PRELIMINARY OFFICIAL STATEMENT

$164,000,000*
WASHOE COUNTY SCHOOL DISTRICT, NEVADA
GENERAL OBLIGATION (LIMITED TAX)
SCHOOL IMPROVEMENT BONDS
SERIES 2026C

Selling: December 2, 2026
8:30 a.m. local time

* Preliminary, subject to change.

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

PRELIMINARY OFFICIAL STATEMENT DATED NOVEMBER 20, 2026

BOOK-ENTRY ONLY

RATINGS: S&P: "Applied For"
Moody's: "Applied For"
See "RATINGS"

In the opinion of Taft Stettinius & Hollister LLP, Bond Counsel, assuming continuous compliance with certain covenants described herein, interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the 2026 Bonds (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code, however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. See "TAX MATTERS."

$164,000,000*
WASHOE COUNTY SCHOOL DISTRICT, NEVADA
GENERAL OBLIGATION (LIMITED TAX) SCHOOL IMPROVEMENT BONDS
SERIES 2026C

Dated: Date of Delivery **Due: June 1, as shown herein**

The Bonds are issued as fully registered bonds in denominations of $5,000 or any integral multiple thereof. The Bonds initially will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"), securities depository for the Bonds. Purchases of the Bonds are to be made in book-entry form only. Purchasers will not receive certificates representing their beneficial ownership interest in the Bonds. See "THE BONDS - Book-Entry Only System." The Bonds bear interest at the rates set forth herein, payable on June 1, 2027, and semiannually thereafter on June 1 and December 1 of each year. The principal of the Bonds will be payable upon presentation and surrender at the principal operations office of Zions Bancorporation, National Association or its successor as the paying agent for the Bonds. See "THE BONDS - Payment Provisions." Capitalized terms used on this cover page and not otherwise defined have the meanings set forth in "INTRODUCTION" herein.

The maturity schedule for the Bonds appears on the inside cover page of this Official Statement.

The Bonds are subject to optional redemption prior to maturity as described in "THE BONDS - Prior Redemption." At the option of the winning bidder, certain of the Bonds also may be subject to mandatory sinking fund redemption. See APPENDIX E - Official Notice of Bond Sale.

Proceeds of the Bonds will be used to: (i) acquire, construct, improve and equip school facilities in the District; and (ii) pay the costs of issuing the Bonds. See "SOURCES AND USES OF FUNDS."

The Bonds constitute direct and general obligations of the District. The full faith and credit of the District is pledged for the payment of principal and interest on the Bonds, subject to State constitutional and statutory limitations on the aggregate amount of ad valorem taxes. See "SECURITY FOR THE BONDS - General Obligations."

This cover page contains certain information for quick reference only. It is not a summary of the issue. Investors must read the entire Official Statement to obtain information essential to making an informed investment decision.

The Bonds are offered when, as, and if issued by the District, subject to the approval of legality of the Bonds by Taft Stettinius & Hollister LLP, Reno, Nevada, and the satisfaction of certain other conditions. Taft Stettinius & Hollister LLP, also has acted as special counsel to the District in connection with preparation of this Official Statement. Certain legal matters will be passed upon for the District by its General Counsel. JNA Consulting Group, LLC, Boulder City, Nevada, is acting as the Municipal Advisor to the District in connection with the issuance of the Bonds. It is expected that the Bonds will be available for delivery through the facilities of DTC, on or about December 21, 2026.

This Official Statement is dated December __, 2026.

USE OF INFORMATION IN THIS OFFICIAL STATEMENT

This Official Statement, which includes the cover page, the inside cover page and the appendices, does not constitute an offer to sell or the solicitation of an offer to buy any of the Bonds (defined herein) in any jurisdiction in which it is unlawful to make such offer, solicitation, or sale. No dealer, salesperson, or other person has been authorized to give any information or to make any representations other than those contained in this Official Statement in connection with the offering of the Bonds, and if given or made, such information or representations must not be relied upon as having been authorized by District. The District maintains an internet website; however, the information presented there is not a part of this Official Statement and should not be relied upon in making an investment decision with respect to the Bonds.

The information set forth in this Official Statement has been obtained from the District and from the sources referenced throughout this Official Statement, which the District believes to be reliable. No representation is made by the District, however, as to the accuracy or completeness of information provided from sources other than the District. This Official Statement contains, in part, estimates and matters of opinion which are not intended as statements of fact, and no representation or warranty is made as to the correctness of such estimates and opinions, or that they will be realized.

The information, estimates, and expressions of opinion contained in this Official Statement are subject to change without notice, and neither the delivery of this Official Statement nor any sale of the Bonds shall, under any circumstances, create any implication that there has been no change in the affairs of the District, or in the information, estimates, or opinions set forth herein, since the date of this Official Statement.

This Official Statement has been prepared only in connection with the original offering of the Bonds and may not be reproduced or used in whole or in part for any other purpose.

The Bonds have not been registered with the Securities and Exchange Commission due to certain exemptions contained in the Securities Act of 1933, as amended. The Bonds have not been recommended by any federal or state securities commission or regulatory authority, and the foregoing authorities have neither reviewed nor confirmed the accuracy of this document.

THE PRICES AT WHICH THE BONDS ARE OFFERED TO THE PUBLIC BY THE INITIAL PURCHASER (AND THE YIELDS RESULTING THEREFROM) MAY VARY FROM THE INITIAL PUBLIC OFFERING PRICES OR YIELDS APPEARING ON THE INSIDE COVER PAGE HEREOF. IN ADDITION, THE INITIAL PURCHASER MAY ALLOW CONCESSIONS OR DISCOUNTS FROM SUCH INITIAL PUBLIC OFFERING PRICES TO DEALERS AND OTHERS. IN ORDER TO FACILITATE DISTRIBUTION OF THE BONDS, THE INITIAL PURCHASER MAY ENGAGE IN TRANSACTIONS INTENDED TO STABILIZE THE PRICE OF THE BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

OFFICIAL STATEMENT

$164,000,000*
WASHOE COUNTY SCHOOL DISTRICT, NEVADA
GENERAL OBLIGATION (LIMITED TAX) SCHOOL IMPROVEMENT BONDS
SERIES 2026C

INTRODUCTION

General

This Official Statement, including the cover page, the inside cover page and the appendices, is furnished by Washoe County School District, Nevada (the "District"), to provide information about the District and its $164,000,000 General Obligation (Limited Tax) School Improvement Bonds, Series 2026C (the "Bonds"). The Bonds will be issued pursuant to a bond resolution adopted by the Board of Trustees of the District (the "Board") on October 13, 2026 (the "Bond Resolution").

The offering of the Bonds is made only by way of this Official Statement, which supersedes any other information or materials used in connection with the offer or sale of the Bonds. The following introductory material is only a brief description of and is qualified by the more complete information contained throughout this Official Statement. A full review should be made of the entire Official Statement and the documents summarized or described herein. Detachment or other use of this "INTRODUCTION" without the entire Official Statement, including the cover page, the inside cover page and the appendices, is unauthorized.

The Issuer

The District is a political subdivision of the State organized pursuant to legislation enacted in 1956. The District's boundaries are coterminous with those of Washoe County (the "County"). The District covers an area of approximately 6,600 square miles in the northwestern portion of the State of Nevada (the "State"). The District serves the residents of the City of Reno ("Reno"), the City of Sparks ("Sparks"), and the unincorporated areas of the County, including the unincorporated communities of Incline Village, Wadsworth and Gerlach. See "WASHOE COUNTY SCHOOL DISTRICT."

The Bonds; Prior Redemption

The Bonds are issued solely as fully registered certificates in denominations of $5,000, or any integral multiple thereof. The Bonds initially will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"), the securities depository for the Bonds. Purchases of the Bonds are to be made in book-entry form only. Purchasers will not receive certificates representing their beneficial ownership interest in the Bonds. See "THE BONDS – Book-Entry Only System." The Bonds are dated as of the date of their delivery and mature and bear interest (calculated based on a 360-day year consisting of twelve 30-day months) as set forth on the inside cover page of this Official Statement. The

*Preliminary, subject to change.

payment of principal and interest on the Bonds is described in "THE BONDS - Payment Provisions."

Certain of the Bonds are subject to redemption prior to maturity at the option of the District as described in "THE BONDS - Prior Redemption." At the option of the winning bidder, certain of the Bonds may also be subject to mandatory sinking fund redemption. See APPENDIX E - Official Notice of Bond Sale.

Authority for Issuance

The Bonds are being issued pursuant to the constitution and laws of the State, particularly Nevada Revised Statues ("NRS") 350.020 through 350.070, NRS 350.500 through 350.720, as amended, designated as the "Local Government Securities Law" (the "Bond Act"), NRS 387.335 (the "Project Act"), NRS Chapter 348, and the Bond Resolution.

Purpose

Proceeds of the Bonds will be used to: (i) acquire, construct, improve and equip school facilities in the District (the "Project"); and (ii) pay the costs of issuing the Bonds. See "SOURCES AND USES OF FUNDS – The Project."

Security for the Bonds

General Obligations. The Bonds constitute direct and general obligations of the District. The full faith and credit of the District is pledged for the payment of principal and interest and any premium in connection with a mandatory redemption of the Bonds (the "Bond Requirements"), subject to State constitutional and statutory limitations on the aggregate amount of ad valorem taxes. Generally, the combined overlapping tax rate is limited by statute to $3.64 per $100 of assessed valuation. See "SECURITY FOR THE BONDS – General Obligations." Pursuant to State law, taxes levied for the payment of bonded indebtedness, including the Bonds, enjoy a priority over taxes levied by each overlapping taxing unit for all other purposes where reduction is necessary in order to comply with the statutory limitations described in "PROPERTY TAX INFORMATION – Property Tax Limitations."

Outstanding Bonds. For information on the District's currently outstanding general obligation bonds, see "DEBT STRUCTURE - Outstanding Debt and Other Obligations."

Professionals

Taft Stettinius & Hollister LLP, Reno, Nevada, has acted as Bond Counsel in connection with the Bonds and also has acted as special counsel to the District in connection with this Official Statement. Certain legal matters will be passed upon for the District by its General Counsel. JNA Consulting Group, LLC, Boulder City, Nevada, is providing municipal advisory services to the District. See "MUNICIPAL ADVISOR." The fees being paid to the Municipal Advisor are contingent upon the execution and delivery of the Bonds. The audited basic financial statements of the District, attached to this Official Statement as a portion of Appendix A, include the report of Crowe LLP, certified public accountants, Sacramento, California. See "INDEPENDENT AUDITORS." Zions Bancorporation, National Association, Los Angeles, California, will act as Registrar and Paying Agent for the Bonds.

Tax Matters

In the opinion of Taft Stettinius & Hollister LLP, Bond Counsel, assuming continuous compliance with certain covenants described herein, interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the 2026 Bonds (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code, however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. See "TAX MATTERS - Federal Tax Matters."

In the opinion of Bond Counsel, under the laws of the State in effect as of the date of delivery of the Bonds, the Bonds, their transfer, and the income therefrom are free and exempt from taxation by the State or any subdivision thereof except for the tax on estates imposed pursuant to Chapter 375A of NRS and the tax on generation-skipping transfers imposed pursuant to Chapter 375B of NRS. See "TAX MATTERS - State Tax Exemption."

Continuing Disclosure Undertaking

The District will execute a continuing disclosure certificate (the "Disclosure Certificate") at the time of the closing for the Bonds. The Disclosure Certificate will be executed for the benefit of the beneficial owners of the Bonds. The District will covenant in the Bond Resolution to comply with the terms of the Disclosure Certificate. The Disclosure Certificate will provide that so long as the Bonds remain outstanding, the District will provide the following information to the Municipal Securities Rulemaking Board ("MSRB"), through its Electronic Municipal Market Access System: (i) annually, certain financial information and operating data; and (ii) notice of the occurrence of certain material events; each as more particularly described in the Disclosure Certificate. The form of the Disclosure Certificate is attached hereto as Appendix C. In the last five years, the District has not failed to materially comply with any prior continuing disclosure undertakings entered into pursuant to Rule 15c2-12 promulgated under the Securities Exchange Act of 1934.

Certain Bondholder Risks

General. The purchase of the Bonds involves certain investment risks that are discussed throughout this Official Statement. Accordingly, each prospective purchaser of the Bonds should make an independent evaluation of all of the information presented in this Official Statement in order to make an informed investment decision.

Risks Related to Property Taxes. Numerous factors over which the District has no control may impact the amount and timely receipt of ad valorem property tax revenues in the future. The amount of ad valorem property taxes collected will be dependent upon the assessed valuation of land within the District and in part on the abatement caps calculated pursuant to NRS 361.4722. Factors that may affect the timely receipt of ad valorem property tax revenues include the number of homes which are in foreclosure, bankruptcy proceedings of property taxpayers or their lenders, and the ability or willingness of property owners or lien holders to pay taxes in a timely manner.

It is not possible to predict future property values, the impact of foreclosures or delinquencies on property tax payments or the impact of the annual abatement cap. Specifically, it is not possible to predict whether property values in the District will continue to increase or whether they will decline in the future or, whether delinquency rates which are currently less than one percent will change.

Changes in Law. Various State laws apply to the imposition, collection, and expenditure of property taxes (sometimes referred to as "General Taxes") as well as to the operation and finances of the District, including State funding of education.

The Nevada Legislature (the "Legislature") determines the amount of State funds that will be distributed to school districts for operating purposes in each year pursuant to statutory funding formulas. There is no assurance that there will not be any change in, interpretation of, or addition to the applicable laws, provisions, and regulations which would have a material effect, directly or indirectly, on the affairs of the District and the imposition, collection, and expenditure of its revenues, including General Taxes.

Forward-Looking Statements

This Official Statement, particularly (but not limited to) the sections entitled "DISTRICT FINANCIAL INFORMATION – General Fund History of Revenues, Expenditures and Changes in Fund Balance," " – Debt Service Fund," " – Fiscal Year 2027 Budget Considerations," and any statements throughout this Official Statement referring to budgeted, interim or unaudited information for future years, contains statements relating to future results that are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words "estimate," "forecast," "intend," "expect" and similar expressions identify forward-looking statements. Any forward-looking statement is subject to uncertainty. Accordingly, such statements are subject to risks that could cause actual results to differ, possibly materially, from those contemplated in such forward-looking statements. Inevitably, some assumptions used to develop forward-looking statements will not occur as assumed or unanticipated events and circumstances may occur. Therefore, investors should be aware that there are likely to be differences between forward-looking statements and actual results. Those differences could be materially adverse to the owners of the Bonds.

Secondary Market

No guarantee can be made that a secondary market for the Bonds will develop or be maintained by the Initial Purchaser or others. Thus, prospective investors should be prepared to hold their Bonds to maturity.

Additional Information

This introduction is only a brief summary of the provisions of the Bonds and the Bond Resolution; a full review of the entire Official Statement should be made by potential investors. Brief descriptions of the Bonds, the Bond Resolution, the Project and the District are included in this Official Statement. All references herein to the Bonds, the Bond Resolution and other documents are qualified in their entirety by reference to such documents. *This Official Statement speaks only as of its date and the information contained herein is subject to change.*

Additional information and copies of the documents referred to herein are available from the District and the Municipal Advisor at the addresses set forth as follows:

Washoe County School District Attn: Chief Financial Officer 425 East 9th Street Reno, Nevada 89520 775-348-0313	JNA Consulting Group, LLC 410 Nevada Way Suite 200 Boulder City, Nevada 89005 702-294-5100

The Project

The net proceeds of the Bond proceeds will be used to acquire, construct, improve and equip school facilities in the District.

THE BONDS

General information describing the Bonds appears below and throughout this Official Statement. This summary information is qualified in its entirety by the provisions of the Bond Resolution, which is available from the sources listed in "INTRODUCTION – Additional Information."

General

The Bonds will be issued as fully registered bonds in denominations of $5,000 and any integral multiple thereof. The Bonds will be dated as of their date of delivery and will bear interest (calculated on the basis of a 360-day year of twelve 30-day months) and mature as set forth on the inside cover page of this Official Statement. The Bonds initially will be registered in the name of "Cede & Co.," as nominee for DTC, the securities depository for the Bonds. Purchases of the Bonds are to be made in book-entry only form. Purchasers will not receive certificates evidencing their beneficial ownership interest in the Bonds. See "Book-Entry Only System" below.

Payment Provisions

Interest on the Bonds is payable on June 1 and December 1 (each an interest payment date), commencing June 1, 2027. Such interest on the Bonds is payable by check or draft mailed by the Paying Agent on the interest payment date, or if such day is not a business day, on the next succeeding business day, to the person in whose name each Bond is registered (*i.e.*, Cede & Co.) on the 15th day of the month preceding the interest payment date (the "Regular Record Date"), at the address shown on the registration records maintained by the Registrar as of the close of business on the Regular Record Date. However, if there is a default in payment or provision of interest due with respect to a Bond on any interest payment date, such interest thereafter will be paid to the registered owner of such Bond as of a special record date (the "Special Record Date") to be established by the Registrar whenever moneys become available for payment of the defaulted interest. The Special Record Date will be fixed by the Paying Agent whenever money becomes available for payment of the defaulted interest and notice of the Special Record Date will be given to the registered owners of the Bonds not less than 10 days prior thereto electronically or otherwise by first-class mail to each registered owner as shown on the Registrar's registration records on a date selected by the Registrar, stating the date of the Special Record Date and the date selected for the payment of the defaulted interest. Principal on the Bonds will be payable at maturity or earlier redemption at the corporate trust office of the Paying Agent (or at such other office designated by the Paying Agent) upon presentation and surrender thereof. Any Bond not paid upon presentation and surrender at or after maturity or redemption shall continue to draw interest at the rate stated in the Bond until the principal is paid in full. All such payments of principal and interest shall be made in lawful money of the United States of America.

Notwithstanding the foregoing, payments of the principal of and interest on the Bonds will be made directly to DTC or its nominee, Cede & Co., by the Paying Agent, so long as DTC or Cede & Co. is the registered owner of the Bonds. Disbursement of such payments to DTC's Participants (defined in Appendix B) is the responsibility of DTC, and disbursements of such payments to the Beneficial Owners (defined in Appendix B) is the responsibility of DTC's Participants and the Indirect Participants (defined in Appendix B), as more fully described herein. See "Book-Entry Only System" below.

Redemption Provisions

Optional Redemption. The Bonds, or portions thereof ($5,000 or any integral multiple), maturing on and after June 1, 2037 are subject to redemption prior to their respective maturities, at the option of the District, on or after June 1, 2036, in whole or in part, at any time, from any maturities selected by the District, and by lot within a maturity (giving proportionate weight to Bonds in denominations larger than $5,000), at a price equal to the principal amount of each Bond, or portion thereof, so redeemed, plus accrued interest thereon to the redemption date.

Mandatory Sinking Fund Redemption*.

The Bonds maturing on June 1, 20__ (the "Term Bonds"), if any, are subject to mandatory sinking fund redemption at a redemption price equal to 100% of the principal amount thereof and accrued interest to the redemption date.

As and for a sinking fund for the redemption of those Term Bonds, there shall be deposited into the Principal Account created in the Bond Resolution, on or before the dates shown below, a sum which, together with other moneys available therein, is sufficient to redeem the Term Bonds maturing on June 1, ___, on the dates and in the principal amounts shown below.

Redemption Date (June 1)	Principal Amount

Not more than 60 days nor less than 30 days prior to the sinking fund payment dates for the Term Bonds, the Registrar shall proceed to select for redemption (by lot in such manner as the Registrar may determine) from all outstanding Term Bonds, a principal amount of the Term Bonds equal to the aggregate principal amount of Bonds redeemable with the required sinking fund payments, and shall call such Term Bonds or portions thereof for redemption from the sinking fund on the next principal payment date, and give notice of such call as described in " - Notice of Prior Redemption" below.

At the option of the Board to be exercised by delivery of a written certificate to the Registrar not less than sixty days next preceding any sinking fund redemption date, it may (i) deliver to the Registrar for cancellation Term Bonds or portions thereof ($5,000 or any integral multiple thereof) in an aggregate principal amount desired by the Board or, (ii) specify a principal amount of Term Bonds or portions thereof ($5,000 or any integral multiple thereof) which prior to said date have been redeemed (otherwise than through the operation of the sinking fund) and canceled by the Registrar and not theretofore applied as a credit against any sinking fund redemption obligation. Each Term Bond or portion thereof so delivered or previously redeemed which is a part of the maturity which would be subject to mandatory redemption on the following principal payment date shall be credited by the Registrar at 100% of the principal amount thereof against the obligation of the Board on the sinking fund redemption dates and any excess shall be

* Preliminary; subject to change.

so credited against future sinking fund redemption obligations in such manner as the Board determines.

Notice of Redemption. Notice of any redemption prior to maturity of the Bonds will be given by the Registrar, electronically, as long as Cede & Co. is the registered owner of the Bonds, and otherwise by first class mail, at least 30 days but not more than 60 days prior to the redemption date, to the registered owner of any Bonds, all or a part of which is called for redemption, at his address as it last appears on the registration records of the Registrar, in the manner and upon the conditions to be provided in the Bond Resolution. The notice will identify the Bonds or portions thereof (in the case of redemption of the Bonds in part but not in whole) to be redeemed, specify the redemption date and state that on the redemption date, the principal amount thereof, accrued interest and premium, if any, thereon will become due and payable at the office of the Paying Agent, or such other office as may be designated by the Paying Agent, and that after the redemption date, no further interest will accrue on the principal of any Bonds called for redemption. Actual receipt of notice by the owners of Bonds is not a condition precedent to redemption of such Bonds.

A notice of redemption may contain a statement that the redemption is conditioned upon receipt by the Paying Agent of funds on or before the date fixed for redemption sufficient to pay the redemption price of the Bonds so called for redemption, and that if such funds are not available, such redemption shall be canceled by written notice to the owners of the Bonds called for redemption in the same manner as the original redemption notice was given.

Tax Covenant

In the Bond Resolution, the District covenants for the benefit of the registered owners of the Bonds that it will not take any action or omit to take any action with respect to the Bonds, the proceeds thereof, any other funds of the District or any facilities financed with the proceeds of the Bonds if such action or omission (i) would cause the interest on the Bonds to lose its exclusion from gross income for federal income tax purposes under Section 103 of the Tax Code, or (ii) would cause interest on the Bonds to lose its exclusion from alternative minimum taxable income as defined in Section 55(b) of the Tax Code. The foregoing covenant shall remain in full force and effect notwithstanding the payment in full or defeasance of the Bonds until the date on which all obligations of the District in fulfilling the above covenant under the Tax Code have been met. The District makes no covenant with respect to taxation of interest on the Bonds as a result of the inclusion of that interest in the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code).

Defeasance

When all bond requirements of any Bond have been duly paid, the pledge and lien and all obligations under the Bond Resolution shall be discharged and the Bond shall no longer be deemed to be outstanding within the meaning of the Bond Resolution. There will be deemed to be such due payment when the District has placed in escrow or in trust with a trust bank located within or without the State, an amount sufficient (including the known minimum yield available for such purpose from Federal Securities in which such amount wholly or in part may be initially invested) to meet all bond requirements of the Bond, as the same become due to the final maturity of the Bond, or upon any redemption date as of which the District shall have exercised or shall have obligated itself to exercise its prior redemption option by a call of the Bond for payment. The

Federal Securities shall become due before the respective times on which the proceeds thereof shall be needed, in accordance with a schedule established and agreed upon between the District and the bank at the time of the creation of the escrow or trust, or the Federal Securities shall be subject to redemption at the option of the owners thereof to assure availability as so needed to meet the schedule. For the purpose of this paragraph, "Federal Securities" shall be as defined in NRS 350.222 and shall include only Federal Securities which are not callable for redemption prior to their maturities except at the option of the holder thereof.

Amendment of the Bond Resolution

The Bond Resolution may be amended by the District: (1) without the consent of or notice to the holders of the Bonds for the purpose of curing any ambiguity or formal defect or omission therein; and (2) with the consent of a majority of the Bondholders or with the consent of the insurer, if any, of the Bonds in connection with any other amendment.

Notwithstanding the foregoing, no such amendment, unless consented to by the Bondholder adversely affected thereby, shall permit: (1) a change in the maturity or in the terms of redemption of the principal of any outstanding Bond or any installment of interest thereon; (2) a reduction in the principal amount of any Bond, the rate of interest thereon, or any prior redemption premium payable in connection therewith; or (3) the establishment of any priorities as between Bonds issued and outstanding under the provisions of the Bond Resolution.

Book-Entry Only System

The Bonds will be available only in book-entry form in the principal amount of $5,000 or any integral multiple thereof. DTC will act as the initial securities depository for the Bonds. The ownership of one fully registered Bond for each maturity in each series, as set forth on the inside cover page of this Official Statement, in the aggregate principal amount of such maturity coming due thereon, will be registered in the name of Cede & Co., as nominee for DTC. See Appendix B – Book-Entry Only System.

SO LONG AS CEDE & CO, AS NOMINEE OF DTC, IS THE REGISTERED OWNER OF THE BONDS, REFERENCES IN THIS OFFICIAL STATEMENT TO THE OWNERS WILL MEAN CEDE & CO. AND WILL NOT MEAN THE BENEFICIAL OWNERS.

Neither the District nor the Registrar and Paying Agent will have any responsibility or obligation to DTC's Direct Participants or Indirect Participants (each as defined in Appendix B), or the persons for whom they act as nominees, with respect to the payments to or the providing of notice for the Direct Participants, the Indirect Participants or the beneficial owners of the Bonds as further described in Appendix B to this Official Statement.

Debt Service Requirements

The following table sets forth the estimated debt service requirements for the Bonds in each fiscal year.

Debt Service Requirements[(1)]*

Fiscal Year	Principal	Interest	Total
2027		$4,259,444	$ 4,259,444
2028	$ 1,500,000	8,200,000	9,700,000
2029	2,785,000	8,125,000	10,910,000
2030	2,920,000	7,985,750	10,905,750
2031	3,070,000	7,839,750	10,909,750
2032	3,220,000	7,686,250	10,906,250
2033	3,380,000	7,525,250	10,905,250
2034	3,550,000	7,356,250	10,906,250
2035	3,730,000	7,178,750	10,908,750
2036	3,915,000	6,992,250	10,907,250
2037	4,110,000	6,796,500	10,906,500
2038	4,315,000	6,591,000	10,906,000
2039	4,530,000	6,375,250	10,905,250
2040	4,760,000	6,148,750	10,908,750
2041	4,995,000	5,910,750	10,905,750
2042	5,245,000	5,661,000	10,906,000
2043	5,510,000	5,398,750	10,908,750
2044	5,785,000	5,123,250	10,908,250
2045	6,075,000	4,834,000	10,909,000
2046	6,380,000	4,530,250	10,910,250
2047	6,695,000	4,211,250	10,906,250
2048	7,030,000	3,876,500	10,906,500
2049	7,385,000	3,525,000	10,910,000
2050	7,750,000	3,155,750	10,905,750
2051	8,140,000	2,768,250	10,908,250
2052	8,545,000	2,361,250	10,906,250
2053	8,975,000	1,934,000	10,909,000
2054	9,420,000	1,485,250	10,905,250
2055	9,895,000	1,014,250	10,909,250
2056	10,390,000	519,500	10,909,500
Total:	$164,000,000	$155,369,194	$319,369,194

SECURITY FOR THE BONDS

General Obligations

General. The Bonds are direct and general obligations of the District, and the full faith and credit of the District is pledged for the payment of the principal of, any prior redemption premiums and the interest on the Bonds, subject to State constitutional and statutory limitations on the aggregate amount of ad valorem taxes. See "PROPERTY TAX INFORMATION – Property Tax Limitations." The Bonds are payable by the District from any source legally available therefor at the times such payments are due, including the General Fund of the District. In the event, however, that such legally available sources of funds are insufficient, the District is obligated to levy a general (ad valorem) tax on all taxable property within the District for payment of the Bonds, subject to the limitations provided in the constitution and statutes of the State.

Limitations on Property Tax Revenues. The constitution and laws of the State limit the total ad valorem property taxes that may be levied by all overlapping taxing units within each county (including the State, the County, any city, or any special district) in each year. Generally, the combined overlapping tax rate is limited by statute to $3.64 per $100 of assessed valuation. Those limitations are described in "PROPERTY TAX INFORMATION – Property Tax Limitations." In any year in which the total property taxes levied within the County by all applicable taxing units exceed such property tax limitations, the reduction to be made by those units must be in taxes levied for purposes other than the payment of their bonded indebtedness, including interest on such indebtedness. See "PROPERTY TAX INFORMATION – Property Tax Limitations."

Debt Service Tax Levy

The District currently expects to repay the Bonds without increasing its debt rate of $0.3885. However, if necessary, the District may increase that rate to pay debt service on the Bonds, subject to the State constitutional and statutory limitations discussed throughout this Official Statement.

Reserve Account

Pursuant to NRS 350.020(5) the Board established a reserve account (the "Reserve Account") within its Debt Service Fund for payment of the outstanding general obligation bonds of the District payable from the tax rate for debt described above (excluding medium-term bonds) and, if then permitted by the statutes of the State, amounts in the Reserve Account may be withdrawn and used for purposes other than payment of debt service on outstanding District bonds. The Reserve Account must be established and maintained in an amount at least equal to the lesser of: 25% of the amount of principal and interest payments, net of any subsidies, due on all of the outstanding bonds of the District in the next fiscal year, or 10% of the outstanding principal amount of the District's bonds (the "Reserve Requirement"). The amounts on deposit in the Reserve Account are not directly pledged to pay debt service on the Bonds or the other general obligation bonds of the District. Currently, amounts on deposit in the Reserve Fund may be utilized only for the payment of debt service. However, the registered voters of the District at an election on the question or the Legislature may allow amounts in the Reserve Account to be withdrawn and used for purposes other than payment of debt service on outstanding District bonds.

Upon issuance of the Bonds, the amount required to be on deposit in the Reserve Account is $31,590,789*; that amount has been funded with available funds in the District's Debt Service Fund. If the amount in the Reserve Account falls below the required amount, NRS 350.020(5) provides that: (i) the Board shall not issue additional bonds pursuant to NRS 350.020(4) until the Reserve Account is restored to the level set forth above; and (ii) the Board shall apply all of the taxes levied by the District for payment of bonds of the District that are not needed for payment of the principal and interest on bonds of the District in the current fiscal year to restore the reserve account to an amount equal to the Reserve Requirement.

Additional Bonds

Pursuant to NRS 350.020(4) and an election held within the District on November 5, 2002 (the "Election"), the District received voter approval to issue general obligation bonds until November 5, 2012, provided the Board makes a finding that the proposed bonds can paid within a $0.3885 property tax rate for debt service and the Washoe County Debt Management Commission subsequently approves such finding. In order to issue any of the bonds permitted by the Election, the District must also be in compliance with the Reserve Account requirements described above under " – Reserve Account." In 2015, the Legislature enacted legislation (now codified at NRS 350.0201) that extended the authority granted by the Election to issue general obligation bonds to March 3, 2025. In 2021, the legislature enacted additional legislation (now codified at NRS 350.0203) that extended the authority granted by the Election to March 3, 2035. The Bonds are being issued pursuant to such authorization. If bonding authority is not renewed either by the Legislature or by County voters by March 3, 2035, the District would not be able to issue new rollover bonds beyond that date without additional authorization. Subject to Board approval and upon issuance of the Bonds, the District will have $344,000,000* in remaining authorization from the Washoe County Debt Management Commission to issue bonds pursuant to NRS 350.020(4).

Subject to Board approval, the District also has remaining authorization from the Washoe County Debt Management Commission to issue $201,980,000 of general obligation bonds additionally secured by a 0.54% Sales and Use Tax. See "DEBT STRUCTURE – Contemplated Debt."

The District reserves the right to issue additional bonds at any time legal requirements are met.

Bond Resolution Irrepealable

After any of the Bonds are issued, the Bond Resolution shall constitute irrevocable contracts between the District and the registered owner or owners of the respective Bonds; and the respective Bond Resolution, if any Bonds are in fact issued, shall be and shall remain irrepealable until the respective Bonds, as to all respective Bond Requirements, shall be fully paid, canceled and discharged, as provided in the respective Bond Resolution.

Other Security Matters

No Repealer. State statutes provide that no act concerning the Bonds or their security may be repealed, amended, or modified in such a manner as to impair adversely the Bonds

* Preliminary; subject to change.

or their security until all of the Bonds have been discharged in full or provision for their payment and redemption has been fully made.

No Pledge of Property. The payment of the Bonds is not secured by an encumbrance, mortgage or other pledge of property of the District, except the proceeds of the General Taxes and any other monies pledged under the respective Bond Resolution for the payment of the Bonds. No property of the District shall be liable to be forfeited or taken in payment of the Bonds.

No Recourse. No recourse shall be had for the payment of the Bond Requirements of the Bonds or for any claim based thereon or otherwise upon the respective Bond Resolution or any other instrument relating thereto, against any individual member of the Board or any officer or other agent of the Board or District, past, present or future, either directly or indirectly through the Board or the District, or otherwise, whether by virtue of any constitution, statute or rule of law, or by the enforcement of any penalty or otherwise.

Limitations on Remedies

No Acceleration. There is no provision for acceleration of maturity of the principal of the Bonds in the event of a default in the payment of principal of or interest on the Bonds. Consequently, remedies available to the owners of the Bonds may have to be enforced from year to year.

Bankruptcy, Federal Lien Power and Police Power. The enforceability of the rights and remedies of the owners of the Bonds and the obligations incurred by the District in issuing the Bonds are subject to the federal bankruptcy code and applicable bankruptcy, insolvency, reorganization, moratorium, or similar laws relating to or affecting the enforcement of creditors' rights generally, now or hereafter in effect; usual equity principles which may limit the specific enforcement under State law of certain remedies; the exercise by the United States of America of the powers delegated to it by the federal Constitution; the power of the federal government to impose liens in certain situations; and the reasonable and necessary exercise, in certain exceptional situations, of the police power inherent in the sovereignty of the State and its governmental bodies in the interest of serving a significant and legitimate public purpose. Bankruptcy proceedings or the exercise of powers by the federal or State government (including the imposition of tax liens by the federal government), if initiated, could subject the owners of the Bonds to judicial discretion and interpretation of their rights in bankruptcy or otherwise, and consequently may entail risks of delay, limitation or modification of their rights.

Changes in Laws. Various State laws apply to the imposition, collection, and expenditure of General Taxes as well as the operation and finances of the District. There is no assurance that there will not be any change in, interpretation of, or addition to the applicable laws, provisions, and regulations which would have a material effect, directly or indirectly, on the affairs of the District and the imposition, collection, and expenditure of its revenues, including General Taxes.

PROPERTY TAX INFORMATION

Property Tax Base

The State Department of Taxation reports the total assessed valuation of property within the District for the fiscal year ending June 30, 2027, to be $33,666,434,443 (inclusive of the net proceeds of mines), which represents a 1.2% increase from the assessed valuation (inclusive of the net proceeds of mines) for fiscal year 2026.

State law requires that the County Assessor reappraise, at least once every five years, all real and secured personal property (other than certain utility owned property which is centrally appraised and assessed by the Nevada Tax Commission). State law provides that in years in which the property is not reappraised, the County Assessor is to apply a factor representing typical changes in value in the area since the preceding year. The law requires that property be assessed at 35% of taxable value; that percentage may be adjusted upward or downward by the Legislature. Based on the assessed valuation of the District for its fiscal year 2027 (inclusive of the net proceeds of mines), the taxable value of all taxable property within the District is $96,189,812,694.

"Taxable value" is defined in the statutes as the full cash value in the case of land, as the replacement cost less applicable straight-line depreciation and obsolescence in the case of improvements to land, and as the replacement cost less applicable depreciation and obsolescence (determined in accordance with the regulations of the Nevada Tax Commission) with respect to taxable personal property; but the computed taxable value of any property must not exceed its full cash value. Depreciation of improvements to real property must be calculated at 1.5% of the cost of replacement for each year of adjusted actual age up to a maximum of 50 years. Adjusted actual age is actual age adjusted for any addition or replacement. The maximum depreciation allowed is 75% of the cost of replacement. When a substantial addition or replacement is made to depreciable property, its "actual age" is adjusted (i.e., reduced) to reflect the increased useful term of the structure. The adjusted actual age has been used on appraisals for taxes since 1986-87.

In Nevada, county assessors are responsible for assessments in the counties except for certain properties centrally assessed by the State, which include property owned by railroads, airlines, and utility companies.

History of Assessed Value

The following table illustrates a history of the assessed valuation in the District, including the assessed values attributable to redevelopment agencies. Due to property tax abatement laws enacted in 2005 (described in "Required Property Tax Abatements" below) the taxes collected by taxing entities within the County are capped and there is no longer a direct correlation between changes in assessed value and property tax revenue.

History of Assessed Value

Fiscal Year Ending June 30	Assessed Value of the District[1][2]	Percent Change
2023	$22,297,007,640	--
2024	29,208,579,047	30.9%
2025	31,701,836,974	8.5
2026	33,267,124,287	4.9
2027	33,666,434,443	1.2

(1) Includes the assessed value attributable to Net Proceeds of Minerals and the Redevelopment Agencies.
(2) There is no longer a direct correlation between the growth in assessed value and property tax revenues.

Property Tax Collections

In Nevada, county treasurers are responsible for the collection of property taxes, and forwarding the allocable portions thereof to the overlapping taxing units within the counties.

A history of the County's tax roll collection record appears in the following table. *This table reflects all amounts collected by the County, including amounts levied by the County on behalf of the District, the cities within the County and certain special taxing districts. The figures in the following table include property taxes that are not available to pay debt service on the Bonds*. The table below provides information with respect to the historic collection rates for the County, but may not be relied upon to depict the amounts of ad valorem property taxes available to the County in each year. There is no assurance that collection rates will be similar to the historic collection rates depicted below.

Property Tax Levies, Collections and Delinquencies – Washoe County, Nevada[1]

Fiscal Year Ending June 30	Net Secured Roll Tax Levy[2]	Current Tax Collections	% of Levy (Current) Collected	Delinquent Tax Collections[4]	Total Tax Collections	Total Tax Collections as % of Current Levy[3]
2023	$645,222,352	$642,760,951	99.62%	$2,145,450	$644,906,401	99.95%
2024	699,929,717	697,345,748	99.63	1,918,716	699,264,465	99.90
2025	757,357,198	753,806,390	99.53	2,923,053	756,738,443	99.92
2026	811,405,620	807,919,601	99.57	2,873,242	810,792,843	99.92
2027[4]	857,545,818	340,178,977	39.67	1,554,891	341,733,868	39.85

(1) Ad valorem taxes included on roll are levied by the County for all entities in the County.
(2) Represents the real property tax roll levies and collections; levy does not include centrally assessed property. Figures do not include refunds to taxpayers made due to a taxpayer settlement agreement. In fiscal year 2023, such refunded taxes for all taxing entities totaled $8,169,150.61, exclusive of interest. In fiscal year 2024, such refunded taxes for all taxing entities totaled $295,417.12, exclusive of interest.
(3) Figured on collections to taxes levied for the fiscal year.
(4) Collections in progress. As of September 24, 2026.

Source: County Treasurer's Office.

Taxes on real property are due on the third Monday in August unless the taxpayer elects to pay in installments on or before the third Monday in August and the first Mondays in October, January, and March of each fiscal year. Penalties are assessed if any taxes are not paid within 10 days of the due date as follows: 4% of the delinquent amount if one installment is delinquent, 5% of the delinquent amount plus accumulated penalties if two installments are delinquent, 6% of the delinquent amount plus accumulated penalties if three installments are delinquent and 7% of the delinquent amount plus accumulated penalties if four installments are delinquent. In the event of nonpayment, the county treasurer is authorized to hold the property for two years, subject to redemption upon payment of taxes, penalties and costs, together with interest at the rate of 10% per year from the date the taxes were due until paid. If delinquent taxes are not paid within the two-year redemption period, the county treasurer obtains a deed to the property free of all encumbrances. Upon receipt of a deed, the county treasurer may sell the property to satisfy the tax lien and assessments by local governments for improvements to the property. State law provides alternative remedies for the collection of taxes in certain instances, including judicial foreclosure (which may take place before the expiration of the two-year redemption period) and the issuance of a tax lien to the County Treasurer which may be sold before the expiration of the two-year redemption period (but remains subject to redemption).

All property that is not defined or taxed as "real estate" or "real property" is considered to be "personal property." Taxable personal property includes all property used in conjunction with a business, manufactured homes, aircraft, aircraft hangars, and billboards. Business personal property is reported annually and must include all personal property used in the business on July 1st of the current fiscal year. The County Treasurer issues annual personal property tax bills monthly between August and May; payments are due 30 days after issue.

Ten Highest Assessed Value of Taxpayers in the District

The following table represents the ten largest property-owning taxpayers in the District based on Fiscal Year 2025-2026 assessed valuations. The assessed valuations in this table represent both the secured tax roll (real property) and the unsecured tax roll (defined generally as taxable property which does not attach to the real estate, such as business equipment and fixtures, mobile/manufactured homes and airplanes). No independent investigation has been made of, and consequently there can be no representation as to, the financial conditions of the taxpayers listed, or that any such taxpayer will continue to maintain its status as a major taxpayer based on the assessed valuation of its property in the District. It is possible that one or more of the major taxpayers in the District may be experiencing varying degrees of financial difficulty; those or other entities may encounter future difficulties that could negatively impact the timely payment of property taxes.

Ten Largest Taxpayers in the District
Fiscal Year 2025-2026

Taxpayer	Type of Business	Assessed Value	% of Total Assessed Value[1]
NV Energy Combined	Utility	$239,399,880	0.72%

Property Tax Limitations

Overlapping Property Tax Caps. Article X, Section 2, of the State constitution limits the total ad valorem property taxes levied by all overlapping governmental units within the boundaries of any county (*i.e.*, the State, and any county, city, town, school district or special district) to an amount not to exceed five cents per dollar of assessed valuation ($5.00 per $100 of assessed valuation) of the property being taxed. Further, the combined overlapping tax rate is limited by statute to $3.64 per $100 of assessed valuation in all counties of the State with certain exceptions that (a) permit a combined overlapping tax rate of up to $4.50 per $100 of assessed valuation in the case of certain entities that are in financial difficulties (or require a combined overlapping tax rate of $5.00 per $100 of assessed valuation in certain circumstances of severe financial emergency); and (b) require that $0.02 of the statewide property tax rate of $0.17 per $100 of assessed valuation is not included in computing compliance with this $3.64 cap. (This $0.02 is, however, counted against the $5.00 cap.) State statutes provide a priority for taxes levied for the payment of general obligation bonded indebtedness in any year in which the proposed tax rate to be levied by overlapping units within a county exceeds any rate limitation; a reduction must be made by those units for purposes other than the payment of general obligation bonded indebtedness, including interest thereon.

Local Government Property Tax Revenue Limitation. State statutes limit the revenues school districts may receive from ad valorem property taxes for operating purposes. Pursuant to NRS 387.195, each board of county commissioners levies a tax of $0.75 per $100 of assessed valuation for school district operating purposes. This limitation does not apply to ad valorem taxes levied to repay the 2026 Bonds. School districts are also allowed additional levies for voter-approved debt service and voter-approved tax overrides for capital projects.

State statutes also limit the revenues local governments, other than school districts, may receive from ad valorem property taxes for purposes other than paying certain general obligation indebtedness which is exempt from such ad valorem revenue limits. This rate is generally limited as follows. The assessed value of property is first differentiated between that for property existing on the assessment rolls in the prior year (old property) and new property. Second,

the property tax revenue derived in the prior year is increased by no more than 6% and the tax rate to generate the increase is determined against the current assessed value of the old property. Finally, this tax rate is applied against all taxable property to produce the allowable property tax revenues. This cap operates to limit property tax revenue dependent upon changes in the value of old property and the growth and value of new property.

A local government, other than a school district, may exceed the property tax revenue limitation if the proposal is approved by its electorate at a general or special election. In addition, the Executive Director of the Department of Taxation will add to the allowed revenue from ad valorem taxes, the amount approved by the legislature for the costs to a local government of any substantial programs or expenses required by legislative enactment. Nevada local governments receiving certain sales tax revenues also may levy a property tax to make up any shortfalls between sales tax revenues estimated by the Nevada Department of Taxation and actual sales tax revenues available to local governments.

Various entities within the County are levying a tax override as allowed or required by State statutes.

The Nevada Tax Commission monitors the impact of tax legislation on local government services.

Constitutional Amendment - Abatement of Taxes for Severe Economic Hardship. At the November 5, 2002 election, the State's voters approved an amendment to the State constitution authorizing the State Legislature to enact a law providing for an abatement of the tax upon or an exemption of part of the assessed value of an owner-occupied single-family residence to the extent necessary to avoid severe economic hardship to the owner of that residence.

The legislation implementing that amendment provides that the owner of a single-family residence may file a claim with the county treasurer to postpone the payment of all or part of the property tax due against the residence if (among other requirements): the residence has an assessed value of not more than $175,000; the property owner does not own any other real property in the State with an assessed value of more than $30,000; the residence has been occupied by the owner for at least 6 months; the owner is not in bankruptcy; the owner owes no delinquent property taxes on the residence; the owner has suffered severe economic hardship caused by circumstances beyond his control (such as illness or disability expected to last for at least 12 continuous months); and the total annual income of the owner's household is at or below the federally designated poverty level. The amount of tax that may be postponed may not exceed the amount of property tax that will accrue against the residence in the succeeding three fiscal years. Any postponed property tax (and any penalties and the interest that accrue as provided in the statue) constitutes a perpetual lien against the residence until paid. The postponed tax becomes due and payable if: the residence ceases to be occupied by the claimant or is sold; any non-postponed property tax becomes delinquent; if the claimant dies; or on the date upon which the postponement expires, as determined by the county treasurer.

Required Property Tax Abatements

General. In 2005, the Legislature approved the Abatement Act (NRS 361.471 to 361.4735), which established formulas to determine whether tax abatements are required for property owners in each year. The general impact of the Abatement Act is to limit increases in ad valorem property tax revenues owed by taxpayers to a maximum of 3% per year for owner-

occupied residential properties (and low-income housing properties) and to 8% (or a lesser amount equal to the average annual change in taxable values over the last ten years, as determined by a formula) per year for all other properties. The Abatement Act limits do not apply to new construction. The Abatement Act formulas are applied on a parcel-by-parcel basis each year.

Generally, reductions in the amount of ad valorem property tax revenues levied in the County are required to be allocated among all of the taxing entities in the County in the same proportion as the rate of ad valorem taxes levied for that taxing entity bears to the total combined rate of all ad valorem taxes levied for that fiscal year. However, abatements caused by tax rate increases are to be allocated against the entity that would benefit from the tax increase rather than among all entities uniformly. Revenues realized from new or increased ad valorem taxes that are required by any legislative act that was effective after April 6, 2005, generally are *not* exempt from the abatement formulas. The Abatement Act provides for the recapture of previously abated property tax revenues in certain limited situations.

Levies for Debt Service. Revenues resulting from increases in the rate of ad valorem taxes for the payment of tax-secured obligations are exempt from the Abatement Act formulas if increased rates are necessary to pay debt service on the related obligation in any fiscal year if (i) the tax-secured obligations were issued before July 1, 2005; or (ii) the governing body of the taxing entity and the Washoe County Debt Management Commission make findings that no increase in the rate of an ad valorem tax is anticipated to be necessary for payment of the obligations during their term. Ad valorem tax rate increases to pay debt service on the Bonds are exempt from the Abatement Act.

General Effects of Abatement. Limitations on property tax revenues could negatively impact the finances and operations of the taxing entities in the State, including the District, to an extent that cannot be determined at this time.

Overlapping Tax Rates

The following table presents a history of statewide average tax rates and a representative overlapping tax rate for taxing districts located in Reno, the most populous city in the County. The overlapping rates for incorporated and unincorporated areas within the County vary depending on the rates imposed by applicable taxing jurisdictions. The highest overlapping tax rate in the County currently is $3.6600 in Reno, Sparks and in portions of the Palomino Valley General Improvement District and Truckee Meadows Fire Protection District.

History of Statewide Average and Sample Overlapping Property Tax Rates[1]

Fiscal Year Ended June 30	2023	2024	2025	2026	2027
Average Statewide rate	$3.1096	$3.1095	$3.1062	$3.0972	$3.0972
Washoe County	1.3917	1.3917	1.3917	1.3917	1.3917
Washoe County School District	1.1385	1.1385	1.1385	1.1385	1.1385
City of Reno	0.9598	0.9598	0.9598	0.9598	0.9598
Combined Special Districts	0.0000	0.0000	0.0000	0.0000	0.0000
State of Nevada[2]	0.1700	0.1700	0.1700	0.1700	0.1700
Total	$3.6600	$3.6600	$3.6600	$3.6600	$3.6600

(1) Per $100 of assessed valuation.
(2) $0.0200 of the State rate is exempt from the $3.64 cap. See "Property Tax Limitations" above.
Source: Property Tax Rates for Nevada Local Governments - State of Nevada, Department of Taxation, 2022-23 through 2026-27.

Estimated Overlapping General Obligation Indebtedness

In addition to the general obligation indebtedness of the District, other taxing entities are authorized to incur general obligation debt within boundaries that overlap or partially overlap the boundaries of the District. In addition to the entities listed below, other governmental entities may overlap the District but have no general obligation debt outstanding. The following chart sets forth the estimated overlapping general obligation debt (including general obligation medium-term bonds) chargeable to property owners within the District as of November 1, 2026.

Estimated Overlapping Net General Obligation Indebtedness

Entity[1]	Total General Obligation Indebtedness[2]	Presently Self-Supporting General Obligation Indebtedness	Net Direct General Obligation Indebtedness	Percent Applicable[3]	Overlapping Net General Obligation Indebtedness[4]
Washoe County	$81,578,134	$76,523,134	$5,055,000	100.00%	$5,055,000
City of Reno	193,043,848	187,166,642	5,877,206	100.00	5,877,206
City of Sparks	16,446,723	16,446,723	--	100.00	--
North Lake Tahoe Fire District	719,000	--	719,000	100.00	719,000
RSCVA	38,345,000	38,345,000	--	100.00	--
Incline Village GID	991,078	991,078	--	100.00	--
Truckee Meadows Fire District	9,139,000	7,283,000	1,856,000	100.00	1,856,000
State of Nevada	1,326,955,000	258,112,000	1,068,843,000	14.54	155,364,341
Total	$1,667,217,783	$584,867,577	$1,082,350,206		$168,871,547

(1) Other taxing entities overlap the District and may issue general obligation debt in the future.
(2) Includes medium-term bonds and other obligations.
(3) Based on fiscal year 2026 assessed valuation in the applicable jurisdiction. The percent applicable is derived by dividing the assessed valuation of the governmental entity into the assessed valuation of the District.
(4) Overlapping Net General Obligation Indebtedness equals total existing general obligation indebtedness less presently self-supporting general obligation indebtedness times the percent applicable.

Source: Debt information compiled by the Municipal Advisor; percentages calculated using information from Property Tax Rates for Nevada Local Governments - State of Nevada - Department of Taxation, 2025-26 and the State Treasurer's office.

The following table sets forth the total net direct of the District (after taking the issuance of the Bonds into account) and overlapping general obligation indebtedness attributable to the District as of November 1, 2026.

Net Direct & Overlapping General Obligation Indebtedness*

Total Direct General Obligation Indebtedness[(1)]	$1,600,955,000
Plus: Overlapping Net General Obligation Indebtedness	168,871,547
Net Direct & Overlapping Net General Obligation Indebtedness	$1,769,826,547

(1) Includes the issuance of the Bonds. See "DEBT STRUCTURE – Outstanding Debt and Other Obligations."

Selected Debt Ratios

The following table illustrates selected debt ratios for the District.

Selected Debt Ratios for the District*

Population[(1)]	519,471
Net Direct Debt[(2)]	$1,600,955,000
Overlapping Debt[(3)]	168,871,547
Total Direct Debt & Overlapping Debt	$1,769,826,547
Per Capita Net Direct Debt	$3,081.49
Per Capita Net Total Direct Debt & Overlapping Debt	$3,406.98
2027 Assessed Valuation[(4)]	$33,666,434,443
% Net Direct Debt to Assessed Valuation	4.75%
% Net Total Direct Debt & Overlapping Debt to Assessed Valuation	5.26%
2027 Taxable Value[(4)]	$96,189,812,694
% Net Direct Debt to Taxable Value	1.66%
% Net Total Direct Debt & Overlapping Debt to Taxable Value	1.84%

WASHOE COUNTY SCHOOL DISTRICT

General

All school districts in Nevada are organized under the terms of legislation enacted in 1956. There is one school district in each county with responsibility for all public education from preschool through the twelfth grade. The District's boundaries are coterminous with those of the County. Incorporated municipalities served by the District are Reno and Sparks. The District also serves the unincorporated areas of the County, including the unincorporated communities of Incline Village, Wadsworth and Gerlach. The estimated population of the County (which has boundaries identical to the District) was 519,471 as of July 1, 2025 (most recent figure available).

Board of Trustees

The District has a seven-member board of trustees. Five members are elected from geographic districts and two members are elected at-large. All members serve four-year terms. The Board elects a President, Vice President and Clerk from its members. Board members are limited to 12 years in office pursuant to State constitutional term limitations. The current members of the Board and their terms of office are as follows.

Board Member and Title	District Represented	Expiration of Term
Vacant[1]	District F (At-Large)	2027
Alex Woodley, Vice President	District E	2029
Christine Hull, Clerk	District A	2029
Colleen Westlake	District B	2027
James Phoenix	District C	2027
Elizabeth Smith	District D	2029
Diane Nicolet, Ph.D.	District G (At-Large)	2029

[1] Adam Mayberry was previously elected to the Board and was serving as its President for fiscal year 2027. Mr. Mayberry was elected to the Sparks City Council on November 3, 2026, and subsequently resigned from the Board. His replacement was elected on November 3, 2026, but will not be seated on the Board until January 2026. Mr. Woodley, the Board's Vice President, is expected to conduct Board meetings until a new President is appointed by the Board in January 2026.

Administration

The Board establishes District policy and oversees the budget. The Board appoints the Superintendent as its chief executive officer to administer the day-to-day operations of the District. Brief biographies for the Superintendent and the Chief Financial Officer, each of whom is directly involved in the issuance of the Bonds, are set forth below.

Superintendent – Tiffany J. McMaster. The Superintendent is the chief executive officer responsible for the administration of the District in accordance with policy set by the Board. As the chief executive officer and educational leader of the District, the Superintendent oversees the administration of all curricula, instruction, support services, personnel, fiscal operations, and facilities. In fulfilling this responsibility, the Superintendent operates through members of the administrative team who are each assigned specific functions in designated areas.

Tiffany J. McMaster was appointed Superintendent of the District, effective July 8, 2026. Ms. McMaster has been employed by the District since 1998 and has more than 25 years of experience in public education. Prior to her appointment as Superintendent, Ms. McMaster served as Deputy Superintendent beginning in 2024, with responsibility for the Office of Academics, including Student Success and Development, Elementary Education, Secondary Education, Student Services, and Research and Evaluation.

Prior to serving as Deputy Superintendent, Ms. McMaster served as a Lead Area Superintendent and Associate Chief and held principal positions at the elementary, middle and high school levels. She began her career with the District as a middle school mathematics teacher. Her district-level responsibilities have included academic and operational planning, organizational restructuring, facilities modernization, budget and fiscal matters, Board governance, labor matters, and implementation of districtwide initiatives. As Deputy Superintendent, she served on the District's Executive Leadership Team and Financial Review Committee and participated in the development and implementation of District initiatives and budgetary decisions.

Ms. McMaster holds a bachelor's degree in education from the University of Nevada, Reno, and two master's degrees in teaching and educational administration.

Chief Financial Officer - Mark Mathers. Mark Mathers was appointed as the District's Chief Financial Officer on October 23, 2017. Prior to being appointed by the District, Mr. Mathers served as Budget Manager for Washoe County, Nevada, from January 2015 through October 2017. Previously, he served first as Senior Deputy Treasurer and then Chief Deputy Treasurer for the State of Nevada from 2010 to 2014, Chief Deputy Treasurer for the State of Missouri from 2008 to 2009 and Director of Investments for the State of Missouri from 2004 to 2008. His local government experience also includes 10 years with the County of San Bernardino, California, in which he served as assistant debt manager helping to manage a debt portfolio of more than $1.5 billion, and chief investment officer and cash manager. He holds a Bachelor's Degree magna cum laude in Public Administration from California State University, Fullerton, and a Masters of Public Administration from Golden Gate University, California.

Facilities

The District operates 104 schools, which include 66 elementary schools, 17 middle schools, 15 high schools and six other schools (one K-12 school located in Gerlach, an online K-12 school, and four other options schools).

Capital Improvement Plan

Nevada statutory law requires local governments, including school districts, to file a five-year capital improvement plan ("CIP") along with a debt management policy and statement of indebtedness to the State and county debt management commission by August 1 of each year. The District's most recently filed Five-Year CIP for Fiscal Years 2027 through 2031 provides for a total of $1.43 billion of capital projects and associated costs over the next five years, plus transfers of $264 million to cover debt service. These projects are proposed to be financed through a combination of debt financing and pay-as-you-go funding supported by property tax collections dedicated to debt and dedicated sales and use taxes. See "DEBT STRUCTURE – Contemplated Debt." Total resources are also estimated to be $1.43 billion.

The CIP includes the planning or construction of modernizations of 11 existing schools, a new central administration building, the complete rebuild of three existing schools, and demolition of two existing middle schools and construction of new elementary schools on the same site. An annual capital renewal plan, which encompasses repairs and upgrades to existing schools, of $50 million per year is funded.

These projects are the outcome of a District-wide Facility Modernization Plan approved by the Board in December 2023. The 2023 Facility Modernization Plan is a 15-year program for capital projects with a focus on modernizing existing schools within the District while prioritizing efficiency and equity. The plan also outlined future consolidations of schools due to the District's declining enrollment, which the District is pursuing. The CIP includes funding of $827.52 million of major renovations and other facility modernization projects that were identified and prioritized in the 2023 Facility Modernization Plan.

Enrollment

The following table shows an enrollment history for the District.

Enrollment History[(1)]

Academic Year	Total Enrollment	Percent Change
2022-23	61,130	(2.0)%
2023-24	60,057	(1.8)
2024-25	59,677	(0.6)
2025-26	58,920	(1.3)
2026-27	57,911	(1.7)

(1) The date on which enrollment data is obtained has changed several times over the past ten years but is generally obtained three to four weeks after the school year begins.

Source: The District.

Although Washoe County has experienced population increases, the District's enrollment has not correlated with such increases. This is attributable to several factors.

First, the County has experienced demographic changes among new residents, as evidenced by lower household sizes, and specifically a lower number of school-aged children in new single and multi-family developments. The District believes that it may continue to experience an exodus of families with more school-aged children due to rapidly rising housing costs and the replacement of such families with an influx of older residents from out-of-state without school-aged children. Additionally, there has been a decrease in the birth rate within the County.

Second, enrollment in public charter schools has increased and there has been an increased trend towards home schooling. Although the Economic Development Authority of Northern Nevada has estimated possible population growth in the region between 1.7% and 2.4% as a result, in part, of Tesla and other companies locating in northern Nevada, this may not necessarily result in equivalent enrollment growth in the District.

Employee Relations and Pension Benefits

Employee Relations. As of September 1, 2026, the District had approximately 7,393 regularly scheduled employees and 1,334 substitute teachers. The 7,393 regularly scheduled employees are comprised of 3,868 certified educators, 2,828 education support professionals, 661 administrators and 36 school police officers.

The District is an equal opportunity employer with six employee bargaining units: school police, school administrators, professional-technical, school psychologists, certified (teachers), and educational support staff.

The District has collective bargaining agreements with each of these units through June 30, 2027.

Benefits. The District provides long term disability and life insurance, health insurance, including vision and dental insurance, paid vacation, sick leave, holidays, and reimbursement for certain educational expenses to its employees.

Pension Matters. The State's Public Employees' Retirement System ("PERS") covers substantially all public employees of the State, its agencies and its political subdivisions, including the District. PERS, established by the Legislature effective July 1, 1948, is governed by the Public Employees' Retirement Board whose seven members are appointed by the Governor for four-year terms. **Except for certain District-specific information set forth below, the information in this section has been obtained from publicly-available documents provided by PERS. The District has not independently verified the information obtained from the publicly available documents provided by PERS and is not responsible for its accuracy.**

All public employees who meet certain eligibility requirements participate in PERS, which is a cost sharing multiple-employer defined benefit plan. Benefits, as established by statute, are determined by the number of years of accredited service at the time of retirement and the member's highest average compensation in any 36 consecutive months. Benefit payments to which participants may be entitled under PERS include pension benefits, disability benefits and death benefits. The following table illustrates the PERS service credit multiplier which reflects the benefit allowances for members as computed as certain percentages of average compensation for each accredited year of service depending upon when membership commenced (Membership Date) and during which period services were earned (Service Credit Multiplier). For the purpose of illustration, a public employee whose Membership Date occurred prior to July 1, 2001 would receive the Service Credit Multiplier of 2.50% for employment prior to July 1, 2001 and a Service Credit Multiplier of 2.67% for employment thereafter.

PERS Benefit Multiplier

Membership Date	Service Credit Multiplier Before 07/01/01	After 07/01/01	After 01/01/10	After 07/01/15	Highest Contiguous Average Over
Before July 1, 2001	2.50%	2.67%	2.67%	2.67%	36 months
After July 1, 2001, before January 1, 2010	--	2.67%	2.67%	2.67%	36 months
After January 1, 2010, before July 1, 2015	--	--	2.50%	2.50%	36 months
After July 1, 2015	--	--	--	2.25%	36 months

Similarly, legislative changes have created several tiers of retirement eligibility thresholds. The following table illustrates the PERS retirement eligibility thresholds for regular members.

Nevada PERS Retirement Eligibility

Membership Date	Regular	
	Age	Years of Service
Before January 1, 2010	65	5
	60[(1)]	10
	Any	30
After January 1, 2010, before July 1, 2015	65	5
	62	10
	Any	30
After July 1, 2015	65	5
	62	10
	55	30
	Any	33 1/3

(1) Age 55 for police or firefighters.

State law requires PERS to conduct annual actuarial valuations showing unfunded actuarial accrued liability ("UAAL") and the contribution rates required to fund PERS on an actuarial reserve basis. The actual employer and employee contribution rates are established in cycle with the State's biennium budget on the first full pay period of the even numbered fiscal years. By PERS policy, the system performs an annual actuary study. The most recent independent actuarial valuation report of PERS was completed as of June 30, 2026. The following table reflects some of the key valuation results from the last three PERS' actuary studies:

PERS Actuarial Report

Key Valuation Results	June 30, 2026	June 30, 2025	June 30, 2024
UAAL	$20.12 billion	$19.95 billion	$20.13 billion
Market Value Funding Ratio	84.8%	80.5%	78.1%
Actuarial Value Funding Ratio	78.4%	77.3%	75.6%
Assets Market Value	$79.16 billion	$70.80 billion	$64.46 billion
Assets Actuarial Value	$73.17 billion	$68.03 billion	$62.40 billion

For the purpose of calculating the actuarially determined contribution rate, the UAAL is amortized as a level percent of payroll over a year-by-year closed amortization period where each amortization period is set at 20 years. Effective June 30, 2022, the outstanding balance of all Regular amortization bases, except for the initial base dated June 30, 2004, were combined and re-amortized over a closed 20-year period, and the outstanding balance of all Police/Fire amortization bases, including the initial base dated June 30, 2004, were combined and re-amortized over a closed 20-year period. Any new UAAL as a result of actuarial gains or losses or a change in actuarial assumptions or methods will be amortized over 20 years. The PERS Board also adopted a five-year asset smoothing policy for net deferred gains/losses.

The following presents the net pension liability of PERS as of June 30, 2025, and the District's proportionate share of the net pension liability of PERS as of June 30, 2025 (reported on June 12, 2026), calculated using the discount rate of 7.25%, as well as what the PERS net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage point higher (8.25%) than the current discount rate:

Net Pension Liability

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
PERS Net Pension Liability	$28,914,295,412	$17,185,295,625	$7,509,673,323
District Share of PERS Net Pension Liability	$1,416,177,372	$841,709,198	$367,812,159

Contribution rates to PERS are established in accordance with State statute. The statute allows for biennial increases or decreases of the actuarially determined rate. The Legislature can increase the contribution rate for members by any amount it determines necessary. Pursuant to statute, there is no obligation on the part of the employers to pay for their proportionate share of the unfunded liability. The District is obligated to contribute all amounts due under PERS; however, in accordance with State law, non-police/fire employees share the annual increases equally with the employer (unless otherwise prohibited by contract). A history of contribution rates is shown below.

	Fiscal Years 2018 and 2019	Fiscal Years 2020 and 2021	Fiscal Years 2022 and 2023	Fiscal Years 2024 and 2025	Fiscal Years 2026 and 2027
Regular members	28.00%	29.25%	29.75%	33.50%	36.75%
Police/fire members	40.50	42.50	44.00	50.00	58.75

The District employs two different contribution plans for PERS: the employer-paid plan where the district contributes the full contribution required on behalf of the employee, and the employer/employee paid plan where the employee and the district contribute equal amounts towards the required contribution.

The table below shows the District's contribution to PERS over the last five fiscal years.

PERS Contributions

	Fiscal Year 2022	Fiscal Year 2023	Fiscal Year 2024	Fiscal Year 2025	Fiscal Year 2026
Contribution	$55,890,237	$52,014,526	$57,983,321	$81,227,032	$92,890,287

See Note 8 in the audited financial statements attached hereto as Appendix A for a summary description of PERS. In addition, copies of the most recent audited financial statements for PERS are available from the Public Employees Retirement System of the State of Nevada, 693 West Nye Lane, Carson City, Nevada 89703-1599, 775-687-4200.

Other Post-Employment Benefits/Retiree Health Insurance Subsidy. State law requires the District to conduct an actuarial valuation showing the Net OPEB Liability. The District conducts the actuarial valuation bi-annually with the most recent valuation done as of June 30, 2025. The following table reflects some of the key valuation results from the last two actuary studies:

Washoe County School District OPEB Actuarial Report

Key Valuation Results	Fiscal Year 2022	Fiscal Year 2023	Fiscal Year 2024	Fiscal Year 2025
Net OPEB Liability	$84.12 mil.	$65.90 mil.	$35.01 mil.	$28.33 mil.
Actuarial Funding Ratio	47.3%	55.4%	72.5%	76.8%
Assets Actuarial Value	$75.61 mil.	$81.91 mil.	$92.24 mil.	$93.78 mil.

The following presents the net OPEB liability of the District as of June 30, 2025, calculated using the discount rate of 6.72%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.72%) or one percentage point higher (7.72%) than the current discount rate:

Net OPEB Liability

	1% Decrease in Discount Rate (5.07%)	Discount Rate (6.07%)	1% Increase in Discount Rate (7.07%)
Net OPEB Liability	$46,417,000	$33,585,000	$22,760,000

See Note 9 in the audited financial statements attached hereto as Appendix A for additional information about the District's OPEB and OPEB Trust Fund.

Compliance with Federal Laws

General. As a public entity, the District is subject to various federal laws, including those relating to environmental matters, accommodation of those with disabilities and compliance with federal affordable healthcare requirements. The District also is subject to federal laws and regulations related to certain of its educational programs and is subject, to various degrees, to legislation reducing grants or payments associated with those programs. The laws described above and other federal laws presently in effect or enacted in the future may require the expenditure of funds on programs without necessarily providing sufficient resources (in the form of federal grants or otherwise) to pay for the mandates of those requirements. The District cannot predict the ultimate effect of current or future federal legislation on the District.

Sequestration. The District is subject to developments at the federal level with respect to the Budget Control Act of 2011, also known as "sequestration," which requires spending cuts.

With regard to the District's QSCB subsidy, a Department of the Treasury IRS notice dated August 8, 2017 pursuant to IRS Code section 6431 stated that the sequestration reduction to the interest subsidies will be 5.7% for federal fiscal year beginning October 1, 2020 through September 30, 2030. Under a federal budget bill enacted in November 2015, the sequestration reduction will continue through federal fiscal year 2029. The sequestration reduction rate remains subject to change should additional laws be enacted which impact the sequester. See "DEBT STRUCTURE – District General Obligation Bond Total Debt Service Requirements" for an illustration of expected subsidies (without taking sequestration into account).

DISTRICT FINANCIAL INFORMATION

Budgeting

On or before April 15 of each year, the District is required to submit to the Nevada Department of Taxation the tentative budget for the next fiscal year, commencing on July 1. The tentative budget contains the proposed expenditures and means of financing them. After reviewing the tentative budget, the Nevada Department of Taxation is required to notify the District upon its acceptance of the budget. The District presently expects to augment its fiscal year 2027 budget on December 8, 2026.

Following acceptance of the proposed budget by the Nevada Department of Taxation, the District is required to conduct public hearings on its budget no sooner than the third Monday in and no later than the last day in May and adopt the final budget on or before June 8. The District has 30 days from the close of the biennial legislative session to adopt an amended final budget.

The District is authorized to transfer budgeted amounts within functions or funds, but any other transfers must be approved by the Board. Increases to a fund's budget other than by transfers are accomplished through formal action of the Board. With the exception of money appropriated for specific capital projects or Federal and State grant expenditures, all unencumbered appropriations lapse at the end of the fiscal year.

Annual Reports

General. The District prepares an annual comprehensive financial report ("ACFR") setting forth the financial condition of the District as of June 30 of each fiscal year. The ACFR, which includes the District's basic audited financial statements, is the official financial report of the District. It is prepared following generally accepted accounting principles ("GAAP"). The latest completed report is for the year ended June 30, 2025. See Note 1 in the audited financial statements attached hereto as Appendix A for a summary of the District's significant accounting policies.

The audited basic financial statements for the year ended June 30, 2026, which are attached hereto as a portion of Appendix A, represent the most recent audited financial statements of the District. Financial statements for prior years may be obtained from the sources listed in "INTRODUCTION – Additional Information."

Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (the "GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2024. This is the twenty-fourth consecutive year the District has received this recognition. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report with contents conforming to program standards. Such reports must satisfy both generally accepted accounting principles and acceptable legal requirements.

The GFOA further awarded a Popular Annual Financial Report for the fiscal year ended June 30, 2024 to the District for an eighth consecutive year.

Accounting

All governmental funds are accounted for using the modified accrual basis of accounting in which revenues are recognized when they become measurable and available as net current assets. Ad valorem taxes and other revenues are considered "measurable and available" if they are collected within 60 days of the end of the current fiscal year and grant revenues are recognized within 75 days of year end.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. The exception to this general rule is principal and interest on general long-term debt, which are recognized when due.

All proprietary funds are accounted for using the accrual basis of accounting in which revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Pupil-Centered Funding Plan

In Nevada, school district funding is governed by the Pupil-Centered Funding Plan (the "Funding Plan") approved by the Legislature in 2019. The Funding Plan provides K-12 funding on an equitable basis by identifying a certain basic level of support to each pupil in the State and then making adjustments to such basic support to reflect different conditions in each school district. Pursuant to the Funding Plan, local general operating school property taxes and sales taxes are deposited in the State Education Fund created by the Funding Plan (the "State Education Fund") for redistribution to school districts on a Statewide basis. Such redistribution employs a weighted funding approach to the base per pupil funding amount based on certain factors, including English learners, at-risk pupils, and gifted and talented pupils. Special education funding for students with disabilities is separately appropriated by the State.

With respect to deposits to the State Education Fund derived from major local sources of school district funding, the Funding Plan requires that the countywide $0.75 ad valorem property tax and the Local School Support sales and use tax equal to 2.60% of taxable sales (the "LSST") be deposited in the State Education Fund. Earnings on investments, tuition and summer school fees, athletic proceeds, facility rentals, donations and grants and miscellaneous sources will continue to be considered a local revenue that stays with school districts. Beginning July 1, 2021, the State began making monthly distributions to school districts from the State Education Fund,

which equal approximately one-twelfth of budgeted revenues less any amount set aside as a reserve.

Pursuant to the Funding Plan, school districts' base per-pupil funding amounts are not guaranteed. However, the Funding Plan authorizes and provides for funding in the Education Stabilization Account in the State Education Fund. Once the Education Stabilization Account is funded, the Funding Plan provides for possible use of the money in such account to provide relief to school districts when collection of revenues will result in the State Education Fund receiving less than 97% of what has been budgeted. Additionally, to protect districts during times of declining enrollment, State law contains a "hold-harmless" provision which, if the average daily enrollment ("ADE") during the quarter of the school year is less than or equal to 95% of the enrollment in the school district based on the ADE during the same quarter of the immediately preceding school year, the higher enrollment of pupils during the same quarter of the immediately preceding school year must be used for purposes of making the monthly apportionment from the SEF to that school district pursuant to NRS 387.1223.

The Funding Plan does not impact the distribution method or amount of capital sources that school districts receive to pay debt service on general obligation bonds or for pay-as-you-go capital projects. Thus, the District receives property taxes collected for the $0.3885 per $100 of assessed valuation debt rate collected by the County Treasurer, revenues from a 0.54% sales tax rate approved by County voters for school capital projects, and other revenues received in District capital project and debt service funds.

State Education Fund

The State Education Fund is a special revenue fund of the State, in which revenues and expenditures of the Funding Plan are budgeted. As noted previously, the two largest sources of revenues within the State Education Fund are the countywide $0.75 ad valorem property tax and the LSST equal to 2.60% of taxable sales. These revenues are pooled on a statewide basis within the State Education Fund. In addition, the State contributes a significant amount of funding for education through a transfer from its General Fund to the State Education Fund. Other revenues sources of the State Education Fund are motor vehicle government services tax, AB 579 transient lodging taxes, marijuana taxes, a share of the state tax on slot machines, and interest earnings.

In Fiscal Year 2022, actual statewide LSST revenues and certain other revenues far exceeded the State's budgeted amounts, which were set during the COVID-19 pandemic. The increase in revenues was due to greater consumer spending on taxable goods, partly due to federal stimulus transfers to households and greater visitor volumes and spending on gaming. Because the State's budget was set for Fiscal Years 2022 and 2023, these additional revenues were not appropriated during the prior biennium. In addition, the State estimated continued growth in revenues for each of Fiscal Years 2024 and 2025. Consequently, total budgeted funding increased approximately $1 billion per year last biennium (Fiscal Years 2024 and 2025), due to the aforementioned growth of State Education Funding revenues in Fiscal Years 2022 and 2023.

The table below provides a history of total budgeted Funding Plan funding from the State to school districts and charter schools over this period.

Budgeted Pupil-Centered Funding Plan

Fiscal Year Ended June 30	2023	2024	2025	2026	2027
Base Per Pupil Funding	$3,667,227,214	$4,379,176,004	$4,601,409,680	$4,523,487,318	$4,557,042,431
Weighted Funding	162,230,374	419,193,900	440,139,107	407,561,721	410,599,763
Auxiliary Funding	201,468,300	194,770,412	194,807,777	193,612,678	193,612,678

Total	$4,473,364,280	$5,476,921,809	$5,720,230,865	$5,724,491,159	$5,761,084,314
% Change	--	22.4%	4.4%	0.1%	0.6%

Sources: Legislative Appropriation Report for 2022-2023. State Legislative Finance Committee for 2023-2024 through 2026-2027.

Base per-pupil funding is the amount distributed to school districts and charter schools for the general education needs of all students and is recorded in local agencies' General Fund budgets. Weighted funding is provided for At-Risk, Gifted and Talented, and English Learners students to cover the additional estimated cost to support these students' needs. Auxiliary funding represents funding for districts' transportation costs and the net cost of food services not funded by the federal government or local food services revenues. Local Special Education funding represents the amount of funding for Special Education services funded by the State.

The greater resources for statewide K-12 education resulted in a large increase in each district's base per-pupil amount in Fiscal Year 2024, although these increases differed for each district based on equity adjustments within the Funding Plan funding model. For the District, per-pupil funding increased from $7,318 in Fiscal Year 2023 to $9,243 in fiscal year 2024, an increase of 26.3%. For Fiscal Year 2026, the District received $9,708 in adjusted base per-pupil funding and in Fiscal Year 2027, the District receives $9,781 in adjusted base per-pupil funding.

The State's budget also establishes an Education Stabilization Account. The balance in the Education Stabilization Account is projected to be $648.7 million at the end of the 2025-27 biennium.

General Fund History of Revenues, Expenditures and Changes in Fund Balance

The following table provides a history of the audited financial operations for the District's General Fund for Fiscal Years 2022 to 2026. The information for Fiscal Years 2022 through 2026 was derived from the District's ACFR for each of those years. The table also provides budget information for Fiscal Year 2027. The information in this table should be read together with the District's audited financial statements for Fiscal Year 2026, and the accompanying notes, which are included as Appendix A hereto. Financial statements for prior years can be obtained from the sources listed in "INTRODUCTION – Additional Information."

Current Board policy sets a target for the District to maintain unrestricted reserves in the General Fund in an amount equal to 12% of General Fund expenditures and transfers. The District ended Fiscal Year 2025 with an unrestricted reserve of approximately 11.5% based on actual General Fund expenditures and transfers out for Fiscal Year 2026.

Debt Service Fund

The District maintains two Debt Service Funds to account for the accumulation of resources and payment of principal and interest on general obligation bonds and bonds payable by a 0.54% sales and use tax and other District obligations, including general obligation medium-term obligations. The District pays debt service on the medium-term obligations through transfers in from the Government Services Tax capital projects fund and pays debt service on parity bonds secured by the 0.54% sale and use tax through transfers in from the WC-1 capital projects fund. The Reserve Account required by NRS 350.020 (described under "DISTRICT FINANCIAL INFORMATION – Reserve Account") is accounted for as part of the fund balance in the Debt Service Funds. Fund balance in excess of the Reserve Requirement (described under "DISTRICT FINANCIAL INFORMATION – Reserve Account") may be transferred for capital projects until March 2035. **The Funding Plan does not have any impact on the property tax revenues used to pay the District's limited tax general obligation debt (including the Bonds).**

The following table provides a history of the audited financial operations for the District's Debt Service Fund for Fiscal Years 2022 to 2026. The information for Fiscal Years 2022 through 2026 was derived from the District's ACFR for each of those years. The table also provides budget information for Fiscal Year 2027. The information in this table should be read together with the District's audited financial statements for Fiscal Year 2025, and the accompanying notes, which are included as a portion of Appendix A attached hereto. Financial statements for prior years can be obtained from the sources listed in "INTRODUCTION – Additional Information."

Management's Discussion and Analysis

An overview of the financial activity and overall financial condition of the District for Fiscal Year 2025, is presented in the "Management's Discussion and Analysis" section of the audited financial statements attached to this Official Statement as a portion of Appendix A. The Management's Discussion and Analysis includes a general description of the District's funds and pertinent results in those funds, a district-wide financial analysis, a brief discussion of economic and budget factors impacting the 2025 fiscal year and other information, including information about State financial difficulties and declining enrollment in the District. Unless discussed in "Analysis of Recent Financial Developments" or elsewhere in this Official Statement, the District is not aware of any material adverse change in its financial condition since June 30, 2025.

Analysis of Recent Financial Developments

Fiscal Year 2027. In May 2026, the Washoe County School District's Board of Trustees adopted the Final Budget for Fiscal Year 2026-27 (July 1, 2026, through June 30, 2027). The Fiscal Year 2026-27 budget process began with an $18.4 million General Fund budget deficit mainly due to flat State funding, declining enrollment, and cost increases.

After revising the enrollment projection for FY27, due to a delay in the opening of a planned new charter school, the District's revised deficit was calculated to be $15 million. Of the $15 million deficit, $10 million was due to State funding increasing by only $4.2 million (a 1.7% revenue increase), while base costs for employee salary step increases, benefit increases, and inflationary increases for goods and services increased by $14.2 million (a 2.1% overall cost increase). The remaining $5 million portion of the deficit was due to a projected enrollment decline of 519 students. The District has experienced declining enrollment for several years, due to declining birth rates and the expansion of charter school options.

The District began working to resolve the deficit in the summer of 2025. The first round of reductions occurred in September 2025, with the Board approving reductions to the utilities budget, a resetting of projected turnover savings, and other cost reduction options, leaving $5.7 million to resolve. In January 2026, The Board approved a $5.7 million reduction plan that

included a reduction of 48 central services positions. The approved budget reductions resulted in a structurally balanced FY27 General Fund budget.

On September 25, 2026, Governor Lombardo endorsed an emergency regulation pursuant to NRS 233B.0613 to modify the methodology used to calculate adjusted base per-pupil payments to school districts through the Funding Plan, in order to mitigate the impact of enrollment declines in fiscal year 2027. Pursuant to the emergency regulation that is effective for a total of 120 days, for the months of October 2026 through February 2027, the adjusted base per pupil calculation will be based either on the higher of the State's projected enrollment count for fiscal year 2027 approved by the Legislature during the 2025 legislative session or the actual quarterly enrollment counts for those months. Due to this change, the District expects the emergency regulation will result in an increase of $1.7 million in the District's base per-pupil revenues for fiscal year 2027. This will allow the District to restore or add an additional 17 teacher positions at schools, in addition to 19 positions that were due to be reduced due to falling enrollment that the District had already planned to preserve prior to the announcement of the emergency regulation. The potential impact of enrollment changes on the District's revenues beyond the emergency regulation's 120 day effective period, for the period from March 2027 through June 2027, cannot be determined, as there are other actions the State can take to reduce the financial impact of declining enrollment.

Cybersecurity

The District operates a large and complex Information Technology (IT) infrastructure to support internal and external operations. As is the case with any such environment, the threat of cybersecurity incidents is constant. These incidents may arise from multiple sources, including unintentional events or actions, intentional insider threat, and deliberate malicious attacks or actions from outside entities. The effect of these threats may include unauthorized access to District systems, data or resources, inappropriate disclosure or use of District information, disruption of District services, and damage to District systems. Most recently, the Canvas learning management system, which is utilized by hundreds of school districts across the county, suffered a nationwide breach in April 2026. To the District's knowledge, no personal information of any District students was compromised as a result of this breach.

The District has implemented a comprehensive Information Technology Security program based on the Center for Internet Security (CIS) framework, which emphasizes technical, procedural, and administrative safeguards to implement a true "defense-in-depth" strategy. The program is managed by a dedicated IT Security team that performs security operations, risk and vulnerability management, incident response, and user awareness training.

The District utilizes a complementary suite of technologies specializing in threat detection and prevention, boundary defense, and identity protection to ensure that all organizational assets are protected. IT Security tools are actively monitored and regularly maintained to ensure timely response and remediation to cyber threats.

At all levels, the District identifies and addresses cybersecurity risk. The District has established a security risk register to assist in high level decision-making regarding risk avoidance and mitigation, and is in the process of refining a comprehensive district information and cyber security plan and accompanying policies, along with an Executive-Level Information and Cyber Security Governance Committee.

All District personnel engage in regular cybersecurity awareness training, and the training content is regularly reviewed and updated to ensure continued relevance to modern threats. Staff members participate in Cybersecurity awareness training upon hire and annually thereafter. Additionally, the District has implemented a comprehensive Digital Citizenship curriculum for all students emphasizing age-appropriate digital literacy skills and the responsible use of technology.

Risk Management

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District reports all of its risk management activities in the Internal Service Funds in accordance with Governmental Accounting Standards Board Statement Numbers 10 and 30.

Claims expenses and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated annually by an outside actuary who takes into consideration recently settled claims, the frequency of claims and other economic and social factors. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value. At June 30, 2026, the District's Property and Casualty Fund's total unrestricted net position was $8,301,437.

The District combines both self-insurance and commercial insurance to protect against risks. There was no significant reduction in those insurance coverages purchased by the District from the previous year. Settled claims have not exceeded this commercial coverage in any of the past three years. See Note 10 in Appendix A for further information on the District's risk management activities as of June 30, 2025.

DEBT STRUCTURE

Debt Limitation

State statutes limit the aggregate principal amount of the District's general obligation debt to 15% of the District's total assessed valuation. The following table presents a record of the District's outstanding general obligation indebtedness with respect to its statutory debt limitation.

Statutory Debt Limitation

Fiscal Year Ended June 30	Assessed Valuation[(1)]	Debt Limit	Outstanding General Obligation Debt	Additional Statutory Debt Capacity
2023	$22,297,007,640	$3,344,551,146	$1,111,981,000	$2,232,570,146
2024	29,208,579,047	4,381,286,857	1,244,452,000	3,136,834,857
2025	31,701,836,974	4,755,275,546	1,392,650,000	3,362,625,546
2026	33,267,124,287	4,990,686,643	1,449,305,000	3,540,763,643
2027	33,666,434,443	5,049,965,166	1,600,955,000[(2)]	3,449,010,166[(2)]

(1) Includes the assessed valuation attributable to the Redevelopment Agencies.
(2) As of November 1, 2026, and includes the issuance of the Bonds.

Outstanding Debt and Other Obligations

Outstanding General Obligation Bonds. The following table presents the outstanding general obligation indebtedness of the District as of November 1, 2026, including the issuance of the Bonds.

Outstanding General Obligation Bonds[1]

	Date Issued	Maturity Date	Original Amount	Amount Outstanding
GENERAL OBLIGATION BONDS[2]				
School Improvement Bonds, Series 2010D (QSCB)	05/26/10	05/01/27	$3,550,000	$2,800,000
School Improvement Bonds, Series 2010E (QSCB)	10/06/10	06/01.27	5,415,000	4,415,000
Refunding Bonds, Series 2015	03/31/15	06/01/29	45,375,000	19,000,000
School Imp. & Ref. Bonds, Series 2016A	02/02/16	06/01/36	59,215,000	12,785,000
School Improvement Bonds, Series 2016B	11/10/16	05/01/37	15,000,000	10,260,000
School Improvement Bonds, Series 2017A	02/09/17	06/01/46	55,000,000	48,810,000
School Imp. & Ref. Bonds, Series 2017B	04/05/17	04/01/37	26,885,000	22,390,000
Refunding Bonds, Series 2017D	11/21/17	06/01/31	58,320,000	30,115,000
School Improvement Bonds, Series 2019A	09/26/19	06/01/44	69,020,000	60,385000
School Improvement Bonds, Series 2021	01/28/21	06/01/46	130,480,000	117,930,000
School Improvement Bonds, Series 2022B	03/09/22	04/01/33	64,900,000	23,335,000
School Improvement Bonds, Series 2022C	09/29/22	06/01/42	40,000,000	35,870,000
School Improvement Bonds, Series 2023A	09/26/23	06/01/43	60,000,000	57,115,000
School Improvement Bonds, Series 2024	05/16/24	06/01/44	130,000,000	125,715,000
School Improvement Bonds, Series 2024B	10/23/24	06/01/44	110,515,000	109,015,000
School Improvement Bonds, Series 2026A	01/29/26	06/01/44	50,000,000	50,000,000
School Improvement Bonds, Series 2026C *(this issue)* *	12/22/26	06/01/46	164,000,000	164,000,000
Total General Obligation Bonds				$893,940,000*
GENERAL OBLIGATION REVENUE SUPPORTED BONDS				
Sales Tax Bonds, Series 2017C	11/21/17	10/01/47	$200,000,000	$169,790,000
Sales Tax Bonds, Series 2018A	12/05/18	10/01/48	85,000,000	74,775,000
Sales Tax Bonds, Series 2019B	12/19/19	10/01/49	100,000,000	89,780,000
Sales Tax Bonds, Series 2020A	05/07/20	10/01/49	165,780,000	152,485,000
Sales Tax Bonds, Series 2022A	03/09/22	10/01/47	49,220,000	44,420,000
Sales Tax Bonds, Series 2025A	03/18/25	10/01/54	100,000,000	98,345,000
Sales Tax Bonds, Series 2026B	01/29/26	10/01/55	73,020,000	73,020,000
Total General Obligation Revenue Bonds				$702,615,000
MEDIUM-TERM GENERAL OBLIGATION BONDS[3]				
Medium-Term Bond, Series 2022	12/27/22	02/01/27	3,400,000	900,000
Medium-Term Bond, Series 2026	09/29/26	06/01/30	3,500,000	3,500,000
Total Medium-Term General Obligations				$4,400,000
Total General Obligation Debt				$1,600,955,000*

(1) As of November 1, 2026, and including the issuance of the Bonds. Does not include lease-purchase agreements, certificates of participation, accrued compensated absences, deferred amounts from bonds issuance, arbitrage, other post-employment benefits, remediation, or claims and judgments.

(2) General obligation bonds secured by the full faith, credit and taxing power of the District. The ad valorem tax available to pay these bonds is limited to the $3.64 statutory and the $5.00 constitutional limit.

(3) General obligations secured by the full faith, and credit and payable from all legally available funds of the District. The ad valorem tax rate available to pay these bonds is limited to the statutory and the constitutional limit as well as to the District's maximum operating levy and any legally available tax overrides.

* Preliminary; subject to change.

Obligations. The District records long-term liabilities for compensated absences, early separation incentive stipends, arbitrage payable and capital lease obligations. See Note 6 in the audited basic financial statements attached hereto as a portion of Appendix A for a depiction of those liabilities as of June 30, 2025.

District General Obligation Bond Total Debt Service Requirements

The following table illustrates the debt service requirements for the District's outstanding general obligation bonds as of November 1, 2026, and includes the issuance of the Bonds. This table excludes medium-term bonds.

Outstanding Debt Service Requirements[1][2]

Fiscal Year Ended	General Obligation Bonds* (paid with property taxes)			General Obligation Revenue Supported Bonds			Grand
June 30	Principal	Interest[3]	Total	Principal	Interest	Total	Total
2027	$ 53,070,000	$ 34,127,466	$ 87,197,466	$ 15,850,000	$ 29,292,083	$ 45,142,083	$132,339,549

TOTAL	$893,940,000	$420,374,882	$1,314,314,882	$ 718,465,000	$403,042,096	$1,121,507,096	$2,435,821,978

(1) Excludes medium-term obligations.
(2) Totals may not add due to rounding.
(3) The District's 2010D Bonds and 2010E Bonds were issued as direct-pay qualified school construction bonds ("QSCBs"). The District expects to receive an interest subsidy on the QSCBs in each year. However, receipt of the subsidy is dependent on numerous factors and it is possible that the District may not receive the credits in future years. The amounts shown reflect interest due on the QSCBs, not net of the expected credits. The District is required to pay all of the interest of the QSCBs even if the credits are not received. Includes the issuance of the Bonds.

Contemplated Debt

On August 16, 2024, the District received approval from the Washoe County Debt Management Commission to issue up to $200,000,000 of general obligation bonds additionally secured by and expected to be paid from additional pledged revenues consisting of the non-expiring 0.54% Sales and Use Tax; the District previously issued $173.020 million of this authorization. On February 6, 2026, the District received approval from the Washoe County Debt Management Commission to issue up to $175 million additional revenue-backed general obligation bonds. As a result, the District has remaining authorization pursuant to such approvals to issue $201,980,000 additional revenue-backed general obligations bonds.

The District also received approval on August 16, 2024 to issue up to $100 million of general obligation bonds secured by property taxes, and the District has $8 million of remaining authorization pursuant to such approval. On February 6, 2026, the District received additional approval from the Washoe County Debt Management Commission to issue up to $500 million of general obligation bonds secured by property taxes. The District has $508 million of remaining authorization pursuant to such approvals and is using $164 million* of such authorization for the Bonds. The District's current five-year Capital Improvement Plan contemplates the issuance of general obligation bonds (including bonds paid by property taxes or sales and uses taxes) totaling approximately $1.2 billion through fiscal year 2029.

ECONOMIC AND DEMOGRAPHIC INFORMATION

This portion of the Official Statement contains general information concerning the historic economic and demographic conditions in the County and the District. This portion of the Official Statement is intended only to provide prospective investors with general information regarding the District's community. The information was obtained from the sources indicated and is limited to the time periods indicated. The information is historic in nature; it is not possible to predict whether the trends shown will continue in the future. The District makes no representation as to the accuracy or completeness of data obtained from parties other than the District.

Population and Age Distribution

Population. The table below shows the population growth of Washoe County and the State since 1980.

Population

Year	Washoe County	Percent Change	State of Nevada	Percent Change
1980	193,623	--	800,493	--
1990	254,667	31.5%	1,201,833	50.1%
2000	339,486	33.3	1,998,257	66.3
2010	421,407	24.1	2,700,551	35.1
2020	486,492	15.4	3,104,614	15.0
2021	485,113	(0.3)	3,158,539	1.7
2022	501,635	3.4	3,204,105	1.4
2023	508,759	1.4	3,241,678	1.2
2024	513,854	1.0	3,282,911	1.3
2025	519,471	1.1	3,349,303	2.0

Source: U.S. Bureau of Census (1980-2020 as of April 1st), and Nevada Department of Taxation, Population Estimates of Nevada Counties (2021-2025 as of July 1st).

Age Distribution. The following table sets forth a projected comparative age distribution profile for Washoe County, the State and the nation on January 1, 2026.

Age Distribution Projections

Age	Washoe County	State of Nevada	United States
0-17	19.6%	20.7%	21.0%
18-24	8.8	8.5	9.5
25-34	14.0	13.4	13.0
35-44	14.1	14.2	13.3
45-54	11.7	12.6	12.1
55-64	12.2	12.2	12.2
65-74	11.3	10.7	10.8
75 and Older	8.3	7.9	8.1

Income

The following two tables reflect the Median Household Effective Buying Income ("EBI"), and also the percentage of households by EBI groups. EBI is defined as "money income" (defined below) less personal tax and nontax payments. "Money income" is defined as the aggregate of wages and salaries, net farm and nonfarm self-employment income, interest, dividends, net rental and royalty income, Social Security and railroad retirement income, other retirement and disability income, public assistance income, unemployment compensation, Veterans Administration payments, alimony and child support, military family allotments, net winnings from gambling, and other periodic income. Deductions are made for personal income taxes (federal, state and local), personal contributions to social insurance (Social Security and federal retirement payroll deductions), and taxes on owner-occupied nonbusiness real estate. The resulting figure is known as "disposable" or "after-tax" income.

Median Household Effective Buying Income Estimates[1]

Year[2]	Washoe County	State of Nevada	United States
2022	$71,564	$64,039	$63,680
2023	71,591	63,314	64,600
2024	75,157	65,092	67,310
2025	75,951	67,905	69,245
2026	85,242	76,627	75,389

(1) The difference between consecutive years is not an estimate of change from one year to the next; combinations of data are used each year to identify the estimated mean of income from which the median is computed.

(2) Annual estimates are snapshots of effective buying income on the date of January 1 of each year.

Gaming

The economy of the State is substantially dependent upon the tourist industry, which is based on legalized casino gambling and related forms of entertainment. The County's gross taxable 2025 gaming revenue represents 7.0% of the State's total 2025 gaming revenue. The following table sets forth a five-year history of gross taxable gaming revenues and total gaming taxes collected on a State-wide basis and in the County.

Gross Taxable Gaming Revenue and Total Gaming Taxes[1]
Washoe County, Nevada

Fiscal Year Ended	Gross Taxable Gaming Revenue[2]		Percent Change	Gaming Collection[3]		Percent Change
June 30	State Total	County Total	County	State Total	County Total	County
2022	$14,151,250,934	$1,025,456,018	11.23%	$1,161,473,525	$78,100,145	(6.90)%
2023	14,624,464,048	1,029,517,239	0.40	1,174,506,278	78,878,375	1.00
2024	14,947,481,027	1,045,103,370	1.51	1,230,306,147	78,950,026	0.09
2025	15,079,606,171	1,061,276,900	1.55	1,201,853,313	80,161,284	1.53
2026	15,414,669,783	1,026,857,529	(3.24)	1,212,104,058	84,058,908	4.86
July 2025	$1,346,914,092	$100,551,844	--	$92,224,710	$5,762,962	--
July 2026	1,385,724,743	106,284,417	5.70%	90,334,016	8,235,237	42.90%

(1) The figures shown are subject to adjustments due to amended tax filings, fines and penalties.
(2) The total of all sums received as winnings less only the total of all sums paid out as losses (before operating expenses).
(3) Cash receipts of the State from all sources relating to gaming (General Fund and other revenues) including percentage license fees, quarterly flat license fees, annual license fees, casino entertainment taxes, annual slot machine taxes, penalties, advance fees, and miscellaneous collections. A portion of collections is deposited to the State funds other than the State's General Fund.

Convention Activity

The convention business is also an important factor in the area's economy. The Reno-Sparks Convention & Visitors Authority ("RSCVA") operates the Convention Center, the National Bowling Stadium (which is owned by the City of Reno and managed by RSCVA pursuant to an operating agreement), the Livestock Events Center and the Reno Events Center. The following table sets forth a historical summary of usage and attendance of events at these facilities.

Historical RSCVA Convention Facility Usage and Attendance

	Convention Center		Livestock Events Center		National Bowling Stadium		Reno Events Center	
Fiscal Year	Number of Events[(1)]	Estimated Attendance	Number of Events	Estimated Attendance	Number of Events	Estimated Attendance	Number of Events	Estimated Attendance
2020	114	159,433	39	187,613	21	5,045	26	73,947
2021	195	162,079	50	229,125	40	33,977	18	60,086
2022	209	342,822	50	338,872	60	37,073	31	109,978
2023	225	285,189	56	94,941	40	25,326	43	131,899
2024	228	314,098	72	306,013	74	91,877	43	152,868
2025	217	418,500	77	222,999	128	159,000	76	238,500

(1) Includes all show activity (conventions, trade shows, public consumer shows, concerts and meetings).

Transportation

The Reno/Sparks area is located at a transportation crossroads. Interstate 80, which runs east-west, and U.S. 395, running north-south, provide adequate routes for trucking and personal transportation. The Union Pacific Railroad operates major rail lines through the County and offers connections to other major rail networks, providing both freight and Amtrak passenger service. Intermodal yards and container freight facilities are located in Sparks. Over 65 motor freight companies serve the Reno/Sparks market and approximately 25 licensed common carriers with terminals are in the Reno/Sparks area.

The Reno-Tahoe International Airport (the "Airport") is a medium hub airport owned and operated by the Reno-Tahoe Airport Authority (the "Airport Authority"). The geographical area served by the Airport primarily encompasses the seven Nevada counties of Churchill, Douglas, Humboldt, Lyon, Pershing, Storey, and Washoe and the major cities of Reno, Sparks, and Carson City. The total air trade area for the Airport also includes the Lake Tahoe area and several communities in northeastern California. The Airport supports $3.6 billion per year in economic impact for the region based on a study conducted by EKAY Economic Consultants, Inc. in partnership with the Center for Regional Studies at the University of Nevada released in November 2023. In addition, the study found that the Airport and the Reno-Stead Airport, a general aviation facility, directly support 6,300 jobs and indirectly supports over 17,500 jobs, making the airports a major regional economic driver.

In calendar year 2019, the Airport served a total of 4,450,673 passengers, the fifth consecutive increase in year-over-year passenger growth. The COVID-19 pandemic in 2020 caused a historic decline in air travel and resulted in a 54.9% decrease of passengers served. In calendar year 2023 the Airport continued to recover, serving 4.6 million passengers, an increase of 6.1% versus 2022, and an increase of 2.8% versus 2019. The Airport saw another 6.0% increase in passengers in 2024 versus 2023, and another increase of 1.3% in 2025. A history of passenger and cargo statistics is set forth in the following table.

Reno-Tahoe International Airport Passengers and Cargo Volume

Calendar Year	Passengers	Percent Change	Air Cargo (pounds)	Percent Change
2021	$3,623,458	80.6%	$151,162,508	2.2%
2022	4,310,958	19.0	139,395,160	(7.8)
2023	4,573,384	6.1	114,337,660	(18.0)
2024	4,849,976	6.0	102,382,081	(10.5)
2025	4,912,900	1.3	83,602,552	(18.3)
2026[(1)]	2,220,296	--	37,796,779	--

[(1)] Figures as of August.

TAX MATTERS

Federal Tax Matters

In the opinion of Bond Counsel, assuming continuous compliance with certain covenants described below, interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Tax Code, and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code; however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code.

The Tax Code imposes several requirements which must be met with respect to the Bonds in order for the interest thereon to be excluded from gross income and alternative minimum taxable income. Certain of these requirements must be met on a continuous basis throughout the term of the Bonds. These requirements include: (a) limitations as to the use of proceeds of the Bonds; (b) limitations on the extent to which proceeds of the Bonds may be invested in higher yielding investments; and (c) a provision, subject to certain limited exceptions, that requires all investment earnings on the proceeds of the Bonds above the yield on the Bonds to be paid to the United States Treasury. The District has covenanted and represented in the Bond Resolutions that it will take all steps to comply with the requirements of the Tax Code to the extent necessary to maintain the exclusion of interest on the Bonds from gross income and alternative minimum taxable income under such federal income tax laws in effect when the Bonds are delivered. Bond Counsel's opinion as to the exclusion of interest on the Bonds from gross income and alternative minimum taxable income is rendered in reliance on these covenants, and assumes continuous compliance therewith. The failure or inability of the District to comply with these requirements could cause the interest on the Bonds to be included in gross income, alternative minimum taxable income or both from the date of issuance. Bond Counsel's opinion also is rendered in reliance upon certifications of the District and other certifications furnished to Bond Counsel. Bond Counsel has not undertaken to verify such certifications by independent investigation.

Section 55 of the Tax Code contains a 15% alternative minimum tax on the "adjusted financial statement income" of "applicable corporations" (as those terms are defined in Sections 56A and 59(k), respectively, of the Tax Code). "Applicable corporations" are generally corporations with average annual adjusted financial statement income over a three-year period of $1 billion or more. "Adjusted financial statement income" generally means the net income or loss of a corporation (including interest on the Bonds) as set forth on the corporation's applicable financial statement, adjusted as provided in Section 56A of the Tax Code. Corporations should consult their tax advisors about whether the corporation is an "applicable corporation" and if the corporation is such an applicable corporation, about the calculation of "adjusted financial statement income" and the alternative minimum tax for the corporation.

The Tax Code contains numerous provisions which may affect an investor's decision to purchase the Bonds. Owners of the Bonds should be aware that the ownership of tax-exempt obligations by particular persons and entities, including, without limitation, financial institutions, insurance companies, recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, foreign corporations doing business in the United States and certain

"subchapter S" corporations may result in adverse federal and state tax consequences. Under Section 3406 of the Tax Code, backup withholding may be imposed on payments on the Bonds made to any owner who fails to provide certain required information, including an accurate taxpayer identification number, to certain persons required to collect such information pursuant to the Tax Code. Backup withholding may also be applied if the owner underreports "reportable payments" (including interest and dividends) as defined in Section 3406, or fails to provide a certificate that the owner is not subject to backup withholding in circumstances where such a certificate is required by the Tax Code. Certain of the Bonds may be sold at a premium, representing a difference between the original offering price of those Bonds and the principal amount thereof payable at maturity. Under certain circumstances, an initial owner of such bonds (if any) may realize a taxable gain upon their disposition, even though such bonds are sold or redeemed for an amount equal to the owner's acquisition cost. Bond Counsel's opinion relates only to the exclusion of interest on the Bonds from gross income and alternative minimum taxable income as described above and will state that no opinion is expressed regarding other federal tax consequences arising from the receipt or accrual of interest on or ownership of the Bonds. Owners of the Bonds should consult their own tax advisors as to the applicability of these consequences.

The opinions expressed by Bond Counsel are based on existing law as of the delivery date of the Bonds. No opinion is expressed as of any subsequent date nor is any opinion expressed with respect to pending or proposed legislation. Amendments to the federal or state tax laws may be pending now or could be proposed in the future that, if enacted into law, could adversely affect the value of the Bonds, the exclusion of interest on the Bonds from gross income or alternative minimum taxable income or both from the date of issuance of the Bonds or any other date, the tax value of that exclusion for different classes of taxpayers from time to time, or that could result in other adverse tax consequences. In addition, future court actions or regulatory decisions could affect the tax treatment or market value of the Bonds. Owners of the Bonds are advised to consult with their own tax advisors with respect to such matters.

The Internal Revenue Service (the "Service") has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. No assurances can be given as to whether or not the Service will commence an audit of the Bonds. If an audit is commenced, the market value of the Bonds may be adversely affected. Under current audit procedures the Service will treat the District as the taxpayer and the Bond owners may have no right to participate in such procedures. The District has covenanted in the Bond Resolutions not to take any action that would cause the interest on the Bonds to lose its exclusion from gross income for federal income tax purposes or lose its exclusion from alternative minimum taxable income except to the extent described above for the owners thereof for federal income tax purposes. None of the District, the Municipal Advisor, Bond Counsel or Special Counsel is responsible for paying or reimbursing any Bond holder with respect to any audit or litigation costs relating to the Bonds.

State Tax Exemption

In the opinion of Bond Counsel, the Bonds, their transfer, and the income therefrom are free and exempt from taxation by the State or any subdivision thereof except for the tax on estates imposed pursuant to Chapter 375A of NRS and the tax on generation-skipping transfers imposed pursuant to Chapter 375B of NRS.RATINGS

LEGAL MATTERS

Litigation

There are various suits pending in courts within the State to which the District is a party. In the opinion of the District's general counsel, however, there is no litigation or controversy of any nature now pending, or to the knowledge of the District's Office of the General Counsel, threatened: (i) restraining or enjoining the issuance, sale, execution or delivery of the Bonds, or (ii) in any way contesting or affecting the validity of the Bonds or any proceedings of the District taken with respect to the issuance or sale thereof, the pledge or application of any moneys or security provided for the payment of the Bonds. Further, the District's Office of the General Counsel is of the opinion that current litigation facing the District will not materially affect the District's ability to perform its obligations to the owners of the Bonds.

Approval of Certain Legal Proceedings

The approving opinion of Taft Stettinius & Hollister LLP, as Bond Counsel, will be delivered with the Bonds. A form of the bond counsel opinion is attached to this Official Statement as Appendix D. The opinion will include a statement that the obligations of the District are subject to the reasonable exercise in the future by the State and its governmental bodies of the police power inherent in the sovereignty of the State and to the exercise by the United States of the powers delegated to it by the federal constitution, including bankruptcy. Taft Stettinius & Hollister LLP has also acted as Special Counsel to the District in connection with this Official Statement. Certain matters will be passed upon for the District by its general counsel.

Police Power

The obligations of the District are subject to the reasonable exercise in the future by the State and its governmental bodies of the police power and powers of taxation inherent in the sovereignty of the State, and to the exercise by the United States of the powers delegated to it by the federal constitution (including bankruptcy).

Sovereign Immunity

Pursuant to State statute (NRS 41.035), an award for damages in an action sounding in tort against the District may not include any amount as exemplary or punitive damages and is limited to (a) $100,000 per cause of action prior to June 30, 2020, (b) $150,000 per cause of action on or after July 1, 2020 until June 30, 2022, and (c) $200,000 per cause of action on or after July 1, 2022. The limitation does not apply to federal actions brought under federal law such as civil rights actions under 42 U.S.C. Section 1983 and actions under The Americans with Disabilities Act of 1990 (P.L. 101-336), or to actions in other states.

INDEPENDENT AUDITORS

The audited basic financial statements of the District as of and for the year ended June 30, 2025, attached hereto as Appendix A, have been audited by Crowe LLP, Sacramento, California, independent certified public accountants, to the extent and for the period indicated in their report thereon.

The audited basic financial statements of the District, including the auditor's report thereon, are public documents and pursuant to State law, no consent from the auditors is required to be obtained prior to inclusion of the audited financial statements in this Official Statement. Accordingly, the District has not requested consent from its auditors. Crowe, LLP, the District's independent auditor, has not been engaged to perform and has not performed, since the date of the report included herein, any procedures on the financial statements addressed in that report. Crowe LLP has not performed any procedures relating to this Official Statement.

MUNICIPAL ADVISOR

JNA Consulting Group, LLC, 410 Nevada Way, Suite 200, Boulder City, Nevada 89005, 702-294-5100 is serving as Municipal Advisor to the District in connection with the Bonds. The Municipal Advisor has not audited, authenticated, or otherwise verified the information set forth in this Official Statement, or any other related information set forth in this Official Statement, or any other information available to the District, with respect to the accuracy and completeness of disclosure of such information and no guarantee, warranty, or other representation is made by the Municipal Advisor respecting accuracy and completeness of this Official Statement or any other matter related to this Official Statement.

RATINGS

S&P Global Ratings ("S&P") and Moody's Investors Service ("Moody's") have assigned the Bonds the respective ratings shown on the cover page of this Official Statement. Such ratings reflect only the views of S&P and Moody's and there is no assurance that any rating, once received, will continue for any given period of time or that any rating will not be revised downward or withdrawn entirely by the rating agency if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of either rating may have an adverse effect on the market price of the Bonds. Except for its responsibilities under the Disclosure Certificate, the District has not undertaken any responsibility to bring to the attention of the owners of the Bonds any proposed change in or withdrawal of the rating once received or to oppose any such proposed revision.

PUBLIC SALE

The District expects to offer the Bonds at public sale on Wednesday, December 2, 2026. See Appendix E - Official Notice of Bond Sale.

OFFICIAL STATEMENT CERTIFICATION

The undersigned official of the District hereby confirms and certifies that the execution and delivery of this Official Statement and its use in connection with the offering and sale of the Bonds have been duly authorized by the Board.

October 26, 2026

TO THE CITIZENS AND THE HONORABLE BOARD OF TRUSTEES OF THE WASHOE COUNTY SCHOOL DISTRICT

The Annual Comprehensive Financial Report (ACFR) of the Washoe County School District (the "District") for the fiscal year ended June 30, 2026, is hereby submitted in accordance with Nevada Revised Statutes (NRS) 354.624. This report represents the District's compliance with State law, which requires the District to provide for an annual audit of its financial statements by an independent firm of certified public accountants, conducted in accordance with generally accepted auditing standards.

This report consists of management's representations concerning the finances of the Washoe County School District. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To provide a reasonable basis for making these representations, the District maintains a comprehensive internal control structure that uses policies and procedures established by the Office of Business and Financial Services and is designed to compile sufficient and reliable information for the preparation of the financial statements. This ACFR has been prepared by the Office of Business and Financial Services and to the best of our knowledge and belief the data contained in the report is accurate in all material respects and presents fairly the financial position of the various funds of this organization, including all disclosures necessary to understand the District's activities.

The District's financial statements have been audited by the accounting firm of Crowe LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year are free of material misstatements. The audit was designed and conducted to meet the requirements set forth in state statutes. Based upon the audit, Crowe LLP has issued an unmodified ("clean") opinion on the District's financial statements for the year ended June 30, 2026. The Independent Auditor's Report is located on pages 1-4 in the financial section of this report.

Generally accepted accounting principles also require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A begins on page 5 immediately following the Independent Auditor's Report.

The ACFR is presented in four sections:

1. Introductory Section – the Introductory Section is unaudited and includes this letter of transmittal, the District's organizational chart, list of principal officials and the GFOA Certificate of Achievement for fiscal year 2024-25.

2. Financial Section – the Financial Section includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the basic financial statements and related footnotes, combining and individual statements for major and non-major funds and other schedules that provide detailed information relative to the basic financial statements.

Certificate No. 41433

3. Statistical Section - the Statistical Section is unaudited and includes selected financial and demographic information, generally presented on a multi-year basis.

4. Compliance Section - the Compliance Section includes the auditor's report on the internal control structure and compliance with laws and regulations as required by Government Auditing Standards.

Profile of Washoe County School District

History, Population, and Geography
Prior to the creation of the Washoe County School District, there were 17 separate school districts within the County lines. Most had only one school per district but the two largest Districts – Reno School District and Sparks School District – had more. Between 1912 and 1955, fifteen schools were built in Reno/Sparks; ten remain in use today as schools, administrative offices, or other business dwellings.

Area districts throughout the state were consolidated into countywide districts as a result of legislation enacted in 1956 that created school districts with boundaries conterminous with the state's sixteen counties and Carson City. As such, all public educational services provided by the District are restricted to the boundaries of Washoe County. With an enrollment of nearly 59,000 students this year, Washoe County School District is among the 75 largest school districts in the nation.

Washoe County, located in the northwestern part of the State of Nevada, is the second most populous county (519,471 as of July 1, 2025) in the State of Nevada covering an area of 6,342 square miles with the county seat in the City of Reno. Other communities in the county are Gerlach, Sparks, Wadsworth and Incline Village.

Structure
The governing board of the District consists of seven trustees – five represent political divisions of the county and two are "at-large". Members are elected by the public for overlapping four-year terms to serve as the stewards and guardians of the District's values, vision, mission and resources. The legal power, duties and responsibilities of the Board of Trustees are defined by NRS and Board Policy.

The Superintendent of Schools is responsible to the Board of Trustees for the general efficiency of the school system including instruction, student services, personnel, finance, administration, and all other phases of District operations. In addition, the superintendent develops policy for constructive relations between schools and the community, and assures programs are responsive to current and future student needs, and compatible with community expectations. The District is focused on creating an education system where all students achieve academic success, develop personal and civic responsibility, and achieve career and college readiness for the 21st century.

Certificate No. 41433

During the fiscal year ended June 30, 2026, the District operated 104 schools including 66 elementary schools, 17 middle schools, and 15 high schools, plus six other schools including one K-12 school in Gerlach, an online school and one school for mentally fragile students. The District also operates an adult achievement school. The District also sponsors seven charter schools, which are independently funded and receive a share of local and state education funding.

Local economy
Due to Washoe County's favorable climate, diversification of the regional economy, close proximity to major markets in the western U.S. and low tax structure, the general economy of Washoe County experienced strong growth after the Great Recession in 2011 and has also rebounded since the COVID-19 pandemic.

Residential and commercial development in the county has remained strong, and as a result of both new development and appreciation of existing homes, the taxable assessed property value within Washoe County increased 4.4% from $32.874 billion in Fiscal Year 2024-25 to $34.332 billion in Fiscal Year 2025-26. The influx of companies, and startup of many others, has resulted in a strong recovery in the region and county. From July 1, 2024 to July 1, 2025, Washoe's County's population also increased 2.4% from 507,280 to 519,471. Washoe County has continued to diversify its economy, becoming less dependent on the gaming sector. Median household income in Washoe County, $85,242, remains well above the national average of $75,389.

Student enrollment
Through much of the last decade, the District's enrollment remained relatively flat at between 63,000 and 64,000 students. The COVID-19 pandemic led to a significant decrease in enrollment to 61,673, as many families homeschooled their children and chronic absenteeism also led to many students being unenrolled. Although enrollment recovered somewhat in 2021, over the last four school years, enrollment has declined from 1% to 2% each year, falling from 61,130 students as of the District's count day in 2022 to 58,920 in 2025. This trend mirrors national and state trends of declining birth rates, but Washoe County's lack of affordable housing has further exacerbated a decline in family sizes, resulting in fewer school-aged children per household.

Financial Controls and Budget Process
The internal controls employed by the District are designed to provide reasonable assurance that assets will be safeguarded against loss from unauthorized use or disposition, and that financial records will be reliable for use in preparing financial statements and determining accountability for assets. The accounting system provides controls to assure compliance with the budget. Budgetary control is maintained at the functional level. Budgetary control is further enhanced through the use of encumbrance accounting.

State statutes require school districts to submit a tentative budget for the ensuing fiscal year to the Nevada Department of Taxation by April 15. The Department of Taxation notifies the District whether or not the budget is in compliance with the law and related regulations. The District must adopt a final budget no later than June 8, which is then filed with the Department of Taxation. State statutes also allow for local government entities to file amended final budgets within 30 days of the end of a legislative session to account for the impacts of new laws or budgetary changes made by the State.

In addition to the comprehensive internal control policies and procedures established and used by the Office of Business and Financial Services, the District has an Internal Audit Department which reports functionally to the Board of Trustees. The department has full and independent access to the Audit Committee of the Board of Trustees and is authorized to review all areas of the District with full, free, and unrestricted access to all activities, records, property, and personnel as may be required.

Long-Term Financial Planning

Long-term financial planning is a key aspect of the District's budgeting and capital planning process. As a part of its budget process, the District uses a four-year financial plan to model different economic and budget scenarios when preparing the annual budget and in the labor negotiations process. The District's fiscally conservative approach, emphasis on priority-based budgeting and multi-year planning has allowed it to make adjustments to its budget and maintain fiscal stability even in the face of enrollment declines over the last four years. This fiscal year, the General Fund once again experienced a surplus, totaling $3.87 million. This is the eighth straight year that the General Fund's fund balance has increased. The unrestricted portion of the General Fund's fund balance as of June 30, 2026, represented 11.2% of actual expenses and transfers out, just shy of the target fund balance of 12.0%. In accordance with the District's financial policies, the District intends to continue to file structurally balanced budgets and expects to continue to experience relatively modest surpluses in the future.

Because the District operates 104 schools, capital planning for the future remains a key focus of the District. In December 2023, the Board of Trustees approved a detailed Facilities Modernization Plan (FMP) that makes recommendations for the repair, upgrade and future state of each school and sets the course for future school projects over the next 15 years. The FMP calls for the consolidation of 8-12 schools in the future to modernized facilities in response to falling enrollment and underutilization of many current schools. The District is in the process of reviewing options for the repurposing of one closed school, and five schools are planned for closure over the next several years. The District submits a statutorily required five-year Capital Improvement Plan by August 1 of each year

Major Initiatives

In 2023, the District embarked on a new strategic planning process after several interim strategic plans were adopted during and in the immediate aftermath of the COVID-19 pandemic. After a multi-month series of stakeholder meetings and Board reviews, the new three-year strategic plan was adopted by the Board on June 13, 2024. Its primary aim is to align all stakeholders with a shared vision, common goals and unified direction for our district's educational efforts. The new strategic plan outlines five new goals: Strong Start for Every Child, Student Voice and Advocacy, Safety and Belonging, Academic Growth and Achievement, and Empowering All Learners for Their Future. The District regularly updates the Board on progress achieved against strategic plan goals and metrics.

This year, the District is beginning a refresh of the Strategic Plan and has conducted surveys and a number of community meetings to solicit input on new goals for the Strategic Plan. The new Strategic Plan is scheduled for approval in Spring 2027.

Last year, due to more than $10 million of investments in new academic and support positions, the stabilization of many formerly grant-funded positions and other investments, the District saw historic gains in academic performance. Last fiscal year, English Language Arts proficiency levels, as measured by Smarter Balanced Assessment Consortium (SBAC) testing, showed an overall improvement for grades 3-8 of 3.4 percent (from 40.9 percent to 44.3 percent) and math proficiency increased overall by 2.7 percent. This was the largest one-year increase in the District's history. For the Fiscal Year 2026-27 budget approved in May 2026, the Board approved a $5 million deficit reduction plan to balance the General Fund budget; however, none of these investments were affected by these reductions.

The District's recent initiatives in the academic area include:

- Additional supports for high-needs schools including Instructional Coaches at middle schools, reducing 4th and 5th grade class sizes at 1 and 2-star schools, intervention budgets at high schools, increasing the amount of EL teachers, and additional EL assistants.
- Removal of barriers to academic achievement including elimination of fees for Career and Technical Education (CTE), International Baccalaureate (IB), Advanced Placement (AP), and Dual-Enrollment programs. As a result, participation in dual credit programs has greatly increased.
- Expansion of pre-kindergarten class seats and programs
- Supporting student engagement including the expansion of clubs and activities at all levels of schools, the addition of sports in sixth grade, adding campus supervisors in secondary schools, and increasing translation/interpretation supports for students and families.
- Addressing absenteeism in schools by adding re-engagement specialist positions, some funded through donations.

As mentioned above, the District's Facilities Modernization Plan was received and approved by the Board of Trustees in late 2023. The plan lays out a 15-year program of projects which will modernize every existing school within the district with a priority given to efficiency and equity.

Separately, the District has funded and began implementation of a new, modern Enterprise Resource Planning (ERP) system in 2025. The ERP system encompasses both the District's accounting and human resources management systems. The target go-live date for the new ERP system is July 1, 2027.

Relevant Financial Policies

Key Financial Policies
In March 2018, the Board of Trustees approved major revisions to two existing Board policies related to finances, and adoption of a new policy regarding budgetary compliance and periodic financial reporting. These policies were updated and reaffirmed by the Board in February 2022. Key tenets of the District's financial policies include a target fund balance for the General Fund of 12% of total appropriations and a requirement for a structurally balanced budget for the General Fund.

Other Matters

The District's Final Fiscal Year 2026-27 Budget was approved by the Board in May 2026, and the General Fund budget was once again balanced. Based on the District's unofficial Count Day enrollment, student enrollment declined by 1,009 students compared to the prior year. The FY 2026-27 budget had assumed an enrollment decrease of 519 students. Governor Joe Lambardo endorsed an emergency regulation to fund school districts based on prior year enrollment for the first three months of the fiscal year and then on the State's projected enrollments for the following four months. This action will resolve the District's initial estimated funding shortfall based on the loss of 1,009 students. Additionally, the District plans to issue a $164 million series of general obligation bonds during Fiscal Year 2026-27 to support ongoing capital improvement needs.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2025. This is the twenty-sixth year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. The report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year. We believe that our current ACFR continues to meet the Certificate of Achievement program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate. Prior to this award, the District only applied for the Association of School Business Officials International (ASBO) Certificate of Excellence in Financial Reporting award and received this award for eight consecutive years.

Washoe County School District received the Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) from the Government Finance Officers Association of the United States and Canada (GFOA) for the fiscal year ended June 30, 2025, for the tenth consecutive year. The Award for Outstanding Achievement in Popular Annual Financial Reporting is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. To receive this award a governmental unit must publish a Popular Annual Financial Report, whose contents conform to program standards of creativity, presentation, understandability, and reader appeal. An award is valid for one year.

The preparation of this report on a timely basis was made possible through the dedicated services of the entire accounting staff of the Office of Business and Financial Services. Through their efforts, the report and its contents were compiled into an easily readable and efficiently organized document. Special thanks to the Board of Trustees for their direction and support provided in the planning and conducting of the financial operations of the District in a progressive and prudent manner.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise Washoe County School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District, as of June 30, 2026, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States *(Government Auditing Standards)*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Washoe County School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Washoe County School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

(Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Washoe County School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Washoe County School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions to Public Employees' Retirement System of the State of Nevada, the Schedule of Changes in the Net Other Postemployment Benefits Liability and Related Ratios, the Schedule of District Contributions for Other Postemployment Benefits, the General Fund Budgetary Comparison Schedule, and the Special Education Fund Budgetary Comparison Schedule as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(Continued)

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Washoe County School District's basic financial statements. The combining and individual fund statements and schedules for the year ended June 30, 2026 are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2026 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules for the year ended June 30, 2026 are fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2026.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2026 on our consideration of Washoe County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Washoe County School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Washoe County School District's internal control over financial reporting and compliance.

Washoe County School District
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2026

The management of the Washoe County School District (the District) offers the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2026. This narrative should be read in conjunction with the transmittal letter presented in the introductory section of this report and the financial statements and notes following this section to provide a complete understanding of the financial information presented.

FINANCIAL SUMMARY

Washoe County School District remains Washoe County's largest single employer. In Fiscal Year 2025-26 (FY26), total expenditures of its governmental funds were $1.223 billion, while total operating expenses of its four proprietary funds were $159.108 million.

- The General Fund had a surplus of $3,870,587, as the amount of revenues exceeded expenditures and other uses. This marks the eighth consecutive year that the General Fund has ended the fiscal year with a surplus. The primary factors for this year's surplus were higher-than-anticipated student enrollment, which drives the amount of base per-pupil state funding received, as well as higher-than-budgeted investment revenue.
- As a result, the General Fund's total ending fund balance as of June 30, 2026, was $78.030 million. The unrestricted portion of the fund balance ($74.989 million) represents 11.2% of total actual expenditures and transfers out, just shy of the District's fund balance target of 12.0%.
- Thanks to significant capital resources, the District has continued to invest in modernizing its older facilities in accordance with its Facilities Modernization Plan (FMP). In FY26, the District spent $206.881. million on capital projects, funded both by proceeds of bond sales and cash resources, to upgrade and build new schools.
- Outstanding general obligation debt increased by a net of $58.385 million. The additional debt issued in FY26 will be used to fund construction of a new Loder Elementary School and modernization of the Palmer Elementary School.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

1. Government-Wide Financial Statements
2. Fund Financial Statements, and
3. Notes to the basic financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide an overview of the District's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the net difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and

expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

Both government-wide financial statements distinguish functions that are supported by taxes and intergovernmental revenues (*governmental activities)* from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other government agencies, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds	Proprietary Funds	Fiduciary Funds
General Fund	Enterprise Fund Nutrition Services Fund	Custodial Funds Education Alliance Fund
Special Revenue Funds		NIAA Custodial Fund
Capital Project Funds	Internal Service Funds Property and Casualty Health Insurance	Trust Funds Private Purpose Scholarship Fund
Debt Service Funds	Workers Compensation	Other Postemployment Benefits (OPEB) Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and the balances of resources available at fiscal year-end. This information is useful in assessing the District's short-term financing needs. To provide a better understanding of the relationship between the fund statements and government-wide statements, reconciliations are provided for both the governmental funds balance sheet and the statement of revenues, expenditures, and changes in fund balance.

The governmental fund financial statements emphasize major funds. A fund may be classified as major when its revenues, expenditures, assets, or liabilities meet specified criteria when compared to other funds or the government as a whole. Additionally, management may designate funds as major when doing so is considered beneficial to financial statement users.

The District maintains 54 governmental funds, of which three are reported as major funds: the General Fund, Special Education Fund and Debt Service Fund. These three funds are presented separately in the governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances. The remaining 51 nonmajor governmental funds are aggregated and presented in a single column. Detailed information for each nonmajor fund is included in the supplementary combining statements.

In accordance with state statutes, the District adopts an annual appropriation budget for its governmental funds and makes amendments periodically. For FY2026 reporting under GASB Statement No. 103, budgetary comparison information for the General Fund and each major special revenue fund with a legally adopted annual budget is presented as required supplementary information (RSI), as applicable.

Proprietary funds consist of enterprise funds and internal service funds. Enterprise funds are used to account for activities in which fees are charged to external users for goods or services. The District's sole

enterprise fund, the Nutrition Services Enterprise Fund, accounts for the District's nutrition services operations. Internal service funds are used to accumulate and allocate costs internally among the District's programs and functions.

Fiduciary funds are used to account for resources held for the benefit of other governments, organizations, or individuals. Because these resources are not available to support District operations, fiduciary funds are excluded from the government-wide financial statements.

Detailed Analyses: Government-Wide Financial Statements

The analyses below explain the reasons for significant changes in the District's financial position, results of operations, and major fund balances; amounts are presented only where they are relevant to understanding the current year.

For more detailed information, see the government-wide statements of net position and the notes to the basic financial statements

The District's total assets and deferred outflows are greater than the total liabilities and deferred inflows by $42.246 million as of June 30, 2026. The net position increased by $58.730 million from the prior year. There are many changes within the funds that impact the net position, the most significant of which are noted below:

- The largest factor contributing to the increase of the net position is the District's capital assets, with a net value of $1.733 billion, which increased by $155.372 million over the prior year. This reflects the construction of new school facilities that were placed into service this fiscal year. The District completed the Getto Transportation Center Building, the Debbie Smith facility build-out, and more than $50 million in capital renewal projects districtwide. Current and other assets decreased by a total of $36.403 million. Within that category, cash and investments decreased by $26.441 million. Cash held in capital projects funds decreased by $43.839 million, as the District spent down its balances on capital projects, while proprietary funds' cash and investments declined a net of $6.950 million due to shortfalls in the Nutrition Services Fund and the Health

Insurance Fund. Excluding capital project funds, cash and investments in other governmental funds actually increased by $23.428 million.

- Long-term liabilities decreased by $44.841 million due primarily to a decrease of the District's net pension liability of $106.920 million. This was partially offset by the increase of $59.10 million for bonds payable and an increase to OPEB liabilities of $5.255 million.

Overall, the District's net position is $42.246 million, which would be higher if not for the requirement to record $841.709 million of long-term pension liabilities. Even though the District's pension costs will be paid over many years, Generally Accepted Accounting Principles (GAAP) require the computation and reporting of these liabilities. The same is true for the District's long-term debt of $1.449 billion, which will be paid over the next 30 years.

WASHOE COUNTY SCHOOL DISTRICT'S STATEMENT OF ACTIVITIES

For more detailed information, see the government-wide statements of net position and the notes to the basic financial statements

Revenues and expenses of the District's governmental activities are depicted in the table above. Government-wide activities are divided between Governmental activities, which consist of the General, Special Revenue, Capital Project, Debt Service and Internal Service Funds, and Business-type activities, which accounts for the Nutrition Services Program. The costs of the District's activities are funded through two sources of revenue, program revenues and general revenues. Program revenues consist of charges for services and grants and contributions that are restricted to specific purposes or functions. General revenues are not tied to a particular program and provide broad support for the District's overall operations.

Expenses represent the cost of providing instructional services and support operations throughout the District. Governmental activities expenses are reported by function, allowing readers to understand how resources are allocated among instructional programs, student support services, administration, central services, operations and maintenance, transportation, and other services. Changes in expenses from year to year are influenced by multiple factors, including enrollment trends, employee compensation and benefit costs, such as increases in the employer Public Employees' Retirement System (PERS) contribution rates, continued inflationary pressures, and strategic investments in programs designed to support student achievement. Total governmental expenses increased by $21.30 million compared to the prior fiscal year, which is again a small increase compared to the District's total expenses.

Governmental Activities Revenues

It is important to recognize that revenues within the "governmental activities" category include operating revenues, recorded in the General Fund and special revenue funds, versus capital revenues received in both capital project and debt service funds. These revenues support completely different activities, therefore, and trends for some revenues may veer from other revenues.

	Fund Type				
	Operating Revenue		Capital Revenue		
	General Fund	Special Revenue	Capital Project	Debt Service	Total
Program Revenues					
Charges for Service	$ 317,677	$ 15,553,501			$ 15,871,178
Operating Grants	1,082,681	135,831,294			136,913,975
Capital Grants		4,619,484			4,619,484
General Revenues					
Property Taxes				96,496,356	96,496,356
WC1 Sales Tax			72,082,155		72,082,155
GST Rev.			6,581,257		6,581,257
Interest Earnings	3,990,586	535,709	15,791,235	5,431,908	25,749,438
State Aid	660,514,882			425,931	660,940,813
Other	4,769,864	31,258,902	1,213,828	-	37,242,593
Total revenues	670,675,690	187,798,890	95,668,475	102,354,195	1,056,497,249

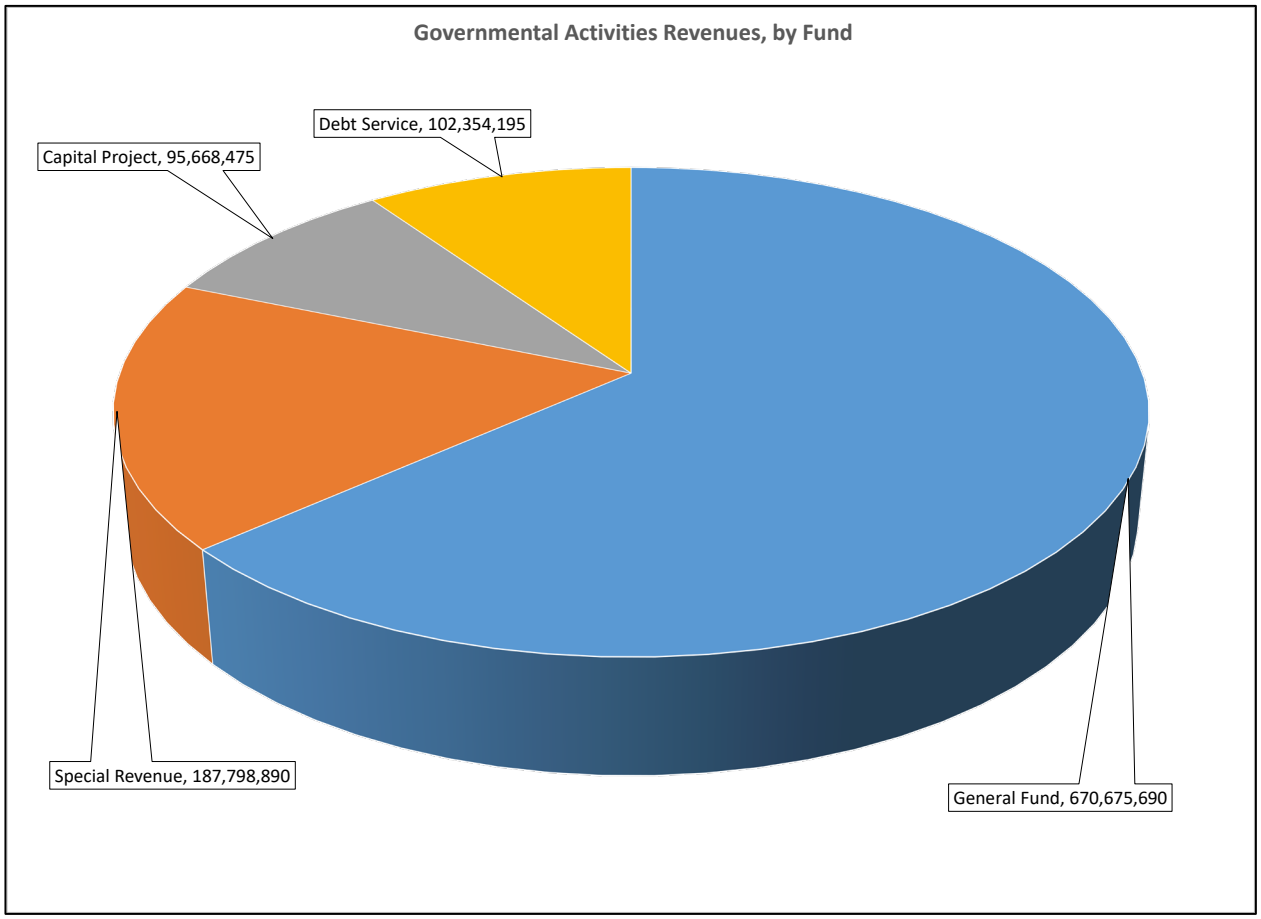

Overall, revenues for Governmental Activities increased by $11.54 million compared to the prior fiscal year. The most significant contributor to this increase was a $22.07 million increase in state aid received by the District. This increase was driven primarily by higher adjusted base per-pupil funding provided through the State Education Fund. Base per-pupil funding is recorded in the General Fund and supports the general educational programs and services provided to all students within the District. The District also receives "weighted funding" in the categories of English Learners, At-Risk, and Gifted and Talented to support additional programs for these students, as well as Special Education funding.

Offsetting a portion of the increase in state aid, unrestricted investment earnings decreased by $9.98 million compared to the prior fiscal year. The decline was primarily attributable to the recognition of unrealized investment losses during the fiscal year, as required under GASB Statement No. 31.

Capital project funds are primarily funded through three major revenue sources: property taxes, WC-1 sales tax revenues, and the government services tax. Major changes in trends include:

- The District receives property tax revenues from the County Treasurer attributable to the $0.3885 debt rate assessed in Washoe County. These revenues increased by $6.18 million, or 6.9%. Property values, both for residential and commercial property, within Washoe County continue to grow, and new development also continues to contribute to this strong growth. Both trends led to an overall increase in the total assessed valuation of properties by 4.4%.
- WC-1 sales tax revenue increased by $5.64 million, from $66.45 to $72.08 million, or 8.5%. This tax is imposed on sales of tangible personal property in Washoe County at a rate of 0.54 percent to fund capital projects for the Washoe County School District. The growth in sales taxes was driven by the increased population of the County, inflation on goods, and growth of household income during the last year.

The following chart summarizes governmental activities revenues by fund. Approximately 63% of total revenues are recorded in the General Fund.

Governmental Activities Expenses

Total governmental activities expenses increased by $21.30 million, or 2.2%, compared to the prior fiscal year. Instruction remained the District's largest functional expense, totaling $586.70 million, or 59.2% of all governmental activities expenses. Of this amount, 75.3% were for regular and special instruction. The remaining $404.385 million, or 40.8% of governmental expenses, was dedicated to supporting students and instructional staff, as well as operating and maintaining District facilities and services. The largest support functions included facilities acquisition and construction, which totaled $70.83 million, or 7.2% of total expenses, followed by operations and maintenance at $67.14 million, or 6.8%. Other significant support activities included student support services of $53.51 million (5.4%), school administration of $52.75 million (5.3%), central services of $52.09 million (5.2%), and interest on long-term debt of $50.79 million (5.1%).

Total expenses	$ 991,088,922	$ 969,784,203	$ 21,304,719	2.2

For more detailed information, see the government-wide statements of net position and the notes to the basic financial statements

The primary reason for the increase of 2.2% is related to salaries and benefits, which increased $33.59 million, or 4.3%. District employees received either no cost-of-living adjustment (COLA) or a 0.5% COLA in FY26. However, unless an employee is at the maximum pay of their salary range, most District employees receive a merit increase of 2.0% to 6.5%, depending on their seniority and bargaining unit. This was primarily offset by decreases in supplies of $5.73 million.

Governmental Funds

The focus of the Washoe County School District's governmental funds is to provide information on current inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's current funding requirements. Unassigned fund balance may serve as a useful measure of net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combined ending fund balances of $655.134 million, a decrease of $34.966 million from the prior year.
The District reports three major funds individually in the governmental fund financial statements. These are the General Fund, Special Education Fund, and Debt Service Fund.

General Fund

As of June 30, 2026, the total fund balance of the General Fund was $78.030 million, compared to $74.159 million in the prior year; an increase of $3.870 million.

Overall, FY26 General Fund revenues were $19.603 million higher than FY25, while expenditures were higher by $19.147 million. In addition, FY26 transfers to other funds were lower than FY25 actuals by $0.338 million.

State sources totaled $660.515 million in FY26, which represented 98.5% of all General Fund revenues and an increase of $22.280 million, or 3.49%, over FY25. The primary source of funding within this category is base per-pupil funding, which is provided by the State Education Fund, to support the general education of all students. In FY26, Washoe County School District received $9,708 per weighted full-time student; this represented an increase of only $3 per student from the prior fiscal year. In FY26, the adjusted base per-pupil funding was $561.575 million, a decrease of $5.776 million from FY25 due to declining enrollment. However, Local Special Education Revenues increased substantially from $44.868 million in FY25 to $70.480 million in FY26. This was a result of increased funding in the State's biennial budget for FY26 through FY27, to cover higher special education costs across the state. Local Special Education distributions are based on the last year of the prior biennium (FY25), a year in which the District's costs increased significantly.

As noted, total expenditures of $573.922 million increased from the prior year by $19.147 million, or 3.34%. The greatest area of variance were salaries, which increased $8.722 million, or 2.53%, and benefits, which increased $13.026 million, or 8.374%, from FY25. The increased salary costs were mainly due to merit increases for employees, as mentioned previously. Benefit costs increased disproportionately higher than salaries due to a new law which for the first time provided retirement benefits to substitute teachers who worked more than half of the school year. Health insurance costs also increased 4.2% due to rising salaries and a 2.5% increase in health insurance rates effective in 2026.

The excess of revenues over expenditures in FY26 was $96.753 million. However, transfers out to other funds were $92.961 million, including a transfer of $85.901 million to the Special Education Fund.

Special Education Fund

This fund accounts for resources used to provide educational and related services to identified eligible students. In 1993, the Nevada State Legislature enacted legislation that requires the special education program (previously accounted for in the General Fund) to be accounted for in a separate special revenue fund. State special education aid and transfers from the General Fund represent the fund's primary sources of revenue. Because the cost of providing mandated special education services exceeds dedicated state funding, the General Fund continues to provide substantial financial support to ensure that all required services are delivered.

Although reported separately, any excess of expenditures over revenues in the Special Education Fund is funded by transfers from the General Fund. During FY26, total resources and expenditures of the fund were $123.38 million, representing an increase of $5.24 million, or 4.3%, compared to the prior fiscal year.

The primary reason for the increased costs in this fund are an increase in the number of Special Education students who have an Individualized Education Plan (IEP), which lists the additional services needed by these students. Despite the fact that total enrollment fell nearly 800 students in FY26, the number of students in this category continued to increase. Compared to two years ago, Special Education students have increased by 639. These students require in many cases specialized services and/or additional staffing to support these students' needs.

Funding for special education services consisted of $37.48 million in state aid and $85.90 million in transfers from the General Fund. The transfer from the General Fund includes $70.480 million in Local Special Education funding from the State.

Debt Service Fund

This fund accounts for resources held and used for the payment of principal and interest on the District's general obligation bonds pledged by property taxes and medium-term bonds. The fund's primary revenue source is the $0.3885 ad valorem property tax levied by the County for school district debt As noted previously, due to both new development and the appreciation of existing properties, total assessed valuation in the District increased 4.4%. Annual property tax payments are capped at 3.0% for owner-occupied residents and 8.0% for other properties, so there is not a direct correlation between assessed valuation and property tax collections, but rising values for properties meant that the vast majority of property owners' property bills were at these caps, 3.0% and 8.0%.

During FY26, total revenues increased by $4.377 million, or 4.31%, compared to the previous year. Revenues and other financing sources were sufficient to meet all scheduled principal and interest debt payments. The fund reported total expenditures of $83.807 million and other financing uses of $3.191 million. Total principal payments were $52.855 million, and interest payments were $30.942 million.

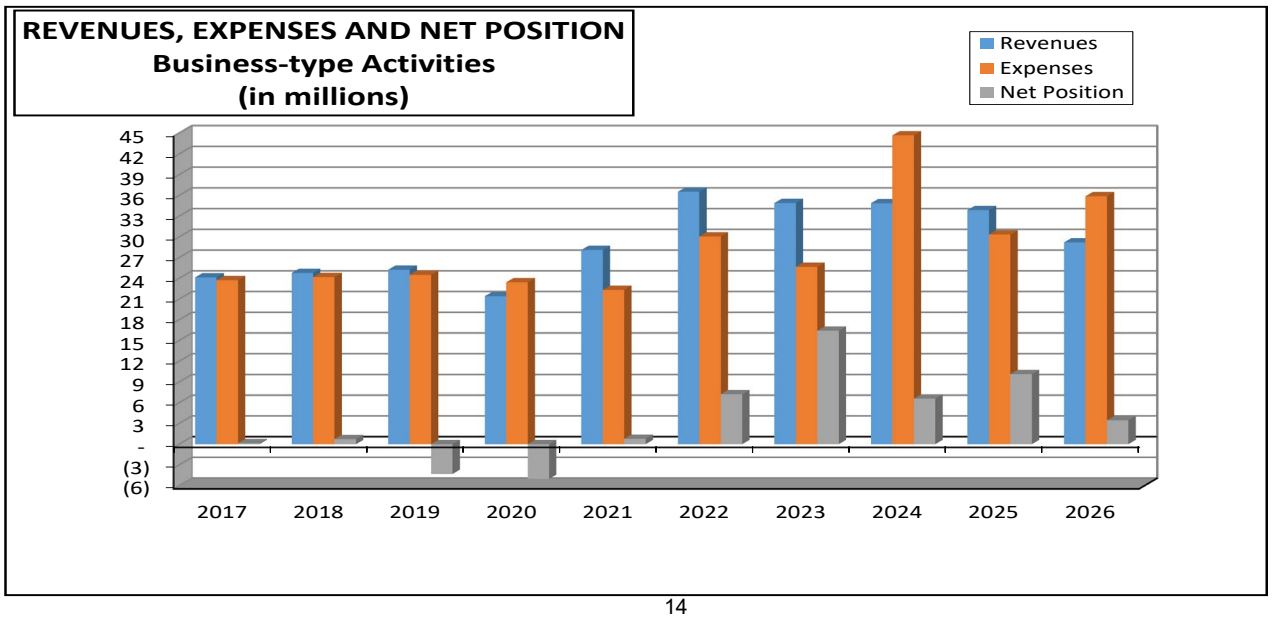

As of June 30, 2026, the Debt Service Fund reported a fund balance of $103.096 million, which is an increase of $ 14.564 million compared to the prior fiscal year. This fund balance is restricted for future debt service payments and, when authorized, pay-as-you-go capital construction and improvement projects. The District continues to maintain sufficient resources within the fund to meet its current and future debt service obligations to fund long-term capital needs

Business-type activities

The Nutrition Services Enterprise Fund, the District's sole business-type activity, reported a net position of $3.45 million as of June 30, 2026, representing a decrease of $6.68 million from the prior fiscal year. During FY26, the Nutrition Services Program continued to operate under the same Community Eligibility Provision (CEP) groupings that were established when universal free meals were available. These groupings were designed to maximize student access to free meals rather than optimize program profitability. As a result, certain schools continued to provide meals at the free reimbursement rate, which was not sufficient to fully recover operating costs, contributing to the decline in net position during the fiscal year.

Total expenses of the fund increased by $5.54 million in FY26. Including the effects of actuarially determined expenses related to GASB Statements No. 75 and 82, salaries and benefits expense increased by $4.16 million compared to the prior fiscal year. The increase was driven by the continued breakfast and lunch service staffing needs across the District, as well as continued cost pressures associated with employee health insurance and rising employer contribution rates for the Public Employees' Retirement System (PERS). District management continues to balance appropriate staffing levels needed to support student achievement while addressing significant increases in compensation and benefit-related costs. In addition, the discontinuation of universal free meal reimbursement programs reduced federal reimbursement revenues while increasing the operational complexity of meal service delivery. As a result, the Nutrition Services Program has experienced increased staffing and administrative costs associated with processing meal payments and managing student meal accounts.

Revenues decreased by $4.67 million, from $33.88 million in FY25 to $29.20 million in FY26. The decline was primarily attributable to lower meal participation, as the District served approximately 338,000 fewer breakfasts and 354,000 fewer lunches during the fiscal year. The reduction in meals served resulted in lower federal reimbursement revenues and contributed significantly to the year-over-year decrease in Nutrition Services revenue. A ten-year history of fund activity follows:

SIGNIFICANT CAPITAL ASSET AND LONG-TERM FINANCING ACTIVITY

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2026, amounts to $1.726 billion (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than buildings, machinery and equipment, and construction in progress. Net capital assets increased during the current fiscal year by $155.403 million.

	2026	2025	Change

For more detailed information, see the government-wide statements of net position and the notes to the basic financial statements

Long-Term Financing Activity

The District strategically issues long-term debt to support its Facility Modernization Plan and ongoing capital renewal efforts. This debt is repaid from two primary revenue sources:

- The District receives property tax revenues at the rate of $0.3885 per $100 of assessed valuation on secured and unsecured property, and these revenues are legally restricted to repay debt within the Debt Service Fund.
- Washoe County voters approved a ballot measure to increase the sales tax rate within the county by 0.54% in 2016. The District deposits these sales tax revenues to the WC-1 Sales Tax Revenue Fund and then transfers an amount equal to debt service on bonds pledging this source to the WC-1 Debt Service Fund to provide for the repayment of WC-1 debt obligations. Any remaining amount of WC-1 sales tax revenues are used to pay for projects on a cash basis.

During FY26, the District's outstanding debt increased by a net $56.655 million. This increase was attributable to the issuance of $123.020 million in new long-term General Obligation Bonds to fund capital improvement projects. Of the total issuance, $50 million of this debt was Extended Rollover Bonds and

$73.02 million was WC-1 Bonds. Offsetting this increase were principal payments totaling $66.365 million, resulting in a net increase in outstanding debt for FY26.

	2026	2025
General obligation bonds	$ 1,448,405,000	$ 1,390,020,000
Medium-term debt	900,000	2,630,000
Total	$ 1,449,305,000	$ 1,392,650,000

The fund balances of the two debt service funds were $124.38 million, which is well in excess of the statutorily required level of reserves of $30.436 million.

In January 2026, Standard & Poor's and Moody's Investors Service affirmed their ratings of AA and Aa2, respectively, of the District's general obligation bonds.

Additional information on the District's long-term debt can be found in Note 6 of this report.

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

The following developments will have an impact on the District's finances in the future and will be incorporated into next year's budget.

- Decrease in enrollment in the 2026-27 School Year
- State's emergency regulation regarding allocation of per-pupil funding

Decrease in enrollment

The District's enrollment as of the fourth week of School Year 2026-27, which is the week used to adjust teacher allocations at schools, was 57,911, or 1,009 lower than last school year. The FY27 budget assumed a decrease of only 519 students; thus, the actual enrollment decline was nearly double that.

Based on preliminary allocation changes warranted by this greater-than-expected enrollment decline, the net effect of the enrollment decline created an initial shortfall in the General Fund of $4.9 million. The District planned to cover this shortfall through the use of $4.0 million from the General Fund Contingency Account and by augmenting the General Fund budget by $0.9 million to account for interest earnings that the District projected to exceed the budget. These planned budget actions were ultimately not necessary based on the State's emergency regulation that reset the basis for base per-pupil funding to districts for a portion of FY27 (see below).

State's Emergency Regulation regarding allocation of per-pupil funding

Many school districts in Nevada faced similar, or worse, declines in enrollment in FY27. On September 25, 2026, Governor Lombardo endorsed an emergency regulation pursuant to NRS 233B.0613 to modify the methodology used to calculate adjusted base per-pupil payments to school districts through the Funding Plan, in order to mitigate the impact of enrollment declines in fiscal year 2027. Pursuant to the emergency regulation that is effective for a total of 120 days, for the months of October 2026 through February 2027, the calculation of base per-pupil distributions to districts will be based either on the higher of the State's projected enrollment count for fiscal year 2027 approved by the Legislature during the 2025 legislative session or the actual quarterly enrollment counts for those months. Due to this change, the District expects the emergency regulation will result in an increase of $1.7 million in the District's base

per-pupil revenues for fiscal year 2027. This will allow the District to restore or add an additional 17 teacher positions at schools, in addition to 19 positions that were due to be reduced due to falling enrollment that the District had already planned to preserve prior to the announcement of the emergency regulation. As a result, the District's General Fund budget is once again balanced with resources equal to uses for FY27.

The potential impact of enrollment changes on the District's revenues beyond the emergency regulation's 120-day effective period, for the period from March 2027 through June 2027, cannot be determined, as there are other actions the State can take to reduce the financial impact of declining enrollment.

WASHOE COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2026

Net change in fund balances - governmental funds		$ (34,965,479)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.		
Expenditures for capital assets	$ 206,880,934	
Less current year depreciation	(51,477,192)	
		155,403,742
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due and thus requires current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		(2,730,226)
Issuance of long-term debt (e.g. refunding debt) provides current financial resources to the governmental funds, while the repayment of the principal consumes the current financial resources of governmental funds.		
Bonds issued	(123,020,000)	
Bond premium issued	(8,164,928)	
Bond premium amortization	7,452,847	
Payment of principal	66,365,000	
		(57,367,081)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Conversely, some expenses reported in the Statement of Activities last year are reported as expenditures in the governmental funds this year.		
Change in compensated absences	(1,061,997)	
Change in net other postemployment benefits liability	3,946,282	
		2,884,285
District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.		
Pension expense	4,674,558	
		4,674,558
Internal service funds are used by management to charge the costs of certain insurance activities to individual funds. The change in net position of the internal service funds is reported with governmental activities.		(2,491,472)
Change in net position of governmental activities		$ 65,408,327

The notes to the basic financial statements are an integral part of this statement.

Washoe County School District

NOTE 1 – Summary of Significant Accounting Policies:

The accompanying financial statements of the Washoe County School District, Washoe County, Nevada (the "District") have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of existing Government and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

Reporting Entity:

The District is organized under terms of legislation enacted in 1956 creating the countywide school districts. The governing board consists of seven members elected by the voters in the district for four-year terms and has authority to adopt and administer budgets. The District receives funding from Local, State, and Federal government sources and must comply with the related requirements of these funding source entities. However, the District is not included in any other governmental “reporting entity,” since trustees are elected by the public, it is a legally separate government and it is fiscally independent of any other governmental entity. In addition, the District is not financially accountable for any other entity.

Basic Financial Statements – Government-Wide Statements:

The basic financial statements include both government-wide (based on the District as a whole) and fund financial statements. The reporting focus is on either the District as a whole or major individual funds and nonmajor funds in the aggregate (within the fund financial statements).

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. For the most part, the effect of interfund activity has been removed from these statements. Interfund activities relating to services provided and used between functions are not eliminated. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

In the government-wide Statement of Net Position, the consolidated financial position of the District is presented at year-end, in separate columns, for both governmental and business-type activities, and is reflected on a full accrual, economic resource basis that recognizes all long-term assets and receivables as well as long-term debt and obligations. The District’s net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities, then unrestricted resources, as they are needed.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. The functions are also supported by the general revenues (Ad Valorem taxes, State Education Fund revenues, Sales Tax, Government Services Tax and interest income not legally restricted for specific programs, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating grants. Program revenues include charges for services, operating grants and contributions, capital grants and contributions, and investment earnings legally restricted to support a specific program. Program revenue must be directly associated with the function. Operating grants include operating-specific and discretionary grants. The net costs (by function) are normally covered by general revenue.

Basic Financial Statements – Fund Financial Statements:

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows of resources, deferred inflows of resources, fund equity, revenues and expenditures/expenses. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are intended and the means by which spending activities are controlled. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The emphasis in the fund financial statements is on the major funds in the governmental and business-type activity categories. Nonmajor governmental funds are summarized into a single column. GASB Statement No. 34 *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments* sets forth criteria for the determination of major funds. District management may electively add funds as major funds when it is determined the funds have specific community or management focus. Major individual governmental and business-type funds are reported as separate columns in the fund financial statements.

The focus of the governmental funds' measurement in the fund statements is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income.

The focus for proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The generally accepted accounting principles applicable are those similar to businesses in the private sector.

The District's internal service funds are presented in the proprietary fund's financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statements of the internal service funds are consolidated into the governmental column when presented in the government-wide financial statements. To the extent possible, the costs of these services are reported in the appropriate functional activity.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

The District's fiduciary funds are presented in the fiduciary fund financial statements by type. Since, by definition, these assets are held for the benefit of third parties and cannot be used to address activities or obligations of the District, these funds are not incorporated into the government-wide statements.

The District uses the following funds:

Major Funds:

Governmental Funds:

- **General Fund –** The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

- **Special Education Fund –** The Special Education Fund is a special revenue fund which accounts for transactions of the District relating to educational services provided to children with special needs supported by state and local sources. The revenues of the fund consist of distributions from the State Education Fund. Expenses not covered by the State are covered by a transfer from the General Fund.

- **Debt Service Fund –** The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt and other debt of governmental activities other than those reported in the Debt Service – WC1 Fund.

Proprietary Funds:

- **Enterprise Fund –** The District's sole enterprise fund, the Nutrition Services Enterprise Fund, is used to account for the nutrition services operation of the District.

Additionally, the District reports the following fund types:

Internal Service Funds:

- The Internal Service Funds account for the financing of services provided by one department to other departments of the District on a cost-reimbursement basis. Currently, there are three District Internal Service Funds:

  Property and Casualty – accounts for self-insurance claims and fees to provide property and liability insurance.

  Health Insurance – accounts for the self-funded health plan and other contractual insurance plans such as vision, dental and life insurance.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Additionally, the District reports the following fund types (continued):

Workers' Compensation – accounts for the self-insurance claims and fees to provide workers' compensation.

Fiduciary Funds:

- **Private Purpose Scholarship Trust Fund –** accounts for resources legally held in trust for use for scholarships.

- **Other Post-employment Benefits Trust Fund –** accounts for investments held in an irrevocable trust, to be used for providing the benefits agreed to in connection with the District's Other Post-employment Benefits plan.

- **Custodial Funds** – account for funds held in custody by the District for the Nevada Interscholastic Athletic Association or the Education Alliance 501(c)3.

Measurement Focus/Basis of Accounting:

The measurement focus describes the types of transactions and events that are reported in a fund's operating statement. Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period, all grant and remaining non-grant revenues to be available if they are collected within 80 days of the end of the current fiscal period. When revenues are due but will not be collected within the availability period, the receivable is recorded and an offsetting deferred inflow of resources account is established. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Most major sources of revenue reported in governmental funds are susceptible to accrual under the modified accrual basis of accounting. Below is a summary of revenue recognition policies for all major revenue sources.

Type of Revenue	Accrued When Measurable and Available	Recognized When Received	Accrued When Earned
AD VALOREM TAXES	X		
GOVERNMENT SERVICES TAXES	X		
WC-1 SALES TAX REVENUES	X		
PUPIL-CENTERED FUNDING PLAN (STATE REVENUE)	X		
INTEREST			X
GRANTS-IN-AID	X		
MISCELLANEOUS REVENUE		X	

Proprietary Funds:

Proprietary Funds are accounted for on a flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Accrued liabilities include provisions for claims reported and claims incurred, but not reported. The provision for reported claims is determined by estimating the amount which will ultimately be paid. The provision for claims incurred but not yet reported is estimated based on District experience since the inception of the program.

Fiduciary Funds:

The accounting records for the Other Post-employment Benefits Trust Fund, Private Purpose Scholarship Trust Fund, and Custodial Funds, are maintained on the economic resources measurement focus and accrual basis of accounting.

Budgets and Budgetary Accounting:

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

(1) Prior to April 15, the Superintendent submits to the Board of Trustees and to both the Nevada Department of Taxation and Department of Education, a tentative budget for the fiscal year commencing the following July 1. The tentative budget includes proposed expenditures and the means of financing them.

(2) Prior to the third Wednesday in May, a minimum of seven days' notice of public hearing on the final budget is published in a local newspaper. Public hearings are conducted prior to the adoption of the budget to obtain taxpayer comments.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

(3) On or before June 8, the budget is legally adopted by a majority vote of the Board of Trustees.

(4) On or before January 1, the Board of Trustees adopts an amended final budget reflecting any adjustments necessary as a result of the complete count of students.

(5) NRS provides that the Board of Trustees may augment the budget for a fund that receives property tax revenues at any time by a majority vote of the Board provided the Board publishes notice of intention to act, in a newspaper of general circulation in the county at least three days before the date set for adoption of the resolution. Augmentations of other funds require that the governing body adopt a resolution by majority vote at a regular meeting and submit the resolution to the Nevada Department of Taxation.

(6) The legal level of budgetary control is at the function level for the General Fund, Special Revenue Funds and Capital Projects Funds, and the sum of operating and non-operating expenses in the Enterprise and Internal Service Funds. State statute does not require that debt service payments be limited by the budget.

(7) The Chief Financial Officer is authorized to transfer appropriations within functions without Board of Trustee's approval and between functions or programs within a fund if amounts do not exceed the original budget. The Board of Trustees is advised of the transfer and the transfer is recorded in the minutes. The Board of Trustees' approval is required for transfers of appropriations between funds or from the contingency account.

(8) Formal budgetary integration is employed as a management control device for the General Fund, Special Revenue Funds, Debt Service Fund, Enterprise Fund, Internal Service Funds and Capital Projects Funds. Such funds have legally adopted annual budgets which lapse at year-end. The ensuing year's budget is augmented to provide for the payment of prior year encumbrances. The prior year encumbrances, where applicable, have been included in the Original Budget column of the financial statements.

(9) All budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all funds except for the Private Purpose Scholarship Trust Fund and Custodial Funds, which do not require budgets.

All budgets presented in the accompanying supplementary information reflect the original budget and final budget (which has been adjusted for legally authorized revisions of the annual budgets during the year). Appropriations, except encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Cash and Investments:

Cash balances from all funds are combined and, to the extent practicable, invested as permitted by law. The District uses a registered investment advisor to invest pooled monies on a discretionary basis. The District also has deposited a portion of the Workers Compensation cash balance in the State of Nevada Local Government Investment Pool (LGIP). Interest earned on investments is allocated to certain funds pursuant to Nevada Revised Statutes.

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurements and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

Pursuant to NRS 355.170, 355.171 and 355.175, the District may invest in the following types of securities:

- United States bonds and debentures maturing within ten (10) years from the date of purchase.
- Certain farm loan bonds.
- Securities of the United States Treasury, United States Postal Service, or the Federal National Mortgage Association maturing within ten (10) years from the date of purchase.
- Negotiable certificates of deposit from commercial banks and insured savings and loan associations, and credit unions.
- Certain securities issued by local governments of the State of Nevada.
- Certain bankers' acceptances, commercial paper issued by a corporation organized and operating in the United States, and money market mutual funds.
- Certain obligations of state and local governments.
- State of Nevada Local Government Investment Pool.
- Certain “AAA” rated mutual funds that invest in federal securities.
- Corporate notes or bonds maturing within five (5) years from the date of purchase.
- Collateralized mortgage obligations.
- Asset-backed securities.
- Other securities expressly provided by other statutes, including repurchase agreements and collateralized investment contracts.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Statements of Cash Flows:

For purposes of the statements of cash flows, the District considers all short-term highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Inventories:

Inventories for the General Fund, the Government Tax Services Fund, and the Nutrition Services Enterprise Fund are maintained on a consumption basis of accounting, where items are purchased for inventory and charged to the budgetary accounts as the items are consumed. Inventories are stated at cost for the General Fund and Government Tax Services Fund, and the lower of cost or market for the Nutrition Services Enterprise Fund, except for inventories of commodities which are stated at fair value, using the first-in, first-out (FIFO) method of valuation.

Capital Assets:

Capital assets, including land, buildings, machinery and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of one year. If purchased or constructed, all capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are valued at their acquisition value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Years
Building/Land Improvements	7 - 50
Vehicles/Buses	8 - 10
Machinery and Equipment	5 - 20

Receivables:

Receivables represent amounts due to the District at June 30, which will be collected sometime in the future. In the government-wide financial statements, a corresponding amount is recorded as revenue. In the governmental fund financial statements, the portions considered "available" (i.e., received by the District within approximately 80 days after year-end) are recorded as revenue; the remainder is recorded as deferred inflows of resources, unavailable revenue. Receivables in proprietary fund types have arisen in the ordinary course of business.

Allowance for Uncollectible Receivables:

The District has not established an allowance for uncollectible receivables since prior experience has shown that uncollectible receivables are not significant.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Accrued Liabilities:

Accrued liabilities consist principally of teacher, administrator, and other District employee salaries and benefits relating to the school program year ended June 30, 2026, but not yet paid.

Pensions:

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of the State of Nevada (PERS) Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB):

The District provides other post-employment benefits (OPEB) for eligible employees through the Washoe County School District Retiree Health Benefits Plan (WCSDRHP), the State of Nevada's Public Employees' Benefits Plan (NPEBP), and the Washoe County School District Retiree Life Insurance Plan. All three plans are single-employer defined benefit OPEB plans. The plans are administered through the Washoe County School District OPEB Trust Fund. The District's net OPEB liability is measured as of June 30, 2026, and the total OPEB liabilities used to calculate the net OPEB liability are determined by an actuarial valuation as of June 30, 2025.

Deferred Outflows and Deferred Inflows of Resources:

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports amounts related to pensions, other post-employment benefits, and deferred debt retirement charges on the government-wide Statement of Net Position and amounts related to pensions and other post-employment benefits on the proprietary funds' Statement of Net Position as deferred outflows of resources.

In addition to liabilities, the Statement of Net Position and Balance Sheets report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District reports amounts related to pensions, other post-employment benefits, and deferred revenues on the Government-wide Statement of Net Position and unavailable revenues on the Governmental Funds Balance Sheet as deferred inflows of resources. The District reports amounts related to pensions and other post-employment benefits on the proprietary funds' Statement of Net Position as deferred outflows and inflows of resources.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Expenditures:

Expenditure data is characterized by major program classifications pursuant to the provisions of the National Center for Education Statistics handbook entitled *Financial Accounting for Local and State School Systems* as modified by the State of Nevada. Below is a brief description of these program classifications.

Regular programs are activities that provide students in pre-kindergarten through grade 12 with learning experiences to prepare them for further education or training and for responsibilities as citizens, family members, and workers.

Special programs include activities for elementary and secondary students (pre-kindergarten through grade 12) receiving special education and related services. These services are related to mental retardation, orthopedic impairment, emotional disturbance, developmental delay, specific learning disabilities, multiple disabilities, hearing impairment, other health impairments, visual impairments including blindness, autism, deaf-blindness, traumatic brain injury, and speech or language impairments. Special programs include students receiving services related to gifted and talented programs.

Vocational programs are activities delivered through traditional comprehensive and vocational-technical high schools or recognized charter schools that prepare students to meet challenging academic standards as well as industry skill standards while preparing students for broad-based careers and further education beyond high school.

Other instructional programs are activities that provide students in pre-kindergarten through grade 12 with learning experiences in English for speakers of other languages, alternative and at risk education programs, remedial programs, summer school programs, and other instructional programs.

Adult education programs are activities that develop knowledge and skills to meet immediate and long-range educational objectives of adults who, having not completed or having interrupted formal schooling, have accepted adult roles and responsibilities. Programs include activities to foster the development of fundamental tools of learning; prepare students for a postsecondary career; prepare students for postsecondary education programs; upgrade occupational competence; prepare students for a new or different career; develop skills and appreciation for special interests; or enrich the aesthetic qualities of life.

Community services programs are activities not directly related to the provision of educational services in the District. These include services such as community recreation programs, civic activities, public libraries, programs of custody and care of children and community welfare activities provided by the District for the community as a whole or some segment of the community.

Co-curricular programs are activities that add to a student's educational experience but are not related to educational activities. These include events and activities that take place outside the traditional classroom such as student government, athletics, band, choir, clubs, and honors societies.

Undistributed expenditures are those which are not allocated to any single program. Student and instructional staff support and overall general and administrative costs are classified as undistributed expenditures. Also included are costs of operating, maintaining, and constructing the physical facilities of the District.

NOTE 1 – Summary of Significant Accounting Policies (Continued):

Compensated Absences:

Teachers and certain hourly employees do not receive vacation leave. For other District employees, vacation leave is earned based on length of employment and may accumulate to specified maximums. The District pays limited accumulated sick leave benefits to certain employees upon separation. A liability for unused leave is recognized when the leave is attributable to services already rendered, accumulates, and is more likely than not to be used for time off or otherwise settled. The liability is measured using the pay rates in effect at year-end and includes salary-related payments associated with the payment of the benefits. This includes applicable sick leave benefits and related salary payments in accordance with GASB Statement No. 101.

In proprietary funds, compensated absences are recorded when incurred. In governmental funds, compensated absences are recognized when due and payable. The estimated liability for compensated absences is reported in the government-wide financial statements.

Self-Insurance:

The District is self-insured for losses and liabilities related primarily to general liability, worker's compensation and employee medical coverage. The District's maximum self-insurance exposure is subject to certain limits per claim with certain maximum aggregate policy limits per claim year. Although management believes it has the ability to adequately project and record estimated claim payments, it is possible that actual results could differ from the recorded liabilities.

NOTE 2 – Compliance with Applicable Nevada Revised Statutes:

The District conformed to the statutory constraints on financial administration as required by NRS 354.626, which note that the District may not expend or contract to expend amounts which have not been appropriated for that function, other than bond repayments, medium-term obligation repayments and any other long-term contract expressly authorized by law.

NOTE 3 – Cash and Investments:

The District maintains a cash and investment pool that is available for use by all funds. At June 30, 2026 this pool is displayed by major and other governmental funds on the Governmental Funds Balance Sheet and on the Proprietary Fund Statement of Net Position as "Cash and Investments."

As of June 30, 2026, the District had the following amounts reported as cash and investments:

	Government-Wide	Fiduciary Funds	Totals
Cash and Cash Equivalents	$ 5,025,899	$ 85,244	$ 5,111,143
Investments	791,440,475	100,409,221	891,849,696
	$796,466,374	$100,494,465	$896,960,839

Except for financial reporting purposes, the cash and investments balances in the Fiduciary Funds are not normally considered part of the District's pooled cash and investments. These amounts represent cash and investments held in a fiduciary or custodial capacity by the District and cannot be used in the District's normal operations.

NOTE 3 – Cash and Investments (Continued):

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District does not have any investments that are measured using Level 3 inputs.

As of June 30, 2026, the District had the following recurring fair value measurements, except those measured at cost as identified below:

Government-Wide Balances:

		Fair Value Measurements Using		
	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Investments:				
U.S. Treasuries	$198,163,039	$198,163,039		$ -
U.S. Agencies	322,312,961	-	322,312,961	-
Asset Backed Securities	82,572,997	-	82,572,997	-
Collateralized Mortgage Obligations	16,877,919	-	16,877,919	-
Money Market Fund	90,429,315	90,429,315	-	-
Municipal Securities	21,618,038	-	21,618,038	-
Commercial Paper	7,493,775	-	7,493,775	-
Corporate Notes	49,096,915	-	49,096,915	-
	788,564,959	$288,592,354	$499,972,605	$ -
Investments not Classified by Level:				
State of Nevada Retirement Benefits Investment Fund	2,875,516			
Total Government-Wide Investments	$791,440,475			

Fiduciary Fund Balances:

Investments not Classified by Level:	
OPEB Trust Fund:	
State of Nevada Retirement Benefits Investment Fund	$ 24,032,579
U.S. Treasuries	64,760,514
Money Market Fund	10,395,981
Scholarship Fund investments	1,220,147
Total Fiduciary Fund investments	$100,409,221

The District is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP) which has regulatory oversight from the Board of Finance of the State of Nevada. The District's investment in the LGIP is equal to its original investment plus monthly allocation of interest income, and realized and unrealized gains and losses, which is the same as the value of the pool shares. The District's investment in the LGIP is reported at fair value. Fair value is determined on a daily basis. Nevada Revised Statutes (NRS 355.170 et. seq.) set forth acceptable investments for Nevada local governments.

NOTE 3 – Cash and Investments (Continued):

The District is also authorized to participate in the State of Nevada Retirement Benefits Investment Fund (RBIF) for its long-term investments associated with the Other Post Employment Benefits (OPEB) Trust. The Nevada Legislature established the RBIF with an effective date of July 17, 2007 with the purpose of investing contributions made by participating public entities, as defined in NRS 355.220, to enable such entities to support financing of OPEB. Monies received by the RBIF are held for investment purposes only and not in any fiduciary capacity. Each participating entity acts as fiduciary for its particular share of the RBIF.

As of June 30, 2026, the District had the following investments and maturities:

		Investment Maturities (In Years)			
	Fair Value	Less than 1	1 to 5	6 to 10	More than 10
Government-Wide Investments:					
U.S. Treasuries	$198,163,039	$143,623,105	$ 54,539,934	$ -	$ -
U.S. Agencies	322,312,961	172,477,394	140,368,418	9,467,149	-
State of Nevada Retirement Benefits Investment Fund	2,875,516	2,875,516	-	-	-
Asset Backed Securities	82,572,997	6,714,403	51,337,360	18,581,459	5,939,775
Collateralized Mortgage Obligations	16,877,919	-	-	1,701,725	15,176,194
Money Market Fund	90,429,315	90,429,315	-	-	-
Municipal Securities	21,618,038	-	511,223	-	21,106,815
Commercial Paper	7,493,775	7,493,775	-	-	-

Interest Rate Risk. Interest rate risk is the risk of possible reduction in the value of a security, especially a bond, resulting from a rise in interest rates. To limit exposure to interest rate risk, Nevada Revised Statutes and the District's investment policy limits bankers' acceptances to 180 days maturities, repurchase agreements to 90 days, U.S. Treasuries and Agencies to less than 10 years, and commercial paper to 270 days maturities. The District's investment in U.S. Agencies consists of securities issued by the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Federal Farm Credit Bank, and Federal Home Loan Bank. Since investments in these agencies are in many cases backed by assets such as mortgages, they are subject to prepayment risk. The District's investments in all other mortgage-backed securities are also subject to prepayment risk.

NOTE 3 – Cash and Investments (Continued):

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation and is a function of the credit quality ratings of its investments. The State of Nevada Local Government Investment Pool (LGIP) is an unrated external investment pool. Nevada Revised Statutes and the District's investment policy limit investment in money market mutual funds, collateralized mortgage obligations, and asset-backed securities to the "AAA" rating (or equivalent) by a nationally recognized statistical rating organization. In addition, Nevada Revised Statutes and the District's investment policy limit investments in commercial paper to a short-term rating of "A1", "P1", or its equivalent, and corporate notes to a long-term rating of "A" or equivalent by a nationally recognized statistical rating organization. All of the District's money market mutual funds, collateralized mortgage obligations, asset-backed securities, commercial paper, and corporate note investments meet these minimum rating criteria.

Concentration of Credit Risk. To limit exposure to concentrations of credit risk, the District's investment policy limits investment in collateralized mortgage obligations, asset backed securities, repurchase agreements, negotiable certificates of deposit and non-negotiable certificates of deposit each to 20%; commercial paper, municipal securities, and corporate notes each to 25%, and Federal Agency securities to 50% of the entire portfolio on the date of purchase. The investment policy also sets per-issuer limits to minimize concentration to a single entity. At June 30, 2026, there were no investments in a single issuer greater than 5% of total investments other than US Treasury, Federal Home Loan Mortgage Corporation (FHLMC) and Federal National Mortgage Association (FNMA) securities.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The District's bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer/ Nevada Collateral Pool.

The State of Nevada Local Government Investment Pool (LGIP) and the State of Nevada Retirement Benefits Investment Fund (RBIF) are unrated external investment pools which are administered by the Office of the State Treasurer, with oversight by the State of Nevada Board of Finance. Investments in LGIP and RBIF are carried at fair value, which is the same as the value of the pool shares and determined monthly by Bank of New York Mellon and State Street Corporation, respectively.

NOTE 4 – Interfund Balances and Transfers:

Interfund receivable/payable balances at June 30, 2026 are as follows:

Fund	Interfund Receivables	Interfund Payables
Major Fund:		
General Fund	$ 3,807,174	$ -
Other Governmental Funds:		
Title I Fund		725,992
Federal, Other Agencies Fund		136,369
Direct Federal Grants Fund		158,195
Special Ed IDEA Fund		741,227
Federal, NV DOE Flow Thru Fund		222,767
Family Resource Center Grants Fund		29,744
Adult Education Fund		273,949
Early Childhood Fund		848,577
21st Century Grants Fund		141,802
Title II Part A Teacher Training Fund		160,469
Title III English Language Fund		1,071
RPDP Fund		109,065
Federal, Other State Agencies Fund		205,445
Federal ESSER Fund		52,502
Totals	$ 3,807,174	$ 3,807,174

The purpose of the interfund balance listed above is to address nonmajor Special Revenue Funds which are reimbursement-type funds, which would otherwise have negative cash balances at the end of the fiscal year.

NOTE 4 – Interfund Balances and Transfers (Continued):

Interfund transfers are reported as other financing sources or uses, as appropriate, in all funds other than Proprietary Funds, where they are reported as transfers. Transfers between funds during the year ended June 30, 2026, are as follows:

	Transfers In:							
	Special Education Fund	Debt Service WC-1 Fund	Debt Service Fund	Medicaid Reimbursement Fund	Property Tax Capital Projects Fund	Gifted & Talented Wtd. Funding Fund	Government Services Tax Fund	Total
Transfers Out:								
General Fund	$85,901,124	$ -	$ -	$ 1,704,772	$ -	$ 5,355,984	$ -	$ 92,961,880
Government Services Tax Fund	-	-	1,808,998	-	-	-	-	1,808,998
Debt Service Fund	-	-	-	-	5,000,000	-	-	5,000,000
Foundations-Non Govt	-	-	-	-	-	-	4,619,484	4,619,484
WC-1 Sales Tax Revenue Fund	-	39,777,079	-	-	-	-	-	39,777,079
	$85,901,124	$39,777,079	$1,808,998	$ 1,704,772	$ 5,000,000	$ 5,355,984	$ 4,619,484	$ 144,167,441

Special Education Fund – The transfer to the Special Education Fund from the General Fund is to supplement State funds received for Special Education.

Debt Service WC-1 Fund – The transfer to the Debt Service WC-1 Fund from the WC-1 Sales Tax Revenue Fund is to provide for principal and interest payments on the WC-1 general obligation bonds.

Debt Service Fund – The transfers to the Debt Service Fund from the Government Services Tax Fund are to provide for repayment of principal and interest on general obligation medium-term debt.

Medicaid Reimbursement Fund – The transfer to the Medicaid Reimbursement Fund from the General Fund is to provide operational support for the Medicaid program.

Property Tax Capital Projects Fund – The transfer to the Property Tax Capital Projects Fund from the Debt Service Fund is to provide for pay-as-you go technology refresh projects.

Gifted & Talented Weighted Funding Fund – The transfer to the Gifted & Talented Weighted Funding Fund from the General Fund is to supplement State funds received for Gifted and Talented (GATE) program services.

Government Services Tax Fund – The transfer to the Government Services Tax Fund from the Foundations Non-Govt fund are for the Incline High School Expansion project.

NOTE 5 – Capital Assets:

Capital asset activity for the year ended June 30, 2026 was as follows:

	July 1, 2025 Balance	Increases	Decreases	June 30, 2026 Balance

Total governmental activities depreciation expense	$ 51,477,192
Business-Type Activities:	
Nutrition services operations	$ 586,288
Total business-type activities depreciation expense	$ 586,288

NOTE 6 – General Long-Term Obligations:

Bonds and Refunding Bonds Issued:

On January 29, 2026 the District issued $50,000,000 in General Obligation School Improvement Bonds, Series 2026A. The term is twenty years with an interest rate of 4.0% to 5.0%. Interest payments begin in June of 2026. Principal payments begin in June of 2027. The proceeds will be used for school improvement projects.

On January 29, 2026, the District issued $73,020,000 in General Obligation School Improvement Bonds, Series 2026B. The term is thirty years with an interest rate of 4.0% to 5.0%. Interest payments begin in October of 2026. Principal payments begin in October of 2027. The proceeds will be used for school improvement projects.

NOTE 6 – General Long-Term Obligations (Continued):

General long-term debt which is only related to governmental activities consists of the following at June 30, 2026:

General Obligation Bonds

Series	Date Issued	Date of Maturity	Interest Rate (%)	Amount Issued	Balance June 30, 2026
2010D	05/26/10	05/01/27	6.00%	3,550,000	2,800,000

Other long-term liabilities:					
Pending claims	20,083,119	687,234	-	20,770,353	10,083,307
Net Pension liability	936,736,091	-	105,421,636	831,314,455	-
Net OPEB liability	27,184,357	5,042,847	-	32,227,204	-
Compensated absences	48,942,549	1,061,997	-	50,004,546	36,721,853
Subtotal Governmental Activities	2,529,502,300	137,977,006	179,239,483	2,488,239,823	123,559,889
Business Type Activities:					
Net Pension liability	11,894,057	-	1,499,314	10,394,743	-
Net OPEB liability	1,145,514	212,500	-	1,358,014	-
Subtotal Business-Type Activities	13,039,571	212,500	1,499,314	11,752,757	-
Totals	$ 2,542,541,871	$ 138,189,506	$ 180,738,797	$ 2,499,992,580	$ 123,559,889

The liabilities for general obligation bonds and direct placement notes are typically liquidated through the various debt service funds of the District. The liabilities for the net pension liability and net OPEB liability are typically liquidated through the funds for which the related employee worked.

The District was, in accordance with Nevada Revised Statute 387.400, within the legal debt limit at June 30, 2026.

NOTE 7 – Fund Balance/Net Position:

Government-Wide Financial Statements/Net Position:

The government-wide Statement of Net Position utilizes a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted. The net investment in capital assets is capital assets less accumulated depreciation and related debt outstanding that relates to the acquisition, construction, or improvement of capital assets.

Amounts restricted have third-party (statutory, bond covenant or granting agency) limitation on their use. Restricted net position is classified by function, debt service, capital projects, or self-insurance claims.

The amount restricted for debt service consists of debt service reserve. Net position restricted for capital projects consists of unspent grants, donations, and debt proceeds with third party restrictions for use on specific projects or programs. Net position restricted for self-insurance activities represents the net position of the self-insurance funds, which are legally restricted for the purposes for which the funds were established.

Unrestricted net position represents available financial resources of the District.

Fund Financial Statements/Fund Balance:

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the governmental fund financial statements report the following classifications of fund balance:

Nonspendable – Amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – Amounts that can be spent only for specific purposes because of constitutional provisions, enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Committed – Amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Trustees, the District's highest level of decision making authority. A similar action is required to remove or modify committed fund balance and authorized expenditures reduce committed fund balance. At June 30, 2026 the District had no committed fund balances.

Assigned – Amounts that the District intends to use for a specific purpose, but do not meet the definitions of restricted or committed fund balance. Under the District's policy, adopted by the Board of Trustees, the District has delegated the authority to assign fund balance to the Chief Financial Officer or Superintendent.

Unassigned – All other spendable amounts in the General Fund or deficits in other governmental funds.

NOTE 7 – Fund Balance/Net Position (Continued):

A minimum ending fund balance policy has been adopted by the Board of Trustees for the General Fund. A minimum unrestricted (committed, assigned, unassigned) ending fund balance of 12% of total expenditures (including transfers out), less capital outlay, shall be maintained.

It is the desire of the District to maintain adequate General Fund balance to maintain liquidity for unanticipated needs. The Board of Trustees has adopted a policy to establish a contingency account with a minimum fund balance of .25% of total appropriations (including transfers out) that shall not exceed 3% of the total appropriations (excluding transfers out).

When an expenditure is incurred for purposes for which both restricted and unrestricted amounts are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned amounts are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally, unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

As of June 30, 2026, fund balances are composed of the following.

	General Fund	Major Debt Service Funds	Other Governmental Funds	Total
Fund balances				
Nonspendable				
Inventory	$ 1,870,735	$ -	$ 660,396	$ 2,531,131
Prepaid expenditures	-		1,335	1,335
Total nonspendable	1,870,735	-	661,731	2,532,466
Restricted for				
Restricted for Special Revenues	-	-	39,103,617	39,103,617
Restricted for Debt Service	-	103,096,859	21,287,262	124,384,121

Future salary and benefit increases	673,045	-	-	673,045
Total assigned	1,169,975	-	-	1,169,975
Unassigned	74,989,375	-	14,302,722	89,292,097
Total fund balances	$ 78,030,085	$ 103,096,859	$ 474,007,243	$ 655,134,187

NOTE 8 – Defined Benefit Pension Plan:

Plan Description:

The District contributes to the Public Employees' Retirement System of the State of Nevada (PERS). PERS administers a cost-sharing, multiple-employer, defined benefit public employees' retirement system which includes both regular and police/fire members. PERS was established by the Nevada Legislature in 1947, effective July 1, 1948. PERS is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earnings capacities have been removed or substantially impaired by age or disability.

Benefits Provided:

Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering PERS on or after January 1, 2010 and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed as 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering PERS on or after January 1, 2010, there is a 2.5% service time factor, and for regular members entering PERS on or after July 1, 2015, there is a 2.25% factor. PERS offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575 - .579.

Vesting:

Regular members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 60 with 10 years of service, or at any age with thirty years of service. Regular members entering PERS on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with 10 years of service, or any age with thirty years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

Police/Fire members entering PERS prior to January 1, 2010 are eligible for retirement at age 65 with five years of service, at age 55 with ten years of service, at age 50 with twenty years of service, or at any age with twenty-five years of service. Police/Fire members entering PERS on or after January 1, 2010, are eligible for retirement at 65 with five years of service, or age 60 with ten years of service, or age 50 with twenty years of service, or at any age with thirty years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as police/fire accredited service.

NOTE 8 – Defined Benefit Pension Plan (Continued):

The normal ceiling limitation on monthly benefits allowances is 75% of average compensation over the employee's highest 36 consecutive months. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both regular and police/fire members become fully vested as to benefits upon completion of five years of service.

Contributions:

The authority for establishing and amending the obligation to make contributions and member contribution rates, is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was selected, the member cannot covert to the Employee/Employer Contribution plan.

PERS' basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due. PERS receives an actuarial valuation on an annual basis indicating the contribution rates required to fund PERS on an actuarial reserve basis. Actual contributions are made in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.

The actuary funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and result in a relatively level long-term contributions requirement as a percentage of salary.

For the fiscal year ended June 30, 2026 the Statutory Employer/employee matching rate was 19.25% for Regular members; and 36.75% for Police/Fire. For the fiscal year ended June 30, 2026, the Employer-pay contribution (EPC) rate was 30.00% for Regular members and 58.75% for Police/Fire.

The District's contributions were $81,206,387 for the year ended June 30, 2026.

PERS Investment Policy:

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the PERS Board adopted policy target asset allocation as of June 30, 2026:

Asset Class	Target Allocation
Domestic Equity	34%
International Equity	14%
U.S. Bonds	28%
Private Markets	12%
Short-term Investments	12%

NOTE 8 – Defined Benefit Pension Plan (Continued):

Net Pension Liability:

At June 30, 2026, the District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2025, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in PERS pension plan relative to the total contributions of all participating PERS employers and members. At June 30, 2026, the District's proportion was 4.8978%, which was a decrease of .3525% from its proportion as of June 30, 2025.

Pension Liability Discount Rate Sensitivity:

The following presents the net pension liability of the District as of June 30, 2026, calculated using the discount rate of 7.25%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current discount rate:

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
Net Pension Liability	1,416,177,372	841,709,198	367,812,159

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's fiduciary net position is available in the PERS Annual Comprehensive Financial Report, available on the PERS website.

Actuarial Assumptions:

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation Rate	2.50%
Investment Rate of Return	7.25%
Projected Salary Increases	Regular: 4.20% to 9.10%, depending on service Police/Fire: 4.60% to 14.50%, depending on service Rates include inflation and productivity increases
Other Assumptions	Same as those used in the June 30, 2025 funding actuarial valuation

NOTE 8 – Defined Benefit Pension Plan (Continued):

Mortality Rates: For regular healthy members it is Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional monthly improvement scale MP-2020. The above listed mortality tables only provide rates for ages 50 and older. To develop mortality rates for ages 40 through 50, PERS smoothed the difference between the rates at age 40 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 50 from the Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 40, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the Internal Revenue Service (IRS) to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For police/fire healthy members it is Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Table with rates increased by 30% for males and 5% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality tables only provide rates for ages 45 and older. To develop mortality rates for ages 35 through 45, PERS smoothed the difference between the rates at age 35 from the Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 45 from the Pub-2010 Safety Healthy Retiree Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 35, PERS used the pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the Internal Revenue Service (IRS) to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For disabled regular members it is the Pub-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 20% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

For disabled police/fire members: Pub-2010 Safety Disabled Retiree Amount-Weighted Mortality Table with rates increased by 30% for males and 10% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020.

For regular and police/fire current beneficiaries in pay status it is Pub-2010 Contingent Survivor Amount-Weighted Above- Median Mortality Table with rates increased by 15% for males and 30% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality table only provides rates for ages 45 and older. To develop mortality rates for ages 35 through 45, the Plan have smoothed the difference between the rates at age 35 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 45 from the Pub 2010 Contingent Survivor Amount-Weighted Above-Median Mortality Tables. To develop the mortality rates before age 35, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the IRS to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

NOTE 8 – Defined Benefit Pension Plan (Continued):

For regular and police/fire contingent beneficiaries it is Pub-2010 General Healthy Retiree Amount-Weighted Above-Median Mortality Table (separate tables for males and females) with rates increased by 30% for males and 15% for females, projected generationally with the two-dimensional mortality improvement scale MP-2020. The above listed mortality tables only provide rates for ages 50 and older. To develop mortality rates for ages 40 through 50, PERS smoothed the difference between the rates at age 40 from the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables and the rates at age 50 from the Pub-2010 General Healthy Retiree Amount -Weighted Above-Median Mortality Tables. To develop the mortality rates before age 40, PERS used the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Tables rates. This methodology for developing an extended annuitant mortality table is similar to the method used by the IRS to develop the base mortality table for determining minimum funding standards for single-employer defined benefit pension plans under Internal Revenue Code Section 430. While Section 430 is not applicable to the System, we believe this is a reasonable method for developing annuitant mortality rates at earlier ages.

For the mortality table applicable to contingent beneficiaries, “Approach 1” from the Society of Actuaries “Pub-2010 Public Retirement Plans Mortality Tables Report” was utilized. In particular, the mortality basis for contingent beneficiaries has been assumed to be the same mortality basis as the Healthy Regular retiree table listed above (except using rates applicable to the beneficiary’s gender) for both when the primary retiree is alive and is no longer alive. The Pub-210 Amount-Weighted Mortality Tables (with loading factors as described above) reasonably reflect the projected mortality experience of the Plan as of the measurement date. The generational projection is a provision made for future mortality improvement.

For pre-retirement regular members it is the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table (separate tables for males and females), projected generationally with the two-dimensional mortality improvement scale MP-2020.

For pre-retirement police/fire members it is the Pub-2010 Safety Employee Amount-Weighted Above-Median Mortality Table separate tables for males and females). Projected generationally with the two dimensional mortality improvement scale MP-2020.

The Pub-2010 Amount-Weighted Mortality Tables reasonably reflect the projected mortality experience of the plan as of the measurement date.

Actuarial assumptions used in the June 30, 2025 valuation were based on the results of the experience study for the period from July 1, 2016 through June 30, 2020.

The discount rate used to measure the total pension liability was 7.25% as of June 30, 2025. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan’s fiduciary net position at June 30, 2025 was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2025.

NOTE 8 – Defined Benefit Pension Plan (Continued):

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

For the year ended June 30, 2026, the District recognized pension expense of $76,108,695. At June 30, 2026, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 202,433,213	$ -
Changes in assumptions or other inputs	30,418,659	-
Net difference between projected and actual earnings on pension plan investments	-	122,289,844
Changes in proportion	24,587,662	58,280,290
District contributions subsequent to the measurement date	81,206,387	-
	$ 338,645,921	$ 180,570,134

The $81,206,387 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2027.

The average of the expected remaining service lives of all employees that are provided with pensions through PERS (active and inactive employees) is 5.68 years.

Other estimated amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2027	97,906,357
2028	(5,697,164)
2029	(14,190,283)
2030	261,490
2031	4,204,316
Thereafter	(5,615,316)

Additional Information:

Additional information is located in the PERS Annual Comprehensive Financial Report (ACFR) available on the PERS website at www.nvpers.org under Quick Links – Publications.

NOTE 9 – Post-employment Benefits Other Than Pensions:

Plan Descriptions:

The District provides other post-employment benefits (OPEB) through three single-employer defined benefit plans: the Washoe County School District Retiree Health Benefits Plan (WCSDRHP), the Nevada Public Employees' Benefits Plan (NPEBP), and the WCSD Retiree Life Insurance Plan. The plans are administered through the Washoe County School District OPEB Trust Fund (Trust), and the measurement focus of each plan is its respective net OPEB liability. Benefit provisions are established pursuant to NRS 287.023. Provisions of the WCSDRHP and WCSD Retiree Life Insurance Plan may be amended through negotiations between the District and the respective employee associations, with authority to establish benefit provisions assigned to the Board of Trustees pursuant to NRS 288.150. NPEBP benefit provisions are subject to amendment by the State of Nevada.

Washoe County School District Retiree Health Benefits Plan (WCSDRHP):

The WCSDRHP provides medical, dental, and vision benefits to eligible District retirees. Pursuant to negotiated employee contracts, the District provides explicit medical insurance premium subsidies to eligible employees who retire with at least 15 years of District service. Classified employees hired after June 30, 1999, certified employees who retire after August 31, 2006, and administrative employees who retire after June 30, 2006, are not eligible for explicit premium subsidies. Eligible retirees may participate in the plan at blended rates, resulting in an implicit subsidy. Retiree contributions vary based on years since retirement and years of District service. The District reimburses eligible pre-Medicare retirees for validated medical and dental claims and serves as a secondary carrier for Medicare-eligible retirees.

The District determines contributions to the Trust based on projected pay-as-you-go financing requirements and actuarial studies. For fiscal year 2026, benefits totaling $1,682,260 were paid out for WCSDRHP retirees.

The number of participants as of June 30, 2025, the most recent full actuarial valuation date, are as follows:

	WCSDRHP
Active Employees	6,529
Retirees and surviving spouses	754
Total participants	7,283

Nevada Public Employees' Benefits Plan (NPEBP):

NPEBP provides post-employment healthcare benefits to certain former District employees. District retirees who were not receiving NPEBP benefits as of November 30, 2008, are no longer eligible to participate in the plan. For remaining eligible retirees, the District is required to subsidize coverage at the same level provided by the State of Nevada for qualifying state retirees. As of June 30, 2026, 962 retirees participated in this benefit, and the District paid $2,550,231 in subsidies during the year. Retiree contributions are paid directly to the State of Nevada.

Because the plan is closed to additional District retirees, the District has elected not to make additional contributions to the plan.

NOTE 9 – Post-employment Benefits Other Than Pensions (Continued):

WCSD Retiree Life Insurance Plan:

The WCSD Retiree Life Insurance Plan provides Basic Life and Accidental Death and Disability (AD&D) insurance to eligible retirees at blended rates. Employees covered by Basic Life and AD&D insurance while active who retire from the District while drawing PERS benefits may continue coverage at retirement, regardless of years of District service, provided the retiree pays the applicable premium. Coverage is not available to retirees' spouses. Basic Life and AD&D coverage available to future eligible retirees is $200,000 for administrative employees, $40,000 for certified and classified employees, and $50,000 for confidential classified employees. Coverage is reduced by 50% at age 70 and may be adjusted based on bargaining results.

Retirees pay 100% of pay-as-you-go premiums based on blended active and retiree rates. The District's OPEB liability relates to the implicit subsidy resulting from use of the blended rates. Because retirees pay the full premiums and the District has no future contribution obligation under the plan, the District has not made additional contributions to the plan since fiscal year 2011-12.

The number of participants as of June 30, 2025, the most recent full actuarial valuation date, are as follows:

	WCSD Retiree Life Insurance Plan
Active Employees	6,529
Retirees and surviving spouses	2,469
Total participants	8,998

Actuarial Methods and Assumptions:

The District's net OPEB liability was measured as of June 30, 2026, and the total OPEB liabilities used to calculate their respective net OPEB liability were determined by actuarial valuations for each plan as of June 30, 2025.

The total OPEB liability in the actuarial valuation for each plan was determined using the following actuarial assumptions and other inputs applied to all periods included in the measurement, unless otherwise specified:

NOTE 9 – Post-employment Benefits Other Than Pensions (Continued):

	WCSDRHP	NPEBP	WCSD Retiree Life Insurance Plan
Salary increases	3.00%	n/a	3.00%
Discount rate	6.07%	6.07%	6.07%
Investment rate of return	7.25%	7.25%	7.25%
Healthcare cost trend rates			
Pre-65 retirees	8.11% initial	8.11% initial, 4.00% ultimate	n/a
Post-65 retirees	8.11% initial	8.11% initial, 4.00% ultimate	n/a
Medicare subsidy	n/a	Medicare subsidy level (once eligible) is approximately 40% on non-Medicare subsidy level	n/a

Mortality rates were based on the Pub-2010 generational tables using Scale MP-2020 applied on a gender specific basis, specific to occupation category (teacher, safety, general).

The June 30, 2026 actuarial valuation used the Nevada Public Employees Retirement System (PERS) termination rates from PERS' 2025 actuarial valuation.

Investment rate of return. A long-term investment rate of return of 7.25%, net of investment expenses, was selected by the plans. This rate is based on the long-term rate of return from the State of Nevada's Retiree Benefits Investment Fund (RBIF), where the plans and the County invest their assets to fund their OPEB liabilities. This rate is derived from RBIF's investment policy (shown in the table below).

Asset Class	Asset Allocation
Foreign Developed Equity	17.5%
Short-term Investments	12.0%
U.S. Fixed Income	28.0%
U.S. Large Cap Equity	42.5%

The annual money-weighted rate of return on OPEB plan investments was 5.90% during the year ended June 30, 2026.

Discount Rate. The discount rate should be the single rate that reflects the long-term rate of return on OPEB plan investments that are expected to be used to finance the payment of benefits, to the extent that plan assets are projected to cover the benefit payments. The discount rate used to measure the total OPEB liability was 6.07% for all plans. This is based on a blend of the Bond Buyer 20-Bond GO index of 4.67% as of the measurement date and the long-term rate of return from the State of Nevada's Retiree Benefits Investment Fund (RBIF) of 7.25%. The District invests OPEB assets for all plans in the RBIF and securities of the United States Treasury to fund their OPEB liabilities.

NOTE 9 – Post-employment Benefits Other Than Pensions (Continued):

The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the net position was not projected to be available to make all projected future benefit payments of current plan members. Therefore, the blended rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in assumptions. The changes in assumptions for all plans in the June 30, 2026 measurement, from the previous measurement as of June 30, 2025 were as follows:

- The discount rate was updated from 6.72% to 6.07%.
- The trend rates were updated to an initial rate of 8.11% (7.50% for Post-65) grading down to an ultimate rate of 4.00%. The Select trend rates are updated to reflect the higher than anticipated rising healthcare costs environment.

Changes in the Net OPEB Liability.

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
	(a)	(b)	(a) - (b)
Balances at July 1, 2025	$ 122,112,013	$ 93,782,141	$ 28,329,872
Changes for the year			
Service cost	748,068	-	748,068
Interest cost	7,924,763	-	7,924,763
Differences between expected and actual experience	(3,373,855)	-	(3,373,855)
Changes in assumption or other inputs	7,659,915	-	7,659,915
Net investment income	-	5,529,915	(5,529,915)
Benefit payments	(6,490,259)	(4,232,491)	(2,257,768)
Administrative expense	-	(84,138)	84,138
Net changes	6,468,632	1,213,286	5,255,347
Balances at June 30, 2026	$ 128,580,645	$ 94,995,427	$ 33,585,218

Sensitivity of the OPEB liabilities to changes in the discount rate. The following presents the net OPEB liabilities of the plans, as well as what each plan's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.07 percent) or 1-percentage-point higher (7.07 percent) than the current discount rate rounded to the nearest thousand:

NOTE 9 – Post-employment Benefits Other Than Pensions (Continued):

	1% Decrease in Discount Rate 5.07%	Current Discount Rate 6.07%	1% Increase in Discount Rate 7.07%
Net OPEB Liability	$ 46,417,000	$ 33,585,000	$ 22,760,000

Sensitivity of the OPEB liabilities to changes in the healthcare cost trend rates. The following presents the net OPEB liabilities of the plans, as well as what each plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates rounded to the nearest thousand:

	1% Decrease in Healthcare Costs Trend Rate (7.11%)	Current Healthcare Costs Trend Rate (8.11%)	1% Increase in Healthcare Costs Trend Rate (9.11%)
Net OPEB Liability	$ 25,229,000	$ 33,585,000	$ 43,296,000

OPEB plan fiduciary net position. Detailed information about the OPEB plans' fiduciary net position is available in the separately issued Washoe County School District OPEB Trust financial report, which can be obtained by contacting management of the District.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2026, the District recognized OPEB expense of ($1,862,000). At June 30, 2026, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources, for the combined plans:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 16,192,886	$ 50,236,687
Changes of assumptions/inputs	22,554,863	49,044,613
Net difference between projected and actual investments	-	22,361
Total	$ 38,747,749	$ 99,303,661

NOTE 9 – Post-employment Benefits Other Than Pensions (Continued):

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2027	$ (6,720,417)
2028	(7,534,293)
2029	(10,117,839)
2030	(12,664,696)
2031	(12,933,070)
Thereafter	(10,585,597)
Total	$ (60,555,912)

NOTE 10 – Risk Management:

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District reports all of its risk management activities in the Internal Service Funds in accordance with GASB Statements No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues* and No. 30, *Risk Financing Omnibus an amendment of GASB Statement No. 10*.

Claims expenses and liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated annually by an outside actuary who takes into consideration recently settled claims, the frequency of claims, and other economic and social factors. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using the expected future investment yield of 2.0 percent.

At June 30, 2026, the amount of this liability was $20,770,353. This liability is determined by actuaries using all available information.

NOTE 10 – Risk Management (Continued):

Changes in the reported liability since July 1, 2024 are as follows:

	Property & Casualty	Health Insurance	Workers' Compensation	Total
Claims liability, July 1, 2024	$ 4,972,000	$ 8,718,923	$ 6,375,000	$ 20,065,923
Current year claims and changes in estimates	(402,796)	89,410,229	2,626,025	91,633,458
Claims payments	(799,204)	(88,198,033)	(2,619,025)	(91,616,262)
Claims liability, June 30, 2025	$ 3,770,000	$ 9,931,119	$ 6,382,000	$ 20,083,119

Claims liability, June 30, 2026	$ 3,547,000	$ 10,487,353	$ 6,736,000	$ 20,770,353

At June 30, 2026, the Internal Service Funds held $51,008,212 in cash and investments available for payment of these claims.

The District combines both self-insurance and commercial insurance to protect against risks. There was no significant reduction in those insurance coverages purchased by the District from the previous year. Settled claims have not exceeded the commercial coverage in any of the past three years. The following is a detail of coverage:

Property, General Liability, and Casualty Insurance – The District maintains a per occurrence coverage with deductible of $500,000 for damage to real and personal property, including flood losses, and a 2% per unit of insurance (based on the value of the property at the time of loss) subject to a minimum per occurrence deductible of $100,000 for covered earthquake losses. The District is self-insured in the amount of $400,000 for general liability and automobile incidents resulting in bodily injury and/or property damage liability claims. Maximum annual coverage is $1,000,000,000 per occurrence for property coverage, subject to sub-limits for Flood and Earthquake losses, and coverage of $5,000,000 per occurrence for crime with a $50,000 deductible. Further, the District maintains $15,000,000 per occurrence limits for wrongful acts of the Board of Trustees and general and automobile liability.

Health Insurance – The District is self-insured for health insurance claims up to $425,000 per calendar year per employee.

Workers' Compensation Insurance – The District is self-insured for workers' compensation claims up to $600,000 for each occurrence. Losses in excess of $600,000 are covered by excess insurance up to State statutory limits. Also covered under this program is employer's liability coverage for $1,000,000 for each accident, $1,000,000 for each employee for disease, $1,000,000 aggregate, and is subject to the $600,000 self-insurance retention. The District maintains an account with a fair value of $2,753,544 as of June 30, 2026 to meet its State of Nevada's Local Government Investment Pool (LGIP) security deposit requirement.

The Property and Casualty, Health Insurance and Workers' Compensation Funds charge the District's insured funds monthly premiums.

NOTE 11 – Commitments and Contingencies:

Construction Commitments:

As of June 30, 2026, the District had the following commitments, which represent the District's significant encumbrances, with respect to unfinished capital projects:

	Remaining Construction Commitment	Expected Date of Completion
Nonmajor Funds		
Athletic Surfaces Projects	1,342,322	12/31/2026
Building access upgrades	527,788	12/31/2026
Fire Alarm Update Projects	148,619	12/31/2026
HVAC/Plumbing Projects	6,646,649	12/31/2026
Infrastructure Projects	3,693,642	12/31/2026
Infrastructure Projects	96,825,571	6/30/2027
Infrastructure Projects	1,697,860	12/31/2027
Infrastructure Projects	10,031,253	6/30/2028
Roofing Projects	3,571,401	12/31/2026
Safety Projects	364,427	12/31/2026
School Design	407,908	12/31/2026
School Design	4,497,430	6/30/2027
School Design	6,485,777	6/30/2028
Seismic Upgrade Projects	20,000	12/31/2026
Technology upgrades	150,946	12/31/2026
	$ 136,411,593	

Currently, no additional financing is required to complete construction on the projects above.

Litigation:

The District is a defendant in various legal actions. The amount of liability or loss, if any, arising from such legal actions cannot be reasonably estimated at the present time. It is the opinion of management and legal counsel of the District that none of these cases would have a material impact upon the financial condition of the District.

NOTE 12 – State of Nevada Tax Abatements:

For the fiscal year ended June 30, 2026, the District's revenues were reduced by a total amount of $1,298,302 under agreements entered into by the State of Nevada.

Aviation Tax Abatement (NRS 360.753) – Partial abatements from personal property and sales & use taxes are available to companies that locate or expand their business in Nevada. The personal property tax abatement can be up to 50% for 20 years on the taxes due on tangible personal property, and the sales & use tax abatement reduces the applicable tax rate to 2% for a similar 20-year period, a near 75% reduction. For fiscal year ending June 30, 2026, the total amount abated for the District was $202,708.

Data Centers Abatement (NRS 360.754) – Partial abatements from personal property and sales & use taxes are available to companies that establish or expand data centers. The personal property tax abatements can be up to 20 years. For fiscal year ending June 30, 2026, the total amount abated for the District was $183,162.

Renewable Energy (NRS 701A.370) – Partial abatements from personal property and sales & use taxes are available to renewable energy facilities. For fiscal year ending June 30, 2026, the total amount abated for the District was $343,259.

Standard Abatement (NRS 374.357) – Partial abatements from taxes imposed on the gross receipts from the sale, storage, use, or other consumption of eligible machinery or equipment used by companies which intend to locate in the State. The abatement is available on the tax imposed for not more than two years. For Fiscal Year ended June 30, 2026, the total amount abated for the District was $569,172.

NOTE 13 – New Accounting Pronouncements:

In April 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model by providing only essential information necessary for decision-making, and to assess accountability. This Statement established updated requirements for management's discussion and analysis, unusual or infrequent items, presentation of proprietary fund financial statements, information about major component units, and budgetary comparison information. The requirements of this Statement are effective for the District's fiscal year ended June 30, 2026. The implementation of this Statement resulted in changes to the presentation of certain financial information but did not impact the District's beginning net position or fund balances.

In September 2024, the GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide essential information about certain types of capital assets. This Statement establishes additional disclosure requirements for intangible-type capital assets such as lease assets, subscription assets, and other intangible assets. In addition, this Statement requires additional disclosures regarding capital assets held for sale. The requirements of this Statement are effective for the District's fiscal year ended June 30, 2026. The implementation of this Statement did not significantly change capital asset disclosures, nor did it impact the District's beginning net position or fund balances.

NOTE 14 – Subsequent Events:

On September 29, 2026, the District issued $3,500,000 of General Obligation Medium Term bonds, Series 2026. The term is four years with an interest rate of 4.14%. Interest and principal payments begin in June 2027. The proceeds will be used to acquire school buses and other District support vehicles.

On October 13, 2026, the Board of Trustees adopted a resolution authorizing the issuance of General Obligation School Improvement Bonds, Series 2026C, in an aggregate principal amount not to exceed $164,000,000. The proceeds of the bonds will be used to finance the acquisition, construction, improvement, and equipping of school facilities. The final principal amount, interest rates, and maturity schedule will be determined upon the sale of the bonds.

The notes to required supplementary information are an integral part of this statement.

NOTE 1 - Purpose of Schedules:

A – Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's share of the net pension liability administered by the Public Employees' Retirement System of the State of Nevada.

B – Schedule of the District's Contributions to Public Employees' Retirement System of the State of Nevada

The Schedule of the District's Contributions to PERS is presented to illustrate the District's required contributions relating to the PERS pension plan.

C - Schedules of Changes in Net Other Postemployment Benefits Liability and Related Ratios

The Schedules of Changes in Net OPEB Liability and Related Ratios are presented to illustrate the elements of the District's net OPEB liabilities associated with the respective plans offered by the District. The District has accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's total OPEB liability associated with all plans. The discount rate was to 6.07%. The trend rates were an initial rate of 8.11% (7.50% for Post-65) grading down to an ultimate rate of 4.00%. The Select trend rates are updated to reflect the higher than anticipated rising healthcare costs environment.

D – Schedule of the District's Contributions for Other Postemployment Benefits

The Schedule of District Contributions - OPEB is presented to illustrate the District's required contributions relating to the District's OPEB plans.

E – Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year to provide for revised priorities. The originally adopted and final revised budgets for the General Fund and the Special Education Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

Explanations for significant variations between original and final budget amounts, and between final budget amounts and actual results, are as follows:

General Fund Budgetary Revenues:
Variances – final budget to actual

1. *Local sources* - Actual revenues exceeded the final budget by approximately $1.32 million due to higher-than-expected yields on District investments, which resulted in higher interest and investment earnings.
2. *State sources* - Actual revenues exceeded the final budget by approximately $2.38 million due to higher-than-expected average daily enrollment for the school year, which is a primary driver of revenues provided through the State of Nevada Department of Education.

NOTE 1 - Purpose of Schedules (Continued):

General Fund Budgetary Expenditures:
Variances – original budget to final budget

3. *Regular Programs* – The original budget for Regular Instructional Programs was increased by approximately $4.71 million due to higher-than-expected student enrollment after the first semester, as well as increased benefit costs arising from compliance with a new law which requires providing retirement benefits to substitute teachers meeting specified criteria. Also, health insurance costs beginning in 2026 were higher than expected.
4. *Other Instructional Programs* - This function accounts for summer school expenditures. The original budget for summer school expenditures was decreased by approximately $163,000 due to lower-than-anticipated participation in the District's summer school programs.
5. *Co-curricular Programs* - This function accounts for expenditures which enhance students' educational experiences, such as school athletics. The original budget was increased by approximately $502,900 primarily due to increased travel expenses incurred for games played outside of the District.
6. *School Administration* - This function accounts for expenditures related to school site administration. The original budget was increased by approximately $5.02 million to reflect the outcome of a bargaining agreement with employee groups, which reclassified dean positions to be reported under the School Administration function.
7. *Other financing sources: Contingency* - The original budget of $5.00 million was eliminated due to cost increases within other functional classifications of expenditures, as discussed above. As such, funds were drawn from this contingency account and reallocated to other specific functional expenditure types.
8. *Other financing sources: Transfers out* - The original budget for transfers out was increased by approximately $4.17 million, primarily to provide for increased expenditures in the Special Education Fund.

Special Education Fund Budgetary Expenditures:
Variances – original budget to final budget

1. *Instruction* - The original budget was increased by approximately $1.02 million due to a higher-than-expected number of special education students, resulting in a corresponding increased need for special education teachers.
2. *Student Support* - This function accounts for the cost of special education teacher assistants. The original budget was increased by approximately $1.62 million, primarily due to a higher-than-expected number of special education students, resulting in a corresponding increased need for special education teacher assistants. In addition, the District was also required to fund initial out-of-state housing and special education services for a student with critical needs and subsequently await reimbursement from the Nevada Department of Education.
3. *General Administration* - The original budget was decreased by $136,154 to account for a special education director position which was vacant for multiple quarters.
4. *Other financing sources: Transfers in* – The original budget for transfers in was increased by approximately $3.71 million to account for the General Fund's contribution, which provides for any costs not funded through other sources.

GENERAL FUND

To account for and report all financial resources not accounted for and reported in another fund.

SPECIAL REVENUE FUNDS

Special revenue funds - to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

MAJOR SPECIAL REVENUE FUND

- Special Education Fund: to account for transactions of the District relating to educational services provided to children with special needs.

NONMAJOR SPECIAL REVENUE FUNDS

- Student Activity Fund: to account for student activity funds under the control of the respective schools in the District.
- Gifted & Talented (GT) Weighted Funding Fund: to account for funding received for Gifted and Talented students in the Pupil Centered Funding Plan (PCFP) from the State.
- English Learners (EL) Weighted Funding Fund: to account for funding received for English Learner students in the PCFP from the State.
- At-Risk Weighted Funding Fund: to account for funding received for At-Risk students in the PCFP from the State.
- E-Rate Fund: to account for revenues received from the Universal Service Schools and Libraries Program, commonly known as E-Rate, which provides discounts to help eligible schools and libraries obtain affordable telecommunications and internet access.
- Title I Fund: to account for federal grant funds received underTitle I of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA) to provide supplemental education services and support schools with high numbers or high percentages of children from low-income families.
- Federal Other Agency Fund: to account for federal grants that pass through other agencies.
- Direct Federal Grants Fund: to account for federal grants provided directly by U.S. government agencies.
- Federal Special Education IDEA Fund: to account for federal pass-through grants authorized by the Individuals with Disabilities Education Act (IDEA). These funds are used to provide Early intervention, special education and related services for students with disabilities.
- Vocational Education Fund: to account for Nevada Department of Education grants to provide programs for vocational, career, and technical education.
- Federal, Nevada DOE Flow-through Fund: to account for Federal grants for various purposes.
- Family Resource Center Fund: to account for Nevada Health and Human Services grants to operate family resource centers, whose purpose is to provide basic needs assistance to families and students.

Washoe County School District

- Adult Education Fund: to account for Nevada Department of Education grants to operate an adult high school diploma program for adults who are no longer eligible for educational services in a traditional high school.
- Early Childhood Fund: to account for Nevada Department of Education grants to operate early childhood education programs for pre-kindergarten students.
- 1/5 PERS and Financial Incentives Fund: to account for Nevada Department of Education grants to purchase retirement credits for qualifying teachers working in at-risk schools, as authorized by NRS 391.A.
- NV DOE State Grants Fund: to account for Nevada Department of Education grants for various purposes.
- Twenty-First Century Grants Fund: to account for Federal pass-through grants for after-school programs.
- Title II Part A - Teacher Training Fund: to account for Federal pass-through grants to provide professional development/training opportunities for teachers, administrators, and support staff.
- Title III - English Language Acquisition Fund: to account for Federal pass-through grants to provide supplemental educational services and support for students who are English Learners and developing English language proficiency.
- Regional Professional Development Program Fund: to account for State funding to Washoe County School District, acting as the fiscal agent, to operate professional development programs at the five school districts that comprise the Northwest Regional Professional Development Program, as authorized by NRS 391A.120.
- Foundations Non-Governmental Fund: to account for gift and donations received from community foundations and other non-governmental entities, supporting District programs and initiatives.
- Medicaid Reimbursement Fund: to account for Federal reimbursement for Medicaid-eligible services to students.
- Other State Agencies Fund: to account for State grants from state agencies other than the Nevada Department of Education.
- Federal Other State Agencies Fund: to account for Federal grants that pass through state agencies other than the Nevada Department of Education.
- Community Position Reimbursement Fund: to account for small grants provided by community organizations, such as a Parent Teacher Organization (PTO) and local businesses for specific goods and/or services.
- Gifts and Donations Fund: to account for non-public gifts and donations to the school district.
- Wellness Programs Fund: to account for the District's Wellness Program for employees.
- Federal ESSER Fund: to account for federal coronavirus relief funds to safely reopen schools, sustain the safe operations of schools, and address the impact of the pandemic on students.

STATISTICAL SECTION

This section presents detailed information as context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's financial health.

Financial Trends: provides trend information to assist in understanding how the District's financial performance and well-being have changed over time.

Revenue Capacity: information to assist in understanding the District's most significant local revenue sources.

Debt Capacity: information assessing the affordability of the District's current levels of outstanding debt and the ability to issue additional debt in the future.

Demographic and Economic Information: indicators to assist in understanding the environment within which the District's financial activities take place.

Operating Information: service and infrastructure data to assist in understanding how the information in the District's financial report relates to the services and activities provided.

Note: In FY22, the State implemented a new school funding formula, the Pupil Centered Funding Plan, which pooled General Fund ad valorem taxes, franchise taxes and the Local School Support Tax in the State Education Fund. Thus, these revenues are no longer received at a local level. The State Distributive School Account was also replaced with the State Education Fund.

Independent Auditor's Report on Internal Control Over Financial Reporting

Schedule of Findings and Questioned Costs

Summary Schedule of Prior Year Findings

Washoe County School District

Crowe LLP
Independent Member Crowe Global

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Washoe County School District
Reno, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Washoe County School District as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise Washoe County School District's basic financial statements, and have issued our report thereon dated October 26, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Washoe County School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Washoe County School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Washoe County School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

(Continued)

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Washoe County School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION II - FINANCIAL STATEMENT FINDINGS

No matters were reported.

No matters were reported.

APPENDIX B

BOOK-ENTRY ONLY SYSTEM

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Bonds, in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name

as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, interest and redemption proceeds on the Bonds will be made to Cede& Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, interest or redemption proceeds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Registrar and Paying Agent. Under

such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the accuracy thereof.

APPENDIX C

FORM OF CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the "Disclosure Certificate") is executed and delivered by Washoe County School District, Nevada (the "Issuer") in connection with the issuance of the Issuer's Washoe County School District, Nevada, General Obligation (Limited Tax) School Improvement Bonds, Series 2026C, in the aggregate principal amount of $_____ (the "Bonds"). The Bonds are being issued pursuant to the bond resolution of the Issuer adopted on October 13, 2026 (the "Bond Resolution"). The Issuer covenants and agrees as follows:

SECTION 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the holders and beneficial owners of the Bonds and in order to assist the Participating Underwriter in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission (the "SEC").

SECTION 2. Definitions. In addition to the definitions set forth in the Bond Resolution or parenthetically defined herein, which apply to any capitalized terms used in this Disclosure Certificate unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Dissemination Agent" shall mean, initially, the Issuer, or any successor Dissemination Agent designated in writing by the Issuer and which has filed with the Issuer a written acceptance of such designation.

"Financial Obligation" shall mean a (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation, or (iii) guarantee of (i) or (ii). The term Financial Obligation shall not include municipal securities as to which a final official statement has been provided to the Municipal Securities Rulemaking Board in compliance with the Rule.

"Material Events" shall mean any of the events listed in Section 5 of this Disclosure Certificate.

"MSRB" shall mean the Municipal Securities Rulemaking Board. The MSRB's required method of filing is electronically via its Electronic Municipal Market Access (EMMA) system available on the Internet at http://emma.msrb.org.

"Participating Underwriter" shall mean any of the original underwriters of the Bonds required to comply with the Rule in connection with an offering of the Bonds.

"Rule" shall mean Rule 15c2-12(b)(5) adopted by the SEC under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SECTION 3. Provision of Annual Reports.

(a) The Issuer shall, or shall cause the Dissemination Agent to, not later than nine (9) months following the end of the Issuer's fiscal year of each year, commencing nine (9) months following the end of the Issuer's fiscal year ending June 30, 2027, provide to the MSRB in an electronic format as prescribed by the MSRB, an Annual Report which is consistent with the requirements of Section 4 of this Disclosure Certificate. Not later than five (5) business days prior to said date, the Issuer shall provide the Annual Report to the Dissemination Agent (if other than the Issuer). The Annual Report may be submitted as a single document or as separate documents comprising a package, and may cross-reference other information as provided in Section 4 of this Disclosure Certificate; provided that the audited financial statements of the Issuer may be submitted separately from the balance of the Annual Report.

(b) If the Issuer is unable to provide to the MSRB an Annual Report by the date required in subsection (a), the Issuer shall send or cause to be sent a notice in substantially the form attached as Exhibit A to the MSRB.

(c) The Dissemination Agent shall:

(i) determine each year prior to the date for providing the Annual Report the appropriate electronic format prescribed by the MSRB;

(ii) if the Dissemination Agent is other than the Issuer, send written notice to the Issuer at least 45 days prior to the date the Annual Report is due stating that the Annual Report is due as provided in Section 3(a) hereof; and

(iii) if the Dissemination Agent is other than the Issuer, file a report with the Issuer certifying that the Annual Report has been provided pursuant to this Disclosure Certificate, stating the date it was provided and listing all the entities to which it was provided.

SECTION 4. Content of Annual Reports. The Issuer's Annual Report shall contain or incorporate by reference the following:

(a) A copy of its annual financial statements prepared in accordance with generally accepted accounting principles audited by a firm of certified public accountants. If audited annual financial statements are not available by the time specified in Section 3(a) above, unaudited financial statements will be provided as part of the Annual Report and audited financial statements will be provided when and if available.

(b) An update of the type of information identified in Exhibit B hereto, which is contained in the tables in the Official Statement with respect to the Bonds (excluding projections, forecasts and budgeted information which are not required to be updated).

Any or all of the items listed above may be incorporated by reference from other documents, including official statements of debt issues of the Issuer or related public entities, which are available to the public on the MSRB's Internet Web Site or filed with the SEC. The Issuer shall clearly identify each such document incorporated by reference.

SECTION 5. Reporting of Material Events. The Issuer shall provide or cause to be provided, in a timely manner, not in excess of ten business days after the occurrence of the event, notice of any of the following events with respect to the Bonds, to the MSRB:

(a) Principal and interest payment delinquencies;

(b) Non-payment related defaults, if material;

(c) Unscheduled draws on debt service reserves reflecting financial difficulties;

(d) Unscheduled draws on credit enhancements reflecting financial difficulties;

(e) Substitution of credit or liquidity providers, or their failure to perform;

(f) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;

(g) Modifications to rights of bondholders, if material;

(h) Bond calls, if material, and tender offers;

(i) Defeasances;

(j) Release, substitution or sale of property securing repayment of the Bonds, if material;

(k) Rating changes;

(l) Bankruptcy, insolvency, receivership or similar event of the obligated person*;

(m) The consummation of a merger, consolidation, or acquisition involving an obligated person or the sale of all or substantially all of the assets of the obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms if material;

(n) Appointment of a successor or additional trustee or the change of name of a trustee, if material;

* For the purposes of the event identified in subparagraph (b)(5)(i)(C)(12) of the Rule, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governing body and official or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

(o) Incurrence of a Financial Obligation of the obligated person, if material, or an agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the obligated person, any of which affect security holders, if material; and

(p) Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a Financial Obligation of an obligated person, any of which reflect financial difficulties.

SECTION 6. Format; Identifying Information. All documents provided to the MSRB pursuant to this Disclosure Certificate shall be in the format prescribed by the MSRB and accompanied by identifying information as prescribed by the MSRB.

As of the date of this Disclosure Certificate, all documents submitted to the MSRB must be in portable document format (PDF) files configured to permit documents to be saved, viewed, printed and retransmitted by electronic means. In addition, such PDF files must be word-searchable, provided that diagrams, images and other non-textual elements are not required to be word-searchable.

SECTION 7. Termination of Reporting Obligation. The Issuer's obligations under this Disclosure Certificate shall terminate upon the earliest of: (i) the date of legal defeasance, prior redemption or payment in full of all of the Bonds; (ii) the date that the Issuer shall no longer constitute an "obligated person" within the meaning of the Rule; or (iii) the date on which those portions of the Rule which require this written undertaking are held to be invalid by a court of competent jurisdiction in a non-appealable action, have been repealed retroactively or otherwise do not apply to the Bonds.

SECTION 8. Dissemination Agent. The Issuer may, from time to time, appoint or engage a Dissemination Agent to assist the Issuer in carrying out its obligations under this Disclosure Certificate, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent.

SECTION 9. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and may waive any provision of this Disclosure Certificate, without the consent of the holders and beneficial owners of the Bonds, if such amendment or waiver does not, in and of itself, cause the undertakings herein (or action of any Participating Underwriter in reliance on the undertakings herein) to violate the Rule, but taking into account any subsequent change in or official interpretation of the Rule. The Issuer will provide notice of such amendment or waiver to the MSRB.

SECTION 10. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Annual Report or notice of occurrence of a Material Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any Annual Report or notice of occurrence of a Material Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future Annual Report or notice of occurrence of a Material Event.

SECTION 11. Default. In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate, any holder or beneficial owner of the Bonds may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Issuer to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an event of default under the Bond Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

SECTION 12. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating Underwriter, and the holders and beneficial owners from time to time of the Bonds, and shall create no rights in any other person or entity.

APPENDIX D

FORM OF APPROVING OPINION OF BOND COUNSEL

[Closing Date]

Washoe County School District, Nevada
425 East Ninth Street
Reno, Nevada 89512

$_____
Washoe County School District, Nevada
General Obligation (Limited Tax) School Improvement Bonds
Series 2026C

Ladies and Gentlemen:

We have acted as bond counsel to the Washoe County School District (the "District"), Nevada (the "State"), in connection with the issuance of its General Obligation (Limited Tax) School Improvement Bonds, Series 2026C, in the aggregate principal amount of $_____ (the "Bonds") pursuant to an authorizing resolution of the Board of Trustees of the District adopted and approved on October 13, 2026 (the "Bond Resolution"). In such capacity, we have examined the District's certified proceedings and such other documents and such law of the State and of the United States of America as we have deemed necessary to render this opinion letter. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Bond Resolution.

Regarding questions of fact material to our opinions, we have relied upon the District's certified proceedings and other representations and certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based upon such examination, it is our opinion as bond counsel that:

1. The Bonds constitute valid and binding limited tax general obligations of the District.

2. All of the taxable property in the District is subject to the levy of annual general (ad valorem) taxes to pay the Bonds, subject to the limitations imposed by the Constitution and laws of the State.

3. As provided in the Bond Resolution and in accordance with the provisions of NRS 361.463, taxes levied for the payment of the bonded indebtedness (including the Bonds) of all overlapping units within the boundaries of the District (i.e., the State, District, and any other political subdivision in the District) and for the payment of interest on such indebtedness enjoy a priority over taxes levied by each such unit (including, without limitation, the State and the District) for all other purposes (subject to any exception implied by law in the exercise of the police power) where reduction is necessary in order to comply with NRS 361.453.

4. Interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date

hereof (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code; however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. The opinions expressed in this paragraph assume continuous compliance with the covenants and continued accuracy of the representations contained in the District's certified proceedings and in certain other documents and certain other certifications furnished to us.

5. Under the laws of the State in effect on the date hereof, the Bonds, their transfer, and the income therefrom are free and exempt from taxation by the State or any subdivision thereof, except for the tax on estates imposed pursuant to Chapter 375A of NRS and the tax on generation skipping transfers imposed pursuant to Chapter 375B of NRS.

The opinions expressed in this opinion letter are subject to the following:

The obligations of the District pursuant to the Bonds and the Bond Resolution may be limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights generally, and by equitable principles, whether considered at law or in equity.

In this opinion letter rendered in our capacity as bond counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy or completeness of the Official Statement or any other statements made in connection with any offer or sale of the Bonds or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Bonds, except those specifically addressed herein.

This opinion letter is rendered as of the date hereof and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in laws that may hereafter occur.

Respectfully submitted,

APPENDIX E

OFFICIAL NOTICE OF BOND SALE

**$164,000,000*
WASHOE COUNTY SCHOOL DISTRICT, NEVADA
GENERAL OBLIGATION (LIMITED TAX)
SCHOOL IMPROVEMENT BONDS
SERIES 2026C**

PUBLIC NOTICE IS HEREBY GIVEN that the Board of Trustees of the Washoe County School District, in the State of Nevada (the "Board", the "District", and the "State", respectively), on

Wednesday, December 2, 2026

at the hour of 8:30 a.m., Pacific Standard Time in the

**Office of the Chief Financial Officer
District Administration Building
425 E. 9th Street
Reno, Nevada**

will publicly open and receive bids electronically via PARITY, a division of i-Deal LLC ("PARITY") (no bids will be received by mail) for the purchase of the above-referenced bonds of the District, particularly described below. **Bids must be submitted electronically via PARITY, and must be received on or before 8:30 a.m., Pacific Standard Time, on such day of sale, or at such other time, date or place as designated via PARITY before the date of sale.**

BOND PROVISIONS

ISSUE: The Washoe County School District, Nevada, General Obligation (Limited Tax) School Improvement Bonds, Series 2026C (the "Bonds"), in the aggregate principal amount of $164,000,000*, will be dated as of the date of delivery of the Bonds. The Bonds will be issued by means of a book entry system with no physical distribution of bond certificates to the public. See "BOOK ENTRY TRANSFER AND EXCHANGE" below. The Bonds will be in book entry form.

MATURITIES: The Bonds will mature on the dates and in the amounts designated in the maturity schedule set forth in the preliminary official statement dated November 20, 2026 (the "Preliminary Official Statement") relating to the Bonds or as amended in the maturity schedule available from JNA Consulting Group, LLC the District's Municipal Advisor, and published on PARITY prior to the bid opening for the Bonds (the "Maturity Schedule"), subject to adjustment as provided below in "ADJUSTMENT OF MATURITIES AFTER DETERMINATION OF BEST BID.

* Preliminary, subject to change.

ADJUSTMENT OF MATURITIES AFTER DETERMINATION OF BEST BID: The aggregate principal amount and the principal amount of each maturity of the Bonds are subject to adjustment by the District, after the determination of the best bid. Changes to be made will be communicated to the successful bidder by time of written award of the Bonds, and will not reduce or increase the aggregate principal amount of the Bonds or the amount of the Bonds maturing in any year by more than five percent or $500,000, whichever is greater, from the amounts shown in the Maturity Schedule. The price bid (*i.e.*, par less the discount bid or plus the premium bid) by a successful bidder may be changed as described below, but the interest rates specified by the successful bidder for all maturities will not change. A successful bidder may not withdraw its bid as a result of any changes made within these limits. The price bid will be changed so that the percentage net compensation to the successful bidder (*i.e.*, the percentage resulting from dividing (i) the aggregate difference between the offering price of the Bonds to the public and the price to be paid to the District (excluding accrued interest), less any bond insurance premium to be paid by the bidder, by (ii) the principal amount of the Bonds) does not increase or decrease from what it would have been if no adjustment was made to the principal amounts shown in the Maturity Schedule.

To facilitate any adjustment in the principal amounts and price bid, the successful bidder is required to indicate by email to the Municipal Advisor on behalf of the District, to marty@jnaconsultinggroup.com no later than one-half hour after the bid opening, the amount of any original issue discount or premium on each maturity of the Bonds, the amount received from the sale of the Bonds to the public that will be retained by the successful bidder as its compensation, and in the case of a bid submitted with bond insurance, the cost of the insurance premium. A bidder who intends to insure the Bonds shall also state, in that facsimile transmission, whether the amount of the insurance premium will change as a result of changes in the principal amount of the Bonds or the amount of principal maturing in any year, and the method used to calculate any such change in the insurance premium.

OPTIONAL PRIOR REDEMPTION: The Bonds, or portions thereof ($5,000 or any integral multiple), maturing on and after June 1, 2037 shall be subject to redemption prior to their respective maturities, at the option of the District as directed by the Chief Financial Officer, on and after June 1, 2036, in whole or in part at any time, from any maturities selected by the District and by lot within a maturity (giving proportionate weight to Bonds in denominations larger than $5,000), at a price equal to the principal amount of each Bond, or portion thereof, so redeemed, plus accrued interest thereon to the redemption date.

MANDATORY SINKING FUND REDEMPTION: A bidder may request that one or more Bonds maturing on and after June 1, 2037, be included in one or more term bonds ("Term Bonds"). Amounts included in a single Term Bond must consist of consecutive maturities of Bonds, must bear the same rate of interest and must include the entire principal amount between a serial maturity and a mandatory sinking fund redemption. Any such Term Bond will be subject to mandatory sinking fund redemption in installments in the same amounts and on the same dates as the Bonds would have matured if they were not included in a Term Bond. Bonds redeemed pursuant to the mandatory sinking fund redemption provisions will be redeemed at a redemption price equal to the principal amount of the Bonds to be redeemed plus accrued interest to the redemption date in the manner and as otherwise provided in the 2026 Bond Resolution (as defined below). Any election to designate Bonds as being included in a Term Bond must be made electronically (see "BID PROPOSALS" below).

INTEREST RATES AND LIMITATIONS: The following interest limitations are applicable:

A. Interest on the Bonds will be payable on June 1 and December 1, in each year, commencing on June 1, 2027.

B. In addition, the interest rate on any Bond and the True Interest Cost for the Bonds (see "BASIS OF AWARD", below) may not exceed, by more than 3% the "Index of Twenty Bonds" most recently published in The Bond Buyer before the bids are received.

C. Each interest rate specified must be stated in a multiple of 1/8th or 1/20th of 1% per annum.

D. Only one interest rate can be stated for any maturity, i.e, all of the Bonds with the same maturity date must bear the same rate of interest.

E. Each Bond as initially issued will bear interest from its date to its stated maturity date at the interest rate stated in the bid. A zero rate of interest may not be named.

It is permissible to bid different interest rates for the Bonds, but only as stated in the bid and subject to the above limitations. If any Bond is not paid upon presentation at maturity, it will draw interest at the same rate until principal is paid in full.

PREMIUM ALLOWED: A bidder may offer to purchase the Bonds at par, or at a premium. A bidder may not offer to purchase the Bonds at a net discount.

PAYMENT: The principal of the Bonds, shall be payable at the office of Zions Bancorporation, National Association, as Paying Agent, or such other office as designated by the Paying Agent to the registered owner thereof (*i.e.*, Cede & Co.) as shown on the registration records of Zions Bancorporation, National Association, as Registrar, upon maturity thereof (or earlier prior redemption) and upon presentation and surrender of such Bonds at the office of such Paying Agent. Payment of interest on any Bond shall be made to the registered owner thereof (*i.e.*, Cede & Co.) by check or draft mailed by the Paying Agent, on each interest payment date (or, if such interest payment date is not a business day, on the next succeeding business day), to the registered owner thereof at his or her address as it appears on the registration records of the Registrar for such Bonds as of the close of business on the fifteenth day of the calendar month preceding such interest payment date (or by such other arrangement as may be mutually agreed to by the Paying Agent and The Depository Trust Company). All such payments shall be made in lawful money of the United States of America.

BOND INSURANCE/RATING LETTERS: Payment of the principal of and interest on the Bonds when due may be insured by a municipal bond insurance policy at bidder's option and expense. The District will pay for ratings on the Bonds from Moody's Investors Service and S&P Global Ratings.

BOOK ENTRY/TRANSFER AND EXCHANGE: The Bonds will be issued as fully registered book entry bonds, in the denomination of $5,000 or any integral multiple thereof.

The Bonds will be issued in registered form and bond certificates for each maturity of Bonds will be issued to The Depository Trust Company, New York, New York ("DTC"), registered in the name of its nominee, Cede & Co., and immobilized in its custody, with transfers of ownership effected on the records of DTC and its participants pursuant to rules and procedures adopted by DTC and its participants. Principal of and interest on the Bonds will be payable by the Paying Agent by wire transfer or in same day funds to DTC or its nominee as registered owner of the Bonds. Transfer of principal and interest payments to participants of DTC will be the responsibility of DTC. Transfer of principal and interest payments to the beneficial owners by participants of DTC will be the responsibility of such participants and other nominees of beneficial owners. Neither the District nor the Paying Agent will be responsible or liable for payments by DTC to its participants or by DTC participants to beneficial owners or for maintaining, supervising or reviewing the records maintained by DTC, its participants or persons acting through such participants.

BOND RESOLUTION: The resolution authorizing the issuance of the Bonds (the "2026 Bond Resolution") was adopted by the Board of Trustees of the District on October 13, 2026. The 2026 Bond Resolution sets forth, among other matters, the form, terms and conditions of the Bonds, the manner and terms of their issuance, the manner of their execution, the method of their payment, the security therefor, and other details concerning the Bonds, the use of Bond proceeds, and the District, including, without limitation, covenants and agreements in connection therewith. Copies of the 2026 Bond Resolution are available for inspection at the office of the Chief Financial Officer and at the office of the District's Municipal Advisor at the addresses listed under "INFORMATION", below.

AUTHORIZATION OF BONDS: The Bonds are authorized to be issued pursuant to Chapters 350 and 387 of Nevada Revised Statutes ("NRS") and an election held in the District on November 5, 2002.

SECURITY FOR THE BONDS: The Bonds, in the opinion, of Taft Stettinius & Hollister LLP ("Bond Counsel") will be direct general obligations of the District, payable as to all principal, interest and any prior redemption premium from general (ad valorem) taxes (herein "General Taxes") levied against all taxable property within the District except to the extent that other revenues are made available therefor, subject to the limitations imposed by the statutes and Constitution of the State (see "Constitutional Tax Limitations" and "Statutory Tax Limitation" below). The Bonds will be a debt of the District, and the District shall thereby pledge its full faith and credit for their payment.

ISSUANCE OF ADDITIONAL SECURITIES: The District reserves the privilege of issuing additional general obligation bonds hereafter authorized at any time or from time to time for any lawful purpose, as permitted by law. Subject to Board approval and upon issuance of the Bonds, the District will have $344,000,000* in remaining authorization from the Washoe County Debt Management Commission to issue bonds pursuant to NRS 350.020(4). Subject to Board approval, the District also has remaining authorization from the Washoe County Debt Management Commission to issue $201,980,000 of general obligation bonds additionally secured by a 0.54% sales and use tax.

* Preliminary; subject to change.

FEDERAL TAX MATTERS: In the opinion of Bond Counsel, assuming continuous compliance with certain covenants described below, interest on the Bonds is excluded from gross income under present federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the Bonds (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code**;** however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code, as described in the Preliminary Official Statement.

STATE TAX EXEMPTION: In the opinion of Bond Counsel, under present laws of the State, the Bonds, their transfer, and the income therefrom are free and exempt from taxation by the State or any subdivision thereof except for the tax on estates imposed pursuant to chapter 375A of NRS and the tax on generation skipping transfers imposed pursuant to chapter 375B of NRS.

CONSTITUTIONAL TAX LIMITATION: Section 2, article 10, State Constitution, provides:

> "The total tax levy for all public purposes including levies for bonds, within the state, or any subdivision thereof, shall not exceed five cents on one dollar of assessed valuation."

STATUTORY TAX LIMITATION: NRS 361.453 provides:

> " . . . the total ad valorem tax levy for all public purposes must not exceed $3.64 on each $100 of assessed valuation, or a lesser or greater amount fixed by the State Board of Examiners if the State Board of Examiners is directed by law to fix a lesser or greater amount for that fiscal year."

STATUTORY PRIORITY FOR THE BONDS: NRS 361.463:

> "1. In any year in which the total taxes levied by all overlapping units within the boundaries of the state exceed the limitation imposed by NRS 361.453, and it becomes necessary for that reason to reduce the levies made by any of those units, the reduction so made must be in taxes levied by those units (including the state) for purposes other than the payment of bonded indebtedness, including interest thereon.
>
> 2. The taxes levied for the payment of bonded indebtedness and the interest thereon enjoy a priority over taxes levied by each such unit (including the state) for all other purposes where reduction is necessary to comply with the limitation imposed by NRS 361.453."

STATUTORY PROVISIONS FOR TAX LEVIES: NRS 350.592 provides in relevant part:

> "1. There must be levied annually in due season a special tax on all property, both real and personal, subject to taxation within the boundaries of the municipality, fully sufficient together with the revenue which will result from application of the rate to the net proceeds of minerals, without regard to any statutory or charter tax limitation, other than the limitation set forth in NRS 361.453, to pay the interest on the general obligation municipal securities and to pay and retire the securities as provided in the Local Government Securities Law and in any act supplemental hereto. The amount of money to be raised by the tax must be included in the annual estimate or budget for each county within the state for each year for which the tax is hereby required to be levied. The tax must be levied and collected in the same manner and at the same time as other taxes are levied and collected.
>
> 2. The proceeds thereof levied to pay interest on the securities must be kept by the treasurer in a special fund, separate and apart from all other funds, and the proceeds of the tax levied to pay the principal of the securities must be kept by the treasurer in a special fund, separate and apart from all other funds. The two special funds must be used for no other purpose than the payment of the interest on the securities and the principal thereof, respectively, when due; . . . ."

TIMES OF LEVIES: NRS 350.594 provides:

> "Such tax shall be levied immediately after the issuance of any general obligation securities issued in accordance with the provisions of the Local Government Securities Law, and annually thereafter, at the times and in the manner provided by law, until all of the securities, and the interest thereon, have been fully discharged. Such tax may be first levied after the municipality has contracted to sell any securities but before their issuance."

USE OF GENERAL FUND: NRS 350.596 provides:

> "Any sums coming due on any general obligations municipal securities at any time when there are not on hand from such tax levy or levies sufficient funds to pay the same shall be promptly paid when due from the general fund of the municipality, reimbursement to be made to such general fund in the sums thus advanced when the taxes herein provided for have been collected."

USE OF OTHER FUNDS: NRS 350.598 provides:

"Nothing contained in the Local Government Securities Law shall be so construed as to prevent the municipality from applying any funds (other than taxes) that may be available for that purpose to the payment of the interest on or the principal of any general obligation municipal securities as the same respectively mature, and regardless of whether the payment of the general obligation municipal securities is additionally secured by a pledge of revenues, and upon such payments, the levy or levies of taxes provided in the Local Government Securities Law may thereupon to that extent be diminished."

STATUTORY APPROPRIATIONS: NRS 350.602 provides:

"There is by the Local Government Securities Law, and there shall be by ordinance authorizing the issuance of any indebtedness contracted in accordance with the provisions of the Local Government Securities Law, specially appropriated the proceeds of such taxes to the payment of such principal and interest; and such appropriations shall not be repealed nor the taxes postponed or diminished (except as herein otherwise expressly provided) until the principal of and interest on the municipal securities evidencing such debt have been wholly paid."

NO PLEDGE OF PROPERTY: The payment of the Bonds is not secured by an encumbrance, mortgage or other pledge of property of the District.

IMMUNITY OF INDIVIDUALS: NRS 350.606 provides:

"No recourse shall be had for the payment of the principal of, any interest on, and any prior redemption premiums due in connection with any bonds or other municipal securities or for any claim based thereon or otherwise upon the ordinance authorizing their issuance or other instrument appertaining thereto, against any individual member of the governing body or any officer or other agent of the municipality, past, present or future, either directly or indirectly through the governing body or the municipality, or otherwise, whether by virtue of any constitution, statute or rule of law, or by the enforcement of any penalty or otherwise, all such liability, if any, being by the acceptance of the securities and as a part of the consideration of their issuance specially waived and released."

ACTS IRREPEALABLE: NRS 350.610 provides:

"The faith of the state is hereby pledged that the Local Government Securities Law, any law supplemental or otherwise appertaining thereto, and any other act concerning the bonds or other municipal securities, taxes or the pledged revenues or any combination of such securities, such taxes and such revenues shall

not be repealed nor amended or otherwise directly or indirectly modified in such a manner as to impair adversely any outstanding municipal securities, until all such securities have been discharged in full or provision for their payment and redemption has been fully made, including without limitation the known minimum yield from the investment or reinvestment of moneys pledged therefor in federal securities."

TERMS OF SALE

BID PROPOSALS: Bids are required to be submitted electronically as described below. Any bidder is required to submit an unconditional and written bid for all of the Bonds specifying:

(1) The lowest rate or rates of interest at which the bidder will purchase all of the Bonds;

(2) If applicable, the premium at which the bidder will purchase the Bonds; and

(3) Whether the bidder intends to designate term bonds (with respect to the Bonds described above under "*Mandatory Sinking Fund Redemption*") and the maturities affected thereby.

It is also requested for informational purposes only, but it is not required, that each bid disclose:

(4) The "true interest cost" (i.e., actuarial yield) on the Bonds stated as a nominal annual percentage rate. See the caption "--Basis of Award" below.

Solely as an accommodation to the bidders, the District will receive bids delivered electronically through PARITY. Each bidder submitting an electronic bid is solely responsible for all arrangements with PARITY.

By utilizing PARITY, a prospective bidder represents and warrants to the District that such bidder's bid for the purchase of the Bonds (if a bid is submitted in connection with the sale) is submitted for and on behalf of such prospective bidder by an officer or agent who is duly authorized to bind the prospective bidder to a legal, valid and enforceable contract for the purchase of the Bonds. Bids must be submitted electronically for the purchase of the Bonds by means of PARITY by 8:30 a.m. Pacific Standard Time on December 2, 2026. Prior to that time, an eligible prospective bidder may (1) input the proposed terms of its bid on PARITY, (2) modify the proposed terms of its bid, in which event the proposed terms as last modified will (unless the bid is withdrawn as described herein) constitute its bid for the Bonds, (3) send its proposed bid, or (4) withdraw its proposed bid. Once the bids are communicated electronically via PARITY, each bid will constitute an irrevocable offer to purchase the Bonds on the terms therein provided.

Each prospective bidder shall be solely responsible to register to bid via PARITY as described above. Each prospective bidder shall be solely responsible to make necessary arrangements to access PARITY for purposes of submitting its bid in a timely manner and in compliance with the requirements of this Official Notice of Bond Sale. Neither the District nor

the Municipal Advisor shall have any duty or be obligated to provide or assure such access to any prospective bidder, and neither the District nor the Municipal Advisor shall be responsible for proper operation of, or have any liability for any delays or interruptions of, or any damages caused by PARITY. The District is not responsible for, and each bidder expressly assumes the risk of and responsibility for, any incomplete, inaccurate or untimely bid submitted by such bidder and is not liable for any damages caused by PARITY. Bidders must obtain instructions for submitting electronic bids from PARITY. The District is using PARITY as a communication mechanism, and not as the District's agent, to conduct the electronic bidding for the Bonds.

Each bidder is required to transmit electronically via PARITY an unconditional bid specifying the lowest rate or rates of interest and the premium, or discount, as applicable, at which the bidder will purchase the Bonds. Each bid must be for all of the Bonds. If any provision in this Official Notice of Bond Sale conflicts with information or terms provided or represented by PARITY, the Official Notice of Bond Sale, including any amendments issued by public wire shall control.

For informational purposes only, the electronic bid will show the effective interest rate for the Bonds represented on a TIC basis, as described under "BASIS OF AWARD" below, represented by the rate or rates of interest and the bid price specified in the bid. No bid will be received after the time for receiving such bids specified above.

GOOD FAITH DEPOSIT: Except as otherwise provided below, a good faith deposit ("Deposit") in the form of a certified or cashier's check drawn on a solvent commercial bank or trust company in the United States of America, made payable to

Washoe County School District, Nevada

in the amount of

$1,640,000

must accompany each bid for the Bonds. **If the apparent successful bidder on the Bonds is determined to be a bidder who has not submitted a Deposit in the form of a check, as provided above, the Municipal Advisor will request the apparent successful bidder for the Bonds to immediately wire the Deposit and provide the Federal wire reference number of such Deposit to the Municipal Advisor within 90 minutes of such request by the Municipal Advisor.** The Bonds will not be officially awarded to a bidder who has not submitted a Deposit, as provided above, until such time as the bidder has provided a Federal wire reference number for the Deposit to the Municipal Advisor.

No interest on the Deposit will accrue to any bidder, except as otherwise provided under "MANNER AND TIME OF DELIVERY", below. The Deposit of the successful bidder will be applied to the purchase price of the Bonds. In the event the successful bidder fails to honor its accepted bid, the Deposit plus any interest accrued on the Deposit will be retained by the District. Deposits accompanying bids other than the bid which is accepted will be returned promptly upon the determination of the best bidder.

CUSIP NUMBERS: It is anticipated that CUSIP identification numbers will be printed on each maturity of the Bonds, but neither the failure to print such number on any Bond nor any error with respect thereto shall constitute cause for a failure or refusal by the purchaser to

accept delivery of and pay for the Bonds in accordance with the terms of the purchase contract. All expenses relating to printing the CUSIP numbers on the Bonds and the CUSIP Global Services charge for the assignment of the numbers will be the responsibility of and must be paid by the purchaser.

METHOD OF EXERCISING BIDDER'S OPTIONS: Any option granted a bidder may be exercised only as expressly provided herein.

SALES RESERVATIONS: The District reserves the privilege:

A. Of waiving any irregularity or informality in any bid;

B. Of rejecting any and all bids; and

C. Of reoffering any Bonds for public sale or private sale as provided by law.

The District reserves the privilege of changing the sale date and/or sale time of the Bonds. Any change in the time and/or date of any Bond sale will be announced via PARITY before the time of the sale.

BASIS OF AWARD: The Bonds, subject to such sale reservations, will be sold by the District to the responsible bidder making the best bid for all the Bonds. The best bid will be determined by computing the True Interest Cost on the Bonds (i.e, using an actuarial or TIC method) for each bid received and an award will be made (if any is made) to the responsible bidder submitting the bid which results in the lowest true interest cost for the Bonds. "True Interest Cost" on the Bonds as used herein means that yield which if used to compute the present worth of all payments of principal and interest to be made on the Bonds from the date of delivery of the Bonds to their respective maturity dates (or any mandatory sinking fund redemption dates), produces an amount equal to the principal amount of the Bonds as set forth in the Maturity Schedule plus any premium or less any discount bid (i.e., net original issue premium or discount, as applicable, less the underwriter's discount). No adjustment shall be made in such calculation for accrued interest on the Bonds from their date to the date of delivery thereof. Such calculation shall be based on a 360 day year and a semiannual compounding interval. If there are two or more equal bids for the Bonds and such equal bids are the best bids received, the District's Chief Financial Officer will determine which bid will be accepted, if any.

PLACE AND TIME OF AWARD: The District's Chief Financial Officer or his designee, will open bids on behalf of the District at the time and place stated. The Chief Financial Officer (or the Superintendent of the District) will take action awarding the Bonds or rejecting all bids not later than 36 hours after the time stated for opening bids. A bidder may not withdraw its bid during such 36-hour period. An award may be made after the stated period if the bidder shall not have given to the District Chief Financial Officer notice in writing of the withdrawal of its bid. **By submitting a bid for the Bonds, each bidder certifies it has an established industry reputation for underwriting new issuance of municipal bonds.**

MANNER AND TIME OF DELIVERY: The Deposit will be credited to the purchaser at the time of delivery of the Bonds (without accruing interest). If the successful bidder for the Bonds fails, neglects, or refuses to complete the purchase of the Bonds on the date on which

the Bonds are made ready and are tendered by the District for delivery, the amount of its Deposit will be forfeited (as liquidated damages for noncompliance with the bid) to the District. In that event, the District may reoffer the Bonds for sale, as provided by law. The Bonds will be made available for delivery by the District to the purchaser as soon as reasonably possible after the date of the sale, and the District contemplates delivering the Bonds on or about December 21, 2026. The purchaser of the Bonds will be given 72 hours' notice of the time fixed by the Board for tendering the Bonds for delivery.

PAYMENT AT AND PLACE OF DELIVERY: The successful bidder will be required to accept delivery of the Bonds at DTC or at the Paying Agent on behalf of DTC, pursuant to the FAST System. Payment of the balance of the purchase price due for the Bonds at the time of their delivery must be made in Federal Reserve Bank funds or other funds acceptable to the District for immediate and unconditional credit to the account of the District, at a bank designated by the Chief Financial Officer, so that such Bond proceeds may be deposited or invested, as the District may determine, simultaneously with the delivery of the Bonds. The balance of the purchase price of the Bonds must be paid in such funds and not by any waiver of interest, and not by any other concession as a substitution for such funds.

INFORMATION: This Official Notice of Bond Sale, the Preliminary Official Statement, and financial and other information concerning the District and the Bonds may be obtained prior to the sale from the District Chief Financial Officer:

Mark D. Mathers
Chief Financial Officer
Washoe County School District
425 E. 9th Street
Reno, Nevada 89512
(775) 348-0312

or

the District's Municipal Advisor:

JNA Consulting Group, LLC
410 Nevada Way, Suite 200
Boulder City, Nevada 89005
(702) 294-5100
marty@jnaconsultinggroup.com

LEGAL OPINION, BONDS AND TRANSCRIPT: The validity and enforceability of the Bonds will be approved by:

Taft Stettinius & Hollister LLP
50 W. Liberty Street, Suite 1000
Reno, Nevada 89501
(775) 323-1980

whose final, approving opinion, together with the Bonds, a certified transcript of the legal proceedings, including a certificate stating that there is no litigation pending affecting the validity

of the Bonds as of the date of their delivery (the "Closing Date"), and other closing documents, will be furnished to the purchaser of the Bonds without charge by the District.

DISTRICT REPRESENTED BY INDEPENDENT REGISTERED MUNICIPAL ADVISOR: The District has engaged, is represented by and will rely on the advice of the Municipal Advisor, an independent registered municipal advisor, to advise it on the issuance of the Bonds and other aspects of the financing for which the Bonds are being issued. The District intends that (i) this statement constitutes the "required representation" for purposes of the independent registered municipal advisor exemption set forth in SEC Rule 15Ba1-1(d)(3) and (ii) prospective bidders and other market participants may rely on this written statement and receive and use it for purposes of that exemption.

FORM OF APPROVING OPINION: Bond counsel's final approving opinion for the Bonds will recite in conventional form that the designated law firm has examined the constitution and laws of the State and a certified copy of the record of the proceedings taken preliminary to and in the issue of the Bonds. The form of such approving opinion is set forth in Appendix D of the Preliminary Official Statement.

OFFICIAL STATEMENT: The District has prepared the Preliminary Official Statement which is deemed by the District to be final as of its date for purposes of allowing bidders to comply with Rule 15c2-12(b)(1) of the Securities Exchange Commission ("the Rule"), except for the omission of certain information as permitted by the Rule. The Preliminary Official Statement is subject to revision, amendment and completion in a "Final Official Statement".

The District will prepare a Final Official Statement, dated as of the date of its delivery to the successful bidder as soon as practicable after the date of award to the successful bidder. The District will electronically provide to the successful bidder of the Bonds copies of the Final Official Statement on or before seven business days following the date of the award to the successful bidder. The successful bidder may obtain printed copies of the Final Official Statement at the expense of the successful bidder.

The District authorizes the successful bidder to distribute the Final Official Statement in connection with the offering of the Bonds.

For a period beginning on the date of the Final Official Statement and ending twenty-five days following the date a successful bidder shall no longer hold for sale any of the Bonds (which date shall be the Closing Date unless the purchaser notifies the District in writing otherwise), if any event concerning the affairs, properties or financial condition of the District shall occur as a result of which it is necessary to supplement the Final Official Statement in order to make the statements therein, in light of the circumstances existing at such time, not misleading, at the request of the successful bidder, the District shall forthwith notify the successful bidder of any such event of which it has knowledge and shall cooperate fully in the preparation and furnishing of any supplement to the Final Official Statement necessary, in the reasonable opinion of the District and the successful bidder, so that the statements therein as so supplemented will not be misleading in the light of the circumstances existing at such time.

CONTINUING DISCLOSURE UNDERTAKING: Pursuant to the Rule, the District will undertake in a continuing disclosure certificate which is authorized in the 2026 Bond Resolution to provide certain ongoing disclosure, including annual operating data and financial

information, audited financial statements and notices of the occurrences of certain material events. A description of the undertaking is set forth in the Preliminary Official Statement, and a copy of such certificate in substantially the form that will be executed by the Chief Financial Officer as of the Closing Date is set forth in Appendix C of the Preliminary Official Statement.

DISCLOSURE CERTIFICATES: The closing certificates for the Bonds included in the transcript of legal proceedings will include:

1. A certificate, dated as of the Closing Date, and signed by the President and Clerk of the Board, the Chief Financial Officer of the District and the Attorney for the District in which each of them states, after reasonable investigation, that to the best of his or her knowledge (a) no action, suit, proceeding, inquiry, or investigation, at law or in equity, before or by any court, public board, or body, is pending, or, to the best of the knowledge of each of them, threatened, in any way contesting the completeness or accuracy of the Final Official Statement, (b) the Final Official Statement as it pertains to the District and the Bonds (except as to information therein concerning price and yield of the Bonds, and information therein relating to the book-entry system for the Bonds, as to all of which no representations will be made) does not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading; and (c) no event affecting the District has occurred since the date of the Final Official Statement which should be disclosed therein for the purpose for which it is to be used or which it is necessary to disclose therein in order to make the statements and information therein not misleading in any respect; provided, however, that the District does not make any representation concerning the pricing information contained in the Final Official Statement; and

2. A certificate, dated as of the Closing Date, and signed by the District's Chief Financial Officer stating after reasonable investigation, that to the best of such officer's knowledge, as of the date of the Final Official Statement and on the date of such certificate, the information contained in the Final Official Statement relating to revenues and expenditures of the District is true and correct and does not contain any untrue statement of a material fact or omit any information necessary to be included therein in order that the Final Official Statement be not misleading for the purposes for which it is to be used.

CONSENT TO JURISDICTION: A bid submitted by electronic bidding, if accepted by the Chief Financial Officer or Superintendent on behalf of the District, forms a contract between the successful bidder and the District subject to the terms of this Official Notice of Bond Sale. By submitting a bid, the bidder consents to the exclusive jurisdiction of any court of the State of Nevada located in Washoe County or the United States District Court for the State of Nevada for the purpose of any suit, action or other proceeding arising as a result of the submittal of the bid, and the bidder irrevocably agrees that all claims in respect to any such suit, action or proceeding may be heard and determined by such court. The bidder further agrees that service of process in any such action commenced in such State or Federal court shall be effective on such bidder by deposit of the same as registered mail addressed to the bidder at the address set forth in the bid.

REOFFERING PRICES: The successful bidder (or manager of the purchasing account) shall notify the District Chief Financial Officer of the District and the Municipal Advisor by electronic transmission to marty@jnaconsultinggroup.com within one-half hour of the bid opening, of the initial offering prices of the Bonds to the public. The notification must be

confirmed in writing in the form and substance satisfactory to Bond Counsel prior to the delivery of the Bonds. The confirmation will be part of the "Purchaser's Certificate" which will be in substantially the same form as Exhibit A in the event the District receives 3 or more bids that conform to the requirements of this Official Notice of Sale for the Bonds; or in substantially the same form as Exhibit B in the event the District does not receive 3 or more such bids for the Bonds.

By order of the Board of Trustees of the Washoe County School District, Nevada, this November 20, 2026.

WASHOE COUNTY SCHOOL DISTRICT, NEVADA

/s/ Mark D. Mathers
Chief Financial Officer

Exhibit A

Purchaser's Certificate

IT IS HEREBY CERTIFIED by the undersigned on behalf of_____ (the "Purchaser"), as representative of the underwriters for the Washoe County School District, Nevada, General Obligation (Limited Tax) School Improvement Bonds, Series 2026C (the "Bonds"):

1. We acknowledge receipt of the Bonds in the aggregate principal amount of $_____, bearing interest and maturing as provided in the Bond Resolution of the Board of Trustees of the Washoe County School District (the "Issuer") adopted and approved on October 13, 2026, and the instruments described therein, and such Bonds being in the denominations and registered in the name of Cede & Co., as nominee of The Depository Trust Company, as requested by us.

2. A bona fide public offering was made for all of the Bonds on the Sale Date at the Prices shown on the inside cover page of the Official Statement for the Bonds. Those Prices are the reasonably expected initial offering Prices of each maturity of the Bonds to the Public which were used by the Purchaser in formulating its bid to purchase the Bonds. For purposes of Paragraphs 2, 3 and 4, the following defined terms shall have the meanings assigned thereto as set forth below.

"Public" means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a Related Party. The term "Related Party" for purposes of this certificate generally means any two or more persons who have greater than 50 percent common ownership, directly or indirectly.

"Sale Date" means the date the Purchaser's bid for the Bonds was accepted on behalf of the Issuer.

"Underwriter" means (i) any person that agrees pursuant to a written contract with the Issuer (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the Public, and (ii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (i) of this paragraph to participate in the initial sale of the Bonds to the Public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the Public).

If a yield is shown on the inside cover page of the Official Statement for any maturity, "Price" herein means the dollar price that produces that yield.

3. The Purchaser was not given the opportunity to review other bids prior to submitting its bid.

4. The bid submitted by the Purchaser constituted a firm bid to purchase the Bonds.

5. The Purchaser has an established industry reputation for underwriting new issuance of municipal bonds.

6. The Issuer and its counsel may rely on these certifications in concluding that the Bonds meet certain requirements of the Internal Revenue Code of 1986 as amended (the "Code"), relating to tax-exempt bonds; however, nothing herein represents our interpretation of any law and we are not providing any interpretations of law or regulations in executing and delivering this certificate.

Exhibit B

Purchaser's Certificate

IT IS HEREBY CERTIFIED by the undersigned on behalf of_____ (the "Purchaser"), as representative of the underwriters for the Washoe County School District, Nevada, General Obligation (Limited Tax) School Improvement Bonds, Series 2026C (the "Bonds"):

1. We acknowledge receipt of the Bonds in the aggregate principal amount of $_____, bearing interest and maturing as provided in the Bond Resolution of the Board of Trustees of the Washoe County School District (the "Issuer") adopted and approved on October 13, 2026, and the instruments described therein, and such Bonds being in the denominations and registered in the name of Cede & Co., as nominee of The Depository Trust Company, as requested by us.

2. A bona fide public offering was made for all of the Bonds on the Sale Date at the Prices shown [on the inside cover page of the Official Statement for the Bonds][in Exhibit 1]. The first Price at which a Substantial Amount of each maturity of the Bonds was sold to the Public is the Price shown [on the inside cover page of the Official Statement][in Exhibit 1] for that maturity of the Bonds. For purposes of this Paragraph 2, the following defined terms shall have the meanings assigned thereto as set forth below:

"Public" means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a Related Party. The term "Related Party" for purposes of this certificate generally means any two or more persons who have greater than 50 percent common ownership, directly or indirectly.

"Sale Date" means the date the Purchaser's bid for the Bonds was accepted on behalf of the Issuer.

"Substantial Amount" is 10% or more of each maturity.

"Underwriter" means (i) any person that agrees pursuant to a written contract with the Issuer (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the Public, and (ii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (i) of this paragraph to participate in the initial sale of the Bonds to the Public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the Public).

If a yield is shown on the inside cover page of the Official Statement for any maturity, "Price" herein means the dollar price that produces that yield.

3. The Purchaser has an established industry reputation for underwriting new issuance of municipal bonds.

4. The Issuer and its counsel may rely on these certifications in concluding that the Bonds meet certain requirements of the Internal Revenue Code of 1986 as amended (the "Code"),

relating to tax-exempt bonds; however, nothing herein represents our interpretation of any law and we are not providing any interpretations of law or regulations in executing and delivering this certificate.
