUCH ORIGINAL ISSUE DISCOUNT BONDS AND WITH RESPECT TO THE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP, REDEMPTION, SALE OR OTHER DISPOSITION OF SUCH ORIGINAL ISSUE DISCOUNT BONDS.

The initial public offering price to be paid for certain maturities of the Bonds may be greater than the amount payable on such Bonds at maturity (the “Premium Bonds”). An amount equal to the difference between the initial public offering price of a Premium Bond (assuming that a substantial amount of the Premium Bonds of that maturity are sold to the public at such price) and the amount payable at maturity constitutes premium to the initial purchaser of such Premium Bonds. The basis for federal income tax purposes of a Premium Bond in the hands of such initial purchaser must be reduced each year by the amortizable bond premium. Such reduction in basis will increase the amount of any gain (or decrease the amount of any loss) to be recognized for federal income tax purposes upon a sale or other taxable disposition of a Premium Bond. The amount of premium which is amortizable each year by an initial purchaser is determined by using such purchaser’s yield to maturity. PURCHASERS OF THE PREMIUM BONDS SHOULD CONSULT WITH THEIR OWN TAX ADVISORS WITH RESPECT TO THE DETERMINATION OF AMORTIZABLE BOND PREMIUM WITH RESPECT TO THE PREMIUM BONDS FOR FEDERAL INCOME TAX PURPOSES AND WITH RESPECT TO THE STATE AND LOCAL TAX CONSEQUENCES OF OWNING PREMIUM BONDS.

NO MATERIAL ADVERSE CHANGE

The obligations of the Underwriter to take and pay for the Bonds, and the District to deliver the Bonds, are subject to the condition that, up to the time of delivery of and receipt of payment for the Bonds, there shall have been no material adverse change in the condition (financial or otherwise) of the District subsequent to the date of sale from that set forth or contemplated in the Preliminary Official Statement, as it may have been supplemented or amended through the date of the sale.

NO-LITIGATION CERTIFICATE

With the delivery of the Bonds, the President or Vice President and Secretary or Assistant Secretary of the Board will, on behalf of the District, execute and deliver to the Underwriter a certificate dated as of the date of delivery, to the effect that no litigation of any nature of which the District has notice is pending against or, to the knowledge of the District's certifying officers, threatened against the District, either in state or federal courts, contesting or attacking the Bonds; restraining or enjoining the authorization, execution or delivery of the Bonds; affecting the provision made for the payment of or security for the Bonds; in any manner questioning the authority or proceedings for the authorization, execution or delivery of the Bonds; or affecting the validity of the Bonds, the corporate existence or boundaries of the District or the title of the then present officers and directors of the Board.

MUNICIPAL BOND RATING AND MUNICIPAL BOND INSURANCE

The District has not applied for an underlying investment grade rating on the Bonds nor is it expected that the District would have been successful if such application had been made. The District has submitted applications to two municipal bond insurers for a contract for municipal bond insurance on the Bonds. The purchase of such insurance for the Bonds is at the Underwriter's option and expense. See "RISK FACTORS—Risk Factors Related to the Purchase of Municipal Bond Insurance."

PREPARATION OF OFFICIAL STATEMENT

Sources and Compilation of Information

The financial data and other information contained in this OFFICIAL STATEMENT has been obtained primarily from the District's records, the Developer, the Engineer, the Tax Assessor/Collector, the Appraisal District and information from other sources. All of these sources are believed to be reliable, but no guarantee is made by the District as to the accuracy or completeness of the information derived from sources other than the District, and its inclusion herein is not to be construed as a representation on the part of the District to such effect. Furthermore, there is no guarantee that any of the assumptions or estimates contained herein will be realized. The summaries of the agreements, reports, statutes, resolutions, engineering and other related information set forth in this OFFICIAL STATEMENT are included herein subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents for further information.

Financial Advisor

Masterson Advisors LLC is employed as the Financial Advisor to the District to render certain professional services, including advising the District on a plan of financing and preparing the OFFICIAL STATEMENT, including the OFFICIAL NOTICE OF SALE and the OFFICIAL BID FORM for the sale of the Bonds. In its capacity as Financial Advisor, Masterson Advisors LLC has compiled and edited this OFFICIAL STATEMENT. The Financial Advisor has reviewed the information in this OFFICIAL STATEMENT in accordance with, and as a part of, its responsibilities to the District and, as applicable, to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Financial Advisor does not guarantee the accuracy or completeness of such information.

Consultants

In approving this OFFICIAL STATEMENT, the District has relied upon the following consultants:

Tax Assessor/Collector: The information contained in this OFFICIAL STATEMENT relating to the breakdown of the District's historical assessed value and principal taxpayers, including particularly such information contained in the section entitled "TAX DATA" and "TAXING PROCEDURES" has been provided by Bob Leared Interests, Inc. and is included herein in reliance upon the authority of said firm as experts in assessing property values and collecting taxes.

Engineer: The information contained in this OFFICIAL STATEMENT relating to engineering and to the description of the System and, in particular that information included in the sections entitled "THE DISTRICT," "ROADS," "WATER, WASTEWATER AND DRAINAGE" and "THE SYSTEM—Major Channel and Detention Improvements" has been provided by Quiddity Engineering, LLC and Pape-Dawson Engineers, Inc., and have been included herein in reliance upon the authority of said firms as experts in the field of civil engineering.

Auditor: The financial statements of the District as of August 31, 2025, and for the year then ended, included in this offering document, have been audited by McGrath and Co., PLLC, independent auditors, as stated in their report appearing herein. See "APPENDIX A" for a copy of the District's August 31, 2025, financial statements.

Bookkeeper: The information related to the "unaudited" summary of the District's General Operating Fund as it appears in "FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)—District Operations" has been provided by Municipal Accounts & Consulting, L.P. and is included herein in reliance upon the authority of such firm as experts in tracking and managing the various funds of utility districts.

Updating the Official Statement

If subsequent to the date of the OFFICIAL STATEMENT, the District learns, through the ordinary course of business and without undertaking any investigation or examination for such purposes, or is notified by the Underwriter, of any adverse event which causes the OFFICIAL STATEMENT to be materially misleading, and unless the Underwriter elect to terminate its obligation to purchase the Bonds, the District will promptly prepare and supply to the Underwriter an appropriate amendment or supplement to the OFFICIAL STATEMENT satisfactory to the Underwriter, provided, however, that the obligation of the District to the Underwriter to so amend or supplement the OFFICIAL STATEMENT will terminate when the District delivers the Bonds to the Underwriter, unless the Underwriter notify the District on or before such date that less than all of the Bonds have been sold to ultimate customers, in which case the District's obligations hereunder will extend for an additional period of time (but not more than 90 days after the date the District delivers the Bonds) until all of the Bonds have been sold to an ultimate customer.

Certification of Official Statement

The District, acting through its Board in its official capacity, hereby certifies, as of the date hereof, that the information, statements, and descriptions or any addenda, supplement and amendment thereto pertaining to the District and its affairs contained herein, to the best of its knowledge and belief, contain no untrue statement of a material fact and do not omit to state any material fact necessary to make the statements herein, in the light of the circumstances under which they are made, not misleading. With respect to information included in this OFFICIAL STATEMENT other than that relating to the District, the District has no reason to believe that such information contains any untrue statement of a material fact or omits to state any material fact necessary to make the statements herein, in the light of the circumstances under which they are made, not misleading; however, the Board has made no independent investigation as to the accuracy or completeness of the information derived from sources other than the District. In rendering such certificate, the official executing this certificate may state that he has relied in part on his examination of records of the District relating to matters within his own area of responsibility, and his discussions with, or certificates or correspondence signed by, certain other officials, employees, consultants and representatives of the District.

CONTINUING DISCLOSURE OF INFORMATION

In the Bond Order, the District has made the following agreement for the benefit of the registered and beneficial owners of the Bonds. The District is required to observe the agreement for so long as it remains obligated to advance funds to pay the Bonds. Under the agreement, the District will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified events, to the Municipal Securities Rulemaking Board (the "MSRB")

Annual Reports

The District will provide annually to the MSRB certain updated financial information and operating data. The information to be updated with respect to the District includes all quantitative financial information and operating data of the general type included in this OFFICIAL STATEMENT under the headings "WATER, WASTEWATER AND DRAINAGE," "FINANCIAL INFORMATION CONCERNING THE DISTRICT (UNAUDITED)," (except "Estimated Overlapping Debt" and "Overlapping Taxes") and "TAX DATA—Tax Rate Distribution—Historical Tax Collections—Tax Roll Information—Tax Adequacy for Debt Service," (most of which information is contained in the District's annual audited financial statements) and in "APPENDIX A." The District will update and provide this information within six (6) months after the end of each fiscal year ending in or after 2026.

The District may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by SEC Rule 15c2-12. The updated information will include audited financial statements, if the District commissions an audit and the audit is completed by the required time. If the audit of such financial statements is not complete within such period, then the District will provide unaudited financial statements by the required time, and audited financial statements when and if such audited financial statements become available. Any such financial statements will be prepared in accordance with the accounting principles described in the Bond Orders or such other accounting principles as the District may be required to employ from time to time pursuant to state law or regulation.

The District's current fiscal year end is August 31. Accordingly, it must provide updated information by February 28 in each year, unless the District changes its fiscal year. If the District changes its fiscal year, it will notify the MSRB of the change.

Specified Event Notices

The District will provide timely notices of certain events to the MSRB, but in no event will such notices be provided to the MSRB in excess of ten business days after the occurrence of an event. The District will provide notice of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701 TEB) or other material notices or determinations with respect to the tax-exempt status of the Bonds, or other events affecting the tax-exempt status of the Bonds; (7) modifications to rights of beneficial owners of the Bonds, if material; (8) bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the District or other obligated person within the meaning of CFR § 240.15c2-12 (the "Rule"); (13) consummation of a merger, consolidation, or acquisition involving the District or other obligated person within the meaning of the Rule or the sale of all or substantially all of the assets of the District or other obligated person within the meaning of the Rule, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material to a decision to purchase or sell Bonds; (15) incurrence of a financial obligation of the District or other obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District or other obligated person, any of which affect Beneficial Owners of the Bonds, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the District or other obligated person, any of which reflect financial difficulties. The terms "financial obligation" and "material" when used in this paragraph shall have the meanings ascribed to them under federal securities laws. Neither the Bonds nor the Bond Order makes any provision for debt service reserves or liquidity enhancement. In addition, the District will provide timely notice of any failure by the District to provide financial information, operating data, or financial statements in accordance with its agreement described above under "Annual Reports."

Availability of Information from the MSRB

The District has agreed to provide the foregoing information only to the MSRB. The MSRB makes the information available to the public without charge through an internet portal at www.emma.msrb.org.

Limitations and Amendments

The District has agreed to update information and to provide notices of specified events only as described above. The District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition or prospects or agreed to update any information that is provided, except as described above. The District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Bonds at any future date. The District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders and beneficial owners of the Bonds may seek a writ of mandamus to compel the District to comply with its agreement.

The District may amend its continuing disclosure agreement to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or operations of the District, but only if the agreement, as amended, would have permitted an underwriter to purchase or sell Bonds in the offering described herein in compliance with the Rule, taking into account any amendments and interpretations of the Rule to the date of such amendment, as well as changed circumstances, and either the holders of a majority in aggregate principal amount of the outstanding Bonds consent or any person unaffiliated with the District (such as a nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the beneficial owners of the Bonds. The District may also amend or repeal the agreement if the SEC amends or repeals the applicable provisions of such Rule or a court of final jurisdiction determines that such provisions are invalid but in either case, only to the extent that its right to do so would not prevent the Underwriter from lawfully purchasing the Bonds in the offering described herein. If the District so amends the agreement, it has agreed to include with any financial information or operating data next provided in accordance with its agreement described above under "Annual Reports" an explanation, in narrative form, of the reason for the amendment and of the impact of any change in the type of financial information and operating data so provided.

Compliance With Prior Undertakings

Since its first issuance of bonds in 2024, the District has complied in all material respects with continuing disclosure agreements made by the District in accordance with SEC Rule 15c2-12.

MISCELLANEOUS

All estimates, statements and assumptions in this OFFICIAL STATEMENT and the APPENDICES hereto have been made on the basis of the best information available and are believed to be reliable and accurate. Any statements in this OFFICIAL STATEMENT involving matters of opinion or estimates, whether or not expressly so stated, are intended as such and not as representations of fact, and no representation is made that any such statements will be realized.

Independent Auditor's Report

Board of Directors

Montgomery County Water Control and Improvement District No. 205

Montgomery County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Montgomery County Water Control and Improvement District No. 205 (the "District"), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Montgomery County Water Control and Improvement District No. 205, as of August 31, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Board of Directors
Montgomery County Water Control and Improvement District No. 205
Montgomery County, Texas***

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied

***Board of Directors
Montgomery County Water Control and Improvement District No. 205
Montgomery County, Texas***

certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

Using this Annual Report

This section of the financial report of Montgomery County Water Control and Improvement District No. 205 (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended August 31, 2025. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at August 31, 2025, was negative \$4,804,496. The District's net position is negative because the District incurs debt to construct public road facilities which it conveys to Montgomery County and because the District relies on advances from its developer to fund operating costs. A comparative summary of the District's overall financial position, as of August 31, 2025 and 2024, is as follows:

	<u>2025</u>	<u>2024</u>
Current and other assets	\$ 793,356	\$ 67,751
Capital assets	20,814,516	8,562,926
Total assets	<u>21,607,872</u>	<u>8,630,677</u>
Current liabilities	173,863	249,083
Long-term liabilities	26,238,505	10,086,803
Total liabilities	<u>26,412,368</u>	<u>10,335,886</u>
Net position		
Net investment in capital assets	(1,135,638)	677,753
Restricted	358,422	
Unrestricted	<u>(4,027,280)</u>	<u>(2,382,962)</u>
Total net position	<u>\$ (4,804,496)</u>	<u>\$ (1,705,209)</u>

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

The total net position of the District decreased during the current fiscal year by \$3,099,287. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	<u>2025</u>	<u>2024</u>
Revenues		
Property taxes, penalties and interest	\$ 427,772	\$ 105,318
Other	41,234	787
Total revenues	<u>469,006</u>	<u>106,105</u>
Expenses		
Operating and administrative	550,432	221,005
Debt interest and fees	295,344	
Developer interest	503,337	
Debt issuance costs	584,505	
Depreciation	326,462	87,539
Total expenses	<u>2,260,080</u>	<u>308,544</u>
Change in net position before other items	(1,791,074)	(202,439)
Other items		
Transfers to other governments	<u>(1,308,213)</u>	
Change in net position	(3,099,287)	(202,439)
Net position, beginning of year	<u>(1,705,209)</u>	<u>(1,502,770)</u>
Net position, end of year	<u>\$ (4,804,496)</u>	<u>\$ (1,705,209)</u>

Financial Analysis of the District's Funds

The District's combined fund balances, as of August 31, 2025, were \$708,936, which consists of \$61,632 in the General Fund, \$358,422 in the Debt Service Fund and \$288,882 in the Capital Projects Fund.

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

General Fund

A comparative summary of the General Fund's financial position as of August 31, 2025 and 2024, is as follows:

	2025	2024
Total assets	<u>\$ 145,933</u>	<u>\$ 67,751</u>
Total liabilities	\$ 18,744	\$ 249,083
Total deferred inflows	65,557	
Total fund balance	61,632	(181,332)
Total liabilities, deferred inflows and fund balance	<u>\$ 145,933</u>	<u>\$ 67,751</u>

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 366,793	\$ 106,105
Total expenditures	<u>(748,029)</u>	<u>(422,755)</u>
Revenues under expenditures	(381,236)	(316,650)
Other changes in fund balance	624,200	130,000
Net change in fund balance	<u>\$ 242,964</u>	<u>\$ (186,650)</u>

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy and developer advances. Financial resources are influenced by a variety of factors each year:

- Property tax revenues are dependent upon assessed values in the District and the maintenance tax rate set by the District. Property tax revenues increased from prior year because assessed values increased from prior year.
- The District's developer advances funds to the District as needed to pay operating costs.

Debt Service Fund

The District issued bonded debt during the current fiscal year pursuant to a Bond Resolution adopted by the Board. As required by the Bond Resolution, a Debt Service Fund was established to account for the accumulation of financial resources restricted for debt service purposes. A summary of the financial position of the Debt Service Fund as of August 31, 2025, is as follows:

Total assets	<u>\$ 358,422</u>
Total fund balance	<u>\$ 358,422</u>

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

A summary of activities of the Debt Service Fund for the current fiscal year is as follows:

Total revenues	\$ 24,366
Total expenditures	(295,344)
Revenues under expenditures	<u>(270,978)</u>
Other changes in fund balance	<u>629,400</u>
Net change in fund balance	<u><u>\$ 358,422</u></u>

Capital Projects Fund

A Capital Projects Fund was established to account for the expenditure of proceeds from the issuance of the District's Series 2024 Unlimited Tax Bonds. A summary of the financial position of the Capital Projects Fund as of August 31, 2025, is as follows:

Total assets	<u><u>\$ 289,001</u></u>
Total liabilities	\$ 119
Total fund balance	<u>288,882</u>
Total liabilities and fund balance	<u><u>\$ 289,001</u></u>

A summary of activities of the Capital Projects Fund for the current fiscal year is as follows:

Total revenues	\$ 12,290
Total expenditures	<u>(5,959,908)</u>
Revenues under expenditures	<u>(5,947,618)</u>
Other changes in fund balance	<u>6,236,500</u>
Net change in fund balance	<u><u>\$ 288,882</u></u>

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$242,964 greater than budgeted. The *Budgetary Comparison Schedule* on page 32 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developer for the financing of the construction of capital assets within the District. The developer will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

Capital assets held by the District at August 31, 2025 and 2024, are summarized as follows:

	2025	2024
Capital assets not being depreciated		
Land and improvements	\$ 6,605,004	\$ 4,576,745
Construction in progress		201,750
	6,605,004	4,778,495
Capital assets being depreciated		
Infrastructure	14,690,741	3,939,198
Less accumulated depreciation	(481,229)	(154,767)
Depreciable capital assets, net	14,209,512	3,784,431
Capital assets, net	\$ 20,814,516	\$ 8,562,926

Capital asset additions during the current fiscal year include the following:

- Woodson’s Gully clearing, grubbing and detention
- Woodson’s Reserve outfall channel, Phase two
- Woodson’s Reserve outfall channel, Phase three

Additionally, Montgomery County assumes responsibility (after a one-year maintenance period) for road facilities constructed within the boundaries of the County. Accordingly, these facilities are not considered assets of the District. The estimated value of these assets is recorded as transfers to other governments upon completion of construction. This estimated cost is trued-up when the developer is reimbursed. For the year ended August 31, 2025, capital assets in the amount of \$1,308,213 have been recorded as transfers to other governments in the government-wide statements.

Long-Term Debt and Related Liabilities

As of August 31, 2025, the District owes approximately \$19,293,505 to its developer for completed projects and operating advances. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District’s financial statements upon completion of construction. The District intends to reimburse the developer from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developer is trued up when the developer is reimbursed.

During the current fiscal year, the District issued \$7,100,000 in unlimited tax bonds, all of which were outstanding as of the end of the fiscal year. The District did not have any bonded debt as of August 31, 2024.

At August 31, 2025, the District had \$83,743,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the drainage and storm sewer systems within the District and \$90,843,000 for the refunding of such bonds; \$75,450,000 for parks and recreational

Montgomery County Water Control and Improvement District No. 205
Management's Discussion and Analysis
August 31, 2025

facilities and \$75,450,000 for the refunding of such bonds and \$72,450,000 for road improvements and \$72,450,000 for the refunding of such bonds.

Property Taxes

The District's property tax base increased approximately \$101,056,000 for the 2025 tax year from \$118,564,007 to \$219,619,962. This increase was primarily due to new construction in the District. For the 2025 tax year, the District has levied a maintenance tax rate of \$0.265 per \$100 of assessed value and a debt service tax rate of \$0.085 per \$100 of assessed value, for a total combined tax rate of \$0.35 per \$100 of assessed value. Tax rates for the 2024 tax year were \$0.35 per \$100, all of which was allocated to maintenance and operations.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and the projected cost of operating the District. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	<u>2025 Actual</u>	<u>2026 Budget</u>
Total revenues	\$ 366,793	\$ 617,300
Total expenditures	<u>(748,029)</u>	<u>(797,433)</u>
Revenues under expenditures	(381,236)	(180,133)
Other changes in fund balance	<u>624,200</u>	<u>180,133</u>
Net change in fund balance	242,964	
Beginning fund balance	<u>(181,332)</u>	61,632
Ending fund balance	<u><u>\$ 61,632</u></u>	<u><u>\$ 61,632</u></u>

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Montgomery County Water Control and Improvement District No. 205 (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). The following is a summary of the most significant policies:

Creation

The District was created by an act by the Texas Legislature, 87th Session, Senate Bill 2182, effective May 24, 2021, pursuant to the authority of Section 59, Article XVI and Section 52, Article III of the Texas Constitution and operates in accordance with the Texas Special District Local Laws Code, Chapter 9082, and the Texas Water Code, Chapters 49 and 51. The Board of Directors held its first meeting on February 17, 2022, and the first bonds were issued on September 24, 2024.

The District’s primary activities include construction, maintenance and operation of drainage and storm sewer facilities, park and recreational facilities and road facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or “major”

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes and developer advances. Expenditures include costs associated with the daily operations of the District.
- The Debt Service Fund is used to account for the payment of interest and principal on the District's general long-term debt. The primary source of revenue for debt service is property taxes. During the current fiscal year, financial resources also included capitalized interest from the sale of bonds. Expenditures include costs incurred in assessing and collecting these taxes.
- The Capital Projects Fund is used to account for the expenditures of bond proceeds for the construction of the District's drainage, parks and recreational facilities and road improvements.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes and interest earned on investments. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At August 31, 2025, an allowance for uncollectible accounts was not considered necessary.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$100,000.

Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of drainage and storm sewer facilities, are depreciated using the straight-line method over an estimated useful life of 45 years. The District's detention facilities and drainage channels are considered improvements to land and are non-depreciable.

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District’s investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District does not have any nonspendable fund balances.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District’s restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and capitalized interest from the sale of bonds in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developer; the value of capital assets transferred to Montgomery County and the value of capital assets for which the developer has not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the *Governmental Funds Balance Sheet* to the *Statement of Net Position*

Total fund balance, governmental funds		\$ 708,936
--	--	------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Historical cost		\$ 21,295,745
Less accumulated depreciation		<u>(481,229)</u>
		20,814,516

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:

Due to developer		(19,293,505)
Bonds payable		<u>(7,100,000)</u>
		(26,393,505)

Deferred inflows in the fund statements consist of property taxes receivable that have been levied and are due, but are not available to pay current period expenditures. These amounts are included in revenues in the government-wide statements.

65,557

Total net position - governmental activities		<u><u>\$ (4,804,496)</u></u>
--	--	------------------------------

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds \$ 890,268

Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the *Statement of Activities* when earned. The difference is for property taxes and related penalties and interest. 65,557

Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives and to measure the economic impact of developer financing of capital assets used by the District or conveyed to other governmental entities. Differences during the current fiscal year are for the following:

Capital outlays	\$ 5,069,663	
Transfers to other governments	(1,308,213)	
Depreciation expense	(326,462)	
		3,434,988

Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following:

Issuance of long-term debt	(7,100,000)	
Developer advances	(617,100)	
Repayment of developer advances	227,000	
		(7,490,100)

Change in net position of governmental activities \$ (3,099,287)

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Note 3 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District’s deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District’s written investment policy establishes additional requirements for collateralization of deposits.

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers’ acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District’s investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of August 31, 2025, the District’s investments consist of the following:

<u>Type</u>	<u>Fund</u>	<u>Carrying Value</u>	<u>Rating</u>	<u>Weighted Average Maturity</u>
Texas CLASS	General	\$ 61,744	AAAm	44 days
	Debt Service	358,422		
	Capital Projects	288,873		
		<u>\$ 709,039</u>		

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Texas CLASS

The District participates in Texas Cooperative Liquid Assets Securities System (Texas CLASS). Texas CLASS is managed by an elected Board of Trustees consisting of members of the pool. Additionally, the Board of Trustees has established an advisory board, the function of which is to provide guidance on investment policies and strategies. The Board of Trustees has selected Public Trust Advisors, LLC as the program administrator and UMB Bank N.A., as the custodian.

The District’s investment in Texas CLASS is reported at fair value because Texas CLASS uses fair value to report investments (other than repurchase agreements which are valued at amortized cost). Governmental accounting standards establish the following hierarchy of inputs used to measure fair value: Level 1 inputs are based on quoted prices in active markets, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs are based on significant unobservable inputs. The District’s investment in Texas CLASS is measured using published fair value per share (level 1 inputs).

Investments in Texas CLASS may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District’s investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 4 – Interfund Balances and Transactions

A summary of internal transfers for the current fiscal year is as follows:

Transfers Out	Transfers In	Amounts	Purpose
Capital Projects Fund	General Fund	\$ 7,100	Reimbursement of bond application fees paid by General Fund

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Note 5 – Capital Assets

A summary of changes in capital assets, for the year ended August 31, 2025, is as follows:

	Beginning Balances	Additions/ Adjustments	Ending Balances
Capital assets not being depreciated			
Land and improvements	\$ 4,576,745	\$ 2,028,259	\$ 6,605,004
Construction in progress	201,750	(201,750)	
	<u>4,778,495</u>	<u>1,826,509</u>	<u>6,605,004</u>
Capital assets being depreciated			
Infrastructure	3,939,198	10,751,543	14,690,741
Less accumulated depreciation	<u>(154,767)</u>	<u>(326,462)</u>	<u>(481,229)</u>
Subtotal depreciable capital assets, net	<u>3,784,431</u>	<u>10,425,081</u>	<u>14,209,512</u>
Capital assets, net	<u>\$ 8,562,926</u>	<u>\$ 12,251,590</u>	<u>\$ 20,814,516</u>

Depreciation expense for the current fiscal year was \$326,462.

Note 6 – Due to Developer

The District has entered into financing agreements with its developer for the financing of the construction of drainage and storm sewer facilities, parks and recreational facilities and road improvements. Under the agreements, the developer will construct facilities on behalf of the District. The developer will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developer is reimbursed.

The District's developer has also advanced funds to the District for operating expenses.

Changes in the estimated amounts due to developer during the fiscal year are as follows:

Due to developer, beginning of year	\$ 10,086,803
Developer reimbursements	(4,766,197)
Developer funded construction and adjustments	13,582,799
Operating advances from developer	617,100
Repayment of operating advances	<u>(227,000)</u>
Due to developer, end of year	<u>\$ 19,293,505</u>

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Note 7 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	<u>\$ 7,100,000</u>
Due within one year	<u>\$ 155,000</u>

The District’s bonds payable at August 31, 2025, consists of unlimited tax bonds as follows:

Series	Amounts Outstanding	Original Issue	Interest Rates	Maturity Date, Serially, Beginning/ Ending	Interest Payment Dates	Call Dates
2024	\$ 7,100,000	\$ 7,100,000	4.00% - 6.50%	September 1, 2026/2049	March 1, September 1	September 1, 2030

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At August 31, 2025, the District had \$83,743,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the drainage and storm sewer systems within the District and \$90,843,000 for the refunding of such bonds; \$75,450,000 for parks and recreational facilities and \$75,450,000 for the refunding of such bonds and \$72,450,000 for road improvements and \$72,450,000 for the refunding of such bonds.

On September 24, 2024, the District issued its \$7,100,000 Series 2024 Unlimited Tax Bonds at a net effective interest rate of 4.327494%. Proceeds of the bonds were used (1) to reimburse its developer for the following: the construction of capital assets within the District; engineering, clearing and grubbing, and other costs associated with the construction of capital assets; the acquisition of land for certain District facilities; operating advances; and creation costs, (2) to pay developer interest at the net effective interest rate of the bonds and (3) to pay capitalized interest into the Debt Service Fund.

The change in the District’s long-term debt during the year is as follows:

Bonds payable, beginning of year	\$ -
Bonds issued	7,100,000
Bonds payable, end of year	<u>\$ 7,100,000</u>

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

The debt service payment due September 1 was made during the current fiscal year. The following schedule was prepared presuming this practice will continue. As of August 31, 2025, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2026	\$ 155,000	\$ 314,700	\$ 469,700
2027	165,000	304,625	469,625
2028	170,000	293,900	463,900
2029	180,000	282,850	462,850
2030	190,000	271,150	461,150
2031	200,000	258,800	458,800
2032	210,000	245,800	455,800
2033	220,000	233,200	453,200
2034	235,000	224,400	459,400
2035	245,000	215,000	460,000
2036	260,000	205,200	465,200
2037	270,000	194,800	464,800
2038	285,000	184,000	469,000
2039	300,000	172,600	472,600
2040	315,000	160,600	475,600
2041	330,000	148,000	478,000
2042	350,000	134,800	484,800
2043	370,000	120,800	490,800
2044	385,000	106,000	491,000
2045	410,000	90,600	500,600
2046	430,000	74,200	504,200
2047	450,000	57,000	507,000
2048	475,000	39,000	514,000
2049	500,000	20,000	520,000
	<u>\$ 7,100,000</u>	<u>\$ 4,352,025</u>	<u>\$ 11,452,025</u>

Note 8 – Property Taxes

On May 7, 2022, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Montgomery Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Montgomery County Water Control and Improvement District No. 205
Notes to Financial Statements
August 31, 2025

Property taxes are collected based on rates adopted in the year of the levy. The District’s 2025 fiscal year was financed through the 2024 tax levy, pursuant to which the District levied property taxes of \$0.35 per \$100 of assessed value, all of which was allocated to maintenance and operations. The resulting tax levy was \$414,974 on the adjusted taxable value of \$118,564,007.

Property taxes receivable, at August 31, 2025, consisted of the following:

Current year taxes receivable	\$ 55,090
Penalty and interest receivable	10,467
Property taxes receivable	<u>\$ 65,557</u>

Note 9 – Transfers to Other Governments

Montgomery County assumes responsibility for the maintenance of public roads constructed within the county limits. Accordingly, road facilities are considered to be capital assets of Montgomery County, not the District and are recorded as transfers to other governments on the *Statement of Activities* upon completion of construction. This cost is trued-up when the developer is subsequently reimbursed. For the year ended August 31, 2025, the District reported transfers to other governments in the amount of \$1,308,213 for road facilities constructed by a developer within the District.

Note 10 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 11 – Economic Dependency

The District is dependent upon its developer for operating advances. The developer continues to own a substantial portion of the taxable property within the District. The developer’s willingness to make future operating advances and/or to pay property taxes will directly affect the District’s ability to meet its future obligations.

Note 12 – Subsequent Event

On October 21, 2025, the District issued its \$1,850,000 Series 2025 Unlimited Tax Road Bonds at a net effective rate of 4.732389%. Proceeds from the bonds were used to reimburse the District’s developer for infrastructure improvements in the District and to pay capitalized interest into the Debt Service Fund.
